**Discontinuance of, Adjustments to or Benchmark Event Affecting the Index or Termination of Our License Agreement with the Index Sponsor; Alteration of Method of Calculation**

If (i) the Index Sponsor or Index Calculation Agent discontinue publication of, or otherwise fails to publish, the Index, (ii) a Benchmark Event (as described below) under the EU Benchmarks Regulation (as described under "Risk Factors – The Securities are linked to the Index and are subject to certain regulatory risks") occurs with respect to the Index or the Index Sponsor, (iii) our license agreement with the Index Sponsor terminates or (iv) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an EU Benchmarks Regulation-compliant index licensed to UBS that the Security Calculation Agent both approves of and determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), then the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination, Coupon Amounts and the amount payable, if any, at maturity, call or upon early redemption and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

If the Security Calculation Agent determines that the conditions described above are met on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

For purposes of the above, a "**Benchmark Event**" will occur if the applicable registration for the Index or Index Sponsor is not effective or has been suspended or withdrawn by the relevant authority with the effect that the use of the Index or the Index Sponsor is not permitted under the EU Benchmarks Regulation.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in this prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, including the Coupon Amounts, Current Principal Amount, Current Indicative Value (or "intraday indicative value"), Closing Indicative Value, Index Factor, Residual Factor, Daily Tracking Fee, Accrued Dividend, Daily Dividend, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity, call, upon early redemption by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An "**Index Replacement Event**" means:

a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after July 15, 2020 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

c) any event that occurs on or after July 15, 2020 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a substitute index, or the value thereof, is changed in a material respect, or if the Index or a successor index is in any other way modified so that the Index Closing Level of the Index or such successor index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor index with reference to the Index or such successor index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Coupon Amount, the Accrued Dividend, the Daily Dividend, if any, the Daily Tracking Fee, the Redemption Fee Amount, if any, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, upon early redemption, if applicable, the Call Settlement Amount, if any, that we will pay you in the event UBS calls the Securities, and all related payment terms based on the Index Closing Level calculated by the Security Calculation Agent, as adjusted. Accordingly, if the method of calculating the Index or a successor index is modified so that the level of the Index or such successor index is a fraction of what it would have been if there had been no such modification (*e.g.*, due to a split in the Index), which, in turn, causes the Index Closing Level of the Index or such successor index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor index as if it had not been modified (*e.g.*, as if such split had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — There are potential conflicts of interest between you and the Security Calculation Agent" in this prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or call, or upon early redemption will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

**Business Day**

When we refer to a Business Day with respect to the Securities, we mean a day that is a Business Day of the kind described in "Description of Debt Securities We May Offer — Payment Mechanics for Debt Securities" in the accompanying prospectus.

**Modified Business Day**

As described in "Description of Debt Securities We May Offer — Payment Mechanics for Debt Securities" in the attached prospectus, any payment on the Securities that would otherwise be due on a day that is not a Business Day may instead be paid on the next day that is a Business Day, with the same effect as if paid on the original due date, except as described under "— Cash Settlement Amount at Maturity," "— UBS's Call Right" and "— Early Redemption at the Option of the Holders" above.

### Reissuances or Reopened Issues

We may, at our sole discretion, “reopen” or reissue the Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of this prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to “Description of Debt Securities We May Offer — Amounts That We May Issue” in the accompanying prospectus.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities and will have the same CUSIP number and will trade interchangeably with the Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

### Booking Branch

The Securities will be booked through UBS AG, London Branch.

### Clearance and Settlement

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC’s settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 19. ETRACS Alerian Midstream Energy Total Return Index ETN due October 20, 2050

### Specific Terms of the Securities

In this section, references to “holders” mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company (“**DTC**”) or another depositary. Owners of beneficial interests in the Securities should read the section entitled “Legal Ownership and Book-Entry Issuance” under “Medium-Term Notes, Series B” above.

The Securities are part of a series of debt securities entitled “Medium-Term Notes, Series B” that we may issue, from time to time, under the indenture more particularly described in the accompanying prospectus. This prospectus supplement summarizes specific financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in “Description of Debt Securities We May Offer” in the accompanying prospectus. The terms described here (i.e., in this prospectus supplement) supplement those described in the accompanying prospectus and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 12, 2015 between us and U.S. Bank Trust National Association, as trustee.

We describe the terms of the Securities in more detail below.

The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or call, or upon early redemption. Instead, at maturity, you will receive a cash payment the amount of which will vary depending on the performance and path of the Index calculated in accordance with the formula set forth below and will be reduced by the Daily Tracking Fee as of the last Index Business Day in the applicable Measurement Period or Redemption Valuation Date.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment on the Redemption Date equal to the Redemption Amount as described below under “— Early Redemption at the Option of the Holders.” If the amount so calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

If we elect to exercise our call right to redeem all of the Securities, subject to compliance with the procedures set forth below, for each Security you will receive a cash payment on the Call Settlement Date equal to the Call Settlement Amount, as described below under “— UBS’s Call Right.” If the amount so calculated is equal to or less than zero, the Call Settlement Amount will be zero and you will not receive a cash payment.

The Securities will not pay any cash coupon during their term.

### Cash Settlement Amount at Maturity

The “**Maturity Date**” is October 20, 2050, which will be the third Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under “— Market Disruption Event.”

For each Security, unless earlier called or redeemed, you will receive at maturity a cash payment equal to the Closing Indicative Value on the last day of the Final Measurement Period. We refer to this payment as the “**Cash Settlement Amount**”. If the amount so calculated is equal to or less than zero, the payment at maturity will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| Cash Settlement Amount | = | Closing Indicative Value, on last Index Business Day in Final Measurement Period |

**You may lose all or a substantial portion of your investment at maturity. The Securities are fully exposed to any decline in the level of the Index. The negative effect of the Daily Tracking Fee will reduce your final payment. If the level of the Index (as measured by the Index Closing Level at the end of the Final Measurement Period, as compared to the initial Index Closing Level or the Index level at the time you purchase the Securities, as applicable) does not increase by an amount sufficient to offset the negative effect of the Daily Tracking Fee, or if the final Index level is less than the initial Index Closing Level (or the Index level at the time you purchase the Securities, as applicable), you may lose all or a substantial portion of your investment at maturity. The Daily Tracking Fee also takes into account the performance of the Index, as measured by the Closing Indicative Value.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to UBS’s Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment.** See “—UBS’s Call Right”.

The “**Stated Principal Amount**” of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The "**Closing Indicative Value**" represents the dollar value per Security that an investor would receive on any day if it redeemed the Security on such day (excluding any Redemption Fee Amount). The Closing Indicative Value per Security will be calculated as follows:

a) On the Initial Trade Date, $25.00 per Security

b) On any subsequent calendar day, prior to but excluding the first day of an applicable Measurement Period, an amount per Security equal to:

(Closing Indicative Value on the previous calendar day * Index Factor)—Daily Tracking Fee

c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Closing Indicative Value on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) + Measurement Period Cash Amount

The minimum value of the Closing Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The "**Index Factor**" on any Index Business Day prior to but excluding the first day of an applicable Measurement Period, will equal:

(i) the Index Closing Level, on such Index Business Day, *divided by,* (ii) the Index Closing Level, on the immediately preceding Index Business Day.

From and including the first day of an applicable Measurement Period, the Index Factor will equal:

(i) the Index Closing Level, on such calendar day, *divided by,* (ii) the Index Closing Level on the calendar day immediately preceding the first day of such Measurement Period.

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the immediately preceding Index Business Day. The Index Factor will therefore equal one (1) on any calendar day that is not an Index Business Day and is prior to the first Index Business Day of a five-day Measurement Period.

The "**Residual Factor**" will be calculated as follows:

a) 1.0 on any calendar day, prior to but excluding the first day of an applicable Measurement Period

b) From and including the first day of an applicable five-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such five-day Measurement Period, *divided by* (b) five.

The Residual Factor is intended to approximate the percentage of the Closing Indicative Value that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas.

For example, on the first Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal (4/5), on the second Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal (3/5), on the third Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal (2/5), on the fourth Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal (1/5) and on the last Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal zero.

On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The "**Index Closing Level**" on any date of determination is the closing level of the Index as reported on the NYSE and Bloomberg; provided, however, that if the closing level of the Index as reported on the NYSE (or any successor) differs from the closing level of the Index as reported on Bloomberg (or any successor), then the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. 358.2653 is the initial Index Closing Level measured on October 20, 2020 (the Initial Trade Date), as determined by the Security Calculation Agent.

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level from the last Index Business Day prior to such calendar day.

"**Measurement Period**" means the Final Measurement Period or Call Measurement Period, as applicable.

The **"Current Indicative Value"** or "**intraday indicative value**", as determined by the Security Calculation Agent, means the Closing Indicative Value per Security calculated on an intraday basis on any Index Business Day.

For the purposes of calculating the Current Indicative Value, the Index Factor will be determined using the Intraday Index Value. Additionally, from and including the first day of an applicable Measurement Period, the Current Indicative Value will be calculated using (i) the Measurement Period Cash Amount from the immediately preceding calendar day, and (ii) the Residual Factor from the immediately preceding calendar day.

The minimum value of the Current Indicative Value (or intraday indicative value) on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (or intraday indicative value).

If the Securities undergo a split or reverse split, the Current Indicative Value (or intraday indicative value) will be adjusted accordingly.

The "**Daily Tracking Fee**" means, as of any date of determination, an amount per Security equal to 0.75% per annum, calculated as follows:

a) On the Initial Trade Date, \$0.00 per Security;

b) On any subsequent calendar day, prior to but excluding the first day of an applicable Measurement Period, an amount per Security equal to:

   (0.75% / 365) × Closing Indicative Value on the immediately preceding calendar day × Index Factor

c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

   (0.75% / 365) × Closing Indicative Value on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor on the immediately preceding calendar day

The minimum value of the Daily Tracking Fee on any calendar day will be zero.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly. The "**Measurement Period Cash Amount**" is an amount per Security equal to:

a) \$0.00, on any calendar day prior to but excluding the first day of an applicable Measurement Period

b) On the first day of an applicable one-day Measurement Period:

   a. At the close of trading on such Index Business Day, the (Closing Indicative Value, on the immediately preceding calendar day, *times* Index Factor, on such Index Business Day), *minus* Daily Tracking Fee.

c) From and including the first day of an applicable five-day Measurement Period:

   a. At the close of trading on each Index Business Day, will equal:

      i. Measurement Period Cash Amount on the immediately preceding calendar day, *plus* (b) ( (i) Closing Indicative Value, on the calendar day immediately preceding the first day of such Measurement Period, *times* (ii) Index Factor, *divided by* (iii) five), *minus* (c) Daily Tracking Fee

      ii. On any calendar day that is not an Index Business Day, will equal the Measurement Period Cash Amount on the immediately preceding Index Business Day, *minus* Daily Tracking Fee

d) On any calendar day after the last Index Business Day of an applicable Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

The minimum value of the Measurement Period Cash Amount on any calendar day will be zero.

The Measurement Period Cash Amount represents the portion of the Closing Indicative Value that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business day during a five-day Measurement Period, approximately 20% of the Closing Indicative Value, on the calendar day immediately preceding the first day of the Measurement Period, will be deemed converted to cash. After the close of trading on the final Index Business Day of an applicable five-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Closing Indicative Value that was deemed converted to cash across the five-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Closing Indicative Value will be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The “**Final Measurement Period**” means:

a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $250,000,000, the Calculation Date, subject to adjustments as described under “Specific Terms of the Securities—Market Disruption Event”;

b) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $250,000,000, the five (5) Index Business Days from, and including, the Calculation Date, subject to adjustment as described under “Specific Terms of the Securities— Market Disruption Event.”

For the purpose of determining the Final Measurement Period, the “**Market Value**” of the Securities as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day, *times* (ii) the number of Securities outstanding as reported by AMTRSO <Index> on Bloomberg L.P.

The “**Index Calculation Agent**” means the entity that calculates and publishes the level of the Index, which is currently S&P Dow Jones Indices.

The “**Calculation Date**” means October 11, 2050 unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustments.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

“**Index Business Day**” means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

“**Business Day**” means any day that is not a Saturday, a Sunday or a day on which banking institutions in The City of New York, generally, are authorized or obligated by law, regulation or executive order to close.

“**Primary Exchange**” means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The Alerian Midstream Energy Adjusted Net Total Return Index (Bloomberg: “AMNTR Index”) is the adjusted net total return version of the Alerian Midstream Energy Index (Bloomberg: “AMNA Index”). The Index is a broad-based composite of North American energy infrastructure companies who earn the majority of their cash flow from midstream activities involving energy commodities, such as gathering & processing, liquefaction, pipeline transportation, rail terminaling, and storage of energy commodities. The Index is calculated by S&P Dow Jones Indices using a capped, float adjusted, capitalization weighted methodology. We refer to the companies included in the Index as the “Index Constituent Securities”. **The Index is an adjusted net total return index and the Index level reflects the notional reinvestment of the cash distributions from its constituent securities, subject to dividend withholding taxes on distributions made by applicable Canadian Index Constituent Securities. No dividend withholding taxes are applied to distributions made by applicable U.S. Index Constituent Securities.**

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under “— Market Disruption Event,” you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon, New York City time, and a confirmation of redemption by no later than 5:00 p.m., New York City time, on the same Index Business Day, provided that you request that we redeem a minimum of 50,000 Securities. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities. We reserve the right from time-to-time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume that you will be entitled to the benefit of any such waiver. For any applicable redemption request, the “**Redemption Valuation Date**” will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which the notice of redemption is received by UBS rather than the following Index Business Day. You should not assume that you will be entitled to any such acceleration.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The First Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if a call notice has been issued, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event."

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures," for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**."

If the amount calculated above is less than or equal to zero, the payment upon early redemption will be zero.

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of such Redemption Valuation Date).

We reserve the right from time to time to reduce or waive the Redemption Fee Amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

| | | | | |
|---|---|---|---|---|
| Redemption Amount | = | Closing Indicative Value | — | Redemption Fee Amount |

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Daily Tracking Fee and the Redemption Fee Amount will reduce your Redemption Amount. If the level of the Index does not increase by an amount sufficient to offset the combined negative effect of the Daily Tracking Fee and the Redemption Fee Amount, or if the final Index level is less than the initial Index Closing Level (or the Index level at the time you purchase the Securities, as applicable), you may lose some or all of your investment upon early redemption.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to UBS's Call Right.** See – UBS's Call Right".

We discuss these matters in the accompanying prospectus under "Description of Debt Securities We May Offer — Redemption and Repayment."

### Redemption Procedures

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon (New York City time) on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;
- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**," to us via e-mail in the specified form by 5:00 p.m. (New York City time) on the same day. We or our affiliate must acknowledge receipt in order for your confirmation to be effective;
- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Valuation Date at a price equal to the Redemption Amount; and
- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon (New York City time) on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your notice of redemption after 12:00 noon (New York City time), or your confirmation of redemption after 5:00 p.m. (New York City time), on the Business Day prior to the applicable Redemption Valuation Date, your notice will not be effective, you will not be able to redeem your Securities until another date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to reduce or waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which the notice of redemption is received by UBS rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS's Call Right**

We have the right to redeem all, but not less than all, of the Securities upon not less than eighteen

(18) calendar days' prior notice to the holders of the Securities (which notice may be provided via press release), such redemption to occur on any Business Day that we may specify through and including the Maturity Date. Upon early redemption in the event we exercise this right, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount so calculated is equal to or less than zero, the payment upon exercise of the UBS Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event."

The "**Call Measurement Period**" means:

a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders of its exercise of the UBS Call Right is less than $250,000,000, the Call Valuation Date, subject to adjustments as described under "— Market Disruption Event."; or

b) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders of its exercise of the UBS Call Right is equal to or greater than $250,000,000, the five (5) Index Business Days from and including the Call Valuation Date, subject to adjustments as described under " Specific Terms of the Securities—Market Disruption Event."

For the purpose of determining the Call Measurement Period, the "**Market Value**" of the Securities as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of the UBS Call Right, will equal:

(i) the Closing Indicative Value as of such Index Business Day, *times* (ii) the number of Securities outstanding as reported by AMTRSO <Index> on Bloomberg L.P.

The "**Call Valuation Date**" means the date disclosed as such by UBS in its notice to holders (which may be provided via press release) of its exercise of the UBS Call Right.

In any notice to holders exercising the UBS Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| Call Settlement Amount | = | Closing Indicative Value, on last Index Business Day in Call Measurement Period |

**You may lose all or a substantial portion of your investment upon a call. The negative effect of the Daily Tracking Fee will reduce your final payment. If the level of the Index does not increase by an amount sufficient to offset the negative effect of the Daily Tracking Fee, or if the final Index level is less than the initial Index Closing Level (or the Index level at the time you purchase the Securities, as applicable), you may lose some or all of your investment upon UBS's exercise of its call right.**

**Security Calculation Agent**

UBS Securities LLC will act as the "Security Calculation Agent." The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, Current Indicative Value (or "intraday indicative value"), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Index Factor, the Residual Factor, the Index Closing Level, the Daily Tracking Fee, the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, if applicable and the Call Settlement Amount, if any, that we will pay you in the event that UBS calls the Securities, and whether any day is a Business Day or Index Business Day and all such other matters as may be specified herein as matters to be determined by the Security Calculation Agent. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you and all other persons having an interest in the Security, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or call, or upon early redemption, on or prior to 12:00 noon (New York City time) on the Business Day immediately preceding the Maturity Date, any Redemption Date, or any Call Settlement Date, as applicable.

All dollar amounts related to determination of the Daily Tracking Fee, the Redemption Amount and Redemption Fee Amount, if any, per security, the Call Settlement Amount, if any, per security, and the Cash Settlement Amount, if any, per security, will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (e.g., .76545 would be rounded up to .7655); and all dollar amounts paid on the Stated Principal Amount of Securities per holder will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a five-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the five-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4, June 5 and June 6, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day, June 6th the fourth Index Business Day and the next Index Business Day after June 6th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a five-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date) or the Calculation Date (in the event that the Final Measurement Period is the Calculation Date), the Index Closing Level for such Redemption Valuation Date, Call Valuation Date or Calculation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date) or Calculation Date (in the event that the Final Measurement Period is the Calculation Date) occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date or Calculation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date or Calculation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

c) the Index is not published; or

d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging".

The following events will not be Market Disruption Events with respect to the Index:

a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; or

b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "**absence of trading**" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

### Redemption Price Upon Optional Tax Redemption

We have the right to redeem the Securities in the circumstances described under "Description of Debt Securities We May Offer — Optional Tax Redemption" in the accompanying prospectus. If we exercise this right, the redemption price of the Securities will be determined by the Security Calculation Agent in a manner reasonably calculated to preserve your and our relative economic positions.

### Default Amount on Acceleration

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in the attached prospectus under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent, in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, plus
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five (5) Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Business Day after the first Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five (5) Business Days after that first Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of, Adjustments to or Benchmark Event Affecting the Index or Termination of Our License Agreement with the Index Sponsor; Alteration of Method of Calculation**

If (i) the Index Sponsor or Index Calculation Agent discontinue publication of, or otherwise fails to publish, the Index, (ii) a Benchmark Event (as described below) under the EU Benchmarks Regulation (as described under "Risk Factors – The Securities are linked to the Index and are subject to certain regulatory risks") occurs with respect to the Index or the Index Sponsor, (iii) our license agreement with the Index Sponsor terminates or (iv) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an EU Benchmarks Regulation-compliant index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination, and the amount payable at maturity, call or upon early redemption and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

If the Index Sponsor or Index Calculation Agent discontinue publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

For purposes of the above, a "**Benchmark Event**" will occur if the applicable registration for the Index or Index Sponsor is not effective or has been suspended or withdrawn by the relevant authority with the effect that the use of the Index or the Index Sponsor is not permitted under the EU Benchmarks Regulation.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, including the Current Indicative Value (or "intraday indicative value"), Closing Indicative Value, Index Factor, Residual Factor, Daily Tracking Fee, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity, call, upon early redemption by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An "**Index Replacement Event**" means:

a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange- imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after October 20, 2020 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

c) any event that occurs on or after October 20, 2020 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a substitute index, or the value thereof, is changed in a material respect, or if the Index or a successor index is in any other way modified so that the Index Closing Level of the Index or such successor index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor index with reference to the Index or such successor index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Daily Tracking Fee, the Redemption Fee Amount, if any, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, upon early redemption, if applicable, the Call Settlement Amount, if any, that we will pay you in the event UBS calls the Securities, and all related payment terms based on the Index Closing Level calculated by the Security Calculation Agent, as adjusted. Accordingly, if the method of calculating the Index or a successor index is modified so that the level of the Index or such successor index is a fraction of what it would have been if there had been no such modification (*e.g.*, due to a split in the Index), which, in turn, causes the Index Closing Level of the Index or such successor index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor index as if it had not been modified (*e.g.*, as if such split had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or call, or upon early redemption will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

**Business Day**

When we refer to a Business Day with respect to the Securities, we mean a day that is a Business Day of the kind described in "Description of Debt Securities We May Offer — Payment Mechanics for Debt Securities" in the accompanying prospectus.

**Modified Business Day**

As described in "Description of Debt Securities We May Offer — Payment Mechanics for Debt Securities" in the attached prospectus, any payment on the Securities that would otherwise be due on a day that is not a Business Day may instead be paid on the next day that is a Business Day, with the same effect as if paid on the original due date, except as described under "— Cash Settlement Amount at Maturity," "— UBS's Call Right" and "— Early Redemption at the Option of the Holders" above.

### Reissuances or Reopened Issues

We may, at our sole discretion, "reopen" or reissue the Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to "Description of Debt Securities We May Offer — Amounts That We May Issue" in the accompanying prospectus.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities and will have the same CUSIP number and will trade interchangeably with the Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

### Booking Branch

The Securities will be booked through UBS AG, London Branch.

