Building ASEAN Together

Maybank has been a regional bank since 1960, with the incorporation of our operations in Malaysia and opening of branches in Singapore and Brunei in that same year. Our roots in ASEAN are deep, being a Group with presence in all 10 ASEAN countries.

We have been able to gain a place in ASEAN communities because we believe in embracing diversity & inclusiveness and in providing financial services with a humanising touch.

We have financed our customers' first home, helped start their small businesses, and partnered with them to expand their companies across the region. There are many more experiences that we have shared, and that we hope to be part of in the years to come.

We are passionate about being at the heart of the communities we serve to prepare them for the future and bridge them to opportunities and a better way of life.

Highlights of 2014

RM6.72 billion

Net Profit

Net profit reached a new high of RM6.72 billion and met the ROE guidance of 13.0%-14.0%. FY2014 was supported by higher net operating income growth across business pillars and improved cost management.

57.0 sen

Dividend per Share

Dividend per share was 6.5% higher than FY2013, lifting dividend payout ratio to 78.5% compared to 71.9% a year ago and provided a healthy dividend yield of 6.2%.

13.4%

Group Loans Growth

Group loans growth surpassed the target of 13.0% driven by strong loans growth in Other Markets (ex-Malaysia, Singapore & Indonesia) of 47.5% which led to international loans contributing 40.3% of total Group gross loans from 37.9% the previous year. Loans growth in Malaysia and Singapore also surpassed industry growth.

11.75%

Common Equity Tier 1 Ratio

Maintained strong capital position with sufficient capacity to pursue business growth as Common Equity Tier 1 ratio [in accordance with BNM's Capital Adequacy Framework (Capital Components)] improved 49 bps to 11.75%. Total Capital Ratio also improved 57 bps to 16.24%.

43.8%

Islamic Financing to Total Malaysia Loans

Islamic financing grew 24.9% to increase its proportion to total Malaysia loans from 38.9% end FY2013, solidifying its position as the largest Islamic bank in Malaysia, and the third largest globally by asset size.

No.1

ASEAN ECM Deal Volume

Maybank Kim Eng secured the highest ASEAN Equity Capital Market deal volume in 2014 worth USD1.9 billion. It was the No.2 South East Asian issuer for ASEAN Domestic Bonds.

12.7%

Growth of Total Financial Assets (HNW & Affluent Banking)

Expanded Private Wealth and Premier Wealth business, with Total Financial Assets growing 14.1% for High Net Worth and 11.1% for Affluent Banking Segments.

25.9%

Malaysia Trade Finance Market Share

Maintained our strong leadership position in trade finance and cash management with Malaysian transaction volume market share of 41.3%.

Regional Expansion

Myanmar, China, Singapore

Maybank continued to expand its business and footprint. It opened its first branch in Myanmar, and its third branch in Kunming, China. In Singapore, Etiqa's insurance and Private Wealth businesses were launched.

70%

Succession Realisation Rate

The succession realisation rate of 70% exceeded the 60% target, indicating the effectiveness of the Group's succession planning and demonstrating the strong institutionalisation of the Group's talent management framework.

| Price to earnings multiple (times) | 14.6 | 24.9 | 12.7 | 13.1 | 12.4 |
| Price to book multiple (times) | 2.1 | 1.9 | 1.8 | 1.9 | 1.6 |

¹ The results consist of six months financial period ended 31 December 2011 due to the change of financial year end from 30 June to 31 December.

² Comparative figures were restated due to the changes in accounting policies.

³ Financial investments portfolio consists of financial assets at fair value through profit or loss, financial investments available-for-sale and financial investments held-to-maturity.

⁴ Cost to income ratio is computed using total cost over the net operating income. The total cost of the Group is the total overhead expenses, excluding amortisation of intangible assets for PT Bank Internasional Indonesia Tbk and Maybank Kim Eng Holdings Limited.

⁵ The capital adequacy ratios for December 2012, December 2011 and June 2011 present the two range of extreme possibilities, i.e.

(i) where the full electable portion is not reinvested; and

(ii) where the full electable portion is reinvested in new ordinary shares in accordance with the Dividend Reinvestment Plan.

⁶ Annualised.

⁷ Computed based on weighted reallocation of additional RM3.66 billion capital raised in October 2012.

⁸ Loan loss coverage for December 2014 includes Regulatory Reserve.

Statement of Directors' Responsibility

in respect of the Audited Financial Statements for the Financial Year ended 31 December 2014

The directors are responsible for ensuring that the annual audited financial statements of the Group and of the Bank are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards, the requirements of the Companies Act, 1965, Bank Negara Malaysia's Guidelines and the Listing Requirements of Bursa Malaysia Securities Berhad.

The directors are also responsible for ensuring that the annual audited financial statements of the Group and of the Bank are prepared with reasonable accuracy from the accounting records of the Group and of the Bank so as to give a true and fair view of the financial position of the Group and of the Bank as at 31 December 2014, and of their financial performance and cash flows for the year then ended.

In preparing the annual audited financial statements, the directors have:

- considered the applicable approved accounting standards in Malaysia;
- adopted and consistently applied appropriate accounting policies;
- made judgements and estimates that are prudent and reasonable; and
- prepared the financial statements on a going concern basis as the directors have a reasonable expectation, having made enquiries, that the Group and the Bank have adequate resources to continue in operational existence for the foreseeable future.

The directors also have a general responsibility for taking reasonable steps to safeguard the assets of the Group and of the Bank to prevent and detect fraud and other irregularities.

Analysis of Financial Statements

ANALYSIS OF THE INCOME STATEMENT

The Group's profit before taxation and zakat reached another record of RM9.11 billion (+2.7%) in the financial year ended 31 December 2014 from RM8.87 billion in the financial year ended 31 December 2013.

The growth was mainly attributable to higher net interest income ("NII") of RM118.4 million and income from Islamic Banking Scheme operations ("IBS") of RM461.0 million. These were offset by lower other operating income of RM341.7 million.

NET OPERATING INCOME

The Group's net operating income in the financial year ended 31 December 2014 stood at RM18.53 billion which was derived 52.4% from NII, 29.9% from other operating income and 17.7% from IBS income.

| Group | FY 31 Dec 2014 RM' million | FY 31 Dec 2013 RM' million | Variance RM' million | % Change | % Contribution |
|--|-------------------------------|-------------------------------|-------------------------|--------------|-------------------|
| Net interest income | 9,703.7 | 9,585.3 | 118.4 | 1.2 | 52.4 |
| Income from Islamic Banking Scheme operations | 3,271.2 | 2,810.2 | 461.0 | 16.4 | 17.6 |
| Net earned insurance premiums | 3,946.1 | 3,941.3 | 4.8 | 0.1 | 21.3 |
| Other operating income | 5,540.4 | 5,882.1 | (341.7) | (5.8) | 29.9 |
| Net insurance benefits and claims incurred, net fee and commission expenses, change in expense liabilities and taxation of life and takaful fund | (3,930.8) | (3,680.5) | (250.3) | (6.8) | (21.2) |
| Net operating income | 18,530.6 | 18,538.4 | (7.8) | (0.0) | 100.0 |

NET INTEREST INCOME ("NII")

NII grew by RM118.4 million (+1.2%) to RM9.70 billion and remained as the Group's primary source of income as it contributed 52.4% of the Group's total net operating income in the financial year ended 31 December 2014. The increase was mainly attributable to stronger growth in loans and financial investments portfolio, but offset by compression in net interest margin ("NIM").

NIM on interest-bearing assets compressed from 2.43% in the financial year ended 31 December 2013 to 2.31% in the financial year ended 31 December 2014. This was attributable to competitive pricing environments, especially in the Malaysia and Indonesia operations.

INCOME FROM ISLAMIC BANKING SCHEME OPERATIONS ("IBS")

The Group's income from IBS grew by RM461.0 million (+16.4%) to RM3.27 billion which was attributable to increase in net fund based income of RM580.7 million. The growth was driven by the increase in financing and advances.

The Group's IBS fee based income subsided by RM119.7 million which was attributable to lower gain on disposal of financial investments portfolio (RM71.4 million) and fee income (RM37.5 million).

OTHER OPERATING INCOME

Other operating income decreased by RM341.7 million (-5.8%) to RM5.54 billion in the financial year ended 31 December 2014 as shown in the table below:

| Group | FY 31 Dec 2014 RM' million | FY 31 Dec 2013 RM' million | Variance RM' million | % Change |
|---|-------------------------------|-------------------------------|-------------------------|--------------|
| Fee income | 3,710.5 | 3,543.9 | 166.6 | 4.7 |
| Investment income | 893.4 | 1,190.0 | (296.6) | (24.9) |
| Gross dividends from financial investments AFS | 118.7 | 101.8 | 16.9 | 16.6 |
| Unrealised loss on revaluation of financial assets at FVTPL and derivatives | (57.3) | (943.0) | 885.7 | (93.9) |
| Other income, of which: | 875.1 | 1,989.4 | (1,114.3) | (56.0) |
| Foreign exchange gain, net | 587.6 | 1,732.3 | (1,144.7) | (66.1) |
| Others | 287.5 | 257.1 | 30.4 | 11.8 |
| Total other operating income | 5,540.4 | 5,882.1 | (341.7) | (5.8) |

Fee income increased by RM166.6 million (+4.7%) to RM3,710.5 million in the financial year ended 31 December 2014 attributable to higher commission by RM118.5 million, service charges and fees of RM68.2 million and fees on loans, advances and financing of RM77.7 million. These were offset by lower brokerage income of RM90.0 million and underwriting fees of RM7.8 million.

Investment income recorded lower contribution of RM296.6 million (-24.9%) to RM893.4 million in the financial year ended 31 December 2014 attributable to decrease in net gain on disposal of financial investments available-for-sale by RM258.0 million.

Unrealised loss on revaluation of financial assets at FVTPL and derivatives decreased by RM885.7 million in the financial year ended 31 December 2014.

Foreign exchange gain, a primary item under other income, registered a decrease of RM1.14 billion in the financial year ended 31 December 2014.

NET INSURANCE BENEFITS AND CLAIMS INCURRED, NET FEE AND COMMISSION EXPENSES, CHANGE IN EXPENSE LIABILITIES AND TAXATION OF LIFE AND TAKAFUL FUND

The Group's net insurance benefits and claims incurred, net fee and commission expenses, change in expense liabilities and taxation of life and takaful fund increased by RM250.3 million to RM3.93 billion in the financial year ended 31 December 2014. The increase was mainly attributable to higher net benefits and claims incurred by the Insurance subsidiary of RM277.6 million.

Analysis of Financial Statements

OVERHEAD EXPENSES

The Group's overhead expenses increased by RM183.4 million (+2.1%) to RM9.11 billion from RM8.93 billion in the financial year ended 31 December 2013. The Group's cost to income ratio was 48.9% compared to 47.8% in the financial year ended 31 December 2013.

Personnel expenses increased by RM75.4 million to RM5,019.3 million in the financial year ended 31 December 2014 and contributed 55.1% of the Group's total overhead expenses. This was attributable to increase in salaries, allowances and bonuses of RM96.2 million but mitigated by lower ESS expenses of RM26.3 million.

Establishment costs grew by RM39.7 million to RM1,586.3 million in the financial year ended 31 December 2014 attributable to increases in depreciation of property, plant and equipment by RM62.5 million, amortisation of computer software by RM36.9 million and rental of leasehold land and premises by RM13.4 million. These were mitigated by lower information technology expenses by RM88.0 million. Establishment costs accounted for 17.4% of the Group's total overhead expenses.

Administration and general expenses increased by RM189.5 million to RM1,916.3 million in the financial year ended 31 December 2014 and contributed 21.0% of the Group's total overhead expenses.

Marketing expenses decreased by RM121.2 million to RM589.4 million in the financial year ended 31 December 2014.

ALLOWANCES FOR IMPAIRMENT LOSSES ON LOANS, ADVANCES, FINANCING AND OTHER DEBTS, NET

The Group's allowances for impairment losses on loans, advances, financing and other debts decreased by RM329.2 million to RM400.4 million in the financial year ended 31 December 2014. The decrease was mainly due to lower collective allowance ("CA") charge, lower individual allowance ("IA") charge and higher bad debts and financing recovered during the financial year ended 31 December 2014. The Group's CA ratio (including Regulatory Reserve) was 1.04% as at 31 December 2014 compared to 1.06% as at 31 December 2013.

ALLOWANCES FOR IMPAIRMENT LOSSES ON FINANCIAL INVESTMENTS, NET

The Group's allowances for impairment losses on financial investments decreased by RM80.1 million to RM70.4 million in the financial year ended 31 December 2014 due to recoveries from impaired loan stocks.

Allowances for impairment losses on loans, advances, financing and other debts, net

Analysis of Financial Statements

ANALYSIS OF THE STATEMENT OF FINANCIAL POSITION

TOTAL ASSETS

The Group's total assets grew by RM80.0 billion (+14.3%) to RM640.3 billion as at 31 December 2014 from RM560.3 billion as at 31 December 2013 attributable to growth in loans (+13.5%), financial investments portfolio (+7.7%) and cash and deposits and placements with financial institutions (+24.9%).

As at 31 December 2014, net loans, advances and financing remained as the largest component of the Group's total assets at 63.0%.

LOANS, ADVANCES AND FINANCING

The Group's loans, advances and financing grew strongly by RM47.9 billion (+13.5%) to RM403.5 billion as at 31 December 2014. This was supported by loans growth in International operations of 20.6% and Malaysia operations of 9.0%. The growth in International operations, led by Labuan Offshore (+98.4%), Greater China (+33.9%), Indochina (+31.9%) and Singapore (+13.3%).

Asset quality continues to remain strong when compared against industry trends, with the Group's net impaired loans ratio at 1.04% in the financial year ended 31 December 2014.

FINANCIAL INVESTMENTS PORTFOLIO

The Group's financial investments portfolio increased by RM8.2 billion (+7.7%) to RM115.9 billion as at 31 December 2014 attributable to growth in the financial assets at fair value through profit or loss portfolio by RM4.5 billion and financial investments held-to-maturity by RM3.9 billion.

TOTAL LIABILITIES

The Group's total liabilities grew by RM73.0 billion (+14.2%) to RM585.6 billion as at 31 December 2014 from RM512.6 billion as at 31 December 2013 attributable to growth in deposits from customers (+11.1%), deposits and placements from financial institutions (+36.2%) and borrowings, subordinated obligations and capital securities (+25.6%).

DEPOSITS FROM CUSTOMERS

In tandem with the loans growth, the Group's deposits from customers grew by RM44.0 billion (+11.1%) to RM439.6 billion, with the strongest growth coming from Malaysia and Singapore operations of 7.4% and 16.5% respectively.

The Group registered an overall improvement in fixed deposits and negotiable instruments of deposits (+9.2%), money market deposits (+55.8%) and demand deposits (+11.1%).

Loan-to-deposit ratio also remained at a comfortable level of 91.8%.

Directors' Report

The Board of Directors have pleasure in presenting their report together with the audited financial statements of the Group and of the Bank for the financial year ended 31 December 2014.

PRINCIPAL ACTIVITIES

The Bank is principally engaged in all aspects of commercial banking and related financial services.

The subsidiaries are principally engaged in the businesses of banking and finance, Islamic banking, investment banking including stockbroking, underwriting of general and life insurance, general and family takaful, trustee and nominee services and asset management. Further details of the subsidiaries are described in Note 62(a) to the financial statements.

There were no significant changes in these principal activities during the financial year.

RESULTS

| | Group RM'000 | Bank RM'000 |
|--------------------------------------|------------------|------------------|
| Profit before taxation and zakat | 9,111,583 | 7,344,427 |
| Taxation and zakat | (2,200,540) | (1,441,412) |
| Profit for the financial year | 6,911,043 | 5,903,015 |
| Attributable to: | | |
| Equity holders of the Bank | 6,716,455 | 5,903,015 |
| Non-controlling interests | 194,588 | - |
| | 6,911,043 | 5,903,015 |

There were no material transfers to or from reserves, allowances or provisions during the financial year other than those as disclosed in Notes 10, 11, 24, 43 and 44 and the statements of changes in equity to the financial statements.

In the opinion of the Board of Directors, the results of the operations of the Group and of the Bank during the current financial year were not substantially affected by any item, transaction or event of a material and unusual nature.

DIVIDENDS

The amounts of dividends paid by the Bank since 31 December 2013 (as disclosed in Note 49(c) to the financial statements) were as follows:

| | RM'000 |
|--|------------------|
| In respect of the financial year ended 31 December 2013 as reported in the directors' report of that year: | |
| Final dividend of 31 sen single-tier dividend consists of cash portion of 4 sen single-tier dividend per ordinary share and an electable portion of 27 sen per ordinary share, on 8,870,196,423 ordinary shares, approved on 7 April 2014 and paid on 30 May 2014. | 2,749,761 |
| In respect of the financial year ended 31 December 2014: | |
| A single-tier interim dividend of 24 sen consists of cash portion of 4 sen per ordinary share and an electable portion of 20 sen per ordinary share, on 9,150,707,894 ordinary shares, declared on 28 August 2014 and paid on 28 October 2014. | 2,196,170 |
| | 4,945,931 |

At the forthcoming Annual General Meeting, a final single-tier dividend in respect of the current financial year ended 31 December 2014 of 33 sen single-tier dividend per ordinary share of RM1.00 each, amounting to a net dividend payable of RM3,075,279,881 (based on 9,319,029,941 ordinary shares of RM1.00 each in issue as at 31 December 2014) will be proposed for the shareholders' approval.

The proposed final single-tier dividend consists of cash portion of 10 sen per ordinary share to be paid in cash amounting to RM931,902,994 and an electable portion of 23 sen per ordinary share amounting to RM2,143,376,887.

The electable portion can be elected to be reinvested in new ordinary shares in accordance with the Dividend Reinvestment Plan ("DRP") as disclosed in Note 31(b) to the financial statements and subject to the relevant regulatory approvals as well as shareholders' approval at the forthcoming Annual General Meeting.

The financial statements for the current financial year ended 31 December 2014 do not reflect this proposed final dividend. Such dividend, if approved by the shareholders, will be accounted for in the statements of changes in equity as an appropriation of retained profits in the next financial year ending 31 December 2015.

MAYBANK GROUP EMPLOYEES' SHARE SCHEME ("ESS") AND CASH-SETTLED PERFORMANCE-BASED EMPLOYEES' SHARE SCHEME ("CESS")

The Maybank Group Employees' Share Scheme ("ESS") is governed by the by-laws approved by the shareholders at an Extraordinary General Meeting held on 13 June 2011. The ESS was implemented on 23 June 2011. It is in force for a maximum period of seven (7) years from the effective date and is administered by the ESS Committee. The ESS consists of two (2) types of performance-based awards in the form of Employee Share Option Scheme ("ESOS") and Restricted Share Unit ("RSU").

The ESS Committee may, from time to time during the ESS period, make further RSU grants designated as Supplemental RSU ("SRSU") grants to a selected group of eligible employees to participate in the RSU award. This selected group may consist of senior management, selected key retentions and selected senior external recruits, and such SRSU grants may contain terms and conditions which may vary from earlier RSU grants made available to selected senior management.

The Maybank Group Cash-settled Performance-based Employees' Share Scheme ("CESS") is governed by the guidelines approved by the members of the ESS Committee on 15 June 2011.

The CESS comprises Cash-settled Performance-based Option Scheme ("CESOS") and Cash-settled Performance-based Restricted Share Unit Scheme ("CRSU") and is made available at the appropriate time to the eligible employees of overseas branches and subsidiaries of the Bank which include PT Bank Internasional Indonesia Tbk, PT Bank Maybank Syariah Indonesia, Maybank Philippines Incorporated and Maybank (PNG) Limited, subject to achievement of performance criteria set out by the Board of Directors and prevailing market practices in the respective countries.

Details on the key features of the ESS and CESS are disclosed in Note 31(c) to the financial statements.

Details of share options granted, vested and exercised under the ESS and CESS are as follows:

(a) ESOS Granted

| Grant date | Number of share options '000 | Original exercise price RM/option | Exercise period |
|-------------------------------|------------------------------|-----------------------------------|-----------------------|
| 23.6.2011 - ESOS First Grant | 405,309 [#] | 8.82* | 30.6.2011 - 22.6.2018 |
| 30.4.2012 - ESOS Second Grant | 62,339 [#] | 8.83* | 7.5.2012 - 22.6.2018 |
| 30.4.2013 - ESOS Third Grant | 53,594 [#] | 9.61* | 21.5.2013 - 22.6.2018 |
| 30.4.2014 - ESOS Fourth Grant | 53,983 [#] | 9.91* | 21.5.2014 - 22.6.2018 |

The aggregate maximum allocation of ESOS to Chief Executive Officer and senior management of the Group and of the Bank shall not exceed 50% of the Maximum Allowable Scheme Shares. The actual allocation of share options to Chief Executive Officer and senior management is 19.1% as at 31 December 2014 (31 December 2013: 16.3%).

[#] The number of share options granted are based on the assumptions that the eligible employees met average performance targets.

MAYBANK GROUP EMPLOYEES' SHARE SCHEME ("ESS") AND CASH-SETTLED PERFORMANCE-BASED EMPLOYEES' SHARE SCHEME ("CESS") (CONT'D.)

(a) ESOS Granted (cont'd.)

* The ESS Committee approved the reduction of the ESOS exercise prices following the issuances of new ordinary shares of RM1.00 each pursuant to the implementation of DRP. The revisions to the exercise prices are as follows:

| Grant date | Exercise price RM/option | Exercise period |
|-------------------------------|-----------------------------|------------------------|
| 23.6.2011 - ESOS First Grant | 8.82 | 30.6.2011 - 28.12.2011 |
| | 8.78 | 29.12.2011 - 4.6.2012 |
| | 8.76 | 5.6.2012 - 28.10.2012 |
| | 8.75 | 29.10.2012 - 22.6.2018 |
| 30.4.2012 - ESOS Second Grant | 8.83 | 7.5.2012 - 28.10.2012 |
| | 8.82 | 29.10.2012 - 22.6.2018 |
| 30.4.2013 - ESOS Third Grant | 9.61 | 21.5.2013 - 27.6.2013 |
| | 9.59 | 28.6.2013 - 21.11.2013 |
| | 9.58 | 22.11.2013 - 24.6.2014 |
| | 9.56 | 25.6.2014 - 22.6.2018 |
| 30.4.2014 - ESOS Fourth Grant | 9.91 | 21.5.2014 - 24.6.2014 |
| | 9.88 | 25.6.2014 - 28.10.2014 |
| | 9.87 | 29.10.2014 - 22.6.2018 |

During the financial year ended 31 December 2014, a total of 74,253,200 (31 December 2013: 79,155,600) under the ESOS First Grant, 12,002,000 (31 December 2013: 13,159,200) under the ESOS Second Grant, 10,523,300 (31 December 2013: 9,199,800) under the ESOS Third Grant and 9,651,900 under the ESOS Fourth Grant had been vested to a selected group of eligible employees.

The movements of ESOS vested in relation to the ESOS First Grant and ESOS Second Grant are as follows:

| 30.4.2014 - CRSU Fourth Grant | - | - | 145 | - | 145 | |
| | 215 | 81 | 145 | (16) | 425 | |

The Bank has been granted exemption by the Companies Commission of Malaysia from having to disclose the names of employees who have been granted share options which have been vested to subscribe for less than 487,500 ordinary shares of RM1.00 each during the financial year ended 31 December 2014.

The maximum number of ordinary shares of RM1.00 each in the Bank available under the ESS should not exceed 10% of the total number of issued and paid-up capital of the Bank at any point of time during the duration of the scheme. Other principal features of the ESS and CESS are disclosed in Note 31(c) to the financial statements.

The names of option holders who were granted share options which have been vested to subscribe for at least 487,500 ordinary shares of RM1.00 each during the financial year ended 31 December 2014 are as follows:

| Name | Number of share options from ESOS | | | |
|-----------------------------------|---|-------------|----------------|---|
| | Exercisable/ vested as at 1.1.2014 '000 | Vested '000 | Exercised '000 | Exercisable/ vested as at 31.12.2014 '000 |
| Datuk Abdul Farid bin Alias | 575 | 326 | - | 901 |
| Datuk Lim Hong Tat | 575 | 250 | - | 825 |
| John Chong Eng Chuan | 575 | 250 | - | 825 |
| Normala @ Noraizah binti A. Manaf | 500 | 200 | - | 700 |
| Geoffrey Michael Stecyk | 500 | 200 | - | 700 |
| Dr John Lee Hin Hock | 424 | 250 | - | 674 |

ISSUE OF SHARE CAPITAL

During the current financial year ended 31 December 2014, the Bank increased its issued and paid-up share capital from RM8,862,079,081 to RM9,319,029,941 via:

- Issuance of 58,680,500 new ordinary shares of RM1.00 each for cash, to eligible persons who exercised their share options under the ESS, as disclosed in Note 31(d)(ii) to the financial statements;
- Issuance of 2,831,509 new ordinary shares of RM1.00 each arising from the Restricted Share Unit ("RSU"), as disclosed in Note 31(c)(v) to the financial statements;
- Issuance of 299,533 new ordinary shares of RM1.00 each arising from the Supplemental Restricted Share Unit ("SRSU"), as disclosed in Note 31(e)(vi) to the financial statements;
- Issuance of 229,810,271 new ordinary shares (including 371,620 new ordinary shares issued to ESOS Trust Fund ("ETF") Pool) of RM1.00 each arising from the Dividend Reinvestment Plan ("DRP") relating to electable portion of the final dividend of 27 sen in respect of the financial year ended 31 December 2013, as disclosed in Note 49(c)(i) to the financial statements; and
- Issuance of 165,329,047 new ordinary shares (including 272,905 new ordinary shares issued to ESOS Trust Fund ("ETF") Pool) of RM1.00 each arising from the DRP relating to electable portion of the interim dividend of 20 sen in respect of the financial year ended 31 December 2014, as disclosed in Note 49(c)(ii) to the financial statements.

The new ordinary shares issued during the current financial year ended 31 December 2014 rank pari passu in all respects with the existing ordinary shares of the Bank.

DIRECTORS

The directors who served since the date of the last report and the date of this report are:

Tan Sri Dato' Megat Zaharuddin bin Megat Mohd Nor (Chairman)
 Dato' Mohd Salleh bin Hj Harun (Vice Chairman)
 Datuk Abdul Farid bin Alias (Group President and Chief Executive Officer)
 Tan Sri Datuk Dr Hadenan bin A. Jalil
 Dato' Seri Ismail bin Shahudin
 Dato' Dr Tan Tat Wai
 Dato' Johan bin Ariffin
 Mr Cheah Teik Seng
 Datuk Mohaiyani binti Shamsudin
 Mr Erry Riyana Hardjapamekas
 Datuk R. Karunakaran (appointed on 16 July 2014)
 Mr Cheng Kee Check (appointed on 19 November 2014)
 Encik Zainal Abidin bin Jamal (retired on 7 April 2014)

DIRECTORS' BENEFITS

Neither at the end of the financial year, nor at any time during that financial year, did there subsist any arrangement to which the Bank or any of its subsidiary was a party, whereby the directors might acquire benefits by means of acquisition of shares in or debentures of the Bank or any other body corporate, other than those arising from the ESOS and the RSU pursuant to the ESS.

Since the end of the previous financial year, no Director has received or become entitled to receive a benefit (other than benefits included in the aggregate amount of emoluments received or due and receivable by the directors from the Bank and its related corporations, or the fixed salary of a full-time employee of the Bank as disclosed in Note 42 to the financial statements) by reason of a contract made by the Bank or its related corporations with the director or with a firm of which the director is a member, or with a company in which the director has a substantial financial interest except for Mr Cheng Kee Check who is deemed to receive or become entitled to receive a benefit by virtue of fees paid by the Bank or its related corporations to the law firm in which he is a partner for professional legal services rendered to the Bank or its related corporations in the ordinary course of business.

DIRECTORS' INTERESTS

According to the register of directors' shareholdings, the interests of directors in office at the end of the financial year in shares, ESOS and RSU of the Bank during the financial year were as follows:

| | Number of ordinary shares of RM1.00 each | | | |
|---|--|------------------------------|------------------------------|---------------------|
| | As at 1.1.2014 | Issued pursuant to RSU | Issued pursuant to DRP | As at 31.12.2014 |
| Direct interest | | | | |
| Tan Sri Dato' Megat Zaharuddin bin Megat Mohd Nor | 39,787 | - | 2,081 | 41,868 |
| Dato' Mohd Salleh bin Hj Harun | 337,399 | - | 16,733 | 354,132 |
| Datuk Abdul Farid bin Alias | - | 80,798 | 4,227 | 85,025 |
| Dato' Seri Ismail bin Shahudin | 24,304 | - | 1,271 | 25,575 |
| Dato' Johan bin Ariffin | 249,926 | - | 13,075 | 263,001 |

| | Number of ordinary shares of RM1.00 each | | | |

BUSINESS OUTLOOK

The global economic growth is expected to record a modest pickup of 3.6% in 2015 from an estimated growth of 3.3% in 2014, led by stronger US growth amid subdued growth in the Eurozone and Japan, and continued slowdown in China. On an aggregate basis, the ASEAN-6 is expected to perform better in 2015 with higher GDP growth in Indonesia, the Philippines, Thailand and Vietnam amid steady growth in Singapore and slower growth in Malaysia.

GDP growth for Malaysia is expected to grow at 4.5% in 2015 reflecting the impact of lower commodity prices and fiscal reforms (Goods and Services Tax ("GST") and removal of fuel subsidies) on consumer and government spending. The decline in crude oil prices also poses risks to the Government budget, trade balance, exchange rate and oil & gas activities.

Despite the inflation rate estimated at 3% - 4% in 2015 (2014: 3.2%), Bank Negara Malaysia is expected to keep the Overnight Policy Rate ("OPR") at 3.25% for 2015 as it shifts its monetary policy bias towards sustaining growth.

Loans growth in Malaysia is likely to moderate slightly in 2015 with industry loans growth projected at 7% - 8% from 8.7% in 2014 due to household loans growth easing to 8% (2014: 10%) on the continued impact from Bank Negara Malaysia's tighter lending criteria to curb excessive household debt while non-household loans are expected to remain stable at around 7% (2014: 7%). Maybank Malaysia will target to perform in line with industry growth and continue expanding fee-income generating activities.

Singapore's GDP growth is expected to ease to 2.5% in 2015 (2014: 2.9%) but will see support from the projected US-driven improvement in external trade given the moderate pick up in the global economy, which will counter the soft property market, and existing domestic structural and cost issues. Maybank Singapore will continue to focus on loan growth in its target segments supported by the domestic franchise, and collaboration on corporate and regional deals with Maybank Kim Eng.

Despite the lower commodity prices, Indonesia's GDP growth is forecast to improve to 5.5% in 2015 from an estimated 4.8% in 2014 upon post-election normalisation, positive economic fundamentals and increase in infrastructure and government spending. Interest rates are expected to remain high but stable at 7.5% with a potential increase of 25bps later this year. PT Bank Internasional Indonesia Tbk ("BII") will continue growing its retail and business banking segments, and selected growth in the corporate segment. Fee income growth will mainly be from transaction banking, cash management and global market transactions.

Aside from the three home markets highlighted above, the Group will continue to strengthen its regionalisation focus, particularly in Greater China, the Philippines and Indochina markets, which are expected to see favourable GDP growth between 6.0% - 8.5% in 2015.

In Greater China - where Maybank is represented in Hong Kong, Shanghai, Beijing, and more recently Kunming - the Group will focus on facilitating China-ASEAN flows, launching Private Wealth in this region and strengthening the South China-Indochina coverage, in line with our growth agenda in Indochina. The Indochina franchise will be further augmented with our new Myanmar branch in 2015, along with plans of deepening our consumer banking footprint in Cambodia and Laos. In the Philippines, the Group will continue to expand our suite of consumer banking services and global banking business, by leveraging on the strength of our regional capabilities.

In 2015, the Group will intensify focus on fee income business activities in its key markets. This will include capturing regional deal and trade finance opportunities, building our wealth management business and expanding our insurance business. Maybank Kim Eng, Transaction Banking, Private Wealth, Insurance & Takaful and Asset Management are among the businesses that make up the Group's fee income platform.

The Group is now in its second year of operating on a matrix structure that supports cross-selling and market collaboration across all business segments. The Group's business segments - Community Financial Services, Global Banking, Insurance & Takaful, International Operations and Islamic Banking are all working as global business units. The Group's support centres including risk management, IT, finance, operations and human capitals are also on track with the development of their respective centres of excellence to support Maybank's regional strategy, manage asset quality and increase productivity across the Group.

We will continue to remain proactive in capital management and maintain capital at levels above the regulatory requirements prescribed by Bank Negara Malaysia. Barring any unforeseen circumstances, the Group expects its financial performance for the financial year ending 31 December 2015 to remain satisfactory. The Group has set two Headline Key Performance Indicators ("KPI") of Return on Equity ("ROE") between 13% to 14% and Group Loans Growth between 9% to 10%.

OTHER STATUTORY INFORMATION

- (a) Before the statements of financial position and income statements of the Group and of the Bank were made out, the directors took reasonable steps:

- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of allowances for doubtful debts and satisfied themselves that all known bad debts had been written-off and that adequate allowances had been made for doubtful debts; and
 - (ii) to ensure that any current assets which were unlikely to realise their values as shown in the accounting records in the ordinary course of business had been written down to an amount which they might be expected so to realise.
- (b) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Group and of the Bank which would render:
- (i) the amount written-off for bad debts or the amount of the allowances for doubtful debts in the financial statements of the Group and of the Bank inadequate to any substantial extent; and
 - (ii) the values attributed to current assets in the financial statements of the Group and of the Bank misleading.
- (c) At the date of this report, the directors are not aware of any circumstances which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Bank misleading or inappropriate.
- (d) At the date of this report, the directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Group and of the Bank which would render any amount stated in the financial statements misleading.
- (e) As at the date of this report, there does not exist:
- (i) any charge on the assets of the Group and of the Bank which has arisen since the end of the financial year which secures the liabilities of any other person; or
 - (ii) any contingent liability of the Group or of the Bank which has arisen since the end of the financial year other than those arising in the normal course of business of the Group and of the Bank.
- (f) In the opinion of the directors:
- (i) no contingent liability or other liability has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which will or may affect the ability of the Group and of the Bank to meet their obligations as and when they fall due; and
 - (ii) no item or transaction or event of a material and unusual nature has arisen in the interval between the end of the financial year and the date of this report which is likely to affect substantially the results of the operations of the Group or of the Bank for the financial year in which this report is made.

COMPLIANCE WITH BANK NEGARA MALAYSIA'S POLICY DOCUMENT ON FINANCIAL REPORTING AND GUIDELINES ON CLASSIFICATION AND IMPAIRMENT PROVISIONS FOR LOANS/FINANCING

The directors have taken reasonable steps to ensure that the preparation of the financial statements of the Group and of the Bank are in compliance with the Bank Negara Malaysia's policy document on Financial Reporting and the Guidelines on Classification and Impairment Provisions for Loans/Financing.

SIGNIFICANT AND SUBSEQUENT EVENTS

The significant and subsequent events are disclosed in Note 59 to the financial statements. There are no significant adjusting events after the statements of financial position date (i.e. financial year end) up to the date when the financial statements are authorised for issuance.

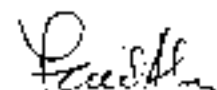

AUDITORS

The auditors, Ernst & Young, have expressed their willingness to continue in office.

Signed on behalf of the Board of Directors in accordance with a resolution of the directors dated 26 February 2015.

Tan Sri Dato' Megat Zaharuddin bin Megat Mohd Nor

Datuk Abdul Farid bin Alias

Kuala Lumpur, Malaysia

Statement by Directors

Pursuant to Section 169(15) of the Companies Act, 1965

We, Tan Sri Dato' Megat Zaharuddin bin Megat Mohd Nor and Datuk Abdul Farid bin Alias, being two of the directors of Malayan Banking Berhad, do hereby state that, in the opinion of the directors, the accompanying financial statements set out on pages 27 to 242 are drawn up in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia so as to give a true and fair view of the financial position of the Group and of the Bank as at 31 December 2014 and of the results and the cash flows of the Group and of the Bank for the year then ended.

Signed on behalf of the Board of Directors in accordance with a resolution of the directors dated 26 February 2015.

Tan Sri Dato' Megat Zaharuddin bin Megat Mohd Nor

Kuala Lumpur, Malaysia

Datuk Abdul Farid bin Alias

Statutory Declaration

Pursuant to Section 169(16) of the Companies Act, 1965

I, Mohamed Rafique Merican bin Mohd Wahiduddin Merican, being the officer primarily responsible for the financial management of Malayan Banking Berhad, do solemnly and sincerely declare that the accompanying financial statements set out on pages 27 to 242 are in my opinion correct and I make this solemn declaration conscientiously believing the same to be true and by virtue of the provisions of the Statutory Declarations Act, 1960.

Subscribed and solemnly declared by
the abovenamed Mohamed Rafique Merican
bin Mohd Wahiduddin Merican
at Kuala Lumpur in the Federal
Territory on 26 February 2015

Mohamed Rafique Merican bin Mohd Wahiduddin Merican

Before me,

Independent Auditors' Report to the Members of Malayan Banking Berhad

(Incorporated in Malaysia)

REPORT ON THE FINANCIAL STATEMENTS

We have audited the financial statements of Malayan Banking Berhad, which comprise the statements of financial position as at 31 December 2014 of the Group and of the Bank, and the income statements, statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Bank for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 27 to 241.

Directors' responsibility for the financial statements

The directors of the Bank are responsible for the preparation of financial statements so as to give a true and fair view in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Bank's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Bank as at 31 December 2014 and of their financial performances and cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:

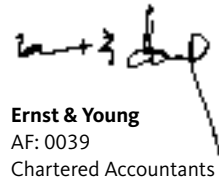

- (a) In our opinion, the accounting and other records and the registers required by the Act to be kept by the Bank and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Act.
- (b) We have considered the financial statements and the auditors' reports of all the subsidiaries of which we have not acted as auditors, which are indicated in Note 62(a) and Note 62(b) to the financial statements, being financial statements that have been included in the consolidated financial statements.
- (c) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the financial statements of the Bank are in form and content appropriate and proper for the purposes of the preparation of the consolidated financial statements and we have received satisfactory information and explanations required by us for those purposes.
- (d) The auditors' reports on the financial statements of the subsidiaries were not subject to any qualification and in respect of the subsidiaries incorporated in Malaysia, did not include any comment required to be made under Section 174(3) of the Act.

OTHER REPORTING RESPONSIBILITIES

The supplementary information set out in Note 65 on page 242 is disclosed to meet the requirement of Bursa Malaysia Securities Berhad and is not part of the financial statements. The directors are responsible for the preparation of the supplementary information in accordance with Guidance on Special Matter No. 1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ("MIA Guidance") and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance based on the directive of Bursa Malaysia Securities Berhad.

OTHER MATTERS

This report is made solely to the members of the Bank, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Notes to the Financial Statements

31 December 2014

1. CORPORATE INFORMATION

Malayan Banking Berhad (“Maybank” or the “Bank”) is a public limited liability company, incorporated and domiciled in Malaysia and is listed on the Main Market of Bursa Malaysia Securities Berhad. The registered office of the Bank is located at 14th Floor, Menara Maybank, 100, Jalan Tun Perak, 50050 Kuala Lumpur.

The Bank is principally engaged in all aspects of commercial banking and related financial services.

The subsidiaries of the Bank are principally engaged in the businesses of banking and finance, Islamic banking, investment banking including stockbroking, underwriting of general and life insurance, general and family takaful, trustee and nominee services and asset management.

There were no significant changes in these activities during the financial year.

These financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the directors on 26 February 2015.

2. ACCOUNTING POLICIES

2.1 Basis of preparation and presentation of the financial statements

The financial statements of the Bank and its subsidiaries (“Maybank Group” or the “Group”) and of the Bank have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRS”), International Financial Reporting Standards (“IFRS”) and the requirements of the Companies Act, 1965 in Malaysia.

The financial statements of the Group and of the Bank have been prepared on a historical cost basis unless otherwise indicated in the summary of significant accounting policies as disclosed in Note 2.3.

The Group’s financial statements also include separate disclosures on its insurance and takaful businesses and Islamic banking operations as disclosed in Notes 60 and 61, respectively. The principal activities for insurance and takaful businesses are mainly the underwriting of general and life insurance business, the management of general and family takaful business and investment-linked business. Islamic banking refers generally to the acceptance of deposits, granting of financing and dealing in Islamic securities under the Shariah principles.

The Group and the Bank present their statements of financial position in the order of liquidity.

Financial assets and financial liabilities are offset and the net amount are reported in the statements of financial position of the Group and of the Bank only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously. Income and expenses are not offset in the income statements of the Group and of the Bank unless required or permitted by an accounting standard or interpretation, and as specifically disclosed in the accounting policies of the Group and of the Bank.

The financial statements are presented in Ringgit Malaysia (“RM”) and all values are rounded to the nearest thousand (RM’000), unless otherwise stated.

2.2 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Bank and its subsidiaries including the equity accounting of interest in associates and joint ventures as at 31 December 2014. Further details on the accounting policies for investment in subsidiaries and interest in associates and joint ventures are disclosed in Note 2.3.

The financial statements of the Bank’s subsidiaries, associates and joint ventures are prepared for the same reporting date as the Bank, using consistent accounting policies for transactions and events in similar circumstances.

Subsidiaries are consolidated from the date of acquisition or the date of incorporation, being the date on which the Bank obtains control and continue to be consolidated until the date that such control effectively ceases. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee, if and only if, the Group has three elements of control as below:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Rights arising from other contractual arrangements; and
- The Group’s voting rights and potential voting rights.

When assessing whether to consolidate investment funds, the Group reviews all facts and circumstances to determine whether the Group, as fund manager, is acting as agent or principal. The Group may be deemed to be a principal and hence controls and consolidates the funds, when it acts as fund manager and cannot be removed without cause, has variable returns through significant unit holdings and/or a guarantee and is able to influence the returns of the funds through its power.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests (“NCI”) represent the portion of profit or loss and net assets in subsidiaries not wholly-owned, directly or indirectly by the Bank. NCI are presented separately in the consolidated income statement, consolidated statement of comprehensive income and within equity in the consolidated statement of financial position, but separate from parent shareholders’ equity. Total comprehensive income is allocated against the interest of NCI, even if this results in the NCI having a deficit balance. A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction between the Group and its NCI holders. Any difference between the Group’s share of net assets before and after the change and any consideration received or paid, is recognised in equity.

If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts;
- Derecognises the carrying amount of any non-controlling interest in the former subsidiary;
- Recognises the fair value of the consideration received;
- Derecognises the cumulative foreign exchange translation differences recorded in equity;
- Recognises the fair value of any investment retained in the former subsidiary;
- Recognises any surplus or deficit in the profit or loss; and
- Reclassifies the parent’s share of components previously recognised in other comprehensive income to income statements or retained earnings, if required in accordance with other MFRS.

All of the above will be accounted for from the date when control is lost.

The accounting policies for business combination and goodwill are disclosed in Note 2.3(iii).

2.3 Summary of significant accounting policies

(i) Investment in subsidiaries

Subsidiaries are entities, including deemed controlled structured entities, controlled by the Bank, as defined in Note 2.2.

In the Bank’s separate financial statements, investments in subsidiaries are stated at cost less accumulated impairment losses. The policy for the recognition and measurement of impairment losses is in accordance with Note 2.3(xv) below. On disposal of such investments, the difference between the net disposal proceeds and their carrying amounts is recognised as gain or loss on disposal in the income statements.

Additional information on investment in subsidiaries are disclosed in Note 17 and details of subsidiaries are disclosed in Note 62(a) and 62(b).

Notes to the Financial Statements

31 December 2014

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(ii) Interest in associates and joint ventures

An associate is an entity over which the Group and the Bank have significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Group's and the Bank's interest in its associates and joint ventures are accounted for using the equity method. The associates and joint ventures are equity accounted for from the date the Group and the Bank gain significant influence or joint control until the date the Group and the Bank cease to have significant influence over the associate or joint control over the joint venture.

Under the equity method, the interest in associates and joint ventures are initially recognised at cost. The carrying amount of the investment is adjusted for changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to an associate or joint venture is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. Details of goodwill included in the Group's carrying amount of interest in associates and joint ventures are disclosed in Note 18(d).

The consolidated income statement reflects the Group's share of the results of operations of the associates and joint ventures. Any change in other comprehensive income of those investees is presented as part of the Group's statement of comprehensive income. Where there has been a change recognised directly in the equity of the associates or joint ventures, the Group recognises its share of such changes and discloses this, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associates or joint ventures are eliminated to the extent of the interest in the associates or joint ventures. The aggregate of the Group's share of profit or loss in associates and joint ventures is shown on the face of the consolidated income statement. The Group's share of profit or loss in associates and joint ventures represents profit or loss after tax and non-controlling interests in the subsidiaries of the associates or joint ventures.

When the Group's share of losses in associates or joint ventures equals or exceeds its interest in the associates or joint ventures, including any long-term interests that, in substance, form part of the Group's net interest in the associates or joint ventures, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associates or joint ventures.

The most recent available audited financial statements of the associates or joint ventures are used by the Group in applying the equity method. Where the dates of the audited financial statements used are not coterminous with those of the Group, the share of results is arrived at from the last audited financial statements available and management financial statements to the end of the accounting period. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in associates and joint ventures. The Group determines at each reporting date whether there is any objective evidence that the interest in the associates and joint ventures are impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associates or joint ventures and its carrying amount, then recognises the amount in the 'share of profits in associates and joint ventures' in the consolidated income statement.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in the consolidated income statement.

In the Bank's separate financial statements, interest in associates and joint ventures are stated at cost less accumulated impairment losses. The policy for the recognition and measurement of impairment losses is in accordance with Note 2.3(xv). On disposal of such investments, the difference between the net disposal proceeds and their carrying amounts is recognised as gain or loss on disposal in the income statements.

Additional information on interest in associates and joint ventures and details of associates and joint ventures are disclosed in Notes 18(b), 62(c) and 62(d) respectively.

(iii) Business combination and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interest in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses in the income statements. When the Group acquires a business, it assesses the financial assets and financial liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in the income statements. It is then considered in the determination of goodwill. Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of MFRS 139 *Financial Instruments: Recognition and Measurement* ("MFRS 139") is measured at fair value with changes in fair value recognised either in the income statements or as a change to other comprehensive income. If the contingent consideration is not within the scope of MFRS 139, it is measured in accordance with the appropriate MFRS. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. After initial recognition, goodwill is measured at cost less accumulated impairment losses. Goodwill is reviewed for impairment annually, or more frequently, if events or changes in circumstances indicate that the carrying amount may be impaired.

If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in the consolidated income statement.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated, from the acquisition date, to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units. The accounting policy for impairment of non-financial assets (which including goodwill) is disclosed in Note 2.3(xv).

Where goodwill has been allocated to a cash-generating unit and part of the operation within that cash-generating unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative fair values of the operation disposed of and the portion of the cash-generating unit retained.

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(iv) Intangible assets

In addition to goodwill, intangible assets also include core deposit intangibles, customer relationship and agency force acquired in business combination, computer software and software-in-development.

An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Group and the Bank.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Subsequent to initial recognition, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses, except for software-in-development which is not subject to amortisation until the development is completed and the asset is available for use.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with indefinite lives are not amortised but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate and treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the income statements in the expense category consistent with the function of the intangible asset.

Gains or losses arising from derecognition of intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the assets and are recognised in income statements when the assets are derecognised.

A summary of the policies applied to the Group's and the Bank's intangible assets are as follows:

| | Amortisation methods used | Useful economic lives |
|--------------------------|---------------------------|-----------------------|
| Computer software | Straight-line | 3 - 10 years |
| Core deposit intangibles | Reducing balance | 8 years |
| Customer relationship | Reducing balance | 3 - 9 years |
| Agency force | Reducing balance | 11 years |

Additional information on intangible assets are disclosed in Note 20.

(v) Financial assets

(a) Date of recognition

All financial assets are initially recognised on the trade date, i.e. the date that the Group and the Bank become a party to the contractual provisions of the instrument. This includes regular way trades, purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

(b) Initial recognition and subsequent measurement

All financial assets are measured initially at their fair value plus directly attributable transaction costs, except in the case of financial assets recorded at fair value through profit or loss. Financial assets within the scope of MFRS 139 are classified as financial assets at fair value through profit or loss, loans and receivables, financial investments held-to-maturity and financial investments available-

for-sale. The classification of financial assets at initial recognition depends on the purpose and the management's intention for which the financial assets were acquired and their characteristics. The Group and the Bank determine the classification of financial assets at initial recognition, in which the details are disclosed below.

Included in financial assets are the following:

(1) Financial assets at fair value through profit or loss ("FVTPL")

Financial assets at FVTPL include financial assets held-for-trading ("HFT") and financial assets designated at FVTPL upon initial recognition. Financial assets are classified as held-for-trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held-for-trading unless they are designated as effective hedging instruments as defined by MFRS 139.

For financial assets designated at FVTPL, upon initial recognition the following criteria must be met:

- the designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on them on a different basis; or
- the assets and liabilities are part of a group of financial assets, financial liabilities or both, which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy.

Included in financial assets held-for-trading are derivatives (including separated embedded derivatives), debt securities and equities.

Included in financial assets designated at FVTPL are debt securities and structured deposits of which are managed on a fair value basis under insurance life fund and family takaful fund.

Subsequent to initial recognition, financial assets held-for-trading and financial assets designated at FVTPL are recorded in the statement of financial position at fair value. Changes in fair value are recognised in the income statements under the caption of 'other operating income'.

(2) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Financial assets classified in this category include cash and bank balances, reverse repurchase agreements, loans, advances and financing and other receivables. These financial assets are initially recognised at fair value, including direct and incremental transaction costs and subsequently measured at amortised cost using the effective interest method, less any accumulated impairment losses.

(3) Financial investments held-to-maturity ("HTM")

Financial investments HTM are non-derivative financial assets with fixed or determinable payments and fixed maturity, which the Group and the Bank have the intention and ability to hold to maturity.

Subsequent to initial recognition, financial investments HTM are measured at amortised cost using the effective interest method, less accumulated impairment losses. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. The amortisation is included in the income statements under the caption of 'interest income'. The losses arising from impairment are recognised in the income statements under the caption of 'allowance for impairment losses on financial investments' and the gain or loss arising from derecognition of such investments are recognised in the income statements under the caption of 'other operating income'.

Notes to the Financial Statements

31 December 2014

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(v) Financial assets (cont'd.)

(b) Initial recognition and subsequent measurement (cont'd.)

(3) Financial investments held-to-maturity ("HTM") (cont'd.)

If the Group and the Bank were to sell or reclassify more than an insignificant amount of financial investments HTM before maturity (other than in certain specific circumstances), the entire category would be tainted and would have to be reclassified as financial investments available-for-sale. Furthermore, the Group and the Bank would be prohibited from classifying any financial investments as held-to-maturity over the following two years. During the financial year ended 31 December 2014, the Group and the Bank did not reclassify any of its financial investments HTM as financial investments available-for-sale.

(4) Financial investments available-for-sale ("AFS")

Financial investments AFS are financial assets that are not classified in any of the three (3) preceding categories.

Financial investments AFS include equity and debt securities. Financial investments in this category are intended to be held for an indefinite period of time and which may be sold in response to liquidity needs or changes in market conditions.

After initial recognition, financial investments AFS are subsequently measured at fair value. Unrealised gains and losses are recognised directly in other comprehensive income and in the 'AFS reserve', except for impairment losses, foreign exchange gains or losses on monetary financial assets and interest/profit income calculated using the effective interest method are recognised in the income statements. Dividends on financial investments AFS are recognised in the income statements when the Group's and the Bank's right to receive payment is established. When the Group and the Bank derecognise financial investments AFS, the cumulative unrealised gain or loss previously recognised in the 'AFS reserve' is reclassified to the income statements under the caption of 'other operating income'.

(c) Derecognition

A financial asset is derecognised when:

- (1) The rights to receive cash flows from the financial asset have expired; or
- (2) The Group and the Bank have transferred its rights to receive cash flows from the financial asset or have assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass through" arrangement; and either:
 - (i) the Group and the Bank have transferred substantially all the risks and rewards of the financial asset, or
 - (ii) the Group and the Bank have neither transferred nor retained substantially all the risks and rewards of the financial asset, but have transferred control of the financial asset.

When the Group and the Bank have transferred its rights to receive cash flows from a financial asset or have entered into a "pass through" arrangement, they evaluate to what extent they have retained the risks and rewards of ownership. When the Group and the Bank have neither transferred nor retained substantially all the risks and rewards of the financial asset and have not transferred control of the financial asset, the Group and the Bank continue to recognise the transferred financial asset to the extent of the Group's and of the Bank's continuing involvement in the financial asset. In that case, the Group and the Bank also recognise an associated financial liability. The transferred financial asset and associated financial liability are measured on a basis that reflect the rights and obligations that the Group and the Bank have retained.

(d) Impairment of financial assets

The Group and the Bank assess at each reporting date whether there is any objective evidence that a financial asset, including security or a group of securities (other than financial assets at FVTPL) is impaired. A financial asset or a group of financial assets is deemed to be impaired if and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred loss event) and that loss event(s) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the borrower or a group of borrowers experiencing significant financial difficulty, the probability that they will enter bankruptcy or other reorganisation, default or delinquency in interest/profit or principal payments or where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in economic conditions that correlate with defaults.

(1) Loans and receivables

- (i) Loans, advances and financing

Classification of loans, advances and financing as impaired

Loans, advances and financing are classified as impaired when:

- principal or interest/profit or both are past due for more than three (3) months; or
- loans, advances and financing in arrears for less than three (3) months which exhibit indications of credit weaknesses, whether or not impairment loss has been provided for; or
- impaired loans, advances and financing have been rescheduled or restructured, the loans, advances and financing will continue to be classified as impaired until repayments based on the revised and/or restructured terms have been observed continuously for a period of six (6) months; or
- default occurs for repayments scheduled on intervals of three (3) months or longer.

Impairment process – individual assessment

The Group and the Bank assess if objective evidence of impairment exists for loans, advances and financing which are deemed to be individually significant.

If there is objective evidence that an impairment loss has been incurred, the amount of loss is measured as the difference between the carrying amount of the loans, advances and financing and the present value of the estimated future cash flows discounted at the original effective interest rate of the loans, advances and financing. The carrying amount of the loans, advances and financing is reduced through the use of an impairment allowance account and the amount of the impairment loss is recognised in the income statements.

Impairment process – collective assessment

Loans, advances and financing which are not individually significant and that have been individually assessed with no evidence of impairment loss are grouped together for collective impairment assessment. These loans, advances and financing are grouped within similar credit risk characteristics for collective assessment, whereby data from the loans, advances and financing portfolio (such as credit quality, levels of arrears, credit utilisation, loan to collateral ratios, etc.) and concentrations of risks (such as the performance of different individual groups) are taken into consideration.

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(v) Financial assets (cont'd.)

(d) Impairment of financial assets (cont'd.)

(1) Loans and receivables (cont'd.)

(i) Loans, advances and financing (cont'd.)

Impairment process – collective assessment (cont'd.)

Future cash flows in a group of loans, advances and financing that are collectively evaluated for impairment are estimated based on the historical loss experience of the Group and of the Bank. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that do not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not currently exist.

