Operating Revenue

- Revenues from trading services and clearing services increased due to increases in trading of cash equities, as well as the addition of the commodity derivatives in connection with the business integration with Tokyo Commodity Exchange (TOCOM).
- Revenues from information services grew due to an increase in market data usage fees resulting from increased market data usage.
- Other operating revenues decreased due to a decline in income from service provision such as for trading systems due to the consolidation of TOCOM.

Operating Expenses

- Personnel expenses increased due to effects from the business integration with TOCOM, as well as implementation of various measures against Covid-19.
- System maintenance & operation expenses and depreciation & amortization increased due mainly to development of the Kansai backup center and upgrades to arrowhead.
- Depreciation & amortization increased due mainly to response to the product transfer from TOCOM to OSE in July 2020 as well as the start of accelerated amortization in August 2019 for the product transfer.

Q2 FY2019
(Apr. – Sep.)

*With the new accounting standard for leases under IFRS applied from FY2019, a portion of real estate-related expenses now included under depreciation is included under "Real Estate-related Expenses" in this chart.

Q2 FY2020
(Apr. – Sep.)

Highlights and FY2020 Forecast

- Operating expenses increased due mainly to increases in system-related expenses. However, this was surpassed by growth in operating revenue associated with an increase in trading of cash equities. As a result, quarterly net income increased by 10.3% year on year.
- The full-year earnings forecast and dividend forecast have been revised based on these results, etc.

*1 Net Income attributable to owners of the parent company.

*2 These values were modified on Oct. 28, 2020. Values in green (represented by dotted bars) were the initial forecasts. The forecasted dividend was also modified on Oct. 28, 2020 from JPY 48 to JPY 52 per share.

For assets and liabilities of JPX Group, "clearing business financial assets and liabilities^{*1}" assumed by JSCC as a clearing organization and "deposits from clearing participants^{*2}" deposited by clearing participants as collateral are included under both assets and liabilities. "Clearing business financial assets and liabilities^{*1}" and "deposits from clearing participants^{*2}" have a large impact on the amount of assets and liabilities of JPX Group due to their sizable amounts and daily fluctuations subject to changes in, for example, clearing participants' positions. In addition, "legal guarantee funds^{*3}", "trading participant security money^{*4}", and "default compensation reserve funds^{*5}" based on the rules for securing the safety of financial instruments transactions and commodity derivatives transactions are included both under assets and either liabilities or equity.

The figures shown in parentheses in the table below are those calculated by excluding "clearing business financial assets^{*1}", "deposits from clearing participants^{*2}", "legal guarantee funds^{*3}", and "default compensation reserve funds^{*5}" for total assets, and by excluding "default compensation reserve funds^{*6}" for total equity and total equity attributable to owners of the parent company.
