**FINAL TERMS**

**PROHIBITION OF SALES TO EEA RETAIL INVESTORS:** The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "EU MiFID II"); or (ii) a customer within the meaning of Directive (EU) 2016/97, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of EU MiFID II. Consequently no key information document required by Regulation (EU) No. 1286/2014 (the "EU PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

**PROHIBITION OF SALES TO UK RETAIL INVESTORS:** The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("UK"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "EUWA"); or (ii) a customer within the meaning of the provisions of the UK Financial Services and Markets Act 2000, as amended ("FSMA") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "UK PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

**UK MiFIR product governance / Professional investors and ECPs only target market** – Solely for the purposes of each manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook, and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturers' target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

**Singapore Securities and Futures Act Product Classification** – Solely for the purposes of its obligations pursuant to sections 309B(1)(a) and 309B(1)(c) of the Securities and Futures Act (Chapter 289) of Singapore (as modified or amended from time to time, the "SFA"), JFM has determined, and hereby notifies all relevant persons (as defined in Section 309A of the SFA) that the Notes are "prescribed capital markets products" (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018).

**Japan Finance Organization for Municipalities**  
**Issue of Series 92**  
**U.S.\$750,000,000**  
**1.500 per cent. Notes due 2025**  
**under the ¥3,000,000,000,000**  
**Global Medium Term Note Programme**

**PART A – CONTRACTUAL TERMS**

Any person making or intending to make an offer of the Notes may only do so in circumstances in which no obligation arises for JFM or any Dealer to publish a prospectus pursuant to the Prospectus Regulation (EU) 2017/1129 (the "EU Prospectus Regulation") or the Prospectus Regulation (EU) 2017/1129 (as it forms part of

domestic law in the United Kingdom by virtue of the European Union (Withdrawal) Act 2018) (the "**UK Prospectus Regulation**"), as applicable, or supplement a prospectus pursuant to the EU Prospectus Regulation or the UK Prospectus Regulation, as applicable, in each case, in relation to such offer.

Terms used herein shall be deemed to be defined as such for the purposes of the Conditions set forth in the Base Prospectus dated 6 August 2021 and the supplement to it dated 17 December 2021 (the "**Base Prospectus**"). This document constitutes the Final Terms of the Notes described herein and must be read in conjunction with the Base Prospectus. In order to get the full information on JFM and the offer of the Notes, both the Base Prospectus and this Final Terms must be read in conjunction. The Base Prospectus is available for viewing on the website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)).

## 8. USE OF PROCEEDS

(i) Use of Proceeds:	The net proceeds, or an amount equal to the net proceeds, of the issuance of the Notes will be used exclusively to finance or re-finance, in whole or in part, existing and/or future Eligible Projects (as defined below), by way of loans made by JFM to local governments, made at any time following the date falling 12 months prior to the Issue Date.  "Eligible Projects" means sewerage projects which meet the Eligibility Criteria (as defined below).
----------------------	---

**"Eligibility Criteria"** means sewerage projects, for which the purposes are, the development, construction, maintenance, update or operation of sewerage-related assets that comply with Japanese laws relating to sewerage drainage standards (including the Sewerage Act (Act No. 79 of 1958, as amended), the Water Pollution Act (Act No. 138 of 1970, as amended) and the Purification Tank Act (Act No. 43 of 1983, as amended)) (the "**Japanese Sewerage Laws**"), including sewerage management-related facilities, sewerage facilities or equipment and sewerage pipes.

(ii) Process for Project Evaluation and Selection:

Local governments in Japan that are seeking funding for sewerage-related projects from JFM begin by engaging in consultation with either the national or prefectural government (as applicable) and will formulate sewerage business plans. Such local governments will then seek consent or approval with regard to the borrowing required to conduct such sewerage business plans from the relevant government. To obtain such consent or approval a local government's business plan is required to comply with the Japanese Sewerage Laws. Following receipt of the necessary consent or approval, a local government can apply to JFM for funding; all lending by JFM to Eligible Projects must go through the consent or approval process mentioned above.

JFM has established a Green Bond Working Group, consisting of members from JFM's Corporate Planning Department, Finance Department and Loan Department including members who have experience in local government projects related to the environment, that is responsible for selecting Eligible Projects based on the Eligibility Criteria and ensuring that the allocation of the net proceeds (or an amount equal to the net proceeds) of the issuance of the Notes is in alignment with the Eligibility Criteria. JFM's Loan Department is responsible for confirming that a local government applying for funding has obtained the required consent or approval for the funding from the relevant government.

