| I. Purpose | The purpose of this document is to establish necessary matters in relation to the market maker program, in order to ensure the smooth execution of transactions and improve liquidity in the TOCOM futures and options market by securing trading opportunities for investors through continuous quoting, etc. | |
| II. Outline | | |
| 1. Definition | A "market maker" is a trading participant designated by TOCOM to conduct market making or provide liquidity (hereinafter referred to as "market making"). "Market making" is continuous quoting of a bid and an offer by a designated Primary Market Maker (hereinafter referred to as "PMM") for their designated contracts as specified by TOCOM. "Liquidity provision" is quoting of a counter-bid or offer within a scope that a designated Liquidity Provider (hereinafter referred to as "LP") deems appropriate for their designated contracts as specified by TOCOM. | A trading participant shall conduct market making or liquidity provision for its proprietary account or for a final customer (in case where a customer of a trading participant is an intermediary broker between the trading participant and the final customer, it refers to |

| (1) Role of PMM | A PMM shall endeavor to conduct market making for the specified products in the "Application Form for Market Maker", in accordance with requirements prescribed by | In cases where there are some requirements |

| Items | Contents | Notes |
|---|--|---|
| a. Requirement of Market Making | TOCOM. TOCOM prescribes the following matters as market making requirements. (a) Quoting time period (b) Range and number of contract months and issues for each eligible product (Eligible issues) (c) Maximum spread for bids and offers (d) Minimum quantity for bids and offers (e) Other matters which TOCOM deems necessary in consideration of trading conditions of the eligible product, etc. | prescribed by TOCOM for the same product, a PMM shall endeavor to conduct market making in accordance with requirements a PMM selects. However, a PMM can select only one requirement. The requirements on the left shall be specified in Appendix 2 for each eligible product for the whole day, day session, and night session respectively. |
| b. Easing / Exemption of Market Making Requirements | A market maker may have market making requirements eased or be exempted from them in the following situations: (a) In cases where trading in the eligible product is halted or suspended. (b) In cases where multiple market makers of the same eligible product declare to TOCOM that they are unable to provide quotes, and TOCOM deems it reasonable. (c) Other cases deemed necessary by TOCOM. | In cases where the number of market makers of the same eligible product is only one, then the declaration |

| | | from such one market is applicable. |
| c. Measures for Failure to Fulfill Market Making Requirements | A PMM may temporarily suspend market making due to market conditions, trading situation, system failures, etc. If a PMM is unable to fulfill its role, TOCOM will not impose a direct penalty on such PMM. However, the fee discount rate which is described in item "4. (2)" may be lowered in such conditions, and if a PMM's performance rate is significantly low and TOCOM deems that it will not recover in near future, TOCOM may cancel its designation as a PMM. | |
| (2) Incentives for PMMs | TOCOM shall provide PMMs with some incentives, such as discounts on trading fees and bonuses, etc., in consideration for market making. | |
| a. Trading fee discount | TOCOM will discount the trading fees of PMMs in accordance with their average monthly performance rate for market making specified by TOCOM. | For details on the method of measurement of the average monthly performance rate, please refer to Appendix 1. |
| | A PMM will be eligible for discounted trading fees for transactions executed through the Sub-Participant Code, which it registered with TOCOM in advance as the dedicated Sub-Participant Code used for calculating transactions of such PMM. | (Same as Item 4. (2) b.) The subject of fee discount and discount on PMM trading fee is as shown in Appendix 2. (Same as Item 4. (2) b.) TOCOM will announce |

| b. Payment of Fixed Amount | TOCOM will pay the fixed amount specified by itself to a PMM based on the average monthly performance rate for the market making by the PMM. | (Same as Item 4. (2) b.) |
| c. Allowance of Criteria for Receiving Incentives | TOCOM may make allowance to criteria for receiving incentives for eligible products as described in a. and b. in above under the market conditions that TOCOM specifies. | |
| d. Use of Additional User ID | TOCOM will allow a PMM to use more than the upper limit of User IDs, set per Final Investor (meaning the proprietary trading division or final customer of the trading participant), in accordance with the number of eligible products for which the PMM conducts market making, etc. | Type and number of additional use of User IDs that TOCOM allows shall be specified in Appendix 4. In cases where TOCOM deems that the market maker does not sufficiently fulfill its role as a market maker, TOCOM may suspend the additional use of User IDs. |

Calculation Method of Performance Rate for Market Making

- 1. Calculation method of performance rate for weekdays
- TOCOM shall calculate an average monthly performance rate for the whole day (from start of day session to the end of night session), day session, and night session, respectively, based on the daily performance rate which is measured for each period.
- (1) Daily performance rate for the whole day. (Same as the day session and night session.)
 - = Time period of fulfilling market making requirements (*) / Quoting time period
 - (*) Requirements for market making mean the conditions specified by TOCOM for each eligible product. (Please refer to Appendix 2.)
 - (*) Holidays are excluded from the calculation.
- (2) Average of monthly performance rate for the whole day. (Same as the day session and night session.)
 - = Sum of daily performance rates / Number of eligible days for market making (weekdays only)
 - (*) When average of monthly performance rate (%) includes a figure of a decimal point or less, it shall be rounded off.
- 2. Calculation method of performance rate for holidays
- TOCOM shall calculate daily holiday performance rates for the whole day (from the start of the day session to the end of the night session), day session, and night session, respectively, according to the roles of the eligible products.
 - (*) When there are multiple holidays in the same month, the performance rate is calculated for each of the holidays.

(*) The performance rate of night sessions for holidays is calculated for the night session starting from the evening of said holidays. For example, the performance rate for September 23, 2022 (holiday) is for the night session starting from the evening of September 23, 2022 (holiday), not for the night session starting from the evening of September 22, 2022 (weekday). The night session starting from the evening of September 22, 2022 (weekday), is subject to the calculation of the performance rate of the night sessions for weekdays.

Example: Quoting time period before and after X + 1 day (holiday)

Number and Type of Additional Use of User IDs that TOCOM allows for Designated PMM

- %1: Meaning the upper limit of available user IDs per final investor regardless of the designation as PMM. Use of OUCH (Mass Cancel) user is permitted only for final investor who has been designated as PMM.
- *2: The number of OUCH (Mass Cancel) user IDs that can be used shall be fixed regardless of the number of designation as PMM. However, if the final investor notifies of multiple subparticipant codes for market making, such final investor can own OUCH (Mass Cancel) user IDs up to the number of sub-participant codes notified to TOCOM.