Estimates of changes in future cash flows for a group of assets should reflect and be directionally consistent with changes in related observable data from period to period. The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Group and the Bank to reduce any differences between loss estimates and actual loss experience.

Impairment process – subsequent measurement

If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or written back by adjusting the allowances for impairment losses on loans, advances and financing account.

Impairment process – written-off accounts

When there is no realistic prospect of future recovery, the loans, advances and financing are written-off against the related allowance for loan impairment. Such loans, advances and financing are written-off after the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of the amounts which previously written-off are recognised in the income statements under the caption of 'allowances for impairment losses on loans, advances and financing'.

(ii) Other receivables

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Group and the Bank consider factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

If any such evidence exists, the amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the financial asset is reduced through the use of an impairment allowance account and the amount of the impairment loss is recognised in the income statements.

If in a subsequent year, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in the income statements.

(2) Financial investments available-for-sale ("AFS")

For financial investments AFS, the Group and the Bank assess at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as financial investments AFS, the objective evidence would include a "significant" or "prolonged" decline in the fair value of the investment below its cost. The Group and the Bank treat "significant" generally as 25% and "prolonged" generally as for consecutive quarters. When there is evidence of impairment, the cumulative loss (which is measured as the difference between the acquisition cost and the current fair value, less any accumulated impairment loss on that investment previously recognised in the income statements) that had been recognised in other comprehensive income is reclassified from equity to income statements. Impairment losses on equity investments are not reversed through the income statements; increases in the fair value after impairment are recognised in other comprehensive income.

For unquoted equity securities carried at cost, impairment loss is measured as the difference between the securities' carrying amount and:

- (i) the present value of estimated future cash flows discounted at the current market rate of return for similar securities; or
- (ii) the net tangible assets based on the latest audited accounts.

The amount of impairment loss for unquoted equity securities is recognised in the income statements and such impairment losses are not reversed subsequent to its recognition until actual cash is received or trigger originally established as an objective indicator of impairment is reversed.

For quoted equity securities, its impairment losses are not reversed subsequent to its recognition until such equities are disposed.

In the case of debt instruments classified as financial investments AFS, the impairment is assessed based on the same criteria as financial investments HTM. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any accumulated impairment loss on that investment previously recognised in the income statements.

Future interest income continues to be accrued based on the reduced carrying amount of asset by using the rate of interest which used to discount the future cash flows for the purpose of measuring the impairment loss. If in a subsequent year, the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the income statements, the impairment loss is reversed through the income statements.

(3) Financial investments held-to-maturity ("HTM")

For financial investments HTM, the Group and the Bank assess at each reporting date whether there is objective evidence that an investment or a group of investments is impaired. If there is objective evidence of impairment on financial investments HTM, impairment loss is measured as the difference between the carrying amount of the financial investments HTM and the present value of the estimated future cash flows discounted at the original effective interest rate of the financial investments HTM. The carrying amount of the financial investments HTM is reduced through the use of an impairment allowance account and the amount of the impairment loss is recognised in the income statements.

Notes to the Financial Statements

31 December 2014

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(v) Financial assets (cont'd.)

(d) Impairment of financial assets (cont'd.)

(3) Financial investments held-to-maturity ("HTM") (cont'd.)

Subsequent reversals in the impairment loss are recognised when the decrease can be objectively related to an event occurring after the impairment loss was recognised, to the extent that the carrying amount of the financial investments HTM does not exceed its amortised cost at the reversal date. The reversal is recognised in the income statements.

(e) Reclassification of financial assets

The Group and the Bank may choose to reclassify non-derivative assets out of the financial assets at FVTPL category, in rare circumstances, where the financial assets are no longer held for the purpose of selling or repurchasing in the short term. In addition, the Group and the Bank may also choose to reclassify financial assets that would meet the definition of loans and receivables out of the financial assets at FVTPL or financial investments AFS if the Group and the Bank have the intention and ability to hold the financial assets for the foreseeable future or until maturity.

Reclassifications are made at fair value as at the reclassification date, whereby the fair value becomes the new cost or amortised cost, as applicable.

For a financial asset reclassified out of the financial investments AFS, any previous gain or loss on that asset that has been recognised in equity is amortised to the income statements over the remaining life of the asset using the effective interest method. Any difference between the new amortised cost and the expected cash flows is also amortised over the remaining life of the asset using the effective interest method. If the asset is subsequently determined to be impaired, then the amount recorded in equity is recycled to the income statements.

Reclassification is at the election of management, and is determined on an instrument-by-instrument basis. The Group and the Bank do not reclassify any financial instrument into the FVTPL category after initial recognition or reclassify any financial instrument out of financial investments AFS during the financial year ended 31 December 2014.

(vi) Financial liabilities

(a) Date of recognition

All financial liabilities are initially recognised on the trade date i.e. the date that the Group and the Bank become a party to the contractual provision of the instruments. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

(b) Initial recognition and subsequent measurement

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability. All financial liabilities are measured initially at fair value plus directly attributable transaction costs, except in the case of financial liabilities at FVTPL.

Financial liabilities are classified as either financial liabilities at FVTPL or other financial liabilities.

(1) Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities HFT and financial liabilities designated upon initial recognition at FVTPL.

Financial liabilities are classified as held-for-trading if they are incurred for the purpose of repurchasing in the near term. This category includes derivatives entered into by the Group and the Bank that do not meet the hedge accounting criteria.

Gains or losses on financial liabilities HFT are recognised in the income statements.

Financial liabilities designated upon initial recognition at FVTPL are designated at the initial date of recognition, and only if the criteria in MFRS 139 are satisfied. The Group and the Bank have not designated any financial liabilities at FVTPL.

(2) Other financial liabilities

The Group's and the Bank's other financial liabilities include deposits from customers, deposits and placements from financial institutions, debt securities (including borrowings), payables, bills and acceptances payable and other liabilities.

(i) Deposits from customers and deposits and placements from financial institutions

Deposits from customers and deposits and placements from financial institutions are stated at placement values. Interest/profit expense of deposits from customers and deposits and placements from financial institutions measured at amortised cost is recognised as it accrued using the effective interest rate method.

(ii) Debt securities

Debt securities issued by the Group and the Bank are classified as financial liabilities or equity in accordance with the substance of the contractual terms of the instruments. The Group's and the Bank's debt securities issued consist of subordinated notes/bonds/sukuk, Innovative Tier 1/Stapled capital securities and borrowings.

These debt securities are classified as liabilities in the statement of financial position as there is a contractual obligation by the Group and the Bank to make cash payments of either principal or interest or both to holders of the debt securities and that the Group and the Bank are contractually obliged to settle the financial instrument in cash or another financial instrument.

Subsequent to initial recognition, debt securities issued are recognised at amortised cost, with any difference between proceeds net of transaction costs and the redemption value being recognised in the income statements over the period of the borrowings on an effective interest method.

(iii) Payables

Payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

(iv) Bills and acceptances payable

Bills and acceptances payable represent the Group's and the Bank's own bills and acceptances rediscounted and outstanding in the market. These financial liabilities are measured at amortised cost using the effective interest method.

(v) Other liabilities

Other liabilities are stated at cost which is the fair value of the consideration expected to be paid in the future for goods and services received.

(c) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the original financial liability and the consideration paid is recognised in the income statements.

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(vii) Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statements of financial position of the Group and of the Bank if there is a current legally enforceable right to offset the recognised amount and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

The financial assets and financial liabilities of the Group and of the Bank that are subject to offsetting, enforceable master netting arrangements and similar agreements are disclosed in Note 53.

(viii) Derivative financial instruments and hedge accounting

(a) Derivative financial instruments

The Group and the Bank trade derivatives such as interest rate swaps and futures, credit default swaps, commodity swaps, currency swaps, currency forwards and options on interest rates, foreign currencies, equities and commodities.

Derivative financial instruments are initially recognised at fair value. For non-option derivatives, their fair value are normally zero or negligible at inception. For purchased or written options, their fair value are equivalent to the market premium paid or received. The derivatives are subsequently remeasured at their fair value. Fair values are obtained from quoted market prices in active markets, including recent market transactions and valuation techniques that include discounted cash flow models and option pricing models, as appropriate. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. Changes in the fair value of any derivatives that do not qualify for hedge accounting are recognised immediately in the income statements.

(b) Hedge accounting

The Group and the Bank use derivative instruments to manage exposures to interest rate, foreign currency and credit risks. In order to manage particular risks, the Group and the Bank apply hedge accounting for transactions which meet specified criteria.

At the inception of the hedge relationship, the Group and the Bank formally document the relationship between the hedged item and the hedging instrument, including the nature of the risk, the risk management objective and strategy for undertaking the hedge and the method that will be used to assess the effectiveness of the hedging relationship at inception and on ongoing basis.

At each hedge effectiveness assessment date, a hedge relationship must be expected to be highly effective on a prospective basis and demonstrate that it was effective (retrospective effectiveness) for the designated period in order to qualify for hedge accounting.

Hedge ineffectiveness is recognised in the income statements. For situations where the hedged item is a forecast transaction, the Group and the Bank also assess whether the transaction is highly probable and presents an exposure to variations in cash flows that could ultimately affect the income statements.

Hedges that meet the strict criteria for hedge accounting are accounted for, as described below:

(1) Fair value hedge

For designated and qualifying fair value hedges, the cumulative change in the fair value of a hedging instrument is recognised in the income statements. Meanwhile, the cumulative change in the fair value of the hedged item attributable to the risk hedged is recorded as part of the carrying amount of the hedged item in the statements of financial position and is also recognised in the income statements.

For fair value hedges relating to items carried at amortised cost, any adjustment to carrying amount is amortised over the remaining term of the hedge using the effective interest method. Effective interest rate amortisation may begin as soon as an adjustment exists and no later than when the hedged item ceases to be adjusted for changes in its fair value attributable to

the risk being hedged. If the hedged item is derecognised, the unamortised fair value adjustment is recognised immediately in the income statements.

The Group disclosed the details of fair value hedge in Note 12.

(2) Cash flow hedge

For designated and qualifying cash flow hedges, the effective portion of the gain or loss on the hedging instrument is recognised directly in other comprehensive income in the cash flow hedge reserve, while any ineffective portion of the gain or loss on the hedging instrument is recognised immediately in the income statements.

When the hedged cash flow affects the income statements, the gain or loss on the hedging instrument previously recognised as other comprehensive income is transferred to the corresponding income or expense line of the income statements.

When a hedging instrument expires, or is sold, terminated, exercised or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss previously recognised in other comprehensive income remains separately in equity until the forecast transaction occurs or the foreign currency firm commitment is met.

When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in other comprehensive income is immediately transferred to income statements.

The Group disclosed the details of cash flow hedge in Note 12.

(3) Net investment hedge

Net investment hedge including a hedge of a monetary item that is accounted for as part of the net investment, are accounted for in a way similar to cash flow hedges. Any gain or loss on the hedging instrument relating to the effective portion of the hedge is recognised in other comprehensive income, while any gain or loss relating to the ineffective portion is recognised immediately in the income statements.

On disposal of the foreign operations, the cumulative amount of any such gains or losses recognised in other comprehensive income is transferred to the income statements.

The Group uses its subordinated obligations and capital securities as a hedge of its exposure to foreign exchange risk on its investments in foreign subsidiaries. Refer to Note 12 for more details.

(ix) Embedded derivatives

Derivatives embedded in other financial instruments are treated as separate derivatives and recorded at fair value if their economic characteristics and risks are not closely related to those of the host contract and the host contract is not itself held-for-trading or designated at fair value through profit or loss. The embedded derivatives separated from the host are carried at fair value in the trading portfolio with changes in fair value recognised in the income statements.

(x) Resale and repurchase agreements

Securities purchased under resale agreements are securities which the Group and the Bank purchase with a commitment to resell at future dates. The commitments to resell the securities are reflected as assets on the statements of financial position. The difference between the purchase and resale prices is recognised in the income statements under the caption of 'interest income' and is accrued over the life of the agreement using the effective interest method.

Conversely, obligations on securities sold under repurchase agreements are securities which the Group and the Bank sell from its portfolio, with a commitment to repurchase at future dates. Such financing transactions and corresponding obligations to purchase the securities are reflected as liabilities on the statements of financial position. The difference between the sale and the repurchase prices is recognised in the income statements under the caption of 'interest expense' and is accrued over the life of the agreement using the effective interest method.

Notes to the Financial Statements

31 December 2014

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(xi) Property, plant and equipment and depreciation

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset, if and only if, it is probable that future economic benefits associated with the item will flow to the Group and the Bank and the cost of the item can be measured reliably.

Subsequent to initial recognition, property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group and the Bank recognise such parts as individual assets with specific useful lives and depreciate them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the income statements as incurred.

Freehold land has an unlimited useful life and therefore is not depreciated. Buildings-in-progress are not depreciated until the development is completed and is available for use.

Leasehold land is depreciated over the period of the respective leases which ranges from 35 to 999 years. The remaining period of respective leases ranges from 3 to 903 years.

Depreciation of other property, plant and equipment is computed on a straight-line basis over its estimated useful life at the following annual rates:

| | |
|---|---|
| Buildings on freehold land | 50 years |
| Buildings on leasehold land | 50 years or remaining life of the lease, whichever is shorter |
| Office furniture, fittings, equipment and renovations | 10% - 25% |
| Computers and peripherals | 14% - 25% |
| Electrical and security equipment | 8% - 25% |
| Motor vehicles | 20% - 25% |

The carrying amounts of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year end and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. The difference between the net disposal proceeds, if any, and the net carrying amount is recognised in the income statements.

Details of property, plant and equipment of the Group and of the Bank are disclosed in Note 19.

(xii) Investment properties

Investment properties are properties which are held either to earn rental income or for capital appreciation or for both. Such properties are initially measured at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value which reflect market conditions at the reporting date. Fair value is arrived at by reference to market evidence of transaction prices for similar properties and is performed by registered independent valuers having an appropriate recognised professional qualification and recent experience in the location and category of the properties being valued.

Gains or losses arising from changes in the fair values of investment properties are recognised in the income statements in the year in which they arise, including the corresponding tax effect.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference

between the net disposal proceeds and the carrying amount of the asset is recognised in the income statements in the period of derecognition.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use.

For a transfer from owner-occupied property to investment property, the property is accounted for in accordance with the accounting policy for property, plant and equipment as set out in Note 2.3(xi) up to the date of change in use. Any difference arising at the date of change in use between the carrying amount of the property immediately prior to the change in use and its fair value is recognised directly in equity as revaluation reserve. When a fair value gain reverses a previous impairment loss, the gain is recognised in the income statements. Upon disposal of such investment property, any surplus previously recorded in equity is transferred to retained earnings; the transfer is not made through the income statements.

The Group disclosed the details of investment properties in Note 15.

Investment property under construction ("IPUC") is measured at fair value (when the fair value is reliably determinable).

IPUC for which fair value cannot be determined reliably is measured at cost less impairment.

The fair values of IPUC are determined at the end of the reporting period based on the opinion of a qualified independent valuer and valuations are performed using either the residual method approach or discounted cash flow approach, as deemed appropriate by the valuer. Each IPUC is individually assessed. The Group and the Bank do not have any IPUC as at 31 December 2014.

(xiii) Other assets

Included in other assets are other debtors, amount due from brokers and clients, development properties for sale, prepayments and deposits, tax recoverable and foreclosed properties.

(a) Other debtors and amount due from brokers and clients

These assets are carried at anticipated realisable values. An estimate is made for doubtful debts based on a review of all outstanding balances as at the reporting date. Bad debts are written-off when identified.

Included in other debtors are physical gold held by the Group and the Bank as a result of its broker-dealer activities. These are accounted for at fair value less costs to sell. Changes in fair value less costs to sell are recognised in the income statements under the caption of 'other operating income'.

(b) Development properties for sale

Development properties are those properties which are held with the intention of development and sale in the ordinary course of business.

Development properties that are unsold are carried at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less cost to complete the development and selling expenses.

The costs of properties under development comprise specifically identified costs, including acquisition costs, development expenditure, borrowing costs and other related expenditure. Borrowing costs payable on loans funding development properties are also capitalised, on a specific identification basis, as part of the cost of the development properties until the completion of the development.

Revenue from the sale of development properties is recognised on the transfer of risk and rewards of ownership. The Group uses the completion of contract method to recognise revenue from the sale of development properties.

The Group disclosed the details of development properties for sale in Note 14(b).

(c) Foreclosed assets

Foreclosed assets are those acquired in full or partial satisfaction of debts. Foreclosed assets are stated at the lower of carrying amount and fair value less costs to sell and are recognised in 'other assets'.

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(xiv) Cash and short-term funds

Cash and short-term funds in the statement of financial position comprise cash balances and deposits with financial institutions and money at call with a maturity of one month or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statements of cash flows, cash and cash equivalents comprise of cash and short-term funds, as defined above and deposits and placements with financial institutions, with the remaining maturity of less than one month.

(xv) Impairment of non-financial assets

The carrying amounts of non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If there is such indication or when annual impairment testing for an asset is required, the Group and the Bank estimate the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit ("CGU")'s fair value less costs to sell and its value-in-use. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

The Group bases its value-in-use calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Group's CGU to which the individual assets are allocated. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

An impairment loss in respect of goodwill is not reversed. For other non-financial assets, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group and the Bank estimate the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation or amortisation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the income statements.

Further disclosures relating to impairment of non-financial assets are disclosed in the following notes:

- Significant accounting judgements, estimates and assumptions (Note 3)
- Property, plant and equipment (Note 19)
- Intangible assets (Note 20)

(xvi) Provisions

Provisions are recognised when the Group and the Bank have a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

When the Group and the Bank expect some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the income statements net of any reimbursement.

Where the effect of the time value of money is material, the amount of the provision is the present value of the expenditure expected to be required to settle the obligation. Any increase in the provision which due to the passage of time is recognised in the income statements.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Where it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed and recognised in income statements.

(xvii) Financial guarantees contract

Financial guarantees are contracts that require the Group and the Bank to make specified payments to reimburse the holder for a loss it incurs because a specified party fails to meet its obligation when it is due in accordance with the contractual terms. In the ordinary course of business, the Group and the Bank give financial guarantees, consisting of letter of credit, guarantees and acceptances.

Financial guarantees premium are initially recognised at fair value on the date the guarantee was issued. Subsequent to initial recognition, the received premium is amortised over the life of the financial guarantee. The guarantee liability (the notional amount) is subsequently recognised at the higher of this amortised amount and the present value of any expected payments (when a payment under guarantee has become probable). The unamortised premium received on these financial guarantees is included within 'other liabilities' in the statements of financial position.

(xviii) Profit Equalisation Reserve ("PER")

Since 1 July 2012, Maybank Islamic Berhad, the Islamic banking subsidiary of the Bank has adopted BNM's Revised Guidelines for PER ("the revised guideline"). Upon the adoption of the revised guidelines, it has discontinued the application of PER to mitigate its displaced commercial risk ("DCR"). The outstanding PER has been distributed to the remaining depositors and the Islamic banking subsidiary based on the outstanding proportion.

In managing its DCR, the Islamic banking subsidiary transfers its current profits to depositors on the basis of hibah. The payment of hibah is recognised as cost in the income statements.

(xix) Foreign currencies

(a) Functional and presentation currency

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is also the Bank's functional currency.

(b) Foreign currency transactions and balances

Transactions in foreign currencies are measured in the respective functional currencies of the Bank and its subsidiaries and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchange at the reporting date.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the reporting date are recognised in the income statements except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operations, which are recognised initially in other comprehensive income and accumulated under foreign currency translation reserve in other comprehensive income.

Non-monetary items denominated in foreign currencies that are measured at historical cost are translated using the spot exchange rates as at the date of the initial transactions. Non-monetary items denominated in foreign currencies measured at fair value are translated using the spot exchange rates at the date when the fair value was determined.

Exchange differences arising on the translation of non-monetary items carried at fair value are included in the income statements for the financial year except for the differences arising on the translation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income.

(c) Foreign operations

The results and financial position of foreign operations that have a functional currency different from the presentation currency of Ringgit Malaysia ("RM") of the consolidated financial statements are translated into RM as follows:

- Assets and liabilities of foreign operations are translated at the closing rate prevailing at the reporting date;

Notes to the Financial Statements

31 December 2014

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(xix) Foreign currencies (cont'd.)

(c) Foreign operations (cont'd.)

The results and financial position of foreign operations that have a functional currency different from the presentation currency of Ringgit Malaysia ("RM") of the consolidated financial statements are translated into RM as follows (cont'd.):

- Income and expenses for each income statement are translated at average exchange rates for the financial year; and
- All resulting exchange differences are taken directly to other comprehensive income through the foreign currency translation reserve.

On the disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognised in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to the income statements (as a reclassification adjustment) when the gain or loss on disposal is recognised.

On the partial disposal of a subsidiary that includes a foreign operation, the Group reattributes the proportionate share of the cumulative amount of the exchange differences recognised in other comprehensive income to the non-controlling interests in that foreign operation. In any other partial disposal of a foreign operation, the Group reclassifies to the income statements only the proportionate share of the cumulative amount of the exchange differences recognised in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of foreign operations are treated as assets and liabilities of the foreign subsidiaries and translated at the closing rate at the reporting date.

(xx) Income and deferred taxes and zakat

(a) Income tax

Current tax assets/recoverable and current tax liabilities/provisions are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Income taxes for the year comprises current and deferred taxes. Current tax expense is determined according to the tax laws of each jurisdiction in which the Bank and the Bank's subsidiaries or associates operate and generate taxable income.

Current tax expense relating to items recognised directly in equity, is recognised in other comprehensive income or in equity and not in the income statements.

Details of income taxes for the Group and the Bank are disclosed in Note 45.

(b) Deferred tax

Deferred tax is recognised in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts at the reporting date.

Deferred tax liabilities are recognised for all temporary differences, except:

- (i) when the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- (ii) in respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- (i) when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- (ii) in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside income statements is recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Details of deferred tax assets and liabilities are disclosed in Note 27.

(c) Zakat

This represents business zakat payable by the Group in compliance with Shariah principles and as approved by the Group's Shariah Committee.

(xxi) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

(a) Classification

A lease is classified at the inception date as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the leased assets to the Group and the Bank.

All leases that do not transfer substantially all the risks and rewards are classified as operating leases, with the following exceptions:

- Property held under operating leases that would otherwise meet the definition of an investment property is classified as an investment property on a property-by-property basis and, if classified as investment property, is accounted for as if held under a finance lease; and
- Land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of the building situated thereon at the inception of the lease, is accounted for as being held under a finance lease, unless the building is also clearly held under an operating lease.

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(xxi) Leases (cont'd.)

(b) Finance lease - the Group and the Bank as lessee

Assets acquired by way of finance leases are stated at an amount equal to the lower of their fair values and the present value of the minimum lease payments at the inception of the leases, less accumulated depreciation and accumulated impairment losses. The corresponding liability is included in the statement of financial position as borrowings. In calculating the present value of the minimum lease payments, the discount factor used is the interest rate implicit in the lease, when it is practical to determine; otherwise, the Bank's or the Bank's subsidiaries' incremental borrowing rate is used. Any initial direct costs are also added to the carrying amount of such assets.

Lease payments are apportioned between the finance costs and the reduction of the outstanding liability. Finance costs, which represent the difference between the total leasing commitments and the fair value of the leased assets, are recognised in the income statements over the term of the relevant lease so as to produce a constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

The depreciation policy for leased assets is in accordance with that for depreciable property, plant and equipment as described in Note 2.3(xi).

(c) Operating lease - the Group and the Bank as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term of the relevant lease.

In the case of a lease of land and buildings, the minimum lease payments or the up-front payments made are allocated, whenever necessary, between the land and the buildings elements in proportion to the relative fair values for leasehold interests in the land element and building element of the lease at the inception of the lease. The up-front payment represents prepaid lease payments and are amortised on a straight-line basis over the lease term.

(d) Operating lease - the Group and the Bank as lessor

Assets leased out under operating leases are presented on the statement of financial position according to the nature of the assets. Rental income from operating leases is recognised on a straight-line basis over the lease term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term on the same basis as rental income.

(xxii) Insurance contracts/takaful certificates

Through its insurance and takaful subsidiaries, the Group issues contracts/certificates to customers that contain insurance/takaful risk, financial risk or a combination thereof. A contract/certificate under which the Group accepts significant insurance/takaful risk from another party by agreeing to compensate that party on the occurrence of a specified uncertain future event, is classified as an insurance contract/takaful certificate. An insurance contract/takaful certificate may also transfer financial risk, but is accounted for as an insurance contract/takaful certificate if the insurance/takaful risk is significant.

(a) Insurance premium/contribution income

Premium/contribution income from general insurance/general takaful businesses are recognised in the financial year in respect of risks assumed during that particular financial year. Premium/contribution from direct business are recognised during the financial year upon issuance of debit notes. Premium/contribution in respect of risk incepted for which debit notes have not been issued as of the reporting date are accrued at that date.

Premium/contribution income from life insurance/family takaful businesses are recognised as soon as the amount of the premium/contribution can be reliably measured. Initial premiums/contributions are recognised from inception date and subsequent premiums/

contributions are recognised on due dates. At the end of the financial year, all due premiums/contributions are accounted for to the extent that they can be reliably measured.

(b) Reinsurance premium/retakaful contribution

Reinsurance premium/retakaful contributions are recognised in the same financial year as the original policies/certificates to which the reinsurance/retakaful relates. Inward treaty reinsurance premium/retakaful contributions are recognised on the basis of periodic advices received from ceding insurers/takaful operators. Inward facultative reinsurance premium/retakaful contributions are recognised in the financial year in respect of the facultative risks accepted during that particular financial year, as in the case of direct policies/certificates, following the individual risks' inception dates.

(c) Benefits and claims expenses

Benefits and claims expenses are recognised in the income statements when a claimable event occurs and/or the insurer/takaful operator is notified. Recoveries on reinsurance/retakaful claims are accounted for in the same financial year as the original claims are recognised.

(d) Commission expenses and acquisition costs

The commission expenses and gross cost of acquiring and renewing insurance policies/takaful certificates, after net of income derived from ceding reinsurance premiums/retakaful contributions, are recognised as incurred and properly allocated to the periods in which it is probable they give rise to income.

Gross commission and agency expenses for life insurance business are costs directly incurred in securing premium on insurance policies, after net of income derived from ceding reinsurance premium, are recognised in the income statements in the year in which they are incurred.

(e) Premium/contribution liabilities, unearned premium/contribution reserves and unexpired risk reserves

(1) Premium/contribution liabilities

Premium/contribution liabilities represent the future obligations on insurance/takaful contracts as represented by premium/contribution received for risks that have not yet expired. The movement in premium/contribution liabilities is released over the term of the insurance/takaful contracts and is recognised as premium/contribution income.

Premium liabilities for general insurance business are reported at the higher of the aggregate of the unearned premium reserves for all lines of business or the best estimate value of the insurer's unexpired risk reserves at the end of the financial year and a provision of risk margin for adverse deviation ("PRAD") as prescribed by BNM.

Contribution liabilities for general takaful business are reported at the higher of the aggregate of the unearned contribution reserves for all line of businesses or the total general takaful fund's unexpired risk reserves at above 75% confidence level at the end of the financial year.

(2) Unearned premium reserves ("UPR") and unearned contribution reserves ("UCR")

UPR/UCR represents the portion of net premiums/gross contributions of insurance policies/takaful certificates written that relate to the unexpired periods of policies/certificates at the end of the financial year. In determining the UPR/UCR at the reporting date, the method that most accurately reflects the actual unearned premium/contribution is used as follows:

- 25% method for marine cargo, aviation cargo and transit business;
- 1/24th method for all other classes of local business of general insurance and 1/365th method for all other classes of general takaful business, reduced by the corresponding percentage of accounted gross direct business commissions to the corresponding premiums/contributions, not exceeding limits specified by BNM;

Notes to the Financial Statements

31 December 2014

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(xxii) Insurance contracts/takaful certificates (cont'd.)

(e) Premium/contribution liabilities, unearned premium/contribution reserves and unexpired risk reserves (cont'd.)

(2) Unearned premium reserves ("UPR") and unearned contribution reserves ("UCR") (cont'd.)

UPR/UCR represents the portion of net premiums/gross contributions of insurance policies/takaful certificates written that relate to the unexpired periods of policies/certificates at the end of the financial year. In determining the UPR/UCR at the reporting date, the method that most accurately reflects the actual unearned premium/contribution is used as follows: (cont'd.)

- 1/8th method for all classes of overseas business with a deduction of 20% for commissions;
- Earned upon maturity method for bond business written by the general takaful funds; and
- Non-annual policies are time-apportioned over the period of the risks after deducting the commission, that relate to the unexpired periods of policies at the end of the financial year.

(3) Unexpired risk reserves ("URR")

The URR is the prospective estimate of the expected future payments arising from future events insured under policies/certificates in force as at the reporting date and also includes allowance for expenses, including overheads and cost of reinsurance/retakaful, expected to be incurred during the unexpired period in administering these policies/certificates and settling the relevant claims and expected future premium/contribution refunds. URR is estimated via an actuarial valuation performed by the signing actuary.

(f) Reinsurance/retakaful assets

The insurance and takaful subsidiaries of the Bank cede insurance/takaful risk in the normal course of their businesses. Reinsurance/retakaful assets represent amounts recoverable from reinsurers or retakaful operators for insurance/takaful contract liabilities which have yet to be settled at the reporting date. At each reporting date, or more frequently, the insurance and takaful subsidiaries of the Bank assess whether objective evidence exists that reinsurance/retakaful assets are impaired.

To determine whether there is objective evidence that an impairment loss on reinsurance/retakaful asset has been incurred, the insurance and takaful subsidiaries of the Bank consider factors such as the probability of insolvency or significant financial difficulties of the issuer or obligor and default or significant delay in payments. If any such evidence exists, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The impairment loss is recognised in the income statements.

Reinsurance/retakaful assets are derecognised when the contractual rights are extinguished or expired or when the contract is transferred to another party.

(g) Insurance/takaful receivables

Insurance/takaful receivables are recognised when due and measured on initial recognition at fair value. Subsequent to initial recognition, insurance/takaful receivables are measured at amortised cost, using the effective yield method. At each reporting date, the insurance and takaful subsidiaries of the Bank assess whether objective evidence exists that insurance/takaful receivables are impaired.

To determine whether there is objective evidence that an impairment loss on insurance/takaful receivables have been incurred, the insurance and takaful subsidiaries of the Bank consider factors such as the probability of insolvency or significant financial difficulties of

the issuer or obligor and default or significant delay in payments. If any such evidence exists, the insurance and takaful subsidiaries of the Bank reduce the carrying amount of the insurance/takaful receivables accordingly and recognise that impairment loss in the income statements.

Insurance/takaful receivables are derecognised when the contractual right to receive cash flows has expired or substantially all the risks and rewards have been transferred to another party.

(h) Insurance contract/takaful certificate liabilities

Insurance contract/takaful certificate liabilities are recognised when contracts/certificates are in-force and premiums/contributions are charged. Insurance contract/takaful certificate liabilities are derecognised when the contracts/certificates expired, discharged or cancelled. Any adjustments to the liabilities at each reporting date are recorded in the income statements. Profits originating from margins of adverse deviation on run-off contracts/certificates, are recognised in the income statements over the life of the contract/certificate, whereas losses are fully recognised in the income statements during the first year of run-off.

An assessment is made at each reporting date through the performance of a liability adequacy test to determine whether the recognised insurance contract/takaful certificate liabilities are adequate to cover the obligations of insurance/takaful subsidiaries, contractual or otherwise, with respect to insurance contracts/takaful certificates issued. In performing the liability adequacy test, the insurance/takaful subsidiaries discount all contractual cash flows and compare them against the carrying amount of insurance contract/takaful certificate liabilities. Any deficiency is recognised in the income statements.

(i) Claims liabilities

Claim liabilities represent the insurer's obligations, whether contractual or otherwise, to make future payments in relation to all claims that have been incurred as at reporting date. Claim liabilities are the estimated provision for claims reported, claims incurred but not reported ("IBNR"), claims incurred but not enough reserved ("IBNER") and related claims handling costs. These comprised of the best estimate value of claim liabilities and a PRAD as prescribed by BNM. Liabilities for outstanding claims are recognised upon notification by policyholders/participants. Claim liabilities are determined based upon valuations performed by the signing actuary, using a range of actuarial claims projection techniques based on, amongst others, actual claims development patterns. Claim liabilities are not discounted.

(j) Expense liabilities

Expense liabilities in relation to general takaful and family takaful businesses are based on estimations performed by a qualified actuary. Changes in expense liabilities are recognised in the income statements.

(k) Insurance/takaful payables

Insurance/takaful payables are recognised when due and measured on initial recognition at fair value. Subsequent to initial recognition, they are measured at amortised cost using the effective interest method.

(xxiii) Fair value measurement

The Group and the Bank measure financial instruments such as financial assets at FVTPL, financial investments AFS, derivatives, and non-financial assets such as investment properties, at fair value at each statement of financial position date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(xxiii) Fair value measurement (cont'd.)

The principal or the most advantageous market must be accessible to the Group and the Bank.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group and the Bank use valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group and the Bank determine whether transfers have occurred between fair value hierarchy levels by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The fair value hierarchies of financial instruments and non-financial assets that are measured at fair value are disclosed in Note 52(c).

While the fair value hierarchies of financial assets and financial liabilities that are not measured at fair value, for which fair value is disclosed are presented in Note 52(g).

(xxiv) Recognition of interest/profit income and interest/profit expense

Interest income and expense for all financial instruments measured at amortised cost. Interest/profit-bearing financial assets classified as loans, advances and financing, financial investments available-for-sale, financial assets held-for-trading and financial assets designated at fair value through profit or loss are recognised within 'interest income' in the income statements using the effective interest method. Interest/profit-bearing financial liabilities classified as deposits from customers, deposits and placements from financial institutions, debt securities and payables are recognised within 'interest expense' in the income statements using effective interest rate method.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instruments or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Group and the Bank take into account all contractual terms of the financial instrument and include any fees or incremental costs that are directly attributable to the instrument, which are an integral part of the effective interest rate, but does not consider future credit losses.

Once the recorded value of a financial asset or a group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

Profit income and expense from Islamic banking business is recognised on an accrual basis in accordance with the principles of Shariah.

(xxv) Recognition of fee and other income

(a) Fee and commission income

The Group and the Bank earn fee and commission income from a diverse range of services they provide to its customers. Fee income can be divided into the following two categories:

(1) Fee income earned from services that are provided over a certain period of time

Fees earned for the provision of services over a period of time are accrued over that period. These fees include commission income and asset management, custody and other management and advisory fees.

Loan commitment fees for loans that are likely to be drawn down and other credit related fees are deferred (together with any incremental costs) and recognised as an adjustment to the EIR on the loan. When it is unlikely that a loan will be drawn down, the loan commitment fees are recognised over the commitment period on a straight-line basis.

(2) Fee income from providing transaction services

Fees arising from negotiating or participating in the negotiation of a transaction for a third party, such as the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses, are recognised on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance are recognised after fulfilling the corresponding criteria.

(b) Dividend income

Dividend income is recognised when the Group's and the Bank's right to receive the payment is established. This is the ex-dividend date for listed equity securities, and usually the date when shareholders have approved the dividend for unlisted equity securities.

(c) Customer loyalty programmes

Award credits under the customer loyalty programmes are accounted for as a separately identifiable component of the transaction in which they are granted. The fair value of the consideration received in respect of the initial sale is allocated between the cost of award credits and the other components of the sale. The consideration allocated to award credits is recognised in the income statements under the caption of 'other operating income' when award credits are redeemed.

(xxvi) Employee benefits

(a) Short-term employee benefits

Wages, salaries, bonuses and social security contributions are recognised as an expense in the income statements in the year in which the associated services are rendered by employees of the Group and of the Bank. Short-term accumulating compensated absences such as paid annual leave are recognised as an expense in the income statements when services are rendered by employees that increase their entitlement to future compensated absences. Short-term non-accumulating compensated absences such as sick leave are recognised as an expense in the income statements when the absences occur.

(b) Other long-term employee benefits

Other long-term employee benefits are benefits that are not expected to be settled wholly before twelve months after the end of the reporting date in which the employees render the related service.

The cost of long-term employee benefits is accrued to match the services rendered by employees of the Group using the recognition and measurement bases similar to that for defined benefit plans disclosed in Note 2.3(xxvi)(d), except that the remeasurements of the net defined benefit liability or asset are recognised immediately in the income statements.

Notes to the Financial Statements

31 December 2014

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(xxvi) Employee benefits (cont'd.)

(c) Defined contribution plans

As required by law, companies in Malaysia make contributions to the Employees Provident Fund ("EPF"). Certain overseas branches and overseas subsidiaries of the Bank make contributions to their respective countries' statutory pension schemes. Such contributions are recognised as an expense in the income statements when incurred.

(d) Defined benefit plans

As required by labour laws in certain countries, certain subsidiaries of the Bank are required to pay severance payment to their employees upon employees' retirement. The Group treated such severance payment obligations as defined benefit plans or pension plans.

The defined benefit costs and the present value of defined benefit obligations are calculated at the reporting date by the qualified actuaries using the projected unit credit method.

Remeasurements of the net defined benefit liability or asset, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in other comprehensive income in the period in which they occur and recorded in defined benefit reserve. Remeasurements are not reclassified to the income statement in subsequent periods.

Past service costs are recognised in the income statements on the earlier of:

- The date of the plan amendment or curtailment; or
- The date that the overseas subsidiaries of the Bank recognise restructuring related costs.

Net interest on the net defined benefit asset or liability and other expenses relating to defined benefit plans are calculated by applying the discount rate to the net defined benefit liability or asset and recognised in the income statements.

The Group disclosed the details of defined benefit plans in Note 24(a).

(e) Share-based compensation

(1) Employee Share Option Scheme ("ESOS")

The ESOS is an equity-settled share-based compensation plan that allows the Group's directors and employees to acquire shares of the Bank. The total fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in the share option reserve within equity over the vesting period and taking into account the probability that the options will vest. The fair value of share options is measured at grant date, taking into account, if any, the market vesting conditions upon which the options were granted but excluding the impact of any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable on vesting date.

At each reporting date, the Group revises its estimates of the number of options that are expected to become exercisable on vesting date. It recognises the impact of the revision of original estimates, if any, in the income statements and a corresponding adjustment to equity over the remaining vesting period. The equity amount is recognised in the share option reserve.

The proceeds received net of any directly attributable transaction costs are credited to share capital when the options are exercised. The share option reserve is transferred to retained earnings upon expiry of the share option.

(2) Restricted share units ("RSU")

Senior management employees of the Group are entitled to performance-based restricted shares as consideration for services rendered. The RSU may be settled by way of issuance and transfer of new Maybank shares or by cash at the absolute discretion of the Maybank Group Employees' Share Scheme ("ESS") Committee. The total fair value of RSU granted to senior management employees is recognised as an employee cost with a corresponding increase in the reserve within equity over the vesting period and taking into account the probability that the RSU will vest. The fair value of RSU is measured at grant date, taking into account, the market vesting conditions upon which the RSU were granted but excluding the impact of any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of shares that are expected to be awarded on the vesting date.

At each reporting date, the Bank revises its estimates of the number of RSU that are expected to be awarded on vesting date. It recognises the impact of the revision of original estimates, if any, in the income statements and a corresponding adjustment to equity over the remaining vesting period. The equity amount is recognised in the share option reserve.

(3) Cash-settled Performance-based Scheme ("CESS")

CESS comprising of Cash-settled Performance-based Option Scheme ("CESOS") and Cash-settled Performance-based Restricted Share Unit Scheme ("CRSU") is made available to the eligible employees of overseas branches and overseas subsidiaries of the Bank, subject to achievement of performance criteria set out by the Board of Directors and prevailing market practices in the respective countries.

The cost of CESS is measured initially at fair value at the grant date using a binomial model, further details of which are disclosed in Note 31(f) and 31(g). This fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The liability is remeasured to fair value at each reporting date up to and including the settlement date, with changes in fair value recognised in the income statements in 'personnel expenses' under caption of "ESS Expense".

Details of share options granted under ESS and CESS are disclosed in Note 31(c).

(xxvii) Non-current assets (or disposal group) held for sale and discontinued operations

Non-current assets (or disposal group) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. The condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition, management has committed to the sale, and the sale is expected to have been completed within one year from the date of classification.

Immediately before the initial classification of non-current assets (or disposal group) as held for sale, the carrying amount of non-current assets (or component of a disposal group) is remeasured in accordance with applicable MFRS. Thereafter, the non-current assets (or disposal group) are measured at the lower of carrying amount and fair value less costs to sell.

Any impairment loss on a disposal group is first allocated to goodwill, and then to remaining assets and liabilities on pro rata basis, except that no loss is allocated to financial assets, deferred tax assets and investment property, which continue to be measured in accordance with MFRS. Impairment losses on initial classification as held for sale and subsequent gains or losses on remeasurement are recognised in the income statements. Gains are not recognised in excess of any cumulative impairment loss.

Property, plant and equipment and intangible assets are not depreciated or amortised once classified as held for sale. Equity accounting on associates ceases once the associates are classified as held for sale.

2. ACCOUNTING POLICIES (CONT'D.)

2.3 Summary of significant accounting policies (cont'd.)

(xxvii) Non-current assets (or disposal group) held for sale and discontinued operations (cont'd.)

A disposal group qualifies as discontinued operation if it is a component of the Group and of the Bank that either has been disposed of, or is classified as held for sale and:

- represents a separate major line of business or geographical area of operations;
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- is a subsidiary acquired exclusively with a view to resale.

Discontinued operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the income statements.

(xxviii) Share capital and dividends declared

Ordinary shares are classified as equity when there is no contractual obligation to transfer cash or other financial assets. Transaction costs directly attributable to the issuance of new equity shares are taken to equity as a deduction against the issuance proceeds.

Dividends declared on ordinary shares are recognised as a liability and deducted from equity in the period in which all relevant approvals have been obtained. Dividends declared on ordinary shares held under ESOS Trust Fund ("ETF") Pool are eliminated at the Group level.

(xxix) Contingent assets and contingent liabilities

Contingent assets arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the Group and the Bank. The Group and the Bank do not recognise contingent assets but disclose its existence when inflows of economic benefits are probable, but not virtually certain.

Contingent liabilities are possible obligations that arise from past events, whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group and of the Bank; or are present obligations that have arisen from past events but are not recognised because it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably. The Group and the Bank do not recognise contingent liabilities. Contingent liabilities are disclosed, unless the probability of outflow of economic benefits is remote.

(xxx) Earnings per share

The Group presents basic and diluted (where applicable) earnings per share ("EPS") for profit or loss from continuing operations attributable to the ordinary equity holders of the Bank on the face of the income statements.

Basic EPS is calculated by dividing the net profit attributable to equity holders of the Bank by the weighted average number of ordinary shares in issue during the year period.

Diluted EPS is calculated by dividing the net profit attributable to equity holders of the Bank by the weighted average number of ordinary shares in issue during the year, which has been adjusted for the effects of all dilutive potential ordinary shares. No adjustment is made for anti-dilutive potential ordinary shares.

Where there is a discontinued operation reported, the Group presents the basic and diluted amounts per share for the discontinued operation on the face of the income statements.

(xxxi) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is a person or a group of people that responsible to allocate resources and assess the performance of the operating segments of an entity. The Group has determined the Group Executive Committee of the Bank as its chief operating decision-maker.

All transactions between business segments (intra-segment revenue and costs) are being eliminated at head office. Income and expenses directly associated with each business segment are included in determining business segment performance.

The Group disclosed its segment information in Note 58.

(xxxii) Monies held-in-trust by Participating Organisation of Bursa Malaysia Securities Berhad ("FRSIC Consensus 18")

FRSIC Consensus 18 was developed by the Financial Reporting Standards Implementation Committee ("FRSIC") and issued by the Malaysian Institute of Accountants on 18 September 2012. FRSIC Consensus 18 has been applied in the financial statements of the Group relating to monies in the trust accounts held by entities within the Group that is a participating organisation of Bursa Malaysia Securities Berhad or participating members of an equivalent stock exchanges in the respective countries.

In accordance with FRSIC Consensus 18, monies held-in-trust by a participating organisation are not recognised as part of the entity's assets with the corresponding liabilities as the entity neither has control over the trust monies nor has any contractual or statutory obligation to its clients on the money deposited in the trust account that would result in an outflow of resources embodying economic benefits from the entity. This accounting treatment is consistent with the definition of assets and liabilities as defined in the *Conceptual Framework for Financial Reporting* under the MFRS Framework.

The Group has disclosed the carrying amounts of the monies held-in-trust for clients as at the reporting date in Note 5.

2.4 Changes in accounting policies, disclosures and restatement of comparative information

On 1 January 2014, the Group and the Bank adopted the following amended MFRS and IC Interpretation mandatory for annual financial periods beginning on or after 1 January 2014:

| Description | Effective for annual periods beginning on or after |
|--|--|
| MFRS 10 <i>Consolidated Financial Statements</i> - Investment Entities (Amendments to MFRS 10) | 1 January 2014 |
| MFRS 12 <i>Disclosure of Interest in Other Entities</i> - Investment Entities (Amendments to MFRS 12) | 1 January 2014 |
| MFRS 127 <i>Separate Financial Statements</i> - Investment Entities (Amendments to MFRS 127) | 1 January 2014 |
| MFRS 132 <i>Financial Instruments: Presentation</i> - Offsetting Financial Assets and Financial Liabilities (Amendments to MFRS 132) | 1 January 2014 |
| MFRS 136 <i>Impairment of Assets</i> - Recoverable Amount Disclosures for Non-Financial Assets (Amendments to MFRS 136) | 1 January 2014 |
| MFRS 139 <i>Financial Instruments: Recognition and Measurement</i> - Novation of Derivatives and Continuation of Hedge Accounting (Amendments to MFRS 139) | 1 January 2014 |
| IC Interpretation 21 <i>Levies</i> | 1 January 2014 |

The nature and the impact of the above amendments to standards and IC interpretation are described below:

(i) MFRS 10 *Consolidated Financial Statements* - Investment Entities (Amendments to MFRS 10), MFRS 12 *Disclosure of Interest in Other Entities* - Investment Entities (Amendments to MFRS 12) and MFRS 127 *Separate Financial Statements* - Investment Entities (Amendments to MFRS 127)

These amendments provide an exception to the consolidation requirement for entities that meet the definition of an investment entity under MFRS 10 and must be applied retrospectively, subject to certain transition relief. The exception to consolidation requires investment entities to account for subsidiaries at fair value through profit or loss.

None of the entities in the Group including the Bank qualify as an investment entity under MFRS 10. Thus, adoption of these amendments did not have any impact to the financial statements of the Group.

Notes to the Financial Statements

31 December 2014

2. ACCOUNTING POLICIES (CONT'D.)

2.4 Changes in accounting policies, disclosures and restatement of comparative information (cont'd.)

(ii) MFRS 132 Financial Instruments: Presentation - Offsetting Financial Assets and Financial Liabilities (Amendments to MFRS 132)

The amendments clarify the meaning of "currently has a legally enforceable right to set-off" and the criteria for non-simultaneous settlement mechanisms of clearing houses to qualify for offsetting and retrospective application is required.

Upon adoption of the amendments, the Group and the Bank have restated certain financial assets and financial liabilities in the statements of financial position of the Group and of the Bank, which did not meet the offsetting criteria that were previously reported on a net basis as at 31 December 2013 and 1 January 2013. The effects of reclassification are disclosed in Note 2.4(vi) and Note 2.4(vii).

(iii) MFRS 136 Impairment of Assets - Recoverable Amount Disclosures for Non-Financial Assets (Amendments to MFRS 136)

The amendments require the disclosure of recoverable amounts for the assets or CGUs for which impairment loss has been recognised or reversed during the period and retrospective application is required.

The additional disclosures are disclosed in Note 20(a).

(iv) MFRS 139 Financial Instruments: Recognition and Measurement - Novation of Derivatives and Continuation of Hedge Accounting (Amendments to MFRS 139)

The amendments provide relief from discontinuing hedge accounting when novation of a derivative designated as a hedging instrument meets certain criteria and retrospective application is required.

The Group and the Bank have not novated derivatives during current financial year and have assessed that the novation of derivatives in prior years did not meet the criteria required under these amendments. The adoption of the amendments did not have any significant impact to the financial statements of the Group and of the Bank.

(v) IC Interpretation 21 Levies

The interpretation clarifies that an entity recognises a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be anticipated before the specified minimum threshold is reached. Retrospective application is required. The Group and the Bank have assessed that the adoption of the interpretation did not have any impact to the financial statements of the Group and of the Bank.

(vi) Financial effects arising from changes in accounting policies and restatement of comparative information

The following are reconciliations of statements of financial position of (a) the Group and (b) the Bank as at 1 January 2013 and as at 31 December 2013:

| Tier 1 Capital Ratio | 15.925% | - | 15.925% | 17.244% | - | 17.244% |
| Total Capital Ratio | 15.925% | - | 15.925% | 17.244% | - | 17.244% |

[#] Computed in accordance with BNM's Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework (Basel II - Risk-Weighted Assets) issued on 28 November 2012.

2.5 Significant changes in regulatory requirements

(i) Circular on Classification and Impairment Provisions for Loans/Financing - Maintenance of Regulatory Reserve issued by Bank Negara Malaysia ("BNM")

On 4 February 2014, BNM issued a letter requiring banking institutions to maintain, in aggregate, collective impairment allowance and regulatory reserve of no less than 1.20% of total outstanding loans, advances and financing, net of individual impairment allowance, pursuant to paragraph 13 of the BNM's Policy Document on *Classification and Impairment Provisions for Loans/Financing*.

The regulatory reserve is maintained in addition to the collective impairment allowance that has been assessed and recognised in accordance with MFRS 139, and it will be transferred from the retained profits to a separate reserve within equity as an additional credit risk absorbent. Banking institutions are required to comply with this new regulatory requirement by 31 December 2015.

During the financial year, the Group has transferred RM274.5 million from its retained profits to regulatory reserve in accordance with BNM's requirements. The early adoption of this requirement did not have any impact to the profit or loss of the Group and of the Bank. The regulatory reserve does not qualify as Common Equity Tier 1 ("CET1") capital and Tier 1 capital under BNM's Capital Adequacy Framework (Capital Components).

Further details on the regulatory reserve is disclosed in Note 33(b).

(ii) Introduction of the New Legislation on Malaysia Goods and Services Tax ("GST")

In the Malaysian Budget 2014, the Government announced the introduction of the Goods and Services Tax ("GST") which would replace the existing Sales and Services Tax regime with effect from 1 April 2015.

Based on the Goods and Services Tax Act 2014, persons having businesses with annual sales turnover exceeding RM500,000 are required to be registered with the Royal Malaysian Customs Department on or before 31 December 2014. Persons include an individual, sole proprietor, partnership, company, trust, estate, society, union, club, association or any other organisation including a government department or a local authority which is involved in the business of making taxable supplies in Malaysia.

Entities within Maybank Group that meet the criteria for GST registration have been registered with the Royal Malaysian Customs Department. The Group is in the process of enhancing the IT systems, operating procedures and policies to ensure compliance with this new legislation.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's and the Bank's financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of income, expenses, assets, liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Although these estimates and judgements are based on management's best knowledge of current events and actions, actual results may differ. The most significant uses of judgements and estimates are as follows:

3.1 Going concern

The Group's and the Bank's managements has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group's and the Bank's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

3.2 Impairment of financial investments portfolio (Notes 9, 10 and 44)

The Group and the Bank review their financial investments AFS and financial investments HTM at each reporting date to assess whether there are any objective evidence that these investments are impaired. If there are indicators or objective evidence, these investments are subjected to impairment review.

Notes to the Financial Statements

31 December 2014

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (CONT'D.)

3.2 Impairment of financial investments portfolio (Notes 9, 10 and 44) (cont'd.)

In carrying out the impairment review, the following management's judgements are required:

- (i) Determination whether the investment is impaired based on certain indicators such as, amongst others, prolonged decline in fair value, significant financial difficulties of the issuers or obligors, the disappearance of an active trading market and deterioration of the credit quality of the issuers or obligors; and
- (ii) Determination of "significant" or "prolonged" requires judgement and management evaluation on various factors, such as historical fair value movement, the duration and extent of reduction in fair value.

3.3 Fair value estimation of financial assets at FVTPL (Note 8), financial investments AFS (Note 9) and derivative financial instruments (Note 12)

When the fair values of financial assets and financial liabilities recorded in the statement of financial position cannot be measured based on quoted prices in active markets, their fair values are measured using valuation techniques. Valuation techniques include the discounted cash flows method, option pricing models, credit models and other relevant valuation models.

The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Refer to Note 52 for further disclosures.

3.4 Impairment losses on loans, advances and financing (Notes 11 and 43)

The Group and the Bank review their individually significant loans, advances and financing at each reporting date to assess whether an impairment loss should be recorded in the income statements. In particular, management's judgement is required in the estimation of the amount and timing of future cash flows when determining the impairment loss. In estimating these cash flows, the Group and the Bank make judgements about the borrower's or the customer's financial situation and the net realisable value of collateral. These estimates are based on assumptions on a number of factors and actual results may differ, resulting in future changes to the allowances.

Loans, advances and financing that have been assessed individually but for which no impairment is required and all individually insignificant loans, advances and financing are then assessed collectively, in groups of assets with similar credit risk characteristics, to determine whether allowances should be made due to incurred loss events for which there is objective evidence but whose effects of which are not yet evident. The collective assessment takes account of data from the loans, advances and financing portfolio (such as credit quality, levels of arrears, credit utilisation, loan to collateral ratios etc.) and judgements on the effect of concentrations of risks (such as the performance of different individual groups).

3.5 Valuation of investment properties (Note 15)

The measurement of the fair value for investment properties is arrived at by reference to market evidence of transaction prices for similar properties and is performed by independent valuers who hold a recognised and relevant professional qualification and have recent experience in the locations and category of the properties being valued.

3.6 Impairment of investment in subsidiaries (Note 17) and interest in associates and joint ventures (Note 18)

The Group assesses whether there is any indication that an investment in subsidiaries and interest in associates and joint ventures may be impaired at each reporting date.

If indicators are present, these investments are subjected to impairment review. The impairment review comprises a comparison of the carrying amounts and estimated recoverable amounts of the investments.

Judgements made by management in the process of applying the Group's accounting policies in respect of investment in subsidiaries and interest in associates and joint ventures are as follows:

- (i) The Group determines whether its investments are impaired following certain indications of impairment such as, amongst others, prolonged shortfall between market value and carrying amount, significant changes with adverse effects on the investment and deteriorating financial performance of the investment due to observed changes in the economic environment; and

- (ii) Depending on their nature and the location in which the investments relate to, judgements are made by management to select suitable methods of valuation such as, amongst others, discounted future cash flows or estimated fair value based on quoted market price of the most recent transactions.

Once a suitable method of valuation is selected, management makes certain assumptions concerning the future to estimate the recoverable amount of the specific individual investment. These assumptions and other key sources of estimation uncertainty at the reporting date, may have a significant risk of causing a material adjustment to the carrying amounts of the investments within the next financial year. Depending on the specific individual investment, assumptions made by management may include, amongst others, assumptions on expected future cash flows, revenue growth, terminal value, discount rate used for purposes of discounting future cash flows which incorporates the relevant risks and expected future outcome based on certain past trends.

Sensitivity to changes in assumptions

Management believes that no reasonably expected possible change in the key assumptions described above would cause the carrying amounts of the investments to materially exceed their recoverable amounts.