### Clearance and Settlement

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC's settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 20. ETRACS 2x Leveraged MSCI USA ESG Focus TR ETN due September 15, 2061

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary. Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 12, 2015 between us and U.S. Bank Trust National Association, as trustee.

We describe the terms of the Securities in more detail below.

The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or upon early redemption or call. Instead, at maturity, you will receive a cash payment per Security the amount of which will vary depending on the performance and path of the Index and will be reduced by the Accrued Fees as of the last Index Business Day in the Final Measurement Period as described under "— Cash Settlement Amount at Maturity." If the amount as calculated is equal to or less than zero, the Cash Settlement Amount will be zero and you will not receive a cash payment.
If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment per Security on the relevant Redemption Date equal to the Redemption Amount as described under "— Early Redemption at the Option of the Holders." If the amount as calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is September 15, 2061, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called, redeemed or accelerated upon Zero Value Event, you will receive at maturity a cash payment equal to its Closing Indicative Value on the last Index Business Day in the applicable Measurement Period. We refer to this cash payment as the "**Cash Settlement Amount**." If the amount so calculated is equal to or less than zero, the payment will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | **=** | **Closing Indicative Value, on last Index Business Day in Final Measurement Period** |

**You may lose all or a substantial portion of your investment at maturity. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, you may lose all or a substantial portion of your investment at maturity. The occurrence of Loss Rebalancing Events will result in more frequent than quarterly compounding.**

**UBS may call the Securities prior to the Maturity Date pursuant to its Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment.** See "— UBS Call Right."

The "**Stated Principal Amount**" of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The Closing Indicative Value represents the dollar value per Security that an investor would receive on any day if it redeemed the Security that day (without giving effect to any Redemption Fee Amount).

The "**Closing Indicative Value**" per Security, will be calculated as follows:

(a) an the Initial Trade Date, $25.00 per Security.

(b) On any other calendar day, prior to the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the immediately preceding calendar day × Index Factor) – Accrued Fees

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) – Accrued Fees + Measurement Period Cash Amount

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Closing Indicative Value for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Closing Indicative Value on any calendar day will be zero.

If a Zero Value Event occurs, the Closing Indicative Value will be equal to zero on the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event. See "— Automatic Acceleration Upon Zero Value Event."

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The "**Current Principal Amount**" represents the unleveraged notional investment in the Index Constituent Securities per Security at the close of trading on any Reset Valuation Date. The notional financing amount per Security in order to generate the leveraged returns would approximately equal the Current Principal Amount at the close of trading on any Reset Valuation Date. If a Permanent Deleveraging Event occurs, the leverage of your Securities will be permanently reset to 1.0 and the notional financing amount will be equal to zero for the remaining term of the Securities. If a Zero Value Event occurs prior to your Securities permanently resetting to 1.0 at the end of the Second Permanent Deleveraging Valuation Date, then your Securities will be automatically accelerated and mandatorily redeemed and you will lose your entire investment.

The Current Principal Amount per Security, will be calculated as follows:

(a) From and including the Initial Trade Date to and excluding the first Reset Valuation Date, $25.00 per Security.

(b) At the close of trading on each Reset Valuation Date after the Initial Trade Date, the Current Principal Amount of the Securities will be reset as follows:

*New* Current Principal Amount = (Current Principal Amount on immediately preceding calendar day × Index Factor) – Accrued Fees

The Current Principal Amount will not change until the first Reset Valuation Date.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, such day will not be a valid Reset Valuation Date.

If the Securities undergo a split or reverse split, the Current Principal Amount will be adjusted accordingly.

At the close of trading on each Reset Valuation Date, the Current Principal Amount is reset.

The "**Reset Valuation Date**" means:

(a) Any calendar day up to and including the Second Permanent Deleveraging Valuation Date, that is either: (i) the Initial Trade Date, (ii) a Quarterly Reset Valuation Date, (iii) a Loss Rebalancing Valuation Date (iv) the First Permanent Deleveraging Valuation Date, or (v) the Second Permanent Deleveraging Valuation Date; and

(b) Any calendar day following the Second Permanent Deleveraging Valuation Date.

The valuation dates are defined below.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, it will not be a valid Reset Valuation Date and the Last Reset Index Closing Level will remain the same.

The "**Quarterly Reset Valuation D**ate" is the second Wednesday of January, April, July and October of each calendar year during the term of the Securities (other than an Excluded Day, as defined below), subject to adjustment as described under "—Market Disruption Event."

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding the first day of an applicable Measurement Period, and any calendar day thereafter, and (ii) any calendar day after the Second Permanent Deleveraging Valuation Date.

The "**Index Factor**" is: 1 + (Leverage Factor × Index Performance Ratio).

The Index Factor represents the leveraged percentage change in the Index level since the Last Reset Index Closing Level. The Index Factor times the applicable Current Principal Amount on the preceding calendar day represents the current value of the unleveraged notional amount per Security that is deemed invested in the Index on any calendar day. This does not reflect the Redemption Amount that an investor would receive upon early redemption on such calendar day.

The "**Residual Factor**" will be calculated as follows:

(a) 1.0 on any calendar day, to but excluding the first day of an applicable Measurement Period.

(b) From and including the first day of an applicable four-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such four-day Measurement Period, divided by (b) four.

For example, on the first Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 3/4, on the second Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 2/4, on the third Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 1/4 and on the last Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal zero.

(c) On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The Residual Factor is intended to approximate the percentage of the Current Principal Amount that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas. At the close of trading on each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash.

The "**Leverage Factor**" on any calendar day until the occurrence of a Permanent Deleveraging Event and the close of trading on the Second Permanent Deleveraging Valuation Date, will equal 2.0. If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Leverage Factor will equal 1.0.

The "**Index Performance Ratio**" on any Index Business Day will be equal to:

$$\frac{\text{Index Closing Level} - \text{Last Reset Index Closing Level}}{\text{Last Reset Index Closing Level}}$$

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

The "**Last Reset Index Closing Level**" is the Index Closing Level on the most recent Reset Valuation Date prior to such day. The initial Last Reset Index Closing Level is the Index Closing Level on the Initial Trade Date, as reported by Bloomberg and Reuters.

The "**Index Closing Level**" on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. The initial Index Closing Level (which is also the first Last Reset Index Closing Level) was determined on September 14, 2021 by the Security Calculation Agent. If the closing level of the Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the "**Index Closing Level**" for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates.

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

"**Measurement Period**" means the Final Measurement Period or, if UBS exercises its Call Right, the Call Measurement Period.

The "**Current Indicative Value**" or "**intraday indicative value"**, as determined by the Security Calculation Agent, is an amount per Security, on an intraday basis on any Index Business Day, equal to:

(a) On the Initial Trade Date, $25.00.

(b) On any other calendar day prior to the first day of a Measurement Period:
(Current Principal Amount on the immediately preceding calendar day × Index Factor, calculated using the Intraday Index Value) – Accrued Fees

(c) From and including the first day of a Measurement Period, an amount per Security equal to:
(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor, calculated using the Intraday Index Value × Residual Factor on the immediately preceding calendar day) – Accrued Fees + Measurement Period Cash Amount, from the immediately preceding calendar day

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Current Indicative Value for the remainder of that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Current Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (intraday indicative value).

**If a Zero Value Event occurs, the Current Indicative Value (intraday indicative value) will be equal to zero for the remainder of the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "— Automatic Acceleration Upon Zero Value Event."

If the Securities undergo a split or reverse split, the Current Indicative Value (intraday indicative value) will be adjusted accordingly.

The "**Accrued Fees**" as of any date of determination means the Accrued Tracking Fee + the Accrued Financing Fee.

If the Securities undergo a split or reverse split, the Accrued Fees will be adjusted accordingly.

The Securities are subject to an "**Accrued Tracking Fee**" per Security, calculated as follows:

(a) On the Initial Trade Date, the Accrued Tracking Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Tracking Fee is equal to: (a) the Accrued Tracking Fee as of the immediately preceding calendar day, *plus* (b) the Daily Tracking Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Tracking Fee is reset to be equal to the Daily Tracking Fee on such calendar day.

The "**Daily Tracking Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Tracking Fee is zero.

(b) On any subsequent calendar day, the Daily Tracking Fee is equal to:
(1) (i) 0.95% times (ii) the Current Principal Amount on the immediately preceding calendar day times (iii) the Index Factor on such calendar day times (iv) the Residual Factor on the immediately preceding calendar day, divided by (2) 365.

(c) The minimum value of the Daily Tracking Fee on any calendar day will be zero.

The Daily Tracking Fee represents the investor fees calculated each day on the current value of the unleveraged notional amount invested in the Index per Security. These charges accrue and compound during the applicable period, and will reduce any amount you are entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly.

The Securities are subject to an "**Accrued Financing Fee**" per Security calculated as follows:

(a) On the Initial Trade Date, the Accrued Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Financing Fee is equal to:
(1) the Accrued Financing Fee as of the immediately preceding calendar day, plus (2) the Daily Financing Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Financing Fee is reset to be equal to the Daily Financing Fee on such calendar day.

(d) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Accrued Financing Fee will be equal to zero.

The "**Daily Financing Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Daily Financing Fee is equal to:

(1) (i) the Financing Rate on such calendar day times (ii) the Current Principal Amount on the immediately preceding calendar day times (iii) the Residual Factor on the immediately preceding calendar day, divided by (2) 360.

(c) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Daily Financing Fee will be equal to zero.

(d) The minimum value of the Daily Financing Fee on any calendar day will be zero.

The Daily Financing Fee seeks to compensate UBS for providing investors with a leveraged participation in movements of the Index and is intended to approximate the financing costs that investors may have otherwise incurred had they sought to borrow funds at a similar rate from a third party to invest in the Index. These charges accrue and compound during the applicable period, and will reduce any amount that you will be entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Financing Fee will be adjusted accordingly.

The "**Financing Rate**" will equal the sum of (a) 1.55% and (b) SOFR on the immediately preceding U.S. Government Securities Business Day. The minimum value of SOFR (or any successor base rate, as described below) used on any calendar day will be zero. The minimum Financing Rate at any time will be 1.55%.

For example, 0.05% was the SOFR rate on September 10, 2021, which was a U.S. Government Securities

Business Day. The Financing Rate on September 13, 2021 would therefore have been equal to 1.55% + 0.05%, or 1.60%.

“**SOFR**” means, with respect to any U.S. Government Securities Business Day, the daily secured overnight financing rate for such U.S. Government Securities Business Day as provided by the SOFR Administrator on the SOFR Administrator’s Website. If for any U.S. Government Securities Business Day, the SOFR in respect of that day has not been published on the SOFR Administrator’s Website by the time the Security Calculation Agent determines the Financing Rate for the immediately succeeding day and the Security Calculation Agent has not determined that SOFR has been discontinued, then the SOFR for such day will be the secured overnight financing rate as published in respect of the first preceding U.S. Government Securities Business Day for which the secured overnight financing rate was published on the SOFR Administrator’s Website.

“**SOFR Administrator**” means the Federal Reserve Bank of New York (or a successor administrator of SOFR).

“**SOFR Administrator’s Website**” means the website of the SOFR Administrator, currently at http://www.newyorkfed.org, or any successor source.

**“U.S. Government Securities Business Day**” means any day except for a Saturday, a Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

*Information About the Secured Overnight Financing Rate*

All disclosures contained herein regarding the secured overnight financing rate, including, without limitation, its make-up and method of calculation, have been derived from publicly available sources. The information reflects the policies of, and is subject to change by the Federal Reserve Bank of New York. The secured overnight financing rate is published by the Federal Reserve Bank of New York, but the Federal Reserve Bank of New York has no obligation to continue to publish, and may discontinue publication of, the secured overnight financing rate. Neither UBS nor any of its affiliates accepts any responsibility for the calculation, maintenance or publication of the secured overnight financing rate or any successor or replacement rate. Information from outside sources including, but not limited to any website referenced in this section, is not incorporated by reference in, and should not be considered part of, this document or any document incorporated herein by reference. UBS has not conducted any independent review or due diligence of any publicly available information with respect to the secured overnight financing rate.

The secured overnight financing rate is published by the Federal Reserve Bank of New York and is intended to be a broad measure of the cost of borrowing cash overnight collateralized by U.S. Treasury securities. The Federal Reserve Bank of New York reports that secured overnight financing rate includes all trades in the “Broad General Collateral Rate” (as defined on the Federal Reserve Bank of New York's Website), plus bilateral Treasury repurchase agreement transactions cleared through the delivery-versus-payment service offered by the Fixed Income Clearing Corporation (the “**FICC**”), a subsidiary of the Depository Trust and Clearing Corporation (“**DTCC**”). The secured overnight financing rate is filtered by the Federal Reserve Bank of New York to remove a portion of the foregoing transactions considered to be "Specials", which are repurchases for specific-issue collateral, which take place at cash-lending rates below those for general collateral repurchases because cash providers are willing to accept a lesser return on their cash in order to obtain a particular security.

The Federal Reserve Bank of New York reports that the secured overnight financing rate is calculated as a volume-weighted median of transaction-level tri-party repo data collected from The Bank of New York Mellon (“**BNYM**”) as well as General Collateral Finance repurchase agreement transaction data and data on bilateral Treasury repurchase transactions cleared through the FICC's delivery-versus-payment service. The Federal Reserve Bank of New York notes that it obtains information from DTCC Solutions LLC, an affiliate of DTCC. The Federal Reserve Bank of New York notes on its publication page for the secured overnight financing rate that use of the secured overnight financing rate is subject to important limitations and disclaimers, including that the Federal Reserve Bank of New York may alter the methods of calculation, publication schedule, rate revision practices or availability of the secured overnight financing rate at any time without notice. The secured overnight financing rate is published at approximately 8:00 a.m. (New York time) on each U.S. Government Securities Business Day for trades made on the immediately preceding U.S. Government Securities Business Day. If the Federal Reserve Bank of New York discovers errors in the transaction data provided by either BNYM or DTCC, or in the calculation process, subsequent to the rate publication but on that same day, the secured overnight financing rate and accompanying summary statistics may be republished at approximately 2:30 p.m. (New York time). Similarly, if transaction data from BNYM or DTCC had previously not been available in time for publication, but became available later in the day, the secured overnight financing rate may be republished at approximately 2:30 p.m. (New York time). Rate revisions will only be effected on the same day as initial publication and will only be republished if the change in the rate exceeds one basis point (0.01%), though the Federal Reserve Bank of New York will review this revision threshold periodically and could modify it after any such review. The description of the secured overnight financing rate herein does not purport to be exhaustive.

Because the secured overnight financing rate is published by the Federal Reserve Bank of New York based on data received from other sources, neither UBS nor any of our affiliates has any control over its determination, calculation or publication. There can be no guarantee that the secured overnight financing rate will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in the Securities. If the manner in which the secured overnight financing rate is calculated is changed, that change may result in an increase in the Financing Rate on the Securities.

The Federal Reserve Bank of New York began publishing the secured overnight financing rate in April 2018. The Federal Reserve Bank of New York has also published historical indicative secured overnight financing rates going back to August 2014. Investors should not rely on any historical changes or trends in the secured overnight financing rate as an indicator of future changes in the secured overnight financing rate. Also, since the secured overnight financing rate is relatively new, the Securities are not expected to have established trading market when issued, and an established trading market may never develop or may not be very liquid. In addition, if the secured overnight financing rate does not become widely used as a benchmark in securities that are similar or comparable to the Securities, the trading price of the Securities may be lower than those of other securities that are linked to rates that are more widely used. Similarly, market terms for exchange traded notes with financing rates linked to the secured overnight financing rate may evolve over time, and trading prices of the Securities may be lower than those of later-issued secured overnight financing rate-linked exchange traded notes as a result. Investors in the Securities may not be able to sell the Securities at all or may not be able to sell the Securities at prices comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

The secured overnight financing rate data is subject to the terms of use posted at newyorkfed.org. The Federal Reserve Bank of New York is not responsible for publication of the secured overnight financing rate rates by UBS, does not sanction or endorse any particular republication, and has no liability for your use. For a more complete discussion of the secured overnight financing rate , see the website of SOFR Administrator's Website.

Notwithstanding the foregoing:

- If the Security Calculation Agent determines on the relevant determination date that SOFR (or any successor base rate) has been discontinued, then the Security Calculation Agent will use a substitute or successor base rate that it has determined in its sole discretion is most comparable to the SOFR base rate (or such successor base rate), provided that if the Security Calculation Agent determines there is an industry-accepted successor base rate for exchange traded notes similar to the Securities, then the Security Calculation Agent shall use such successor base rate; and;
- If the Security Calculation Agent has determined a substitute or successor base rate in accordance with the foregoing, the Security Calculation Agent in its sole discretion may determine the business day convention, definition of business day and any other relevant methodology for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to the SOFR base rate (or such successor base rate), in a manner that is consistent with industry-accepted practices for such substitute or successor base rate.

The establishment of SOFR (or such successor base rate, as applicable) for each period by the Security Calculation Agent shall (in the absence of manifest error) be final and binding.

The "**Measurement Period Cash Amount**" is an amount per Security equal to:

(a) $0.00 on any calendar day, to but excluding the first day of a Measurement Period.

(b) On the first day of a one-day Measurement Period:

At the close of trading on such Index Business Day, (Current Principal Amount on the immediately preceding calendar day × Index Factor, on such Index Business Day).

(c) From and including the first day of a four-day Measurement Period:

(i) At the close of trading on each Index Business Day during the four-day Measurement Period, the Measurement Period Cash Amount on the immediately preceding calendar day + (Current Principal Amount on the calendar day immediately preceding the first day of such Measurement Period × 0.25 × Index Factor, on such Index Business Day); and

(ii) On any calendar day during the Measurement Period that is not an Index Business Day, the Measurement Period Cash Amount on the immediately preceding Index Business Day.

(d) On any calendar day after the last Index Business Day of a Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

Notwithstanding the foregoing, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is less than or equal to the Measurement Period Cash Amount from the immediately preceding calendar day, then the Measurement Period Cash Amount for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

The Measurement Period Cash Amount represents the portion of the Current Principal Amount that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period, will be deemed converted to cash and an applicable portion of the notional financing amount will separately be deemed converted to cash as well. After the close of trading on the final Index Business Day of a four-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Current Principal Amount that was deemed converted to cash across the four-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount will be deemed converted to cash and an applicable amount of financing will separately be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period"** means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $500,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $500,000,000, the four Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day times (ii) the number of Securities outstanding as reported by ESUSSO <Index> on Bloomberg.

The "**Index Calculation Agent**" means the entity that calculates and publishes the level of the Index, which is currently MSCI.

The "**Calculation Date**" means September 7, 2061, unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Business Day**" means any day that is not a Saturday, Sunday or a day on which banking institutions in The City of New York, generally, are authorized or obligated by law, regulation or executive order to close.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The return on the securities is linked to the performance of the MSCI USA ESG Focus Index Gross Total Return USD (Bloomberg: "M2USESG"). The Index is designed to maximize exposure to positive ESG factors while exhibiting risk and return characteristics similar to those of the MSCI USA Index. We refer to the companies included in the Index as the "Index Constituent Securities". The Index is developed and calculated by MSCI. **The Index is a total return index and the Index level reflects the notional reinvestment of the cash distributions from its constituent securities.**

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event", you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon and a confirmation of redemption by no later than 5:00 p.m. on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time to time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The First Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable. If a Zero Value Event occurs, the last Redemption Date will be the date on which the Zero Value Event occurred.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to: (0.125% × Closing Indicative Value of the Security as of the Redemption Valuation Date).

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures", for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**." If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero. We reserve the right from time to time to reduce or waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

**Redemption Amount = Closing Indicative Value – Redemption Fee Amount**

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Accrued Fees and the Redemption Fee Amount will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees and the Redemption Fee Amount, if applicable, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon early redemption. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to its Call Right and, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "— UBS Call Right" and "— Automatic Acceleration Upon Zero Value Event."

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;
- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**", to us via email in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;
- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and
- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m., on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to reduce or waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which may be provided via press release) not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event".

The "**Call Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than $500,000,000, the Call Valuation Date, subject to adjustments as described under "— Market Disruption Event"; and

(b) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than $500,000,000, the four Index Business Days from and including the Call Valuation Date, subject to adjustment as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "Market Value" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right will equal:

(i) The Closing Indicative Value as of such Index Business Day times (ii) the number of Securities outstanding as reported by ESUSSO <Index> on Bloomberg.

The "**Call Valuation Date**" means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

Closing Indicative Value, on last Index

**Cash Settlement Amount=** **Business Day in Call Measurement Period**

**You may lose all or a substantial portion of your investment if we exercise our Call Right. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon a call. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**In addition, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS**. See "— Automatic Acceleration Upon Zero Value Event" below.

**Automatic Acceleration Upon Zero Value Event**

A Zero Value Event represents the first instance when the Current Indicative Value (intraday indicative value) or the Closing Indicative Value is less than or equal to zero (other than on an Excluded Day, as defined below). It will have the effect of permanently resetting the value of your Securities to zero and accelerating the Securities. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.

A Zero Value Event can occur only if a Permanent Deleveraging Event occurs and the Current Indicative Value (intraday indicative value) or the Closing Indicative Value declines to zero before the leverage of your Securities is reset to 1.0 at the close of trading on the Index Business Day following such event (or if such event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, the second Index Business Day following such event), as described under "Permanent Deleveraging Valuation Dates" above.

A "**Zero Value Event**" occurs if the Current Indicative Value (intraday indicative value) or the Closing Indicative Value on any Index Business Day (other than an Excluded Day, as defined below) is less than or equal to zero. From immediately after the Zero Value Event and on all future calendar days, the Current Indicative Value (intraday indicative value) and the Closing Indicative Value will be set equal to zero.

As used above, an "**Excluded Day**" means (i) any calendar day after the Second Permanent Deleveraging Valuation Date (ii) any calendar day on or after which a Zero Value Event has already occurred, and (iii) any calendar day after the last day of an applicable Measurement Period.

