Osaka Exchange, Inc.

MKS PAMP Has Been Approved as an Approved Person in the Chain of Custody Related to the Issuance of Warehouse Receipts for Precious Metals

Today, Osaka Exchange, Inc. (OSE) has officially approved MKS PAMP as an Approved Person in the chain of custody related to the issuance of warehouse receipts for precious metals. MKS PAMP is a globally recognized leader in the precious metals industry, specializing in trading, refining, and minting high-quality gold, silver, platinum, palladium, and other platinum group metal products. The company is one of only three approved Good Delivery Referees of both the London Bullion Market Association (LBMA) and the London Platinum and Palladium Market (LPPM) worldwide.

With this approval, the number of Approved Persons in the OSE precious metals market has increased to three, two of which are overseas corporations. Approved Persons are able to conduct a wider range of transactions with greater flexibility, as they can carry out the procedures required for the issuance of warehouse receipts for physical delivery of precious metals through the Approved Broker Member.

The Approved Broker Member for precious metals is YUTAKA TRUSTY SECURITIES CO.,LTD.

Comment from James Emmett, CEO, MKS PAMP

Being recognized by OSE as one of only three Approved Persons in its precious metals market reflects the trust placed in MKS PAMP, as well as the strength of our standards and global track record. This approval reinforces our long-standing commitment to supporting Japan's precious metals ecosystem.

We look forward to bringing our international expertise and trusted products to the OSE market, supporting secure physical delivery and contributing to broader market participation.

Comment from Tagaya Akira, President & CEO of OSE

OSE is delighted to welcome MKS PAMP as an Approved Person in its precious metals market.

OSE has been working to enhance its market functions and create an attractive marketplace for a broad range of commercial users and investors, both domestic and international. As part of these

efforts, OSE revised certain requirements of its approved person framework for the precious metals market in May this year.

As well as more diversity in the market participant base, we expect the entry of MKS PAMP to contribute to enhanced market liquidity and more robust price discovery.

OSE remains committed to providing a highly reliable and convenient market.

About MKS PAMP:

MKS PAMP is a global leader in precious metals, specializing in trading, refining, and minting gold, silver, platinum, palladium, and other platinum group metal products. Part of the MKS PAMP GROUP, it brings over 60 years of expertise and operates one of the industry's most advanced refineries and mints. Headquartered in Switzerland, the company upholds the highest standards of quality, sustainability, and responsible sourcing. MKS PAMP is one of only three approved Good Delivery Referees of both the LBMA and LPPM worldwide. Its flagship brand, PAMP, is the world's leading bullion brand, known for the iconic Lady Fortuna™ design. Trusted by financial institutions, investors, and industries, MKS PAMP champions transparency and ESG principles.