3.7 Impairment of goodwill (Note 20(a))

The Group tests annually whether the goodwill that has an indefinite life is impaired by measuring the recoverable amount of the goodwill based on the value-in-use method, which requires the use of estimates of future cash flow projections, terminal growth rates and discount rates. Changes to the assumptions used by management, particularly the discount rate and the terminal value, may affect the results of the impairment assessment.

3.8 Amortisation of other intangible assets (Note 20(b) to (d))

The Group's and the Bank's intangible assets that can be separated and sold, and have a finite useful life are amortised over their estimated useful life. The determination of the estimated useful life of these intangible assets requires management's judgement which includes analysing the circumstances, the industry and market practice.

3.9 Deferred tax (Note 27) and income taxes (Note 45)

The Group and the Bank are subject to income taxes in many jurisdictions and significant judgement is required in estimating the provision for income taxes. There are many transactions and interpretations of tax law for which the final outcome will not be established until some time later. Liabilities for taxation are recognised based on estimates of whether additional taxes will be payable. The estimation process includes seeking advice on the tax treatments where appropriate. Where the final liability for taxation is different from the amounts that were initially recorded, the differences will affect the income tax and deferred tax provisions in the period in which the estimate is revised or the final liability is established.

Deferred tax assets are recognised in respect of tax losses to the extent that it is probable that future taxable profit will be available against which the losses can be utilised. Judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits, together with future tax planning strategies.

3.10 Liabilities of insurance business (Note 23)

(a) Life insurance and family takaful businesses

There are several sources of uncertainty that need to be considered in the estimation of life insurance and family takaful liabilities.

For life insurance contracts, the main assumptions used relate to mortality, morbidity, longevity, expenses, withdrawal rates and discount rates. These estimates, adjusted when appropriate to reflect the insurance subsidiary's unique risk exposure, provide the basis for the valuation of future policy benefits payable.

For family takaful certificates, estimates are made for future deaths, disabilities, maturities, investment returns in accordance with the takaful subsidiary's experience. The family takaful fund bases the estimate of expected number of deaths on applied mortality tables, adjusted where appropriate to reflect the fund's unique risk exposures. The estimated number of deaths determines the value of possible future benefits to be paid out, which will be factored into ensuring sufficient cover by reserves, which in return is monitored against current and future contributions. For those certificates that cover risks related to disability, estimates are made based on recent past experience and emerging trends.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (CONT'D.)

3.10 Liabilities of insurance business (Note 23) (cont'd.)

(b) General insurance and general takaful businesses

The principal uncertainty in the general insurance and general takaful businesses arise from the technical provisions which include the premium/contribution liabilities and claims liabilities. The bases of valuation of the premium/contribution liabilities and claims liabilities are disclosed in Note 2.3(xxii).

Generally, claims liabilities are determined based upon historical claims experience, existing knowledge of events, the terms and conditions of the relevant policies and interpretation of circumstances. Particularly relevant is past experience with similar cases, historical claims, development trends, legislative changes, judicial decisions, economic conditions and claims handling procedures. It is certain that actual, future contribution and claims liabilities will not exactly develop as projected and may vary from the projections.

3.11 Defined benefit plans (Note 24(a))

The cost of the defined benefit plan and other post employment benefits and the present value of the pension obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, expected rate of returns on investments, future salary increases, mortality rates, resignation rates and future pension increases. Due to the complexity of the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, management considers the interest rates of high quality government bonds in their respective currencies and extrapolated maturity corresponding to the expected duration of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables for the specific countries. Future salary increases and pension increases are based on expected future inflation rates for the respective countries.

Further details about the assumptions used, including a sensitivity analysis, are given in Note 24(a)(iv).

3.12 Deemed controlled structured entities (Note 62(b))

The Group has established a number of fixed income funds and equity funds, where it is deemed to be acting as principal rather than agent in its role as funds investment manager for the funds. Accordingly, the Group deemed to control these entities and consolidate these entities based on the accounting policies as disclosed in Note 2.2.

4. STANDARDS AND ANNUAL IMPROVEMENTS TO STANDARDS ISSUED BUT NOT YET EFFECTIVE

The following are standards and annual improvements to standards issued by Malaysian Accounting Standards Board ("MASB"), but not yet effective, up to the date of issuance of the Group's and of the Bank's financial statements. The Group and the Bank intend to adopt these standards and annual improvements to standards, if applicable, when they become effective:

| Description | Effective for annual periods beginning on or after |
|--|--|
| MFRS 9 <i>Financial Instruments</i> (IFRS 9 issued by IASB in July 2014) | 1 January 2018 |
| MFRS 10 <i>Consolidated Financial Statements - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> (Amendments to MFRS 10) | 1 January 2016 |
| MFRS 10 <i>Consolidated Financial Statements - Investment Entities: Applying the Consolidation Exception</i> (Amendments to MFRS 10) | 1 January 2016 |
| MFRS 11 <i>Joint Arrangements - Accounting for Acquisitions of Interests in Joint Operations</i> (Amendments to MFRS 11) | 1 January 2016 |
| MFRS 12 <i>Disclosure of Interests in Other Entities - Investment Entities: Applying the Consolidation Exception</i> (Amendments to MFRS 12) | 1 January 2016 |
| MFRS 14 <i>Regulatory Deferral Accounts</i> | 1 January 2016 |

| Description | Effective for annual periods beginning on or after |
|--|--|
| MFRS 15 <i>Revenue from Contracts with Customers</i> | 1 January 2017 |
| MFRS 101 <i>Presentation of Financial Statements - Disclosure Initiative</i> (Amendments to MFRS 101) | 1 January 2016 |
| MFRS 116 <i>Property, Plant and Equipment - Clarification of Acceptable Methods of Depreciation and Amortisation</i> (Amendments to MFRS 116) | 1 January 2016 |
| MFRS 116 <i>Property, Plant and Equipment - Agriculture: Bearer Plants</i> (Amendments to MFRS 116) | 1 January 2016 |
| MFRS 119 <i>Employee Benefits - Defined Benefits Plans: Employee Contributions</i> (Amendments to MFRS 119) | 1 July 2014 |
| MFRS 127 <i>Separate Financial Statements - Equity Method in Separate Financial Statements</i> (Amendments to MFRS 127) | 1 January 2016 |
| MFRS 128 <i>Investment in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i> (Amendments to MFRS 128) | 1 January 2016 |
| MFRS 128 <i>Investments in Associates and Joint Ventures - Investment Entities: Applying the Consolidation Exception</i> (Amendments to MFRS 128) | 1 January 2016 |
| MFRS 138 <i>Intangible Assets - Clarification of Acceptable Methods of Depreciation and Amortisation</i> (Amendments to MFRS 138) | 1 January 2016 |
| MFRS 141 <i>Agriculture - Agriculture: Bearer Plants</i> (Amendments to MFRS 141) | 1 January 2016 |
| Annual Improvements to MFRSs 2010 - 2012 Cycle | 1 July 2014 |
| Annual Improvements to MFRSs 2011 - 2013 Cycle | 1 July 2014 |
| Annual Improvements to MFRSs 2012 - 2014 Cycle | 1 January 2016 |

MFRS 9 *Financial Instruments*

In July 2014, the International Accounting Standards Board ("IASB") issued the final version of IFRS 9 *Financial Instruments* which reflects all phases of the financial instruments project and replaces IAS 39 *Financial Instruments: Recognition and Measurement* and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Retrospective application is required, but restatement of comparative information is not compulsory. Early application of previous versions of IFRS 9 (2009, 2010 and 2013) is permitted if the date of initial application is before 1 February 2015.

MFRS 9 is issued by the MASB in respect of its application in Malaysia. It is equivalent to IFRS 9 as issued by IASB, including the effective and issuance dates. The areas with expected significant impact from application of MFRS 9 are summarised below:

(i) Classification and measurement

The classification and measurement of financial assets is determined on the basis of the contractual cash flow characteristics and the objective of the business model associated with holding the assets. Key changes include:

- The held-to-maturity ("HTM") and available-for-sale ("AFS") asset categories will be removed;
- A new asset category measured at fair value through other comprehensive income ("FVOCI") is introduced. This applies to debt instruments with contractual cash flow characteristics that are solely payments of principal and interest and held in a model whose objective is achieved by both collecting contractual cash flows and selling financial assets;
- A new asset category for non-traded equity investments measured at FVOCI is introduced; and
- Classification of financial liabilities will remain largely unchanged, other than the fair value gains and losses attributable to changes in 'own credit risk' for financial liabilities designated and measured at fair value through profit or loss to be presented in other comprehensive income.

The adoption of MFRS 9 will have an effect on the classification and measurement of the Group's and of the Bank's financial assets, and may have no impact on the classification and measurement of the Group's and of the Bank's financial liabilities.

Notes to the Financial Statements

31 December 2014

4. STANDARDS AND ANNUAL IMPROVEMENTS TO STANDARDS ISSUED BUT NOT YET EFFECTIVE (CONT'D.)

MFRS 9 *Financial Instruments* (cont'd.)

(ii) Impairment

The MFRS 9 impairment requirements are based on an expected credit loss model ("ECL") that replaces the incurred loss model under the current accounting standard. The Group and the Bank will be generally required to recognise either a 12-month or lifetime ECL, depending on whether there has been a significant increase in credit risk since initial recognition. The ECL model will apply to financial assets measured at amortised cost or at FVOCI, irrevocable loan commitments and financial guarantee contracts, which will include loans, advances and financing and debt instruments held by the Group and the Bank. MFRS 9 will change the Group's and the Bank's current methodology for calculating allowances for impairment, in particular for individual and collective assessment and provisioning.

(iii) Hedge accounting

The requirements for general hedge accounting have been simplified for hedge effectiveness testing and may result in more designations of hedged items for accounting purposes.

The Group and the Bank are in the process of assessing the financial implications for adopting the new standard.

MFRS 10 *Consolidated Financial Statements - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to MFRS 10)* and MFRS 128 *Investment in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to MFRS 128)*

The amendments require the full gain to be recognised when the assets transferred to associate or joint venture meet the definition of a business as defined in MFRS 3 *Business Combinations*. Any gain or loss on assets transferred to associate or joint venture that do not meet the definition of a business would be recognised only to the extent of the unrelated investors' interest in the associate or joint venture. The amendments are applied prospectively effective for periods beginning on or after 1 January 2016, with early application is permitted. The Group and the Bank do not anticipate significant impact to the financial statements upon adoption of the amendments.

MFRS 10 *Consolidated Financial Statements - Investment Entities: Applying the Consolidation Exception (Amendments to MFRS 10)*, MFRS 12 *Disclosures of Interests in Other Entities - Investment Entities: Applying the Consolidation Exception (Amendments to MFRS 12)* and MFRS 128 *Investments in Associates and Joint Ventures - Investment Entities: Applying the Consolidation Exception (Amendments to MFRS 128)*

The amendments address three issues arising in practice in the application of the investment entities consolidation exception.

- Amendments to MFRS 10 clarify that the exemption from presenting consolidated financial statements applies to parent entity that is a subsidiary of an investment entity, when the investment entity measures all of its subsidiaries at fair value. It also clarifies that only a subsidiary that is not an investment entity itself and provides support services to the investment entity is consolidated. All subsidiaries that are themselves investment entities are measured at fair value through profit or loss.
- Amendments to MFRS 12 clarify the application of the standard to investment entities. An investment entity that prepares financial statements in which all of its subsidiaries are measured at fair value through profit or loss, is required to present the disclosures in respect of investment entities required by MFRS 12.
- Amendments to MFRS 128 allow an entity that is not itself an investment entity, and that has an interest in an investment entity associate or joint venture, to retain the fair value measurement applied by the investment entity associate or joint venture to its interests in subsidiaries.

The amendments are applied retrospectively effective for annual periods beginning on or after 1 January 2016, with early application is permitted. The Group and the Bank do not anticipate significant impact to the financial statements upon adoption of the amendments.

MFRS 11 *Joint Arrangements - Accounting for Acquisitions of Interests in Joint Operations (Amendments to MFRS 11)*

The amendments require that a joint operator accounts for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business, must apply the relevant MFRS 3 principles for business combinations accounting,

and other MFRS that do not conflict with MFRS 11. It also clarifies that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation while joint control is retained. In addition, a scope exclusion has been added to MFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party. The amendments apply to both the acquisition of the initial interest in joint operation and the acquisition of any additional interests in the same joint operation, in which the activity of the joint operation constitutes a business. The amendments are applied prospectively effective for annual periods beginning on or after 1 January 2016, with early adoption is permitted. The Group and the Bank do not anticipate significant impact to the financial statements upon adoption of the amendments.

MFRS 14 *Regulatory Deferral Accounts*

MFRS 14 is an optional standard that allows an entity, whose activities are subject to rate-regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first-time adoption of MFRS. Entities that adopt MFRS 14 must present the regulatory deferral accounts as separate line items on the statement of financial position and present movements in these account balances as separate line items in the income statements and other comprehensive income. The standard requires disclosures on the nature of, and risks associated with, the entity's rate-regulation and the effects of that rate-regulation on its financial statements. MFRS 14 is effective for annual periods beginning on or after 1 January 2016. Since the Group and the Bank are existing MFRS preparers, this standard would not apply.

MFRS 15 *Revenue from Contracts with Customers*

MFRS 15 was issued in May 2014 and establishes a new five-step model that will apply to revenue arising from contracts with customers. Under MFRS 15 revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in MFRS 15 provide a more structured approach to measuring and recognising revenue. The new revenue standard is applicable to all entities and will supersede all current revenue recognition requirements under MFRS. Either a full or modified retrospective application is required for annual periods beginning on or after 1 January 2017, with early adoption permitted. The Group and the Bank are in the process of assessing the financial implications for adopting the new standard.

MFRS 101 *Presentation of Financial Statements - Disclosure Initiative (Amendments to MFRS 101)*

The amendments are part of a major initiative to improve disclosure requirements in MFRS financial statements. These amendments include narrow-focus improvements in five areas as follows:

(i) Materiality

The amendments clarify that an entity must not reduce the understandability of its financial statements by obscuring material information with immaterial information or by aggregating material items that have different natures or functions. It also re-emphasises that, when a standard requires a specific disclosure, the information must be assessed to determine whether it is material and, consequently, whether presentation or disclosure of that information is warranted.

(ii) Disaggregation and subtotals

The amendments clarify that specific line items in the statements of profit or loss and other comprehensive income and statement of financial position may be disaggregated.

It also introduces requirements for how an entity should present additional subtotals (in addition to those already required in MFRS) in the statements of profit or loss and other comprehensive income and statement of financial position, where the additional subtotals must:

- be comprised of line items made up of amounts recognised and measured in accordance with MFRS;
- be presented and labelled in a manner that makes the line items that constitute the subtotal clear and understandable;
- be consistent from period to period; and
- not be displayed with more prominence than the subtotals and totals currently required in MFRS for the statement of financial position or statements of profit or loss and other comprehensive income.

For additional subtotals presented in the statements of profit or loss and other comprehensive income, an entity must presents the line items that reconcile any such subtotals with the subtotals or totals currently required in MFRS for such statements.

4. STANDARDS AND ANNUAL IMPROVEMENTS TO STANDARDS ISSUED BUT NOT YET EFFECTIVE (CONT'D.)

MFRS 101 Presentation of Financial Statements - Disclosure Initiative (Amendments to MFRS 101) (cont'd.)

The amendments are part of a major initiative to improve disclosure requirements in MFRS financial statements. These amendments include narrow-focus improvements in five areas as follows (cont'd.):

(iii) *Notes structure*

The amendments clarify that entities have flexibility as to the order in which they present the notes to financial statements, but also emphasise that understandability and comparability should be considered when deciding on that order.

Examples of systematic ordering or groupings of the notes include:

- Giving prominence to the areas of its activities that the entity considers to be most relevant to an understanding of its financial performance and financial position;
- Grouping together information about items measured similarly, such as assets measured at fair value; or
- Following the order of the line items in statements of profit or loss and other comprehensive income and statement of financial position, similar to the order listed in current paragraph 114 of MFRS 101.

(iv) *Disclosure of accounting policies*

The amendments remove the examples of significant accounting policies in the current paragraph 20 of MFRS 101, i.e. the income taxes accounting policy and the foreign currency accounting policy, as these were considered unhelpful in illustrating what significant accounting policies could be.

(v) *Presentation of items of Other Comprehensive Income ("OCI") arising from equity accounted investments*

The amendments clarify that the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, classified between those items that will or will not be subsequently reclassified to income statements.

The amendments are applicable for annual periods beginning on or after 1 January 2016, with early application is permitted. The Group and the Bank do not anticipate significant impact to the financial statements upon adoption of the amendments.

MFRS 116 Property, Plant and Equipment - Clarification of Acceptable Methods of Depreciation and Amortisation (Amendments to MFRS 116) and MFRS 138 Intangible Assets - Clarification of Acceptable Methods of Depreciation and Amortisation (Amendments to MFRS 138)

The amendments clarify the principle in MFRS 116 and MFRS 138 that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets. The amendments are effective prospectively for annual periods beginning on or after 1 January 2016, with early adoption permitted. The Group and the Bank do not anticipate any impact to the financial statements upon adoption of the amendments as the Group and the Bank have not used a revenue-based method to depreciate the non-current assets.

MFRS 116 Property, Plant and Equipment - Agriculture: Bearer Plants (Amendments to MFRS 116) and MFRS 141 Agriculture - Agriculture: Bearer Plants (Amendments to MFRS 141)

The amendments change the accounting requirements for biological assets that meet the definition of bearer plants. Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of MFRS 141. Instead, MFRS 116 will apply. After initial recognition, bearer plants will be measured under MFRS 116 at accumulated cost (before maturity) and using either the cost model or revaluation model (after maturity). The amendments also require that produce that grows on bearer plants will remain in the scope of MFRS 141 measured at fair value less costs to sell. For government grants related to bearer plants, MFRS 120 *Accounting for Government Grants and Disclosure of Government Assistance* will apply. The amendments are retrospectively effective for annual periods beginning on or after 1 January 2016,

with early adoption permitted. The Group and the Bank do not anticipate any impact to the financial statements upon adoption of the amendments as the Group and the Bank do not have any bearer plants.

MFRS 119 Employee Benefits - Defined Benefits Plans: Employee Contributions (Amendments to MFRS 119)

The amendments to MFRS 119 requires an entity to consider contributions from employees or third parties when accounting for defined benefit plans. Where the contributions are linked to service, they should be attributed to periods of service as a negative benefit. These amendments clarify that, if the amount of the contributions is independent of the number of years of service, an entity is permitted to recognise such contributions as a reduction in the service cost in the period in which the related service is rendered, instead of attributing the contributions to the periods of service. The amendments are effective for annual periods beginning on or after 1 July 2014. The Group does not anticipate significant financial impact to the financial statements upon adoption of the amendments.

MFRS 127 Separate Financial Statements - Equity Method in Separate Financial Statements (Amendments to MFRS 127)

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying MFRS and electing to change to the equity method in its separate financial statements will have to apply that change retrospectively. For first-time adopters of MFRS electing to use the equity method in its separate financial statements, they will be required to apply this method from the date of transition to MFRS. The amendments are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments will not have any impact on the Group's consolidated financial statements and the Bank does not anticipate significant impact to the financial statements upon adoption of the amendments.

Annual Improvements to MFRSs

- (a) The following amendments are effective for annual periods beginning on or after 1 July 2014 with early application is permitted:

Annual Improvements to MFRSs 2010 - 2012 Cycle

(i) **MFRS 2 Share-based Payment**

This improvement is applied prospectively and clarifies various issues relating to the definitions of performance and service conditions which are vesting conditions, including:

- A performance condition must contain a service condition;
- A performance target must be met while the counterparty is rendering service;
- A performance target may relate to the operations or activities of an entity, or to those of another entity in the same group;
- A performance condition may be a market or non-market condition; and
- If the counterparty, regardless of the reason, ceases to provide service during the vesting period, the service condition is not satisfied.

The amendment is effective for share-based payment transactions for which the grant date is on or after 1 July 2014.

(ii) **MFRS 3 Business Combinations**

The amendment to MFRS 3 is applied prospectively and it clarifies that when contingent consideration meets the definition of financial instrument, its classification as a liability or equity is determined by reference to MFRS 132 *Financial Instruments: Presentation*. The amendment also clarifies that contingent consideration that is classified as an asset or a liability should be subsequently measured at fair value through profit or loss at each reporting date (whether or not they fall within the scope of MFRS 9 or MFRS 139, as applicable) and changes in fair value should be recognised in the income statements.

The amendment is effective for business combination for which the acquisition date is on or after 1 July 2014.

(iii) **MFRS 8 Operating Segments**

The amendment to MFRS 8 is applied retrospectively and clarifies that:

- An entity must disclose the judgements made by management in applying the aggregation criteria in paragraph 12 of MFRS 8, including a brief description of operating segments that have been aggregated and the economic characteristics (e.g. sales and gross margins) used to assess whether the segments are 'similar'; and

Notes to the Financial Statements

31 December 2014

4. STANDARDS AND ANNUAL IMPROVEMENTS TO STANDARDS ISSUED BUT NOT YET EFFECTIVE (CONT'D.)

Annual Improvements to MFRSs (cont'd.)

- (a) The following amendments are effective for annual periods beginning on or after 1 July 2014 with early application is permitted (cont'd.):

Annual Improvements to MFRSs 2010 - 2012 Cycle (cont'd.)

(iii) **MFRS 8 Operating Segments (cont'd.)**

- The reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker, similar to the required disclosure for segment liabilities.

(iv) **MFRS 13 Fair Value Measurement**

The amendment relates to the IASB's Basis for Conclusions which is not an integral part of the Standard. The Basis for Conclusions clarifies that when IASB issued IFRS 13, it did not remove the practical ability to measure short-term receivables and payables with no stated interest rate at invoice amounts without discounting, if the effect of discounting is immaterial.

(v) **MFRS 116 Property, Plant and Equipment and MFRS 138 Intangible Assets**

The amendments are applied retrospectively and clarify that the asset may be revalued by reference to observable data on either the gross or the net carrying amount. In addition, the accumulated depreciation or amortisation is the difference between the gross carrying amount and the carrying amount of the asset after taking into account accumulated impairment losses.

(vi) **MFRS 124 Related Party Disclosures**

The amendment to MFRS 124 is applied retrospectively and clarifies that a management entity (an entity that provides key management personnel services) is a related party and subject to the related party disclosures. In addition, an entity that uses a management entity is required to disclose the expenses incurred for management services.

Annual Improvements to MFRSs 2011 - 2013 Cycle

(i) **MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards**

The amendment relates to the MASB's Basis for Conclusions which is not an integral part of the Standard. The Basis for Conclusions clarifies that a first-time adopter is permitted but not required to apply a new or revised Standard that is not yet mandatory but is available for early application.

(ii) **MFRS 3 Business Combinations**

The amendment to MFRS 3 is applied prospectively and clarifies for the scope exceptions within MFRS 3 that:

- Joint arrangements, not just joint ventures, are outside the scope of MFRS 3; and
- This scope exception applies only to the accounting in the financial statements of the joint arrangement itself.

(iii) **MFRS 13 Fair Value Measurement**

The amendment to MFRS 13 is applied prospectively and it clarifies that the scope of the portfolio exception of MFRS 13 includes all contracts accounted for within the scope of MFRS 139 *Financial Instruments: Recognition and Measurement* or MFRS 9 *Financial Instruments*, regardless of whether they meet the definition of financial assets or financial liabilities as defined in MFRS 132 *Financial Instruments: Presentation*.

(iv) **MFRS 140 Investment Property**

The amendment to MFRS 140 is applied prospectively and it clarifies that the determination of whether an acquisition of investment property meets the definition of both a business combination as defined in MFRS 3 and investment property as defined in MFRS 140 requires the separate application of both Standards independently of each other.

- (b) The following amendments are effective for annual periods beginning on or after 1 January 2016 with early application is permitted:

Annual Improvements to MFRSs 2012 - 2014 Cycle

(i) **MFRS 5 Non-current Assets Held for Sale and Discontinued Operations**

The amendment to MFRS 5 is applied prospectively and it clarifies that changing of disposal methods from held for sale to distribution to owners or vice versa should not be considered as a new plan of disposal, rather it is a continuation of the original plan. It also clarifies that changing of the disposal method does not change the date of classification which means the sale or distribution to owner must be completed within one year from the original date of classification.

(ii) **MFRS 7 Financial Instruments: Disclosures**

Servicing Contracts

An entity is required to provide disclosures for any continuing involvement in a transferred asset that is derecognised in its entirety. The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity is required to assess the nature of the fee and arrangement against the guidance for continuing involvement in MFRS 7 in order to assess whether the disclosures are required. The amendment is applied retrospectively. However, the required disclosures would not need to be provided for any period beginning before the annual period in which the entity first applies the amendment.

Applicability of the amendments to MFRS 7 to condensed interim financial statements

The amendment is applied retrospectively and it removes the phrase "and interim periods within those annual periods" from paragraph 44R, clarifying that the disclosures on offsetting of financial assets and financial liabilities are not required in the condensed interim financial report.

(iii) **MFRS 119 Employee Benefits**

The amendment to MFRS 119 clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bonds denominated in that currency must be used.

(iv) **MFRS 134 Interim Financial Reporting**

The amendment to MFRS 134 is applied retrospectively and it clarifies the meaning of 'elsewhere in the interim financial report'. It states that the required interim disclosures must either be in the interim financial statements or incorporated by cross-reference between the interim financial statements and wherever they are included within the greater interim financial report (e.g. in the management commentary or risk report). The other information within the interim financial report must be available to users on the same terms as the interim financial statements and at the same time.

The Group and the Bank do not expect that the amendments on the annual improvements for the above standards will have significant financial implications in future financial statements.

Notes to the Financial Statements

31 December 2014

5. CASH AND SHORT-TERM FUNDS

| | Group | | Bank | |
|--|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Cash balances and deposits with financial institutions | 50,888,306 | 45,573,428 | 34,778,324 | 29,320,984 |
| Money at call | 1,964,554 | 2,493,930 | - | - |
| | 52,852,860 | 48,067,358 | 34,778,324 | 29,320,984 |

The Group's monies held-in-trust for clients as at the reporting date are approximately RM3,053,243,000 (31 December 2013: RM2,224,742,000). These amounts are excluded from the cash and short-term funds of the Group in accordance with FRSIC Consensus 18. The Bank does not have monies held-in-trust for clients as at the reporting date.

6. DEPOSITS AND PLACEMENTS WITH FINANCIAL INSTITUTIONS

| | Note | Group | | Bank | |
|------------------------------|------|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |

| Impaired loans, advances and financing | 6,234,161 | 5,360,903 | 4,249,829 | 3,776,831 |

(ix) Movements in the allowances for impaired loans, advances and financing are as follows:

| | Group | | Bank | |
|--|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Individual allowance | | | | |
| At 1 January | 1,939,320 | 2,228,535 | 1,502,010 | 1,719,455 |
| Allowance made (Note 43) | 774,901 | 920,763 | 350,055 | 722,580 |
| Amount written back (Note 43) | (235,824) | (324,954) | (198,312) | (270,734) |
| Amount written-off | (507,946) | (872,595) | (239,488) | (678,686) |
| Transferred from/(to) collective allowance | 842 | (13,663) | (7,985) | (12,001) |
| Transferred from a subsidiary | - | - | 18,366 | - |
| Exchange differences | 18,563 | 1,234 | 12,569 | 21,396 |
| At 31 December | 1,989,856 | 1,939,320 | 1,437,215 | 1,502,010 |
| Collective allowance | | | | |
| At 1 January | 3,823,303 | 3,744,994 | 2,885,470 | 2,726,849 |
| Allowance made (Note 43) | 676,123 | 845,532 | 295,219 | 550,371 |
| Amount written back (Note 43) | - | (37,769) | - | - |
| Amount written-off | (579,822) | (707,370) | (295,711) | (427,096) |
| Transferred (to)/from Individual allowance | (842) | 13,663 | 7,985 | 12,001 |
| Transferred from a subsidiary | - | - | 21,321 | - |
| Exchange differences | 49,937 | (35,747) | 26,073 | 23,345 |
| At 31 December | 3,968,699 | 3,823,303 | 2,940,357 | 2,885,470 |
| As a percentage of total loans, less individual allowance (including regulatory reserve) | 1.04% | 1.06% | 1.10% | 1.20% |
| As a percentage of total risk-weighted assets for credit risk (including regulatory reserve) | 1.20% | 1.24% | 1.16% | 1.28% |

(x) Included in the Bank's loans/financing to financial institutions is financing granted to Maybank Islamic Berhad ("MIB"), a subsidiary of the Bank, under Restricted Profit-Sharing Investment Account ("RPSIA") amounting to RM9,521.9 million (31 December 2013: RM8,336.3 million). The RPSIA is a contract based on the Mudharabah principle between two parties to finance a financing where the Bank acts as the investor who solely provides capital to MIB whereas the business venture is managed solely by MIB as the entrepreneur. The profit of the business venture is shared between both parties based on pre-agreed ratios. Losses, if any, are borne by the Bank.

Fair value hedge

Included within hedging derivatives are derivatives where the Group and the Bank apply hedge accounting. The principal amount and fair values of derivatives where hedge accounting is applied by the Group and the Bank are as follows:

| | Group | | | Bank | | |
|-------------------------|------------------|---------------|--------------------|------------------|---------------|--------------------|
| | Principal Amount | Fair Values | | Principal Amount | Fair Values | |
| As at 31.12.2014 | RM'000 | Assets RM'000 | Liabilities RM'000 | RM'000 | Assets RM'000 | Liabilities RM'000 |
| Interest rate swaps | 286,631 | - | (11,775) | 286,631 | - | (11,775) |
| As at 31.12.2013 | | | | | | |
| Interest rate swaps | 1,438,173 | - | (47,830) | 1,438,173 | - | (47,830) |
| As at 1.1.2013 | | | | | | |
| Interest rate swaps | 1,569,011 | - | (102,114) | 1,569,011 | - | (102,114) |

Fair value hedge is used by the Group and the Bank to protect against changes in the fair value of financial assets due to movements in interest rates. The financial instruments hedged for interest rate risk include the Group's and the Bank's financial investments available-for-sale.

For the financial year ended 31 December 2014, the Group and the Bank:

- recognised a net gain of RM9,299,000 (1 January 2013 to 31 December 2013: RM55,853,000 and 1 January 2012 to 31 December 2012: RM44,295,000) on the hedging instruments. The total net loss on the hedged items attributable to the hedged risk amounted to RM9,520,000 (1 January 2013 to 31 December 2013: RM48,359,000 and 1 January 2012 to 31 December 2012: RM32,279,000); and
- derecognised fair value of hedging instruments of RM44,348,000 (31 December 2013: RM4,253,000 and 1 January 2013: RM1,846,000) due to the derecognition of the hedged items.

Net investment hedge

During the financial year ended 31 December 2014, the Group has designated a net investment hedge for borrowings amounting of SGD1.14 billion or Ringgit Malaysia equivalent of RM3.02 billion which were used to fund an investment in a subsidiary.

The effectiveness of the hedging relationship is tested prospectively and retrospectively at each reporting date by comparing the cumulative value changes of hedging instruments and hedge item. The hedging relationship was highly effective for the total hedging period and as of the reporting date. Resultantly the unrealised losses totalling RM65,567,000 from the hedging relationship as disclosed in Note 33 were recognised through other comprehensive income.

Cash flow hedge

The Group used an interest rate swap to manage the variability in future cash flows on a liability with floating rates of interest by exchanging the floating rates for fixed rates. The amounts and timing of future cash flows, representing both principal and interest flows, are projected on the basis of their contractual terms and other relevant factors. The aggregate principal balance and interest cash flows over time form the basis for identifying gains and losses on the effective portions of derivatives designated as cash flow hedges of forecast transactions. Gains and losses are initially recognised directly in equity, in the cash flow hedge reserve, and are transferred to profit or loss when the forecast cash flows affect the profit or loss.

All underlying hedged cash flows are expected to be recognised in profit or loss in the period in which they occur which is anticipated to take place over the next 2 years.

The hedging relationship was fully effective for the total hedging period and as of the reporting date. As such, the unrealised losses of SGD629,000 or Ringgit Malaysia equivalent of RM1,624,000 from the hedging relationship as disclosed in Note 33 were recognised through other comprehensive income.

(a) Included in other debtors are physical gold held by the Group and the Bank as a result of its broker-dealer activities amounting to approximately RM818,211,000 (31 December 2013: RM812,108,000 and 1 January 2013: RM720,134,000).

Notes to the Financial Statements

31 December 2014

14. OTHER ASSETS (CONT'D.)

(b) Development properties for sale

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|---------------------------------------|-------------------------------|-------------------------------|
| At cost | | |
| Freehold land | | |
| At 1 January | 75,251 | 60,287 |
| Disposal of a subsidiary (Note 17(c)) | (75,251) | - |
| Cost of real estate sold | - | 16,230 |
| Reversal of completed projects | - | (710) |
| Exchange differences | - | (556) |
| At 31 December | - | 75,251 |

(i) No borrowing costs were capitalised during the financial year ended 31 December 2014 and 31 December 2013.

(ii) Details of development properties as at 31 December 2013 are as follows:

| | Tenure of land | Expected completion date | Site area/ gross floor area (sq meters) | Group's interest in the property |
|--|-------------------|--------------------------------|--|--|
| Tribeca Private Residences comprising of 15 Towers | Freehold | 2028 | 97,504/150,000 | 100%* |

* Effective interest is 20% based on voting rights.

15. INVESTMENT PROPERTIES

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|--|-------------------------------|-------------------------------|
| At fair value | | |
| At 1 January | 583,257 | 572,662 |
| Additions | 12,503 | 2,042 |
| Fair value adjustments (Note 41) | (272) | 2,553 |
| Transferred from property, plant and equipment (Note 19) | - | 6,000 |
| Exchange differences | 5 | - |
| At 31 December | 595,493 | 583,257 |

The following investment properties are held under lease terms:

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|----------------------|-------------------------------|-------------------------------|
| At fair value | | |
| Leasehold land | 55,500 | 55,500 |
| Buildings | 53,154 | 53,071 |
| | 108,654 | 108,571 |

The Group has no restrictions on the realisability of its investment properties and has no contractual obligations to either purchase, construct or develop investment properties or for repairs, maintenance and enhancements.

Investment properties are stated at fair value, which have been determined based on valuation that reflects market conditions as at the reporting date. Valuations were performed by an accredited independent valuer. The valuations are mainly based on comparison method that make reference to comparable properties which have been sold or being offered for sale.

Notes to the Financial Statements

31 December 2014

16. STATUTORY DEPOSITS WITH CENTRAL BANKS

| | Note | Group | | Bank | |
|----------------------|------|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Bank Negara Malaysia | (a) | 8,464,205 | 7,870,205 | 4,686,100 | 4,786,100 |
| Other central banks | (b) | 6,677,039 | 5,872,669 | 2,889,928 | 2,541,896 |
| | | 15,141,244 | 13,742,874 | 7,576,028 | 7,327,996 |

- (a) The non-interest bearing statutory deposits maintained with Bank Negara Malaysia are in compliance with the requirements of the Central Bank of Malaysia Act 2009, the amount of which are determined as set percentages of total eligible liabilities.
- (b) The statutory deposits of the foreign branches and foreign subsidiaries are denominated in foreign currencies and maintained with the central banks of the respective countries, in compliance with the applicable legislations in the respective countries.

17. INVESTMENT IN SUBSIDIARIES

| Bank | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |

| | 20,450,502 | 19,505,514 |

The following are major events of the Group and of the Bank during the financial year ended 31 December 2014:

(a) Capital injection into Etiqa International Holdings Sdn Bhd ("EIH"), a wholly-owned subsidiary of the Bank

On 17 March 2014, the Bank injected additional capital of RM125,969,914 into EIH, as consideration for the full settlement of the debt arising from the acquisition of the 8,682,815 Non-Redeemable Preference Shares of RM1.00 each in the share capital of Maybank Ageas Holdings Berhad by EIH.

(b) Subscription of rights issue of 27,373,500 new ordinary shares of RM1.00 each issued by Maybank Islamic Berhad ("MIB"), a wholly-owned subsidiary of the Bank

On 26 March 2014, the Bank subscribed to rights issue of 27,373,500 new ordinary shares of RM1.00 each issued by MIB, at an issue price of RM14.64 per ordinary share for a total consideration of RM400,748,040.

(c) Disposal of ATR Kim Eng Land, Inc., an indirect subsidiary of Maybank Kim Eng Holdings Limited ("MKEH") through Maybank ATR Kim Eng Capital Partners, Inc. ("MATRKECP")

On 22 December 2014 ("Closing Date"), Maybank ATR Kim Eng Capital Partners, Inc. ("MATRKECP"), an indirect subsidiary of Maybank through Maybank Kim Eng Holdings Limited ("MKEH"), had sold 3,100,000 common shares representing 100% ownership in ATR Kim Eng Land, Inc. ("ATRKE Land") to Rockwell Primaries Development Corp., ATR Holdings, Inc. and Dragon Eagle International Limited (the "Disposal").

The Disposal was completed as part of MKEH's initiative to divest its non-core assets. ATRKE Land ceased to be an indirect subsidiary of Maybank with effect from the Closing Date.

The Disposal had the following effects on the statement of financial position of the Group as at 31 December 2014:

| | Note | Effects of disposal RM'000 |
|--|------|----------------------------------|
| Total assets (including goodwill) | | 85,464 |
| Total liabilities | | (35,801) |
| Identifiable net assets | | 49,663 |
| Less: Non-controlling interests | | (471) |
| Identifiable net assets disposed | | 49,192 |
| Gain on disposal of subsidiary | 39 | 26,120 |
| Transferred from shareholders' equity | | |
| - Foreign currency translation | | 590 |
| Cash proceeds from disposal | | 75,902 |
| Less: Cash and short-term funds of subsidiary disposed | | (10,859) |
| Net cash inflow on disposal | | 65,043 |

(d) Capital injection into Maybank Offshore Corporate Services (Labuan) Sdn. Bhd. ("MOCS")

On 31 December 2014, the Bank injected additional capital of RM418.3 million to MOCS, a wholly-owned subsidiary of the Bank, to fund its subscription of the rights issue of PT Bank Internasional Indonesia Tbk ("BII"), an indirect subsidiary of the Bank.

Details of the rights issue of BII are disclosed in Note 59(k).

17. INVESTMENT IN SUBSIDIARIES (CONT'D.)

The following are major events of the Group during the financial year ended 31 December 2013:

(e) Acquisition of PT Maybank GMT Asset Management ("Maybank GMT")

During the previous financial year ended 31 December 2013, Maybank Asset Management Sdn. Bhd. ("MAM"), an indirect wholly-owned subsidiary of the Bank through Maybank Asset Management Group Berhad ("MAMG"), a wholly-owned subsidiary of the Bank, completed the acquisition of 31,680 ordinary shares of Maybank GMT, representing 99% of the issued and paid-up share capital of Maybank GMT (the "Acquisition"). The total cash consideration was approximately RM30.6 million.

The purpose of this Acquisition is for the Group to have a fund management presence in Indonesia under its group of companies as well as to complement the business entities of MAMG in the ASEAN region.

The fair values of identifiable assets and liabilities as at the acquisition date was on provisional basis as the Group has sought an independent valuation for the identifiable assets and liabilities owned by Maybank GMT and the valuation was still on-going as of 31 December 2013.

The fair values of the identifiable assets and liabilities of Maybank GMT as at the date of acquisition were as follows:

| | Note | Recognised acquisition values RM'000 |
|---|------|--------------------------------------|
| Assets | | |
| Cash and short-term funds | | 548 |
| Financial investments available-for-sale | | 9,546 |
| Trade and other receivables | | 461 |
| Property, plant and equipment | 19 | 182 |
| Intangible assets | 20 | 38 |
| Deferred tax assets | 27 | 27 |
| | | 10,802 |
| Liabilities | | |
| Trade and other payables | | (167) |
| Provision for taxation | | (76) |
| | | (243) |
| Net identifiable assets | | 10,559 |
| Non-controlling interest | | (106) |
| | | 10,453 |
| Goodwill on acquisition | 20 | 20,162 |
| Cash and short-term funds paid on acquisition | | 30,615 |
| Less: Cash of subsidiary acquired | | (548) |
| Net cash outflow on acquisition | | 30,067 |

During the financial year ended 31 December 2014, the valuation for the identifiable assets and liabilities has been completed and there were no changes between the provisional amounts as compared to the finalised valuation as shown above.

(f) Disposal of Maybank ATR Kim Eng Financial Corporation ("Maybank ATRKE Financial")

During the previous financial year ended 31 December 2013, as part of an internal restructuring exercise within the Maybank Kim Eng Holdings Limited ("MKEH") group of companies, all assets and liabilities of Maybank ATRKE Financial had been transferred to Maybank ATR Kim Eng Capital Partners, Inc. ("MATRKECP"), an indirect wholly-owned subsidiary of the Bank. The transfer of assets to MATRKECP included Maybank ATRKE Financial's shareholdings in its subsidiaries, AsianLife and General Assurance Corporation and ATR Kim Eng Land, Inc.

Subsequent to the transfer of assets and liabilities, on the same date, MKEH, an indirect subsidiary of the Bank through Maybank IB Holdings Berhad, a wholly-owned subsidiary of the Bank, disposed a total of 958,923,466 of the common shares in Maybank ATRKE Financial, representing 89.75% of the outstanding capital stock of Maybank ATRKE Financial at a price of Philippine Peso ("Php") 3.3298 per share. As a consequence of the foregoing, the current businesses of Maybank ATRKE Financial had been consolidated under MATRKECP.

The disposal had the following effects on the statement of financial position of the Group as at 31 December 2013:

| | Note | Effects of disposal RM'000 |
|--|------|----------------------------|
| Total assets (including goodwill) | | 274,332 |
| Total liabilities | | - |
| Identifiable net assets | | 274,332 |
| Less: Non-controlling interests | | (28,117) |
| Identifiable net assets disposed | | 246,215 |
| Loss on disposal of subsidiary | 39 | (8,499) |
| Transferred from shareholders' equity | | |
| - Foreign currency translation | | (1,155) |
| Cash proceeds from disposal | | 236,561 |
| Less: Cash and short-term funds of subsidiary disposed | | (273,753) |
| Net cash outflow on disposal | | (37,192) |

(g) Disposal of ATR KimEng AMG Holdings, Inc. ("ATRKE AMG"), a subsidiary of Maybank Kim Eng Holdings Limited ("MKEH")

During the previous financial year ended 31 December 2013, Maybank ATR Kim Eng Capital Partners, Inc. ("MATRKECP"), an indirect subsidiary of Maybank through MKEH, had sold 430,000 common shares it owned in ATR KimEng AMG Holdings, Inc. ("ATRKE AMG"), representing 82.69% ownership in ATRKE AMG, to ATRAM Investment Management Partners Corporation ("ATRAM Investment"), a company which is 35% owned by MATRKECP.

ATRKE AMG owns 96.09% of ATR KimEng Asset Management, Inc. ("ATRAM").

ATRKE AMG and ATRAM ceased to be indirect subsidiaries of Maybank, although MATRKECP continued to own 35% of ATRAM Investment.

The disposal had the following effects on the statement of financial position of the Group as at 31 December 2013:

| | Note | Effects of disposal RM'000 |
|--|------|----------------------------|
| Total assets (including goodwill) | | 9,034 |
| Total liabilities | | (6,104) |
| Identifiable net assets | | 2,930 |
| Less: Non-controlling interests | | (501) |
| Identifiable net assets disposed | | 2,429 |
| Loss on disposal of subsidiary | 39 | (839) |
| Transferred from shareholders' equity | | |
| - Foreign currency translation | | (26) |
| Cash proceeds from disposal | | 1,564 |
| Less: Cash and short-term funds of subsidiary disposed | | (1,494) |
| Net cash inflow on disposal | | 70 |

Notes to the Financial Statements

31 December 2014

17. INVESTMENT IN SUBSIDIARIES (CONT'D.)

(h) Details and financial information of subsidiaries that have material non-controlling interests are as follows:

- (i) Etiqa International Holdings Sdn. Bhd. ("EIH"); and
- (ii) Maybank Kim Eng Holdings Limited ("MKEH").

The proportion of effective equity interest held by non-controlling interests within EIH and MKEH are disclosed in Note 62(a).

20. INTANGIBLE ASSETS (CONT'D.)**(a) Goodwill**

Goodwill has been allocated to the Group's Cash-Generating Units ("CGUs") identified according to the following business segments:

| Group | Note | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|--|-----------|-------------------------------|-------------------------------|
| American Express ("AMEX") card services business in Malaysia | (i) | 81,015 | 81,015 |
| Acquisition of PT Bank Internasional Indonesia Tbk ("BII") | | 5,807,085 | 5,807,085 |
| Less: Accumulated impairment losses | (ii) | (1,619,518) | (1,619,518) |
| | | 4,187,567 | 4,187,567 |
| Acquisition of Maybank Kim Eng Holdings Limited ("MKEH") | (iii) | 2,001,914 | 2,002,214 |
| Disposal of subsidiaries | 17(f)&(g) | - | (300) |
| Less: Impairment losses | | (1,422) | (1,422) |
| | | 2,000,492 | 2,000,492 |
| Acquisition of PT Maybank GMT Asset Management ("Maybank GMT") | 17(e) | 20,162 | 20,162 |
| Less: Exchange differences | | (1,145,108) | (1,364,574) |
| | | 5,144,128 | 4,924,662 |

| Bank | Note | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|--|------|-------------------------------|-------------------------------|
| American Express ("AMEX") card services business in Malaysia | (i) | 81,015 | 81,015 |

Goodwill is allocated to the Group's CGUs expected to benefit from the synergies of the acquisitions. The recoverable amount of the CGUs are assessed based on value-in-use and compared to the carrying amount of the CGUs to determine whether any impairment exists. Impairment loss is recognised in the income statement when the carrying amount of the CGUs exceeds its recoverable amount. During the financial year ended 31 December 2014, no additional impairment losses were recognised or reversed for the CGUs.

- (i) The value-in-use calculations apply discounted cash flow projections prepared and approved by management, covering a 10-year period.
- The other key assumptions for the computation of value-in-use are as follows:
- The Bank expects the AMEX card services business to be a going concern;
 - The growth in business volume is expected to be consistent with the industry growth rate of 13.0% to 15.0% per annum; and
 - The discount rate applied is the internal weighted average cost of capital of the Bank at the time of assessment, which is estimated to be 8.5% per annum (31 December 2013: 9.9% per annum).
- (ii) The value-in-use discounted cash flow model uses free cash flow to equity ("FCFE") projections prepared and approved by management covering a 8-year period. The compounded annual growth rate ("CAGR") of BII's FCFE projections is 12.9%.
- The other key assumptions for the computation of value-in-use are as follows:
- The Bank expects the BII's banking business operations to be a going concern;
 - The discount rate applied is based on current specific country risks which is estimated to be approximately 12.1% per annum (31 December 2013: 13.6% per annum); and
 - Terminal value whereby cash flow growth rate of 6.2%, which is consistent with the Gross Domestic Product rate of Indonesia.
- (iii) In year 2012, there was a reorganisation of reporting structure within Maybank Kim Eng Group ("MKEG") from geographical areas namely Malaysia, Singapore, Thailand, Indonesia, Hong Kong and others, to business pillars namely, Investment Banking and Advisory ("IB&A") and Equities. MKEG comprises mainly Maybank Investment Bank Berhad ("MIBB") and Maybank Kim Eng ("MKE") whilst MKEG forms the Investment Banking sub-segment within the Global Banking. This reorganisation is consistent with MKEG's overall strategies as follows:

- Realignment of business model from "country centric" to "product centric";
- Regional business focus; and
- Operating and reporting as a single management unit.

Hence, the value-in-use discounted cash flow model uses free cash flow to the firm ("FCFF") projections prepared and approved by management covering a 5-year period of MIBB and MKE collectively.

The compounded annual growth rate ("CAGR") of MKEG's FCFE projections is approximately 21.1%.

The other key assumptions for the computation of value-in-use are as follows:

- The Bank expects MKEG's business operations to be a going concern;
- The discount rate applied is the internal weighted average cost of capital of MKEG at the time of assessment, which is estimated to be 10.0% per annum (31 December 2013: 10.0% per annum); and
- Terminal value whereby cash flow growth rate is 5.0%, which is consistent with the average Gross Domestic Product rate of Malaysia and Singapore, the major MKEG's operating markets.

For sensitivity analysis purposes, if the annual cash flows growth rate of MKEG decreased to a constant 18.9% or the discount rate increased by approximately 24.0%, the recoverable amount would be reduced to its carrying amount of the CGU.

(b) Core Deposit Intangibles ("CDI")

Core deposit intangibles arises from the acquisition of BII's banking business operations. The CDI is deemed to have a finite useful life of 8 years and is amortised based on a reducing balance method.

(c) Agency force

The agency force arises from the acquisition of MKEH's investment banking business operations. The agency force is deemed to have a finite useful life of 11 years and is amortised based on a reducing balance method.

(d) Customer relationship

The customer relationship arises from the acquisition of MKEH's investment banking business operations. The customer relationship is deemed to have a finite useful life of 3 - 9 years and is amortised based on a reducing balance method.

Notes to the Financial Statements

31 December 2014

22. DEPOSITS AND PLACEMENTS FROM FINANCIAL INSTITUTIONS (CONT'D.)

The maturity profile of deposits and placements from financial institutions are as follows:

| | Group | | Bank | |
|--------------------|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| One year or less | 56,205,468 | 39,547,359 | 46,323,458 | 35,105,495 |
| More than one year | 1,181,930 | 2,591,722 | 1,176,726 | 2,477,082 |
| | 57,387,398 | 42,139,081 | 47,500,184 | 37,582,577 |

23. INSURANCE/TAKAFUL CONTRACT LIABILITIES AND OTHER INSURANCE PAYABLES

| Group | Note | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|--|------|-------------------------------|-------------------------------|
| Insurance/takaful contract liabilities | (i) | 24,257,364 | 21,386,433 |
| Other insurance payables | (ii) | 541,469 | 413,706 |
| | | 24,798,833 | 21,800,139 |

(i) Insurance/takaful contract liabilities

| Group | Note | Gross contract liabilities RM'000 | Reinsurance/ retakaful assets (Note 13) RM'000 | Net contract liabilities RM'000 |
|-----------------------------------|------|---|---|---------------------------------------|
| As at 31.12.2014 | | | | |
| Life insurance/family takaful | (a) | 17,708,771 | (40,664) | 17,668,107 |
| General insurance/general takaful | (b) | 6,548,593 | (4,346,638) | 2,201,955 |
| | | 24,257,364 | (4,387,302) | 19,870,062 |
| As at 31.12.2013 | | | | |
| Life insurance/family takaful | (a) | 17,454,058 | (43,465) | 17,410,593 |
| General insurance/general takaful | (b) | 3,932,375 | (1,888,345) | 2,044,030 |
| | | 21,386,433 | (1,931,810) | 19,454,623 |

(a) Life insurance/family takaful

The breakdown of life insurance/family takaful contract liabilities and its movements are further analysed as follows:

(A) Life insurance/family takaful contract liabilities

| Group | Gross contract liabilities RM'000 | Reinsurance/ retakaful assets RM'000 | Net contract liabilities RM'000 |
|---|---|--|---------------------------------------|
| As at 31.12.2014 | | | |
| Claims liabilities | 162,697 | (8,361) | 154,336 |
| Actuarial liabilities | 12,529,596 | (32,303) | 12,497,293 |
| Unallocated surplus | 3,098,576 | - | 3,098,576 |
| AFS reserve | 28,116 | - | 28,116 |
| Net asset value ("NAV") attributable to unitholders | 1,889,786 | - | 1,889,786 |
| | 17,708,771 | (40,664) | 17,668,107 |
| As at 31.12.2013 | | | |
| Claims liabilities | 119,115 | (2,139) | 116,976 |
| Actuarial liabilities | 12,744,815 | (41,326) | 12,703,489 |
| Unallocated surplus | 2,662,333 | - | 2,662,333 |
| AFS reserve | 240,560 | - | 240,560 |
| Qard | 36,684 | - | 36,684 |
| Net asset value ("NAV") attributable to unitholders | 1,650,551 | - | 1,650,551 |
| | 17,454,058 | (43,465) | 17,410,593 |

Notes to the Financial Statements

| Finance lease liabilities | (c) | - | 85,691 | - |
| | | 8,789,557 | 9,872,786 | 8,876,825 |

24. OTHER LIABILITIES (CONT'D.)**(a) Defined benefit pension plans**

The Bank's subsidiaries have obligations in respect of the severance payments they must make to employees upon retirement under labour laws of respective countries. The Bank's subsidiaries treat these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is determined by a professionally qualified independent actuary based on actuarial assumptions using Projected Unit Credit Method. Such determination is made based on the present value of expected cash flows of benefits to be paid in the future taken into account the actuarial assumptions, including salaries, turnover rate, mortality rate, years of service and other factors.

The defined benefit plans expose the Bank's subsidiaries to actuarial risks, such as longevity risk, interest rate risk, currency risk and market (investment) risk.

(i) Funding to defined benefit plans

The defined benefit plans are fully funded by the Bank's subsidiaries. The funding requirements are based on the pension funds actuarial measurement framework set out in the funding policies of the plans. The subsidiaries' employees are not required to contribute to the plans.

The following payments are expected contributions to be made by the Bank's subsidiaries to the defined benefit plan obligation in the future years:

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|--------------------------------|--|--|
| Within the next 12 months | 5,669 | 6,249 |
| Between 2 and 5 years | 108,032 | 70,150 |
| Between 5 and 10 years | 301,995 | 266,502 |
| Beyond 10 years | 3,558,738 | 2,897,645 |
| Total expected payments | 3,974,434 | 3,240,546 |

(ii) Movement in net defined benefit liabilities

The following table shows a reconciliation of net defined benefit liabilities and its components:

| Group As at 31.12.2014 | Defined benefit obligation RM'000 | Fair value of plan assets RM'000 | Net defined benefit liabilities RM'000 |
|---|--|---|---|
| At 1 January 2014 | 379,028 | (22,186) | 356,842 |
| Included in income statements: | | | |
| Current service cost | 44,821 | - | 44,821 |
| Past service cost | 1,171 | - | 1,171 |
| Interest cost/(income) | 30,815 | (1,094) | 29,721 |
| Actuarial gain on other long-term employee benefits plans | (1,333) | - | (1,333) |
| Curtailment gain | (2,492) | - | (2,492) |
| Termination cost | 2,215 | - | 2,215 |
| Excess payment | 661 | - | 661 |
| | 75,858 | (1,094) | 74,764 |
| Included in statements of comprehensive income: | | | |
| Remeasurement loss/(gain): | | | |
| - Actuarial loss/(gain) arising from: | | | |
| - Financial assumptions | 22,371 | - | 22,371 |
| - Experience adjustments | (16,473) | - | (16,473) |
| - Effect of asset ceiling | - | 236 | 236 |
| - Return on plan assets (excluding interest income) | - | (1,138) | (1,138) |
| | 5,898 | (902) | 4,996 |
| Others | | | |
| Contributions paid by employers | - | (4,007) | (4,007) |

24. OTHER LIABILITIES (CONT'D.)

(a) Defined benefit pension plans (cont'd.)

(ii) Movement in net defined benefit liabilities (cont'd.)