In the event that a Zero Value Event has occurred, UBS will issue a press release shortly after the event; provided that the failure to do so shall not affect the automatic acceleration and redemption of the Securities. The Securities will be suspended from trading intraday shortly after the event occurs and will likely not be open for trading again on NYSE Arca.

**You will lose your entire investment upon the occurrence of a Zero Value Event.**

**In addition, we may call the Securities prior to the Maturity Date pursuant to our Call Right. See "— UBS Call Right."**

**Loss Rebalancing Events**

A Loss Rebalancing Event will have the effect of deleveraging your Securities with the aim of resetting the then-current leverage to approximately 2.0. This means that after a Loss Rebalancing Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities relative to before the occurrence of the Loss Rebalancing Event.

A "**Loss Rebalancing Event**" occurs if, at any time, the Intraday Index Value on such Index Business Day (other than an Excluded Day, as used below) decreases by 20% or more from the previous Last Reset Index Closing Level.

Loss Rebalancing Events may occur multiple times over the term of the Securities and may occur multiple times during a single calendar quarter. This means both that (i) the Current Principal Amount may be reset more frequently than quarterly and (ii) the cumulative effect of compounding and fees will have increased as a result of the Loss Rebalancing Event(s). Because each Loss Rebalancing Event will have the effect of deleveraging your Securities, following a Loss Rebalancing Event your Securities will have less exposure to a potential positive gain in value relative to the exposure before the occurrence of such Loss Rebalancing Event.

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding any Quarterly Reset Valuation Date, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day, (ii) any Quarterly Reset Valuation Date, (iii) any Loss Rebalancing Valuation Date, (iv) the Index Business Day immediately preceding the first day of an applicable Measurement Period, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day (v) any calendar day from and including the first day of an applicable Measurement Period, (vi) the First or Second Permanent Deleveraging Valuation Dates, (vii) any calendar day after the Second Permanent Deleveraging Valuation Date, and (viii) any calendar day on or after which a Zero Value Event has occurred.

"**Loss Rebalancing Valuation Date**" means:

(a) if a Loss Rebalancing Event occurs at or prior to 3:15 p.m. on an Index Business Day, the day that such Loss Rebalancing Event occurs, subject to adjustment as described under "— Market Disruption Event"; and

(b) if a Loss Rebalancing Event occurs after 3:15 p.m. on an Index Business Day, the first Index Business Day following the occurrence of such Loss Rebalancing Event, subject to adjustment as described under "— Market Disruption Event."

**Permanent Deleveraging Event**

A Permanent Deleveraging Event will have the effect of deleveraging your Securities, with the aim of permanently resetting the then-current leverage to 1.0 over two Index Business Days. The leverage at the end of the First Permanent Deleveraging Valuation Date is reset to approximately 2.0 and the leverage at the end of the Second Permanent Deleveraging Valuation Date is reset to 1.0. This means that after a Permanent Deleveraging Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities than it would have had before the occurrence of the Permanent Deleveraging Event. If such an event were to occur, it most likely would occur only following a Loss Rebalancing Event and prior to the completion of the associated leverage reset to 2.0, which would generally occur at the end of the Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred or, if the Loss Rebalancing Event occurs 3:15 p.m. on an Index Business Day, at the end of the second Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred.

A "**Permanent Deleveraging Event**" occurs if, at any time on an Index Business Day (other than an Excluded Day, as defined below), the Intraday Index Value decreases by 40% or more from the Last Reset Index Closing Level. If a Permanent Deleveraging Event occurs, the Current Principal Amount of the Securities will be reset over two Index Business Days.

As used above, an "**Excluded Day**" means (i) the First or Second Permanent Deleveraging Valuation Dates, (ii) any calendar day after the Second Permanent Deleveraging Valuation Date, (iii) any day on or after which a Zero Value Event occurs, (iv) the day which is two Index Business Days prior to the first day of a Measurement Period, if a Permanent Deleveraging Event occurs after 3:15 p.m. on such day, and (v) any calendar day from and including the Index Business Day immediately preceding the first day of a Measurement Period.

"**Permanent Deleveraging Valuation Dates**" means the First Permanent Deleveraging Valuation Date and the Second Permanent Deleveraging Valuation Date, each as defined below:

(a) The "**First Permanent Deleveraging Valuation Date**" means:

i. any Index Business Day, which otherwise would have been a Loss Rebalancing Valuation Date, but on which a Permanent Deleveraging Event has occurred, subject to adjustment as described under "— Market Disruption Event"; or

ii. if a Permanent Deleveraging Event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, then the first Index Business Day following the occurrence of such Permanent Deleveraging Event, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to approximately 2.0 at the close of trading on the First Permanent Deleveraging Valuation Date.

(b) The "**Second Permanent Deleveraging Valuation Date**" means the Index Business Day immediately following the First Permanent Deleveraging Valuation Date, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to 1.0 at the close of trading on the Second Permanent Deleveraging Valuation Date.

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split and its effective date. The date of such press release shall be deemed to be the "**announcement date**" of the split or the reverse split, the record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Current Principal Amount, Closing Indicative Value, Current Indicative Value, Accrued Fees, Measurement Period Cash Amount and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company ("**DTC**") on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Current Principal Amount on such record date will be divided by four to reflect the 4:1 split. The adjusted Current Principal Amount will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Current Principal Amount and other relevant terms of the Securities will be adjusted accordingly and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as "partials"). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Current Principal Amount of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Current Principal Amount will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Current Principal Amount of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

## Security Calculation Agent

UBS Securities LLC will act as the "Security Calculation Agent." The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, the Current Principal Amount, Current Indicative Value (which we also refer to as the intraday indicative value), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Leverage Factor, the Index Factor, the Index Performance Ratio, the Residual Factor, the Index Closing Level, the Financing Rate, the Accrued Fees (including determining any successor to the SOFR base rate), the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, the Call Settlement Amount, that we will pay you if we call the Securities, whether a Loss Rebalancing Event has occurred, whether a Permanent Deleveraging Event has occurred and whether any day is an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. If any Intraday Index Value as published by Bloomberg on any Index Business Day is manifestly incorrect, the Security Calculation Agent may base its determination of whether a Loss Rebalancing Event, Permanent Deleveraging Event or Zero Value Event shall have occurred on such Index Business Day on its own determination of such Intraday Index Value. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you, and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date or any Call Settlement Date.

All dollar amounts related to determination of the Accrued Fees, the Current Principal Amount, and any

Redemption Amount, Redemption Fee Amount, Call Settlement Amount or Cash Settlement Amount per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (e.g., .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

## Market Disruption Event

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a four-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the four-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4 and June 5, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day and the next Index Business Day after June 5th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a four-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or any Reset Valuation Date, the Index Closing Level for such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or Reset Valuation Date occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date, Calculation Date or any Reset Valuation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging."

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "absence of trading" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, *plus*
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of, Adjustments to or Benchmark Event Affecting the Index or Termination of Our License Agreement with the Index Sponsor; Alteration of Method of Calculation**

If (i) the Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) a Benchmark Event (as described below) under the EU Benchmarks Regulation or UK Benchmarks Regulation (each as described under "Risk Factors – The Securities are linked to the Index and are subject to certain regulatory risks") occurs with respect to the Index or the Index Sponsor, if applicable, (iii) our license agreement with the Index Sponsor terminates or (iv) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an EU Benchmarks Regulation compliant index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto to be furnished to the trustee, to us and to the holders of the Securities.

If the Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

For purposes of the above, a "**Benchmark Event**" may occur if the EU Benchmarks Regulation and/or UK Benchmarks Regulation, as applicable, applies to this issuance of Securities, and the applicable registration for the Index or Index Sponsor is not effective or has been suspended or withdrawn by the relevant authority with the effect that the use of the Index or the Index Sponsor is not permitted under the EU Benchmarks Regulation or UK Benchmarks Regulation, as applicable.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, Current Principal Amount, Current Indicative Value (intraday indicative value), Closing Indicative Value, Index Factor, Index Performance Ratio, Residual Factor, Accrued Fees, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity or upon early redemption or call by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An "**Index Replacement Event**" means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after September 14, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after September 14, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities, or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor or Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Index Performance Ratio, the Last Reset Index Closing Level, the Accrued Fees, and any Redemption Amount, Redemption Fee Amount, Cash Settlement Amount or Call Settlement Amount, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor or Substitute Index is a fraction or multiple of what it would have been if there had been no such modification (e.g., due to a rebasing of the Index), which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (e.g., as if such rebasing had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

**Reissuances or Reopened Issues**

We may, at our sole discretion, "reopen" or reissue the Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to "Description of Debt Securities We May Offer — Amounts That We May Issue" in "Medium-Term Notes, Series B" above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities and will have the same CUSIP number and will trade interchangeably with the Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

**Booking Branch**

The Securities will be booked through UBS AG, London Branch.

**Clearance and Settlement**

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC's settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 21. ETRACS 2x Leveraged IFED Invest with the Fed TR Index ETN due September 15, 2061

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary. Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 12, 2015 between us and U.S. Bank Trust National Association, as trustee.

We describe the terms of the Securities in more detail below. The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or upon early redemption or call. Instead, at maturity, you will receive a cash payment per Security the amount of which will vary depending on the performance and path of the Index and will be reduced by the Accrued Fees as of the last Index Business Day in the Final Measurement Period as described under "— Cash Settlement Amount at Maturity." If the amount as calculated is equal to or less than zero, the Cash Settlement Amount will be zero and you will not receive a cash payment.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment per Security on the relevant Redemption Date equal to the Redemption Amount as described under "— Early Redemption at the Option of the Holders." If the amount as calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is September 15, 2061, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called, redeemed or accelerated upon Zero Value Event, you will receive at maturity a cash payment equal to its Closing Indicative Value on the last Index Business Day in the applicable Measurement Period. We refer to this cash payment as the "**Cash Settlement Amount**." If the amount so calculated is equal to or less than zero, the payment will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| Cash Settlement Amount | = | Closing Indicative Value, on last Index Business Day in Final Measurement Period |

**You may lose all or a substantial portion of your investment at maturity. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, you may lose all or a substantial portion of your investment at maturity. The occurrence of Loss Rebalancing Events will result in more frequent than quarterly compounding.**

**UBS may call the Securities prior to the Maturity Date pursuant to its Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment.** See "— UBS Call Right".

The "**Stated Principal Amount**" of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The Closing Indicative Value represents the dollar value per Security that an investor would receive on any day if it redeemed the Security that day (without giving effect to any Redemption Fee Amount).

The "**Closing Indicative Value**" per Security, will be calculated as follows:

(a) On the Initial Trade Date, $25.00 per Security.

(b) On any other calendar day, prior to the first day of an applicable Measurement Period, an amount per Security equal to:
(Current Principal Amount on the immediately preceding calendar day × Index Factor) – Accrued Fees

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) – Accrued Fees + Measurement Period Cash Amount

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is less than or equal to the Measurement Period Cash Amount from the immediately preceding calendar day, the Closing Indicative Value for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Closing Indicative Value on any calendar day will be zero.

**If a Zero Value Event occurs, the Closing Indicative Value will be equal to zero on the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "— Automatic Acceleration Upon Zero Value Event".

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The "**Current Principal Amount**" represents the unleveraged notional investment in the Index Constituent Securities per Security at the close of trading on any Reset Valuation Date. The notional financing amount per Security in order to generate the leveraged returns would approximately equal the Current Principal Amount at the close of trading on any Reset Valuation Date. If a Permanent Deleveraging Event occurs, the leverage of your Securities will be permanently reset to 1.0 and the notional financing amount will be equal to zero for the remaining term of the Securities. If a Zero Value Event occurs prior to your Securities permanently resetting to 1.0 at the end of the Second Permanent Deleveraging Valuation Date, then your Securities will be automatically accelerated and mandatorily redeemed and you will lose your entire investment.

The Current Principal Amount per Security, will be calculated as follows:

(a) From and including the Initial Trade Date to and excluding the first Reset Valuation Date, $25.00 per Security.

(b) At the close of trading on each Reset Valuation Date after the Initial Trade Date, the Current Principal Amount of the Securities will be reset as follows:

*New* Current Principal Amount = (Current Principal Amount on immediately preceding calendar day × Index Factor) – Accrued Fees

The Current Principal Amount will not change until the first Reset Valuation Date.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, such day will not be a valid Reset Valuation Date.

If the Securities undergo a split or reverse split, the Current Principal Amount will be adjusted accordingly.

At the close of trading on each Reset Valuation Date, the Current Principal Amount is reset.

**The "Reset Valuation Date**" means:

(a) Any calendar day up to and including the Second Permanent Deleveraging Valuation Date, that is either: (i) the Initial Trade Date, (ii) a Quarterly Reset Valuation Date, (iii) a Loss Rebalancing Valuation Date (iv) the First Permanent Deleveraging Valuation Date, or (v) the Second Permanent Deleveraging Valuation Date; and

(b) Any calendar day following the Second Permanent Deleveraging Valuation Date.

The valuation dates are defined below.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, it will not be a valid Reset Valuation Date and the Last Reset Index Closing Level will remain the same.

The "**Quarterly Reset Valuation Date**" is the second Wednesday of January, April, July and October of each calendar year during the term of the Securities (other than an Excluded Day, as defined below), subject to adjustment as described under "—Market Disruption Event".

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding the first day of an applicable Measurement Period, and any calendar day thereafter, and (ii) any calendar day after the Second Permanent Deleveraging Valuation Date.

The "**Index Factor**" is: 1 + (Leverage Factor × Index Performance Ratio).

The Index Factor represents the leveraged percentage change in the Index level since the Last Reset Index Closing Level. The Index Factor times the applicable Current Principal Amount on the preceding calendar day represents the current value of the unleveraged notional amount per Security that is deemed invested in the Index on any calendar day. This does not reflect the Redemption Amount that an investor would receive upon early redemption on such calendar day.

The "**Residual Factor**" will be calculated as follows:

(a) 1.0 on any calendar day, to but excluding the first day of an applicable Measurement Period.

(b) From and including the first day of an applicable four-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such four-day Measurement Period, divided by (b) four.

For example, on the first Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 3/4, on the second Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 2/4, on the third Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 1/4 and on the last Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal zero.

(c) On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The Residual Factor is intended to approximate the percentage of the Current Principal Amount that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas. At the close of trading on each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash.

The "**Leverage Factor**" on any calendar day until the occurrence of a Permanent Deleveraging Event and the close of trading on the Second Permanent Deleveraging Valuation Date, will equal 2.0. If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Leverage Factor will equal 1.0.

The "**Index Performance Ratio**" on any Index Business Day will be equal to:

$$\frac{\text{Index Closing Level} - \text{Last Reset Index Closing Level}}{\text{Last Reset Index Closing Level}}$$

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

The "**Last Reset Index Closing Level"** is the Index Closing Level on the most recent Reset Valuation Date prior to such day. The initial Last Reset Index Closing Level is the Index Closing Level on the Initial Trade Date, as reported by Bloomberg and Reuters.

The “**Index Closing Level**” on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. The initial Index Closing Level (which is also the first Last Reset Index Closing Level) was determined on September 14, 2021 by the Security Calculation Agent. If the closing level of the Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the “**Index Closing Level**” for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates.

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

“**Measurement Period**” means the Final Measurement Period or, if UBS exercises its Call Right, the Call Measurement Period.

The “**Current Indicative Value**” or “**intraday indicative value**”, as determined by the Security Calculation Agent, is an amount per Security, on an intraday basis on any Index Business Day, equal to:

(a) On the Initial Trade Date, $25.00.

(b) On any other calendar day prior to the first day of a Measurement Period:

(Current Principal Amount on the immediately preceding calendar day × Index Factor, calculated using the Intraday Index Value) – Accrued Fees

(c) From and including the first day of a Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor, calculated using the Intraday Index Value × Residual Factor on the immediately preceding calendar day) – Accrued Fees + Measurement Period Cash Amount, from the immediately preceding calendar day

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is less than or equal to the Measurement Period Cash Amount from the immediately preceding calendar day, the Current Indicative Value for the remainder of that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Current Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (intraday indicative value).

**If a Zero Value Event occurs, the Current Indicative Value (intraday indicative value) will be equal to zero for the remainder of the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See “— Automatic Acceleration Upon Zero Value Event”.

If the Securities undergo a split or reverse split, the Current Indicative Value (intraday indicative value) will be adjusted accordingly.

The “**Accrued Fees**” as of any date of determination means the Accrued Tracking Fee + the Accrued Financing Fee.

If the Securities undergo a split or reverse split, the Accrued Fees will be adjusted accordingly.

The Securities are subject to an “Accrued Tracking Fee” per Security, calculated as follows:

(a) On the Initial Trade Date, the Accrued Tracking Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Tracking Fee is equal to: (a) the Accrued Tracking Fee as of the immediately preceding calendar day, plus (b) the Daily Tracking Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Tracking Fee is reset to be equal to the Daily Tracking Fee on such calendar day.

The “**Daily Tracking Fee**” is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Tracking Fee is zero.

(b) On any subsequent calendar day, the Daily Tracking Fee is equal to:

(1) (i) 0.95% times (ii) the Current Principal Amount on the immediately preceding calendar day times (iii) the Index Factor on such calendar day times (iv) the Residual Factor on the immediately preceding calendar day, divided by (2) 365.

(c) The minimum value of the Daily Tracking Fee on any calendar day will be zero.

The Daily Tracking Fee represents the investor fees calculated each day on the current value of the unleveraged notional amount invested in the Index per Security. These charges accrue and compound during the applicable period, and will reduce any amount you are entitled to receive at maturity or upon early redemption or call.
If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly.

The Securities are subject to an “**Accrued Financing Fee**” per Security calculated as follows:

(a) On the Initial Trade Date, the Accrued Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Financing Fee is equal to:

(1) the Accrued Financing Fee as of the immediately preceding calendar day, plus (2) the Daily Financing Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Financing Fee is reset to be equal to the Daily Financing Fee on such calendar day.

(d) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Accrued Financing Fee will be equal to zero.

The “**Daily Financing Fee**” is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Daily Financing Fee is equal to:

(1) (i) the Financing Rate on such calendar day *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 360.

(c) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Daily Financing Fee will be equal to zero.

(d) The minimum value of the Daily Financing Fee on any calendar day will be zero.

The Daily Financing Fee seeks to compensate UBS for providing investors with a leveraged participation in movements of the Index and is intended to approximate the financing costs that investors may have otherwise incurred had they sought to borrow funds at a similar rate from a third party to invest in the Index. These charges accrue and compound during the applicable period, and will reduce any amount that you will be entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Financing Fee will be adjusted accordingly.

The “**Financing Rate**” will equal the sum of (a) 1.55% and (b) SOFR on the immediately preceding U.S. Government Securities Business Day. The minimum value of SOFR (or any successor base rate, as described below) used on any calendar day will be zero. The minimum Financing Rate at any time will be 1.55%.

For example, 0.05% was the SOFR rate on September 10, 2021, which was a U.S. Government Securities Business Day. The Financing Rate on September 13, 2021 would therefore have been equal to 1.55% + 0.05%, or 1.60.

"**SOFR**" means, with respect to any U.S. Government Securities Business Day, the daily secured overnight financing rate for such U.S. Government Securities Business Day as provided by the SOFR Administrator on the SOFR Administrator's Website. If for any U.S. Government Securities Business Day, the SOFR in respect of that day has not been published on the SOFR Administrator's Website by the time the Security Calculation Agent determines the Financing Rate for the immediately succeeding day and the Security Calculation Agent has not determined that SOFR has been discontinued, then the SOFR for such day will be the secured overnight financing rate as published in respect of the first preceding U.S. Government Securities Business Day for which the secured overnight financing rate was published on the SOFR Administrator's Website.

"**SOFR Administrator**" means the Federal Reserve Bank of New York (or a successor administrator of SOFR).

"**SOFR Administrator's Website**" means the website of the SOFR Administrator, currently at http://www.newyorkfed.org, or any successor source.

"**U.S. Government Securities Business Day**" means any day except for a Saturday, a Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

*Information About the Secured Overnight Financing Rate*

All disclosures contained herein regarding the secured overnight financing rate, including, without limitation, its make-up and method of calculation, have been derived from publicly available sources. The information reflects the policies of, and is subject to change by the Federal Reserve Bank of New York. The secured overnight financing rate is published by the Federal Reserve Bank of New York, but the Federal Reserve Bank of New York has no obligation to continue to publish, and may discontinue publication of, the secured overnight financing rate. Neither UBS nor any of its affiliates accepts any responsibility for the calculation, maintenance or publication of the secured overnight financing rate or any successor or replacement rate. Information from outside sources including, but not limited to any website referenced in this section, is not incorporated by reference in, and should not be considered part of, this document or any document incorporated herein by reference. UBS has not conducted any independent review or due diligence of any publicly available information with respect to the secured overnight financing rate.

The secured overnight financing rate is published by the Federal Reserve Bank of New York and is intended to be a broad measure of the cost of borrowing cash overnight collateralized by U.S. Treasury securities. The Federal Reserve Bank of New York reports that secured overnight financing rate includes all trades in the "Broad General Collateral Rate" (as defined on the Federal Reserve Bank of New York's Website), plus bilateral Treasury repurchase agreement transactions cleared through the delivery-versus-payment service offered by the Fixed Income Clearing Corporation (the "**FICC**"), a subsidiary of the Depository Trust and Clearing Corporation ("**DTCC**"). The secured overnight financing rate is filtered by the Federal Reserve Bank of New York to remove a portion of the foregoing transactions considered to be "Specials", which are repurchases for specific-issue collateral, which take place at cash-lending rates below those for general collateral repurchases because cash providers are willing to accept a lesser return on their cash in order to obtain a particular security.