(iii) Management of Proceeds:

JFM's Green Bond Working Group will track, monitor and account for the net proceeds (or an amount equal to the net proceeds) of the issuance of the Notes. Prior to allocation of such amount to Eligible Projects, such amount will be held in JFM's liquidity portfolio, including cash and cash equivalents.

Payment of principal and interest on the Notes will be made from JFM's general funds and will not be directly linked to the performance of any Eligible Project.

(iv) Reporting:

JFM's Green Bond Working Group will conduct a survey of its local government borrowers in respect of the environmental impact of their sewerage projects which JFM finances.

Following that survey, JFM will select certain Eligible Projects with respect to which the relevant local governments have returned effective responses, to form the "**Effective Portfolio**". JFM's intension is to select an Effective Portfolio that includes loans of an aggregate principal amount equivalent to the net proceeds of the Notes. JFM's Green Bond Working Group will then report on the Effective Portfolio as set out below.

JFM intends to report annually on its website the following information until full allocation of the net proceeds (or an amount equal to the net proceeds) from the issuance of the Notes:

- (i) The amount of net proceeds (or an amount equal to the net proceeds) from the issuance of the Notes that have been allocated to Eligible Projects in the Effective Portfolio;
- (ii) A breakdown of the Effective Portfolio by project type (expected to include sewerage treatment plants, advanced treatment plants, sludge treatment plants, pump stations and pipes, as well as others);
- (iii) Certain expected or estimated key performance indicators for each Eligible Project in the Effective Portfolio (expected to include project descriptions, total project costs, population of the covered area, water management capacity and water quality impact (where relevant), absolute amount of sludge treated and disposed of (where relevant), newly constructed pipe length and/or total pipe length (where relevant), and other positive environmental impacts of new construction or update of sewerage management-related facilities, sewerage facilities or equipment and sewerage pipes);
- (iv) Case studies of certain specific Eligible Projects in the Effective Portfolio; and
- (v) The refinancing rate (as a percentage of the total amount of proceeds).

Projects which are subject of such reporting are expected to be in line with the eligible Green Project category "Sustainable water and wastewater management" and/or "Pollution prevention and control" of the green bond principles set by the International Capital Market Association.

The contents of JFM's website do not form part of these Final Terms.

## **APPENDIX ADDITIONAL INFORMATION**

### **JFM's Approach to Sustainability in Relation to Sewerage Systems in Japan**

The sewerage system in Japan is relatively well established, with a penetration rate of 92.1 per cent. as of 31 March 2021 (source: Ministry of Land, Infrastructure and Transport). With such a high penetration rate, the necessity for maintenance of sewerage pipes and treatment plants is growing. Moreover, the number of pipes aged 50 years and over is expected to grow, while more than half of the water treatment facilities are over 15 years old and demand for reconstruction is strong. In addition, Japan has been seeing a rise in natural disasters such as typhoons and earthquakes in recent years, leading to increased needs to protect and upgrade lifeline water facilities to be able to minimise the impact of such natural disasters. The Japanese Government and its municipalities are working together towards establishing a sustainable sewerage system through upgrading and protecting the system.

In a broader context, the Japanese Government has set a policy goal of achieving a recycling rate for sewage sludge of 85 per cent. by the end of March 2026 with the aim of reducing CO<sub>2</sub> emission in line with the Paris Agreement under the United Nations Framework Convention on Climate Change of 2016. Further, in accordance with the Act on Promotion of Global Warming Countermeasures (Act No. 117 of 1998, as amended) and its related policies, Japan has set a policy goal of achieving a utilisation rate of sewage sludge as energy of 30 per cent. by the end of March 2021 and 35 per cent. by the end of March 2031. The main form of energy recycling for this purpose is biomass power generation using sewerage remains, which has been promoted in accordance with the Basic Act for the Promotion of Utilization of Biomass (Act No. 52 of 2009).

In light of this, with its objective of providing local governments with long-term funding at low interest rates, JFM is funding the reconstruction and upgrade of sewerage systems through the Local Government Borrowing Programme. This programme specifies the amount and source of fundraising of sewerage business as well as other businesses. Every fiscal year over the recent years, JFM has lent more than ¥300 billion to the sewerage business in Japan.