The following table shows a reconciliation of net defined benefit liabilities and its components (cont'd.):

| Group As at 31.12.2013 | Defined benefit obligation RM'000 | Fair value of plan assets RM'000 | Net defined benefit liabilities RM'000 |
|---|--------------------------------------|-------------------------------------|---|
| At 1 January 2013 | 474,299 | (22,562) | 451,737 |
| Included in income statements: | | | |
| Current service cost | 40,160 | - | 40,160 |
| Past service cost | (1,278) | 8 | (1,270) |
| Interest cost/(income) | 26,334 | (1,351) | 24,983 |
| Actuarial gain on other long-term employee benefits plans | (5,236) | - | (5,236) |
| | 59,980 | (1,343) | 58,637 |
| Included in statements of comprehensive income: | | | |
| Remeasurement (gain)/loss: | | | |
| - Actuarial gain arising from: | | | |
| - Demographic assumptions | (1,422) | - | (1,422) |
| - Financial assumptions | (58,458) | - | (58,458) |
| - Experience adjustments | (1,354) | - | (1,354) |
| - Return on plan assets (excluding interest income) | - | 403 | 403 |
| | (61,234) | 403 | (60,831) |
| Others | | | |
| Contributions paid by employers | (870) | (5,063) | (5,933) |
| Benefits paid | (21,763) | 6,193 | (15,570) |
| Disposal of subsidiaries | (1,823) | - | (1,823) |
| Reclassification to professional fees | (1,388) | - | (1,388) |
| Exchange differences | (68,173) | 186 | (67,987) |
| | (94,017) | 1,316 | (92,701) |
| At 31 December 2013 | 379,028 | (22,186) | 356,842 |

(iii) Plan assets

The major categories of plan assets which included as part of the fair value of total plan assets are as follows:

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|---------------------------------------|----------------------------|----------------------------|
| Cash and cash equivalents | 8,431 | 10,148 |
| Quoted investments in active markets: | | |
| Equity securities: | | |
| - Consumer markets | 1,079 | 1,067 |

For Bank's subsidiaries which have plan assets, an Asset-Liability Matching Study ("ALM") is performed at each reporting date. The principal technique of the ALM is to ensure the expected return on assets is sufficient to support the desired level of funding arising from the defined benefit plans.

24. OTHER LIABILITIES (CONT'D.)**(a) Defined benefit pension plans (cont'd.)**

(iv) Defined benefit obligation

(A) Actuarial assumptions

The principal assumptions used by subsidiaries in determining its pension obligations are as follows:

| Group | As at 31.12.2014 % | As at 31.12.2013 % |
|----------------------|--------------------------|--------------------------|
| Discount rate | | |
| - Indonesia | 8.28 | 8.83 |
| - Philippines | 4.84 | 4.82 |
| - Thailand | 4.25 | 4.00 |
| Future salary growth | | |
| - Indonesia | 8.33 | 8.29 |
| - Philippines | 6.75 | 7.25 |
| - Thailand | 5.00 | 4.00 |

| Group | As at 31.12.2014 Years | As at 31.12.2013 Years |
|--|------------------------------|------------------------------|
| Indonesia: | | |
| Life expectancy for individual retiring at age of 55 - 55.5: | | |
| - Male | 17.16 | 18.21 |
| - Female | 18.16 | 19.54 |
| Philippines: | | |
| Life expectancy for individual retiring at age of 60: | | |
| - Male | 10.00 | 10.00 |
| - Female | 10.00 | 10.00 |
| Thailand: | | |
| Life expectancy for individual retiring at age of 60: | | |
| - Male | 8.40 | 8.33 |
| - Female | 9.80 | 8.86 |

The average duration of the defined benefit plans obligation at the end of each reporting year:

| Group | As at 31.12.2014 Years | As at 31.12.2013 Years |
|--|------------------------------|------------------------------|
| Duration of defined benefit plans obligation | | |
| - Indonesia | 11.28 | 10.07 |
| - Philippines | 18.95 | 20.43 |
| - Thailand | 19.27 | 19.33 |

Notes to the Financial Statements

31 December 2014

24. OTHER LIABILITIES (CONT'D.)

(a) Defined benefit pension plans (cont'd.)

(iv) Defined benefit obligation (cont'd.)

(B) Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

| Group | Defined benefit obligation | |
|------------------------------------|----------------------------|---------------------------|
| | Increased by 1% RM'000 | Decreased by 1% RM'000 |
| As at 31.12.2014 | | |
| Discount rate (1% movement) | (67,370) | 83,790 |
| Future salary growth (1% movement) | 77,048 | (63,594) |
| Future mortality (1% movement) | (137) | 140 |
| As at 31.12.2013 | | |
| Discount rate (1% movement) | (53,421) | 65,201 |
| Future salary growth (1% movement) | 65,939 | (53,944) |
| Future mortality (1% movement) | (147) | 150 |

The sensitivity analysis above have been determined based on a method that extrapolates the impact on net defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of each reporting year.

(b) The movements of provision for commitments and contingencies are as follows:

| | Group | | Bank | |
|---|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| At 1 January | 76,421 | 100,549 | 73,086 | 100,368 |
| Provisions written back during the financial year | (17,726) | (24,128) | (18,337) | (27,282) |
| At 31 December | 58,695 | 76,421 | 54,749 | 73,086 |

(c) Finance lease liabilities of the Group and of the Bank are payable as follows:

| Group | Future minimum lease payments RM'000 | Future finance charges RM'000 | Present value of finance lease liabilities RM'000 |
|----------------------------|---|----------------------------------|--|
| As at 31.12.2014 | | | |
| Less than one year | 51,505 | (3,915) | 47,590 |
| Between one and five years | 2,309 | (323) | 1,986 |
| | 53,814 | (4,238) | 49,576 |
| Group and Bank | | | |
| As at 31.12.2013 | | | |
| Less than one year | 41,870 | (1,591) | 40,279 |
| Between one and five years | 49,650 | (4,238) | 45,412 |
| | 91,520 | (5,829) | 85,691 |

The Group and the Bank lease certain computer equipment and software under finance lease. At the end of the lease term, the Group and the Bank have the option to acquire the assets at a nominal price deemed to be a bargain purchase option. There are no restrictive covenants imposed by the lease agreement and no arrangements have been entered into for contingent rental payments.

Notes to the Financial Statements

31 December 2014

25. RECOURSE OBLIGATION ON LOANS AND FINANCING SOLD TO CAGAMAS

| | Group | | Bank | |
|--|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| At 1 January | 1,277,269 | 1,592,974 | 656,293 | 687,793 |
| Amount sold to Cagamas during the financial year | 852,299 | - | 852,299 | - |
| Repayment forwarded | (1,070,708) | (315,705) | (449,732) | (31,500) |
| At 31 December | 1,058,860 | 1,277,269 | 1,058,860 | 656,293 |

| | Group | | Bank | |
|---|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Represented by: | | | | |
| Sold directly to Cagamas | 852,299 | 620,976 | 852,299 | - |
| Acquired from the originators and sold to Cagamas | 206,561 | 656,293 | 206,561 | 656,293 |
| | 1,058,860 | 1,277,269 | 1,058,860 | 656,293 |

Based on the agreement, the Group and the Bank undertake to administer the loans and financing on behalf of Cagamas Berhad and to buy back any loans and financing which are regarded as defective based on pre-determined and agreed-upon prudential criteria with recourse against the originators.

The Bank's loans sold to Cagamas Berhad with recourse are mainly housing and personal loans.

Included in the Group's balance as at 31 December 2013 were the hire purchase financing sold directly to Cagamas Berhad with a recourse to Maybank Islamic Berhad, a wholly-owned subsidiary of the Bank. These are fully repaid during the financial year ended 31 December 2014.

26. PROVISION FOR TAXATION AND ZAKAT

| | Group | | Bank | |
|----------|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Taxation | 285,758 | 794,814 | 275,373 | 578,100 |
| Zakat | 39,434 | 41,713 | - | - |
| | 325,192 | 836,527 | 275,373 | 578,100 |

| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| At 1 January | (1,022,646) | (668,669) | (1,053,598) | (810,015) |
| Recognised in income statements, net (Note 45) | 792,136 | 95,345 | 608,202 | 105,585 |
| Recognised in income statements | 787,557 | 95,345 | 606,358 | 105,585 |
| Effect of reduction in tax rate | 4,579 | - | 1,844 | - |
| Recognised in statements of other comprehensive income, net | 82,578 | (442,992) | 97,046 | (348,992) |
| Insurance/takaful contract liabilities | (18,782) | - | - | - |
| Acquisition of subsidiaries (Note 17(e)) | - | (27) | - | - |
| Disposal of subsidiaries | (17,789) | 798 | - | - |
| Exchange differences | (14,787) | (7,101) | - | (176) |
| At 31 December | (199,290) | (1,022,646) | (348,350) | (1,053,598) |

Presented after appropriate offsetting as follows:

| | Group | | Bank | |
|--------------------------|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Deferred tax assets | (901,950) | (1,661,931) | (348,350) | (1,053,598) |
| Deferred tax liabilities | 702,660 | 639,285 | - | - |
| | (199,290) | (1,022,646) | (348,350) | (1,053,598) |

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set-off current tax assets against current tax liabilities and when the deferred income taxes relate to the same fiscal authority.

The components and movements of deferred tax assets and liabilities during the financial year prior to offsetting are as follows:

Deferred tax assets of the Group:

| Group | Loan loss and allowances RM'000 | AFS reserve, impairment losses on financial investments and amortisation of premium RM'000 | Provision for liabilities RM'000 | Other temporary differences RM'000 | Total RM'000 |

Notes to the Financial Statements

31 December 2014

27. DEFERRED TAX (CONT'D.)

The components and movements of deferred tax assets and liabilities during the financial year prior to offsetting are as follows (cont'd.):

Deferred tax liabilities of the Bank:

| Bank | Unabsorbed capital allowance RM'000 | AFS reserves RM'000 | Other temporary differences RM'000 | Total RM'000 |
|--|--|------------------------|---------------------------------------|-----------------|
| As at 31.12.2014 | | | | |
| At 1 January 2014 | 99,100 | - | - | 99,100 |
| Recognised in income statements | (6,309) | - | 28,201 | 21,892 |
| Effect of reduction in tax rate | 3,867 | - | - | 3,867 |
| At 31 December 2014 | 96,658 | - | 28,201 | 124,859 |
| As at 31.12.2013 | | | | |
| At 1 January 2013 | 95,468 | 131,095 | - | 226,563 |
| Recognised in income statements | 3,632 | - | - | 3,632 |
| Recognised in other comprehensive income | - | (131,095) | - | (131,095) |
| At 31 December 2013 | 99,100 | - | - | 99,100 |

Deferred tax assets have not been recognised in respect of the following items:

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|--|-------------------------------|-------------------------------|
| Unutilised tax losses | 89,443 | 78,339 |
| Unabsorbed capital allowances | 29,990 | 992 |
| Loan loss, allowances and interest suspended | 14,985 | 57,228 |
| Unutilised investment tax allowances | - | 110,776 |
| Others | 146 | 86,784 |
| | 134,564 | 334,119 |

The above items are available for offsetting against future taxable profits of the respective subsidiaries in which those items arose. Deferred tax assets have not been recognised in respect of those items as they may not be used to offset taxable profits of other subsidiaries within the Group. They have arisen from subsidiaries that have past losses in which the deferred tax assets are recognised to the extent that future taxable profits will be available.

(a) Secured borrowings

The secured borrowings are secured against the following collaterals:

- (i) Fiduciary transfer of a subsidiary's receivables from third parties in connection with the financing of the purchases of motor vehicles with an aggregate amount of not less than specific amount of the principal bonds issued;
- (ii) Fiduciary transfer of account receivables amounting to specific balances;
- (iii) Fiduciary transfer of consumer financing receivables with an aggregate amount if not less than 100% to 125% of total outstanding loan; and
- (iv) Specific collaterals as follows:
 - (1) Certain trade receivables; and
 - (2) First mortgage over the land located at 50 North Canal Road and the building to be erected thereon, assignment of rights and benefits of all tenancy agreements to be entered into between one of the subsidiaries and the tenants, assignment of all insurance proceeds and construction contracts in relation to the building and a corporate guarantee from a subsidiary.

The interest rates of these borrowings ranging from 2.1% to 13.0% (31 December 2013: 2.1% to 13.0%) per annum and these borrowings have maturities ranging from 1 month to 48 months (31 December 2013: 1 month to 48 months).

(b) Unsecured borrowings

- (i) The unsecured borrowings are term loans and overdrafts denominated in USD, CNY, IDR, SGD, PHP, THB, HKD and VND. The borrowings are unsecured and bear interest rates ranging from 0.7% to 9.75% (31 December 2013: 0.8% to 8.8%) per annum.

(ii) Multicurrency Medium Term Notes ("MTN")

SGD800.0 million MTN Programme

In November 2006, Maybank Kim Eng Holdings Limited ("MKEH"), a subsidiary of the Bank, established a SGD300.0 million MTN Programme. The maximum aggregate principal amount of Notes that may be issued under the programme was increased to SGD800.0 million with effect from 18 June 2010. Under this MTN Programme, MKEH and its subsidiary may from time to time issue Notes in series or tranches, which may be Singapore Dollars or any other currencies deemed appropriate at the time. Each series or tranche of Notes may be issued in various amounts and tenures and may bear fixed, floating, variable or hybrid rates of interest or may not bear interest. The Notes constitute direct, unconditional, unsubordinated and unsecured obligations of the subsidiary and rank pari passu, without any preference or priority among themselves and pari passu with all other present and future unsecured obligations of the subsidiary.

On 28 January 2014 and 28 May 2014, MKEH and its subsidiary redeemed the MTN amounting to SGD100.0 million and SGD50.0 million respectively under this MTN Programme. The MTN were issued on 28 January 2013 and 28 May 2013 respectively. The MTN bear fixed interest rates of 1.35% per annum and 1.18% per annum respectively.

USD2.0 billion MTN Programme

On 18 April 2011, the Bank established a USD2.0 billion MTN Programme. The MTN Programme will enable the Bank to issue from time to time, senior and/or subordinated notes in currencies other than Ringgit Malaysia at any time, provided that the aggregate amount of the outstanding Notes shall not at any time exceed USD2.0 billion (or its equivalent in other currencies) in nominal value.

On 7 December 2011 and 22 December 2011, the Bank issued HKD572.0 million and JPY10.0 billion Senior Notes due in 2016 and 2026 respectively under this MTN Programme. The HKD Senior Notes and JPY Senior Notes bear fixed interest rates of 2.7% per annum and 2.5% per annum respectively.

28. BORROWINGS (CONT'D.)

(b) Unsecured borrowings (cont'd.)

(ii) Multicurrency Medium Term Notes ("MTN") (cont'd.)

USD2.0 billion MTN Programme (cont'd.)

On 10 February 2012, the Bank issued USD400.0 million Senior Notes due in 2017 under this MTN Programme. The borrowings bear fixed interest rates of 3.0% per annum.

On 1 March 2012, the Bank issued HKD700.0 million Senior Notes due in 2017 under this MTN Programme. The borrowings bear fixed interest rates of 2.85% per annum.

On 8 May 2012, the Bank issued USD500.0 million Senior Notes due in 2014 under this MTN Programme. The borrowings bear fixed interest rates of 2.0% per annum. The Senior Notes were fully redeemed on 8 May 2014.

USD5.0 billion MTN Programme

On 14 May 2012, the Bank established a USD5.0 billion MTN Programme. The MTN Programme will enable the Bank to issue from time to time, senior and/or subordinated notes in currencies other than Ringgit Malaysia at any time, provided that the aggregate amount of the outstanding Notes shall not at any time exceed USD5.0 billion (or its equivalent in other currencies) in nominal value.

On 30 May 2012, the Bank issued JPY5.0 billion Senior Notes in nominal value due in 2017 under this MTN Programme. The borrowings bear fixed interest rates of 0.85% per annum.

On 20 July 2012, the Bank issued HKD600.0 million Senior Notes due in 2022 under this MTN Programme. The borrowings bear fixed interest rates of 3.25% per annum.

On 15 May 2013, the Bank issued USD200.0 million Senior Notes due in 2018 under this MTN Programme. The borrowings bear fixed interest rates of 1.76% per annum.

On 23 September 2013, the Bank through its Hong Kong branch, issued HKD1.55 billion Senior Notes due in 2016 under this MTN Programme. The borrowings bear floating interest rates of 3-month HIBOR + 0.60% per annum.

On 6 February 2014, the Bank issued JPY30.0 billion Senior Fixed Rate Notes in nominal value due in 2019 under this MTN Programme. The borrowings bear fixed interest rates of 0.669% per annum.

On 5 May 2014, the Bank issued AUD56.0 million Senior Floating Rate Notes in nominal value due in 2019 under this MTN Programme. The borrowings bear floating interest rates of 3-month BBSW + 1.20% per annum.

On 12 May 2014, the Bank issued USD50.0 million Senior Floating Rate Notes in nominal value due in 2017 under this MTN Programme. The borrowings bear floating interest rates of 3-month USD LIBOR + 0.64% per annum.

On 20 May 2014, the Bank issued USD50.0 million Senior Fixed Rate Notes in nominal value due in 2019 under this MTN Programme. The borrowings bear fixed interest rates of 2.56% per annum.

On 22 May 2014, the Bank issued JPY31.1 billion Senior Fixed Rate Notes in nominal value due in 2017 under this MTN Programme. The borrowings bear fixed interest rates of 0.4375% per annum.

On 18 June 2014, the Bank issued USD45.0 million Senior Fixed Rate Notes in nominal value due in 2029 under this MTN Programme. The borrowings bear fixed interest rates of 4.23% per annum.

On 27 June 2014, the Bank issued HKD284.0 million Senior Fixed Rate Notes in nominal value due in 2019 under this MTN Programme. The borrowings bear fixed interest rates of 2.55% per annum.

On 15 August 2014, the Bank issued HKD707.0 million Senior Fixed Rate Notes in nominal value due in 2024 under this MTN Programme. The borrowings bear fixed interest rates of 3.35% per annum.

On 21 August 2014, the Bank issued JPY20.0 billion Senior Fixed Rate Notes in nominal value due in 2019 under this MTN Programme. The borrowings bear fixed interest rates of 0.52% per annum.

On 10 November 2014, the Bank issued HKD310.0 million Senior Fixed Rate Notes in nominal value due in 2019 under this MTN Programme. The borrowings bear fixed interest rates of 2.40% per annum.

On 28 November 2014, the Bank issued USD500.0 million Callable Senior Zero Coupon Notes (the "Notes") in nominal value due in 2044 under this MTN Programme. The borrowings bear internal rate of return of 4.57% per annum. The Bank may redeem all (and not same day) of the Notes on 28 November 2019 ("First Redemption Date") and each 28 November after the First Redemption Date up to 28 November 2043.

On 19 December 2014, the Bank issued CNH200.0 million Fixed Rate Notes in nominal value due in 2016 under this MTN Programme. The borrowings bear fixed interest rates of 3.30% per annum.

Notes to the Financial Statements

31 December 2014

29. SUBORDINATED OBLIGATIONS (CONT'D.)

- (i) On 28 April 2011, the Bank issued SGD1.0 billion nominal value Subordinated Notes under the MTN Programme with a fixed interest rate of 3.80% per annum, which is payable semi-annually in arrears in April and October each year, and are due in 2021. The Bank may, subject to the prior consent of BNM, redeem the Notes, in whole but not in part, on 28 April 2016 (first Optional Redemption Date) and each semi-annual interest payment date thereafter at par together with accrued interest due on the redemption date. Should the Bank decide not to exercise its call option, the holders of the Subordinated Notes are entitled to a revised interest rate from the first Optional Redemption Date to (but excluding) the maturity date, being the sum of (i) the initial spread; and (ii) the ask rate for five (5) year Swap Offer Rate on the first Optional Redemption Date.
- (ii) On 31 March 2011, Maybank Islamic Berhad, a wholly-owned subsidiary of the Bank, issued RM1.0 billion nominal value Tier 2 Islamic subordinated sukuk under the Shariah Principle of Musyarakah. The sukuk carries a tenure of ten (10) years from issue date on 10 non-callable 5 basis, with a profit rate of 4.22% per annum payable semi-annually in arrears in March and September each year, and is due in March 2021. The subsidiary has the option to redeem the sukuk on any semi-annual distribution date on or after the fifth (5th) anniversary from the issue date. Should the subsidiary decide not to exercise its option to redeem the sukuk, the sukuk shall continue to be outstanding until the final maturity date.
- (iii) On 19 May 2011, PT Bank Internasional Indonesia Tbk ("BII"), a subsidiary of the Bank, issued IDR1.5 trillion Subordinated Notes, of which IDR0.6 trillion is held by the Bank. The Notes are not guaranteed with specific guarantee, but guaranteed with all assets of BII, whether present or future fixed or non-fixed assets. The Notes will mature on 19 May 2018.

The Notes bear interest at a fixed rate of 10.75% per annum, payable quarterly, the first coupon payment will be made on 19 August 2011. The Notes were approved by Bank Indonesia through its letter dated 23 June 2011 to be qualified as Tier 2 Capital of BII.

- (iv) On 15 August 2011, the Bank issued RM2.0 billion Subordinated Notes from Maybank Subordinated Notes Programme of up to RM3.0 billion which are due in 2021. The Notes bear fixed interest of 4.10% per annum, which is payable semi-annually in arrears in February and August each year. The Bank may, subject to the prior consent of BNM, redeem the Notes, in whole but not in part, on 15 August 2016 (first Call Date) and on each semi-annual interest payment date thereafter at their principal amount together with accrued but unpaid coupon.
- (v) On 6 December 2011, BII, a subsidiary of the Bank, issued IDR500.0 billion Subordinated Notes, of which IDR15.0 billion is held by the Bank. The Notes bear fixed interest rate at 10.00% per annum, with seven (7) years tenure since Issuance Date. The interest of the Notes will be paid quarterly based on Interest Payment Date of Notes. The first interest payment will be made on 6 March 2012, while the last interest payment and due date of the Notes will be on 6 December 2018.
- (vi) On 28 December 2011, the Bank issued RM750 million Subordinated Notes from Maybank Subordinated Notes Programme of up to RM3.0 billion which are due in 2021. The Notes bear fixed interest rate of 3.97% per annum, which is payable semi-annually in arrears in June and December each year. The Bank may, subject to the prior consent of BNM, redeem the Notes, in whole but not in part, on 28 December 2016 (first Call Date) and on each semi-annual interest payment date thereafter at their principal amount together with accrued but unpaid coupon.
- (vii) On 28 December 2011, the Bank issued RM250 million Subordinated Notes from Maybank Subordinated Notes Programme of up to RM3.0 billion which are due in 2023. The Notes bear fixed interest rate of 4.12% per annum, which is payable semi-annually in arrears in June and December each year. The Bank may, subject to the prior consent of BNM, redeem the Notes, in whole but not in part, on 28 December 2018 (first Call Date) and on each semi-annual interest payment date thereafter at their principal amount together with accrued but unpaid coupon.
- (viii) On 10 May 2012, the Bank issued RM2.1 billion Subordinated Notes in nominal value from Subordinated Notes Programme of up to RM7.0 billion, which are due in 2024. The Notes bear fixed interest rate of 4.25% per annum which is payable semi-annually in arrears in May and November each year. The Bank may, subject to the prior consent of BNM, redeem the Subordinated Notes, in whole but not in part, on 10 May 2019 (first Call Date) and on each semi-annual interest payment date thereafter at their principal amount together with accrued but unpaid coupon.

- (ix) On 20 September 2012, the Bank issued USD800 million Subordinated Notes in nominal value from its USD5.0 billion Multicurrency MTN Programme which are due in 2022. The Bank may, subject to the prior consent of BNM, redeem the Subordinated Notes, in whole but not in part, on 20 September 2017 (first Call Date). The Subordinated Notes bear fixed interest rate of 3.25% per annum from the issue date up to but excluding the first Call Date which is payable semi-annually in arrears in March and September each year. The rate of interest payable on the Notes from and including the first Call Date to but excluding the maturity date will be reset to a fixed rate equal to a 5-year U.S. Treasury Rate prevailing on 20 September 2017 plus 2.60% per annum, payable semi-annually in arrears.

- (x) On 31 October 2012, BII, a subsidiary of the Bank, issued IDR1.0 trillion Subordinated Notes. The Subordinated Notes bear fixed interest rate at 9.25% per annum and due date of the Subordinated Notes will be on 31 October 2019.

The interest of the Subordinated Notes will be paid quarterly based on Interest Payment Date of Notes. The first interest payment will be made on 31 January 2013, while the last interest payment and due date of the Notes will be made on 6 December 2018.

- (xi) On 5 July 2013, Etiqa Insurance Berhad, a subsidiary of the Bank, issued RM500 million in nominal value Tier 2 Capital Subordinated Bonds with a tenure of 10 years on a 10 non-callable 5 basis, which are due in 2023. The Subordinated Bonds bears a coupon rate of 4.13% per annum, payable semi-annually in arrears.
- (xii) On 29 January 2014, the Bank issued RM1.6 billion Basel III-compliant Tier 2 Subordinated Notes in nominal value under the revised Subordinated Notes Programme of up to RM7.0 billion, which are due in 2024. The Notes bear fixed interest rate of 4.90% per annum, payable semi-annually in arrears. The Bank may, subject to the prior consent of BNM, redeem the Subordinated Notes, in whole or in part, on 29 January 2019 (first Call Date) and on every coupon payment date thereafter at their principal amount together with accrued but unpaid coupon (if any).
- (xiii) On 7 April 2014, Maybank Islamic Berhad, a wholly-owned subsidiary of the Bank, issued RM1.5 billion Basel III-compliant Tier 2 Subordinated Sukuk Murabahah ("Subordinated Sukuk Murabahah") in nominal value pursuant to a Subordinated Sukuk Murabahah Programme of up to RM10.0 billion in nominal value established in March 2014.

The Subordinated Sukuk Murabahah carries a tenure of ten (10) years on a 10 non-callable 5 basis, with a profit rate of 4.75% per annum, payable semi-annually in arrears, and is due on 5 April 2024.

The subsidiary may, subject to the prior consent of BNM, redeem the Subordinated Sukuk Murabahah, in whole or in part, on 5 April 2019 (first Call Date) and on every profit payment date thereafter.

- (xiv) On 30 May 2014, Etiqa Takaful Berhad, a subsidiary of the Bank, issued Tier 2 Capital Subordinated Sukuk Musharakah of RM300.0 million in nominal value ("Subordinated Sukuk Musharakah").

The Subordinated Sukuk Musharakah carries a tenure of ten (10) years on a 10 non-callable 5 basis, with a profit rate of 4.52% per annum, payable semi-annually in arrears, and is due on 30 May 2024.

The subsidiary may, subject to the prior consent of BNM, redeem the Subordinated Sukuk Musharakah in whole or in part on any semi-annual distribution date on or after the fifth (5th) anniversary from the issue date.

- (xv) On 8 July 2014, BII, a subsidiary of the Bank, issued IDR1.5 trillion Subordinated Bonds under Shelf Subordinated Bonds II Bank BII Tranche I Year 2014. The Subordinated Bonds bear fixed interest rate at 11.35% per annum, payable quarterly in arrears, and is due on 8 July 2021.

The interest/profit rates for all the subordinated instruments above ranging between 3.25% and 11.35% (31 December 2013: ranging between 3.25% and 10.75%) per annum.

All the subordinated instruments above constitute unsecured liabilities of the Group and of the Bank and are subordinated to the senior indebtedness of the Group and of the Bank in accordance with the respective terms and conditions of their issues.

(a) NCPCS

On 27 June 2008, the Bank issued RM3.5 billion securities in nominal value comprising:

- Non-Cumulative Perpetual Capital Securities ("NCPCS"), which are issued by the Bank and stapled to the Subordinated Notes described below; and
- Subordinated Notes ("Sub-Notes"), which are issued by Cepak Mentari Berhad ("CMB"), a wholly-owned subsidiary of the Bank.

(collectively known as "Stapled Capital Securities").

Until an assignment event occurs, the Stapled Capital Securities cannot be transferred, dealt with or traded separately. Upon occurrence of an assignment event, the Stapled Capital Securities will unstaple, leaving the investors to hold only the NCPCS while ownership of the Sub-Notes will be re-assigned to the Bank pursuant to a forward purchase contract entered into by the Bank. Unless there is an earlier occurrence of any other events stated under the terms of the Stapled Capital Securities, the assignment event would occur on the twentieth (20th) interest payment date or ten (10) years from the issuance date of the Sub-Notes.

Each of the NCPCS and Sub-Notes has a fixed interest rate of 6.85% per annum. However, the NCPCS distribution will not begin to accrue until the Sub-Notes are re-assigned to the Bank as referred to above. Thus effectively, the Stapled Capital Securities are issued by the Bank at a fixed rate of 6.85% per annum. Interest is payable semi-annually in arrears.

The NCPCS are issued in perpetuity unless redeemed under the terms of the NCPCS. The NCPCS are redeemable at the option of the Bank on the twentieth (20th) interest payment date or ten (10) years from the issuance date of the Sub-Notes, or any NCPCS distribution date thereafter, subject to redemption conditions being satisfied. The Sub-Notes have a tenure of thirty (30) years unless redeemed earlier under the terms of the Sub-Notes. The Sub-Notes are redeemable at the option of CMB on any interest payment date, which cannot be earlier than the occurrence of an assignment event, subject to redemption conditions being satisfied.

The Stapled Capital Securities comply with BNM Guidelines on Non-Innovative Tier 1 capital instruments. They constitute unsecured and subordinated obligations of the Group. Claims in respect of the NCPCS rank pari passu and without preference among themselves, other Tier 1 capital securities of the Bank and with the most junior class of preference shares of the Bank but in priority to the rights and claims of the ordinary shareholders of the Bank. The Sub-Notes rank pari passu and without preference among themselves and with the most junior class of notes or preference shares of CMB.

An "assignment event" means the occurrence of any of the following events:

- The Bank is in breach of BNM's minimum capital adequacy ratio requirements applicable to the NCPCS Issuer; or
- Commencement of a winding-up proceeding in respect of the Bank or CMB; or
- Appointment of an administrator in connection with a restructuring of the Bank; or
- Occurrence of a default of the NCPCS distribution payments or Sub-Notes interest payments; or
- CMB ceases to be, directly or indirectly, a wholly-owned subsidiary of the Bank; or
- BNM requires that an assignment event occur; or
- The Bank elects that an assignment event occurs; or
- The twentieth (20th) Interest Payment Date of the Sub-Notes; or
- Sixty (60) days after a regulatory event (means at any time there is more than an insubstantial risk, as determined by the Bank, that the NCPCS will no longer qualify as Non-Innovative Tier 1 capital of the Bank for the purposes of BNM's capital adequacy requirements under any applicable regulations) has occurred, subject to such regulatory event continuing to exist at the end of such sixty (60) days; or

Notes to the Financial Statements

31 December 2014

30. CAPITAL SECURITIES (CONT'D.)

(a) NCPCS (cont'd.)

An "assignment event" means the occurrence of any of the following events (cont'd.):

- (j) Any deferral of interest payment of the Sub-Notes; or
- (k) Thirty (30) years from the issue date of the Sub-Notes.

In addition to the modes of redemption, the NCPCS and the Sub-Notes can be redeemed in the following circumstances:

- (a) If the NCPCS and the Sub-Notes were issued for the purpose of funding a merger or acquisition which is subsequently aborted, at the option of the Bank and CMB subject to BNM's prior approval;
- (b) At any time if there is more than an insubstantial risk in relation to changes in applicable tax regulations, as determined by the Bank or CMB, that could result in the Bank or CMB paying additional amounts or will no longer be able to deduct interest in respect of the Sub-Notes or the inter-company loan (between the Bank and CMB) for taxation purposes; and
- (c) At any time if there is more than an insubstantial risk in relation to changes in applicable regulatory capital requirements, as determined by the Bank or CMB, that could disqualify the NCPCS to be regarded as part of Non-Innovative Tier 1 capital for the purpose of regulatory capital requirements.

On 10 September 2014, the Bank had completed a partial redemption of RM3.437 billion in nominal value.

(b) SGD600.0 million IT1CS

On 11 August 2008, the Bank issued SGD600.0 million IT1CS callable with step-up in 2018 at a fixed rate of 6.00%.

The SGD600.0 million IT1CS bears a fixed interest rate payment from and including 11 August 2008 to (but excluding) 11 August 2018 (the first Reset Date), payable semi-annually in arrears on 11 February and 11 August in each year commencing on 11 February 2009. The SGD600.0 million IT1CS has a principal stock settlement

mechanism to redeem the IT1CS on the sixtieth (60th) year from the date of issuance. The Bank, however, has the option to redeem the IT1CS on the tenth (10th) anniversary of the issue date and on any interest payment date thereafter. On the tenth (10th) anniversary of the issue date, there will be a step-up in the interest rate to a floating rate, reset quarterly, at the initial credit spread plus one hundred (100) basis points above the three (3) months SGD Swap Offer Rate.

The SGD600.0 million IT1CS will constitute direct, unsecured and subordinated obligations of the Bank and will rank pari passu and without any preference among themselves and will rank pari passu with other Tier 1 securities.

(c) RM1.1 billion IT1CS

On 25 September 2008, the Bank issued RM1.1 billion IT1CS callable with a step-up in 2018 at a fixed rate of 6.30% under its RM4.0 billion Innovative Tier 1 Capital Securities. The RM1.1 billion IT1CS which matures on 25 September 2068 also bears a fixed interest rate and is callable on 25 September 2018 and on every interest payment date thereafter. On the tenth (10th) anniversary of the issue date, there will be a step-up in the interest rate to a floating rate, reset quarterly, at the initial credit spread plus one hundred (100) basis points above the Kuala Lumpur Inter-Bank Offer Rate for 3-months RM deposits.

The RM1.1 billion IT1CS will constitute direct, unsecured and subordinated obligations of the Bank and will rank pari passu and without any preference among themselves and will rank pari passu with other Tier 1 securities.

(d) RM3.5 billion AT1CS

On 10 September 2014, the Bank issued RM3.5 billion of Basel III-compliant AT1CS in nominal value with a tenure of Perpetual Non-Callable five (5) years pursuant to the AT1CS Programme of up to RM10.0 billion and/or its foreign currency equivalent in nominal value established on 19 August 2014.

The AT1CS bears a fixed interest rate of 5.30% per annum, payable semi-annually.

The Bank may, subject to the prior consent of BNM, redeem the AT1CS, in whole or in part, on 10 September 2019 (first Call Date) and thereafter on every coupon payment date.

31. SHARE CAPITAL, SHARE-BASED PAYMENTS AND SHARES HELD-IN-TRUST (CONT'D.)**(a) Increase in issued and paid-up capital**

During the financial year ended 31 December 2014, the Bank increased its issued and paid-up capital from RM8,862,079,081 to RM9,319,029,941 via:

- (i) Issuance of 58,680,500 new ordinary shares of RM1.00 each for cash, to eligible persons who exercised their share options under the ESS, as disclosed in Note 31(d)(ii);
- (ii) Issuance of 2,831,509 new ordinary shares of RM1.00 each arising from the Restricted Share Unit ("RSU"), as disclosed in Note 31(c)(v);
- (iii) Issuance of 299,533 new ordinary shares of RM1.00 each arising from the Supplemental Restricted Share Unit ("SRSU"), as disclosed in Note 31(e)(vi);
- (iv) Issuance of 229,810,271 new ordinary shares (including 371,620 new ordinary shares issued to ESOS Trust Fund ("ETF") Pool) of RM1.00 each arising from the Dividend Reinvestment Plan ("DRP") relating to electable portion of the final dividend of 27 sen in respect of the financial year ended 31 December 2013, as disclosed in Note 49(c)(i); and
- (v) Issuance of 165,329,047 new ordinary shares (including 272,905 new ordinary shares issued to ESOS Trust Fund ("ETF") Pool) of RM1.00 each arising from the DRP relating to electable portion of the interim dividend of 20 sen in respect of the financial year ended 31 December 2014, as disclosed in Note 49(c)(ii).

(b) Dividend Reinvestment Plan ("DRP")

Maybank via the announcement on 25 March 2010 proposed to undertake a recurrent and optional dividend reinvestment plan that allows shareholders of Maybank ("shareholders") to reinvest their dividend into new ordinary share(s) of RM1.00 each in Maybank ("Maybank Shares") (collectively known as the Dividend Reinvestment Plan ("DRP")).

The rationale of Maybank embarking on the DRP are as follows:

- (i) To enhance and maximise shareholders' value via the subscription of new Maybank Shares where the issue price of a new Maybank Share shall be at a discount;
- (ii) To provide the shareholders with greater flexibility in meeting their investment objectives, as they would have the choice of receiving cash or reinvesting in the Bank through subscription of additional Maybank Shares without having to incur material transaction or other related costs;
- (iii) To benefit from the participation by shareholders in the DRP to the extent that if the shareholders elect to reinvest into new Maybank Shares, the cash which would otherwise be payable by way of dividend will be reinvested to fund the continuing business growth of the Group. The DRP will not only enlarge Maybank's share capital base and strengthen its capital position, but will also add liquidity of Maybank Shares on the Main Market of Bursa Malaysia Securities Berhad ("Bursa Securities").

Whenever a cash dividend (either an interim, final, special or other dividend) is announced, the Board may, in its absolute discretion, determine that the DRP will apply to the whole or a portion of the cash dividend ("Electable Portion") and where applicable any remaining portion of the dividend will be paid in cash; and

- (iv) Each shareholder has the following options in respect of the Electable Portion:
 - (1) elect to receive the Electable Portion in cash; or
 - (2) elect to reinvest the entire Electable Portion into new Maybank Shares credited as fully paid-up at an issue price to be determined on a price fixing date subsequent to the receipt of all relevant regulatory approvals.

(c) Maybank Group Employees' Share Scheme ("ESS") and Cash-settled Performance-based Employees' Share Scheme ("CESS")

The Maybank Group Employees' Share Scheme ("ESS") is governed by the by-laws approved by the shareholders at an Extraordinary General Meeting held on 13 June 2011. The ESS was implemented on 23 June 2011. It is in force for a maximum period of seven (7) years from the effective date and is administered by the ESS Committee. The ESS consists of two (2) types of performance-based awards in the form of Employee Share Option Scheme ("ESOS") and Restricted Share Unit ("RSU").

The Maybank Group Cash-settled Performance-based Employees' Share Scheme ("CESS") is governed by the guidelines approved by the members of the ESS Committee on 15 June 2011.

The maximum number of ordinary shares of RM1.00 each in the Bank available under the ESS should not exceed 10% of the total number of issued and paid-up capital of the Bank at any point of time during the duration of the scheme. Other principal features of the ESS are as follows:

- (i) The employees eligible to participate in the ESS must be employed on a full time basis and on the payroll of the Participating Maybank Group and is confirmed in service.

Participating Maybank Group includes the Bank and its overseas branches and subsidiaries which include PT Bank Internasional Indonesia Tbk, but excluding listed subsidiaries, overseas subsidiaries and dormant subsidiaries.
- (ii) The entitlement under the ESS for the Executive Directors, including any persons connected to the directors, is subject to the approval of the shareholders of the Bank in a general meeting.
- (iii) The ESS shall be valid for a period of seven (7) years from the effective date.

Notwithstanding the above, the Bank may terminate the ESS at any time during the duration of the scheme subject to:

- consent of Maybank's shareholders at a general meeting, wherein at least a majority of the shareholders, present and voting, vote in favour of termination; and
- written consent of all participants of ESS who have yet to exercise their ESS option, either in part or in whole, and all participants whose Restricted Shares Unit ("RSU") Agreement are still subsisting.

Upon the termination of the ESS, all unexercised ESS and/or unvested RSU shall be deemed to have been cancelled and be null and void.

- (iv) ESS consists of Employee Share Option Scheme ("ESOS") and Restricted Shares Unit ("RSU").

(1) ESOS

Under the ESOS award, the Bank may from time to time within the offer period, offer to eligible employees a certain number of options at the Offer Date. Subject to acceptance, the participants will be granted the ESOS options which can then be exercised within a period of five (5) years to subscribe for fully paid-up ordinary shares of RM1.00 each in the Bank, provided all the conditions including performance-related conditions are duly and fully satisfied.

(2) RSU

Under the RSU award, the Bank may from time to time within the offer period, invite selected participants to enter into an agreement with the Bank, whereupon the Bank shall agree to award the scheme shares to the participants, subject to fulfilling the relevant service and performance objectives and provided all performance-related conditions are duly and fully satisfied. The scheme's shares as specified under the RSU award will only vest based on a three (3) year cliff vesting schedule or a two (2) year cliff vesting schedule in the case of supplemental RSU award, provided all the RSU vesting conditions are fully and duly satisfied.

Notes to the Financial Statements

31 December 2014

31. SHARE CAPITAL, SHARE-BASED PAYMENTS AND SHARES HELD-IN-TRUST (CONT'D.)

(c) Maybank Group Employees' Share Scheme ("ESS") and Cash-settled Performance-based Employees' Share Scheme ("CESS") (cont'd.)

(v) Key features of the ESOS award are as follows:

- On 23 June 2011, the Bank granted five (5) tranches of ESOS amounting to 405,308,500 options based on the assumption that the eligible employees met the average performance target ("ESOS First Grant"). The first tranche of ESOS under ESOS First Grant amounting to 80,871,000 options have been vested and exercisable as at 30 June 2011. The second tranche of ESOS under ESOS First Grant amounting to 42,136,100 options have been vested and exercisable as at 30 April 2012. The third tranche of ESOS under ESOS First Grant amounting to 78,885,100 options have been vested and exercisable as at 30 April 2013. The fourth tranche of ESOS under ESOS First Grant amounting to 74,253,400 options have been vested and exercisable as at 30 April 2014, while the remaining tranches of ESOS and the corresponding number of ESOS will be vested and exercisable upon fulfilment of predetermined vesting conditions including service period, performance targets and performance period.
- On 30 April 2012, the Bank granted five (5) tranches of ESOS amounting to 62,339,000 options to confirmed new recruits in the Group ("ESOS Second Grant"). The first tranche of ESOS under ESOS Second Grant amounting to 6,185,800 options have been vested and exercisable as at 7 May 2012. The second tranche of ESOS under ESOS Second Grant amounting to 12,870,600 options have been vested and exercisable as at 30 April 2013. The third tranche of ESOS under ESOS Second Grant amounting to 12,002,000 options have been vested and exercisable as at 30 April 2014, while the remaining tranches of ESOS and the corresponding number of ESOS will be vested and exercisable upon fulfilment of predetermined vesting conditions including service period, performance targets and performance period.
- On 30 April 2013, the Bank granted five (5) tranches of ESOS amounting to 53,593,800 options to confirmed new recruits in the Group ("ESOS Third Grant"). The first tranche of ESOS under ESOS Third Grant amounting to 9,199,800 options have been vested and exercisable as at 21 May 2013. The second tranche of ESOS under ESOS Third Grant amounting to 10,523,300 options have been vested and exercisable as at 30 April 2014, while the remaining tranches of ESOS and the corresponding number of ESOS will be vested and exercisable upon fulfilment of predetermined vesting conditions including service period, performance targets and performance period.
- On 30 April 2014, the Bank granted five (5) tranches of ESOS amounting to 54,027,800 options to confirmed new recruits in the Group ("ESOS Fourth Grant"). The first tranche of ESOS under ESOS Fourth Grant amounting to 9,651,900 options have been vested and exercisable as at 21 May 2014, while the remaining tranches of ESOS and the corresponding number of ESOS will be vested and exercisable upon fulfilment of predetermined vesting conditions including service period, performance targets and performance period.

- The new ordinary shares in the Bank allotted upon any exercise of options under the scheme will upon allotment, rank pari passu in all aspects with the then existing ordinary shares in the Bank, except that the new ordinary shares so issued will not rank for any dividends or other distribution declared, made or paid to shareholders prior to the date of allotment of such new ordinary shares and will be subject to all the provisions of the Article of Association of the Bank relating to transfer, transmission and otherwise.
- The subscription price of the ESOS shall be at the Volume Weighted Average Market Price ("VWAMP") of Maybank Shares for the five (5) market days immediately preceding the offer date with no entitlement to any discount.
- In the implementation of ESS, the Bank has established a Trust of which to be administered by the Trustee. To enable the Trustee to subscribe for new shares for the purposes of the ESS implementation, the Trustee will be entitled from time to time to accept funding and/or assistance from the Bank.
- The first tranche of ESOS First Grant was exercisable by way of self-funding by the respective eligible employees within twelve (12) months from the ESOS commencement date.
- Subsequent tranches and any ESOS which are unexercised after the initial twelve (12) months from the ESOS commencement date may be exercised during the remainder of the ESOS option period by way of self-funding or ESOS Trust Funding ("ETF") mechanism.
- ETF mechanism is a trust funding mechanism for the ESOS award involving an arrangement under which Maybank will fund a certain quantum of money for the subscription of Maybank Shares by the Trustee, to be held in a pool and placed into an omnibus Central Depository System ("CDS") account of the Trustee or an authorised nominee, to facilitate the exercise of ESOS options by the eligible employees and at the request of selected employees whereupon part of the proceeds of such sale shall be utilised towards payment of the ESOS option price and the related costs. The shares to be issued and allotted under the ETF mechanism will rank equally in all respects with the existing issued Maybank shares. On 12 April 2012, the ESS Committee approved the subscription of new Maybank shares with value of RM100 million for ETF mechanism pool.

Maybank had on 28 June 2012 announced the issuance of 11,454,700 new ordinary shares of RM1.00 each under the ETF mechanism. The new Maybank shares are recorded as "shares held-in-trust" in the financial statements.

Maybank had on 7 May 2013 issued additional 4,000 new ordinary shares of RM1.00 each under the ETF mechanism. The new Maybank shares are recorded as "shares held-in-trust" in the financial statements.

Maybank had on 23 June 2014 issued additional 2,831,509 new ordinary shares of RM1.00 each under the ETF mechanism due to Restricted Shares Unit ("RSU"). Subsequent to the issuance, 2,794,826 options have been vested to eligible Senior Management of the Group and of the Bank. The remaining Maybank shares are recorded as "shares held-in-trust" in the financial statements.

31. SHARE CAPITAL, SHARE-BASED PAYMENTS AND SHARES HELD-IN-TRUST (CONT'D.)**(c) Maybank Group Employees' Share Scheme ("ESS") and Cash-settled Performance-based Employees' Share Scheme ("CESS") (cont'd.)**

(v) Key features of the ESOS award are as follows (cont'd.):

The movements of shares held-in-trust for the financial years ended 31 December 2014 and 31 December 2013 are as follows:

| Group and Bank | Number of ordinary shares of RM1.00 each | Amount RM'000 |
|--|--|------------------|
| As at 31.12.2014 | | |
| At 1 January 2014 | 12,281,894 | 107,248 |
| Exercise of ESOS options by eligible employees | (56,425,600) | (496,138) |
| | (44,143,706) | (388,890) |
| Replenishment of shares held-in-trust | 56,425,600 | 496,138 |
| | 12,281,894 | 107,248 |
| Additional shares issued under ETF mechanism due to election under DRP | 644,525 | 5,864 |
| Additional shares issued under ETF mechanism due to Restricted Shares Unit ("RSU") | 2,831,509 | 27,098 |
| RSU vested to the Eligible Senior Management of the Group and of the Bank | (2,794,826) | (26,747) |
| At 31 December 2014 | 12,963,102 | 113,463 |
| As at 31.12.2013 | | |
| At 1 January 2013 | 11,741,067 | 102,405 |
| Exercise of ESOS options by eligible employees | (83,603,800) | (648,691) |
| | (71,862,733) | (546,286) |
| Replenishment of shares held-in-trust | 83,603,800 | 648,691 |
| | 11,741,067 | 102,405 |
| Additional shares issued under ETF mechanism due to election under DRP | 536,827 | 4,808 |
| Additional shares issued under ETF mechanism | 4,000 | 35 |
| At 31 December 2013 | 12,281,894 | 107,248 |

(vi) Key features of the RSU award are as follows:

- The RSU granted will be vested and awarded upon fulfillment of predetermined vesting conditions including service period, performance targets and performance period.
- The scheme shares on RSU may be settled by way of issuance and transfer of new Maybank Shares or by cash at the absolute discretion of the ESS Committee. The new Maybank Shares to be issued and transferred to eligible employees pursuant to physical settlement will not require any payment to the Bank by the RSU participants.
- In the case of settlement by way of cash, the RSU vesting price will be based on the value of the scheme shares with no entitlement to any discount, taking into account the VWAMP of Maybank Shares for the five (5) market days immediately preceding the RSU vesting date.
- The ESS Committee may, from time to time during the ESS period, make further RSU grant designated as Supplemental RSU Grant ("SRSU grant") to a selected group of eligible employees to participate in the RSU award. This selected group may consist of senior management, selected key retentions and selected senior external recruits and such SRSU grant may contain terms and conditions which may vary from earlier RSU grant made to selected senior management. The SRSU will be vested on a two (2) to three (3) year cliff vesting schedule.

(vii) Cash-settled Performance-based Employees' Share Scheme ("CESS")

A separate Cash-settled Performance-based Employees' Share Scheme ("CESS") comprising of Cash-settled Performance-based Option Scheme ("CESOS") and Cash-settled Performance-based Restricted Share Unit Scheme ("CRSU") are made available at the appropriate time to the eligible employees of overseas branches and subsidiaries of the Bank which include PT Bank Internasional Indonesia Tbk, PT Bank Maybank Syariah Indonesia, Maybank Philippines Incorporated and Maybank (PNG) Limited, subject to achievement of performance criteria set out by the Board of Directors and prevailing market practices in the respective countries.

Key features of the CESS award are as follows:

- The CESS award is a cash plan and may be awarded from time to time up to five (5) tranches. The award will be subject to fulfilling the performance targets, performance period, service period and other vesting conditions as stipulated in the CESS Guidelines.
- The amount payable for each CESS tranche will correspond to the number of reference shares awarded multiplied by the appreciation in the Bank's share price between the price at the time of award and the time of vesting of which the vesting date shall be at the end of the three (3) years from the grant date of each CESS tranche.

Notes to the Financial Statements

31 December 2014

31. SHARE CAPITAL, SHARE-BASED PAYMENTS AND SHARES HELD-IN-TRUST (CONT'D.)

(d) Details of share options under ESOS

(i) Details of share options granted:

| Grant date | Number of share options '000 | Original exercise price RM/option | Exercise period |
|-------------------------------|------------------------------|-----------------------------------|-----------------------|
| 23.6.2011 - ESOS First Grant | 405,309 [#] | 8.82* | 30.6.2011 - 22.6.2018 |
| 30.4.2012 - ESOS Second Grant | 62,339 [#] | 8.83* | 7.5.2012 - 22.6.2018 |
| 30.4.2013 - ESOS Third Grant | 53,594 [#] | 9.61* | 21.5.2013 - 22.6.2018 |
| 30.4.2014 - ESOS Fourth Grant | 53,983 [#] | 9.91* | 21.5.2014 - 22.6.2018 |

The aggregate maximum allocation of share options to Chief Executive Officer and senior management of the Group and of the Bank shall not exceed 50% of the Maximum Allowable Scheme Shares. The actual allocation of share options to Chief Executive Officer and senior management is 19.1% as at 31 December 2014 (31 December 2013: 16.3%).

[#] The number of share options granted are based on the assumptions that the eligible employees met average performance targets.

* The ESS Committee approved the reduction of the ESOS exercise prices following the issuance of new ordinary shares of RM1.00 each pursuant to the implementation of DRP. The revisions to the exercise prices are as follows:

| Grant date | Exercise price RM/option | Exercise period |
|-------------------------------|--------------------------|------------------------|
| 23.6.2011 - ESOS First Grant | 8.82 | 30.6.2011 - 28.12.2011 |
| | 8.78 | 29.12.2011 - 4.6.2012 |
| | 8.76 | 5.6.2012 - 28.10.2012 |
| | 8.75 | 29.10.2012 - 22.6.2018 |

| WAEP (RM) | - | 9.91 | 9.88 | - | 9.87## | 9.87## |

Revised from RM9.91 to RM9.87 during the financial year ended 31 December 2014 as disclosed above.

Total share options granted to the directors of the Bank as at 31 December 2014 are disclosed under the directors' interests section in the Directors' Report.

(ii) Share options exercised during the financial year

The options exercised under ESOS First Grant, ESOS Second Grant, ESOS Third Grant and ESOS Fourth Grant during the financial year, are as disclosed above.

Options exercised under ESOS First Grant have resulted in the issuance of approximately 49,661,800 (31 December 2013: 82,905,600) new ordinary shares as at 31 December 2014, at WAEP of RM8.75 (31 December 2013: RM8.75) each. There were 61,300 options exercised during this financial year ended 31 December 2014 and the corresponding ordinary shares will only be issued and quoted in the Main Market of Bursa Malaysia Securities Berhad subsequent to 31 December 2014. The related weighted average share price of ESOS First Grant at the date of exercise was RM9.93 (31 December 2013: RM10.16) per share.

Options exercised under the ESOS Second Grant have resulted in the issuance of approximately 6,495,300 (31 December 2013: 6,635,200) new ordinary shares as at 31 December 2014, at WAEP of RM8.82 (31 December 2013: RM8.82) each. There were 3,500 options exercised during this financial year ended 31 December 2014 and the corresponding ordinary shares will only be issued and quoted in the Main Market of Bursa Malaysia Securities Berhad subsequent to 31 December 2014. The related weighted average share price of ESOS Second Grant at the date of exercise was RM9.93 (31 December 2013: RM10.22) per share.

Options exercised under the ESOS Third Grant have resulted in the issuance of approximately 2,517,900 (31 December 2013: 576,000) new ordinary shares as at 31 December 2014, at WAEP of RM9.56 (31 December 2013: RM9.59) each. The related weighted average share price of ESOS Third Grant at the date of exercise was RM9.97 (31 December 2013: RM10.27) per share.

Options exercised under the ESOS Fourth Grant have resulted in the issuance of approximately 5,500 new ordinary shares as at 31 December 2014, at WAEP of RM9.88 each. The related weighted average share price of ESOS Fourth Grant at the date of exercise was RM10.00 per share.

Notes to the Financial Statements

31 December 2014

31. SHARE CAPITAL, SHARE-BASED PAYMENTS AND SHARES HELD-IN-TRUST (CONT'D.)

(d) Details of share options under ESOS (cont'd.)

(iii) Fair value of share options granted on 23 June 2011

The fair value of share options granted on 23 June 2011 was estimated by an external valuer using the Binomial-Lattice model, taking into account the terms and conditions upon which the options were granted. The fair value of share options measured, weighted average exercise price and the assumptions were as follows:

| | Before DRP | After DRP |
|---|-------------|-------------|
| Fair value of share options under ESOS First Grant: | | |
| - tranche 1: vested on 30 June 2011 (RM) | 0.627 | 0.627 |
| - tranche 2: vested on 30 April 2012 (RM) | 0.687 | 0.687 |
| - tranche 3: vested on 30 April 2013 (RM) | 0.732 | 0.740 |
| - tranche 4: vested on 30 April 2014 (RM) | 0.752 | 0.760 |
| - tranche 5: not yet vested (RM) | 0.769 | 0.776 |
| Weighted average exercise price (RM) | 8.82 | 8.75 |
| Expected volatility (%) | 14.59 | 14.24 |
| Expected life (years) | 4 - 5 | 4 - 5 |
| Risk free rate (%) | 3.24 - 3.64 | 3.13 - 3.21 |
| Expected dividend yield (%) | 4.49 | 5.35 |

The expected life of the options was based on historical data, therefore it is not necessarily indicative of exercise patterns that may occur. The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may also not necessarily be the actual outcome. No other features of the options granted were incorporated into the measurement of fair value.