The Federal Reserve Bank of New York reports that the secured overnight financing rate is calculated as a volume-weighted median of transaction-level tri-party repo data collected from The Bank of New York Mellon ("**BNYM**") as well as General Collateral Finance repurchase agreement transaction data and data on bilateral Treasury repurchase transactions cleared through the FICC's delivery-versus-payment service. The Federal Reserve Bank of New York notes that it obtains information from DTCC Solutions LLC, an affiliate of DTCC. The Federal Reserve Bank of New York notes on its publication page for the secured overnight financing rate that use of the secured overnight financing rate is subject to important limitations and disclaimers, including that the Federal Reserve Bank of New York may alter the methods of calculation, publication schedule, rate revision practices or availability of the secured overnight financing rate at any time without notice. The secured overnight financing rate is published at approximately 8:00 a.m. (New York time) on each U.S. Government Securities Business Day for trades made on the immediately preceding U.S. Government Securities Business Day. If the Federal Reserve Bank of New York discovers errors in the transaction data provided by either BNYM or DTCC, or in the calculation process, subsequent to the rate publication but on that same day, the secured overnight financing rate and accompanying summary statistics may be republished at approximately 2:30 p.m. (New York time). Similarly, if transaction data from BNYM or DTCC had previously not been available in time for publication, but became available later in the day, the secured overnight financing rate may be republished at approximately 2:30 p.m. (New York time). Rate revisions will only be effected on the same day as initial publication and will only be republished if the change in the rate exceeds one basis point (0.01%), though the Federal Reserve Bank of New York will review this revision threshold periodically and could modify it after any such review. The description of the secured overnight financing rate herein does not purport to be exhaustive.

Because the secured overnight financing rate is published by the Federal Reserve Bank of New York based on data received from other sources, neither UBS nor any of our affiliates has any control over its determination, calculation or publication. There can be no guarantee that the secured overnight financing rate will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in the Securities. If the manner in which the secured overnight financing rate is calculated is changed, that change may result in an increase in the Financing Rate on the Securities.

The Federal Reserve Bank of New York began publishing the secured overnight financing rate in April 2018. The Federal Reserve Bank of New York has also published historical indicative secured overnight financing rates going back to August 2014. Investors should not rely on any historical changes or trends in the secured overnight financing rate as an indicator of future changes in the secured overnight financing rate. Also, since the secured overnight financing rate is relatively new, the Securities are not expected to have established trading market when issued, and an established trading market may never develop or may not be very liquid. In addition, if the secured overnight financing rate does not become widely used as a benchmark in securities that are similar or comparable to the Securities, the trading price of the Securities may be lower than those of other securities that are linked to rates that are more widely used. Similarly, market terms for exchange traded notes with financing rates linked to the secured overnight financing rate may evolve over time, and trading prices of the Securities may be lower than those of later-issued secured overnight financing rate-linked exchange traded notes as a result. Investors in the Securities may not be able to sell the Securities at all or may not be able to sell the Securities at prices comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

The Federal Reserve Bank of New York is not responsible for publication of the secured overnight financing rate rates by UBS, does not sanction or endorse any particular republication, and has no liability for your use. For a more complete discussion of the secured overnight financing rate , see the website of SOFR Administrator’s Website.

Notwithstanding the foregoing:

- If the Security Calculation Agent determines on the relevant determination date that SOFR (or any successor base rate) has been discontinued, then the Security Calculation Agent will use a substitute or successor base rate that it has determined in its sole discretion is most comparable to the SOFR base rate (or such successor base rate), provided that if the Security Calculation Agent determines there is an industry-accepted successor base rate for exchange traded notes similar to the Securities, then the Security Calculation Agent shall use such successor base rate; and
- If the Security Calculation Agent has determined a substitute or successor base rate in accordance with the foregoing, the Security Calculation Agent in its sole discretion may determine the business day convention, definition of business day and any other relevant methodology for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to the SOFR base rate (or such successor base rate), in a manner that is consistent with industry-accepted practices for such substitute or successor base rate.

The establishment of SOFR (or such successor base rate, as applicable) for each period by the Security Calculation Agent shall (in the absence of manifest error) be final and binding.

The “**Measurement Period Cash Amount”** is an amount per Security equal to:

(a) $0.00 on any calendar day, to but excluding the first day of a Measurement Period.

(b) On the first day of a one-day Measurement Period:

At the close of trading on such Index Business Day, (Current Principal Amount on the immediately preceding calendar day × Index Factor, on such Index Business Day).

(c) From and including the first day of a four-day Measurement Period:

(i) At the close of trading on each Index Business Day during the four-day Measurement Period, the Measurement Period Cash Amount on the immediately preceding calendar day + (Current Principal Amount on the calendar day immediately preceding the first day of such Measurement Period × 0.25 × Index Factor, on such Index Business Day); and

(ii) On any calendar day during the Measurement Period that is not an Index Business Day, the Measurement Period Cash Amount on the immediately preceding Index Business Day.

(d) On any calendar day after the last Index Business Day of a Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

Notwithstanding the foregoing, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, then the Measurement Period Cash Amount for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

The Measurement Period Cash Amount represents the portion of the Current Principal Amount that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period, will be deemed converted to cash and an applicable portion of the notional financing amount will separately be deemed converted to cash as well. After the close of trading on the final Index Business Day of a four-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Current Principal Amount that was deemed converted to cash across the four-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount will be deemed converted to cash and an applicable amount of financing will separately be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $500,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $500,000,000, the four Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day times (ii) the number of Securities outstanding as reported by FEDLSO <Index> on Bloomberg.

The "**Index Calculation Agent**" means the entity that calculates and publishes the level of the Index, which is currently Indxx LLC.

The "**Calculation Date**" means September 7, 2061, unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Business Day**" means any day that is not a Saturday, Sunday or a day on which banking institutions in The City of New York, generally, are authorized or obligated by law, regulation or executive order to close.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The IFED Large-Cap US Equity Index Total Return (Bloomberg: "IFEDLT") is the total return version of the IFED Large-Cap US Equity Index (Bloomberg: "IFEDL"). The Index tracks large-cap U.S. equities that are determined by Economic Index Associates, LLC ("EIA" or the "Index Sponsor") to be best positioned to benefit from the prevailing monetary environment. We refer to the companies included in the Index as the "Index Constituent Securities". The Index is developed by EIA and calculated by Indxx LLC ("Indxx"). **The Index is a total return index and the Index level reflects the notional reinvestment of the cash distributions from its constituent securities.**

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event", you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon and a confirmation of redemption by no later than 5:00 p.m. on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time to time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The First Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable. If a Zero Value Event occurs, the last Redemption Date will be the date on which the Zero Value Event occurred.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of the Redemption Valuation Date).

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures", for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount.**" If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero. We reserve the right from time to time to reduce or waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.
The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

Redemption Amount = Closing Indicative Value – Redemption Fee Amount

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Accrued Fees and the Redemption Fee Amount will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees and the Redemption Fee Amount, if applicable, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon early redemption. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to its Call Right and, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "— UBS Call Right" and "— Automatic Acceleration Upon Zero Value Event".

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;
- deliver the signed confirmation of redemption, which we refer to as the "Redemption Confirmation", to us via email in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;
- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and
- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m., on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to reduce or waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which may be provided via press release) not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event".

The "**Call Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than $500,000,000, the Call Valuation Date, subject to adjustments as described under "— Market Disruption Event"; and

(b) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than $500,000,000, the four Index Business Days from and including the Call Valuation Date, subject to adjustment as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right will equal:

> (i) The Closing Indicative Value as of such Index Business Day times (ii) the number of Securities outstanding as reported by FEDLSO <Index> on Bloomberg.

The "**Call Valuation Date**" means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| Cash Settlement Amount | = | Closing Indicative Value, on last Index Business Day in Call Measurement Period |

**You may lose all or a substantial portion of your investment if we exercise our Call Right. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon a call. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**In addition, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS**. See "— Automatic Acceleration Upon Zero Value Event" below.

**Automatic Acceleration Upon Zero Value Event**

A Zero Value Event represents the first instance when the Current Indicative Value (intraday indicative value) or the Closing Indicative Value is less than or equal to zero (other than on an Excluded Day, as defined below). It will have the effect of permanently resetting the value of your Securities to zero and accelerating the Securities. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.

A Zero Value Event can occur only if a Permanent Deleveraging Event occurs and the Current Indicative Value (intraday indicative value) or the Closing Indicative Value declines to zero before the leverage of your Securities is reset to 1.0 at the close of trading on the Index Business Day following such event (or if such event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, the second Index Business Day following such event), as described under "Permanent Deleveraging Valuation Dates" above.

A "**Zero Value Event**" occurs if the Current Indicative Value (intraday indicative value) or the Closing Indicative Value on any Index Business Day (other than an Excluded Day, as defined below) is less than or equal to zero. From immediately after the Zero Value Event and on all future calendar days, the Current Indicative Value (intraday indicative value) and the Closing Indicative Value will be set equal to zero.

As used above, an "**Excluded Day**" means (i) any calendar day after the Second Permanent Deleveraging Valuation Date (ii) any calendar day on or after which a Zero Value Event has already occurred, and (iii) any calendar day after the last day of an applicable Measurement Period.

In the event that a Zero Value Event has occurred, UBS will issue a press release shortly after the event; provided that the failure to do so shall not affect the automatic acceleration and redemption of the Securities. The Securities will be suspended from trading intraday shortly after the event occurs and will likely not be open for trading again on NYSE Arca.

**You will lose your entire investment upon the occurrence of a Zero Value Event.**

**In addition, we may call the Securities prior to the Maturity Date pursuant to our Call Right.** See "Specific Terms of the Securities — UBS Call Right".

**Loss Rebalancing Events**

A Loss Rebalancing Event will have the effect of deleveraging your Securities with the aim of resetting the then-current leverage to approximately 2.0. This means that after a Loss Rebalancing Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities relative to before the occurrence of the Loss Rebalancing Event.

A "**Loss Rebalancing Event**" occurs if, at any time, the Intraday Index Value on such Index Business Day (other than an Excluded Day, as used below) decreases by 20% or more from the previous Last Reset Index Closing Level.

Loss Rebalancing Events may occur multiple times over the term of the Securities and may occur multiple times during a single calendar quarter. This means both that (i) the Current Principal Amount may be reset more frequently than quarterly and (ii) the cumulative effect of compounding and fees will have increased as a result of the Loss Rebalancing Event(s). Because each Loss Rebalancing Event will have the effect of deleveraging your Securities, following a Loss Rebalancing Event your Securities will have less exposure to a potential positive gain in value relative to the exposure before the occurrence of such Loss Rebalancing Event.

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding any Quarterly Reset Valuation Date, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day, (ii) any Quarterly Reset Valuation Date, (iii) any Loss Rebalancing Valuation Date, (iv) the Index Business Day immediately preceding the first day of an applicable Measurement Period, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day (v) any calendar day from and including the first day of an applicable Measurement Period, (vi) the First or Second Permanent Deleveraging Valuation Dates, (vii) any calendar day after the Second Permanent Deleveraging Valuation Date, and (viii) any calendar day on or after which a Zero Value Event has occurred.

"**Loss Rebalancing Valuation Date**" means:

(a) if a Loss Rebalancing Event occurs at or prior to 3:15 p.m. on an Index Business Day, the day that such Loss Rebalancing Event occurs, subject to adjustment as described under "— Market Disruption Event" beginning on page S-84; and

(b) if a Loss Rebalancing Event occurs after 3:15 p.m. on an Index Business Day, the first Index Business Day following the occurrence of such Loss Rebalancing Event, subject to adjustment as described under "— Market Disruption Event."

**Permanent Deleveraging Event**

A Permanent Deleveraging Event will have the effect of deleveraging your Securities, with the aim of permanently resetting the then-current leverage to 1.0 over two Index Business Days. The leverage at the end of the First Permanent Deleveraging Valuation Date is reset to approximately 2.0 and the leverage at the end of the Second Permanent Deleveraging Valuation Date is reset to 1.0. This means that after a Permanent Deleveraging Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities than it would have had before the occurrence of the Permanent Deleveraging Event. If such an event were to occur, it most likely would occur only following a Loss Rebalancing Event and prior to the completion of the associated leverage reset to 2.0, which would generally occur at the end of the Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred or, if the Loss Rebalancing Event occurs 3:15 p.m. on an Index Business Day, at the end of the second Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred.

A "**Permanent Deleveraging Event**" occurs if, at any time on an Index Business Day (other than an Excluded Day, as defined below), the Intraday Index Value decreases by 40% or more from the Last Reset Index Closing Level. If a Permanent Deleveraging Event occurs, the Current Principal Amount of the Securities will be reset over two Index Business Days.

As used above, an "**Excluded Day**" means (i) the First or Second Permanent Deleveraging Valuation Dates, (ii) any calendar day after the Second Permanent Deleveraging Valuation Date, (iii) any day on or after which a Zero Value Event occurs, (iv) the day which is two Index Business Days prior to the first day of a Measurement Period, if a Permanent Deleveraging Event occurs after 3:15 p.m. on such day, and (v) any calendar day from and including the Index Business Day immediately preceding the first day of a Measurement Period.

"**Permanent Deleveraging Valuation Dates**" means the First Permanent Deleveraging Valuation Date and the Second Permanent Deleveraging Valuation Date, each as defined below:

(a) The "**First Permanent Deleveraging Valuation Date"** means:

(i) any Index Business Day, which otherwise would have been a Loss Rebalancing Valuation Date, but on which a Permanent Deleveraging Event has occurred, subject to adjustment as described under "— Market Disruption Event"; or

(ii) if a Permanent Deleveraging Event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, then the first Index Business Day following the occurrence of such Permanent Deleveraging Event, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to approximately 2.0 at the close of trading on the First Permanent Deleveraging Valuation Date.

(b) The "Second Permanent Deleveraging Valuation Date" means the Index Business Day immediately following the First Permanent Deleveraging Valuation Date, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to 1.0 at the close of trading on the Second Permanent Deleveraging Valuation Date.

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split and its effective date. The date of such press release shall be deemed to be the "**announcement date**" of the split or the reverse split, the record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Current Principal Amount, Closing Indicative Value, Current Indicative Value, Accrued Fees, Measurement Period Cash Amount and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company ("**DTC**") on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Current Principal Amount on such record date will be divided by four to reflect the 4:1 split. The adjusted Current Principal Amount will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Current Principal Amount and other relevant terms of the Securities will be adjusted accordingly and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as "partials"). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Current Principal Amount of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Current Principal Amount will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Current Principal Amount of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

**Security Calculation Agent**

UBS Securities LLC will act as the “Security Calculation Agent.” The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, the Current Principal Amount, Current Indicative Value (which we also refer to as the intraday indicative value), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Leverage Factor, the Index Factor, the Index Performance Ratio, the Residual Factor, the Index Closing Level, the Financing Rate, the Accrued Fees (including determining any successor to the SOFR base rate), the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, the Call Settlement Amount, that we will pay you if we call the Securities, whether a Loss Rebalancing Event has occurred, whether a Permanent Deleveraging Event has occurred and whether any day is an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. If any Intraday Index Value as published by Bloomberg on any Index Business Day is manifestly incorrect, the Security Calculation Agent may base its determination of whether a Loss Rebalancing Event, Permanent Deleveraging Event or Zero Value Event shall have occurred on such Index Business Day on its own determination of such Intraday Index Value. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you, and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date or any Call Settlement Date.

All dollar amounts related to determination of the Accrued Fees, the Current Principal Amount, and any Redemption Amount, Redemption Fee Amount, Call Settlement Amount or Cash Settlement Amount per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (*e.g.*, .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a four-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the four-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4 and June 5, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day and the next Index Business Day after June 5th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a four-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or any Reset Valuation Date, the Index Closing Level for such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or Reset Valuation Date occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date, Calculation Date or any Reset Valuation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging."

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "absence of trading" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, *plus*
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of, Adjustments to or Benchmark Event Affecting the Index or Termination of Our License Agreement with the Index Sponsor; Alteration of Method of Calculation**

If (i) the Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) a Benchmark Event (as described below) under the EU Benchmarks Regulation or UK Benchmarks Regulation (each as described under "Risk Factors – The Securities are linked to the Index and are subject to certain regulatory risks") occurs with respect to the Index or the Index Sponsor, if applicable, (iii) our license agreement with the Index Sponsor terminates or (iv) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an EU Benchmarks Regulation compliant index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto to be furnished to the trustee, to us and to the holders of the Securities.

If the Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

For purposes of the above, a "**Benchmark Event**" may occur if the EU Benchmarks Regulation and/or UK Benchmarks Regulation, as applicable, applies to this issuance of Securities, and the applicable registration for the Index or Index Sponsor is not effective or has been suspended or withdrawn by the relevant authority with the effect that the use of the Index or the Index Sponsor is not permitted under the EU Benchmarks Regulation or UK Benchmarks Regulation, as applicable. In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, Current Principal Amount, Current Indicative Value (intraday indicative value), Closing Indicative Value, Index Factor, Index Performance Ratio, Residual Factor, Accrued Fees, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity or upon early redemption or call by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An "**Index Replacement Event**" means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after September 14, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after September 14, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities, or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor or Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Index Performance Ratio, the Last Reset Index Closing Level, the Accrued Fees, and any Redemption Amount, Redemption Fee Amount, Cash Settlement Amount or Call Settlement Amount, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor or Substitute Index is a fraction or multiple of what it would have been if there had been no such modification (e.g., due to a rebasing of the Index), which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (*e.g.*, as if such rebasing had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in this prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

**Reissuances or Reopened Issues**

We may, at our sole discretion, "reopen" or reissue the Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of this prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to "Description of Debt Securities We May Offer — Amounts That We May Issue" in "Medium-Term Notes, Series B" above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities and will have the same CUSIP number and will trade interchangeably with the Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

**Booking Branch**

The Securities will be booked through UBS AG, London Branch.

**Clearance and Settlement**

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC's settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 22. ETRACS IFED Invest with the Fed TR Index ETN due September 15, 2061

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary. Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 12, 2015 between us and U.S. Bank Trust National Association, as trustee.

We describe the terms of the Securities in more detail below. The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or call, or upon early redemption. Instead, at maturity, you will receive a cash payment the amount of which will vary depending on the performance and path of the Index calculated in accordance with the formula set forth below and will be reduced by the Daily Tracking Fee as of the last Index Business Day in the applicable
Measurement Period or Redemption Valuation Date.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment on the Redemption Date equal to the Redemption Amount as described below under "— Early Redemption at the Option of the Holders." If the amount so calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

If we elect to exercise our call right to redeem all of the Securities, subject to compliance with the procedures set forth below, for each Security you will receive a cash payment on the Call Settlement Date equal to the Call Settlement Amount, as described below under "— UBS Call Right." If the amount so calculated is equal to or less than zero, the Call Settlement Amount will be zero and you will not receive a cash payment.

The Securities will not pay any cash coupon during their term.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is September 15, 2061, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called or redeemed, you will receive at maturity a cash payment equal to the Closing Indicative Value on the last day of the Final Measurement Period. We refer to this payment as the "**Cash Settlement Amount**". If the amount so calculated is equal to or less than zero, the payment at maturity will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

**Cash Settlement Amount= Closing Indicative Value, on last Index Business Day in Final Measurement Period**

**You may lose all or a substantial portion of your investment at maturity. The Securities are fully exposed to any decline in the level of the Index. The negative effect of the Daily Tracking Fee will reduce your final payment. If the level of the Index (as measured by the Index Closing Level at the end of the Final Measurement Period, as compared to the initial Index Closing Level or the Index level at the time you purchase the Securities, as applicable) does not increase by an amount sufficient to offset the negative effect of the Daily Tracking Fee, or if the final Index level is less than the initial Index Closing Level (or the Index level at the time you purchase the Securities, as applicable), you may lose all or a substantial portion of your investment at maturity. The Daily Tracking Fee also takes into account the performance of the Index, as measured by the Closing Indicative Value.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to the UBS Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment. See "— UBS Call Right".**

The "**Stated Principal Amount**" of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The "**Closing Indicative Value**" represents the dollar value per Security that an investor would receive on any day if it redeemed the Security on such day (excluding any Redemption Fee Amount). The Closing Indicative Value per Security will be calculated as follows:

(a) On the Initial Trade Date, $25.00 per Security

(b) On any subsequent calendar day, prior to but excluding the first day of an applicable Measurement Period, an amount per Security equal to:

(Closing Indicative Value on the previous calendar day * Index Factor)—Daily Tracking Fee

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Closing Indicative Value on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) + Measurement Period Cash Amount

The minimum value of the Closing Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The "**Index Factor**" on any Index Business Day prior to but excluding the first day of an applicable Measurement Period, will equal:

(i) the Index Closing Level, on such Index Business Day, divided by, (ii) the Index Closing Level, on the immediately preceding Index Business Day.

From and including the first day of an applicable Measurement Period, the Index Factor will equal:

(i) the Index Closing Level, on such calendar day, divided by, (ii) the Index Closing Level on the calendar day immediately preceding the first day of such Measurement Period.

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the immediately preceding Index Business Day. The Index Factor will therefore equal one (1) on any calendar day that is not an Index Business Day and is prior to the first Index Business Day of a five-day Measurement Period.

The "**Residual Factor**" will be calculated as follows:

(a) 1.0 on any calendar day, prior to but excluding the first day of an applicable Measurement Period

(b) From and including the first day of an applicable five-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such five-day Measurement Period, divided by (b) five.

The Residual Factor is intended to approximate the percentage of the Closing Indicative Value that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas.

For example, on the first Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal (4/5), on the second Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal (3/5), on the third Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal (2/5), on the fourth Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal (1/5) and on the last Index Business Day in an applicable five-day Measurement Period, the Residual Factor will equal zero.

On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The "**Index Closing Level**" on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. If the closing level of the Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the "Index Closing Level" for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. 23572.14 is the initial Index Closing Level measured on September 14, 2021 (the Initial Trade Date), as determined by the Security Calculation Agent.

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level from the last Index Business Day prior to such calendar day.

