

# Japan Power Summit 2025

Steffen Riediger

Director Business Development Power & Global Commodity Markets

商品開発担当責任者 ステファン・リディガー

# Good news – this is the last presentation for today

ようやく今日最後のプレゼンだ！ビールが待ってるぞ！

# EEX Japan Power – New products since October 2024

前回のサミットから一年間で新規上場された新商品をご紹介します

## Extension of Seasonal Futures

(季節物の延長：4年度先まで取引可能に)

In **November 2024**, EEX extended the number of expiries for Seasonal Futures from 4 to 8, with open interest now until March 2029.

## Launch of Option contracts

(月間平均オプション：9カ月先まで取引可能)

In **February 2025**, EEX launched options with Monthly expiry for Tokyo and Kansai area. Since launch, more than 1.5 TWh have already been traded.

# EEX Japan Power – Fiscal Year Futures just launched

今月14日に東京と関西エリアの年度物を上場（6年度先まで取引可能に）

EEX launched  
Japanese Fiscal Year  
Futures in October

On **14 October 2025**, EEX launched Fiscal Year Futures for Tokyo and Kansai area.

The new contracts are tradable for the next six fiscal years ahead.

Since launch, already attracted strong interests from the trading community e.g. 280GWh traded on the first day !

**（上場初日に280GWhが約定しました！）**

# EEX Japan Power – Introduction of orderbook trading

まだ取引量全体の5%ですが4月22日からスクリーン取引も開始しました

## Orderbook trading (板取引)

Since **22 April 2025**, EEX Japan Power futures can also be traded in the central-limit orderbook of the exchange. The orderbook is available via all standard frontend vendors as well as EEX's web-based Touchpoint.

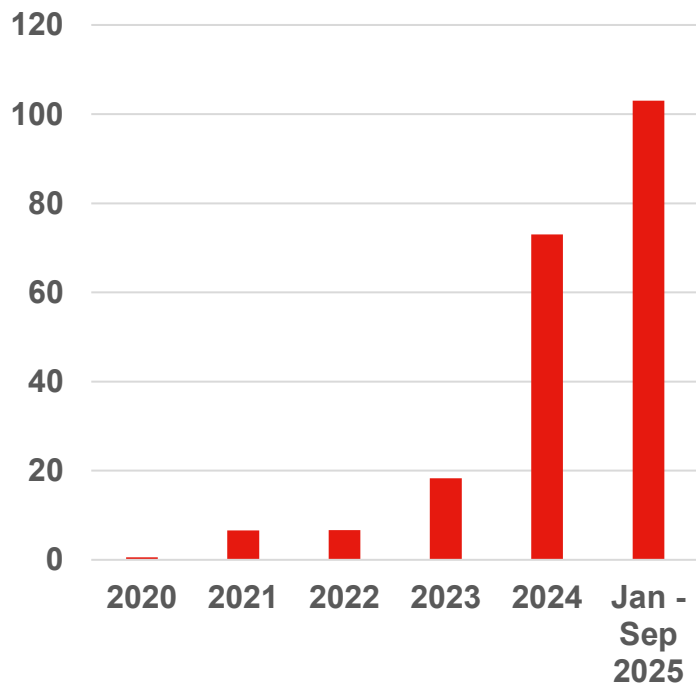

More than 95% of the transactions are still traded via brokers and afterwards registered with EEX.

# Continued growth in volumes and participation

9月末までで既に昨年1年間の取引量の40%増 年初から国内外20社超が新規参入（累計112社）

Traded volume in TWh

By end of September 2025, volumes were already up by **40%** compared to full year 2024.

More than **110 companies actively trading** by September 2025, up from 89 by end of December 2024.

The share of domestic and international participants continues to be a healthy 50/50 mix.

（日系と外資系の参加者比率は50対50で均衡）

# New products - Introduction of Chubu area contracts

12月8日から中部エリアでも先物とオプション商品を上場します

**On 8 December 2025, EEX will introduce Futures and Options contracts for Chubu area.**

**Futures:** EEX will launch Monthly / Quarterly / Seasonal / Fiscal Year contracts with Base and Peak profile. (月間・四半期・季節・年度のBLとPL)

**Options:** Same setup as for existing Tokyo and Kansai options. Base profile and up to 9 monthly expiries. Options will be settled against the average of the spot prices during the delivery month (average price options). (オプションも取引可能)

\* Subject to regulatory approval (欧州当局へ認可申請中)

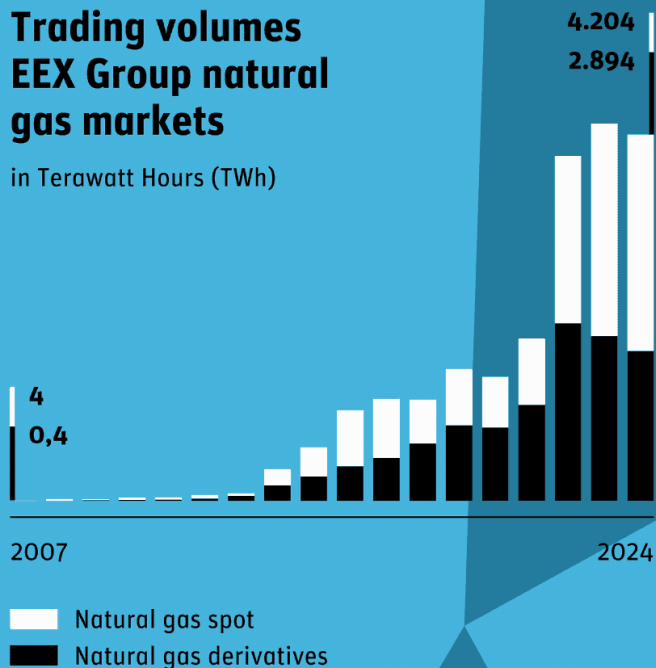

# EEX gas market – JKM / \$TTF futures for fuel hedging

EEXの欧州ガス先物の取引高も急増中 昨年日本電力と相関性の高いJKMと\$TTFも取引開始

## Trading volumes EEX Group natural gas markets

in Terawatt Hours (TWh)

EEX also offers a wide range of gas contracts, for both spot and derivatives, particularly for the Dutch TTF market.

Following demand from clients in Asia/Pacific and active in the Japanese power market, EEX has launched **JKM and USD-denominated TTF futures** in 2024.

TTF-JKM correlation hit record levels in the first half of 2025, further driving the evolution of a 'Eurasian' gas market.

# EEX Team in Japan and Singapore