(iv) Fair value of share options granted on 30 April 2012

The fair value of share options granted on 30 April 2012 was estimated by an external valuer using the Binomial-Lattice model, taking into account the terms and conditions upon which the options were granted. The fair value of share options measured, weighted average exercise price and the assumptions were as follows:

| | Before DRP | After DRP |
|--|---------------|---------------|
| Fair value of share options under ESOS Second Grant: | | |
| - tranche 1: vested on 7 May 2012 (RM) | 0.452 | 0.452 |
| - tranche 2: vested on 30 April 2013 (RM) | 0.486 | 0.489 |
| - tranche 3: vested on 30 April 2014 (RM) | 0.502 | 0.505 |
| - tranche 4 to 5: not yet vested (RM) | 0.514 - 0.523 | 0.517 - 0.526 |
| Weighted average exercise price (RM) | 8.83 | 8.82 |
| Expected volatility (%) | 14.11 | 14.24 |
| Expected life (years) | 3 - 5 | 3 - 5 |
| Risk free rate (%) | 3.13 - 3.42 | 3.12 - 3.27 |
| Expected dividend yield (%) | 5.49 | 5.35 |

The expected life of the options was based on historical data, therefore it is not necessarily indicative of exercise patterns that may occur. The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may also not necessarily be the actual outcome. No other features of the options granted were incorporated into the measurement of fair value.

(v) Fair value of share options granted on 30 April 2013

The fair value of share options granted on 30 April 2013 was estimated by an external valuer using the Binomial-Lattice model, taking into account the terms and conditions upon which the options were granted. The fair value of share options measured, weighted average exercise price and the assumptions were as follows:

| | Before DRP | After DRP |
|---|---------------|---------------|
| Fair value of share options under ESOS Third Grant: | | |
| - tranche 1: vested on 21 May 2013 (RM) | 0.558 | 0.558 |
| - tranche 2: vested on 30 April 2014 (RM) | 0.588 | 0.598 |
| - tranche 3 to 5: not yet vested (RM) | 0.603 - 0.619 | 0.619 - 0.634 |
| Weighted average exercise price (RM) | 9.61 | 9.56 |
| Expected volatility (%) | 13.96 | 13.51 |
| Expected life (years) | 2 - 4 | 2 - 4 |
| Risk free rate (%) | 2.96 - 3.18 | 3.42 - 3.57 |
| Expected dividend yield (%) | 5.35 | 5.84 |

The expected life of the options was based on historical data, therefore it is not necessarily indicative of exercise patterns that may occur. The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may also not necessarily be the actual outcome. No other features of the options granted were incorporated into the measurement of fair value.

31. SHARE CAPITAL, SHARE-BASED PAYMENTS AND SHARES HELD-IN-TRUST (CONT'D.)

(d) Details of share options under ESOS (cont'd.)

(vi) Fair value of share options granted on 30 April 2014

The fair value of share options granted on 30 April 2014 was estimated by an external valuer using the Binomial-Lattice model, taking into account the terms and conditions upon which the options were granted. The fair value of share options measured, weighted average exercise price and the assumptions were as follows:

| | Before DRP | After DRP |
|--|---------------|---------------|
| Fair value of share options under ESOS Fourth Grant: | | |
| - tranche 1: vested on 21 May 2014 (RM) | 0.519 | 0.519 |
| - tranche 2 to 5: not yet vested (RM) | 0.557 - 0.598 | 0.569 - 0.609 |
| Weighted average exercise price (RM) | 9.91 | 9.87 |
| Expected volatility (%) | 13.87 | 13.37 |
| Expected life (years) | 1 - 4 | 1 - 4 |
| Risk free rate (%) | 3.27 - 3.60 | 3.45 - 3.57 |
| Expected dividend yield (%) | 5.84 | 5.84 |

The expected life of the options was based on historical data, therefore it is not necessarily indicative of exercise patterns that may occur. The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may also not necessarily be the actual outcome. No other features of the options granted were incorporated into the measurement of fair value.

(e) Details of RSU

(i) Details of RSU granted

All the RSU granted by the Bank were allocated to eligible senior management of the Group and of the Bank. Details of the RSU granted are as follows:

| Grant date | Number of share options '000 | Fair value RM | Vesting date |
|------------------------------|------------------------------|---------------|---|
| 23.6.2011 - RSU First Grant | 3,690 | 7.247 | |
| 30.4.2012 - RSU Second Grant | 4,355 | 6.902 | Based on 3-year cliff vesting from the grant date and performance metrics |
| 30.4.2013 - RSU Third Grant | 4,820 | 7.732 | |
| 30.4.2014 - RSU Fourth Grant | 5,520 | 7.850 | |

The following table illustrates the number of, and movements in, RSU during the financial year:

| Grant date | Outstanding as at 1.1.2014 '000 | Movements during the financial year | | | | Outstanding as at 31.12.2014 '000 | Vesting date |
|------------------------------|---------------------------------|-------------------------------------|--------------|-------------------------|----------------|-----------------------------------|---|
| | | Adjustment '000 | Granted '000 | Vested and awarded '000 | Forfeited '000 | | |
| 23.6.2011 - RSU First Grant | 3,150 | 200* | - | (2,795) | (551) | 4 | |
| 30.4.2012 - RSU Second Grant | 3,925 | - | - | - | (435) | 3,490 | Based on 3-year cliff vesting from the grant date and performance metrics |
| 30.4.2013 - RSU Third Grant | 4,480 | 20** | - | - | (350) | 4,150 | |
| 30.4.2014 - RSU Fourth Grant | - | - | 5,520 | - | (140) | 5,380 | |
| | 11,555 | 220 | 5,520 | (2,795) | (1,476) | 13,024 | |

* Adjustment pursuant to DRP for RSU First Grant which vested during the financial year ended 31 December 2014.

** Adjustment relates to appeal cases approved by the ESS Committee during the financial year ended 31 December 2014 for RSU Third Grant.

Total RSU granted to the directors of the Bank as at 31 December 2014 are disclosed under the directors' interests section in the Directors' Report.

The first tranche of RSU under RSU First Grant amounting to 2,794,826 options (including DRP) had been vested and awarded to a selected group of eligible employees during the financial year ended 31 December 2014 (31 December 2013: Nil). The remaining grants have not been vested as at 31 December 2014.

Notes to the Financial Statements

31 December 2014

31. SHARE CAPITAL, SHARE-BASED PAYMENTS AND SHARES HELD-IN-TRUST (CONT'D.)

(e) Details of RSU (cont'd.)

(ii) Fair value of RSU granted on 23 June 2011

The fair value of RSU granted on 23 June 2011 was estimated by an external valuer using the Monte-Carlo Simulation model, taking into account the terms and conditions upon which the RSU were granted. The fair value of RSU measured, closing share price at grant date and the assumptions were as follows:

| | |
|--|-------|
| Fair value of RSU under RSU First Grant (RM) | 7.247 |
| Closing share price at grant date (RM) | 8.82 |
| Expected volatility (%) | 14.59 |
| Vesting period (years) | 3 |
| Risk free rate (%) | 3.31 |
| Expected dividend yield (%) | 4.49 |

The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may also not necessarily be the actual outcome. No other features of the options granted were incorporated into the measurement of fair value.

(iii) Fair value of RSU granted on 30 April 2012

The fair value of RSU granted on 30 April 2012 was estimated by an external valuer using the Monte-Carlo Simulation model, taking into account the terms and conditions upon which the RSU were granted. The fair value of RSU measured, closing share price at grant date and the assumptions were as follows:

| | |
|---|-------|
| Fair value of RSU under RSU Second Grant (RM) | 6.902 |
| Closing share price at grant date (RM) | 8.63 |
| Expected volatility (%) | 14.11 |
| Vesting period (years) | 3 |
| Risk free rate (%) | 3.19 |
| Expected dividend yield (%) | 5.49 |

The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may also not necessarily be the actual outcome. No other features of the options granted were incorporated into the measurement of fair value.

(iv) Fair value of RSU granted on 30 April 2013

The fair value of RSU granted on 30 April 2013 was estimated by an external valuer using the Monte-Carlo Simulation model, taking into account the terms and conditions upon which the RSU were granted. The fair value of RSU measured, closing share price at grant date and the assumptions were as follows:

| | |
|--|-------|
| Fair value of RSU under RSU Third Grant (RM) | 7.732 |
| Closing share price at grant date (RM) | 9.62 |
| Expected volatility (%) | 13.96 |
| Vesting period (years) | 3 |
| Risk free rate (%) | 3.03 |
| Expected dividend yield (%) | 5.35 |

The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may also not necessarily be the actual outcome. No other features of the options granted were incorporated into the measurement of fair value.

(v) Fair value of RSU granted on 30 April 2014

The fair value of RSU granted on 30 April 2014 was estimated by an external valuer using the Monte-Carlo Simulation model, taking into account the terms and conditions upon which the RSU were granted. The fair value of RSU measured, closing share price at grant date and the assumptions were as follows:

| | |
|---|-------|
| Fair value of RSU under RSU Fourth Grant (RM) | 7.850 |
| Closing share price at grant date (RM) | 9.90 |
| Expected volatility (%) | 13.87 |
| Vesting period (years) | 3 |
| Risk free rate (%) | 3.45 |
| Expected dividend yield (%) | 5.84 |

The expected volatility reflected the assumption that the historical volatility was indicative of future trends, which may also not necessarily be the actual outcome. No other features of the options granted were incorporated into the measurement of fair value.

31. SHARE CAPITAL, SHARE-BASED PAYMENTS AND SHARES HELD-IN-TRUST (CONT'D.)**(e) Details of RSU (cont'd.)****(vi) Details of SRSU granted**

During the financial year ended 31 December 2014, a total of 364,000 SRSU (31 December 2013: 15,000) had been granted to a selected group of eligible employees. A total of 299,533 SRSU (31 December 2013: 121,700) had been vested as at 31 December 2014. The remaining grants have not been vested as at 31 December 2014.

The following table illustrates the number of, and movements in, SRSU during the financial year:

| Grant date | Fair value of SRSU (RM) | Outstanding as at 1.1.2014 '000 | Movements during the financial year | | | | Outstanding as at 31.12.2014 '000 |
|------------|-------------------------|---------------------------------|-------------------------------------|--------------|-------------|----------------|-----------------------------------|
| | | | Adjustment '000 | Granted '000 | Vested '000 | Forfeited '000 | |
| 1.3.2011 | 7.513* | 84 | 2 | - | (86) | - | - |
| 15.12.2011 | 7.548 | 20 | - | - | (20) | - | - |
| 16.4.2012 | 7.972 | 15 | - | - | (15) | - | - |
| 7.5.2012 | 7.840 | 15 | - | - | (15) | - | - |
| 1.6.2012 | 7.825 | 39 | - | - | (24) | (15) | - |
| 2.7.2012 | 7.848 | 30 | - | - | (30) | - | - |
| 30.10.2012 | 8.145 | 20 | - | - | (20) | - | - |
| 14.9.2012 | 8.453 | - | 15 | - | (15) | - | - |
| 21.9.2012 | 8.222 | - | 15 | - | (15) | - | - |
| 1.11.2012 | 8.169 | - | 60 | - | (60) | - | - |
| 3.12.2012 | 8.111 | - | 5 | - | - | - | 5 |
| 1.3.2013 | 8.209 | 15 | - | - | - | - | 15 |
| 26.3.2014 | 8.724 | - | - | 270 | - | - | 270 |
| 30.4.2014 | 8.843 | - | - | 34 | - | - | 34 |
| 15.7.2014 | 8.924 | - | - | 60 | - | - | 60 |
| | | 238 | 97 | 364 | (300) | (15) | 384 |

* Aggregate fair value of SRSU

The fair value of SRSU was estimated by an external valuer using the Monte-Carlo Simulation model, taking into account the terms and conditions upon which the SRSU were granted. The fair value of SRSU measured, closing share price at grant date and the assumptions were as follows:

| | Grant Date | | | |
|--|----------------|-------|---------------|----------------|
| | 2014 | 2013 | 2012 | 2011 |
| Fair value of SRSU (RM) | 8.724 - 8.924* | 8.209 | 7.825 - 8.453 | 7.104 - 7.548* |
| Closing share price at grant date (RM) | 9.66 - 9.99 | 9.10 | 8.69 - 9.04 | 7.91 - 8.67 |
| Expected volatility (%) | 12.80 - 14.00 | 13.85 | 14.12 - 14.92 | 15.03 - 16.12 |
| Vesting period (years) | 2 - 3 | 2 | 2 | 2 - 3 |
| Risk free rate (%) | 3.22 - 3.40 | 2.98 | 2.88 - 3.10 | 2.94 - 3.35 |
| Expected dividend yield (%) | 5.84 | 5.35 | 5.35 | 5.35 |

* Aggregate fair value of SRSU

(f) Details of CESOS

The Bank granted a total of 719,500 CESOS to eligible employees in overseas branches on 23 June 2011 ("CESOS First Grant"). On 30 April 2012, the Bank granted second tranche of CESOS under CESOS First Grant amounting to 394,800 to promoted employees in overseas branches. On 30 April 2013, the Bank granted third tranche of CESOS under CESOS First Grant amounting to 671,600. On 30 April 2014, the Bank granted fourth tranche of CESOS under CESOS First Grant amounting to 591,300. The first tranche of CESOS under CESOS First Grant amounting to 559,400 options have been vested as at 25 June 2014, 30 June 2014 and 18 July 2014 (31 December 2013: Nil), whilst the remaining tranches have not been vested as at 31 December 2014.

On 30 April 2012, the Bank granted a first tranche under the CESOS Second Grant of 554,000 CESOS to selected employees in overseas branches and selected key retention employees of PT Bank Internasional Indonesia Tbk. The second tranche of CESOS Second Grant of 1,302,800 has been granted on 30 April 2013. On 30 April 2014, the Bank granted third tranche of CESOS under CESOS Second Grant amounting to 1,011,800.

On 30 April 2013, the Bank granted first tranche of CESOS under CESOS Third Grant amounting to 614,700 to selected employees in overseas branches and selected key retention employees of PT Bank Internasional Indonesia Tbk. The second tranche of CESOS Third Grant of 695,000 has been granted on 30 April 2014.

On 30 April 2014, the Bank granted first tranche of CESOS under CESOS Fourth Grant amounting to 556,500 to selected employees in overseas branches and selected key retention employees of PT Bank Internasional Indonesia Tbk.

| | 616 | (40) | 695 | - | (134) | 1,137 |

CESOS Fourth Grant

| Grant date | Outstanding as at 1.1.2014 '000 | Movements during the financial year | | | | Outstanding as at 31.12.2014 '000 |
|------------|---------------------------------|-------------------------------------|--------------|-------------------------|----------------|-----------------------------------|
| | | Adjustment '000 | Granted '000 | Vested and awarded '000 | Forfeited '000 | |
| 30.4.2014 | - | - | 557 | - | (43) | 514 |

Other than the first tranche of CESOS First Grant, the remaining CESOS granted have not been vested as at 31 December 2014.

(g) Details of CRSU

(i) Details of CRSU granted

All the CRSU granted by the Bank were allocated to eligible senior management of the Group and of the Bank. Details of the CRSU granted are as follows:

| Grant date | Number of share options '000 | Fair value RM | Vesting date |
|-------------------------------|------------------------------|---------------|--|
| 23.6.2011 - CRSU First Grant | 15 | 7.247 | Based on 3-year cliff vesting from the grant date and performance metrics. |
| 30.4.2012 - CRSU Second Grant | 15 | 6.902 | |
| 30.4.2013 - CRSU Third Grant | 185 | 7.732 | |
| 30.4.2014 - CRSU Fourth Grant | 145 | 7.850 | |

The first tranche of CRSU under CRSU First Grant amounting to 16,160 options (including DRP) had been vested during the financial year ended 31 December 2014 (31 December 2013: Nil). The remaining grants have not been vested as at 31 December 2014.

31. SHARE CAPITAL, SHARE-BASED PAYMENTS AND SHARES HELD-IN-TRUST (CONT'D.)**(g) Details of CRSU (cont'd.)****(ii) Fair value of CRSU granted on 23 June 2011, 30 April 2012, 30 April 2013 and 30 April 2014**

The fair value of CRSU granted on 23 June 2011, 30 April 2012, 30 April 2013 and 30 April 2014 was estimated by an external valuer using the Monte-Carlo Simulation model, taking into account the terms and conditions upon which the CRSU were granted. The fair value of CRSU measured, closing share price at grant date and the assumptions were as follows:

| | Grant date | | | |
|--|------------|-----------|-----------|-----------|
| | 30.4.2014 | 30.4.2013 | 30.4.2012 | 23.6.2011 |
| Fair value of CRSU (RM) | 7.850 | 7.732 | 6.902 | 7.247 |
| Closing share price at grant date (RM) | 9.9 | 9.62 | 8.63 | 8.82 |
| Expected volatility (%) | 13.87 | 13.96 | 14.11 | 14.59 |
| Vesting period (years) | 3 | 3 | 3 | 3 |
| Risk free rate (%) | 3.45 | 3.03 | 3.19 | 3.31 |
| Expected dividend yield (%) | 5.84 | 5.35 | 5.49 | 4.49 |

32. RETAINED PROFITS**(a) The Group's retained profits**

The retained profits of the Group include the non-distributable Non-DPF unallocated surplus of an insurance subsidiary as a result of the Revised Bank Negara Malaysia ("BNM") Guidelines on Financial Reporting for Insurers. This non-distributable Non-DPF unallocated surplus is only available for distribution to shareholders based on the amount recommended by the Appointed Actuary in accordance with the Financial Services Act 2013.

The breakdown of distributable and non-distributable retained profits of the Group are as follows:

| Group As at 31.12.2014 | Non-Distributable Non-DPF Unallocated Surplus RM'000 | Distributable Retained Profits RM'000 | Total Retained Profits RM'000 |
|---|--|--|--|
| At 1 January 2014 | 820,817 | 10,926,667 | 11,747,484 |
| Profit for the financial year | 151,767 | 6,564,688 | 6,716,455 |
| Total comprehensive income for the financial year | 151,767 | 6,564,688 | 6,716,455 |
| Effects of changes in corporate structure within the Group | - | 697 | 697 |
| Transfer to Non-DPF unallocated surplus | 914 | (914) | - |
| Transfer to statutory reserve | - | (855,864) | (855,864) |
| Transfer to regulatory reserve | - | (274,500) | (274,500) |
| Issue of shares pursuant to Restricted Share Unit ("RSU") (Note 31(a)(ii)) | - | (6,494) | (6,494) |
| Issue of shares pursuant to Supplemental Restricted Share Unit ("SRSU") (Note 31(a)(iii)) | - | (735) | (735) |
| Dividends (Note 49) | - | (4,939,066) | (4,939,066) |
| Total transactions with shareholders | 914 | (6,076,876) | (6,075,962) |
| At 31 December 2014 | 973,498 | 11,414,479 | 12,387,977 |

Notes to the Financial Statements

31 December 2014

32. RETAINED PROFITS (CONT'D.)

- (a) The Group's retained profits (cont'd.)

The breakdown of distributable and non-distributable retained profits of the Group are as follows (cont'd.):

| Group As at 31.12.2013 | Non-Distributable Non-DPF Unallocated Surplus RM'000 | Distributable Retained Profits RM'000 | Total Retained Profits RM'000 |
|--|--|--|--|
| At 1 January 2013 | 698,114 | 10,406,723 | 11,104,837 |
| Profit for the financial year | 122,703 | 6,429,688 | 6,552,391 |
| Total comprehensive income for the financial year | 122,703 | 6,429,688 | 6,552,391 |
| Effects of changes in corporate structure within the Group | - | (27,839) | (27,839) |
| Transfer to statutory reserve | - | (1,516,424) | (1,516,424) |
| Dividends (Note 49) | - | (4,365,481) | (4,365,481) |
| Total transactions with shareholders | - | (5,909,744) | (5,909,744) |
| At 31 December 2013 | 820,817 | 10,926,667 | 11,747,484 |

- (b) The Bank's retained profits

The retained profits of the Bank as at 31 December 2014 and 31 December 2013 are distributable profits and may be distributed as dividends under the single-tier system.

33. RESERVES

| | Note | Group | | Bank | |
|------------------------------|--------------|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Non-distributable: | | | | | |
| Statutory reserve | (a) | 10,396,000 | 9,540,136 | 9,860,875 | 9,026,745 |
| Regulatory reserve | (b) | 274,500 | - | - | - |
| Other reserves | (c) | (96,421) | (21,597) | - | - |
| AFS reserve | 2.3(v)(b)(4) | (321,842) | (604,112) | (362,553) | (653,690) |
| Exchange fluctuation reserve | 2.3(xix)(c) | (1,917,500) | (2,727,793) | 821,824 | 585,214 |
| ESS reserve | 2.3(xxvi)(e) | 298,366 | 278,231 | 298,366 | 278,231 |
| | | 8,633,103 | 6,464,865 | 10,618,512 | 9,236,500 |

- (a) The statutory reserves are maintained in compliance with the requirements of BNM and certain Central Banks of the respective countries in which the Group and the Bank operate and are not distributable as cash dividends.
- (b) Regulatory reserve is maintained in addition to the collective impairment allowance that has been assessed and recognised in accordance with MFRS and which has been transferred from the retained profits, in accordance with BNM circular as disclosed in Note 2.5(i).

33. RESERVES (CONT'D.)

(c) Other reserves

| Total transactions with shareholders | (697) | - | - | - | - | (697) |
| At 31 December 2014 | 13,557 | 11,774 | 34,456 | (89,017) | (67,191) | (96,421) |
| As at 31.12.2013 | | | | | | |
| At 1 January 2013 | 14,254 | 7,986 | 34,456 | (124,322) | - | (67,626) |
| Other comprehensive income | - | 3,740 | - | 42,289 | - | 46,029 |
| Defined benefit plan actuarial gain | - | - | - | 42,289 | - | 42,289 |
| Net gain on revaluation reserve | - | 3,740 | - | - | - | 3,740 |
| Total comprehensive income for the financial year | - | 3,740 | - | 42,289 | - | 46,029 |
| At 31 December 2013 | 14,254 | 11,726 | 34,456 | (82,033) | - | (21,597) |

(i) The capital reserve of the Group arose from the corporate exercises undertaken by certain subsidiaries in previous years.

(ii) Revaluation reserve relates to the transfer of self-occupied properties to investment properties subsequent to the change on occupation intention.

(iii) The Profit Equalisation Reserve ("PER") of Islamic Banking Institution ("IBI") is classified as a separate reserve in equity as per revised BNM Revised Guidelines on *Profit Equalisation Reserve* issued on 1 July 2012.**34. OPERATING REVENUE**

Operating revenue of the Group comprises all types of revenue derived from the business of banking, income from Islamic Banking Scheme ("IBS") operations, finance, investment banking, general and life insurance (including takaful), stockbroking, leasing and factoring, trustee and nominee services, asset management and venture capital but excluding all transactions between related companies.

Operating revenue of the Bank comprises gross interest income, gross fee and gross commission income, investment income, gross dividends and other income derived from banking and finance operations.

Notes to the Financial Statements

31 December 2014

| Impairment of property, plant and equipment (Note 19) | - | 222 | - | - |
| Impairment of intangible assets (Note 20) | - | 1,422 | - | - |

¹ ESS expenses which arising from equity-settled share-based payment transactions for the Group and the Bank are approximately RM78,678,000 and RM53,597,000 (1 January 2013 to 31 December 2013: RM104,213,000 and RM78,662,000) respectively.

² Cost to income ratio is computed using total cost over the net operating income. Total cost of the Group is the total overhead expenses, excluding amortisation of intangible assets for PT Bank Internasional Indonesia Tbk and Maybank Kim Eng Holdings Limited of RM19,185,000 and RM32,686,000 (1 January 2013 to 31 December 2013: RM28,368,000 and RM35,375,000) respectively. Income is the net operating income amount, as disclosed on the face of income statements.

³ Relates to fees paid and payable to accounting firms other than Ernst & Young.

| Reversal of deferred tax no longer required | 779,344 | 105,714 | 555,393 | 105,714 |
| Relating to reduction in tax rate | 4,579 | - | 1,844 | - |
| | 792,136 | 95,345 | 608,202 | 105,585 |
| Tax expense for the financial year | 2,175,288 | 2,067,466 | 1,441,412 | 1,241,324 |
| Zakat | 25,252 | 30,795 | - | - |
| | 2,200,540 | 2,098,261 | 1,441,412 | 1,241,324 |

The Group's and the Bank's effective tax rate for the financial year ended 31 December 2014 was lower than the statutory tax rate due to certain income not subject to tax.

Domestic income tax is calculated at the Malaysian statutory tax rate of 25% (31 December 2013: 25%) of the estimated chargeable profit for the financial year. As announced in the Budget 2014, it is proposed that the domestic statutory tax rate will be reduced to 24% from year assessment 2016 onwards.

Taxation for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions.

Notes to the Financial Statements

31 December 2014

45. TAXATION AND ZAKAT (CONT'D.)

A reconciliation of income tax expense applicable to profit before taxation at the statutory income tax rate to income tax expense at the effective income tax rate of the Group and of the Bank is as follows:

| | Group | | Bank | |
|---|--|--|--|--|
| | 1.1.2014 to 31.12.2014 RM'000 | 1.1.2013 to 31.12.2013 RM'000 | 1.1.2014 to 31.12.2014 RM'000 | 1.1.2013 to 31.12.2013 RM'000 |
| Profit before taxation | 9,111,583 | 8,869,594 | 7,344,427 | 6,126,940 |
| Taxation at Malaysian statutory tax rate of 25% (31 December 2013: 25%) | 2,277,896 | 2,217,399 | 1,836,107 | 1,531,735 |
| Different tax rates in other countries | 22,476 | 66,755 | 13,632 | 12,588 |
| Income not subject to tax | (230,005) | (325,041) | (453,197) | (248,391) |
| Expenses not deductible for tax purposes | 154,162 | 324,494 | 49,921 | 91,332 |
| Overprovision in tax expense in prior years | (757,039) | (287,038) | (562,288) | (251,654) |
| Reversal of deferred tax no longer required | 779,344 | 105,714 | 555,393 | 105,714 |
| Share of profits in associates and joint ventures | (76,125) | (34,817) | - | - |
| Effect of reduction in income tax rate | 4,579 | - | 1,844 | - |
| Tax expense for the financial year | 2,175,288 | 2,067,466 | 1,441,412 | 1,241,324 |

46. SIGNIFICANT RELATED PARTY TRANSACTIONS AND BALANCES

For the purposes of these financial statements, parties are considered to be related to the Group if the Group or the Bank has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group or the Bank and the party are subject to common control or common significant influence. Related parties may be individuals or other entities.

Related parties also include key management personnel defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group and of the Bank either directly or indirectly. The key management personnel includes all the directors and chief executive officers of the Group and of the Bank.

The Group and the Bank have related party relationships with their substantial shareholders, subsidiaries, associates and key management personnel.

Related party transactions have been entered into in the normal course of business under normal trade terms. The significant related party transactions and balances of the Group and of the Bank are as follows:

(a) Significant related party transactions

(i) Subsidiaries

| | Bank | |
|---|--|--|
| | 1.1.2014 to 31.12.2014 RM'000 | 1.1.2013 to 31.12.2013 RM'000 |
| Income: | | |
| Interest on deposits | 565,672 | 491,243 |
| Dividend income | 1,747,040 | 990,434 |
| Rental of premises | 3,361 | 3,421 |
| Other income | 140,402 | 92,454 |
| | 2,456,475 | 1,577,552 |
| Expenditure: | | |
| Interest on deposits | 239,833 | 358,426 |
| Information technology expenses | 475,217 | 89,090 |
| Other expenses | 84,644 | 6,119 |
| | 799,694 | 453,635 |
| Others: | | |
| ESS expenses charged to subsidiaries | 24,217 | 25,547 |
| Overhead expenses allocated to subsidiaries | 833,270 | 786,949 |
| | 857,487 | 812,496 |

Transactions between the Bank and its subsidiaries are eliminated on consolidation at Group level.

Notes to the Financial Statements

31 December 2014

46. SIGNIFICANT RELATED PARTY TRANSACTIONS AND BALANCES (CONT'D.)

Related party transactions have been entered into in the normal course of business under normal trade terms. The significant related party transactions and balances of the Group and of the Bank are as follows (cont'd.):

(a) Significant related party transactions (cont'd.):

(ii) Associates

| | Bank | |
|-----------------|--|--|
| | 1.1.2014 to 31.12.2014 RM'000 | 1.1.2013 to 31.12.2013 RM'000 |
| Income: | | |
| Dividend income | 3,572 | 9,641 |

There were no significant transactions with joint ventures for the financial year ended 31 December 2014.

(iii) Key management personnel

| | Group | | Bank | |
|--|--|--|--|--|
| | 1.1.2014 to 31.12.2014 RM'000 | 1.1.2013 to 31.12.2013 RM'000 | 1.1.2014 to 31.12.2014 RM'000 | 1.1.2013 to 31.12.2013 RM'000 |
| Short-term employee benefits | | | | |
| - Fees | 11,605 | 13,075 | 2,697 | 2,795 |
| - Salaries, allowances and bonuses | 49,768 | 46,600 | 4,659 | 5,196 |
| - Pension cost - defined contribution plan | 3,058 | 2,301 | 571 | 625 |
| - Other staff benefits | 1,348 | 6,646 | 105 | 108 |
| Share-based payment | | | | |

| Granted during the financial year: | | | | |
| - ESOS Fourth Grant | 2,493 | - | - | - |
| - ESOS Third Grant | 156 | 1,473 | - | - |
| - ESOS Second Grant | - | 282 | - | - |
| - ESOS First Grant | 1,184 | - | - | - |

Notes to the Financial Statements

31 December 2014

46. SIGNIFICANT RELATED PARTY TRANSACTIONS AND BALANCES (CONT'D.)

Related party transactions have been entered into in the normal course of business under normal trade terms. The significant related party transactions and balances of the Group and of the Bank are as follows (cont'd.):

(a) Significant related party transactions (cont'd.):

(iii) Key management personnel (cont'd.)

The movements in the number of ESOS granted and vested to key management personnel are as follows (cont'd.):

| | Group | | Bank | |
|------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| | As at 31.12.2014 '000 | As at 31.12.2013 '000 | As at 31.12.2014 '000 | As at 31.12.2013 '000 |
| At 1 January | 2,756 | 2,609 | 575 | 750 |
| Adjustment* | 645 | 484 | - | 325 |
| Vested and exercisable | 2,416 | 2,716 | 326 | 875 |
| Exercised | - | (3,053) | - | (1,375) |
| At 31 December | 5,817 | 2,756 | 901 | 575 |

* Adjustment relates to changes in key management personnel during the financial year.

The ESOS which granted to key management personnel during the financial year ended 31 December 2014 are on the same terms and conditions as those offered to other employees of the Group and of the Bank, as disclosed in Note 31(c).

The movements in the number of RSU granted to key management personnel are as follows:

| | Group | | Bank | |
|------------------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| | As at 31.12.2014 '000 | As at 31.12.2013 '000 | As at 31.12.2014 '000 | As at 31.12.2013 '000 |
| Granted during the financial year: | | | | |
| - RSU Fourth Grant | 820 | - | 200 | - |
| - RSU Third Grant | - | 515 | - | 75 |

None of the above RSU granted has been vested as at 31 December 2014.

(b) Significant related party balances

(i) Subsidiaries

| | Bank | |
|---|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Amounts due from: | | |
| Current accounts and deposits | 13,715,080 | 21,250,248 |
| Negotiable instruments of deposits | 12,328,008 | 4,493,471 |
| Interest and other receivable on deposits | 1,538,643 | 1,277,951 |
| Private debt securities | 734,117 | 249,029 |
| Derivative assets | 26,918 | 34,882 |
| | 28,342,766 | 27,305,581 |
| Amounts due to: | | |
| Current accounts and deposits | 2,173,306 | 6,288,020 |
| Negotiable instruments of deposits | 18,982 | 18,353 |
| Private debt securities | 302,963 | 298,050 |
| Interest payable on deposits | 11,189 | 14,740 |
| Deposits and other creditors | 8,293,886 | 12,743,619 |
| Derivative liabilities | 1,324 | 8,806 |
| | 10,801,650 | 19,371,588 |
| Commitments and contingencies | 109,000 | 32,000 |

Balances between the Bank and its subsidiaries are eliminated on consolidation at Group level.

46. SIGNIFICANT RELATED PARTY TRANSACTIONS AND BALANCES (CONT'D.)

Related party transactions have been entered into in the normal course of business under normal trade terms. The significant related party transactions and balances of the Group and of the Bank are as follows (cont'd.):

(b) Significant related party balances (cont'd.)**(ii) Associates**

| | Bank | |
|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Amount due from: | | |
| Current accounts and deposits | 5,965 | 4,916 |

(iii) Key management personnel

| | Group | | Bank | |
|-------------------------------|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Loans, advances and financing | 23,741 | 12,752 | 5,220 | 3,751 |
| Deposits from customers | 55,958 | 53,450 | 36,207 | 44,320 |

There were no significant balances with joint ventures as at 31 December 2014.

(c) Government-related entities

Permodalan Nasional Berhad ("PNB"), a government-linked entity and is a shareholder with significant influence on the Bank, with direct shareholding of 5.37% (31 December 2013: 5.70%) and indirect shareholding of 38.46% (31 December 2013: 38.22%) via Amanah Raya Trustee Berhad (Skim Amanah Saham Bumiputera) as at 31 December 2014. PNB and entities directly controlled by PNB are collectively referred to as government-related entities to the Group and the Bank.

All the transactions entered into by the Group and the Bank with the government-related entities are conducted in the ordinary course of the Group's and of the Bank's business on terms comparable to those with other entities that are not government-related. The Group has established credit policies, pricing strategy and approval process for loans and financing, which are independent of whether the counterparties are government-related entities or not.

(i) Individually significant transactions and balances with PNB due to its size of transactions:

| | Group | | Bank | |
|--|--|--|--|--|
| | 1.1.2014 to 31.12.2014 RM'000 | 1.1.2013 to 31.12.2013 RM'000 | 1.1.2014 to 31.12.2014 RM'000 | 1.1.2013 to 31.12.2013 RM'000 |
| Transactions during the financial year: | | | | |
| Interest and finance income | 240,358 | 200,421 | 154,589 | 154,775 |

| | Group | | Bank | |
|--|-------------------------------|-------------------------------|-------------------------------|-------------------------------|
| | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
| Balances as at reporting dates: | | | | |
| Loans, advances and financing | 7,457,680 | 6,457,680 | 4,307,680 | 4,307,680 |

(ii) Collectively, but not individually, significant transactions

The Group has transactions with other government-related entities including but not limited to provision of loans and financing, deposits placement, brokerage services and underwriting of insurance and takaful.

For the financial year ended 31 December 2014, management estimates that the aggregate amount of the Group's and of the Bank's significant transactions with other government-related entities is 0.2% of their total interest and finance income (31 December 2013: 0.3% and 0.4% respectively for the Group and the Bank).

For the financial year ended 31 December 2014, management estimates that the aggregate amount of the significant balances due from other government-related entities for the Group and the Bank are 0.1% and 0.2% respectively of its total loans, advances and financing (31 December 2013: 0.2% and 0.3% respectively for the Group and the Bank).

Notes to the Financial Statements

31 December 2014

47. CREDIT EXPOSURE ARISING FROM CREDIT TRANSACTIONS WITH CONNECTED PARTIES

The credit exposures disclosed below are based on requirement of Paragraph 9.1 of BNM revised Guidelines on Credit Transactions and Exposures with Connected Parties.

Based on these guidelines, a connected party refers to the following:

- (i) Directors of the Bank and their close relatives;
- (ii) Controlling shareholder of the Bank and his close relatives;
- (iii) Influential shareholder of the Bank and his close relatives;
- (iv) Executive officer, being a member of management having authority and responsibility for planning, directing and/or controlling activities of the Bank and his close relatives;
- (v) Officers who are responsible for or have the authority to appraise and/or approve credit transactions or review the status of existing credit transactions, either as a member of a committee or individually and their close relatives;
- (vi) Firms, partnerships, companies or any legal entities which control, or are controlled by any person listed in (i) to (v) above, or in which they have an interest, as a director, partner, executive officer, agent or guarantor, and their subsidiaries or entities controlled by them;
- (vii) Any person for whom the persons listed in (i) to (v) above is a guarantor; and
- (viii) Subsidiary of or an entity controlled by the Bank and its connected parties.

Credit transactions and exposures to connected parties as disclosed below include the extension of credit facilities and/or off-balance sheet credit exposures such as guarantees, trade-related facilities and loan commitments.

| | Group | | Bank | |
|---|---------------------|---------------------|---------------------|---------------------|
| | As at 31.12.2014 | As at 31.12.2013 | As at 31.12.2014 | As at 31.12.2013 |
| Outstanding credit exposures with connected parties (RM'000) | 20,144,156 | 14,252,988 | 26,381,577 | 14,503,489 |
| Percentage of outstanding credit exposures to connected parties as proportion of total credit exposures | 3.1% | 2.4% | 5.5% | 3.3% |
| Percentage of outstanding credit exposures to connected parties which is impaired or in default | - | - | - | - |

48. EARNINGS PER SHARE ("EPS")

(a) Basic EPS

The basic EPS of the Group and of the Bank are calculated by dividing the net profit for the financial year attributable to equity holders of the Bank by the weighted average number of ordinary shares in issue during the financial year.

| | Group | | Bank | |
|---|------------------------------|------------------------------|------------------------------|------------------------------|
| | 1.1.2014 to 31.12.2014 | 1.1.2013 to 31.12.2013 | 1.1.2014 to 31.12.2014 | 1.1.2013 to 31.12.2013 |
| Net profit for the financial year attributable to equity holders of the Bank (RM'000) | 6,716,455 | 6,552,391 | 5,903,015 | 4,885,616 |
| Weighted average number of ordinary shares in issue ('000) | 9,057,541 | 8,645,760 | 9,057,541 | 8,645,760 |
| Basic earnings per share (sen) | 74.2 | 75.8 | 65.2 | 56.5 |

(b) Diluted EPS

The diluted EPS of the Group and of the Bank are calculated by dividing the net profit for the financial year attributable to equity holders of the Bank by the weighted average number of ordinary shares in issue, which has been adjusted for the number of ordinary shares that could have been issued under the Maybank Group Employees' Share Scheme ("ESS"). The details of ESS are disclosed in Note 31(c).

In the diluted EPS calculation, it is assumed that certain number of ordinary shares under the ESS relating to the RSU are vested and awarded to employees through issuance of additional ordinary shares. A calculation is done to determine the number of ordinary shares that could have been issued at fair value (determined as the average price of the Bank's ordinary shares during the financial year) based on the monetary value of the ESS entitlement attached to the outstanding RSU granted. This calculation serves to determine the number of dilutive shares to be added to the weighted average ordinary shares in issue for the purpose of computing the dilution. No adjustment is made to the net profit for the financial year.

48. EARNINGS PER SHARE (“EPS”) (CONT’D.)**(b) Diluted EPS (cont’d.)**

| | Group | | Bank | |
|---|------------------------------|------------------------------|------------------------------|------------------------------|
| | 1.1.2014 to 31.12.2014 | 1.1.2013 to 31.12.2013 | 1.1.2014 to 31.12.2014 | 1.1.2013 to 31.12.2013 |
| Net profit for the financial year attributable to equity holders of the Bank (RM’000) | 6,716,455 | 6,552,391 | 5,903,015 | 4,885,616 |
| Weighted average number of ordinary shares in issue (’000) | 9,057,541 | 8,645,760 | 9,057,541 | 8,645,760 |
| Effects of dilution (’000) | 1,287 | 7,426 | 1,287 | 7,426 |
| Adjusted weighted average number of ordinary shares in issue (’000) | 9,058,828 | 8,653,186 | 9,058,828 | 8,653,186 |
| Diluted earnings per share (sen) | 74.1 | 75.7 | 65.2 | 56.5 |

ESOS granted to employees under the ESS have not been included in the calculation of diluted earnings per share as the ESOS are non-dilutive potential ordinary shares as at 31 December 2014 and 31 December 2013.

49. DIVIDENDS

| Group and Bank | 1.1.2014 to 31.12.2014 RM’000 | 1.1.2013 to 31.12.2013 RM’000 | Net dividends per share | |

| | 4,939,066 | 4,365,481 | | |

(a) Proposed final dividend

At the forthcoming Annual General Meeting, a final single-tier dividend in respect of the current financial year ended 31 December 2014 of 33 sen single-tier dividend per ordinary share of RM1.00 each, amounting to a net dividend payable of RM3,075,279,881 (based on 9,319,029,941 ordinary shares of RM1.00 each in issue as at 31 December 2014) will be proposed for the shareholders’ approval.

The proposed final single-tier dividend consists of cash portion of 10 sen per ordinary share to be paid in cash amounting to RM931,902,994 and an electable portion of 23 sen per ordinary share amounting to RM2,143,376,887.

The electable portion can be elected to be reinvested in new ordinary shares in accordance with the Dividend Reinvestment Plan (“DRP”) as disclosed in Note 31(b) and subject to the relevant regulatory approvals as well as shareholders’ approval at the forthcoming Annual General Meeting.

The financial statements for the current financial year ended 31 December 2014 do not reflect this proposed final dividend. Such dividend, if approved by the shareholders, will be accounted for in the statements of changes in equity as an appropriation of retained profits in the next financial year ending 31 December 2015.

(b) Dividend Reinvestment Plan (“DRP”)

The Bank via the announcement on 25 March 2010 proposed to undertake a recurrent and optional DRP that allows shareholders of the Bank to reinvest electable portion of their dividends into new ordinary share(s) of RM1.00 each in the Bank.

Details of the DRP are disclosed in Note 31(b).

(c) Dividends paid during the financial year

- The final dividend consists of cash portion of 4 sen single-tier dividend per ordinary share paid in cash amounting to RM354,807,857 and an electable portion of 27 sen per ordinary share amounting to RM2,394,953,034 which could be elected to be reinvested in new Maybank Shares in accordance with the DRP, in respect of the financial year ended 31 December 2013.
- The interim single-tier dividend consists of cash portion of 4 sen per ordinary share paid in cash amounting to RM366,028,316 and an electable portion of 20 sen per ordinary share amounting to RM1,830,141,579 which could be elected to be reinvested in new Maybank Shares in accordance with the DRP, in respect of the current financial year ended 31 December 2014.

(d) Dividends paid by Maybank’s subsidiaries to non-controlling interests

Dividends paid by Maybank’s subsidiaries to non-controlling interests amounted to RM198,202,000 during the financial year ended 31 December 2014 (31 December 2013: RM60,451,000).

Notes to the Financial Statements

31 December 2014

50. COMMITMENTS AND CONTINGENCIES

- (a) In the normal course of business, the Group and the Bank make various commitments and incur certain contingent liabilities with legal recourse to their customers. No material losses are anticipated as a result of these transactions.

The risk-weighted exposures of the Group and of the Bank are as follows:

| Group As at 31.12.2014 | Full commitment RM'000 | Credit equivalent amount* RM'000 | Risk- weighted amount* RM'000 |
|---|------------------------------|---|--|
| Contingent liabilities | | | |
| Direct credit substitutes | 12,187,201 | 9,936,606 | 6,666,024 |
| Certain transaction-related contingent items | 16,785,821 | 7,184,856 | 4,977,193 |
| Short-term self-liquidating trade-related contingencies | 7,821,190 | 1,009,034 | 769,542 |

Notes to the Financial Statements

31 December 2014

50. COMMITMENTS AND CONTINGENCIES (CONT'D.)

- (a) In the normal course of business, the Group and the Bank make various commitments and incur certain contingent liabilities with legal recourse to their customers. No material losses are anticipated as a result of these transactions (cont'd.).
- (i) The Group's and the Bank's derivative financial instruments are subject to market, credit and liquidity risks, as follows:
- Market risk on derivatives is the potential loss to the value of these contracts due to changes in price of the underlying items such as equities, interest rates, foreign exchange rates, credit spreads, commodities or other indices. The notional or contractual amounts provide only the volume of transactions outstanding at the reporting date and do not represent the amount at risk. Exposure to market risk may be reduced through offsetting items from on and off-balance sheet positions;
 - Credit risk arises from the possibility that a counterparty may be unable to meet the terms of a contract in which the Bank and certain subsidiaries have a gain position. As at 31 December 2014, the amount of credit risk in the Group, measured in terms of the cost to replace the profitable contracts, was RM4,544.0 million (31 December 2013: RM3,383.7 million and 1 January 2013: RM2,421.1 million). This amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rates or prices; and
 - Liquidity risk on derivatives is the risk that the derivative position cannot be closed out promptly. Exposure to liquidity risk is reduced through contracting derivatives where the underlying items are widely traded.
- (ii) There have been no changes since the end of the previous financial year in respect of the following:
- The types of derivative financial contracts entered into and the rationale for entering into such contracts, as well as the expected benefits accruing from these contracts;
 - The risk management policies in place for mitigating and controlling the risks associated with these financial derivative contracts; and
 - The related accounting policies.
- (b) Arising from the recourse obligation on loans and financing sold to Cagamas Berhad as disclosed in Note 25, the Group and the Bank are contingently liable in respect of loans and financing sold to Cagamas Berhad on the condition that they undertake to administer the loans and financing on behalf of Cagamas Berhad and to buy back any loans and financing which are regarded as defective based on pre-determined and agreed-upon prudential criteria with recourse against the originators.
- (c) Contingent liabilities**
- (i) In 2005, a subsidiary, Maybank Trustees Berhad ("MTB") and eleven other defendants were served with a writ of summons by ten plaintiffs/bondholders all of which are institutions, for an amount of approximately RM149.3 million. MTB was alleged to have acted in breach of trust and negligently in its capacity as Trustee for the bonds issued. MTB has defended the suit.
- On 7 July 2008, the plaintiffs entered judgment by consent against certain defendants (which included the issuer of the bonds but not MTB) for the sum of RM149.3 million. The entering of the said judgment by consent is not in any way an admission of liability on the part of MTB.
- On 4 August 2008, a defendant (the issuer of the bonds) served a counterclaim on MTB for approximately RM535.0 million being losses allegedly incurred by it as a result of MTB unlawfully declaring an Event Of Default on the bonds. The defendant had however on 25 August 2009 withdrawn the counterclaim against MTB.

The High Court on 30 June 2010 awarded judgment against MTB and another defendant, being the Arranger for the bonds, for RM149.3 million. The judgment sum in favour of the plaintiffs/bondholders was apportioned at 40% against MTB and 60% against the other defendant. The High Court also dismissed MTB's other claims.

Upon appeal by the parties, the Court of Appeal on 8 November 2011 ruled that MTB and the other defendant were instead to be equally liable to the plaintiffs/bondholders. In addition, the Court of Appeal ordered them to pay penalty charges on the judgment sum at the rate of 3% from 30 September 2005 to date of judgment ("Penalty Charges"). However, the Court of Appeal allowed MTB and the other defendant to seek indemnity against the issuer of the bonds ("Issuer") for 2/3 of the total liability and also allowed MTB to seek indemnity against the Issuer's Chief Executive Officer, one of the Issuer's directors and associate companies of the said Chief Executive Officer and the said director (collectively the "Associated Defendants") for one half of the 2/3 of the total liability. Further, the Court of Appeal allowed MTB to seek an indemnity against one of the plaintiffs for 1/3 of its liability (after deducting the sum to be indemnified by the Issuer and the Associated Defendants) ("the 1/3 Indemnity"). The Federal Court had on 5 April 2012 granted MTB and the other parties to the suit leave to appeal against the decision of the Court of Appeal. The appeal concluded on 4 January 2013.

Separately, and unrelated to this suit, a third party had, pursuant to a winding-up petition against a defendant (the issuer of the bonds) (Winding-Up Petition), appointed a provisional liquidator against the said defendant on 16 February 2012 until 15 March 2012 for the purpose of monitoring and completing the sale of assets charged to the third party.

As a result of the appointment of the said provisional liquidator, all pending proceedings by all parties against the said defendant were effectively stayed and these initially included MTB's applications for leave at the Federal Court referred to above [Leave Applications]. Subsequently, MTB on 9 March 2012 obtained leave of the court to proceed with the successful Leave Applications.

Further to the Winding-Up Petition, the third party had on 22 March 2013 obtained the order of the High Court to wind up the said defendant. Subsequently, MTB had on 16 April 2013 obtained the leave of the High Court to continue with the pending actions against the said defendant given that the Federal Court has yet to deliver its decision.

The Federal Court had on 10 February 2014 delivered its decision ("Decision") wherein it had, among others, allowed MTB a full indemnity against the Issuer and the Associated Defendants and reduced the judgment sum against MTB to RM107 million with no liability apportioned to the other defendant. The Federal Court also allowed MTB's appeal against the Penalty Charges. In addition, one of the plaintiffs was allowed to set aside the 1/3 Indemnity.

The Issuer's Chief Executive Officer and associate companies of the said Chief Executive Officer have filed an application for the Federal Court to review its Decision against them ("Review Application"). The Review Application was withdrawn on 29 September 2014 as the said Review Application cannot be heard by the Federal Court until the court order in respect of the Decision is sealed. The Federal Court allowed the withdrawal of the Review Application.

The above contingent liability is covered by an existing Banker Blanket Bond Policy between the Bank and a subsidiary, Etiqa Insurance Berhad, which had entered into a facultative reinsurance contract for an insured sum of RM150.0 million with three (3) other re-insurers.

50. COMMITMENTS AND CONTINGENCIES (CONT'D.)**(c) Contingent liabilities (cont'd.)**

- (ii) A corporate borrower had issued a writ of summons and statement of claim against a subsidiary, Maybank Investment Bank Berhad ("Maybank IB"), in 2005 in the latter's capacity as agent bank for three financial institutions, claiming general, special and exemplary damages arising from alleged breach of duty owed by Maybank IB in connection with a syndicated facility.

The credit facilities consisted of a bridging loan of RM58.5 million and a revolving credit facility of RM4.0 million which were granted by Maybank IB and the three syndicated lenders. Maybank IB's rights as lender were subsequently vested to Malayan Banking Berhad, one of the other three syndicated lenders. Maybank IB retained its agency role. The loan was subsequently restructured to RM38.0 million with terms for repayment. In 2006, Maybank IB and the three syndicated lenders filed a suit against the corporate borrower and a guarantor for the recovery of the said credit facilities. The two claims were heard together.

The High Court on 6 May 2009 entered judgment against Maybank IB (as agent for the syndicated lenders) and the syndicated lenders for, inter alia, a sum of RM115.5 million with interest at 6% per annum from date of disbursement to realisation, with the balance of the corporate borrower's claim (including general damages) ordered to be assessed at a later date ("Judgment"). In the same Judgment, the recovery action by Maybank IB and the three syndicated lenders was also dismissed.

Maybank IB and the three syndicated lenders then filed an appeal against the Judgment ("Appeal") and an application for stay of execution of the Judgment on 8 May 2009. On 24 June 2009, Maybank IB and the three syndicated lenders successfully obtained a stay order for execution of the Judgment pending the disposal of the Appeal against the Judgment. The corporate borrower's appeal to the Court of Appeal against the decision on the stay order was dismissed on 23 November 2009.

The Appeal came up for hearing on 10 February 2012, wherein all parties agreed for the matter to be mediated. As the parties could not come to any consensus at the mediation on 9 March 2012, they proceeded with the Appeal which concluded on 23 January 2013.

On 27 September 2013, the Court of Appeal delivered its judgment in favour of Maybank IB and the three syndicated lenders allowing the Appeal with costs of RM120,000. Judgment was entered against the corporate borrower and its guarantor for the sum of RM47,232,496.11 as at 30 September 2008 with interest of 2% per annum from 1 Oct 2008 until full settlement. The Court of Appeal also directed payment of Maybank IB's agency fees of RM50,000 as at 1 June 2008 and subsequent annual fees of RM50,000 to be paid every 1st June with interest of 8% per annum thereon from 2 June 2008 until full settlement.

On 25 October 2013, the corporate borrower and its guarantor filed a motion for leave to appeal to the Federal Court in respect of the decision of the Court of Appeal against the corporate borrower and its guarantor dated 27 September 2013.

On 29 January 2014, the Federal Court dismissed the leave application. On 20 November 2014, the corporate borrower and its guarantor filed a motion to the Federal Court for the Federal Court to review and set aside its own decision in dismissing the leave application on 29 January 2014 ("Review Application"). The Review Application is now fixed for hearing on 30 March 2015. Maybank IB's solicitors are of the view that the Review Application is without merit.

Separately, upon the petition and appeal of third parties, by way of an order of the Court of Appeal on 22 January 2015, the corporate borrower has been wound up and the Official Receiver has been appointed as liquidator of the corporate borrower. To-date, there is no indication whether the corporate borrower has obtained sanction to proceed with the Review Application.

The actions for recovery of the loan sums will still continue, as there is no stay of the Court of Appeal Order dated 27 September 2013.

51. FINANCIAL RISK MANAGEMENT POLICIES**(a) Financial risk management overview**

Risk Management is a critical pillar of the Group's operating model, complementing the other two pillars, which are business sectors and support sectors. A dedicated Board-level Risk Management Committee provides risk oversight of all material risks across the Group.

The Executive-level Management Committees, which include the Group Executive Risk Committee, Group Operational Risk Management Committee, Group Asset and Liability Management Committee ("ALCO") and Group Management Credit Committee, are responsible for the management of all material risks within the Group.

The Group's approach to risk management is premised on the following Seven Principles of Risk Management:

- (a) Establishment of a risk appetite and strategy which articulates the nature, type and level of risk the Group is willing to assume and must be approved by the Board.
- (b) Capital management driven by the Group's strategic objectives and accounts for the relevant regulatory, economic and commercial environments in which the Group operates.
- (c) Proper governance and oversight through a clear, effective and robust Group governance structure with well-defined, transparent and consistent lines of responsibility established within the Group.
- (d) Promote a strong risk culture which supports and provides appropriate standards and incentives for professional and responsible behaviour.
- (e) Implementation of integrated risk frameworks and policies to ensure that risk management practices and processes are effective at all levels.
- (f) Execution of sound risk management processes to actively identify, measure, control, monitor and report risks inherent in all products and activities undertaken by the Group.
- (g) Ensure sufficient resources and systems infrastructure are in place to enable effective risk management.

Notes to the Financial Statements

31 December 2014

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)

(c) Credit risk management

1. Credit risk management overview

Credit risk definition

Credit risk is the risk of loss of principal or income arising from the failure of an obligor or counterparty to perform their contractual obligations in accordance with agreed terms. It stems primarily from lending, underwriting, trading and investment activities from both on- and off-balance sheet transactions.

Management of credit risk

Corporate and institutional credit risks are assessed by business units and evaluated and approved by an independent party within the Group, where each customer is assigned a credit rating based on the assessment of relevant qualitative and quantitative factors including borrower's/customer's financial position, future cash flows, types of facilities and securities offered.

Reviews are conducted at least once a year with updated information on borrower's/customer's financial position, market position, industry and economic condition and account conduct. Corrective actions are taken when the accounts show signs of credit deterioration.