"**Measurement Period**" means the Final Measurement Period or Call Measurement Period, as applicable.

The "**Current Indicative Value**" or "intraday indicative value", as determined by the Security Calculation Agent, means the Closing Indicative Value per Security calculated on an intraday basis on any Index Business Day.

For the purposes of calculating the Current Indicative Value, the Index Factor will be determined using the Intraday Index Value. Additionally, from and including the first day of an applicable Measurement Period, the Current Indicative Value will be calculated using (i) the Measurement Period Cash Amount from the immediately preceding calendar day, and (ii) the Residual Factor from the immediately preceding calendar day.

The minimum value of the Current Indicative Value (or intraday indicative value) on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (or intraday indicative value).

If the Securities undergo a split or reverse split, the Current Indicative Value (or intraday indicative value) will be adjusted accordingly.

The "**Daily Tracking Fee**" means, as of any date of determination, an amount per Security equal to 0.45% per annum, calculated as follows:

(a) On the Initial Trade Date, $0.00 per Security;

(b) On any subsequent calendar day, prior to but excluding the first day of an applicable Measurement Period, an amount per Security equal to:

(0.45% / 365) × Closing Indicative Value on the immediately preceding calendar day × Index Factor

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(0.45% / 365) × Closing Indicative Value on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor on the immediately preceding calendar day

The minimum value of the Daily Tracking Fee on any calendar day will be zero.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly.

The "**Measurement Period Cash Amount**" is an amount per Security equal to:

(a) $0.00, on any calendar day prior to but excluding the first day of an applicable Measurement Period

(b) On the first day of an applicable one-day Measurement Period:

(i) At the close of trading on such Index Business Day, the (Closing Indicative Value, on the immediately preceding calendar day, times Index Factor, on such Index Business Day), minus Daily Tracking Fee.

(c) From and including the first day of an applicable five-day Measurement Period:

(i) At the close of trading on each Index Business Day, will equal:

(a) Measurement Period Cash Amount on the immediately preceding calendar day, *plus* (b) ( (i) Closing Indicative Value, on the calendar day immediately preceding the first day of such Measurement Period, *times* (ii) Index Factor, *divided* by (iii) five), *minus* (c) Daily Tracking Fee.

(ii) On any calendar day that is not an Index Business Day, will equal the Measurement Period Cash Amount on the immediately preceding Index Business Day, *minus* Daily Tracking Fee.

(d) On any calendar day after the last Index Business Day of an applicable Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

The minimum value of the Measurement Period Cash Amount on any calendar day will be zero.

The Measurement Period Cash Amount represents the portion of the Closing Indicative Value that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business day during a five-day Measurement Period, approximately 20% of the Closing Indicative Value, on the calendar day immediately preceding the first day of the Measurement Period, will be deemed converted to cash. After the close of trading on the final Index Business Day of an applicable five-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Closing Indicative Value that was deemed converted to cash across the five-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Closing Indicative Value will be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $250,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $250,000,000, the five (5) Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "Market Value" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day, times (ii) the number of Securities outstanding as reported by IFEDSO <Index> on Bloomberg.

The "Index Calculation Agent" means the entity that calculates and publishes the level of the Index, which is currently Indxx LLC.

The "**Calculation Date**" means September 6, 2061 unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Business Day**" means any day that is not a Saturday, Sunday or a day on which banking institutions in The City of New York, generally, are authorized or obligated by law, regulation or executive order to close.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The IFED Large-Cap US Equity Index Total Return (Bloomberg: "IFEDLT") is the total return version of the IFED Large-Cap US Equity Index (Bloomberg: "IFEDL"). The Index tracks large-cap U.S. equities that are determined by Economic Index Associates, LLC ("**EIA**" or the "**Index Sponsor**") to be best positioned to benefit from the prevailing monetary environment. We refer to the companies included in the Index as the "Index Constituent Securities". **The Index is developed by EIA and calculated by Indxx LLC ("Indxx"). The Index is a total return index and the Index level reflects the notional reinvestment of the cash distributions from its constituent securities.**

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event," you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon, and a confirmation of redemption by no later than 5:00 p.m., on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time-to-time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume that you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The First Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable.
If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures," for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**."

If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero.

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of such Redemption Valuation Date).

We reserve the right from time to time to reduce or waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

**Redemption Amount = Closing Indicative Value — Redemption Fee Amount**

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Daily Tracking Fee and the Redemption Fee Amount will reduce your Redemption Amount. If the level of the Index does not increase by an amount sufficient to offset the combined negative effect of the Daily Tracking Fee and the Redemption Fee Amount, or if the final Index level is less than the initial Index Closing Level (or the Index level at the time you purchase the Securities, as applicable), you may lose some or all of your investment upon early redemption.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to the UBS Call Right.** See – UBS Call Right".

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;
- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**," to us via e-mail in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;
- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and
- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m, on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to reduce or waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which notice may be provided via press release), not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event."

The “**Call Measurement Period**” means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than $250,000,000, the Call Valuation Date, subject to adjustments as described under “— Market Disruption Event”; or

(b) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than $250,000,000, the five (5) Index Business Days from and including the Call Valuation Date, subject to adjustment as described under “— Market Disruption Event.”

For the purpose of determining the Call Measurement Period, the “**Market Value**” of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right, will equal:

(a) the Closing Indicative Value as of such Index Business Day, times (ii) the number of Securities outstanding as reported by IFEDSO <Index> on Bloomberg.

The “**Call Valuation Date**” means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

**Call Settlement Amount = Closing Indicative Value on last Index Business Day in Call Measurement Period**

**You may lose all or a substantial portion of your investment upon a call. The negative effect of the Daily Tracking Fee will reduce your final payment. If the level of the Index does not increase by an amount sufficient to offset the negative effect of the Daily Tracking Fee, or if the final Index level is less than the initial Index Closing Level (or the Index level at the time you purchase the Securities, as applicable), you may lose some or all of your investment upon UBS’s exercise of its call right.**

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split, and its effective date. The date of such press release shall be deemed to be the “**announcement date**” of the split or the reverse split. The record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Closing Indicative Value and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company (“**DTC**”) on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Closing Indicative Value on such record date will be divided by four to reflect the 4:1 split. The adjusted Closing Indicative Value will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Closing Indicative Value and other relevant terms of the Securities will be adjusted accordingly, and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as “partials”). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Closing Indicative Value of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Closing Indicative Value will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

**Security Calculation Agent**

UBS Securities LLC will act as the "Security Calculation Agent." The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, Current Indicative Value (which we also refer to as the "intraday indicative value"), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Index Factor, the Residual Factor, the Index Closing Level, the Daily Tracking Fee, the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, if applicable and the Call Settlement Amount, if any, that we will pay you in the event that UBS calls the Securities, and whether any day is a Business Day or an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date, or any Call Settlement Date.

All dollar amounts related to determination of the Daily Tracking Fee, the Redemption Amount and Redemption Fee Amount, if any, per security, the Call Settlement Amount, if any, per security, and the Cash Settlement Amount, if any, per security, will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (e.g., .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a five-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the five-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4, June 5 and June 6, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day, June 6th the fourth Index Business Day and the next Index Business Day after June 6th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a five-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date) or the Calculation Date (in the event that the Final Measurement Period is the Calculation Date), the Index Closing Level for such Redemption Valuation Date, Call Valuation Date or Calculation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date) or Calculation Date (in the event that the Final Measurement Period is the Calculation Date) occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date or Calculation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date or Calculation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging".

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "**absence of trading**" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent, in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, plus
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five (5) Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five (5) Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.
In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of, Adjustments to or Benchmark Event Affecting the Index or Termination of Our License Agreement with the Index Sponsor; Alteration of Method of Calculation**

If (i) the Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) a Benchmark Event (as described below) under the EU Benchmarks Regulation or UK Benchmarks Regulation (each as described under "Risk Factors – The Securities are linked to the Index and are subject to certain regulatory risks") occurs with respect to the Index or the Index Sponsor, if applicable, (iii) our license agreement with the Index Sponsor terminates or (iv) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an EU Benchmarks Regulation compliant index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination, and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto to be furnished to the trustee, to us and to the holders of the Securities.

If the Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

For purposes of the above, a "**Benchmark Event**" may occur if the EU Benchmarks Regulation and/or UK Benchmarks Regulation, as applicable, applies to this issuance of Securities, and the applicable registration for the Index or Index Sponsor is not effective or has been suspended or withdrawn by the relevant authority with the effect that the use of the Index or the Index Sponsor is not permitted under the EU Benchmarks Regulation or UK Benchmarks Regulation, as applicable.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, including the Current Indicative Value (or "intraday indicative value"), Closing Indicative Value, Index Factor, Residual Factor, Daily Tracking Fee, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity, call, upon early redemption by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

An "**Index Replacement Event**" means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange- imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after September 14, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after September 14, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Daily Tracking Fee, the Redemption Fee Amount, if any, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, upon early redemption, if applicable, the Call Settlement Amount, if any, that we will pay you in the event UBS calls the Securities, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor index is a fraction of what it would have been if there had been no such modification (e.g., due to a rebasing of the Index), which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (e.g., as if such rebasing had not occurred). In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

### Reissuances or Reopened Issues

We may, at our sole discretion, “reopen” or reissue the Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to “Description of Debt Securities We May Offer — Amounts That We May Issue” in “Medium-Term Notes, Series B” above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities and will have the same CUSIP number and will trade interchangeably with the Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

### Booking Branch

The Securities will be booked through UBS AG, London Branch.

### Clearance and Settlement

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC’s settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 23. ETRACS 2x Leveraged US Value Factor TR ETN due February 9, 2051

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary. Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

*Each of the seven series of Securities offered by the prospectus supplement is separate and independent of each other series of Securities. Apart from the applicable Index, however, all of the terms of each series of Securities are the same. Since each series references a different Index, all calculations and adjustments and related events with respect to each series are independent of calculations and adjustments and related events for each other series of Securities, and we may exercise our call right as well as our right to initiate a split or a reverse split independently for each series. The following discussion therefore applies independently to each series of Securities offered by the prospectus supplement and, except as the context may otherwise require, the defined terms refer separately to each series. References to the "Securities" should be understood as references to a single series of Securities and the defined terms should be understood in reference only to that series of Securities.*

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 2, 2015 between us and U.S. Bank Trust National Association, as trustee.

Please note that the information about the offering prices and the net proceeds to UBS on the front cover of the prospectus supplement relates only to the initial sale of the Securities. If you have purchased the Securities in a secondary market transaction after the initial sale, information about the price and date of sale to you will be provided in a separate confirmation of sale.

We describe the terms of the Securities in more detail below. The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or upon early redemption or call. Instead, at maturity, you will receive a cash payment per Security the amount of which will vary depending on the performance and path of the Index and will be reduced by the Accrued Fees as of the last Index Business Day in the Final Measurement Period as described under "— Cash Settlement Amount at Maturity." If the amount as calculated is equal to or less than zero, the Cash Settlement Amount will be zero and you will not receive a cash payment.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment per Security on the relevant Redemption Date equal to the Redemption Amount as described under "— Early Redemption at the Option of the Holders." If the amount as calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is February 9, 2051, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called, redeemed or accelerated upon Zero Value Event, you will receive at maturity a cash payment equal to its Closing Indicative Value on the last Index Business Day in the applicable Measurement Period. We refer to this cash payment as the "**Cash Settlement Amount**." If the amount so calculated is equal to or less than zero, the payment will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | = | **Closing Indicative Value, on last Index Business Day in Final Measurement Period** |

**You may lose all or a substantial portion of your investment at maturity. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, you may lose all or a substantial portion of your investment at maturity. The occurrence of Loss Rebalancing Events will result in more frequent than quarterly compounding.**

**UBS may call the Securities prior to the Maturity Date pursuant to its Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment.** See "Specific Terms of the Securities — UBS's Call Right" beginning on page S-117.

The "**Stated Principal Amount**" of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The Closing Indicative Value represents the dollar value per Security that an investor would receive on any day if it redeemed the Security that day (without giving effect to any Redemption Fee Amount).

The "**Closing Indicative Value**" per Security, will be calculated as follows:

(a) On the Initial Trade Date, $25.00 per Security.

(b) On any other calendar day, prior to the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the immediately preceding calendar day × Index Factor) – Accrued Fees

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) – Accrued Fees + Measurement Period Cash Amount

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Closing Indicative Value for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Closing Indicative Value on any calendar day will be zero.

**If a Zero Value Event occurs, the Closing Indicative Value will be equal to zero on the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "— Automatic Acceleration Upon Zero Value Event" beginning on page S-118.

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The "**Current Principal Amount**" represents the unleveraged notional investment in the Index Constituent Securities per Security at the close of trading on any Reset Valuation Date. The notional financing amount per Security in order to generate the leveraged returns would approximately equal the Current Principal Amount at the close of trading on any Reset Valuation Date. If a Permanent Deleveraging Event occurs, the leverage of your Securities will be permanently reset to 1.0 and the notional financing amount will be equal to zero for the remaining term of the Securities. If a Zero Value Event occurs prior to your Securities permanently resetting to 1.0 at the end of the Second Permanent Deleveraging Valuation Date, then your Securities will be automatically accelerated and mandatorily redeemed and you will lose your entire investment.

The Current Principal Amount per Security, will be calculated as follows:

(a) From and including the Initial Trade Date to and excluding the first Reset Valuation Date, $25.00 per Security.

(b) At the close of trading on each Reset Valuation Date after the Initial Trade Date, the Current Principal Amount of the Securities will be reset as follows:

*New* Current Principal Amount = (Current Principal Amount on immediately preceding calendar day × Index Factor) – Accrued Fees

The Current Principal Amount will not change until the first Reset Valuation Date.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, such day will not be a valid Reset Valuation Date.

If the Securities undergo a split or reverse split, the Current Principal Amount will be adjusted accordingly.

At the close of trading on each Reset Valuation Date, the Current Principal Amount is reset.

The “**Reset Valuation Date**” means:

(a) Any calendar day up to and including the Second Permanent Deleveraging Valuation Date, that is either: (i) the Initial Trade Date, (ii) a Quarterly Reset Valuation Date, (iii) a Loss Rebalancing

Valuation Date (iv) the First Permanent Deleveraging Valuation Date, or (v) the Second Permanent Deleveraging Valuation Date; and

(b) Any calendar day following the Second Permanent Deleveraging Valuation Date.

The valuation dates are defined below.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, it will not be a valid Reset Valuation Date and the Last Reset Index Closing Level will remain the same.

The “**Quarterly Reset Valuation Date**” is the second Wednesday of January, April, July and October of each calendar year during the term of the Securities (other than an Excluded Day, as defined below), subject to adjustment as described under “—Market Disruption Event” beginning on page S-122.

As used above, an “**Excluded Day**” means (i) the Index Business Day immediately preceding the first day of an applicable Measurement Period, and any calendar day thereafter, and (ii) any calendar day after the Second Permanent Deleveraging Valuation Date.

The “**Index Factor**” is: 1 + (Leverage Factor × Index Performance Ratio).

The Index Factor represents the leveraged percentage change in the Index level since the Last Reset Index Closing Level. The Index Factor *times* the applicable Current Principal Amount on the preceding calendar day represents the current value of the unleveraged notional amount per Security that is deemed invested in the Index on any calendar day. This does not reflect the Redemption Amount that an investor would receive upon early redemption on such calendar day.

The “**Residual Factor**” will be calculated as follows:

(a) 1.0 on any calendar day, to but excluding the first day of an applicable Measurement Period.

(b) From and including the first day of an applicable four-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such four-day Measurement Period, divided by (b) four.

For example, on the first Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 3/4, on the second Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 2/4, on the third Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 1/4 and on the last Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal zero.

(c) On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The Residual Factor is intended to approximate the percentage of the Current Principal Amount that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas. At the close of trading on each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash.

The “**Leverage Factor**” on any calendar day until the occurrence of a Permanent Deleveraging Event and the close of trading on the Second Permanent Deleveraging Valuation Date, will equal 2.0. If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Leverage Factor will equal 1.0.

The “**Index Performance Ratio**” on any Index Business Day will be equal to:

$$\frac{\text{Index Closing Level} - \text{Last Reset Index Closing Level}}{\text{Last Reset Index Closing Level}}$$

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

The “**Last Reset Index Closing Level**” is the Index Closing Level on the most recent Reset Valuation Date prior to such day. The initial Last Reset Index Closing Level is the Index Closing Level on the Initial Trade Date, as reported by Bloomberg and Reuters.

The "**Index Closing Level**" on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. The initial Index Closing Level (which is also the first Last Reset Index Closing Level) was determined on February 4, 2021 by the Security Calculation Agent. If the closing level of an Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the "**Index Closing Level**" for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates.

On any calendar day that is not an Index Business Day, the Index Closing level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

"**Measurement Period**" means the Final Measurement Period or, if UBS exercises its Call Right, the Call Measurement Period.

The "**Current Indicative Value**" or "**intraday indicative value"**, as determined by the Security Calculation Agent, is an amount per Security, on an intraday basis on any Index Business Day, equal to:

(a) On the Initial Trade Date, $25.00.

(b) On any other calendar day prior to the first day of a Measurement Period:

(Current Principal Amount on the immediately preceding calendar day × Index Factor, calculated using the Intraday Index Value) – Accrued Fees

(c) From and including the first day of a Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor, calculated using the Intraday Index Value × Residual Factor on the immediately preceding calendar day) – Accrued Fees + Measurement Period Cash Amount, from the immediately preceding calendar day

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is less than or equal to the Measurement Period Cash Amount from the immediately preceding calendar day, the Current Indicative Value for the remainder of that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Current Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (intraday indicative value).

**If a Zero Value Event occurs, the Current Indicative Value (intraday indicative value) will be equal to zero for the remainder of the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

If the Securities undergo a split or reverse split, the Current Indicative Value (intraday indicative value) will be adjusted accordingly.

The "**Accrued Fees**" as of any date of determination means the Accrued Tracking Fee + the Accrued Financing Fee.

If the Securities undergo a split or reverse split, the Accrued Fees will be adjusted accordingly.

The Securities are subject to an "**Accrued Tracking Fee**" per Security, calculated as follows:

(a) On the Initial Trade Date, the Accrued Tracking Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Tracking Fee is equal to: (a) the Accrued Tracking Fee as of the immediately preceding calendar day, plus the Daily Tracking Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Tracking Fee is reset to be equal to the Daily Tracking Fee on such calendar day.

The "**Daily Tracking Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Tracking Fee is zero.

(b) On any subsequent calendar day, the Daily Tracking Fee is equal to:

(1) (i) 0.95% times (ii) the Current Principal Amount on the immediately preceding calendar day times (iii) the Index Factor on such calendar day times (iv) the Residual Factor on the immediately preceding calendar day, divided by (2) 365.

(c) The minimum value of the Daily Tracking Fee on any calendar day will be zero.

The Daily Tracking Fee represents the investor fees calculated each day on the current value of the unleveraged notional amount invested in the Index per Security. These charges accrue and compound during the applicable period, and will reduce any amount you are entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly.

The Securities are subject to an "**Accrued Financing Fee**" per Security calculated as follows:

(a) On the Initial Trade Date, the Accrued Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Financing Fee is equal to:

(1) the Accrued Financing Fee as of the immediately preceding calendar day, plus (2) the Daily Financing Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Financing Fee is reset to be equal to the Daily Financing Fee on such calendar day.

(d) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Accrued Financing Fee will be equal to zero.

The "**Daily Financing Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Daily Financing Fee is equal to:

(1) (i) the Financing Rate on such calendar day *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 360.

(c) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Daily Financing Fee will be equal to zero.

(d) The minimum value of the Daily Financing Fee on any calendar day will be zero.

The Daily Financing Fee seeks to compensate UBS for providing investors with a leveraged participation in movements of the Index and is intended to approximate the financing costs that investors may have otherwise incurred had they sought to borrow funds at a similar rate from a third party to invest in the Index. These charges accrue and compound during the applicable period, and will reduce any amount that you will be entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Financing Fee will be adjusted accordingly.

The "**Financing Rate**" will equal the sum of (a) 0.95% and (b) the London interbank offered rate (ICE LIBOR) for three-month deposits in U.S. Dollars, which is displayed on Reuters page "LIBOR01" (or any successor service or page for the purpose of displaying the London interbank offered rates of major banks, as determined by the Security Calculation Agent) ("**LIBOR**") (or any successor base rate, as described below), as of 11:00 a.m., London time, on the immediately preceding London Business Day. The minimum value of the three-month U.S. Dollar LIBOR rate (or any successor base rate, as described below) used on any calendar day will be zero. The minimum Financing Rate at any time will be 0.95%

For example, 0.21775% was the three-month U.S. Dollar LIBOR rate on January 21, 2021, which was a London Business Day. The Financing Rate on January 21, 2021 would have been equal to 0.95% + 0.21775%, or 1.16775%.

Notwithstanding the foregoing:

- If the Security Calculation Agent determines on the relevant determination date that the London interbank offered rate for deposits in U.S. dollars having an index maturity of three months in amounts of at least $1,000,000 has been discontinued or is no longer representative of the underlying market or economic reality, then the Security Calculation Agent will use a substitute or successor base rate that it has determined in its sole discretion is most comparable to such London interbank offered rate, provided that if the Security Calculation Agent determines there is an industry-accepted successor base rate, then the Security Calculation Agent shall use such successor base rate; and

- If the Security Calculation Agent has determined a substitute or successor base rate in accordance with the foregoing, the Security Calculation Agent in its sole discretion may determine the business day convention, definition of business day and any other relevant methodology for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to the LIBOR base rate, in a manner that is consistent with industry- accepted practices for such substitute or successor base rate.

The establishment of three-month U.S. Dollar LIBOR (or such successor base rate, as applicable) for each period by the Security Calculation Agent shall (in the absence of manifest error) be final and binding.

"**London Business Day**" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in London generally are authorized or obligated by law, regulation or executive order to close and is also a day on which dealings in U.S. dollars are transacted in the London interbank market.

