II. Overview of Earnings for Q3 FY2018〔IFRS〕 **(April 1, 2018 – December 31, 2018)**

- Revenues from clearing services mainly for OTC products increased.
- Revenues from information services grew due to a) an increase in market data usage fees resulting from increased market data usage and b) an increase in index licensing fees resulting from the growth in ETF AUM.
- Other operating revenues increased due mainly to increased usage of co-location services.

Operating Expenses

- System maintenance & operation expenses and depreciation & amortization increased due mainly to the launch of the new clearing system (Feb. 2018) and the system development for the shortening of JGB settlement cycle to T+1 (May. 2018).

Highlights and FY2018 Forecast

- Operating expenses increased due to an increase in system-related costs. However, with favorable performance of peripheral businesses, the increase in operating revenue surpassed that in expenses. As a result, the cumulative quarterly net income increased 3.3% year on year.

For assets and liabilities of JPX Group, "clearing business financial assets and liabilities*¹" assumed by JSCC as a clearing organization and "deposits from clearing participants*²" deposited by clearing participants as collateral are included under both assets and liabilities. "Clearing business financial assets and liabilities*¹" and "deposits from clearing participants*²" have a large impact on the amount of assets and liabilities of JPX Group due to their sizable amounts and daily fluctuations subject to changes in clearing participants' positions. In addition, "legal guarantee funds*³", "trading participant security money*⁴", and "default compensation reserve funds*⁵" based on the rules for securing safety of financial instruments transactions are included under assets and liabilities or equity.

The figures shown in parentheses in the table below are those calculated by excluding "clearing business financial assets*¹", "deposits from clearing participants*²", "legal guarantee funds*³", and "default compensation reserve funds*⁵" for total assets, and by excluding "default compensation reserve funds*⁶" for total equity and total equity attributable to owners of the parent company.