Retail credit exposures are managed on a programme basis. Credit programmes are assessed jointly between credit risk and business units. Reviews on credit programmes are conducted at least once a year to assess the performance of the portfolios.

Counterparty credit risk is the risk that the Group's counterparty will default prior to expiration of a transaction involving foreign exchange, interest rate, commodity, equity and derivatives; and will not therefore make the current and future payments required by the contract for treasury related activities both in the trading and banking books. Counterparty credit risk exposures are managed via counterparty limits either on a single name basis or counterparty group basis that also adheres to BNM's Single Counterparty Exposure Limits. These exposures are actively monitored to protect the Group's statement of financial position in the event of counterparty default. The Group actively monitors and manages its exposures to counterparties in OTC derivative. Counterparty risk exposures which may be materially affected by market risk events are identified, reviewed and acted upon by management and highlighted to the appropriate risk committees.

The Group wide hierarchy of credit approving authorities and committee structures are in place to ensure appropriate underwriting standards are enforced consistently throughout the Group.

In managing large exposures and to avoid undue concentration of credit risk in its loans and financing portfolio, the Group has emplaced, amongst others, the following limits and related lending guidelines, for:

- Countries;
- Business segments;
- Economic sectors;
- Single customer groups;
- Banks and non-bank financial institutions;
- Counterparties; and
- Collaterals.

The Group has dedicated teams at Head Office and Regional Offices to effectively manage vulnerable corporate, institutional and consumer credits of the Group. Special attention is given to these vulnerable credits where more frequent and intensive reviews are performed in order to accelerate remedial action.

The Group's credit approving process encompasses pre-approval evaluation, approval and post-approval evaluation. Group Risk is responsible for developing, enhancing and communicating an effective and consistent credit risk management policies across the Group to ensure appropriate credit policies are in place to identify, measure, control, monitor and report such risks.

In view that authority limits are directly related to the risk levels of the borrower and transaction, a Risk-Based Authority Limit structure was implemented based on the Expected Loss ("EL") principles and internally developed Credit Risk Rating System ("CRRS").

Credit Risk Measurement

The Group's retail portfolios are under Basel II Advanced Internal Ratings-Based ("AIRB") Approach. This approach calls for more extensive reliance on the Bank's own internal experience whereby estimations for all the three components of Risk-Weighted Assets ("RWA") calculation namely Probability of Default ("PD"), Exposure at Default ("EAD") and Loss Given Default ("LGD") are based on its own historical data. Separate PD, EAD and LGD statistical models were developed at portfolio level; each model covering borrowers with fundamentally similar risk profiles in a portfolio. The estimations derived from the models are used as input for RWA calculations.

For non-retail portfolios, the Group uses internal credit models for evaluating the majority of its credit risk exposures. For Corporate and Bank portfolios, the Group has adopted the Foundation Internal Ratings-Based ("FIRB") Approach, which allows the Group to use its internal PD estimates to determine an asset risk weighting.

CRRS is developed to allow the Group to identify, assess and measure corporate, commercial and small business borrowers' credit risk. CRRS is a statistical default prediction model. The model was developed and recalibrated to suit the Group's banking environment using internal data. The model development process was conducted and documented in line with specific criteria for model development in accordance to Basel II. The EL principles employed in the Group enables the calculation of expected loss using PD estimates (facilitated by the CRRS), LGD and EAD.

To account for differences in risk due to industry and size, CRRS is designed to rate all corporate and commercial borrowers by their respective industry segments (i.e. manufacturing, services, trading, contractors, property developers (single project) and property investors (single property)).

For counterparty risk exposures (on-balance sheet), the Group employs risk treatments that are in accordance with BNM Guidelines and Basel II requirements. While for off-balance sheet exposures, the Group measures the credit risk using Credit Risk Equivalent via the Current Exposure Method. This method calculates the Group's credit risk exposure after considering both the mark-to-market exposures and the appropriate add-on factors for potential future exposures. The add-on factors employed are in accordance with BNM Guidelines and Basel II requirements.

2. Maximum exposure to credit risk

The following analysis represents the Group's maximum exposure to credit risk of on-balance sheet financial assets and off-balance sheet exposure, excluding any collateral held or other credit enhancements. For on-balance sheet financial assets, the exposure to credit risk equals their carrying amount. For off-balance sheet exposure, the maximum exposure to credit risk is the maximum amount that the Group would have to pay if the obligations of the instruments issued are called upon and/or the full amount of the undrawn credit facilities granted to customers/borrowers.

* Financial investments portfolio consists of financial assets at fair value through profit or loss, financial investments available-for-sale and financial investments held-to-maturity, excluding quoted equity investments.

The financial effect of collateral (quantification of the extent to which collateral and other credit enhancements mitigate credit risk) held for loans, advances and financing for the Group and the Bank is at 58% as at 31 December 2014 (31 December 2013: 53% for the Group; 52% for the Bank). The financial effect of collateral held for other financial assets is not significant.

Notes to the Financial Statements

31 December 2014

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)

(c) Credit risk management (cont'd.)

3. Credit risk concentration profile

Concentration risk is the risk that can materialise from excessive exposures to single counterparty and persons connected to it, a particular instrument or a particular market segment/sector. The Group analysed the concentration of credit risk by geographic purpose and industry sector as follows:

(a) Concentration of credit risk for both on-balance sheet financial assets and off-balance sheet exposures analysed by geographic purpose are as follows:

| Group As at 31.12.2014 | Cash and short-term funds RM'000 | Deposits and placements with financial institutions RM'000 | Financial assets purchased under resale agreements RM'000 | Financial investments portfolio* RM'000 | Loans, advances and financing RM'000 | Derivative assets RM'000 | Reinsurance/retakaful assets and insurance receivables RM'000 | Other assets RM'000 | Statutory deposits with central banks RM'000 | Total RM'000 | Commitments and contingencies RM'000 |
|----------------------------|----------------------------------|--|---|---|--------------------------------------|--------------------------|---|---------------------|--|--------------------|--------------------------------------|
| Malaysia | 24,326,297 | 2,667,747 | - | 79,776,283 | 242,763,334 | 1,416,077 | 551,719 | 6,594,500 | 8,464,205 | 366,560,162 | 118,333,964 |
| Singapore | 7,264,140 | 4,866,893 | 3,625,291 | 21,074,753 | 93,512,259 | 2,985,863 | 31,330 | 493,908 | 2,852,661 | 136,707,098 | 46,652,501 |

Notes to the Financial Statements

31 December 2014

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)

(c) Credit risk management (cont'd.)

4. Collateral

The main types of collateral obtained by the Group and the Bank to mitigate credit risk are as follows:

- For mortgages - charges over residential properties;
- For auto loans and financing - ownership claims over the vehicles financed;
- For share margin financing - pledges over securities from listed exchanges;
- For commercial property loans and financing - charges over the properties financed;
- For other loans and financing - charges over business assets such as premises, inventories, trade receivables or deposits; and
- For derivatives - cash and securities collateral for over-the-counter traded derivatives.

5. Credit quality of financial assets

Credit classification for financial assets

For the purposes of disclosure relating to MFRS 7, all financial assets are categorised into the following:

- Neither past due nor impaired;
- Past due but not impaired; and
- Past due and impaired.

The four (4) credit quality categories set out and defined as follows, from very low to high, apart from impaired, describe the credit quality of the Group's lending. These classifications encompass a range of more granular, internal gradings assigned to loans, advances and financing whilst external gradings are applied to financial investments. There is no direct correlation between the internal and external ratings at a granular level, except to the extent that each falls within a single credit quality band.

| Risk Category (Non-Retail) | Probability of default ("PD") Grade | External credit ratings based on S&P's ratings | External credit ratings based on RAM's ratings |
|----------------------------|-------------------------------------|--|--|
| Very low | 1 - 5 | AAA to A- | AAA to AA |
| Low | 6 - 10 | A- to BB+ | AA to A |
| Moderate | 11 - 15 | BB+ to B+ | A to BB |
| High | 16 - 21 | B+ to CCC | BB to C |

| Risk Category (Retail) | Probability of default ("PD") Grade | External credit ratings based on S&P's ratings | External credit ratings based on RAM's ratings |
|------------------------|-------------------------------------|--|--|
| Very low | 1 - 2 | AAA to BBB- | AAA to A |
| Low | 3 - 5 | BB+ to BB- | A to BBB |
| Moderate | 6 - 8 | B+ to CCC | BB to B |
| High | 9 - 11 | CCC to C | B to C |

Risk category is as described below:

- Very low : Obligors rated in this category have an excellent capacity to meet financial commitments with very low credit risk.
- Low : Obligors rated in this category have a good capacity to meet financial commitments with very low credit risk.
- Moderate : Obligors rated in this category have a fairly acceptable capacity to meet financial commitments with moderate credit risk.
- High : Obligors rated in this category have uncertain capacity to meet financial commitments and are subject to high credit risk.

Other than the above rated risk categories, other categories used internally are as follows:

- Impaired/default : Obligors with objective evidence of impairment as a result of one or more events that have an impact on the estimated future cash flows of the obligors that can be reliably estimated. The detailed definition is further disclosed in Note 2.3(v)(d).
- Unrated : Refer to obligors which are currently not assigned with obligors' ratings due to unavailability of ratings models.
- Sovereign : Refer to obligors which are governments and/or government-related agencies.

(d) Market risk management

1. Market risk management overview

Market risk management

Market risk is defined as the adverse impact on earnings or capital arising from changes in the level of volatility of market rates or prices such as interest rates/profit rates, foreign exchange rates, commodity prices and equity prices. The primary categories of market risk for the Group are:

- Interest/profit rate risk: arising from changes in yield curves, credit spreads and implied volatilities on interest rate options;
- Foreign exchange rate risk: arising from changes in exchange rates and implied volatilities on foreign exchange options; and
- Equity price risk: arising from changes in the prices of equities, equity indices, equity baskets and implied volatilities on related options.

2. Market risk management

Management of trading activities

The Group's traded market risk exposures are primarily from proprietary trading, client servicing and market making. The risk measurement techniques employed by the Group comprise of both quantitative and qualitative measures.

Value at Risk ("VaR") measures the potential loss of value resulting from market movements over a specified period of time within a specified probability of occurrence under normal business situations. The Group's Proprietary Trading VaR is computed daily using a one-day holding period with other parameters unchanged. To ensure the relevance and accuracy of the VaR computation, VaR is independently validated on a periodic basis.

Besides VaR, the Group utilises other non-statistical risk measures, such as interest rate sensitivity, e.g. exposure to a one basis point increase in yields ("PV01"), net open position ("NOP") limit for managing foreign currency exposure and Greek limits for controlling options risk. These measures provide granular information on the Group's market risk exposures and are used for control and monitoring purposes.

Management and measurement of Interest Rate Risk ("IRR")/Rate of Return Risk ("RoR") in the banking book

The Group emphasises the importance of managing IRR/RoR in the banking book as most of the balance sheet items of the Group generate interest income and interest expense, which are indexed to interest rates. Volatility of earnings can pose a threat to the Group's profitability while economic value provides a more comprehensive view of the potential long-term effects on the Group's overall capital adequacy.

IRR/RoR in the banking book encompasses repricing risk, yield curve risk and basis risk arising from different interest rate benchmarks and embedded optionality. In addition, Islamic operation is exposed to displaced commercial risk. The objective of the Group's IRR/RoR in the banking book framework is to ensure that all IRR/RoR in the banking book is managed within its risk appetite.

IRR/RoR in the banking book is measured and monitored proactively, using the following principal measurement techniques:

- Repricing Gap Analysis
- Dynamic Simulation
- Economic Value at Risk
- Stress Testing

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)

(d) Market risk management (cont'd.)

3. Interest rate risk

The Group and the Bank are exposed to various risks associated with the effects of fluctuations in the prevailing levels of market interest rates on the financial position and cash flows. Interest rate risk exposure is identified, measured, monitored and controlled through limits and procedures set by the ALCO to protect total net interest income from changes in market interest rates.

The tables below summarise the Group's and the Bank's exposure to interest rate risk as at 31 December 2014 and 31 December 2013. The tables indicate effective average interest rates at the reporting date and the periods in which the financial instruments are repriced or mature, whichever is earlier.

Notes to the Financial Statements

31 December 2014

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)

(d) Market risk management (cont'd.)

4. Yield/Profit rate risk on IBS portfolio

The Group and the Bank are exposed to the risk associated with the effects of fluctuations in the prevailing levels of yield/profit rate on the financial position and cash flows of the IBS portfolio. The fluctuations in yield/profit rate can be influenced by changes in profit rates that affect the value of financial instruments under the IBS portfolio. Yield/profit rate risk is monitored and managed by the ALCO to protect the income from IBS operations.

The tables below summarise the Group's exposure to yield/profit rate risk for the IBS operations as at 31 December 2014 and 31 December 2013. The tables indicate effective average yield/profit rates at the reporting date and the periods in which the financial instruments are either repriced or mature, whichever is earlier.

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)

(d) Market risk management (cont'd.)

5. Sensitivity analysis for interest rate risk

The tables below show the sensitivity of the Group's and of the Bank's profit after tax to an up and down 100 basis points parallel rate shock.

| | Tax rate | Group | | Bank | |
|-----------------------------|----------|------------------------------|------------------------------|------------------------------|------------------------------|
| | | + 100 basis points RM'000 | - 100 basis points RM'000 | + 100 basis points RM'000 | - 100 basis points RM'000 |
| As at 31.12.2014 | | | | | |
| Impact to profit before tax | | 552,728 | (552,728) | 487,491 | (487,491) |
| Impact to profit after tax | 25% | 414,546 | (414,546) | 365,618 | (365,618) |
| As at 31.12.2013 | | | | | |
| Impact to profit before tax | | 491,215 | (491,215) | 494,347 | (494,347) |
| Impact to profit after tax | 25% | 368,411 | (368,411) | 370,760 | (370,760) |

Impact to profit after tax is measured using Earnings-at-Risk (EaR) methodology which is simulated based on a set of standardised rate shocks on the interest rate gap profile derived from the financial position of the Group and of the Bank. The interest rate gap is the mismatch of rate sensitive assets and rate sensitive liabilities taking into consideration the earlier of repricing or remaining maturity, behavioural assumptions of certain indeterminate maturity products such as current and savings deposits, to reflect the actual sensitivity behaviour of these interest bearing liabilities.

Impact to revaluation reserve is assessed by applying up and down 100 basis points rate shocks to the yield curve to model the impact on marked-to-market of financial investments available-for-sale ("AFS").

| | Group | | Bank | |
|---------------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|
| | + 100 basis points RM'000 | - 100 basis points RM'000 | + 100 basis points RM'000 | - 100 basis points RM'000 |
| As at 31.12.2014 | | | | |
| Impact to revaluation reserve for AFS | (2,678,620) | 2,678,620 | (2,364,834) | 2,364,834 |
| As at 31.12.2013 | | | | |
| Impact to revaluation reserve for AFS | (3,288,948) | 3,288,948 | (2,773,290) | 2,773,290 |

6. Foreign exchange risk

Foreign exchange ("FX") risk arises as a result of movements in relative currencies due to the Group's operating business activities, trading activities and structural foreign exchange exposures from foreign investments and capital management activities.

Generally, the Group is exposed to three types of foreign exchange risk such as translation risk, transactional risk and economic risk which are managed in accordance with the market risk policy and limits. The FX translation risks are mitigated as the assets are funded in the same currency. In addition, the earnings from the overseas operations are repatriated in line with Management Committees' direction as and when required. The Group controls its FX exposures by transacting in permissible currencies. It has an internal FX NOP to measure, control and monitor its FX risk and implements FX hedging strategies to minimise FX exposures. Stress testing is conducted periodically to ensure sufficient capital to buffer the FX risk.

The tables below analyse the net foreign exchange positions of the Group and of the Bank as at 31 December 2014 and 31 December 2013, by major currencies, which are mainly in Ringgit Malaysia, Singapore Dollar, the Great Britain Pound, Hong Kong Dollar, US Dollar, Indonesia Rupiah and Euro. The "others" foreign exchange risk include mainly exposure to Japanese Yen, Chinese Renminbi, Philippine Peso, Papua New Guinea Kina and Brunei Dollars.

* The currency positions of the respective assets and liabilities in the analysis above have been stated on a gross basis. These assets and liabilities have been set-off and presented on a net basis if necessary and as appropriate in accordance with applicable MFRS in the Group's and the Bank's statements of financial position.

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)**(d) Market risk management (cont'd.)****6. Foreign exchange risk (cont'd.)**

Net structural foreign currency position represents the Group's and the Bank's net investment in overseas operations. This position comprises the net assets of the Group's and of the Bank's overseas branches and investments in overseas subsidiaries.

Where possible, the Group and the Bank mitigate the effect of currency exposures by funding the overseas operations with borrowings and deposits received in the same functional currencies of the respective overseas locations. The foreign currency exposures are also hedged using foreign exchange derivatives.

The structural currency exposures of the Group as at the reporting dates are as follows:

| Group Currency of structural exposures | Structural currency exposures in overseas operations RM'000 | Hedges by funding in respective currencies RM'000 | Net structural currency exposures RM'000 |
|---|---|---|--|
| As at 31.12.2014 | | | |
| Singapore Dollar | 11,018,161 | (2,884,640) | 8,133,521 |
| Great Britain Pound | (142,885) | - | (142,885) |
| Hong Kong Dollar | 1,112,183 | - | 1,112,183 |

Notes to the Financial Statements

31 December 2014

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)

(d) Market risk management (cont'd.)

7. Sensitivity analysis for foreign exchange risk

Foreign exchange risk

Foreign exchange risk arises from the movements in exchange rates that adversely affect the revaluation of the Group's and of the Bank's foreign currency positions. Considering that other risk variables remain constant, the foreign currency revaluation sensitivity for the Group and the Bank on their unhedged position are as follows:

| | Group | | Bank | |
|---------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|
| | 1% Appreciation RM'000 | 1% Depreciation RM'000 | 1% Appreciation RM'000 | 1% Depreciation RM'000 |
| As at 31.12.2014 | | | | |
| Impact to profit after taxation | (6,789) | 6,789 | 180 | (180) |
| As at 31.12.2013 | | | | |
| Impact to profit after taxation | (16,039) | 16,039 | 3,234 | (3,234) |

Interpretation of impact

The Group and the Bank measure the foreign exchange sensitivity based on the foreign exchange net open positions (including foreign exchange structural position) under an adverse movement in all foreign currencies against the functional currency - Ringgit Malaysia ("RM"). The result implies that the Group and the Bank may be subject to additional translation (losses)/gains if the RM appreciates/depreciates against other currencies and vice versa.

8. Equity price risk

Equity price risk is the risk arising from movements in the price of equities, equity indices and equity baskets. There is a direct correlation between movements in share price of quoted shares and movements in stock market index. The Group manages such risk by pre-approved trading book limits such as VaR, equity delta, foreign exchange NOP, PV01 and stop loss limits.

Considering that other risk variables remain constant, the sensitivity of mark-to-market valuation of quoted shares for the Group and the Bank against the stock market index are as follows:

| | Group | | Bank | |
|----------------------------|------------------------|----------------|------------------------|----------------|
| | Change in market index | | Change in market index | |
| | +10% RM'000 | -10% RM'000 | +10% RM'000 | -10% RM'000 |
| As at 31.12.2014 | | | | |
| Impact to profit after tax | 99,481 | (99,481) | - | - |
| Impact to post-tax equity | 275,754 | (275,754) | 10,604 | (10,604) |
| As at 31.12.2013 | | | | |
| Impact to profit after tax | 47,630 | (47,630) | - | - |
| Impact to post-tax equity | 226,587 | (226,587) | 12,839 | (12,839) |

(e) Liquidity risk management

1. Liquidity risk management overview

Liquidity risk management

Liquidity risk is defined as the adverse impact to the Group's financial condition or overall safety and soundness that could arise from its inability (or perceived inability) or unexpected higher cost to meet its obligations.

Liquidity risk management policies are reviewed annually and endorsed by ALCO and approved by RMC prior to implementation. The Group's liquidity risk position is actively discussed and managed at the ALCO and RMC on a monthly basis in line with the approved guidelines and policies.

The Group has taken BNM Liquidity Framework and leading practices as a foundation to manage and measure its liquidity risk exposure. The Group also uses a range of tools to monitor and control liquidity risk exposure such as liquidity gap, early warning signals, liquidity indicators and stress testing. The liquidity positions of the Group are monitored regularly against the established policies, procedures and limits.

Diversification of liquidity sources

The Group has a diversified liability structure to meet its funding requirements. The primary source of funding includes customer deposits, interbank deposits, debt securities, swap market, bank loan syndication and medium term funds. The Group also initiates and implements strategic fund raising programmes as well as institutes standby lines with external parties on a need basis. Sources of liquidity are regularly reviewed to maintain a wide diversification by currency, provider, product and term.

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)

(e) Liquidity risk management (cont'd.)

1. Liquidity risk management overview (cont'd.)

Management of liquidity risk

For day-to-day liquidity management, the treasury operations will ensure sufficient funding to meet its intraday payment and settlement obligations on a timely basis. Besides, the process of managing liquidity risk also includes:

- Maintaining a sufficient amount of unencumbered high quality liquidity buffer as a protection against any unforeseen interruption to cash flows;
- Managing short and long-term cash flows via maturity mismatch report and various indicators;
- Monitoring depositor concentration at the Group and the Bank levels to avoid undue reliance on large depositors;
- Managing liquidity exposure by domestic and significant foreign currencies;
- Diversifying funding sources to ensure proper funding mix;
- Conducting liquidity stress testing under various scenarios as part of prudent liquidity control;

- Maintaining a robust contingency funding plan that includes strategies, decision-making authorities, internal and external communication and courses of action to be taken under different liquidity crisis scenarios; and
- Conducting Contingency Funding Plan (“CFP”) testing to examine the effectiveness and robustness of the plans to avert any potential liquidity disasters affecting the Group’s and the Bank’s liquidity soundness and financial solvency.

Stress testing and Contingency Funding Plan

The Group uses stress testing and scenario analysis to evaluate the impact of sudden stress events on liquidity position. Scenarios are based on hypothetical events that include bank specific crisis and general market crisis scenarios. The stress test result provides an insight of the Group’s funding requirements during different levels of stress environments and is closely linked to the Group’s CFP, which provides a systemic approach in handling any unexpected liquidity disruptions. The plan encompasses strategies, decision-making authorities, internal and external communication and courses of action to be taken under different liquidity crisis scenarios.

The Group performs CFP tests regularly to ensure the effectiveness and operational feasibility of the CFP. The key aspects of the testing are to focus on the preparedness of key senior management and their respective alternate in handling a simulated distress funding situation. It also provides exposure and develops capabilities on how to respond to a liquidity crisis situation and operate effectively with each other under challenging circumstances.

2. Contractual maturity of total assets and liabilities

The tables below analyse assets and liabilities (inclusive of non-financial instruments) of the Group and of the Bank in the relevant maturity tenures based on remaining contractual maturities as at 31 December 2014 and 31 December 2013.

These disclosures are made in accordance with the requirement of policy document on Financial Reporting issued by BNM:

3. Contractual maturity of financial liabilities on an undiscounted basis

The tables below present the cash flows payable by the Group and the Bank under non-derivative financial liabilities by remaining contractual maturities as at 31 December 2014 and 31 December 2013. The amounts disclosed in the table will not agree to the carrying amounts reported in the statements of financial position as the amounts incorporated all contractual cash flows, on an undiscounted basis, relating to both principal and interest/profit analysis. The Group and the Bank manage inherent liquidity risk based on discounted expected cash flows.

51. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D.)**(f) Operational risk management**

Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk, but excludes strategic and reputational risk.

The Group's operational risk management is premised on the three lines of defence concept. Risk taking units (Strategic Business Unit), as first line of defence are primarily responsible for the day-to-day management of operational risks within their respective business operations. They are responsible for establishing and maintaining their respective operational manuals and ensuring that activities undertaken by them comply with the Group's operational risk management framework.

The Operational Risk Management ("ORM") team, as the second line of defence, is responsible for the formulation and implementation of operational risk management policy within the Group, which encompasses the operational risk management strategy and governance structure. Another key function is the development and implementation of operational risk management tools and methodologies to identify, measure, control, report and monitor operational risks.

The Group's Internal Audit plays the third line of defence by providing independent assurance in respect of the overall effectiveness of the operational risk management process, which includes performing independent review and periodic validation of the ORM framework and process as well as conducting regular review on implementation of ORM tools by ORM and the respective business units.

52. FAIR VALUE MEASUREMENTS

This disclosure provides information on fair value measurements for both financial instruments and non-financial assets and liabilities and is structured as follows:

- (a) Valuation principles;
- (b) Valuation techniques;
- (c) Fair value measurements and classification within the fair value hierarchy;
- (d) Transfers between Level 1 and Level 2 in the fair value hierarchy;
- (e) Movements of Level 3 instruments;
- (f) Sensitivity of fair value measurements to changes in unobservable input assumptions; and
- (g) Financial instruments not measured at fair value.

(a) Valuation principles

Fair value is defined as the price that would be received for the sale of an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market as of the measurement date. The Group and the Bank determine the fair value by reference to quoted prices in active markets or by using valuation techniques based on observable inputs or unobservable inputs. Management judgement is exercised in the selection and application of appropriate parameters, assumptions and modelling techniques where some or all of the parameter inputs are not observable in deriving fair value. The Group has also established a framework and policies that provide guidance concerning the practical considerations, principles and analytical approaches for the establishment of prudent valuation for financial instruments measured at fair value.

Valuation adjustment is also an integral part of the valuation process. Valuation adjustment is to reflect the uncertainty in valuations generally for products that are less standardised, less frequently traded and more complex in nature. In making a valuation adjustment, the Group and the Bank follow methodologies that consider factors such as bid-offer spread, unobservable prices/inputs in the market and uncertainties in the assumptions/parameters.

The Group and the Bank continuously enhance their design, validation methodologies and processes to ensure the valuations are reflective. The valuation models are validated both internally and externally, with periodic reviews to ensure the model remains suitable for their intended use.

For disclosure purposes, the level in the hierarchy within which the instruments are classified in its entirety is based on the lowest level input that is significant to the position's fair value measurements:

- **Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities**
Refers to instruments which are regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, and those prices which represent actual and regularly occurring market transactions in an arm's length basis. Such financial instruments include actively traded government securities, listed derivatives and cash products traded on exchange.
- **Level 2: Valuation techniques for which all significant inputs are, or are based on, observable market data**
Refers to inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices). Examples of Level 2 financial instruments include over-the-counter ("OTC") derivatives, corporate and other government bonds, illiquid equities and consumer loans and financing with homogeneous or similar features in the market.
- **Level 3: Valuation techniques for which significant inputs are not based on observable market data**
Refers to instruments where fair value is measured using significant unobservable inputs. The valuation techniques used are consistent with Level 2 but incorporates the Group's and the Bank's own assumptions and data. Examples of Level 3 instruments include corporate bonds in illiquid markets, private equity investments and loans and financing priced primarily based on internal credit assessment.

(b) Valuation techniques

The valuation techniques used for both the financial instruments and non-financial assets and liabilities that are not determined by reference to quoted prices (Level 1) are described below:

Derivatives, loans and financing and financial liabilities

The fair values of the Group's and of the Bank's derivative instruments, loans and financing and financial liabilities are derived using discounted cash flows analysis, option pricing and benchmarking models.

Financial assets designated at fair value through profit or loss, financial assets held-for-trading, financial investments available-for-sale and financial investments held-to-maturity

The fair values of financial assets and financial investments are determined by reference to prices quoted by independent data providers and independent brokers.

Investment properties

The fair values of investment properties are determined at the end of the reporting period based on the opinion of qualified independent valuer and valuations are performed using either the residual method approach or discounted cash flows approach, as deemed appropriate by the valuer.

Notes to the Financial Statements

31 December 2014

52. FAIR VALUE MEASUREMENTS (CONT'D.)

(c) Fair value measurements and classification within the fair value hierarchy

The classification in the fair value hierarchy of the Group's and of the Bank's financial and non-financial assets and liabilities measured at fair value is summarised in the table below:

| Group As at 31.12.2014 | Quoted Market Price (Level 1) RM'000 | Valuation technique using | | Total RM'000 |
|---|---|---|---|-----------------|
| | | Observable Inputs (Level 2) RM'000 | Unobservable Inputs (Level 3) RM'000 | |
| <i>Non-financial assets measured at fair value:</i> | | | | |
| Investment properties | - | 595,493 | - | 595,493 |
| <i>Financial assets measured at fair value:</i> | | | | |
| Financial assets held-for-trading | 1,359,305 | 11,110,323 | - | 12,469,628 |
| Money market instruments | 23,890 | 7,534,848 | - | 7,558,738 |
| Quoted securities | 1,335,415 | - | - | 1,335,415 |
| Unquoted securities | - | 3,575,475 | - | 3,575,475 |
| Financial assets designated at fair value through profit or loss | - | 11,235,695 | - | 11,235,695 |
| Money market instruments | - | 863,104 | - | 863,104 |
| Unquoted securities | - | 10,372,591 | - | 10,372,591 |
| Financial investments available-for-sale | 3,680,570 | 78,531,345 | 418,789 | 82,630,704 |
| Money market instruments | - | 40,486,263 | - | 40,486,263 |
| Quoted securities | 3,680,570 | - | - | 3,680,570 |
| Unquoted securities | - | 38,045,082 | 418,789 | 38,463,871 |
| Derivative assets | 64 | 4,529,425 | 14,512 | 4,544,001 |
| Foreign exchange related contracts | - | 3,916,764 | - | 3,916,764 |
| Interest rate related contracts | - | 987,861 | - | 987,861 |
| Equity and commodity related contracts | 64 | 172,790 | 14,512 | 187,366 |
| Netting effects under MFRS 132 Amendments (Note 2.4(ii)) | - | (547,990) | - | (547,990) |
| | 5,039,939 | 105,406,788 | 433,301 | 110,880,028 |
| <i>Financial liabilities measured at fair value:</i> | | | | |
| Derivative liabilities | 19,325 | 5,063,576 | 237,598 | 5,320,499 |
| Foreign exchange related contracts | - | 4,204,440 | - | 4,204,440 |
| Interest rate related contracts | - | 1,258,903 | 223,086 | 1,481,989 |
| Equity and commodity related contracts | 19,325 | 148,223 | 14,512 | 182,060 |
| Netting effects under MFRS 132 Amendments (Note 2.4(ii)) | - | (547,990) | - | (547,990) |
| | 19,325 | 5,063,576 | 237,598 | 5,320,499 |

| Group As at 31.12.2013 | Quoted Market Price (Level 1) RM'000 | Valuation technique using | | Total RM'000 |
|---|---|---|---|-----------------|
| | | Observable Inputs (Level 2) RM'000 | Unobservable Inputs (Level 3) RM'000 | |
| <i>Non-financial assets measured at fair value:</i> | | | | |
| Investment properties | - | 583,257 | - | 583,257 |
| <i>Financial assets measured at fair value:</i> | | | | |
| Financial assets held-for-trading | 647,614 | 6,764,765 | 576,574 | 7,988,953 |

52. FAIR VALUE MEASUREMENTS (CONT'D.)

(c) Fair value measurements and classification within the fair value hierarchy (cont'd.)

The classification in the fair value hierarchy of the Group's and of the Bank's financial and non-financial assets and liabilities measured at fair value is summarised in the table below (cont'd.):

| Bank As at 31.12.2014 (cont'd.) | Quoted Market Price (Level 1) RM'000 | Valuation technique using | | Total RM'000 |
|--|---|---|---|-----------------|
| | | Observable Inputs (Level 2) RM'000 | Unobservable Inputs (Level 3) RM'000 | |
| <i>Financial liabilities measured at fair value:</i> | | | | |
| Derivative liabilities | - | 5,021,006 | 152,569 | 5,173,575 |
| Foreign exchange related contracts | - | 4,149,861 | - | 4,149,861 |
| Interest rate related contracts | - | 1,263,419 | 138,057 | 1,401,476 |
| Equity and commodity related contracts | - | 155,716 | 14,512 | 170,228 |
| Netting effects under MFRS 132 Amendments (Note 2.4(ii)) | - | (547,990) | - | (547,990) |
| | - | 5,021,006 | 152,569 | 5,173,575 |

| Bank As at 31.12.2013 | Quoted Market Price (Level 1) RM'000 | Valuation technique using | | Total RM'000 |
|--|---|---|---|-----------------|
| | | Observable Inputs (Level 2) RM'000 | Unobservable Inputs (Level 3) RM'000 | |
| <i>Financial assets measured at fair value:</i> | | | | |
| Financial assets held-for-trading | 12,550 | 5,533,541 | - | 5,546,091 |
| Money market instruments | - | 3,787,378 | - | 3,787,378 |
| Quoted securities | 12,550 | - | - | 12,550 |
| Unquoted securities | - | 1,746,163 | - | 1,746,163 |
| Financial investments available-for-sale | 171,192 | 64,029,334 | 332,271 | 64,532,797 |
| Money market instruments | - | 33,110,860 | - | 33,110,860 |
| Quoted securities | 171,192 | - | - | 171,192 |
| Unquoted securities | - | 30,918,474 | 332,271 | 31,250,745 |
| Derivative assets | 69 | 3,185,256 | 13,816 | 3,199,141 |
| Foreign exchange related contracts | - | 3,051,103 | 1,729 | 3,052,832 |
| Interest rate related contracts | - | 685,563 | - | 685,563 |
| Equity and commodity related contracts | 69 | 9,582 | 12,087 | 21,738 |
| Netting effects under MFRS 132 Amendments (Note 2.4(ii)) | - | (560,992) | - | (560,992) |
| | 183,811 | 72,748,131 | 346,087 | 73,278,029 |

| | | | | |
|--|---|-----------|---------|-----------|
| <i>Financial liabilities measured at fair value:</i> | | | | |
| Derivative liabilities | - | 2,844,930 | 226,542 | 3,071,472 |
| Foreign exchange related contracts | - | 2,472,211 | 1,729 | 2,473,940 |
| Interest rate related contracts | - | 924,346 | 212,726 | 1,137,072 |
| Equity and commodity related contracts | - | 9,365 | 12,087 | 21,452 |
| Netting effects under MFRS 132 Amendments (Note 2.4(ii)) | - | (560,992) | - | (560,992) |
| | - | 2,844,930 | 226,542 | 3,071,472 |

(d) Transfers between Level 1 and Level 2 in the fair value hierarchy

The accounting policy for determining when transfers between levels of the fair value hierarchy occurred is disclosed in Note 2.3(xxiii). There were no transfers between Level 1 and Level 2 for the Group and the Bank during the financial year ended 31 December 2014.

52. FAIR VALUE MEASUREMENTS (CONT'D.)

(e) Movements of Level 3 instruments

The following tables present additional information about Level 3 financial assets and financial liabilities measured at fair value on a recurring basis:

| Group As at 31.12.2014 | At 1 January 2014 RM'000 | Total realised gains/(losses) recognised in income statements ¹ RM'000 | Total unrealised gains/(losses) recognised in income statements ¹ RM'000 | Total unrealised gains/(losses) recognised in other comprehensive income RM'000 | Purchases RM'000 | Sales RM'000 | Settlements ² RM'000 | Exchange differences RM'000 | Transfer into Level 3 RM'000 | Transfer out from Level 3 RM'000 | At 31 December 2014 RM'000 |
|---|-----------------------------------|---|---|--|---------------------|-----------------|------------------------------------|-----------------------------------|---------------------------------------|---|-------------------------------------|
| Financial assets held-for-trading | | | | | | | | | | | |

Notes to the Financial Statements

31 December 2014

52. FAIR VALUE MEASUREMENTS (CONT'D.)

(e) Movements of Level 3 instruments (cont'd.)

During the financial year ended 31 December 2014, the Group and the Bank transferred certain financial investments AFS from Level 2 into Level 3 of the fair value hierarchy. The reason for the transfer is that inputs to the valuation models ceased to be observable. Prior to the transfer, the fair value of the instruments was determined using observable market transactions or binding broker quotes for the same or similar instruments. Since the transfer, these instruments have been valued using valuation models incorporating significant unobservable inputs.

The Group has transferred certain financial assets held-for-trading, financial assets designated at fair value through profit or loss, financial investments available-for-sale and derivatives out from Level 3 due to the market for some instruments became more liquid, which led to a change in the method used to determine fair value. Prior to the transfer, the fair value of the instruments was determined using unobservable inputs or binding broker quotes for the same or similar instruments. Since the transfer, these instruments have been valued using valuation models incorporating significant observable market inputs.

(f) Sensitivity of fair value measurements to changes in unobservable input assumptions

Changing one or more of the inputs to reasonable alternative assumptions would not change the value significantly for the financial assets and financial liabilities in Level 3 of the fair value hierarchy.

(g) Financial instruments not measured at fair value

The on-balance sheet financial assets and financial liabilities of the Group and of the Bank whose fair values are required to be disclosed in accordance with MFRS 132 comprise all their assets and liabilities with the exception of investments in subsidiaries, interest in associates and joint ventures, property, plant and equipment and provision for current and deferred taxation.

For loans, advances and financing to customers, where such market prices are not available, various methodologies have been used to estimate the approximate fair values of such instruments. These methodologies are significantly affected by the assumptions used and judgements made regarding risk characteristics of various financial instruments, discount rates, estimates of future cash flows, future expected loss experience and other factors. Changes in the assumptions could significantly affect these estimates and the resulting fair value estimates. Therefore, for a significant portion of the Group's and of the Bank's financial instruments, including loans, advances and financing to customers, their respective fair value estimates do not purport to represent, nor should they be construed to represent, the amounts that the Group and the Bank could realise in a sale transaction as at the reporting date. The fair value information presented herein should also in no way be construed as representative of the underlying value of the Group and of the Bank as a going concern.

The estimated fair values of those on-balance sheet financial assets and financial liabilities as at the reporting date approximate their carrying amounts as shown in the statement of financial position, except for the financial assets and financial liabilities as disclosed below.

The table below analyses financial instruments not carried at fair value for which fair value is disclosed, together with carrying amount shown in the statements of financial position:

| Group | Level 1 RM'000 | Level 2 RM'000 | Level 3 RM'000 | Total fair value RM'000 | Carrying amount RM'000 |

| Deposits and placements from financial institutions | - | 37,356,162 | - | 37,356,162 | 37,582,577 |
| Recourse obligation on loans and financing sold to Cagamas | - | 664,129 | - | 664,129 | 656,293 |
| Borrowings | - | 9,658,648 | - | 9,658,648 | 9,318,389 |
| Subordinated obligations | - | 10,401,981 | - | 10,401,981 | 10,404,418 |
| Capital securities | - | 7,453,765 | - | 7,453,765 | 6,208,623 |

The following methods and assumptions are used to estimate the fair values of the following classes of financial instruments:

(i) Financial investments held-to-maturity ("HTM")

Fair values of securities that are actively traded is determined by quoted bid prices. For non-actively traded securities, independent broker quotations are obtained. Fair values of equity securities are estimated using a number of methods, including earnings multiples and discounted cash flows analysis. Where discounted cash flows technique is used, the estimated future cash flows are discounted using applicable prevailing market or indicative rates of similar instruments at the reporting date.

(ii) Loans, advances and financing

The fair values of variable rate loans are estimated to approximate their carrying amount. For fixed rate loans and Islamic financing, the fair values are estimated based on expected future cash flows of contractual instalment payments, discounted at applicable and prevailing rates at reporting date offered for similar facilities to new borrowers with similar credit profiles. In respect of impaired loans, the fair values are deemed to approximate the carrying amount which are net of impairment allowances.

(iii) Deposits from customers, deposits and placements from financial institutions

The fair values of deposits payable on demand and deposits and placements with maturities of less than one year approximate their carrying values due to the relatively short maturity of these instruments. The fair values of fixed deposits and placements with remaining maturities of more than one year are estimated based on discounted cash flows using applicable rates currently offered for deposits and placements with similar remaining maturities.

(iv) Recourse obligation on loans and financing sold to Cagamas

The fair values of recourse obligation on housing and hire purchase loans sold to Cagamas are determined based on the discounted cash flows of future instalment payments at applicable prevailing Cagamas rates as at reporting date.

(v) Borrowings, subordinated obligations and capital securities

The fair values of borrowings, subordinated obligations and capital securities are estimated by discounting the expected future cash flows using the applicable prevailing interest rates for similar instruments as at reporting date.

53. OFFSETTING OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Financial assets and financial liabilities are offset and the net amounts are reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Amounts not offset in the statement of financial position are related to:

- the counterparties' offsetting exposures with the Group and the Bank where the right to set-off is only enforceable in the event of default, insolvency or bankruptcy of the counterparties; and
- cash and securities that are received from or pledged with counterparties.

Notes to the Financial Statements

31 December 2014

53. OFFSETTING OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES (CONT'D.)

Financial assets and financial liabilities subject to offsetting, enforceable master netting arrangements and similar agreements are as follows:

| Group | Gross amount of recognised financial assets/ financial liabilities RM'000 | Gross amount offset in the statement of financial position RM'000 | Amount presented in the statement of financial position RM'000 | Amount not offset in the statement of financial position | | Net amount RM'000 |

| Uncalled capital | 150 | 150 |

55. CAPITAL MANAGEMENT

The Group's approach to capital management is driven by its strategic objectives and takes into account all relevant regulatory, economic and commercial environments in which the Group operates. The Group regards having a strong capital position as essential to the Group's business strategy and competitive position. As such, implications on the Group's capital position are taken into account by the Board and senior management prior to implementing major business decisions in order to preserve the Group's overall capital strength.

The Group's key thrust of capital management and planning are to diversify its sources of capital; to allocate and deploy capital efficiently, guided by the need to maintain a prudent relationship between available capital and the risks of its underlying businesses; and to meet the expectations of key stakeholders, including investors, regulators and rating agencies. In addition, the Group's capital management is also implemented with the aim to:

- Ensure adequate capital adequacy ratios at all times, at levels sufficiently above the minimum regulatory requirements across the Group;
- Support the Group's credit rating from local and foreign rating agencies;
- Allocate and deploy capital efficiently to businesses to support the Group's strategic objectives and optimise returns on capital;
- Remain flexible to take advantage of future opportunities; and
- Build and invest in businesses, even in a reasonably stressed environment.

The quality and composition of capital are key factors in the Board and senior management's evaluation of the Group's capital adequacy position. The Group places strong emphasis on the quality of its capital and, accordingly, holds a significant amount of its capital in the form of common equity which is permanent and has the highest loss absorption capability on a going concern basis.

The Group's capital management is guided by the Group Capital Management Framework and Group Capital Contingency Plan to ensure that capital is managed on an integrated approach and ensure a strong and flexible financial position to manage through economic cycles across the Group.

The Group's capital management is also supplemented by the Group Annual Capital Plan to facilitate efficient capital levels and utilisation across the Group. The plan is updated on an annual basis covering at least a three year horizon and approved by the Board for implementation at the beginning of each financial year. The Group Annual Capital Plan is reviewed by the Board semi-annually in order to keep abreast with the latest development on capital management and also to ensure effective and timely execution of the plans contained therein.

Under the BNM's Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework for Islamic Banks (Capital Components) which commenced with effect from 1 January 2013, banking institutions are required to maintain higher minimum quantity and quality of capital but the requirements will be subject to a series of transitional arrangements and will be phased-in over a period of time, commencing 2013 and to be fully effective by 2019. BNM is also expected to introduce additional capital buffer requirements which will comprise of Capital Conservation Buffer of 2.5% of total RWA and Countercyclical Capital Buffer ranging between 0% - 2.5% of total RWA. Further guidance on the capital buffer requirements will be announced by BNM before 2016 on its computation approach and operations.

In addition, as banking institutions in Malaysia evolve to become key regional players and identified as systemically important, BNM will assess at a later date the need to require large banking institutions to operate at higher levels of capital, commensurate with their size, extent of cross-border activities and complexity of operations.

In the Bank's pursuit of an efficient and healthy capital position, the Bank had implemented a recurrent and optional Dividend Reinvestment Plan ("DRP") that allows the shareholders of the Bank to reinvest electable portions of their dividends into new ordinary shares of RM1.00 in the Bank. The DRP is part of the Bank's strategy to preserve equity capital to meet the regulatory requirement as well as to grow its business whilst providing healthy dividend income to shareholders. Details of the DRP is disclosed in Note 31(b) and dividend payout is disclosed in Note 49.

56. INTERNAL CAPITAL ADEQUACY ASSESSMENT PROCESS ("ICAAP")**(a) General**

The Group's overall capital adequacy in relation to its risk profile is assessed through a process articulated in the Group ICAAP policy. The ICAAP policy has been formalised and approved by the Board Risk Management Committee ("RMC") and has been implemented within the organisation to ensure all material risks are identified, measured and reported and that adequate capital levels consistent with the risk profiles are held.

In line with BNM Guideline on ICAAP, the Group's ICAAP closely integrates the risk and capital assessment processes. The ICAAP policy is designed to ensure that adequate levels of capital, including capital buffers, are held to support the Group's current and projected demand for capital under existing and stressed conditions. Regular ICAAP reports are submitted to the Executive Risk Committee and the Board RMC for comprehensive review of all material risks faced by the Group and assessment of the adequacy of capital to support them.

(b) Comprehensive risk assessment under ICAAP policy

Under the Group's ICAAP methodology, the following risk types are identified and measured:

- Risks captured under Pillar 1 (credit risk, market risk and operational risk);
- Risks not fully captured under Pillar 1 (e.g. model risk);
- Risks not specifically addressed under Pillar 1 (e.g. interest rate risk/rate of return risk in the banking book, liquidity risk, business & strategic risk, reputational risk, credit concentration risk, IT risks (e.g. security risk, cyber risk), regulatory risk, country risk, systemic risk, compliance risk, collateral risk, capital risk, profitability risk and shariah non-compliance risk, among others); and
- External factors, including changes in economic environment, regulations and accounting rules.

In line with industry best practices, the Group quantifies its risks using methodologies that have been reasonably tested and deemed to be acceptable within the industry.

Notes to the Financial Statements

31 December 2014

56. INTERNAL CAPITAL ADEQUACY ASSESSMENT PROCESS (“ICAAP”) (CONT’D.)

(b) Comprehensive risk assessment under ICAAP policy (cont’d.)

Where risks may not be easily quantified due to the lack of commonly acceptable risk measurement techniques, expert’s judgement is used to determine the size of risk. The focus of the Group’s ICAAP would be on the qualitative controls in managing such risks. These qualitative measures include the following:

- Adequate governance process;
- Adequate systems, procedures and internal controls;
- Effective risk mitigation strategies; and
- Regular monitoring and reporting.

(c) Regular stress testing

The Group’s stress testing programme is embedded in the risk and capital management process of the Group and it is a key focus area during the capital planning and business planning processes. The programme serves as a risk and capital management tool to understand our risk profile under extreme but plausible conditions. Such conditions may arise from economic, political and environmental factors.

Under Maybank Group’s Stress Test policy, which was approved by the Board RMC, the potential unfavourable effects of stress scenarios on the Group’s profitability, asset quality, risk-weighted assets and capital adequacy were considered.

Specifically, the stress test programme is designed to:

- Highlight the dynamics of stress events and their potential implications on the Group’s trading and banking book exposures, liquidity positions and likely reputational impacts;
- Produce stress results as inputs into the Group’s ICAAP in the determination of capital adequacy and capital buffers; and
- Identify proactively key strategies to mitigate the effects of stress events.

Stress test themes reviewed by the Stress Test Working Group in the past include oil price decline, intensified capital outflows from emerging markets (including ASEAN), rising inflation and interest rate hikes, impact of Federal Reserve Quantitative Easing tapering, sovereign rating downgrades, slowing Chinese economy, a repeat of the Asian Financial Crisis, USD depreciation, pandemic flu, asset price collapse, interest rate hikes, a global double-dip recession scenario, Japan disasters, crude oil price hike, the Eurozone and US debt crises, among others.

The Stress Test Working Group, which comprises business and risk management teams, tables the stress test reports at the senior management and Board committees and discusses the results with regulators on a regular basis.

57. CAPITAL ADEQUACY

(a) Compliance and application of capital adequacy ratios

The capital adequacy ratios of the Group and of the Bank are computed in accordance with BNM’s Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework (Basel II - Risk-Weighted Assets) issued on 28 November 2012. The total RWA are computed based on the following approaches:

- (A) Credit risk under Internal Ratings-Based Approach;
- (B) Market risk under Standardised Approach; and
- (C) Operational risk under Basic Indicator Approach.

The minimum regulatory capital adequacy requirements for CET1, Tier 1 and Total Capital are 4.0%, 5.5% and 8.0% of total RWA for the current financial year ended 31 December 2014 (31 December 2013: 3.5%, 4.5% and 8.0% of total RWA).

On an entity level basis, the computation of capital adequacy ratios of the subsidiaries of the Bank are as follows:

- (i) For Maybank Islamic Berhad, the computation of capital adequacy ratios are based on BNM’s Capital Adequacy Framework for Islamic Banks (Capital Components) and Capital Adequacy Framework for Islamic Banks (Risk-Weighted Assets) issued on 28 November 2012. The total RWA are computed based on the following approaches:

- (A) Credit risk under Internal Ratings-Based Approach;
- (B) Market risk under Standardised Approach; and
- (C) Operational risk under Basic Indicator Approach.

The minimum regulatory capital adequacy requirements for CET1, Tier 1 and Total Capital are 4.0%, 5.5% and 8.0% of total RWA for the current financial year ended 31 December 2014 (31 December 2013: 3.5%, 4.5% and 8.0% of total RWA).

- (ii) For Maybank Investment Bank Berhad, the computation of capital adequacy ratios are based on BNM’s Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework (Basel II - Risk-Weighted Assets) issued on 28 November 2012. The total RWA are computed based on the following approaches:

- (A) Credit risk under Standardised Approach;
- (B) Market risk under Standardised Approach; and
- (C) Operational risk under Basic Indicator Approach.

The minimum regulatory capital adequacy requirements for CET1, Tier 1 and Total Capital are 4.0%, 5.5% and 8.0% of total RWA for the current financial year ended 31 December 2014 (31 December 2013: 3.5%, 4.5% and 8.0% of RWA).

- (iii) For PT Bank Internasional Indonesia Tbk, the computation of capital adequacy ratios are in accordance with local requirements, which is based on the Basel II capital accord. The total RWA are computed based on the following approaches:

- (A) Credit risk under Standardised Approach;
- (B) Market risk under Standardised Approach; and
- (C) Operational risk under Basic Indicator Approach.

The minimum regulatory capital adequacy requirement for PT Bank Internasional Indonesia Tbk is 9% - 10% (31 December 2013: 9% - 10%) of total RWA.

(b) The capital adequacy ratios of the Group and of the Bank

With effect from 30 June 2013, the amount of declared dividend to be deducted in the calculation of CET1 Capital under a DRP shall be determined in accordance with BNM’s Implementation Guidance on Capital Adequacy Framework (Capital Components) (“Implementation Guidance”) issued on 8 May 2013. Under the said Implementation Guidance, where a portion of the dividend may be reinvested under a DRP (the electable portion), the amount of declared dividend to be deducted in the calculation of CET1 Capital may be reduced as follows:

- (i) where an irrevocable written undertaking from shareholder has been obtained to reinvest the electable portion of the dividend; or
- (ii) where there is no irrevocable written undertaking provided, the average of the preceding 3-year take-up rates subject to the amount being not more than 50% of the total electable portion of the dividend.

In respect of the financial year ended 31 December 2014, the Board has proposed the payment of final single-tier dividend of 33 sen per ordinary share of RM1.00 each, which consists of cash portion of 10 sen and an electable portion of 23 sen per ordinary share. The electable portion can be elected to be reinvested by shareholders in new Maybank Shares in accordance with the DRP as disclosed in Note 31(b).

In arriving the capital adequacy ratios for the financial year ended 31 December 2014, the proposed final dividend has not been deducted from the calculation of CET1 Capital.

Notes to the Financial Statements

31 December 2014

57. CAPITAL ADEQUACY (CONT'D.)

(b) The capital adequacy ratios of the Group and of the Bank (cont'd.)

Based on the above, the capital adequacy ratios of the Group and of the Bank are as follows:

| | Group | | |
|----------------------|---------------------|-----------------------------------|----------------------------------|
| | As at 31.12.2014 | As at 31.12.2013 (Restated) | As at 1.1.2013* (Restated) |
| CET1 Capital Ratio | 11.747% | 11.253% | 10.969% |
| Tier 1 Capital Ratio | 13.539% | 13.059% | 13.192% |
| Total Capital Ratio | 16.235% | 15.664% | 16.601% |

| | Bank | | |
|----------------------|---------------------|-----------------------------------|----------------------------------|
| | As at 31.12.2014 | As at 31.12.2013 (Restated) | As at 1.1.2013* (Restated) |
| CET1 Capital Ratio | 16.275% | 15.925% | 17.244% |
| Tier 1 Capital Ratio | 16.275% | 15.925% | 17.244% |
| Total Capital Ratio | 16.275% | 15.925% | 17.244% |

[^] In accordance with BNM Guideline on the recognition and measurement of Restricted Profit-Sharing Investment Account ("RPSIA") as Risk Absorbent, the credit risk on the assets funded by the RPSIA are excluded from the capital adequacy ratios calculation.

[#] With effect from 30 June 2014, the credit RWA for margin and non-margin exposure were computed to include credit risk mitigation and unsettled trades respectively. Comparatives were restated without the impact of credit risk mitigation and unsettled trades.

58. SEGMENT INFORMATION

Segment information is presented in respect of the Group's business segments and geographical locations.

(i) By business segments

The Group determines and presents operating segments based on information provided to the Board and senior management of the Group.

The Group is organised into four (4) operating segments based on services and products available within the Group as follows:

(a) Community Financial Services ("CFS"), Malaysia

(i) Consumer Banking

Consumer Banking comprises the full range of products and services offered to individuals in Malaysia, including savings and fixed deposits, remittance services, current accounts, consumer loans such as housing loans and personal loans, hire purchases, unit trusts, bancassurance products and credit cards.

(ii) Small, Medium Enterprise ("SME") Banking

SME Banking comprises the full range of products and services offered to small and medium enterprises in Malaysia. The products and services offered including long-term loans such as project financing, short-term credit such as overdrafts and trade financing and fee-based services such as cash management and custodian services.

(iii) Business Banking

Business Banking comprises the full range of products and services offered to commercial enterprises in Malaysia. The products and services offered including long-term loans such as project financing, short-term credit such as overdrafts and trade financing and fee-based services such as cash management and custodian services.

(b) Global Banking ("GB")

(i) Corporate Banking Malaysia

Corporate Banking comprises the full range of products and services

offered to business customers in the region, ranging from large corporates and the public sector. The products and services offered include long-term loans such as project financing, short-term credit such as overdrafts and trade financing and fee-based services such as cash management and custodian services.

(ii) Global Markets Malaysia

Global Markets comprise the full range of products and services relating to treasury activities and services, including foreign exchange, money market, derivatives and trading of capital market.

(iii) Investment Banking (Maybank IB and Maybank Kim Eng)

Investment Banking comprises the investment banking and securities broking business. This segment focuses on business needs of mainly large corporate customers and financial institutions. The products and services offered to customers include corporate advisory services, bond issuance, equity issuance, syndicated acquisition advisory services, debt restructuring advisory services and share and futures dealings.

(iv) Asset Management

Asset Management comprises the asset and fund management services, providing a diverse range of conventional and Islamic investment solutions to retail, corporate and institutional clients.