The "**Measurement Period Cash Amount**" is an amount per Security equal to:

(a) $0.00 on any calendar day, to but excluding the first day of a Measurement Period.

(b) On the first day of a one-day Measurement Period:

At the close of trading on such Index Business Day, (Current Principal Amount on the immediately preceding calendar day × Index Factor, on such Index Business Day).

(c) From and including the first day of a four-day Measurement Period:

(i) At the close of trading on each Index Business Day during the Measurement Period, the Measurement Period Cash Amount on the immediately preceding calendar day + (Current Principal Amount on the calendar day immediately preceding the first day of such Measurement Period × 0.25 × Index Factor, on such Index Business Day); and

(ii) On any calendar day during the Measurement Period that is not an Index Business Day, the Measurement Period Cash Amount on the immediately preceding Index Business Day.

(d) On any calendar day after the last Index Business Day of a Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

Notwithstanding the foregoing, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, then the Measurement Period Cash Amount for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash amount from the immediately preceding calendar day.

The Measurement Period Cash Amount represents the portion of the Current Principal Amount that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period, will be deemed converted to cash and an applicable portion of the notional financing amount will separately be deemed converted to cash as well. After the close of trading on the final Index Business Day of a four-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Current Principal Amount that was deemed converted to cash across the four-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount will be deemed converted to cash and an applicable amount of financing will separately be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period**" means:

(a) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $500,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $500,000,000, the four Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Index Calculation Agent**" means the entity that calculates and publishes the level of the Index, which for each series of Securities is the entity set forth below:

| Title of Securities | Index Calculation Agent |
|---|---|
| ETRACS 2x Leveraged US Dividend Factor TR ETN | S&P Dow Jones Indices |
| ETRACS 2x Leveraged US Growth Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Size Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Value Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged MSCI US Minimum Volatility Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Momentum Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Quality Factor TR ETN | MSCI, Inc. |

The "**Calculation Date**" means February 1, 2051, unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The return of each series of Securities is based upon the performance of the applicable Index set forth on the cover page of the prospectus supplement. Each Index is designed to track the performance of a sector of the U.S. equity market and to reflect an investing style.

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event", you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon and a confirmation of redemption by no later than 5:00 p.m. on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time to time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The first Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable. If a Zero Value Event occurs, the last Redemption Date will be the date on which the Zero Value Event occurred.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of the Redemption Valuation Date).

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures", for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**." If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero. We reserve the right from time to time to waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

**Redemption Amount = Closing Indicative Value – Redemption Fee Amount**

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Accrued Fees and the Redemption Fee Amount will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees and the Redemption Fee Amount, if applicable, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon early redemption. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to its Call Right and, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "Specific Terms of the Securities — UBS's Call Right" and "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;
- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**", to us via email in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;
- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and
- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m., on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS's Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities of any series. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which may be provided via press release) not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event".

The "**Call Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than $500,000,000, the Call Valuation Date, subject to adjustments as described under "— Market Disruption Event"; and

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than $500,000,000, the four Index Business Days from and including the Call Valuation Date, subject to adjustment as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right will equal:

(i) The Closing Indicative Value as of such Index Business Day times (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Call Valuation Date**" means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | **=** | **Closing Indicative Value, on last Index Business Day in Call Measurement Period** |

**You may lose all or a substantial portion of your investment if we exercise our Call Right. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon a call. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**In addition, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event" below.

**Automatic Acceleration Upon Zero Value Event**

For each series of Securities, a Zero Value Event represents the first instance when the Current Indicative Value (intraday indicative value) or the Closing Indicative Value is less than or equal to zero (other than on an Excluded Day, as defined below). It will have the effect of permanently resetting the value of your Securities to zero and accelerating the Securities. You will not benefit from any future exposure to the applicable Index after the occurrence of a Zero Value Event.

A Zero Value Event can occur only if a Permanent Deleveraging Event occurs and the Current Indicative Value (intraday indicative value) or the Closing Indicative Value declines to zero before the leverage of your Securities is reset to 1.0 at the close of trading on the Index Business Day following such event (or if such event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, the second Index Business Day following such event), as described under "Permanent Deleveraging Valuation Dates" above.

A "**Zero Value Event**" occurs if the Current Indicative Value (intraday indicative value) or the Closing Indicative Value on any Index Business Day (other than an Excluded Day, as defined below) is less than or equal to zero. From immediately after the Zero Value Event and on all future calendar days, the Current Indicative Value (intraday indicative value) and the Closing Indicative Value will be set equal to zero.

As used above, an "**Excluded Day**" means (i) any calendar day after the Second Permanent Deleveraging Valuation Date (ii) any calendar day on or after which a Zero Value Event has already occurred, and (iii) any calendar day after the last day of an applicable Measurement Period.

In the event that a Zero Value Event has occurred, UBS will issue a press release shortly after the event; provided that the failure to do so shall not affect the automatic acceleration and redemption of the Securities. The Securities will be suspended from trading intraday shortly after the event occurs and will likely not be open for trading again on NYSE Arca.

**You will lose your entire investment upon the occurrence of a Zero Value Event.**

**In addition, we may call the Securities prior to the Maturity Date pursuant to our Call Right.** See "Specific Terms of the Securities — UBS's Call Right".

**Loss Rebalancing Events**

A Loss Rebalancing Event will have the effect of deleveraging your Securities with the aim of resetting the then-current leverage to approximately 2.0. This means that after a Loss Rebalancing Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities relative to before the occurrence of the Loss Rebalancing Event.

A "**Loss Rebalancing Event**" occurs if, at any time, the Intraday Index Value on such Index Business Day (other than an Excluded Day, as used below) decreases by 20% or more from the previous Last Reset Index Closing Level.

Loss Rebalancing Events may occur multiple times over the term of the Securities and may occur multiple times during a single calendar quarter. This means both that (i) the Current Principal Amount may be reset more frequently than quarterly and (ii) the cumulative effect of compounding and fees will have increased as a result of the Loss Rebalancing Event(s). Because each Loss Rebalancing Event will have the effect of deleveraging your Securities, following a Loss Rebalancing Event your Securities will have less exposure to a potential positive gain in value relative to the exposure before the occurrence of such Loss Rebalancing Event.

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding any Quarterly Reset Valuation Date, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day, (ii) any Quarterly Reset Valuation Date, (iii) any Loss Rebalancing Valuation Date, (iv) the Index Business Day immediately preceding the first day of an applicable Measurement Period, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day (v) any calendar day from and including the first day of an applicable Measurement Period, (vi) the First or Second Permanent Deleveraging Valuation Dates, (vii) any calendar day after the Second Permanent Deleveraging Valuation Date, and (ix) any calendar day on or after which a Zero Value Event has occurred.

"**Loss Rebalancing Valuation Date**" means:

(a) if a Loss Rebalancing Event occurs at or prior to 3:15 p.m. on an Index Business Day, the day that such Loss Rebalancing Event occurs, subject to adjustment as described under "— Market Disruption Event"; and

(b) if a Loss Rebalancing Event occurs after 3:15 p.m. on an Index Business Day, the first Index Business Day following the occurrence of such Loss Rebalancing Event, subject to adjustment as described under "— Market Disruption Event."

**Permanent Deleveraging Event**

A Permanent Deleveraging Event will have the effect of deleveraging your Securities, with the aim of permanently resetting the then-current leverage to 1.0 over two Index Business Days. The leverage at the end of the First Permanent Deleveraging Valuation Date is reset to approximately 2.0 and the leverage at the end of the Second Permanent Deleveraging Valuation Date is reset to 1.0. This means that after a Permanent Deleveraging Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities than it would have had before the occurrence of the Permanent Deleveraging Event. If such an event were to occur, it most likely would occur only following a Loss Rebalancing Event and prior to the completion of the associated leverage reset to 2.0, which would generally occur at the end of the Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred or, if the Loss Rebalancing Event occurs 3:15 p.m. on an Index Business Day, at the end of the second Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred.

A "**Permanent Deleveraging Event**" occurs if, at any time on an Index Business Day (other than an Excluded Day, as defined below), the Intraday Index Value decreases by 40% or more from the Last Reset Index Closing Level. If a Permanent Deleveraging Event occurs, the Current Principal Amount of the Securities will be reset over two Index Business Days.

As used above, an "**Excluded Day**" means (i) the First or Second Permanent Deleveraging Valuation Dates, (ii) any calendar day after the Second Permanent Deleveraging Valuation Date, (iii) any day on or after which a Zero Value Event occurs, (iv) the day which is two Index Business Days prior to the first day of a Measurement Period, if a Permanent Deleveraging Event occurs after 3:15 p.m. on such day, and (v) any calendar day from and including the Index Business Day immediately preceding the first day of a Measurement Period.

"**Permanent Deleveraging Valuation Dates**" means the First Permanent Deleveraging Valuation Date and the Second Permanent Deleveraging Valuation Date, each as defined below:

(a) The "**First Permanent Deleveraging Valuation Date**" means:

(i) any Index Business Day, which otherwise would have been a Loss Rebalancing Valuation Date, but on which a Permanent Deleveraging Event has occurred, subject to adjustment as described under "— Market Disruption Event"; or

(ii) if a Permanent Deleveraging Event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, then the first Index Business Day following the occurrence of such Permanent Deleveraging Event, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to approximately 2.0 at the close of trading on the First Permanent Deleveraging Valuation Date.

(b) The "**Second Permanent Deleveraging Valuation Date**" means the Index Business Day immediately following the First Permanent Deleveraging Valuation Date, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to 1.0 at the close of trading on the Second Permanent Deleveraging Valuation Date.

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split and its effective date. The date of such press release shall be deemed to be the "**announcement date**" of the split or the reverse split, the record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Current Principal Amount, Closing Indicative Value, Current Indicative Value, Accrued Fees, Measurement Period Cash Amount and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company ("**DTC**") on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Current Principal Amount on such record date will be *divided by* four to reflect the 4:1 split. The adjusted Current Principal Amount will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Current Principal Amount and other relevant terms of the Securities will be adjusted accordingly and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as "partials"). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Current Principal Amount of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Current Principal Amount will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Current Principal Amount of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

**Security Calculation Agent**

UBS Securities LLC will act as the Security Calculation Agent. The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, the Current Principal

Amount, Current Indicative Value (which we also refer to as the intraday indicative value), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Leverage Factor, the Index Factor, the Index Performance Ratio, the Residual Factor, the Index Closing Level, the Financing Rate, the Accrued Fees (including determining any successor to the LIBOR base rate), the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, the Call Settlement Amount, that we will pay you if we call the Securities, whether a Loss Rebalancing Event has occurred, whether a Permanent Deleveraging Event has occurred and whether any day is an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. If any Intraday Index Value as published by Bloomberg on any Index Business Day is manifestly incorrect, the Security Calculation Agent may base its determination of whether a Loss Rebalancing Event, Permanent Deleveraging Event or Zero Value Event shall have occurred on such Index Business Day on its own determination of such Intraday Index Value. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you, and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date or any Call Settlement Date.

All dollar amounts related to determination of the Accrued Fees, the Current Principal Amount, and any Redemption Amount, Redemption Fee Amount, Call Settlement Amount or Cash Settlement Amount per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (*e.g.*, .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a four-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the four-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4 and June 5, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day and the next Index Business Day after June 5th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a four-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or any Reset Valuation Date, the Index Closing Level for such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or Reset Valuation Date occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date, Calculation Date or any Reset Valuation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging."

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "absence of trading" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, *plus*
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of or Adjustments to the Index or Termination of Our License Agreements with the Index Sponsors; Alteration of Method of Calculation**

If (i) an Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) our license agreement with the Index Sponsor terminates or (iii) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto be furnished to the trustee, to us and to the holders of the Securities.

If an Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, Current Principal Amount, Current Indicative Value (intraday indicative value), Closing Indicative Value, Index Factor, Index Performance Ratio, Residual Factor, Accrued Fees, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity or upon early redemption or call by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An "**Index Replacement Event**" means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after February 4, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after February 4, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities, or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor or Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Index Performance Ratio, the Last Reset Index Closing Level, the Accrued Fees, and any Redemption Amount, Redemption Fee Amount, Cash Settlement Amount or Call Settlement Amount, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor or Substitute Index is a fraction or multiple of what it would have been if there had been no such modification (*e.g.*, due to a rebasing of the Index), which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (*e.g.*, as if such rebasing had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

**Reissuances or Reopened Issues**

We may, at our sole discretion, "reopen" or reissue any series of Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to "Description of Debt Securities We May Offer — Amounts That We May Issue" in "Medium-Term Notes, Series B" above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities of the same series and will have the same CUSIP number and will trade interchangeably with such Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

**Booking Branch**

The Securities will be booked through UBS AG, London Branch.

**Clearance and Settlement**

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC's settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 24. ETRACS 2x Leveraged US Growth Factor TR ETN due February 9, 2051

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary. Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

*Each of the seven series of Securities offered by the prospectus supplement is separate and independent of each other series of Securities. Apart from the applicable Index, however, all of the terms of each series of Securities are the same. Since each series references a different Index, all calculations and adjustments and related events with respect to each series are independent of calculations and adjustments and related events for each other series of Securities, and we may exercise our call right as well as our right to initiate a split or a reverse split independently for each series. The following discussion therefore applies independently to each series of Securities offered by the prospectus supplement and, except as the context may otherwise require, the defined terms refer separately to each series. References to the "Securities" should be understood as references to a single series of Securities and the defined terms should be understood in reference only to that series of Securities.*

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 2, 2015 between us and U.S. Bank Trust National Association, as trustee.

We describe the terms of the Securities in more detail below. The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or upon early redemption or call. Instead, at maturity, you will receive a cash payment per Security the amount of which will vary depending on the performance and path of the Index and will be reduced by the Accrued Fees as of the last Index Business Day in the Final Measurement Period as described under "— Cash Settlement Amount at Maturity." If the amount as calculated is equal to or less than zero, the Cash Settlement Amount will be zero and you will not receive a cash payment.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment per Security on the relevant Redemption Date equal to the Redemption Amount as described under "— Early Redemption at the Option of the Holders." If the amount as calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is February 9, 2051, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called, redeemed or accelerated upon Zero Value Event, you will receive at maturity a cash payment equal to its Closing Indicative Value on the last Index Business Day in the applicable Measurement Period. We refer to this cash payment as the "**Cash Settlement Amount**." If the amount so calculated is equal to or less than zero, the payment will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | = | **Closing Indicative Value, on last Index Business Day in Final Measurement Period** |

**You may lose all or a substantial portion of your investment at maturity. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, you may lose all or a substantial portion of your investment at maturity. The occurrence of Loss Rebalancing Events will result in more frequent than quarterly compounding.**

UBS may call the Securities prior to the Maturity Date pursuant to its Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment. See "Specific Terms of the Securities — UBS's Call Right".

The "Stated Principal Amount" of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The Closing Indicative Value represents the dollar value per Security that an investor would receive on any day if it redeemed the Security that day (without giving effect to any Redemption Fee Amount).

The "Closing Indicative Value" per Security, will be calculated as follows:

(a) On the Initial Trade Date, \$25.00 per Security.

(b) On any other calendar day, prior to the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the immediately preceding calendar day × Index Factor) – Accrued Fees

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) – Accrued Fees + Measurement Period Cash Amount

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Closing Indicative Value for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Closing Indicative Value on any calendar day will be zero.

**If a Zero Value Event occurs, the Closing Indicative Value will be equal to zero on the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "— Automatic Acceleration Upon Zero Value Event".

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The **"Current Principal Amount"** represents the unleveraged notional investment in the Index Constituent Securities per Security at the close of trading on any Reset Valuation Date. The notional financing amount per Security in order to generate the leveraged returns would approximately equal the Current Principal Amount at the close of trading on any Reset Valuation Date. If a Permanent Deleveraging Event occurs, the leverage of your Securities will be permanently reset to 1.0 and the notional financing amount will be equal to zero for the remaining term of the Securities. If a Zero Value Event occurs prior to your Securities permanently resetting to 1.0 at the end of the Second Permanent Deleveraging Valuation Date, then your Securities will be automatically accelerated and mandatorily redeemed and you will lose your entire investment.

The Current Principal Amount per Security, will be calculated as follows:

(a) From and including the Initial Trade Date to and excluding the first Reset Valuation Date, \$25.00 per Security.

(b) At the close of trading on each Reset Valuation Date after the Initial Trade Date, the Current Principal Amount of the Securities will be reset as follows:

*New* Current Principal Amount = (Current Principal Amount on immediately preceding calendar day × Index Factor) – Accrued Fees The Current Principal Amount will not change until the first Reset Valuation Date.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, such day will not be a valid Reset Valuation Date.

If the Securities undergo a split or reverse split, the Current Principal Amount will be adjusted accordingly.

At the close of trading on each Reset Valuation Date, the Current Principal Amount is reset. The "**Reset Valuation Date**" means:

(a) Any calendar day up to and including the Second Permanent Deleveraging Valuation Date, that is either: (i) the Initial Trade Date, (ii) a Quarterly Reset Valuation Date, (iii) a Loss Rebalancing Valuation Date (iv) the First Permanent Deleveraging Valuation Date, or (v) the Second Permanent Deleveraging Valuation Date; and

(b) Any calendar day following the Second Permanent Deleveraging Valuation Date.

The valuation dates are defined below.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, it will not be a valid Reset Valuation Date and the Last Reset Index Closing Level will remain the same.

The "**Quarterly Reset Valuation Date**" is the second Wednesday of January, April, July and October of each calendar year during the term of the Securities (other than an Excluded Day, as defined below), subject to adjustment as described under "—Market Disruption Event".

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding the first day of an applicable Measurement Period, and any calendar day thereafter, and (ii) any calendar day after the Second Permanent Deleveraging Valuation Date.

The "**Index Factor**" is: 1 + (Leverage Factor × Index Performance Ratio).

The Index Factor represents the leveraged percentage change in the Index level since the Last Reset Index Closing Level. The Index Factor *times* the applicable Current Principal Amount on the preceding calendar day represents the current value of the unleveraged notional amount per Security that is deemed invested in the Index on any calendar day. This does not reflect the Redemption Amount that an investor would receive upon early redemption on such calendar day.

The "**Residual Factor**" will be calculated as follows:

(a) 1.0 on any calendar day, to but excluding the first day of an applicable Measurement Period.

(b) From and including the first day of an applicable four-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such four-day Measurement Period, *divided by* (b) four.

For example, on the first Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 3/4, on the second Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 2/4, on the third Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 1/4 and on the last Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal zero.

(c) On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The Residual Factor is intended to approximate the percentage of the Current Principal Amount that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas. At the close of trading on each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash.

The "**Leverage Factor**" on any calendar day until the occurrence of a Permanent Deleveraging Event and the close of trading on the Second Permanent Deleveraging Valuation Date, will equal 2.0. If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Leverage Factor will equal 1.0.

The "**Index Performance Ratio**" on any Index Business Day will be equal to:

$$\frac{\text{Index Closing Level} - \text{Last Reset Index Closing Level}}{\text{Last Reset Index Closing Level}}$$

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

The "**Last Reset Index Closing Level**" is the Index Closing Level on the most recent Reset Valuation Date prior to such day. The initial Last Reset Index Closing Level is the Index Closing Level on the Initial Trade Date, as reported by Bloomberg and Reuters.

The "**Index Closing Level**" on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. The initial Index Closing Level (which is also the first Last Reset Index Closing Level) was determined on February 4, 2021 by the Security Calculation Agent. If the closing level of an Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the "**Index Closing Level**" for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates.

On any calendar day that is not an Index Business Day, the Index Closing level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

"**Measurement Period**" means the Final Measurement Period or, if UBS exercises its Call Right, the Call Measurement Period.

The “**Current Indicative Value**” or “**intraday indicative value”**, as determined by the Security Calculation Agent, is an amount per Security, on an intraday basis on any Index Business Day, equal to:

(a) On the Initial Trade Date, \$25.00.

(b) On any other calendar day prior to the first day of a Measurement Period:

(Current Principal Amount on the immediately preceding calendar day × Index Factor, calculated using the Intraday Index Value) – Accrued Fees

(c) From and including the first day of a Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor, calculated using the Intraday Index Value × Residual Factor on the immediately preceding calendar day) – Accrued Fees + Measurement Period Cash Amount, from the immediately preceding calendar day

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Current Indicative Value for the remainder of that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Current Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (intraday indicative value).

**If a Zero Value Event occurs, the Current Indicative Value (intraday indicative value) will be equal to zero for the remainder of the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See “Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event”.

If the Securities undergo a split or reverse split, the Current Indicative Value (intraday indicative value) will be adjusted accordingly.

The “**Accrued Fees**” as of any date of determination means the Accrued Tracking Fee + the Accrued Financing Fee.

If the Securities undergo a split or reverse split, the Accrued Fees will be adjusted accordingly. The Securities are subject to an “**Accrued Tracking Fee**” per Security, calculated as follows:

(a) On the Initial Trade Date, the Accrued Tracking Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Tracking Fee is equal to: (a) the Accrued Tracking Fee as of the immediately preceding calendar day, *plus* the Daily Tracking Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Tracking Fee is reset to be equal to the Daily Tracking Fee on such calendar day.

The “**Daily Tracking Fee**” is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Tracking Fee is zero.

(b) On any subsequent calendar day, the Daily Tracking Fee is equal to:

(1) (i) 0.95% *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Index Factor on such calendar day *times* (iv) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 365.

(c) The minimum value of the Daily Tracking Fee on any calendar day will be zero.

The Daily Tracking Fee represents the investor fees calculated each day on the current value of the unleveraged notional amount invested in the Index per Security. These charges accrue and compound during the applicable period, and will reduce any amount you are entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly. The Securities are subject to an “**Accrued Financing Fee**” per Security calculated as follows:

(a) On the Initial Trade Date, the Accrued Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Financing Fee is equal to:

(1) the Accrued Financing Fee as of the immediately preceding calendar day, *plus* (2) the Daily Financing Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Financing Fee is reset to be equal to the Daily Financing Fee on such calendar day.

(d) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Accrued Financing Fee will be equal to zero.

The "**Daily Financing Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Daily Financing Fee is equal to:

(1) (i) the Financing Rate on such calendar day *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 360.

(c) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Daily Financing Fee will be equal to zero.

(d) The minimum value of the Daily Financing Fee on any calendar day will be zero.

The Daily Financing Fee seeks to compensate UBS for providing investors with a leveraged participation in movements of the Index and is intended to approximate the financing costs that investors may have otherwise incurred had they sought to borrow funds at a similar rate from a third party to invest in the Index. These charges accrue and compound during the applicable period, and will reduce any amount that you will be entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Financing Fee will be adjusted accordingly.

The "**Financing Rate**" will equal the sum of (a) 0.95% and (b) the London interbank offered rate (ICE LIBOR) for three-month deposits in U.S. Dollars, which is displayed on Reuters page "LIBOR01" (or any successor service or page for the purpose of displaying the London interbank offered rates of major banks, as determined by the Security Calculation Agent) ("**LIBOR**") (or any successor base rate, as described below), as of 11:00 a.m., London time, on the immediately preceding London Business Day. The minimum value of the three-month U.S. Dollar LIBOR rate (or any successor base rate, as described below) used on any calendar day will be zero. The minimum Financing Rate at any time will be 0.95%

For example, 0.21775% was the three-month U.S. Dollar LIBOR rate on January 21, 2021, which was a London Business Day. The Financing Rate on January 21, 2021 would have been equal to 0.95% + 0.21775%, or 1.16775%.

Notwithstanding the foregoing:

- If the Security Calculation Agent determines on the relevant determination date that the London interbank offered rate for deposits in U.S. dollars having an index maturity of three months in amounts of at least $1,000,000 has been discontinued or is no longer representative of the underlying market or economic reality, then the Security Calculation Agent will use a substitute or successor base rate that it has determined in its sole discretion is most comparable to such London interbank offered rate, provided that if the Security Calculation Agent determines there is an industry-accepted successor base rate, then the Security Calculation Agent shall use such successor base rate; and

- If the Security Calculation Agent has determined a substitute or successor base rate in accordance with the foregoing, the Security Calculation Agent in its sole discretion may determine the business day convention, definition of business day and any other relevant methodology for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to the LIBOR base rate, in a manner that is consistent with industry- accepted practices for such substitute or successor base rate.

The establishment of three-month U.S. Dollar LIBOR (or such successor base rate, as applicable) for each period by the Security Calculation Agent shall (in the absence of manifest error) be final and binding.

"**London Business Day**" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in London generally are authorized or obligated by law, regulation or executive order to close and is also a day on which dealings in U.S. dollars are transacted in the London interbank market.

The "**Measurement Period Cash Amount**" is an amount per Security equal to:

(a) $0.00 on any calendar day, to but excluding the first day of a Measurement Period.

(b) On the first day of a one-day Measurement Period:

At the close of trading on such Index Business Day, (Current Principal Amount on the immediately preceding calendar day × Index Factor, on such Index Business Day).

(c) From and including the first day of a four-day Measurement Period:

(i) At the close of trading on each Index Business Day during the Measurement Period, the Measurement Period Cash Amount on the immediately preceding calendar day + (Current Principal Amount on the calendar day immediately preceding the first day of such Measurement Period × 0.25 × Index Factor, on such Index Business Day); and

(ii) On any calendar day during the Measurement Period that is not an Index Business Day, the Measurement Period Cash Amount on the immediately preceding Index Business Day.

(d) On any calendar day after the last Index Business Day of a Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

Notwithstanding the foregoing, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, then the Measurement Period Cash Amount for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash amount from the immediately preceding calendar day.

The Measurement Period Cash Amount represents the portion of the Current Principal Amount that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount on the calendar day immediately preceding the first

day of the Measurement Period, will be deemed converted to cash and an applicable portion of the notional financing amount will separately be deemed converted to cash as well. After the close of trading on the final Index Business Day of a four-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Current Principal Amount that was deemed converted to cash across the four-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount will be deemed converted to cash and an applicable amount of financing will separately be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period**" means:

(a) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $500,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $500,000,000, the four Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Index Calculation Agent**" means the entity that calculates and publishes the level of the Index, which for each series of Securities is the entity set forth below:

| Title of Securities | Index Calculation Agent |
|---|---|
| ETRACS 2x Leveraged US Dividend Factor TR ETN | S&P Dow Jones Indices |
| ETRACS 2x Leveraged US Growth Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Size Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Value Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged MSCI US Minimum Volatility Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Momentum Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Quality Factor TR ETN | MSCI, Inc. |

The "**Calculation Date**" means February 1, 2051, unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The return of each series of Securities is based upon the performance of the applicable Index set forth on the cover page of the prospectus supplement. Each Index is designed to track the performance of a sector of the U.S. equity market and to reflect an investing style. We refer to the securities included in each Index as the "Index Constituent Securities" for such Index.

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event", you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon and a confirmation of redemption by no later than 5:00 p.m. on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time to time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The first Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable. If a Zero Value Event occurs, the last Redemption Date will be the date on which the Zero Value Event occurred.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of the Redemption Valuation Date).

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures", for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**." If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero. We reserve the right from time to time to waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

| | | | | |
|---|---|---|---|---|
| **Redemption Amount** | **=** | **Closing Indicative Value** | **–** | **Redemption Fee Amount** |

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Accrued Fees and the Redemption Fee Amount will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees and the Redemption Fee Amount, if applicable, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon early redemption. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

The Securities may be called by UBS prior to the Maturity Date pursuant to its Call Right and, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS. See "Specific Terms of the Securities — UBS's Call Right" and "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption which is attached;

- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**", to us via email in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;

- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and

- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m., on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS's Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities of any series. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which may be provided via press release) not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event".

The **“Call Measurement Period”** means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than $500,000,000, the Call Valuation Date, subject to adjustments as described under “— Market Disruption Event”; and

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than $500,000,000, the four Index Business Days from and including the Call Valuation Date, subject to adjustment as described under “— Market Disruption Event.”

For the purpose of determining the Final Measurement Period, the “**Market Value**” of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right will equal:

(i) The Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The “**Call Valuation Date**” means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | = | **Closing Indicative Value, on last Index Business Day in Call Measurement Period** |

**You may lose all or a substantial portion of your investment if we exercise our Call Right. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon a call. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

In addition, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS. See “Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event” below.

**Automatic Acceleration Upon Zero Value Event**

For each series of Securities, a Zero Value Event represents the first instance when the Current Indicative Value (intraday indicative value) or the Closing Indicative Value is less than or equal to zero (other than on an Excluded Day, as defined below). It will have the effect of permanently resetting the value of your Securities to zero and accelerating the Securities. You will not benefit from any future exposure to the applicable Index after the occurrence of a Zero Value Event.

A Zero Value Event can occur only if a Permanent Deleveraging Event occurs and the Current Indicative Value (intraday indicative value) or the Closing Indicative Value declines to zero before the leverage of your Securities is reset to 1.0 at the close of trading on the Index Business Day following such event (or if such event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, the second Index Business Day following such event), as described under “Permanent Deleveraging Valuation Dates” above.

A “**Zero Value Event**” occurs if the Current Indicative Value (intraday indicative value) or the Closing Indicative Value on any Index Business Day (other than an Excluded Day, as defined below) is less than or equal to zero. From immediately after the Zero Value Event and on all future calendar days, the Current Indicative Value (intraday indicative value) and the Closing Indicative Value will be set equal to zero.

As used above, an “**Excluded Day**” means (i) any calendar day after the Second Permanent Deleveraging Valuation Date (ii) any calendar day on or after which a Zero Value Event has already occurred, and (iii) any calendar day after the last day of an applicable Measurement Period.

In the event that a Zero Value Event has occurred, UBS will issue a press release shortly after the event; provided that the failure to do so shall not affect the automatic acceleration and redemption of the Securities. The Securities will be suspended from trading intraday shortly after the event occurs and will likely not be open for trading again on NYSE Arca.

**You will lose your entire investment upon the occurrence of a Zero Value Event.**

**In addition, we may call the Securities prior to the Maturity Date pursuant to our Call Right.** See “Specific Terms of the Securities — UBS’s Call Right”.

**Loss Rebalancing Events**

A Loss Rebalancing Event will have the effect of deleveraging your Securities with the aim of resetting the then-current leverage to approximately 2.0. This means that after a Loss Rebalancing Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities relative to before the occurrence of the Loss Rebalancing Event.

A "Loss Rebalancing Event" occurs if, at any time, the Intraday Index Value on such Index Business Day (other than an Excluded Day, as used below) decreases by 20% or more from the previous Last Reset Index Closing Level.

Loss Rebalancing Events may occur multiple times over the term of the Securities and may occur multiple times during a single calendar quarter. This means both that (i) the Current Principal Amount may be reset more frequently than quarterly and (ii) the cumulative effect of compounding and fees will have increased as a result of the Loss Rebalancing Event(s). Because each Loss Rebalancing Event will have the effect of deleveraging your Securities, following a Loss Rebalancing Event your Securities will have less exposure to a potential positive gain in value relative to the exposure before the occurrence of such Loss Rebalancing Event.

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding any Quarterly Reset Valuation Date, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day, (ii) any Quarterly Reset Valuation Date, (iii) any Loss Rebalancing Valuation Date, (iv) the Index Business Day immediately preceding the first day of an applicable Measurement Period, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day (v) any calendar day from and including the first day of an applicable Measurement Period, (vi) the First or Second Permanent Deleveraging Valuation Dates, (vii) any calendar day after the Second Permanent Deleveraging Valuation Date, and (ix) any calendar day on or after which a Zero Value Event has occurred.

"**Loss Rebalancing Valuation Date**" means:

(a) if a Loss Rebalancing Event occurs at or prior to 3:15 p.m. on an Index Business Day, the day that such Loss Rebalancing Event occurs, subject to adjustment as described under "— Market Disruption Event"; and

(b) if a Loss Rebalancing Event occurs after 3:15 p.m. on an Index Business Day, the first Index Business Day following the occurrence of such Loss Rebalancing Event, subject to adjustment as described under "— Market Disruption Event."

**Permanent Deleveraging Event**

A Permanent Deleveraging Event will have the effect of deleveraging your Securities, with the aim of permanently resetting the then-current leverage to 1.0 over two Index Business Days. The leverage at the end of the First Permanent Deleveraging Valuation Date is reset to approximately 2.0 and the leverage at the end of the Second Permanent Deleveraging Valuation Date is reset to 1.0. This means that after a Permanent Deleveraging Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities than it would have had before the occurrence of the Permanent Deleveraging Event. If such an event were to occur, it most likely would occur only following a Loss Rebalancing Event and prior to the completion of the associated leverage reset to 2.0, which would generally occur at the end of the Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred or, if the Loss Rebalancing Event occurs 3:15 p.m. on an Index Business Day, at the end of the second Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred.

A "**Permanent Deleveraging Event**" occurs if, at any time on an Index Business Day (other than an Excluded Day, as defined below), the Intraday Index Value decreases by 40% or more from the Last Reset Index Closing Level. If a Permanent Deleveraging Event occurs, the Current Principal Amount of the Securities will be reset over two Index Business Days.

As used above, an "**Excluded Day**" means (i) the First or Second Permanent Deleveraging Valuation Dates, (ii) any calendar day after the Second Permanent Deleveraging Valuation Date, (iii) any day on or after which a Zero Value Event occurs, (iv) the day which is two Index Business Days prior to the first day of a Measurement Period, if a Permanent Deleveraging Event occurs after 3:15 p.m. on such day, and (v) any calendar day from and including the Index Business Day immediately preceding the first day of a Measurement Period.

"**Permanent Deleveraging Valuation Dates**" means the First Permanent Deleveraging Valuation Date and the Second Permanent Deleveraging Valuation Date, each as defined below:

(a) The "**First Permanent Deleveraging Valuation Date**" means:

(i) any Index Business Day, which otherwise would have been a Loss Rebalancing Valuation Date, but on which a Permanent Deleveraging Event has occurred, subject to adjustment as described under "— Market Disruption Event"; or

(ii) if a Permanent Deleveraging Event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, then the first Index Business Day following the occurrence of such Permanent Deleveraging Event, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to approximately 2.0 at the close of trading on the First Permanent Deleveraging Valuation Date.

(b) The "**Second Permanent Deleveraging Valuation Date**" means the Index Business Day immediately following the First Permanent Deleveraging Valuation Date, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to 1.0 at the close of trading on the Second Permanent Deleveraging Valuation Date.

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split and its effective date. The date of such press release shall be deemed to be the "**announcement date**" of the split or the reverse split, the record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Current Principal Amount, Closing Indicative Value, Current Indicative Value, Accrued Fees, Measurement Period Cash Amount and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company ("**DTC**") on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Current Principal Amount on such record date will be *divided by* four to reflect the 4:1 split. The adjusted Current Principal Amount will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Current Principal Amount and other relevant terms of the Securities will be adjusted accordingly and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as "partials"). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Current Principal Amount of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Current Principal Amount will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Current Principal Amount of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

**Security Calculation Agent**

UBS Securities LLC will act as the Security Calculation Agent. The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, the Current Principal

Amount, Current Indicative Value (which we also refer to as the intraday indicative value), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Leverage Factor, the Index Factor, the Index Performance Ratio, the Residual Factor, the Index Closing Level, the Financing Rate, the Accrued Fees (including determining any successor to the LIBOR base rate), the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, the Call Settlement Amount, that we will pay you if we call the Securities, whether a Loss Rebalancing Event has occurred, whether a Permanent Deleveraging Event has occurred and whether any day is an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. If any Intraday Index Value as published by Bloomberg on any Index Business Day is manifestly incorrect, the Security Calculation Agent may base its determination of whether a Loss Rebalancing Event, Permanent Deleveraging Event or Zero Value Event shall have occurred on such Index Business Day on its own determination of such Intraday Index Value. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you, and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date or any Call Settlement Date.

All dollar amounts related to determination of the Accrued Fees, the Current Principal Amount, and any Redemption Amount, Redemption Fee Amount, Call Settlement Amount or Cash Settlement Amount per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (*e.g.*, .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a four-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the four-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4 and June 5, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day and the next Index Business Day after June 5th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a four-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or any Reset Valuation Date, the Index Closing Level for such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or Reset Valuation Date occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date, Calculation Date or any Reset Valuation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging."

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "absence of trading" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, *plus*
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of or Adjustments to the Index or Termination of Our License Agreements with the Index Sponsors; Alteration of Method of Calculation**

If (i) an Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) our license agreement with the Index Sponsor terminates or (iii) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto be furnished to the trustee, to us and to the holders of the Securities.

If an Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, Current Principal Amount, Current Indicative Value (intraday indicative value), Closing Indicative Value, Index Factor, Index Performance Ratio, Residual Factor, Accrued Fees, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity or upon early redemption or call by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An “**Index Replacement Event**” means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties’ ability to perform their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after February 4, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after February 4, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities, or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor or Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Index Performance Ratio, the Last Reset Index Closing Level, the Accrued Fees, and any Redemption Amount, Redemption Fee Amount, Cash Settlement Amount or Call Settlement Amount, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor or Substitute Index is a fraction or multiple of what it would have been if there had been no such modification (*e.g.*, due to a rebasing of the Index), which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (*e.g.*, as if such rebasing had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

**Reissuances or Reopened Issues**

We may, at our sole discretion, "reopen" or reissue any series of Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to "Description of Debt Securities We May Offer — Amounts That We May Issue" in "Medium-Term Notes, Series B" above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities of the same series and will have the same CUSIP number and will trade interchangeably with such Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

**Booking Branch**

The Securities will be booked through UBS AG, London Branch.

**Clearance and Settlement**

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC's settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 25. ETRACS 2x Leveraged US Size Factor TR ETN due February 9, 2051

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary. Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

*Each of the seven series of Securities offered by the prospectus supplement is separate and independent of each other series of Securities. Apart from the applicable Index, however, all of the terms of each series of Securities are the same. Since each series references a different Index, all calculations and adjustments and related events with respect to each series are independent of calculations and adjustments and related events for each other series of Securities, and we may exercise our call right as well as our right to initiate a split or a reverse split independently for each series. The following discussion therefore applies independently to each series of Securities offered by the prospectus supplement and, except as the context may otherwise require, the defined terms refer separately to each series. References to the "Securities" should be understood as references to a single series of Securities and the defined terms should be understood in reference only to that series of Securities.*

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 2, 2015 between us and U.S. Bank Trust National Association, as trustee.

Please note that the information about the offering prices and the net proceeds to UBS on the front cover of the prospectus supplement relates only to the initial sale of the Securities. If you have purchased the Securities in a secondary market transaction after the initial sale, information about the price and date of sale to you will be provided in a separate confirmation of sale.

We describe the terms of the Securities in more detail below. The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or upon early redemption or call. Instead, at maturity, you will receive a cash payment per Security the amount of which will vary depending on the performance and path of the Index and will be reduced by the Accrued Fees as of the last Index Business Day in the Final Measurement Period as described under "— Cash Settlement Amount at Maturity." If the amount as calculated is equal to or less than zero, the Cash Settlement Amount will be zero and you will not receive a cash payment.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment per Security on the relevant Redemption Date equal to the Redemption Amount as described under "— Early Redemption at the Option of the Holders." If the amount as calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is February 9, 2051, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called, redeemed or accelerated upon Zero Value Event, you will receive at maturity a cash payment equal to its Closing Indicative Value on the last Index Business Day in the applicable Measurement Period. We refer to this cash payment as the "**Cash Settlement Amount**." If the amount so calculated is equal to or less than zero, the payment will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | = | **Closing Indicative Value, on last Index Business Day in Final Measurement Period** |

**You may lose all or a substantial portion of your investment at maturity. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, you may lose all or a substantial portion of your investment at maturity. The occurrence of Loss Rebalancing Events will result in more frequent than quarterly compounding.**

**UBS may call the Securities prior to the Maturity Date pursuant to its Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment.** See "Specific Terms of the Securities — UBS's Call Right".

The "**Stated Principal Amount**" of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The Closing Indicative Value represents the dollar value per Security that an investor would receive on any day if it redeemed the Security that day (without giving effect to any Redemption Fee Amount).

The "**Closing Indicative Value**" per Security, will be calculated as follows:

(a) On the Initial Trade Date, $25.00 per Security.

(b) On any other calendar day, prior to the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the immediately preceding calendar day × Index Factor) – Accrued Fees

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) – Accrued Fees + Measurement Period Cash Amount

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Closing Indicative Value for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Closing Indicative Value on any calendar day will be zero.

**If a Zero Value Event occurs, the Closing Indicative Value will be equal to zero on the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "— Automatic Acceleration Upon Zero Value Event".

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The "**Current Principal Amount**" represents the unleveraged notional investment in the Index Constituent Securities per Security at the close of trading on any Reset Valuation Date. The notional financing amount per Security in order to generate the leveraged returns would approximately equal the Current Principal Amount at the close of trading on any Reset Valuation Date. If a Permanent Deleveraging Event occurs, the leverage of your Securities will be permanently reset to 1.0 and the notional financing amount will be equal to zero for the remaining term of the Securities. If a Zero Value Event occurs prior to your Securities permanently resetting to 1.0 at the end of the Second Permanent Deleveraging Valuation Date, then your Securities will be automatically accelerated and mandatorily redeemed and you will lose your entire investment.

The Current Principal Amount per Security, will be calculated as follows:

(a) From and including the Initial Trade Date to and excluding the first Reset Valuation Date, $25.00 per Security.

(b) At the close of trading on each Reset Valuation Date after the Initial Trade Date, the Current Principal Amount of the Securities will be reset as follows:

*New* Current Principal Amount = (Current Principal Amount on immediately preceding calendar day × Index Factor) – Accrued Fees

The Current Principal Amount will not change until the first Reset Valuation Date.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, such day will not be a valid Reset Valuation Date.

If the Securities undergo a split or reverse split, the Current Principal Amount will be adjusted accordingly.

At the close of trading on each Reset Valuation Date, the Current Principal Amount is reset. The "**Reset Valuation Date**" means:

(a) Any calendar day up to and including the Second Permanent Deleveraging Valuation Date, that is either: (i) the Initial Trade Date, (ii) a Quarterly Reset Valuation Date, (iii) a Loss Rebalancing Valuation Date (iv) the First Permanent Deleveraging Valuation Date, or (v) the Second Permanent Deleveraging Valuation Date; and

(b) Any calendar day following the Second Permanent Deleveraging Valuation Date.

The valuation dates are defined below.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, it will not be a valid Reset Valuation Date and the Last Reset Index Closing Level will remain the same.

The "**Quarterly Reset Valuation Date**" is the second Wednesday of January, April, July and October of each calendar year during the term of the Securities (other than an Excluded Day, as defined below), subject to adjustment as described under "—Market Disruption Event".

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding the first day of an applicable Measurement Period, and any calendar day thereafter, and (ii) any calendar day after the Second Permanent Deleveraging Valuation Date.

The "**Index Factor**" is: 1 + (Leverage Factor × Index Performance Ratio).

The Index Factor represents the leveraged percentage change in the Index level since the Last Reset Index Closing Level. The Index Factor *times* the applicable Current Principal Amount on the preceding calendar day represents the current value of the unleveraged notional amount per Security that is deemed invested in the Index on any calendar day. This does not reflect the Redemption Amount that an investor would receive upon early redemption on such calendar day.

The "**Residual Factor**" will be calculated as follows:

(a) 1.0 on any calendar day, to but excluding the first day of an applicable Measurement Period.

(b) From and including the first day of an applicable four-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such four-day Measurement Period, *divided by* (b) four.

For example, on the first Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 3/4, on the second Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 2/4, on the third Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 1/4 and on the last Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal zero.