(c) Insurance and Takaful

Insurance and Takaful comprise the business of underwriting all classes of general and life insurance businesses, offshore investment life insurance business, general takaful and family takaful businesses.

(d) International Banking

On the International front, the domestic CFS business is driven in-country whilst the wholesale banking for each country has a reporting line to the GB. For purpose of management reporting, the GB performance is shown separately and comprises Corporate Banking and Global Markets in Malaysia as well as the Investment Banking business, whilst the International Banking performance comprises both the wholesale banking and CFS business outside of Malaysia, for example, Singapore and Indonesia.

| Group | 9,545,048 | 9,238,622 | 630,754,908 | 551,080,162 |

¹ Non-current assets consist of investment properties, property, plant and equipment and intangible assets.

² Current assets are total assets excluding non-current assets as mentioned above.

³ Inter-segment balances are eliminated on consolidation.

59. SIGNIFICANT AND SUBSEQUENT EVENTS

The following are the significant events of the Group and of the Bank during the financial year ended 31 December 2014:

(a) Issuance of Tier 2 Subordinated Notes of RM1.6 billion pursuant to the RM7.0 billion Subordinated Note Programme

Maybank had on 19 December 2013 obtained the approval from BNM for the revision of the principal terms and conditions of the Subordinated Note Programme (in respect of Subordinated Notes to be issued in the future) to comply with BNM's Capital Adequacy Framework (Capital Components) issued on 28 November 2012 ("BNM Capital Adequacy Framework").

Maybank had on 29 January 2014 issued RM1.6 billion Basel III-compliant Tier 2 Subordinated Notes with tenure of 10 years on a 10 non-callable 5 basis under the revised Subordinated Note Programme, which is due on 29 January 2024.

The Subordinated Notes bear fixed interest rate of 4.90% per annum, payable semi-annually and qualified as Tier 2 capital of Maybank in accordance with the BNM Capital Adequacy Framework.

The Bank, may subject to the prior consent of BNM, redeem the Subordinated Notes, in whole or in part, on 29 January 2019 (first Call Date) and thereafter on every coupon payment date.

The proceeds from the Subordinated Notes will be utilised to fund Maybank's working capital, general banking and other corporate purposes.

Details of the Subordinated Notes are disclosed in Note 29(xii).

(b) Rights issue of 27,373,500 new ordinary shares of RM1.00 each issued by Maybank Islamic Berhad ("MIB"), a wholly-owned subsidiary of the Bank

On 26 March 2014, MIB completed its rights issue of 27,373,500 new ordinary shares of RM1.00 each at an issue price of RM14.64 per ordinary share for a total consideration of RM400,748,040. The proceeds raised from the rights issue will be used to improve its capital structure and strengthen its financial position to spearhead further growth.

Details of the rights issue are disclosed in Note 17(b).

(c) Issuance of Tier 2 Capital Subordinated Sukuk Murabahah of RM1.5 billion ("Subordinated Sukuk Murabahah") pursuant to a Subordinated Sukuk Murabahah Programme of up to RM10.0 billion in nominal value ("Subordinated Sukuk Programme") by Maybank Islamic Berhad

On 7 April 2014, Maybank Islamic Berhad ("MIB"), a wholly-owned subsidiary of the Bank, issued RM1.5 billion Basel III-compliant Tier 2 Capital Subordinated Sukuk Murabahah in nominal value ("Subordinated Sukuk Murabahah") pursuant to a Subordinated Sukuk Murabahah Programme of up to RM10.0 billion in nominal value ("Subordinated Sukuk Programme").

The Subordinated Sukuk Murabahah carries a tenure of ten (10) years on a 10 non-callable 5 basis, with a profit rate of 4.75% per annum, payable semi-annually in arrears, and is due on 5 April 2024.

MIB may, subject to the prior consent of BNM, redeem the Subordinated Sukuk Murabahah, in whole or in part, on 5 April 2019 (first Call Date) and callable on every profit payment date thereafter.

The net proceeds from the issuance of the Subordinated Sukuk Murabahah will be utilised for MIB's business expansion programme, general banking, working capital and other Shariah compliant corporate purposes.

Details of the Subordinated Sukuk Murabahah are disclosed in Note 29(xiii).

(d) Issuance of Tier 2 Capital Subordinated Sukuk Musharakah of RM300.0 million in nominal value by Etiqa Takaful Berhad

On 30 May 2014, Etiqa Takaful Berhad ("ETB"), a subsidiary of the Bank, issued Tier 2 Capital Subordinated Sukuk Musharakah of RM300.0 million in nominal value ("Subordinated Sukuk Musharakah").

The Subordinated Sukuk Musharakah carries a tenure of ten (10) years on a 10 non-callable 5 basis, with a profit rate of 4.52% per annum, payable semi-annually in arrears, and is due on 30 May 2024.

ETB may, subject to the prior consent of BNM, redeem the Subordinated Sukuk Musharakah on any semi-annual distribution date on or after the fifth (5th) anniversary from the issue date.

The net proceeds from the issuance of the Subordinated Sukuk Musharakah will be utilised, amongst others, for ETB's business operations, working capital and other corporate purposes which are Shariah compliant.

Details of the Subordinated Sukuk Musharakah are disclosed in Note 29(xiv).

(e) Issuance of IDR1.5 trillion Subordinated Bonds under Shelf Subordinated Bonds II Bank BII Tranche I Year 2014

On 8 July 2014, BII, a subsidiary of the Bank, issued IDR1.5 trillion Subordinated Bonds under Shelf Subordinated Bonds II Bank BII Tranche I Year 2014. The Subordinated Bonds bear fixed interest rate at 11.35% per annum, payable quarterly in arrears, and is due on 8 July 2021.

Details of the Subordinated Bonds are disclosed in Note 29(xv).

(f) Establishment of Additional Tier 1 Capital Securities ("AT1CS") Programme of up to RM10.0 billion and/or its foreign currency equivalent in nominal value ("AT1CS Programme")

The Bank has obtained approval and authorisation from the Securities Commission Malaysia vide its letter dated 14 August 2014 for the establishment of the AT1CS Programme and the issuance of AT1CS thereunder.

In addition, the approval from BNM for the establishment of AT1CS Programme has also been obtained on 14 July 2014 (upon terms and conditions therein contained).

The AT1CS to be issued under the AT1CS Programme will qualify as Additional Tier 1 capital of the Bank subject to compliance with the requirements as specified in BNM's Capital Adequacy Framework (Capital Components) issued on 28 November 2012.

The AT1CS Programme will have a perpetual tenure from the date of first issuance of the AT1CS under the AT1CS Programme and each of the AT1CS shall have a perpetual tenure with a call date of no earlier than five (5) years from the issue date of that tranche of AT1CS. Each issuance of AT1CS under the AT1CS Programme, shall have a callable option allowing the Bank, subject to the redemption conditions being satisfied, to redeem (in whole or in part) that tranche of AT1CS on the call date at their principal amount together with accrued but unpaid coupon (if any).

The proceeds from the issuance of the AT1CS will be utilised to fund the Bank's working capital, general banking and other corporate purposes, including the refinancing of any borrowings incurred and/or any debt instruments issued by the Bank and/or relating thereto.

The AT1CS Programme has been successfully established on 19 August 2014.

(g) Establishment of Euro-Commercial Paper Programme of up to USD5.0 billion or its equivalent in alternative currencies in nominal value

On 25 July 2014, the Bank has obtained approval from the Securities Commission Malaysia for the establishment of the Euro-Commercial Paper Programme ("CP Programme") under which the Bank may issue and have outstanding at any time euro-commercial paper notes ("Notes") of up to USD5.0 billion or its equivalent in alternative currencies in nominal value.

The CP Programme will give the Bank the flexibility to raise funds via the issuance of Notes from time to time which can be utilised, amongst others, to fund the Bank's working capital, general banking and other corporate purposes.

The CP Programme has been assigned a final short-term debt rating of P-2 by Moody's Investors Service, Inc. Maybank Investment Bank Berhad is the Principal Adviser while Maybank Kim Eng Securities Pte. Ltd. is the Lead Arranger for the CP Programme.

The CP Programme has been successfully established on 4 September 2014.

(h) Issuance of Basel III-Compliant Additional Tier 1 Capital Securities ("AT1CS") of RM3.5 billion in nominal value pursuant to the AT1CS Programme of up to RM10.0 billion and/or its foreign currency equivalent in nominal value

On 10 September 2014, the Bank issued RM3.5 billion of Basel III-compliant AT1CS in nominal value with a tenure of Perpetual Non-Callable five (5) years pursuant to the AT1CS Programme of up to RM10.0 billion and/or its foreign currency equivalent in nominal value established on 19 August 2014.

Notes to the Financial Statements

31 December 2014

59. SIGNIFICANT AND SUBSEQUENT EVENTS (CONT'D.)

The following are the significant events of the Group and of the Bank during the financial year ended 31 December 2014 (cont'd.):

(h) Issuance of Basel III-Compliant Additional Tier 1 Capital Securities ("AT1CS") of RM3.5 billion in nominal value pursuant to the AT1CS Programme of up to RM10.0 billion and/or its foreign currency equivalent in nominal value (cont'd.)

The AT1CS bears a fixed interest rate of 5.30% per annum, payable semi-annually.

The Bank may, subject to the prior consent of BNM, redeem the AT1CS, in whole or in part, on 10 September 2019 (first Call Date) and thereafter on every coupon payment date.

Details of the AT1CS are disclosed in Note 30(d).

(i) Partial Redemption of Non-Innovative Tier 1 Capital of RM3.437 billion in nominal value ("NIT1 Capital")

On 10 September 2014, the Bank completed a partial redemption of NIT1 Capital of RM3.437 billion in nominal value comprising Non-Cumulative Perpetual Capital Securities ("NCPCS") which are stapled to Subordinated Notes issued by Cepak Mentari Berhad, a wholly-owned subsidiary of the Bank.

The NIT1 Capital was issued in June 2008. Details of the NIT1 Capital are disclosed in Note 30(a).

(j) Disposal of ATR Kim Eng Land, Inc., an indirect subsidiary of Maybank Kim Eng Holdings Limited ("MKEH") through Maybank ATR Kim Eng Capital Partners, Inc. ("MATRKECP")

On 22 December 2014 ("Closing Date"), Maybank ATR Kim Eng Capital Partners, Inc. ("MATRKECP"), an indirect subsidiary of Maybank through Maybank Kim Eng Holdings Limited ("MKEH"), had sold 3,100,000 common shares representing 100% ownership in ATR Kim Eng Land, Inc. ("ATRKE Land") to Rockwell Primaries Development Corp., ATR Holdings, Inc. and Dragon Eagle International Limited (the "Disposal").

The Disposal was completed as part of MKEH's initiative to divest its non-core assets. ATRKE Land ceased to be an indirect subsidiary of Maybank with effect from the Closing Date.

The financial impact on the Disposal is disclosed in Note 17(c).

(k) Rights issue of PT Bank Internasional Indonesia Tbk ("BII")

On 24 December 2014, BII, a subsidiary of Maybank had completed its rights issue exercise of 6,774,684,073 new ordinary shares of Rupiah ("Rp") 22.5 each ("Rights Shares") at an issue price of Rp221 per Rights Shares ("Rights Issue"). The total proceeds raised from the Rights Issue amounted to approximately Rp1.5 trillion. The Group had fully subscribed for its entitlement under the Rights Issue.

The proceeds from the Rights Issue would be used principally for credit expansion as part of BII's plan to improve its capital structure and strengthen its financial position to spearhead further growth.

(l) Transfer of identified assets and liabilities from Maybank International (L) Ltd. ("MILL") to Maybank International Labuan Branch ("MILB")

On 3 May 2013, the Bank established Maybank International Labuan Branch ("MILB"), an offshore branch of the Bank, in Federal Territory of Labuan, in which the location of the business operations is the same as Maybank International (L) Ltd. ("MILL"), a wholly-owned subsidiary of the Bank.

As part of the business plan, the identified assets and liabilities of MILL will be transferred to MILB via vesting by tranches. The first tranche of the identified assets and liabilities has been transferred using the position as at 14 February 2014. The transfer of the remaining identified assets and liabilities are currently on-going, expected to be completed in year 2015, subject to regulatory approval in the relevant jurisdictions.

The following are the subsequent events of the Group and of the Bank subsequent to the financial year ended 31 December 2014:

(a) SGD600.0 million 6% Capital Securities Callable with Step-Up in 2018 Issued by the Bank pursuant to its RM4.0 billion Innovative Tier 1 Capital Securities Programme

On 21 January 2015, the Bank purchased SGD78.0 million out of the SGD600.0 million Innovative Tier 1 Capital Securities ("IT1CS") through a private treaty arrangement. The SGD78.0 million IT1CS bought back have been cancelled on 28 January 2015.

(b) Issuance of USD50.0 million Floating Rate Notes in nominal value pursuant to the USD5.0 billion Multicurrency Medium Term Note Programme

On 29 January 2015, the Bank completed the issuance of USD50.0 million Floating Rate Note which is due in 2016 under the USD5.0 billion Multicurrency Medium Term Note Programme. The borrowings bear floating interest rates of 3-month LIBOR + 48bps per annum.

| Exchange differences | 439 | (1,394) |
| At 31 December | 212,945 | 172,880 |

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|---------------------------------------|-------------------------------|-------------------------------|
| Collective allowance | | |
| At 1 January | 591,146 | 607,837 |
| Allowance made* (Note 61(y)) | 84,488 | 56,839 |
| Amount written-off | (65,700) | (73,313) |
| Transferred from individual allowance | 2,356 | 74 |
| Transferred to holding company | (1,224) | - |
| Exchange differences | 713 | (291) |
| At 31 December | 611,779 | 591,146 |

As a percentage of gross financing and advances (excluding RPSIA financing)
less individual allowance (including regulatory reserve)

0.89% 0.74%

* As at 31 December 2014, the gross exposures to RPSIA financing which is RM9,548.2 million (31 December 2013: RM8,328.8 million) is excluded from gross financing and advances for the individual and collective allowance computation. The collective allowance relating to this RPSIA amounting RM43.2 million (31 December 2013: RM27.8 million) is recognised in the Group's conventional banking operations. There was no individual allowance provided for this RPSIA financing.

Notes to the Financial Statements

31 December 2014

61. THE OPERATIONS OF ISLAMIC BANKING SCHEME ("IBS") (CONT'D.)

(j) Derivative financial instruments

The table below shows the fair value of derivative financial instruments recorded as assets or liabilities, together with their principal amounts. The principal amount, recorded gross, is the amount of the derivative's underlying asset, reference rate or index and is the basis upon which change in the value of derivatives are measured. The principal amounts indicate the volume of transactions outstanding at the financial year end and are indicative of neither the market risks nor the credit risk.

| Group As at 31.12.2014 | Principal amount RM'000 | Fair values | |
|---|-------------------------------|------------------|-----------------------|
| | | Assets RM'000 | Liabilities RM'000 |
| Trading derivatives | | | |

31 December 2014

61. THE OPERATIONS OF ISLAMIC BANKING SCHEME ("IBS") (CONT'D.)

(p) Deposits from customers (cont'd.)

(i) The maturity profile of term deposits except for hybrid term deposits are as follows:

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|---------------------------|-------------------------------|-------------------------------|
| Within six months | 60,165,766 | 43,855,814 |
| Six months to one year | 6,933,835 | 11,778,748 |
| One year to three years | 187,327 | 199,472 |
| Three years to five years | 18,278 | 16,202 |
| | 67,305,206 | 55,850,236 |

(ii) The deposits are sourced from the following types of customers:

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|---------------------------------|-------------------------------|-------------------------------|
| Business enterprises | 40,243,287 | 35,478,959 |
| Individuals | 24,970,191 | 19,914,338 |
| Government and statutory bodies | 15,237,710 | 11,881,758 |
| Others | 19,545,668 | 16,101,200 |
| | 99,996,856 | 83,376,255 |

(q) Deposits and placements from financial institutions

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|------------------------------|-------------------------------|-------------------------------|
| Mudharabah Fund | | |
| Licensed banks* | 25,610,400 | 25,549,509 |
| Other financial institutions | 287,371 | 299,999 |
| | 25,897,771 | 25,849,508 |
| Non-Mudharabah Fund | | |
| Licensed banks | 10,442,043 | 7,436,662 |
| Other financial institutions | 286,102 | 145,685 |
| | 10,728,145 | 7,582,347 |
| | 36,625,916 | 33,431,855 |

* Included in the deposits and placements from licensed banks is the Restricted Profit Sharing Investment Account ("RPSIA") placed by the Group's conventional operations amounting to RM9,521.9 million (31 December 2013: RM8,336.3 million). These deposits are used to fund certain specific financing. The RPSIA is a contract based on the Mudharabah principle between two parties to finance a financing where the investor solely provides capital and the business venture is managed solely by the entrepreneur. The profit of the business venture is shared between both parties based on pre-agreed ratios. Losses shall be borne by the Group's conventional operations as the depositor.

(r) Other liabilities

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |

61. THE OPERATIONS OF ISLAMIC BANKING SCHEME (“IBS”) (CONT’D.)**(s) Profit Equalisation Reserve (“PER”)**

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|---|-------------------------------|-------------------------------|
| At 1 January | 16,977 | 59,852 |
| Distribution to Investment Account Holder | (11,820) | (42,875) |
| At 31 December* | 5,157 | 16,977 |

* Under the revised BNM PER Guideline issued on 1 July 2012, the PER of IBI is to be classified as a separate reserve in equity.

(t) Recourse obligation on financing sold to Cagamas

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|---------------------|-------------------------------|-------------------------------|
| At 1 January | 620,976 | 905,181 |
| Repayment forwarded | (620,976) | (284,205) |
| At 31 December | - | 620,976 |

This represents hire purchase financing sold directly to Cagamas Berhad with recourse. Under the agreement, Maybank Islamic Berhad undertakes to administer the financing on behalf of Cagamas Berhad and to buy back any financing which are regarded as defective based on pre-determined and agreed-upon prudential criteria.

(u) Provision for taxation and zakat

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|----------|-------------------------------|-------------------------------|
| Taxation | 34,531 | 183,934 |
| Zakat | 20,463 | 22,545 |
| | 54,994 | 206,479 |

(v) Subordinated sukuk

| Group | Note | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|--|------|-------------------------------|-------------------------------|
| RM1,000 million subordinated sukuk due in 2021 | i | 1,010,841 | 1,010,782 |
| RM1,500 million subordinated sukuk due in 2024 | ii | 1,516,788 | - |
| | | 2,527,629 | 1,010,782 |

(i) On 31 March 2011, Maybank Islamic Berhad, a wholly-owned subsidiary of the Bank, issued RM1.0 billion nominal value Tier 2 Islamic subordinated sukuk (“the Sukuk”) under the Shariah principle of Musyarakah. The Sukuk carries a tenure of 10 years from the issue date on 10 non-callable 5 basis, with a profit rate of 4.22% per annum payable semi-annually in arrears in March and September each year and is due in March 2021. The subsidiary has the option to redeem the Sukuk on any semi-annual distribution date on or after the 5th anniversary from the issue date. Should the subsidiary decide not to exercise its option to redeem the Sukuk, the Sukuk shall continue to be outstanding until the final maturity date.

The Sukuk is unsecured and it is subordinated in rights and priority of payment, to all deposit liabilities and other liabilities of Maybank Islamic Berhad except for liabilities of Maybank Islamic Berhad which by their terms rank pari passu in right and priority of payment with the Sukuk.

(ii) On 7 April 2014, Maybank Islamic Berhad, a wholly-owned subsidiary of the Bank, issued RM1.5 billion nominal value Islamic Subordinated Sukuk (“the Sukuk”) under the Shariah principle of Murabahah (via Tawaruq arrangement). The Sukuk carries a tenure of 10 years from the issue date on 10 non-callable 5 basis, with a profit rate of 4.75% per annum payable semi-annually in arrears in April and October each year and are due in April 2024. Under the 10 non-callable 5 basis feature, the subsidiary has the option to redeem the Sukuk on any semi-annual distribution date on or after the 5th anniversary from the issue date. Should the subsidiary decide not to exercise its option to redeem the Sukuk, the Sukuk shall continue to be outstanding until the final maturity date.

The Sukuk is unsecured and it is subordinated in rights and priority of payment, to all deposit liabilities and other liabilities of Maybank Islamic Berhad except liabilities of Maybank Islamic Berhad which by their terms rank pari passu in right and priority of payment with the Sukuk.

(dd) Capital adequacy

The capital adequacy ratios of the Group are as follows:

| Group | As at 31.12.2014 | As at 31.12.2013 |
|----------------------|---------------------|---------------------|
| CET1 Capital Ratio | 12.501% | 12.309% |
| Tier 1 Capital Ratio | 12.501% | 12.309% |
| Total Capital Ratio | 16.504% | 14.219% |

Components of capital:

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|---|-------------------------------|-------------------------------|
| CET1/Tier 1 Capital | | |
| Paid-up share capital/Islamic Banking Fund | 517,021 | 479,157 |
| Share premium | 4,099,343 | 3,725,969 |
| Retained profits | 2,447,702 | 2,337,033 |
| Other reserves | 620,815 | 316,728 |
| CET1 Capital before regulatory adjustments | 7,684,881 | 6,858,887 |
| Less: Regulatory adjustment applied in CET1 Capital | (377,273) | (663,352) |
| Total CET1/Tier 1 Capital | 7,307,608 | 6,195,535 |
| Tier 2 Capital | | |
| Tier 2 capital instruments | 2,300,000 | 900,000 |
| Collective allowance ¹ | 40,144 | 61,072 |
| Total Tier 2 Capital | 2,340,144 | 961,072 |
| Total Capital | 9,647,752 | 7,156,607 |

¹ Excludes collective allowance for impaired financing and advances restricted from Tier 2 Capital.

The breakdown of RWA by each major risk categories are as follows:

| Group | As at 31.12.2014 RM'000 | As at 31.12.2013 RM'000 |
|---|-------------------------------|-------------------------------|
| Standardised Approach exposure | 5,148,640 | 4,140,360 |
| Internal Ratings-Based Approach exposure after scaling factor | 51,879,355 | 42,526,775 |
| Total RWA for credit risk | 57,027,995 | 46,667,135 |
| Total RWA for credit risk absorbed by Maybank* | (3,930,555) | (1,210,230) |
| Total RWA for market risk | 919,851 | 1,013,268 |
| Total RWA for operational risk | 4,441,134 | 3,861,768 |
| Total RWA | 58,458,425 | 50,331,941 |

* In accordance with BNM's guideline on the recognition and measurement of Restricted Profit Sharing Investment Account (“RPSIA”) as Risk Absorbent, the credit risk on the assets funded by the RPSIA are excluded from the capital adequacy ratios calculation of the IBS operations.

(ee) Fair values of financial assets and liabilities

The estimated fair values of financial assets and financial liabilities as at the reporting date approximate their carrying amounts as shown in the statement of financial position, except for the following financial assets and liabilities:

| Group As at 31.12.2014 | Level 1 RM'000 | Level 2 RM'000 | Level 3 RM'000 | Total fair value RM'000 | Carrying amount RM'000 |
|---|-------------------|-------------------|-------------------|-------------------------------|------------------------------|
| Financial assets | | | | | |
| Financial investments HTM | - | 197,591 | - | 197,591 | 197,010 |
| Financing and advances | - | 32,859,276 | 77,585,591 | 110,444,867 | 108,814,883 |
| Financial liabilities | | | | | |
| Deposits from customers | - | 99,081,642 | 969,160 | 100,050,802 | 99,996,856 |
| Deposits and placements from financial institutions | - | 36,675,767 | - | 36,675,767 | 36,625,916 |
| Subordinated sukuk | - | 2,546,049 | - | 2,546,049 | 2,527,629 |

| Group As at 31.12.2013 | Level 1 RM'000 | Level 2 RM'000 | Level 3 RM'000 | Total fair value RM'000 | Carrying amount RM'000 |
|---|-------------------|-------------------|-------------------|-------------------------------|------------------------------|
| Financial assets | | | | | |
| Financial investments HTM | - | 127,862 | - | 127,862 | 127,862 |
| Financing and advances | - | 61,722,398 | 29,447,076 | 91,169,474 | 87,395,117 |
| Financial liabilities | | | | | |
| Deposits from customers | - | 82,307,961 | 913,661 | 83,221,622 | 83,376,255 |
| Deposits and placements from financial institutions | - | 33,535,492 | - | 33,535,492 | 33,431,855 |
| Recourse obligation on financing sold to Cagamas | - | 620,976 | - | 620,976 | 620,976 |
| Subordinated sukuk | - | 1,024,349 | - | 1,024,349 | 1,010,782 |

The methods and assumptions used to estimate the fair values of the financial assets and financial liabilities of IBS operations are disclosed in Note 52.

(ff) Allocation of income

The policy of allocation of income to the various types of deposits and investments is subject to “The Framework on Rate of Return” issued by BNM in October 2001 and has been updated on 13 March 2013. The objective is to set the minimum standard and terms of reference for the Islamic banking institutions in calculating and deriving the rate of return for the depositors.

(gg) Shariah disclosures

(i) Shariah Committee and governance

The operations of the Group are governed by Section 28 and 29 of Islamic Financial Services Act 2013 (“IFSA”), which stipulates that any licensed institution shall at all times ensure that its aims and operations, business, affairs and activities are in compliance with Shariah and in accordance with the advice or ruling of the Shariah Advisory Council (“SAC”), specify standards on Shariah matters in respect of the carrying on of its business, affair or activity and Shariah Governance Framework for Islamic Financial Institutions issued by BNM, which stipulates that every Islamic Financial Institution is required to establish a Shariah Committee.

Based on the above, the duties and responsibilities of the Group’s Shariah Committee are to advise on the overall Islamic Banking operations of the Group’s business in order to ensure compliance with the Shariah requirements.

The roles of Shariah Committee in monitoring the Group’s activities include:

- To advise the Board on Shariah matters in its business operations;
- To endorse Shariah Compliance Manual;
- To endorse and validate relevant documentations;
- To assist related parties on Shariah matters for advice upon request;
- To advise on matters to be referred to the SAC;
- To provide written Shariah opinion; and
- To assist the SAC on reference for advice.

The Shariah Committee at the Group level has seven members.

Any transactions that are suspected to be Shariah non-compliant are reported to the Risk Management and escalated to the Shariah Committee for their deliberation and conclusion as to whether any Shariah requirements have been breached. For any non-compliant transactions, the related income will be purified by channeling the amount to an approved charitable organisation.

61. THE OPERATIONS OF ISLAMIC BANKING SCHEME (“IBS”) (CONT’D.)**(gg) Shariah disclosures (cont’d.)****(ii) Shariah non-compliant events**

| Group | No. of event | RM'000 |
|---|--------------|--------|
| As at 31.12.2014 | | |
| Non-existence of underlying assets, usage of non-eligible underlying assets and non-execution of aqad | 6 | 27 |
| As at 31.12.2013 | | |
| Lapses in the execution of transactions, non-suitability of marketing collaterals and usage of non-eligible underlying assets | 11 | 52 |

(iii) Sources and uses of charity funds

| | 1.1.2014 to 31.12.2014 RM'000 | 1.1.2013 to 31.12.2013 RM'000 |
|---|--|--|
| Sources of charity funds | | |
| Shariah non-compliant/prohibited income | 27 | 52 |
| Total sources of charity funds during the financial year | 27 | 52 |
| Uses of charity funds | | |
| Contribution to non-profit organisation | 27 | 52 |
| Total uses of charity funds during the financial year | 27 | 52 |
| Undistributed charity funds as at 31 December | - | - |

(iv) Recognition and measurement by main class of Shariah contracts

The recognition and measurement of each main class of Shariah contracts is dependent on the nature of the products, either financing or deposit product. The accounting policies for each of this product is disclosed in their respective policy.

- (10) Chinese Renminbi (CNY)
- (11) Vietnamese Dong (VND)
- (12) Audited by other member firms of Ernst & Young Global
- (13) Audited by firms of auditors other than Ernst & Young
- (14) No audit required as allowed by the laws of the respective country of incorporation
- (15) No audit required as the entity is under members' voluntary liquidation
- (16) During the previous financial year ended 31 December 2013, the Group completed the disposal of 18.3% equity interest in PT Bank Internasional Indonesia Tbk ("BII") to a third party investor. The said disposals were undertaken to ensure compliance with the Otoritas Jasa Keuangan ("OJK")'s mandatory sell down requirement under the OJK Regulation No. IX.H.1. The Group has also entered into a commercial arrangement where the economic exposure resulting from the disposal is being retained. Hence, the disposals did not have any material financial impact to the Group and has not resulted to a decrease in the Group's effective interest in BII.

63. CURRENCY

The financial statements are presented in Ringgit Malaysia ("RM"), which is also the Bank's functional currency and rounded to the nearest thousand (RM'000) unless otherwise stated.

64. COMPARATIVES

Certain comparative numbers in prior years have been restated in order to conform with the adoption of the amended MFRS and IC Interpretations which are effective in the current financial year and presentation of the current financial year's financial statements. The effects of these restatements are disclosed in Note 2.4(vi).

Notes to the Financial Statements

31 December 2014

65. SUPPLEMENTARY INFORMATION - BREAKDOWN OF RETAINED PROFITS INTO REALISED AND UNREALISED

The breakdown of the retained profits of the Group and of the Bank as at the statements of financial position date into realised and unrealised profits is presented in accordance with the directive issued by Bursa Malaysia Securities Berhad dated 25 March 2010 and prepared in accordance with the Guidance on Special Matter No. 1, *Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements*, as issued by the Malaysian Institute of Accountants.

Overview

The Pillar 3 Disclosure for the financial year ended 31 December 2014 for Malayan Banking Berhad (“Maybank” or the “Bank”) and its subsidiaries (“Maybank Group” or the “Group”) complies with the Bank Negara Malaysia’s (“BNM”) “Risk-Weighted Capital Adequacy Framework (“RWCAF”) – Disclosure Requirements (“Pillar 3”)", which is the equivalent of that issued by the Basel Committee on Banking Supervision (“BCBS”) entitled “International Convergence of Capital Measurement and Capital Standards” (commonly referred to as Basel II).

The Group adopts the Foundation Internal Ratings-Based (“FIRB”) Approach and supervisory slotting criteria to calculate credit risk-weighted assets for major non-retail portfolios, and the Advanced Internal Ratings-Based (“AIRB”) Approach for major retail portfolios. Other credit portfolios, especially those in the Bank’s subsidiaries and some overseas units, are on the Standardised Approach and will progressively migrate to the internal ratings-based (“IRB”) approaches.

For market risk, the Group adopts the Standardised Approach whereas operational risk is based on the Basic Indicator Approach (“BIA”). The Group is currently working towards The Standardised Approach (“TSA”) certification for operational risk.

MEDIUM AND LOCATION OF DISCLOSURE

The Group’s Pillar 3 Disclosure will be made available under the Investor Relations section of the Group’s website at www.maybank2u.com.my and as a separate report in the annual and half-yearly financial reports, after the notes to the financial statements.

BASIS OF DISCLOSURE

This Pillar 3 Disclosure document is designed to be in compliance with the BNM’s Pillar 3 Guidelines, and is to be read in conjunction with the Group’s and Bank’s Financial Statements for the financial year ended 31 December 2014. Whilst this document discloses the Group’s assets both in terms of exposures and capital requirements, the information disclosed herein may not be directly comparable with the information in the Financial Statements 2014 published by the Group.

COMPARATIVE INFORMATION

This is the fifth full Pillar 3 Disclosure since the Group adopted the Basel II IRB Approach in July 2010. The corresponding Pillar 3 Disclosure in the preceding reporting period would be as at 31 December 2013.

Scope of Application

The Pillar 3 Disclosure is prepared on a consolidated basis and comprises information of the Group, the Bank and Maybank Islamic Berhad (“MIB”), a wholly-owned subsidiary of the Bank which provides Islamic banking financial services in Malaysia.

For regulatory reporting purposes, Maybank establishes two main levels of reporting namely at Maybank Group level, covering Maybank and its subsidiaries excluding the investments in insurance entities and associates; and at Maybank level, covering Maybank and its wholly-owned offshore banking subsidiary, Maybank International (L) Ltd. (“MILL”).

Information on subsidiaries and associates of the Group is available in the notes to the financial statements. The basis of consolidation for financial reporting is disclosed in the notes to the financial statements, which differs from that used for regulatory capital reporting purposes.

Capital Management

INTRODUCTION

The Group's approach to capital management is driven by the following key thrusts:

- To diversify its sources of capital;
- To allocate and deploy capital efficiently, guided by the need to maintain a prudent relationship between available capital and the risks of its underlying businesses; and
- To meet the expectations of key stakeholders, including investors, regulators and rating agencies.

The above key thrusts are adopted to ensure capital efficiency across the Group with the aim to:

- Maintain adequate capital ratios at all times, at levels sufficiently above the minimum regulatory requirements;
- Support the Group's credit rating from local and foreign rating agencies;
- Deploy capital efficiently to business and optimise returns on capital;
- Remain flexible to take advantage of future opportunities; and
- Build and invest in businesses, even in a reasonably stressed environment.

Capital Management Framework

The Group's capital management is guided by the Group Capital Management Framework ("Framework") to ensure an integrated capital management and alignment of capital management policies and procedures across the Group.

The Framework, which is approved by the Board of Directors ("Board"), provides a comprehensive approach to the management of capital for the Group. Specifically, the Framework aims to establish:

- A blueprint for which capital management policies and procedures are developed;
- Principles and strategies in which capital is managed and optimised;
- The corporate governance and the roles and responsibilities of the Board, Group Executive Committee ("Group EXCO"), Group Asset and Liability Management Committee ("ALCO") and the business and support units pertaining to capital management matters;
- Guidelines to manage capital on an integrated approach and in compliance with all internal and regulatory requirements across the Group; and
- Basis for setting of internal capital targets for the Group and its relevant entities.

The Framework also contains principles for the development and usage of Risk Adjusted Performance Measurement ("RAPM") to measure and manage the return on capital across the Group. The RAPM tool is implemented by the Group to promote optimal capital levels for business sectors, subsidiaries and branches, to reduce wastage, to minimise cost of capital and to optimise returns on capital.

Overall responsibility for the effective management of capital rests with the Board whilst the Group EXCO is responsible for ensuring the effectiveness of the capital management policies on an ongoing basis and for updating the Framework to reflect revisions and new developments.

Annual Group Capital Plan

The Group Capital Plan aims to establish robust monitoring of the Group's (inclusive of subsidiaries, associates and overseas branches) capital position and to ensure the Group has adequate levels of capital and optimal capital mix to support the Group's business plans and strategic objectives during the financial year.

The Group Capital Plan is updated on an annual basis and approved by the Board. It is a comprehensive plan drawn up to cover at least a three year horizon and takes into account, amongst others, the Group's strategic objectives and business plans, regulatory capital requirements, views of key stakeholders such as regulators, investors, rating agencies and analysts, capital benchmarking, development on capital guidelines both locally and overseas, available supply of capital and capital raising options, performance of business sectors based on RAPM approach, risks under Pillar 2 Internal Capital Adequacy Assessment Process ("ICAAP") as well as stress test results. Key issues pertaining to capital position will be identified for discussion at the Board and appropriate solutions are recommended for implementation.

Internal capital targets ("ICT") are set for the Group as well as subsidiaries and overseas branches based on their respective risk profile and regulatory requirements at the jurisdictions in which they are based. The ICTs are reviewed annually to ensure adequate capital buffers to support their risk profiles and business growth.

The Group Capital Plan is reviewed by the Board semi-annually in order to keep abreast with the latest developments on the business plan, regulatory changes and other matters to ensure effective and timely execution of the plans contained therein.

Capital Contingency Plan

The Group Capital Contingency Plan is an extension of the Group Capital Management Framework that is approved by the Board and updated from time to time. The plan provides a comprehensive approach to the management and restoration of capital across the Group in the unlikely event of a capital crisis by:

- Establishing policies and procedures for capital contingency planning;
- Establishing governance for capital contingency planning;
- Providing early warning signals and establish monitoring and escalation process;
- Establishing strategies and action plans to ensure that capital is managed promptly; and
- Serving as a reference guide for Maybank Group of companies.

The capital adequacy ratios of the Group including its overseas subsidiaries and branches are monitored actively by the Senior Management and relevant committees on a monthly basis. Appropriate trigger points are established based on the capital adequacy ratios computed in accordance with BNM guidelines and other foreign regulators (where relevant) in order to facilitate reporting, monitoring and escalation, decision making and action planning. The trigger points formalise the basis of escalation to the appropriate departments and committees and also provide clear action plans to ensure that capital is restored back to healthy levels in the event of a capital crisis.

Circumstances that could lead to deficiencies in capital position include, amongst others, economic environment, market conditions and financial conditions. In this regard, appropriate strategies and action plans are developed so that, in the unlikely event of a capital crisis, the Group is prepared to deal with the event promptly and restore capital back to healthy levels.

Capital Structure

The Group places strong emphasis on the quality of its capital and, accordingly, holds a significant amount of its capital in the form of common equity which is permanent and has the highest loss absorption capability on a going concern basis.

The common equity capital of the Group comprises of issued and paid-up share capital, share premium, reserves and retained profits. During the financial year, the issued and paid-up share capital of the Group has increased by approximately RM457 million arising from the issuance of new shares under the Employee Share Option Schemes of about RM62 million as well as from the completion of the 8th and 9th Dividend Reinvestment Plan ("DRP") via the issuance and allotment of about 395 million new ordinary shares of RM1.00 each on 27 May 2014 and 29 October 2014 respectively.

The DRP scheme was announced by the Bank on 25 March 2010 to allow shareholders of the Bank to reinvest their dividends into new ordinary shares of RM1.00 each in the Bank.

The Bank has implemented nine DRPs since its implementation in 2010 to date, all with successful reinvestment rates around 85%. The latest two DRPs (8th and 9th) implemented during the year ended 31 December 2014 were successful with high reinvestment rates at 85.9% and 84.0% respectively.

In respect of the financial year ended 31 December 2014, the Board proposed the payment of final single-tier dividend of 33 sen per ordinary share. Out of the said final dividend amount, 10 sen per ordinary share will be paid in cash while the balance 23 sen per ordinary share will be the portion which can be elected to be reinvested by the shareholders in new Maybank shares in accordance with the DRP, subject to the relevant regulatory approvals and shareholders' approval at the forthcoming Annual General Meeting.

In addition to common equity, the Group maintains other types of capital instruments such as Non-Innovative Tier 1 Capital Securities, Innovative Tier 1 Capital Securities and Subordinated Bonds/Certificates/Notes in order to optimise its capital mix and cost of capital.

During the financial year ended 31 December 2014, the Bank issued its first Basel 3-compliant Tier 1 capital securities of RM3.5 billion and completed an early partial redemption of RM3.437 billion of its existing "old style" Non-Innovative Tier 1 capital. The issuance and redemption therefore limit the amortisation impact of the Non-Innovative Tier 1 capital that is being phased out, alleviate inefficiency in the capital structure, optimise capital cost and enhance the regulatory capital base of the Bank. The Bank also issued its first Basel 3-compliant Subordinated Notes of RM1.6 billion during the financial year.

The Group has the following Tier 1 capital instruments and subordinated obligations which are qualified in the capital computation in accordance with BNM's Capital Adequacy Framework (Capital Components) issued on 28 November 2012:

Capital Management

Tier 1 Capital Instruments

| Description | Issue Date | Key Terms | As At 31.12.2014 RM' million |
|---|-------------------|---|------------------------------------|
| RM3.5 billion 6.85% Stapled Capital Securities ("NCPCS") (Non-Innovative) due on 27 June 2038 | 27 June 2008 | Callable on 27 June 2018 & maturing on 27 June 2038. Callable at the option of the bank 10 years from issuance date or any NCPCS distribution date thereafter, subject to redemption conditions being satisfied. | 63 |
| SGD600 million 6.00% Innovative Tier 1 Capital Securities due on 10 August 2068 | 11 August 2008 | Callable on 10 August 2018 & maturing on 10 August 2068. Callable at the option of the bank 10 years from issuance date. There will be step-up in the interest rate to a floating rate, reset quarterly, at the initial credit spread plus 100 basis points above the 3 month SGD Swap Offer Rate. | 1,552 |
| RM1.1 billion 6.30% Innovative Tier 1 Capital Securities due on 25 September 2068 | 25 September 2008 | Callable on 25 September 2018 & maturing on 25 September 2068. Callable at the option of the bank 10 years from issuance date. There will be step-up in the interest rate to a floating rate, reset quarterly, at the initial credit spread plus 100 basis points above the Kuala Lumpur Inter-Bank Offer Rate for 3 months RM deposits. | 1,099 |
| RM3.5 billion 5.3% Basel 3-compliant Perpetual Tier 1 Capital Securities | 10 September 2014 | Callable on 10 September 2019 and thereafter on every coupon payment date. | 3,500 |

Subordinated Obligations

| Description | Issue Date | Key Terms | As At 31.12.2014 RM' million |
|---|-------------------|--|------------------------------------|
| SGD1.0 billion 3.80% Subordinated Notes due in 2021 | 28 April 2011 | Callable on 28 April 2016 & maturing on 28 April 2021 (10 non-call 5). | 2,641 |
| RM2.0 billion 4.10% Subordinated Notes due in 2021 | 15 August 2011 | Callable on 15 August 2016 & maturing on 16 August 2021 (10 non-call 5). | 1,999 |
| RM750 million 3.97% Subordinated Notes due in 2021 | 28 December 2011 | Callable on 28 December 2016 & maturing on 28 December 2021 (10 non-call 5). | 750 |
| RM250 million 4.12% Subordinated Notes due in 2023 | 28 December 2011 | Callable on 28 December 2018 & maturing on 28 December 2023 (12 non-call 7). | 250 |
| RM2.1 billion 4.25% Subordinated Notes due in 2024 | 10 May 2012 | Callable on 10 May 2019 & maturing on 10 May 2024 (12 non-call 7). | 2,100 |
| USD800 million 3.25% Subordinated Notes due in 2022 | 20 September 2012 | Callable on 20 September 2017 & maturing on 20 September 2022 (10 non-call 5). | 2,796 |
| RM1.6 billion 4.9% Basel 3-compliant Subordinated Notes due in 2024 | 29 January 2014 | Callable on 29 January 2019 & maturing on 29 January 2024 (10 non-call 5). | 1,600 |
| RM1.5 billion 4.75% Basel 3-compliant Subordinated Sukuk Murabahah due 2024 | 7 April 2014 | Callable on 5 April 2019 & maturing on 5 April 2024 (10 non-call 5). | 1,500 |

Basel III

The Group is required to comply with BNM's Capital Adequacy Framework (Capital Components) for the determination of capital and computation of capital adequacy ratios which are subject to a series of transitional arrangements, commencing 1 January 2013 and to be fully effective by 2019. Under BNM's capital adequacy framework, which came into effect on 1 January 2013, banking institutions are required to maintain the regulatory minimum Common Equity Tier 1 ("CET1"), Tier 1 and Total Capital Ratio of 3.5%, 4.5% and 8.0% respectively at the bank and the group levels. These will increase progressively over time to 4.5%, 6.0% and 8.0% respectively by 1 January 2015. The regulatory minimum capital requirements will also include the introduction of Capital Conservation Buffer of 2.5% which will be phase-in from 1 January 2016 to 1 January 2019.

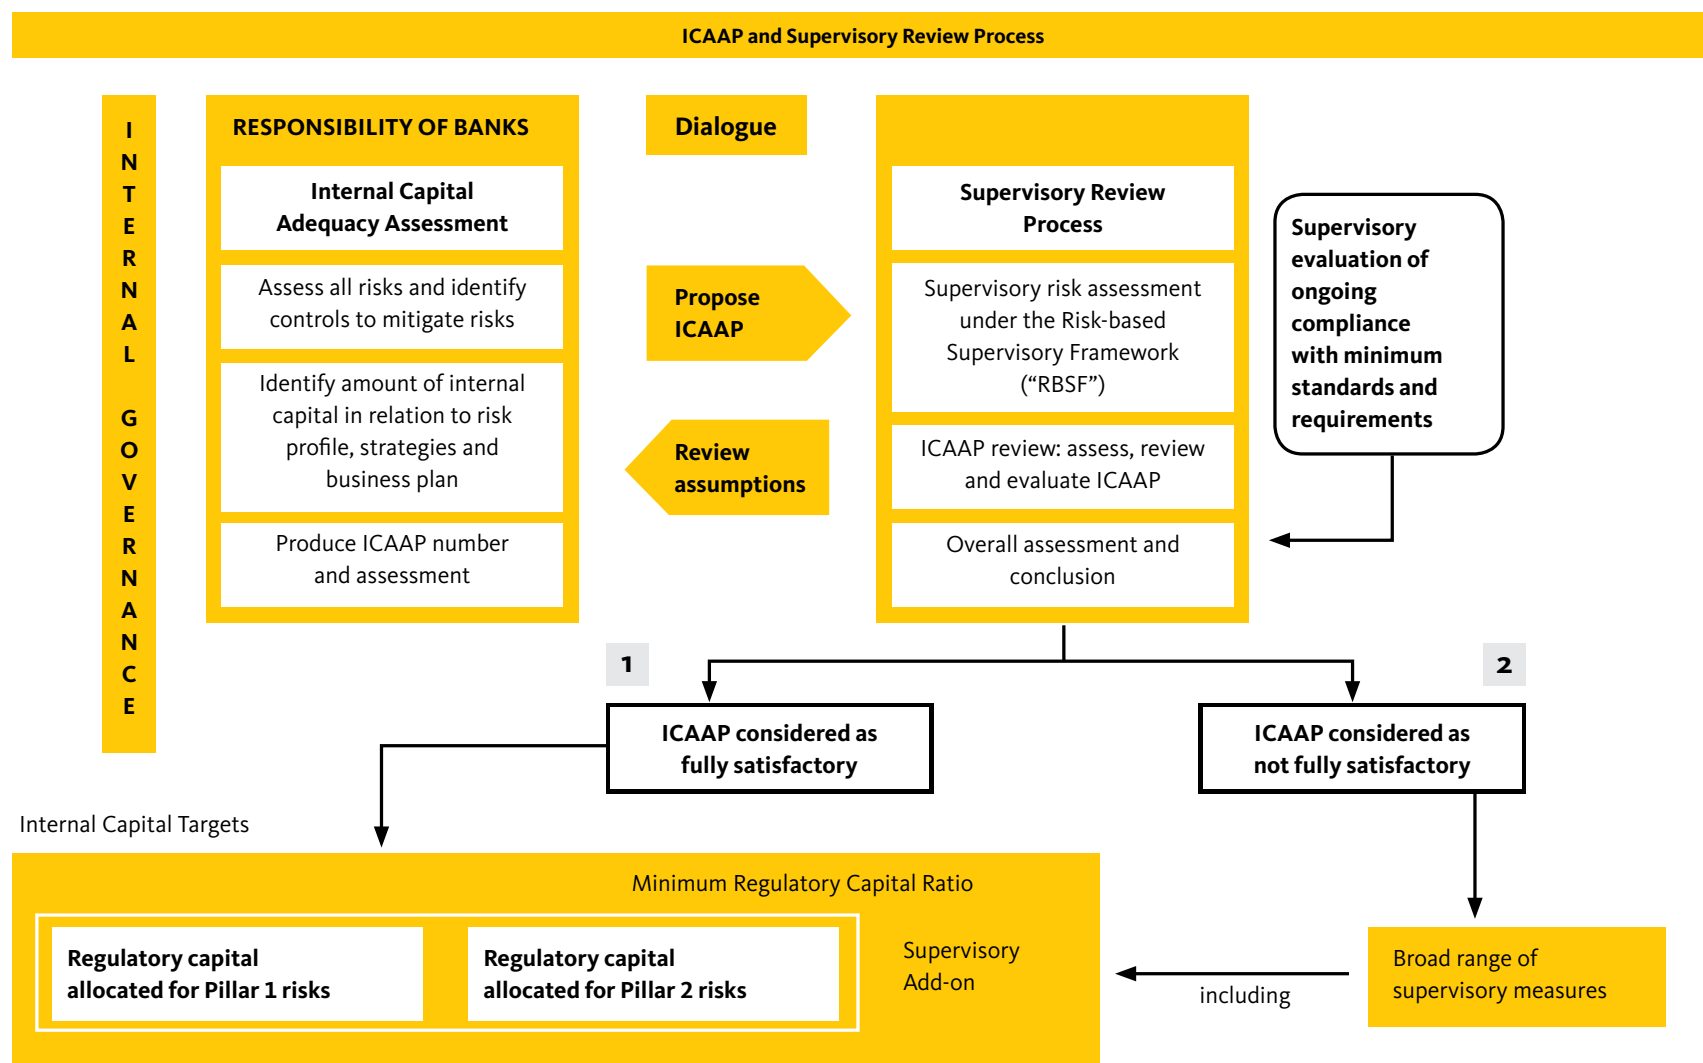

In addition to the Capital Conservation Buffer, BNM may also introduce Countercyclical Capital Buffer ranging between 0% - 2.5% of total risk-weighted assets ("RWA") and additional loss absorbency requirements for systematically important banking institutions. The Countercyclical Capital Buffer will be determined as the weighted-average of the prevailing countercyclical capital buffer requirements applied in the jurisdictions in which the banking institution has credit exposures and other capital buffers as deemed appropriate having regard to the specific risk profile of the banking institution. The additional loss absorbency requirements for systematically important banking institutions will be assessed at a later stage by BNM on the need for large banking institutions to operate at higher levels of capital.

The Group is poised to maintain healthy capital ratios above the minimum capital requirement under the BNM's Capital Adequacy Framework (Capital Components). With the continued conservation of capital from the DRP coupled with active capital management across the Group, CET1 capital ratio will be maintained comfortably well ahead of the minimum level of 7% (inclusive of capital conservation buffer) as required by 2019.

INTERNAL CAPITAL ADEQUACY ASSESSMENT PROCESS ("ICAAP")

The Group's overall capital adequacy in relation to its risk profile is assessed through a process articulated in the Maybank Group ICAAP Policy. The ICAAP Policy is designed to ensure that adequate levels of capital, including capital buffers, are held to support the Group's current and projected demand for capital under existing and stressed conditions. Regular ICAAP reports are submitted to the Group Executive Risk Committee ("ERC") and the Board Risk Management Committee ("RMC") for comprehensive review of all material risks faced by the Group and assessment of the adequacy of capital to support them. The Group's ICAAP closely integrates the risk and capital planning and management processes.

In March 2013, the Group submitted a Board-approved ICAAP document to BNM to meet the requirements set by the regulator. The document includes an overview of ICAAP, current and projected financial and capital position, ICAAP governance, risk assessment models and processes, risk appetite and capital management, stress testing and capital planning and use of ICAAP. Annually, the Group submits an update of the material changes made to the document to BNM.

Supplementing the ICAAP reports is the Group Capital Plan, which is updated on an annual basis, where the internal capital targets are set and reviewed, among others as part of sound capital management.

Comprehensive Risk Assessment under ICAAP Policy

Under the Group’s ICAAP methodology, the following risk types are identified and measured:

- Risks captured under Pillar 1 (credit risk, market risk and operational risk);
- Risks not fully captured under Pillar 1 (e.g. model risk);
- Risks not specifically addressed under Pillar 1 (e.g. interest rate risk/rate of return risk in the banking book, liquidity risk, business and strategic risk, reputational risk, credit concentration risk, IT risks (e.g. security risk and cyber risk), regulatory risk, country risk, systemic risk, compliance risk, collateral risk, capital risk, profitability risk and shariah non-compliance risk, amongst others); and
- External factors, including changes in economic environment, regulations and accounting rules.

A key process employed within the Group provides for the identification of material risks that may arise through the introduction of new products and services. Material risks are defined as “risks which would materially impact the financial performance (profitability), capital adequacy, asset quality and/or reputation of the bank should the risk occur”.

In the Maybank Group ICAAP Policy, the Material Risk Assessment Process (“MRAP”) is designed to identify key risks from the Group’s Risk Universe. In 2014, a group-wide survey was carried out as part of a robust risk management approach to identify and prioritise the key risks based on potential impact of the risks on earnings and capital facing the Group. The survey results provided a synthesis of perceptions of current and future market outlook, based on perspectives of the key stakeholders across retail, commercial, investment banking and insurance operations in all our major Group entities. In addition, the outcomes of the survey had assisted us to identify the major risk scenarios over the near term time horizon.

Risks deemed “material” are approved by RMC for periodic reporting to the ERC and RMC via the ICAAP report. For each material risk identified, the Group shall ensure appropriate risk processes are employed to address these key risks, which include regular risk monitoring through Enterprise Risk Dashboard reporting, stress testing, risk mitigation, capital planning and crisis management strategies.

Assessment of Pillar 1 and Pillar 2 Risks

In line with the industry’s best practices, the Group quantifies its risks using methodologies that have been reasonably tested and deemed to be accepted in the industry.

Where risks may not be easily quantified due to the lack of commonly accepted risk measurement techniques, expert judgment is used to determine the size and materiality of risk. The Group’s ICAAP would then focus on the qualitative controls in managing such material non-quantifiable risks. These qualitative measures include the following:

- Adequate governance process;
- Adequate systems, procedures and internal controls;
- Effective risk mitigation strategies; and
- Regular monitoring and reporting.

Capital Management

Regular and Robust Stress Testing

The Group's stress testing programme is embedded within the risk and capital management process of the Group and is a key function of capital planning and business planning processes. The programme serves as a forward-looking risk and capital management tool to understand our risk profile under extreme but plausible conditions. Such conditions may arise from economic, political and environmental factors.

Under Maybank Group Stress Test ("GST") Policy, it considers the potential unfavourable effects of stress scenarios on the Group's profitability, asset quality, RWA, capital adequacy and ability to comply with the risk appetites set.

Specifically, the stress test programme is designed to:

- Highlight the dynamics of stress events and their potential implications on the Group's trading and banking book exposures, liquidity positions and likely reputational impacts;
- Proactively identify key strategies to mitigate the effects of stress events; and
- Produce stress results as inputs into the Group's ICAAP in determining capital adequacy and capital buffers.

There are three types of stress tests conducted across the Group:

- Group stress tests – A Group-wide stress test using a common scenario approved by the RMC and the results are submitted to BNM. It also includes periodic industry-wide stress tests organised by BNM where the scenarios are specified by the Central Bank.
- Localised stress tests – Limited scope stress tests undertaken at portfolio, branch/sector or entity levels based on scenarios relevant at the specific localities.
- Ad-hoc stress tests – Periodic stress tests conducted in response to emerging risk events.

Stress test themes reviewed by the Stress Test Working Group in the past include oil price decline, intensified capital outflows from emerging markets including ASEAN, rising inflation and interest rate hikes in ASEAN, impact of Federal Reserve Quantitative Easing tapering, sovereign rating downgrades, slowing Chinese economy, a repeat of Asian Financial Crisis, US dollar depreciation, pandemic flu, asset price collapse, interest rate hikes, a global double-dip recession scenario, Japan disasters, crude oil price hike, the Eurozone and US debt crises, amongst others.

The Stress Test Working Group, which comprises of business and risk management teams, tables the stress test reports at the Senior Management and Board committees and discusses the results with the regulators on a regular basis.

CAPITAL ADEQUACY RATIOS

On 29 June 2010, the Bank and its subsidiary, MIB received approval from BNM to migrate to IRB Approach for credit risk under Basel II RWCAF from 1 July 2010 onwards. BNM had on 28 November 2012 released the updated "Capital Adequacy Framework (RWA and Capital Components)" for the computation of RWA, capital and capital adequacy ratios for conventional banks and Islamic banks, respectively commencing from 1 January 2013 and subjected to transitional arrangements as set out in the table below:

| Calendar Year | CET1 Capital Ratio | Tier 1 Capital Ratio | Total Capital Ratio |
|---------------|--------------------|----------------------|---------------------|
| 2014 | 4.0% | 5.5% | 8.0% |
| 2015 onwards | 4.5% | 6.0% | 8.0% |

Table 1 depicts the Capital Adequacy Ratios and Capital Structure for the Group, the Bank and MIB, respectively.

Table 1: Capital Adequacy Ratios for Maybank Group, Maybank and MIB as at 31 December 2014

| Capital Adequacy Ratios | Group | Maybank | MIB |
|--|---------|---------|---------|
| Before deducting electable portion dividend to be re-invested: | | | |
| CET1 Capital Ratio | 11.747% | 16.275% | 12.003% |
| Tier 1 Capital Ratio | 13.539% | 16.275% | 12.003% |
| Total Capital Ratio* | 16.235% | 16.275% | 16.088% |

| | Group (RM'000) | Maybank (RM'000) | MIB (RM'000) |
|--------------------------------|----------------|------------------|--------------|
| Total Capital | 57,299,825 | 41,307,010 | 9,185,214 |
| Credit RWA | 306,207,324 | 224,446,503 | 56,304,995 |
| Credit RWA absorbed by Maybank | - | - | (3,930,555) |
| Market RWA | 14,168,153 | 9,452,839 | 573,921 |
| Operational RWA | 32,568,977 | 19,911,571 | 4,145,952 |
| Total RWA | 352,944,454 | 253,810,913 | 57,094,313 |

Note *: Total Capital Ratio is computed by dividing total capital over total RWA.

The Total Capital Ratio of the Group as at 31 December 2014 stood at 16.235%, which is an increase from the previous financial year's ratio of 15.664%.

The Total Capital Ratio at 16.235% against the Group's total RWA is well above the minimum regulatory requirement set out by BNM and a testament of the Group's resilience and strength in meeting its obligations. Similarly, at entity level, the Bank's Total Capital Ratio remains strong at 16.275% and MIB registered a healthy ratio of 16.088%.

Table 2 discloses Capital Adequacy under IRB Approach for the Group, the Bank and MIB, respectively.

Tables 3 through 5 present the minimum regulatory capital requirement for credit risk under the IRB Approach for the Group, the Bank and MIB, respectively. These tables tabulate the total RWA under the various exposure classes under the IRB Approach and apply the minimum capital requirement at 8% as set by BNM to ascertain the minimum capital required for each of the portfolios assessed.

Please refer to Note 57 in the Financial Statements for detailed discussion on the Capital Adequacy Ratios.

Risk Management

INTRODUCTION

Risk is an inherent component in all aspects of the Group's businesses. The management of risk has evolved into an important driver for strategic decisions in support of the Group's business objectives, balancing the appropriate level of risk taken proportionate to the desired level of reward, while maintaining sound financial position and capital of the Group. In 2014, Group Risk continued to build on our Risk Transformation journey to further integrate with the business and work more effectively to create greater value across the Group. The Group's approach to the management of risk involves establishment and reinforcement of Integrated Risk Management Framework and strategies within all business units as the core foundation in driving robust and dynamic risk management practices.

INTEGRATED RISK MANAGEMENT FRAMEWORK

The Group has established an Integrated Risk Management Framework which provides a concise and holistic approach to the management of all risk elements across the Group. The overall structure of the Framework is based on six key building blocks which serve as the core foundation in driving risk management processes. The building blocks are as follows:

The broad overarching Framework is underpinned by seven core principles to ensure the integration of risk strategies, governance, culture, processes and infrastructure within the Group's regional footprint. The seven key principles are broadly described below:

Principles of Risk Management

1. Establishment of a risk appetite and strategy which articulates the nature, type and level of risk the Group is willing to assume and must be approved by the Board.
2. Capital management driven by the Group's strategic objectives and accounts for the relevant regulatory, economic and commercial environments in which the Group operates.
3. Proper governance and oversight through a clear, effective and robust Group governance structure with well-defined, transparent and consistent lines of responsibility established within the Group.
4. Promote a strong risk culture which supports and provides appropriate standards and incentives for professional and responsible behaviour.
5. Implementation of risk frameworks and policies to ensure that risk management practices and processes are effective at all levels.
6. Execution of sound risk management processes to actively identify, measure, control, monitor and report risks inherent in all products and activities undertaken by the Group.
7. Ensure sufficient resources and systems infrastructure are in place to enable effective risk management.

RISK APPETITE AND STRATEGY

The Group's risk appetite is a critical component of the Integrated Risk Management Framework and is driven by both top-down Board leadership and bottom-up involvement of management at all levels. The Group's risk appetite enables the Board and Senior Management to communicate, understand and assess the types and levels of risk that the Group is willing to accept in the pursuit of its business objectives.

The Group's development of its risk appetite is integrated into the Group's annual strategy and business planning process and is adaptable to changing business and market conditions. The Group's risk appetite balances the needs of all stakeholders by acting both as a governor of risk and a driver of future and current business activities.

The articulation of the risk appetite is done through a set of risk appetite statements which includes a comprehensive view of all materials risks to the Group.

RISK GOVERNANCE AND OVERSIGHT

In accordance with the Group's structure and regional aspirations, Group Risk continues to enhance its integrated risk management approach towards effective management of enterprise-wide risks. The Group's risk governance model provides a transparent and effective governance structure which promotes active involvement from the Board and Senior Management in the risk management process to ensure a uniform view of risk across the Group.

The governance model aims to place accountability and ownership whilst facilitating an appropriate level of independence and segregation of duties. The structure is premised on the three lines of defence and defines the lines of authority, roles and responsibilities to efficiently manage risk across the Group.

The chart illustrating the risk governance structure of the Group can be found on page 184 of the Risk Management and Compliance write-up under the Corporate Governance and Accountability section in the Annual Report.

INDEPENDENT GROUP RISK FUNCTION

The Group Risk function, headed by the Group Chief Risk Officer ("GCRO"), provides value to the Group through its independent and integrated assessment of compliance, credit management, market, operational, liquidity, credit and enterprise risk management.

Group Risk also plays a distinct role in the following key functions:

- Supporting the Group's regional expansion and businesses in the achievement of strategic objectives;
- Continuing as a strategic partner to the business in budget planning and risk appetite implementation;
- Providing authority limits for both central and regional approvals, controls, risk systems and architecture leadership, and enterprise risk reporting to Management;
- Continuing development of risk functions across the regions that the Group has operations in and embedding the Group's risk culture; and
- Acting as a strategic partner to the business in addressing external stakeholders including regulators and analysts pertaining to risk issues.

In addition to day-to-day operations, Group Risk also engages fully with business development activities such as new product sign-offs and approvals, post-implementation reviews and due diligence exercises.

Credit Risk

Credit risk is the risk of loss of principal or income arising from the failure of an obligor or counterparty to perform their contractual obligations in accordance with agreed terms. These obligations stem primarily from lending, underwriting, trading and investment activities from both on- and off-balance sheet transactions.

REGULATORY CAPITAL REQUIREMENT

Amongst the various risk types the Group engages in, credit risk continues to attract the largest regulatory capital requirement.

MANAGEMENT OF CREDIT RISK

Corporate and institutional credit risks are assessed by business units, and evaluated and approved by an independent party within the Group, where each customer is assigned a credit rating based on the assessment of relevant qualitative and quantitative factors including the customer's financial position, future cashflows, types of facilities and securities offered.

Reviews are conducted at least once a year with updated information on the customer's financial position, market position, industry and economic conditions, and conduct of account. Corrective actions are taken when the accounts show signs of credit deterioration.

The Group manages its credit risk using a two-pronged approach:

- Managing the Credit Risk; and
- Managing the Credit Portfolio.

Retail credit exposures are managed on a programmed basis. Credit programmes are assessed jointly between credit risk and business units. Reviews on credit programmes are conducted at least once a year to assess the performance of the portfolios.

Group-wide hierarchy of credit approving authorities and committee structures are in place to ensure appropriate underwriting standards are enforced consistently throughout the Group.

Management of Concentration Risk

Concentration risk can materialise from excessive exposures to single counterparty and persons connected to it, a particular instrument or a particular market segment/sector.

In managing large exposures and to avoid undue concentration of credit risk in its loans and financing portfolio, the Group has emplaced, amongst others, limits and related lending guidelines for:

- Countries;
- Business Segments;
- Economic Sectors;
- Single Customer Groups;
- Banks & Non-Bank Financial Institutions;
- Counterparties; and
- Collaterals.

Asset Quality Management

The Group has dedicated teams to effectively manage vulnerable corporate, institutional and consumer credits of the Group. Special attention is given to these vulnerable credits where more frequent and intensive reviews are performed in order to accelerate remedial actions.

The Group's credit approving process encompasses pre-approval evaluation, approval and post-approval evaluation. Group Risk is responsible for developing, enhancing and communicating effective and consistent credit risk management policies, tools and methodologies across the Group, to ensure appropriate standards are in place to identify, measure, control, monitor and report such risks.

In view that the authority limits are directly related to the risk levels of the borrower and transaction, a Risk-Based Authority Limit structure is implemented based on the Expected Loss principles and internally developed Credit Risk Rating System ("CRRS").

Tables 6 through 8 present the geographic analysis and distribution of credit exposures under both the Standardised Approach and IRB Approach for the Group, the Bank and MIB respectively.

Tables 9 through 11 present the Disclosure on credit risk exposures by the various industries for the Group, the Bank and MIB, respectively.

Tables 12 through 14 present the credit risk exposures by maturity periods of one year or less, one to five years and over five years for the Group, the Bank and MIB, respectively.

CREDIT IMPAIRMENT POLICY AND CLASSIFICATION AND IMPAIRMENT PROVISIONS FOR LOANS, ADVANCES AND FINANCING

Refer to Note 2.3 and Note 2.4 of the financial statements for the accounting policies and accounting estimates on impairment assessment of loans, advances and financing. The Disclosures on reconciliation of impairment/allowance can be found in Note 51(c)(10) of the financial statements. This credit impairment policy shall be applicable to the Group.

Table 15a, 15b and 15c provide details on impaired loans, advances and financing for Maybank Group, Maybank and MIB.

BASEL II REQUIREMENTS

The Group has obtained BNM's approval to use internal credit models for evaluating the majority of its credit risk exposures. For the RWA computation of Corporate and Bank portfolios, the Group adopts the FIRB Approach, which relies on its own internal PD estimates and applies supervisory estimates of LGD and EAD, while the Retail and Retail-Small and Medium Enterprises ("RSME") portfolios adopt the AIRB Approach which relies mostly on internal estimates of PD, LGD, and EAD.

In line with Basel II requirements for capital adequacy purposes, the parameters are calibrated to a full economic cycle experience to reflect the long-run, cycle-neutral estimations:

- Probability of Default ("PD")**

PD represents the probability of a borrower defaulting within the next 12 months' time horizon. The first level estimation is based on portfolio's Observed Default Rate of the more recent years' data. The average long-run default experience covering crisis periods including the major Asian crisis in 1997 is reflected through Central Tendency calibration for the Basel estimated PD.

- Loss Given Default ("LGD")**

LGD measures the economic loss the bank would incur in the event of borrower defaulting. Among others, it takes into account post default pathways, cure probability, direct and indirect costs associated with the workout, recoveries from borrower and collateral liquidation.

For Basel II purposes, LGD is calibrated to loss experiences during periods of economic crisis whereby for most portfolios, the estimated loss during crisis years is expected to be higher than that during normal economy period. The crisis period LGD, known as Downturn LGD, is used as an input for RWA calculation.

- Exposure at Default ("EAD")**

EAD is linked to facility risk, namely the expected gross exposure of a facility should a borrower default. The 'race-to-default' is captured by Credit Conversion Factor ("CCF"), which should reflect the expected increase in exposure amount due to additional drawdown by borrower facing financial difficulties leading to default.

Internal experience during a crisis period is being taken into consideration for EAD estimations and where there is a material difference in EAD during downturn period as compared to normal period, Downturn EAD would be used in RWA computation.

Application of Internal Ratings

Since the development and implementation of the Group's internal rating models, the Group is using internal ratings in the following areas:

- **Credit approval** – The level of approval for a loan application is determined based on the internal rating of the borrower;
- **Policy** – Policy is formulated to fast track loan application processing for low risk borrowers. Additionally for the Review Policy, borrowers with higher risk grades are subjected to additional semi-annual reviews to ensure close monitoring and tracking of these borrowers;
- **Reporting** – Regular reporting on the risk rating portfolio distribution and sectoral outlook vs. borrower risk profile within sectors are produced and monitored by the Group;
- **Capital Management** – The Group has in place risk-based capital management ICAAP programme and uses regulatory capital charge for decision making and budgeting process;
- **Risk Governance** – Internal ratings are used for various risk governance activities such as setting of group exposure limits under the Maybank Group Sectoral (“MGS”) Policy, threshold limit for Credit Review Committee (“CRC”) review, sectoral limit policy, sampling methodology for credit review and policy breach policy; and
- **Pricing decision** – Internal ratings are being used as basis for pricing the credit facilities.

NON-RETAIL PORTFOLIO

Non-retail exposures comprise of Corporate, Commercial, Small Business, Real Estate, Non-Bank Financial Institutions (“NBFIs”) and Specialised Lending portfolios, while, for bank exposures, they include Commercial, Investment, Savings and Co-operative banks apart from the Development Financial institutions (“DFIs”) portfolios.

The general approach adopted by the Group can be categorised into the following three categories:

- **Default History Based (“Good-Bad” analysis)**
This approach is adopted when the Group has sufficient default data. Under this approach, statistical method is employed to determine the likelihood of default on existing exposures. Scorecards under the Group's CRRS models were developed using this approach;
- **Shadow Rating Approach**
This approach is usually applied when there are few or no default data available or also known as ‘low default portfolio’ category. The objective of this methodology is to replicate the risk ranking applied by external rating agency. The Group's Bank Risk Rating Scorecards (“BRRS”) were developed using this approach; and
- **Experts Judgment Approach**
The default experience for some exposures, for example Holding Companies and Specialised Lending is insufficient for the Group to perform the required analyses to develop a robust statistical model. Another approach known as experts' judgment approach is therefore opted to develop the scorecard. Under this approach, the qualitative, quantitative and factor weights are determined by the Group's credit experts.

Credit Risk Models and Tools

Credit Risk Rating System (“CRRS”)

The Borrower Risk Rating (“BRR”), which is a component of CRRS, is a borrower-specific rating element that provides an estimate on the likelihood of the borrower going into default over the next twelve months. The BRR estimates the borrower risk and is independent of the type/nature of facilities and collaterals offered.

The BRR is generated from a structured rating process which consists of quantitative and qualitative factors. From the raw rating, the rating is then capped at policy rating, if any. The Group Support Matrix is then used to objectively measure the impact of the group relationship on the raw rating of the borrower, where relevant. In view that the risk rating is based on historical financial data, judgmental override is allowed on the BRR by the relevant parties. Rating judgmental override is permissible but subject to a maximum 5 notches upgrade to be decided by rating approval party and unlimited downgrade (subject to the worst performing grade of 21) that can be performed by the business units.

For reference, each grade can be mapped to external agency ratings, like Standard & Poor's (“S&P”), as illustrated in the following table that contains mapping of internal rating grades of corporate borrowers with S&P's and Rating Agency of Malaysia's (“RAM”) rating grades.

| Risk Category | Rating Grade | S&P equivalent | RAM Equivalent |
|---------------|--------------|----------------|----------------|
| Very Low | 1-5 | AAA to A- | AAA to AA |
| Low | 6-10 | A- to BB+ | AA to A |
| Medium | 11-15 | BB+ to B+ | A to BB |
| High | 16-21 | B+ to CCC | BB to C |

Credit Risk

International Risk Rating Scorecard ("IRRS")

IRRS is used to rate Corporate and Commercial borrowers of the Group's branches and subsidiaries, incorporated and/or operating outside Malaysia and Singapore (except Bank Internasional Indonesia, which has its own scorecards). Different versions of IRRS cater to developed and emerging markets.

Bank Risk Rating Scorecard ("BRRS")

The Group has developed BRRS to risk grade the Group's bank counterparties.

As the Group's bank portfolio fall under low default portfolio category, normal statistical modeling such as Good-Bad analysis could not be applied; hence, a shadow-bond rating technique is used in developing the scorecards. Generally, the objective of such methodology is to replicate the risk ranking implied by the external rating agency. Under this technique, a set of input/independent variables are regressed against an output/dependent variable to produce estimates to predict the output variable. The input variables are the financial ratios and qualitative factors while the output variable is the external rating.

A different masterscale known as Global Masterscale is used to map the PD generated from BRRS to the scale. There are altogether 17 performing grades in the BRRS Masterscale with Grade 1 being the best performing grade and Grade 17 being the worst performing grade. For defaulted borrowers, the applicable grade is Grade 18. The BRRS Global Masterscale and its mapping to S&P's and RAM's ratings are as shown below:

| Rating Grade | S&P equivalent | RAM Equivalent |
|--------------|----------------|----------------|
| 1-4 | AAA to AA- | AAA |
| 5-8 | A+ to BBB+ | AAA to AA |
| 9-12 | BBB to BB | AA to BBB |
| 13-17 | BB- to CCC | BBB to C |

Project Finance Scorecard (Specialised Lending)

Project Finance is one of the five sub-classes (other sub-classes are object finance, commodities finance, income-producing real estate and high volatility commercial real estate) of Specialised Lending and forms part of the corporate asset class under the IRB Approach. The Group has developed Project Finance scorecard, based on the Supervisory Slotting Criteria Approach, to rate its project finance exposures. The scorecard is designed to generate eight internal grades which are mapped to the four BNM slotting grades to derive the respective risk-weights for RWA computation.

Tables 16 through 19 show the exposures by PD bands for Non-Retail Portfolios of the Group, the Bank and MIB, respectively. A summary of the PD distribution of these exposures are also provided.

Table 16: Disclosure on Exposures by PD Band (IRB Approach) for Non-Retail for Maybank Group

RETAIL PORTFOLIO

The Group's Retail portfolios are under the AIRB Approach. This approach calls for a more extensive reliance on the Bank's own internal experience (based on the historical data) while estimating all the three main components of RWA calculation namely PD, EAD and LGD are based on its own historical data.

Separate PD, EAD and LGD statistical models are developed at the respective retail portfolio level, with each model covering borrowers with fundamentally similar risk profiles in a portfolio. The estimates derived from such models are used as input for RWA calculations.

AIRB coverage for Retail portfolios

Currently the following material retail portfolios are under Retail IRB:

| Basel II Retail Sub-portfolio Category | Maybank Retail Portfolios |
|---|--|

| Other Retail | <ul style="list-style-type: none"> Auto Loan (Malaysia & Singapore) Unit Trust Loan (Malaysia) Commercial Property Loan (Malaysia) |

Retail Small and Medium Enterprises ("RSME") portfolio:

Legal entities that carry a maximum exposure of RM5 million and are eligible for treatment as 'Retail' exposure, are rated under the RSME scorecard. Similar to Retail portfolios, separate PD, EAD and LGD statistical models are developed at the portfolio level; each model covering borrowers with fundamentally similar risk profiles in a portfolio. The estimations derived from the models are used as input for RWA calculations.

Retail and RSME Masterscale

A retail and RSME masterscale with mapping to PD is used to promote a common risk language across the Group's retail portfolios as shown in the table below:

| Rating Grade | PD range |
|--------------|-----------------|
| R1 to R2 | 0.25% to 0.44% |
| R3 to R5 | 0.79% to 2.50% |
| R6 to R8 | 4.45% to 14.06% |
| R9 to R11 | 25% to 79.06% |

Other Risk Measurement for Retail Portfolio

Application and behaviour scorecards are part of the Basel II Retail IRB models and are used to estimate the probability that the customer will fail to make full and timely repayment of credit obligations. Business decisions and strategies are then built around the scores.

Application Scorecard

With application scorecards, at the point of time when an applicant applies for the credit facility, each applicant is assigned a score that corresponds to the probability of future repayment. Scores are designed to rank-order the riskiness of the applicants, whereby higher score represents lower risk.

With proper utilisation, the application scorecards benefit both risk management and business acquisition process through:

- Consistency in credit risk assessment;
- Improved turnaround time;
- Better management control of the portfolios; and
- Improved revenue and profit through the identification and acceptance of additional business.

Currently, application scorecards are deployed for all the major retail portfolios in Malaysia, Singapore and Indonesia.

Behaviour Scorecard

The product nature of Credit Card is subject to variable utilisation and payment patterns; a customer is able to utilise any portion of the granted limit and pay any amount of the outstanding balance. Due to the volatile nature of the product, a more robust risk measurement tool is required to manage the portfolio.

Behavioural Scorecards are therefore developed for Credit Card portfolios both in Malaysia and Singapore. Behaviour score measures the borrower's riskiness based on transaction information and behavioural pattern of customer's utilisation and payment of the credit card. The scores are generated on a monthly basis and amongst others, are being used for the following purposes:

- Collection Strategies;
- Limit Management; and
- Transaction Authorisation.

With the use of Behaviour score, Credit Card portfolio is able to closely manage the accounts to reduce defaulters, increase collection and ultimately increase the profitability.

Tables 20 through 22 show the exposures by PD bands for Retail Portfolios of the Group, the Bank and MIB, respectively. A summary of the PD distribution of these exposures are also provided.

Credit Risk

INDEPENDENT MODEL VALIDATION

The use of models will give rise to model risk, which is defined as risk of a model not performing the tasks or capture the risks it was designed to. Any models not performing in line with the expectations may potentially result in financial loss, incorrect business decisions, misstatement of external financial disclosures, or damage to the reputation.

To manage this risk, model validation is performed to assess whether the model is performing according to expectations. The Model Validation team at the Group is separate from the model development team and model users, with the objective to provide the required independence in performing the function. In line with regulatory requirements, all credit IRB models used for capital calculation are subject to independent validation by the Model Validation team. Additionally, as part of best practices, other significant models such as market risk models used for valuation and pricing are also subject to validation.

Model validation findings are presented to the technical committee known as Model Validation and Acceptance Committee ("MVAC") for deliberation and subsequently to ERC for endorsement and RMC for approval. Similarly any new models and model revision are presented and deliberated at MVAC prior to being tabled for approval.

Scope and Frequency of Model Validation

Validation techniques include both quantitative and qualitative analysis to test the appropriateness and robustness of the IRB models used. Validation of credit risk models covers activities that evaluates and examines the rating system and the estimation process and methods for deriving the risk components, namely PD, LGD and EAD. This involves validating whether the risk models are capable of discriminating ('discriminatory or rank ordering power') and giving consistent and predictive estimates ('calibration') of the relevant risk parameters.

Model validation is conducted at two stages:

- Pre-implementation model validation which is conducted prior to launch of the model; and
- Post-implementation validation which must be carried out at least annually from the model implementation date or from the previous validation date for IRB models. Where necessary, more frequent validations will be carried out.

As part of governance, validation processes are also subject to an independent review by the Internal Auditors, which is performed on a regular basis.

CREDIT RISK MITIGATION

The Group takes a holistic approach when granting credit facilities and do so very much based on the repayment capacity of the borrower, rather than placing primary dependency on the credit risk mitigation. As a fundamental credit principle, the Group generally does not grant facilities solely on the basis of collaterals provided. Credit facilities are granted based on the credit standing of the borrower, source of repayment and debt servicing ability.

Depending on a customer's credit standing and the type of product, facilities may be provided on an unsecured basis. Nevertheless, collateral is taken whenever possible to mitigate the credit risk assumed. The Group's general policy is to promote the use of credit risk mitigation, justified by commercial prudence and good practice as well as capital efficiency. The value of collateral taken is also monitored periodically. The frequency of valuation depends on the type, liquidity and volatility of the collateral value. The main types of collateral taken by the Group include cash, marketable securities, real estate, equipment, inventory and trade receivables. For IRB purposes, personal guarantees are not recognised as an eligible credit risk protection.

Corporate guarantees are often obtained when the borrower's credit worthiness is not sufficient to accommodate an extension of credit. To recognise the effects of guarantees under the FIRB Approach, the Group adopts the PD substitution approach whereby an exposure guaranteed by an eligible guarantor will utilise the PD of the guarantor in the computation of its capital requirement.

As a general rule-of-thumb, the following eligibility criteria must be met before collateral can be accepted for IRB purposes:

- **Legal certainty** - The documentation must be legally binding and enforceable in all relevant jurisdictions;
- **Material positive correlation** - The value of the collateral must not be significantly affected by the deterioration of the borrower's credit worthiness; and
- **Third-party custodian** - The collateral that is held by a third party custodian must be segregated from the custodian's own assets.

Tables 23 through 25 show the credit risk mitigation analysis under Standardised Approach for the Group, the Bank and MIB, respectively, whilst Tables 26 through 28 show the credit risk mitigation analysis under the IRB Approach.

CREDIT EXPOSURES SUBJECT TO STANDARDISED APPROACH

The Standardised Approach is applied to portfolios that are classified as permanently exempted from the IRB Approach, and those portfolios that are currently in transition to the IRB Approach.

The Standardised Approach to credit risk measures credit risk pursuant to fixed risk-weights and is the least sophisticated of the capital calculation methodologies. The risk-weights applied under Standardised Approach are prescribed by BNM and is based on the asset class to which the exposure is assigned. For exposures subject to Standardised Approach, approved External Credit Assessment Agencies (“ECAI”) ratings and the prescribed risk-weights based on asset classes are used in the computation of regulatory capital.

The ECAI used by the Group include Fitch Ratings, Moody’s Investor Services, S&P, RAM and Malaysia Rating Corporation (“MARC”). Assessments provided by approved ECAs are mapped to credit quality grades prescribed by the regulator.

Below are the summary tables of the rules governing the assignment of risk-weights under the Standardised Approach and Short-term ratings of Banking Institutions and Corporates:

| Rating Category | S&P | Moody’s | Fitch | RAM | MARC | Rating & Investment Inc |
|-----------------|--------------|--------------|--------------|--------------|--------------|-------------------------|
| 1 | AAA to AA- | Aaa to Aa3 | AAA to AA- | AAA to AA3 | AAA to AA- | AAA to AA- |
| 2 | A+ to A- | A1 to A3 | A+ to A- | A1 to A3 | A+ to A- | A+ to A- |
| 3 | BBB+ to BB- | Baa1 to Ba3 | BBB+ to BB- | BBB1 to BB3 | BBB+ to BB- | BBB+ to BB- |
| 4 | B+ and below | B1 and below | B+ and below | B1 and below | B+ and below | B+ and below |
| 5 | Unrated | | | | | |

| Rating Category | S&P | Moody’s | Fitch | RAM | MARC | Rating & Investment Inc |
|-----------------|---------|---------|---------|-----|----------|-------------------------|
| 1 | A-1 | P-1 | F1+, F1 | P-1 | MARC – 1 | a-1+, a-1 |
| 2 | A-2 | P-2 | F2 | P-2 | MARC – 2 | a-2 |
| 3 | A-3 | P-3 | F3 | P-3 | MARC – 3 | a-3 |
| 4 | Others | Others | B to D | NP | MARC - 4 | b,c |
| 5 | Unrated | | | | | |

Tables 29 through 31 show the disclosure on risk-weights under Standardised Approach for the Group, the Bank and MIB, respectively.

Tables 32 through 34 further show the rated exposures by ECAs for the Group, the Bank and MIB, respectively.

COUNTERPARTY CREDIT RISK

Counterparty credit risk is the risk that the Group's counterparty will default prior to expiration of a transaction involving foreign exchange, interest rate, commodity, equity and derivatives; and will not therefore make the current and future payments required by the contract for treasury related activities both in trading and banking books.

Counterparty Risk Management

Counterparty credit risk originates from the Group's lending business, investment and treasury activities that impacts the Group's trading and banking books associated with dealings in Foreign Exchange, Money Market instruments, Fixed Income Securities, Commodities, Equities and Over-the-Counter ("OTC") derivatives. The primary distinguishing feature of counterparty risk compared to other forms of credit risk is that the value of the underlying contract in the future is uncertain and could be positive or negative depending on the value of all future cash flows.

Limits

Counterparty credit risk exposures are managed via counterparty limits either on a single name basis or counterparty group basis that also adheres to BNM's Single Counterparty Exposure Limits ("SCEL"). The Group actively monitors and manages its exposure to counterparties to protect the Group's statement of financial position ('balance sheet') in the event of counterparty default. Counterparty risk exposures which may be materially affected by market risk events are identified, reviewed and acted upon by management and highlighted to the appropriate risk committees.

Credit Risk Exposure Treatment

For on-balance sheet exposures, the Group employs risk treatments in accordance with BNM and Basel II guidelines. For off-balance sheet exposures, the Group measures the credit risk using Credit Risk Equivalent via the Current Exposure Method. This method calculates the Group's credit risk exposure after considering both the mark-to-market exposures and the appropriate add-on factors for potential future exposures. The add-on factors employed are in accordance with the BNM guideline and Basel II requirements.

Credit Risk Mitigation

The Group adopts credit risk mitigation methods using bilateral netting and collateral netting with counterparties where appropriate, to mitigate counterparty credit risk. The Group typically engages with entities of strong credit quality and a comprehensive approach of limit setting by trade, counterparty and portfolio level to diversify exposures across different counterparties.

Counterparty credit risk exposures are mitigated via master netting arrangements e.g. ISDA Master Agreement with counterparties where appropriate. In the event of a default, all amounts with a single counterparty (derivative assets and liabilities) in a netting eligible jurisdiction are settled on a net basis.

The ISDA Master Agreement is used for documenting OTC derivative transactions and contractually binds both parties to apply close-out netting across all outstanding transactions covered by an agreement if either party defaults or other predetermined events occur. Such master netting agreements allow the Group to perform bilateral netting, whereby the Group is legally able to offset positive and negative contract values with the same counterparty in the event of default. Where possible, the Group endeavours to enter into Credit Support Annex ("CSA") agreements with approved ISDA counterparties. This enables credit mitigation via collateral margining in order to mitigate counterparty credit risk exposures.

Tables 35 through 37 show the off-balance sheet and counterparty credit risk exposures for the Group, the Bank and MIB, respectively.

COUNTRY RISK

Country risk is the risk of investing in a country arising from various political, financial or economic factors, which have the potential to cause the Group's borrowers to default on their obligations to the Group.

The principles and approach to the management of country risk is set out in the Group's Country Limit policy. The limits for strategic countries are set based on country-specific strategic business considerations and approved at RMC.

Market Risk

Market risk is defined as the adverse impact on earnings or capital arising from changes in the level of volatility of market rates or prices such as interest rates/profit rates, foreign exchange rates, commodity prices and equity prices.

Generally, the Group manages the market risk of the Trading and Non-Trading/Banking portfolio activities using a variety of measurement techniques and controls.

TRADED MARKET RISK

Traded market risk arises mainly from proprietary trading, client servicing and market making activities. These activities are held intentionally for short term resale and/or with the intention to benefit from actual or expected price movement or to lock in arbitrage profits.

Trading Book policy and limits are emplaced to govern the overall Trading Book portfolio. The Group adopts various measures to manage its traded market risk. Value-at-Risk ("VaR") measures the potential loss of Trading Book value resulting from market movements over a specified period of time, within a specified probability of occurrence under normal business situation. The VaR model is back tested and subject to periodic independent validation to ensure it meets its intended use.

Risk sensitivity measures are used, such as exposure to a one basis point increase in yield ("PV01") for managing portfolio sensitivity to market rate movement, Greek limits for managing options risk, and stressed profit/loss for adverse impact to trading profit due from stress events. Notional limit such as Net Open Position ("NOP") caps the foreign currency exposures while portfolio limit controls the concentration exposures.

Additionally, the Group adopts measurements to manage credit risk arising from credit trading activities through Jump to Default ("JTD") limits and Credit Spread ("CS") PV01. JTD measures the immediate impact to the value of the portfolio during a credit event e.g. issuer default while CSPV01 measures the value of the portfolio when the credit spread changes by 1 basis point.

Dealers are strictly prohibited from breaching the stop loss limits, VaR limits and transacting any non-permissible instruments/activities as stipulated in the approved policies.

Robust escalation process to designated authorities is established to ensure prompt actions are taken. Monthly reports are escalated and presented to Senior Management/Committee for further deliberation.

NON TRADED MARKET RISK

Non traded market risk is primarily an inherent risk arising from banking book activities. The major risk classes are interest rate risk/rate of return risk in the banking book and foreign exchange risk.

Interest Rate Risk/Rate of Return Risk in the Banking Book

Interest rate risk ("IRR") or rate of return risk ("RoR") in the banking book is defined as risk arising from the changes in market interest rates that adversely impact the Group's financial condition in terms of earnings or economic value, based on the risk profile of the balance sheet. Sources of IRR/RoR include repricing, basis, yield curve and optionality risk. In addition, Islamic operation is exposed to displaced commercial risk.

Accepting IRR/RoR is a normal part of banking and can be an important source of profitability and shareholder value. However, excesses of this risk can be detrimental to the Group's earnings, capital, liquidity and solvency.

Banking book policies and limits are established to measure and manage the non traded market risk. Repricing gap analysis remains one of the building blocks for IRR/RoR assessment for the Group. Earnings-at-Risk ("EaR") and Economic Value-at-Risk ("EVAR") are derived to gauge the maximum tolerance level of the adverse impact of market interest rate towards earnings and capital.

Through ALCO supervision, the lines of businesses are insulated from IRR/RoR through fund transfer pricing whereby the non traded market and liquidity risks are centralised at corporate treasury unit for active risk management and statement of financial position optimisation. The corporate treasury unit reviews the risk exposure regularly and recommends strategies to mitigate any unwarranted risk exposures in accordance with the non traded book policy.

Certain portfolios such as products with non-deterministic characteristics are subjected to periodic statistical modeling to understand the customer/product behavioural patterns in relation to changing rates and business cycles. Regular risk assessment and stress testing are applied to ensure the portfolios can withstand the risk tolerance and adverse rate scenarios.

Tables 38(a) to (b), show the impact of changes in IRR/RoR to earnings and capital for the Group, the Bank and MIB respectively.

Table 38a: Interest Rate Risk/Rate of Return Risk in the Banking Book for Maybank Group, Maybank and Maybank Islamic (Impact on Earnings)

Notes:

All figures are in absolute amount except the total impact is in net aggregate amount (result from after netting off currency/position at different geographical location).

* Inclusive of GBP, HKD, BND, VND, CNY, EUR, PHP, PGK and other Currencies.

** Position as at Dec 2013 has been restated due to the restatement of RPSIA deals for MBB KL and MIB. Besides that, Vostro reported under interbank borrowings for MIB has been reclassified to non-rate sensitive bucket from short-term bucket.

Foreign Exchange Risk in the Banking Book

Foreign exchange ("FX") risk arises from changes in foreign exchange rates or adverse movements/mismatches in currencies.

FX risk exposures can be attributed to structural and non-structural positions. Structural FX positions are primarily net investment in overseas branches, subsidiaries and strategic investments. Generally, the structural FX positions need not be hedged as these investments are by definition "perpetual" and revaluation losses will not materialise if they are not sold. The residual or unhedged FX positions are managed in accordance with the FX risk management policy and limits.

All foreign currency assets in the banking book must be match-funded by the same currency to minimise FX NOP. Besides, the Group implements qualitative controls such as listing of permissible on/offshore currencies, approved products for hedging FX risk, etc.

FX risk is primarily assessed from both earnings and capital perspectives. The ALCO plays an active role in ensuring FX risk is managed within the stipulated limits.

EQUITY EXPOSURES IN BANKING BOOK

The objective of equity exposures is to determine the nature and extent of the Group's exposure to investment risk arising from equity positions and instruments held in its banking book.

- **Publicly Traded**

Holding of equity investments comprises of quoted shares which are traded actively in the stock exchange. All publicly traded equity exposures are stated at fair value.

- **Privately Held**

Privately held equities are unquoted investments whose fair value cannot be reliably measured which are carried at cost less impairment losses, if any.

The Group holds investments in equity securities with the purpose of gaining strategic advantage as well as capital appreciation on sale thereof.

Equity risk is the risk arising from movements in the price of equities, equity indices and equity baskets.

Market Risk

CAPITAL TREATMENT FOR MARKET RISK

At the Group and Global level, the minimum capital requirement for market risk is computed as per BNM's updated guidelines for Capital Adequacy Framework (Basel II – RWA) requirement under Standardised Approach. As for MIB, BNM's updated guidelines for Capital Adequacy Framework for Islamic Bank (RWA), applies. This is imperative as capital serves as a financial buffer to withstand any adverse market risk movements. RWA of interest rate, foreign exchange and options are the primary risk factors experienced in the Group Trading activities. Other RWA such as commodity and equity are generally attributed to business activities from Investment Bank.

Table 39: Market Risk RWA and Minimum Capital Charge at 8%

| Market Risk Categories As at 31.12.2014 | Maybank Group | | Maybank | |
|--|---------------|----------------------------------|---------------|----------------------------------|
| | RWA RM'000 | Capital Requirement RM'000 | RWA RM'000 | Capital Requirement RM'000 |
| Interest Rate | 5,339,072 | 427,126 | 5,059,291 | 404,743 |
| Foreign Exchange ¹ | 5,274,101 | 421,928 | 1,750,684 | 140,055 |
| Equity | 874,720 | 69,978 | - | - |
| Commodity ¹ | - | - | - | - |
| Options | 2,680,260 | 214,421 | 2,642,864 | 211,429 |

| Market Risk Categories As at 31.12.2014 | Maybank Islamic | |
|--|-----------------|----------------------------------|
| | RWA RM'000 | Capital Requirement RM'000 |
| Benchmark Rate | 99,318 | 7,945 |
| Foreign Exchange ¹ | 474,603 | 37,968 |

¹ Commodity and Foreign exchange cover both trading as well as non-trading book.

LIQUIDITY RISK MANAGEMENT

Liquidity risk is defined as the risk of an adverse impact to the firm's financial condition or overall safety and soundness that could arise from its inability (or perceived inability) or unexpected higher cost to meet its obligations.

It is also known as consequential risk, triggered by underlying problems which can be endogenous e.g. credit risk deterioration, rating downgrade, operational risk events or exogenous e.g. market disruption, default in the banking payment system and deterioration of sovereign risk.

Statement of financial position risk measures structurally maintain a diverse and stable funding base as well as achieve an optimal portfolio position. These measures drive the desired targets for loans to deposits ratio, sources of funds through borrowing, wholesale borrowing and swaps markets in order to support the growing assets base regionally. Through these measures, the Group shapes its assets and liabilities profile to achieve its desired statement of financial position state.

The net cash flow mismatch along different time horizons, also known as liquidity gap analysis, provides the Management with a clear picture of the imminent funding needs in the near term as well as the structural statement of financial position for the medium term and long term tenors. The sources of fund providers are reviewed to maintain a wide diversification by currency, provider, product and term, thus minimising excessive funding concentration.

The Group runs liquidity stress scenarios to assess the vulnerability of cash flows under stressed market situations. The Group continuously reviews and maintains unencumbered high quality liquid assets that can be easily sold or pledged as readily available sources of funds for immediate cash to determine the funding capacity to withstand stressed situation.

The Group is in the advanced stage of preparation to meet the requirement of the Liquidity Coverage Ratio ("LCR") Guideline issued by BNM. The minimum requirement of 60% of LCR is to be met by 1 June 2015 with gradual increase to 100% by 1 January 2019. Additionally, the Group is in the early stage of preparation for the Net Stable Funding Ratio ("NSFR") which will be effective from 1 January 2018.

Operational Risk

Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people, systems or from external events. This definition includes legal risk, but excludes strategic and reputational risk.

MANAGEMENT OF OPERATIONAL RISK

Maybank Group Operational Risk Policy (“Policy”) encompasses the operational risk management strategy and governance structure. The Policy also includes the operational risk management tools and methodologies to identify, assess and measure, control, monitor and report operational risks in a structured and consistent manner.

Operational Risk Officers (“OROs”) are appointed within various Strategic Business Units (“SBU”) of the Group and are primarily responsible to manage the risk exposures inherent in its business activities.

Business Risks, a dedicated risk management function, are established within key SBUs of the Group to drive the implementation of the operational risk management policies across the business operations. The Business Risks also maintain an oversight role over SBUs by analysing and reporting operational risk exposures of SBUs in a timely manner to stakeholders and inculcating risk awareness and culture across the Group.

OPERATIONAL RISK MANAGEMENT METHODOLOGY AND TOOLS

Operational Risk methodology and tools have been implemented to effectively identify, assess and measure, control, report and monitor operational risk exposures on a timely basis to facilitate informed decision making and enhance the operational risk management process.

Operational Risk Identification and Assessment

- Risk identification is the recognition of operational risk scenarios that may give rise to operational losses. For example, under the Group's product approval programme, all risks inherent in new/enhanced products/services are identified prior to the launch of the product/services, with risk mitigation measures emplaced.
- Risk-profiling and self-assessment exercises are also conducted as part of the operational risk management process.

The above exercises enable SBUs to identify inherent operational risks specific to their environment and assist them in assessing the effectiveness of controls in place.

Operational Risk Measurement and Monitoring

The key methods and tools used to measure and monitor operational risks are as follows:

- **Risk & Control Self-Assessment (“RCSA”)**

RCSA is a process of continual assessment of inherent operational risks and controls to identify control gaps and to develop action plans to close the gaps. It is a risk profiling tool which facilitates effective operational risk management for the Group.

SBUs undertake the RCSA exercise to give due focus in the review of business processes to enhance critical operations and controls. The SBUs level risk profiling exercises are compiled to establish the Maybank Group Risk Profile on a half-yearly basis. The consolidated Risk Profile is presented to the Group Operational Risk Management Committee (“GORMC”) and RMC.

- **Key Risk Indicators (“KRIs”)**

KRIs are developed to provide early warning signals at critical processes of the operating environment for continuous risk assessment. They are established and monitored at the Group, Business and Operating levels.

Amongst the KRIs sources are from periodic RCSA process, Incident Management & Data Collection database, SBUs experiences, internal/external and regulatory audit findings. SBUs are required to develop specific and concrete action plans for KRIs that exceeds the pre-defined threshold. OROs and Business Risks participate in developing and validating KRIs for SBUs.

- **Incident Management & Data Collection (“IMDC”)**

IMDC provides a platform of a structured and systematic process for SBUs to identify and focus attention on operational ‘hotspots’. This facilitates the establishment of a centralised database of consistent and standardised operational risk incident information readily available for analysis of operational lapses to minimise the risk impact of future operational losses.

Operational Risk

OPERATIONAL RISK MITIGATION AND CONTROL

Risk Mitigation tools and techniques are used to minimise risk to an acceptable level and are focused on:

- Timely resumption of business in the event of a disaster/incident; and
- Decreasing the impact on the business, should it occur.

The control tools and techniques to mitigate operational risk are as follows

- **Business Continuity Management (“BCM”)**

BCM acts as a tool that outlines a comprehensive and integrated approach to ensure business continuity and mitigate possible disruptions to the Group’s critical operations and people safety in the event of disruptions and disaster.

- **Outsourcing**

Outsourcing is one of the Group’s operational risk mitigation tools to reduce the risk exposure and to concentrate on the Group’s core business with a view to enhance operational efficiency.

For effective operational risk management, the Group’s outsourcing requirements are designed in accordance with local and international regulatory requirements and leading practices. All outsourced services are subject to rigorous due diligence and risk review.

Continuous review, monitoring and reporting to the GORMC and RMC are carried out to ensure that the integrity and service quality of service providers are not compromised.

- **Anti-Fraud Management**

The Group aims to ensure that the risks arising from fraud are reduced to the lowest possible level and to develop effective fraud management approaches to deal with fraud incidences in a decisive, timely and systematic manner.

The Group’s Anti-Fraud Policy establishes robust and comprehensive anti-fraud programmes and controls for the Group. It serves as the broad principle, strategy and policy for the Group to adopt in relation to fraud management that promotes higher standards of integrity. It also outlines the roles and responsibilities at all levels within the organisation for preventing and responding to fraud.

CAPITAL TREATMENT FOR OPERATIONAL RISK

Operational Risk Capital Charge is calculated using the Basic Indicator Approach (“BIA”) as per BNM’s updated Capital Adequacy Framework (Basel II - RWA).

The Group intends to adopt The Standardised Approach (“TSA”) for Operational Risk Capital Charge Calculation. For this purpose, the Group has mapped its business activities into the eight business lines as prescribed by Basel II and BNM’s updated Capital Adequacy Framework (Basel II - RWA).

Business Continuity Management

BCM is a holistic management process that provides standards for building organisational resilience with the capability for an effective response that safeguards the interests of its key stakeholders, reputation, brand and value-creating activities. This includes identifying potential threats to an organisation, the level of impact to business operations should those threats be realised and implementation of appropriate strategies for business recovery.

The Group, through its recently revised BCM policy and procedures has set the foundation upon which BCM capabilities are designed and built. A clearly defined and documented statement by the Group EXCO and annual attestation by the Board exemplifies the level of importance and value that the Group places on BCM.

As part of its continuous enhancement process, the Group has embarked on digitising its BCM documentation and incident management process via the implementation of the BCM System which has been rolled out to the Group. Maybank is the first bank in Malaysia to implement a fully automated BCM process.

Apart from the regular Crisis Simulation Exercise (“CSE”) for each sector, the Group has completed Business Continuity Plan (“BCP”) Exercises for a total of 16 countries. In 2014, the Group successfully conducted its Enterprise CSE with simultaneous disaster simulations in the Group, Region and Country. The objectives of the exercise were to test the coordination of recovery procedures between Command Centres and Alternate Sites, effectiveness of communication and escalation procedures between all locations and the effectiveness of BCM infrastructures which include BCM systems, multiple Command Centre and Recovery Sites.

The Group’s incident management process follows the above methodology. This is designed to minimise the potential disruption caused by any disaster, crisis or emergencies. During an emergency situation, the main priority is always life safety, then stabilisation of the incident. This is followed by escalation to the appropriate stakeholder for the recovery process.

The Group has in place a formal Contingency Funding Plan (“CFP”) formulated to provide a systematic approach in addressing any potential liquidity or funding disruption affecting its liquidity soundness and financial solvency. The CFP comprises of planned funding strategies, decision making authorities, communication channel and process and courses of action for management to make prompt decisions. The plan is reviewed and tested regularly to ensure its effectiveness and robustness in responding to different liquidity event scenarios. The Group has also successfully conducted CFP awareness session for 15 Countries, aimed at familiarising the participants of the key components of CFP, CFP documentation, developing CFP scenario and getting accustomed to the various roles and responsibilities.

By having a robust BCM in place, the Group is able to respond effectively in a structured manner in the event of any disaster, crisis or emergency, hence ensuring the Group’s business continuity.

Reputational Risk

Reputational risk is the risk that the Group’s reputation is damaged by one or more than one reputation events, as reflected from negative publicity about the Group’s business practices, conduct or financial condition. Such negative publicity, whether true or not, may impair public confidence in the Group, resulting in costly litigation, or lead to a decline in its customer base, business or revenue.

The Group has a sound governance infrastructure and appropriate management processes in place to identify, manage, control, monitor and report its reputational risk. Since the types of reputation events that could damage the Group’s reputation are the consequences of various key drivers, the Group has clear and documented escalation mechanism to respond effectively, hence ensuring business continuity. The Group also emphasises on creating a strong brand value to build good reputation and reputational capital.

Shariah Governance

Shariah principles are the foundation for the practice of Islamic finance through the observance of the tenets, conditions and principles prescribed by Shariah as resolved by the BNM's and the Securities Commission's Shariah Advisory Council ("SAC") and the internal Group Shariah Committee. Comprehensive Shariah compliance infrastructure will ensure stakeholders' confidence in Islamic financial institutions' business activities and operations.

In accordance with BNM's regulatory requirements, the Group established a comprehensive Shariah Governance Framework ("SGF") to ensure effective and efficient oversight by the Board, the Group Shariah Committee, the Management and Business Units on the business activities and operations of Islamic products and services carried out by the Group's Islamic banking businesses.

Underpinning the governance framework is the detailed policies and procedures that includes the required steps to ensure that each transaction executed by the Bank complies with Shariah requirements.

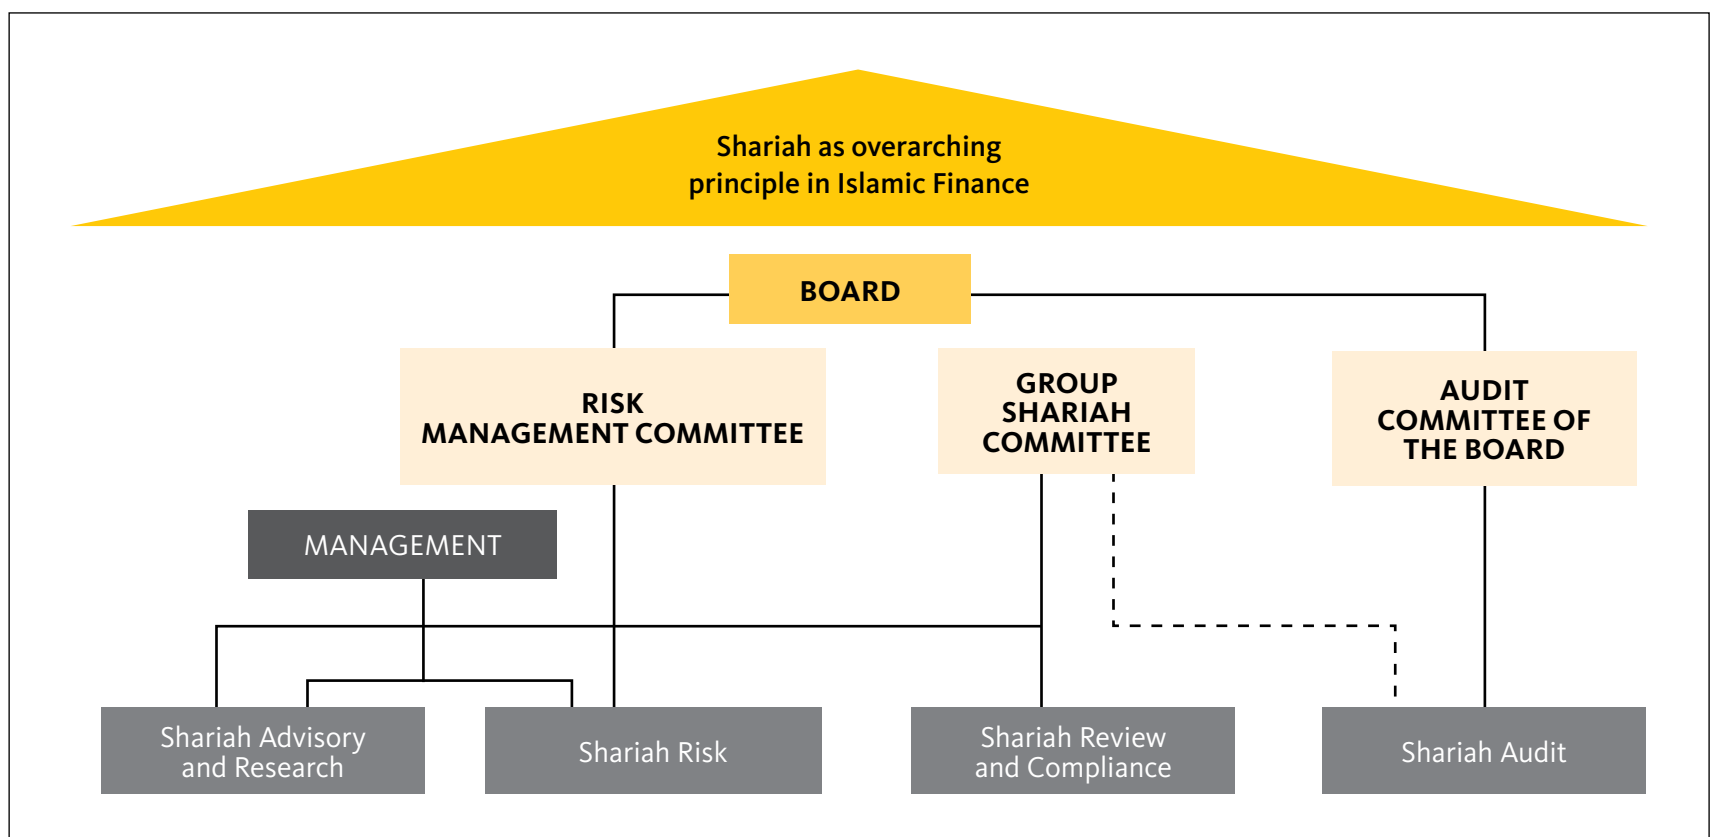

IMPLEMENTATION OF THE SHARIAH GOVERNANCE FRAMEWORK ("SGF")

The implementation of the SGF is through the following approach:

- Broad oversight, accountability and responsibility of the Board, Group Shariah Committee and Board Committees;
- Oversight, guidance and observance by the Executive Committees and the Shariah Working Committees;
- Establishment of functions for Shariah Advisory and Research, Shariah Risk Management, Shariah Review and Compliance and Shariah Audit; and
- Accountability of the management in ensuring day to day compliance to Shariah requirements in its business operations.

The Shariah Governance structure adopted by the Group is as illustrated below:

Shariah Governance Framework for the Group

RECTIFICATION PROCESS OF SHARIAH NON-COMPLIANT INCOME

Shariah non-compliance risk is the possible failure in fulfilling the required Shariah principles.

The control structure for handling and reporting of Shariah non-compliance issues has been employed in the Group. As at 31 December 2014, based on the on-going review of the Group's operational activities, MIB reported a sum of RM27,331.37 that need to be purified due to Shariah non-compliance activities whereby the amount had been fully channelled to charity in 2014.

Forward-Looking Statements

This document could or may contain certain forward-looking statements that are based on current expectations or beliefs, as well as assumptions or anticipation of future events. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements often use words such as anticipate, target, expects, estimate, plan, goal, believe, will, may, would, could, potentially, intends or other words of similar expressions. Undue reliance should not be placed solely on any of such statements because, by their very nature, they are subject to known and unknown risks and uncertainties and can be affected by other factors that could cause actual results, and the Group's plans and objectives, to differ materially from those expressed or implied in the forward-looking statements.

Forward looking statements speak only as of the date they are made, and it should not be assumed that they have been revised or updated in light of changes in the global, political, economic, business, competitive, market and regulatory forces, future exchange and interest rates, changes in tax rates and future business combinations and dispositions.

The Group undertakes no obligation to revise or update any forward looking statements contained in this document, regardless of whether those statements are affected as a result of new information, future events or otherwise.

The things that set us apart.

The things that bring us together.

Let's bridge those gaps by being human.

We may live on the same planet but often we're worlds apart because there are gaps between us. Gaps that keep us from life's best experiences. Gaps between those who have and those who don't. Gaps that are formed because of our differences. At Maybank, we believe we can cross each of these gaps because at the bottom of it all, we're all human. We can work together, learn together and understand each other.

Which is why together we can build bridges. The bridges that can unite people at all times from all backgrounds and from all places. The bridges that can carry us across the ups, the downs and the unexpected. Connecting us with the future we've always been planning for and helping us lead the lives we wish to live. Maybank. Humanising Financial Services.