(c) On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The Residual Factor is intended to approximate the percentage of the Current Principal Amount that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas. At the close of trading on each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash.

The "**Leverage Factor**" on any calendar day until the occurrence of a Permanent Deleveraging Event and the close of trading on the Second Permanent Deleveraging Valuation Date, will equal 2.0. If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Leverage Factor will equal 1.0.

The "**Index Performance Ratio**" on any Index Business Day will be equal to:

$$\frac{\text{Index Closing Level} - \text{Last Reset Index Closing Level}}{\text{Last Reset Index Closing Level}}$$

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

The "**Last Reset Index Closing Level**" is the Index Closing Level on the most recent Reset Valuation Date prior to such day. The initial Last Reset Index Closing Level is the Index Closing Level on the Initial Trade Date, as reported by Bloomberg and Reuters.

The “**Index Closing Level**” on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. The initial Index Closing Level (which is also the first Last Reset Index Closing Level) was determined on February 4, 2021 by the Security Calculation Agent. If the closing level of an Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the “**Index Closing Level**” for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates.

On any calendar day that is not an Index Business Day, the Index Closing level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

“**Measurement Period**” means the Final Measurement Period or, if UBS exercises its Call Right, the Call Measurement Period.

The “**Current Indicative Value**” or “**intraday indicative value”**, as determined by the Security Calculation Agent, is an amount per Security, on an intraday basis on any Index Business Day, equal to:

(a) On the Initial Trade Date, $25.00.

(b) On any other calendar day prior to the first day of a Measurement Period:

(Current Principal Amount on the immediately preceding calendar day × Index Factor, calculated using the Intraday Index Value) – Accrued Fees

(c) From and including the first day of a Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor, calculated using the Intraday Index Value × Residual Factor on the immediately preceding calendar day) – Accrued Fees + Measurement Period Cash Amount, from the immediately preceding calendar day

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is less than or equal to the Measurement Period Cash Amount from the immediately preceding calendar day, the Current Indicative Value for the remainder of that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Current Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (intraday indicative value).

**If a Zero Value Event occurs, the Current Indicative Value (intraday indicative value) will be equal to zero for the remainder of the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See “Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event”.

If the Securities undergo a split or reverse split, the Current Indicative Value (intraday indicative value) will be adjusted accordingly.

The “**Accrued Fees**” as of any date of determination means the Accrued Tracking Fee + the Accrued Financing Fee.

If the Securities undergo a split or reverse split, the Accrued Fees will be adjusted accordingly. The Securities are subject to an “**Accrued Tracking Fee**” per Security, calculated as follows:

(a) On the Initial Trade Date, the Accrued Tracking Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Tracking Fee is equal to: (a) the Accrued Tracking Fee as of the immediately preceding calendar day, *plus* the Daily Tracking Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Tracking Fee is reset to be equal to the Daily Tracking Fee on such calendar day.

The “**Daily Tracking Fee**” is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Tracking Fee is zero.

(b) On any subsequent calendar day, the Daily Tracking Fee is equal to:

(1) (i) 0.95% *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Index Factor on such calendar day *times* (iv) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 365.

(c) The minimum value of the Daily Tracking Fee on any calendar day will be zero.

The Daily Tracking Fee represents the investor fees calculated each day on the current value of the unleveraged notional amount invested in the Index per Security. These charges accrue and compound during the applicable period, and will reduce any amount you are entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly. The Securities are subject to an "**Accrued Financing Fee**" per Security calculated as follows:

(a) On the Initial Trade Date, the Accrued Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Financing Fee is equal to:

(1) the Accrued Financing Fee as of the immediately preceding calendar day, *plus* (2) the Daily Financing Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Financing Fee is reset to be equal to the Daily Financing Fee on such calendar day.

(d) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Accrued Financing Fee will be equal to zero.

The "**Daily Financing Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Daily Financing Fee is equal to:

(1) (i) the Financing Rate on such calendar day *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 360.

(c) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Daily Financing Fee will be equal to zero.

(d) The minimum value of the Daily Financing Fee on any calendar day will be zero.

The Daily Financing Fee seeks to compensate UBS for providing investors with a leveraged participation in movements of the Index and is intended to approximate the financing costs that investors may have otherwise incurred had they sought to borrow funds at a similar rate from a third party to invest in the Index. These charges accrue and compound during the applicable period, and will reduce any amount that you will be entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Financing Fee will be adjusted accordingly.

The "**Financing Rate**" will equal the sum of (a) 0.95% and (b) the London interbank offered rate (ICE LIBOR) for three-month deposits in U.S. Dollars, which is displayed on Reuters page "LIBOR01" (or any successor service or page for the purpose of displaying the London interbank offered rates of major banks, as determined by the Security Calculation Agent) ("**LIBOR**") (or any successor base rate, as described below), as of 11:00 a.m., London time, on the immediately preceding London Business Day. The minimum value of the three-month U.S. Dollar LIBOR rate (or any successor base rate, as described below) used on any calendar day will be zero. The minimum Financing Rate at any time will be 0.95%

For example, 0.21775% was the three-month U.S. Dollar LIBOR rate on January 21, 2021, which was a London Business Day. The Financing Rate on January 21, 2021 would have been equal to 0.95% + 0.21775%, or 1.16775%.

Notwithstanding the foregoing:

- If the Security Calculation Agent determines on the relevant determination date that the London interbank offered rate for deposits in U.S. dollars having an index maturity of three months in amounts of at least $1,000,000 has been discontinued or is no longer representative of the underlying market or economic reality, then the Security Calculation Agent will use a substitute or successor base rate that it has determined in its sole discretion is most comparable to such London interbank offered rate, provided that if the Security Calculation Agent determines there is an industry-accepted successor base rate, then the Security Calculation Agent shall use such successor base rate; and

- If the Security Calculation Agent has determined a substitute or successor base rate in accordance with the foregoing, the Security Calculation Agent in its sole discretion may determine the business day convention, definition of business day and any other relevant methodology for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to the LIBOR base rate, in a manner that is consistent with industry- accepted practices for such substitute or successor base rate.

The establishment of three-month U.S. Dollar LIBOR (or such successor base rate, as applicable) for each period by the Security Calculation Agent shall (in the absence of manifest error) be final and binding.

"**London Business Day**" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in London generally are authorized or obligated by law, regulation or executive order to close and is also a day on which dealings in U.S. dollars are transacted in the London interbank market.

The "**Measurement Period Cash Amount**" is an amount per Security equal to:

(a) $0.00 on any calendar day, to but excluding the first day of a Measurement Period.

(b) On the first day of a one-day Measurement Period:

At the close of trading on such Index Business Day, (Current Principal Amount on the immediately preceding calendar day × Index Factor, on such Index Business Day).

(c) From and including the first day of a four-day Measurement Period:

(i) At the close of trading on each Index Business Day during the Measurement Period, the Measurement Period Cash Amount on the immediately preceding calendar day + (Current Principal Amount on the calendar day immediately preceding the first day of such Measurement Period × 0.25 × Index Factor, on such Index Business Day); and

(ii) On any calendar day during the Measurement Period that is not an Index Business Day, the Measurement Period Cash Amount on the immediately preceding Index Business Day.

(d) On any calendar day after the last Index Business Day of a Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

Notwithstanding the foregoing, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, then the Measurement Period Cash Amount for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash amount from the immediately preceding calendar day.

The Measurement Period Cash Amount represents the portion of the Current Principal Amount that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period, will be deemed converted to cash and an applicable portion of the notional financing amount will separately be deemed converted to cash as well. After the close of trading on the final Index Business Day of a four-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Current Principal Amount that was deemed converted to cash across the four-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount will be deemed converted to cash and an applicable amount of financing will separately be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period**" means:

(a) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $500,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $500,000,000, the four Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Index Calculation Agent**" means the entity that calculates and publishes the level of the Index, which for each series of Securities is the entity set forth below:

| Title of Securities | Index Calculation Agent |
|---|---|
| ETRACS 2x Leveraged US Dividend Factor TR ETN | S&P Dow Jones Indices |
| ETRACS 2x Leveraged US Growth Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Size Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Value Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged MSCI US Minimum Volatility Factor TR ETN | MSCI, Inc. |

The "**Calculation Date**" means February 1, 2051, unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The return of each series of Securities is based upon the performance of the applicable Index set forth on the cover page of the prospectus supplement. Each Index is designed to track the performance of a sector of the U.S. equity market and to reflect an investing style. We refer to the securities included in each Index as the "Index Constituent Securities" for such Index.

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event", you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon and a confirmation of redemption by no later than 5:00 p.m. on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time to time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The first Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable. If a Zero Value Event occurs, the last Redemption Date will be the date on which the Zero Value Event occurred.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of the Redemption Valuation Date).

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures", for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**." If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero. We reserve the right from time to time to waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

**Redemption Amount = Closing Indicative Value – Redemption Fee Amount**

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Accrued Fees and the Redemption Fee Amount will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees and the Redemption Fee Amount, if applicable, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon early redemption. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to its Call Right and, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "Specific Terms of the Securities — UBS's Call Right" and "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;
- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**", to us via email in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;
- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and
- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m., on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS's Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities of any series. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which may be provided via press release) not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event".

The "**Call Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than \$500,000,000, the Call Valuation Date, subject to adjustments as described under "— Market Disruption Event"; and

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than \$500,000,000, the four Index Business Days from and including the Call Valuation Date, subject to adjustment as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right will equal:

(i) The Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Call Valuation Date**" means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | = | **Closing Indicative Value, on last Index Business Day in Call Measurement Period** |

**You may lose all or a substantial portion of your investment if we exercise our Call Right. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon a call. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**In addition, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event" below.

**Automatic Acceleration Upon Zero Value Event**

For each series of Securities, a Zero Value Event represents the first instance when the Current Indicative Value (intraday indicative value) or the Closing Indicative Value is less than or equal to zero (other than on an Excluded Day, as defined below). It will have the effect of permanently resetting the value of your Securities to zero and accelerating the Securities. You will not benefit from any future exposure to the applicable Index after the occurrence of a Zero Value Event.

A Zero Value Event can occur only if a Permanent Deleveraging Event occurs and the Current Indicative Value (intraday indicative value) or the Closing Indicative Value declines to zero before the leverage of your Securities is reset to 1.0 at the close of trading on the Index Business Day following such event (or if such event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, the second Index Business Day following such event), as described under "Permanent Deleveraging Valuation Dates" above.

A "**Zero Value Event**" occurs if the Current Indicative Value (intraday indicative value) or the Closing Indicative Value on any Index Business Day (other than an Excluded Day, as defined below) is less than or equal to zero. From immediately after the Zero Value Event and on all future calendar days, the Current Indicative Value (intraday indicative value) and the Closing Indicative Value will be set equal to zero.

As used above, an "**Excluded Day**" means (i) any calendar day after the Second Permanent Deleveraging Valuation Date (ii) any calendar day on or after which a Zero Value Event has already occurred, and (iii) any calendar day after the last day of an applicable Measurement Period.

In the event that a Zero Value Event has occurred, UBS will issue a press release shortly after the event; provided that the failure to do so shall not affect the automatic acceleration and redemption of the Securities. The Securities will be suspended from trading intraday shortly after the event occurs and will likely not be open for trading again on NYSE Arca.

**You will lose your entire investment upon the occurrence of a Zero Value Event.**

**In addition, we may call the Securities prior to the Maturity Date pursuant to our Call Right.** See "Specific Terms of the Securities — UBS's Call Right".

**Loss Rebalancing Events**

A Loss Rebalancing Event will have the effect of deleveraging your Securities with the aim of resetting the then-current leverage to approximately 2.0. This means that after a Loss Rebalancing Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities relative to before the occurrence of the Loss Rebalancing Event.

A "**Loss Rebalancing Event**" occurs if, at any time, the Intraday Index Value on such Index Business Day (other than an Excluded Day, as used below) decreases by 20% or more from the previous Last Reset Index Closing Level.

Loss Rebalancing Events may occur multiple times over the term of the Securities and may occur multiple times during a single calendar quarter. This means both that (i) the Current Principal Amount may be reset more frequently than quarterly and (ii) the cumulative effect of compounding and fees will have increased as a result of the Loss Rebalancing Event(s). Because each Loss Rebalancing Event will have the effect of deleveraging your Securities, following a Loss Rebalancing Event your Securities will have less exposure to a potential positive gain in value relative to the exposure before the occurrence of such Loss Rebalancing Event.

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding any Quarterly Reset Valuation Date, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day, (ii) any Quarterly Reset Valuation Date, (iii) any Loss Rebalancing Valuation Date, (iv) the Index Business Day immediately preceding the first day of an applicable Measurement Period, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day (v) any calendar day from and including the first day of an applicable Measurement Period, (vi) the First or Second Permanent Deleveraging Valuation Dates, (vii) any calendar day after the Second Permanent Deleveraging Valuation Date, and (ix) any calendar day on or after which a Zero Value Event has occurred.

"**Loss Rebalancing Valuation Date**" means:

(a) if a Loss Rebalancing Event occurs at or prior to 3:15 p.m. on an Index Business Day, the day that such Loss Rebalancing Event occurs, subject to adjustment as described under "— Market Disruption Event"; and

(b) if a Loss Rebalancing Event occurs after 3:15 p.m. on an Index Business Day, the first Index Business Day following the occurrence of such Loss Rebalancing Event, subject to adjustment as described under "— Market Disruption Event."

**Permanent Deleveraging Event**

A Permanent Deleveraging Event will have the effect of deleveraging your Securities, with the aim of permanently resetting the then-current leverage to 1.0 over two Index Business Days. The leverage at the end of the First Permanent Deleveraging Valuation Date is reset to approximately 2.0 and the leverage at the end of the Second Permanent Deleveraging Valuation Date is reset to 1.0. This means that after a Permanent Deleveraging Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities than it would have had before the occurrence of the Permanent Deleveraging Event. If such an event were to occur, it most likely would occur only following a Loss Rebalancing Event and prior to the completion of the associated leverage reset to 2.0, which would generally occur at the end of the Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred or, if the Loss Rebalancing Event occurs 3:15 p.m. on an Index Business Day, at the end of the second Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred.

A "**Permanent Deleveraging Event**" occurs if, at any time on an Index Business Day (other than an Excluded Day, as defined below), the Intraday Index Value decreases by 40% or more from the Last Reset Index Closing Level. If a Permanent Deleveraging Event occurs, the Current Principal Amount of the Securities will be reset over two Index Business Days.

As used above, an "**Excluded Day**" means (i) the First or Second Permanent Deleveraging Valuation Dates, (ii) any calendar day after the Second Permanent Deleveraging Valuation Date, (iii) any day on or after which a Zero Value Event occurs, (iv) the day which is two Index Business Days prior to the first day of a Measurement Period, if a Permanent Deleveraging Event occurs after 3:15 p.m. on such day, and (v) any calendar day from and including the Index Business Day immediately preceding the first day of a Measurement Period.

"**Permanent Deleveraging Valuation Dates**" means the First Permanent Deleveraging Valuation Date and the Second Permanent Deleveraging Valuation Date, each as defined below:

(a) The "**First Permanent Deleveraging Valuation Date**" means:

(i) any Index Business Day, which otherwise would have been a Loss Rebalancing Valuation Date, but on which a Permanent Deleveraging Event has occurred, subject to adjustment as described under "— Market Disruption Event"; or

(ii) if a Permanent Deleveraging Event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, then the first Index Business Day following the occurrence of such Permanent Deleveraging Event, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to approximately 2.0 at the close of trading on the First Permanent Deleveraging Valuation Date.

(b) The "**Second Permanent Deleveraging Valuation Date**" means the Index Business Day immediately following the First Permanent Deleveraging Valuation Date, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to 1.0 at the close of trading on the Second Permanent Deleveraging Valuation Date.

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split and its effective date. The date of such press release shall be deemed to be the "**announcement date**" of the split or the reverse split, the record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Current Principal Amount, Closing Indicative Value, Current Indicative Value, Accrued Fees, Measurement Period Cash Amount and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company ("**DTC**") on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Current Principal Amount on such record date will be *divided by* four to reflect the 4:1 split. The adjusted Current Principal Amount will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Current Principal Amount and other relevant terms of the Securities will be adjusted accordingly and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as "partials"). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Current Principal Amount of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Current Principal Amount will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Current Principal Amount of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

**Security Calculation Agent**

UBS Securities LLC will act as the Security Calculation Agent. The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, the Current Principal Amount, Current Indicative Value (which we also refer to as the intraday indicative value), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Leverage Factor, the Index Factor, the Index Performance Ratio, the Residual Factor, the Index Closing Level, the Financing Rate, the Accrued Fees (including determining any successor to the LIBOR base rate), the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, the Call Settlement Amount, that we will pay you if we call the Securities, whether a Loss Rebalancing Event has occurred, whether a Permanent Deleveraging Event has occurred and whether any day is an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. If any Intraday Index Value as published by Bloomberg on any Index Business Day is manifestly incorrect, the Security Calculation Agent may base its determination of whether a Loss Rebalancing Event, Permanent Deleveraging Event or Zero Value Event shall have occurred on such Index Business Day on its own determination of such Intraday Index Value. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you, and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date or any Call Settlement Date.

All dollar amounts related to determination of the Accrued Fees, the Current Principal Amount, and any Redemption Amount, Redemption Fee Amount, Call Settlement Amount or Cash Settlement Amount per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (*e.g.*, .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a four-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the four-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4 and June 5, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day and the next Index Business Day after June 5th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a four-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or any Reset Valuation Date, the Index Closing Level for such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or Reset Valuation Date occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date, Calculation Date or any Reset Valuation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging."

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "absence of trading" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, *plus*
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of or Adjustments to the Index or Termination of Our License Agreements with the Index Sponsors; Alteration of Method of Calculation**

If (i) an Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) our license agreement with the Index Sponsor terminates or (iii) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto be furnished to the trustee, to us and to the holders of the Securities.

If an Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, Current Principal Amount, Current Indicative Value (intraday indicative value), Closing Indicative Value, Index Factor, Index Performance Ratio, Residual Factor, Accrued Fees, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity or upon early redemption or call by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An "**Index Replacement Event**" means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after February 4, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after February 4, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities, or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor or Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Index Performance Ratio, the Last Reset Index Closing Level, the Accrued Fees, and any Redemption Amount, Redemption Fee Amount, Cash Settlement Amount or Call Settlement Amount, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor or Substitute Index is a fraction or multiple of what it would have been if there had been no such modification (*e.g.*, due to a rebasing of the Index), which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (*e.g.*, as if such rebasing had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

**Reissuances or Reopened Issues**

We may, at our sole discretion, "reopen" or reissue any series of Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to "Description of Debt Securities We May Offer — Amounts That We May Issue" in "Medium-Term Notes, Series B" above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities of the same series and will have the same CUSIP number and will trade interchangeably with such Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

**Booking Branch**

The Securities will be booked through UBS AG, London Branch.

**Clearance and Settlement**

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC's settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 26. ETRACS 2x Leveraged MSCI US Momentum Factor TR ETN due February 9, 2051

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary. Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

*Each of the seven series of Securities offered by the prospectus supplement is separate and independent of each other series of Securities. Apart from the applicable Index, however, all of the terms of each series of Securities are the same. Since each series references a different Index, all calculations and adjustments and related events with respect to each series are independent of calculations and adjustments and related events for each other series of Securities, and we may exercise our call right as well as our right to initiate a split or a reverse split independently for each series. The following discussion therefore applies independently to each series of Securities offered by the prospectus supplement and, except as the context may otherwise require, the defined terms refer separately to each series. References to the "Securities" should be understood as references to a single series of Securities and the defined terms should be understood in reference only to that series of Securities.*

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 2, 2015 between us and U.S. Bank Trust National Association, as trustee.

We describe the terms of the Securities in more detail below. The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or upon early redemption or call. Instead, at maturity, you will receive a cash payment per Security the amount of which will vary depending on the performance and path of the Index and will be reduced by the Accrued Fees as of the last Index Business Day in the Final Measurement Period as described under "— Cash Settlement Amount at Maturity." If the amount as calculated is equal to or less than zero, the Cash Settlement Amount will be zero and you will not receive a cash payment.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment per Security on the relevant Redemption Date equal to the Redemption Amount as described under "— Early Redemption at the Option of the Holders." If the amount as calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is February 9, 2051, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called, redeemed or accelerated upon Zero Value Event, you will receive at maturity a cash payment equal to its Closing Indicative Value on the last Index Business Day in the applicable Measurement Period. We refer to this cash payment as the "**Cash Settlement Amount**." If the amount so calculated is equal to or less than zero, the payment will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | = | **Closing Indicative Value, on last Index Business Day in Final Measurement Period** |

**You may lose all or a substantial portion of your investment at maturity. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, you may lose all or a substantial portion of your investment at maturity. The occurrence of Loss Rebalancing Events will result in more frequent than quarterly compounding.**

UBS may call the Securities prior to the Maturity Date pursuant to its Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment. See "Specific Terms of the Securities — UBS's Call Right".

The "Stated Principal Amount" of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The Closing Indicative Value represents the dollar value per Security that an investor would receive on any day if it redeemed the Security that day (without giving effect to any Redemption Fee Amount).

The "Closing Indicative Value" per Security, will be calculated as follows:

(a) On the Initial Trade Date, \$25.00 per Security.

(b) On any other calendar day, prior to the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the immediately preceding calendar day × Index Factor) – Accrued Fees

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) – Accrued Fees + Measurement Period Cash Amount

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Closing Indicative Value for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Closing Indicative Value on any calendar day will be zero.

**If a Zero Value Event occurs, the Closing Indicative Value will be equal to zero on the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "— Automatic Acceleration Upon Zero Value Event".

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The "**Current Principal Amount**" represents the unleveraged notional investment in the Index Constituent Securities per Security at the close of trading on any Reset Valuation Date. The notional financing amount per Security in order to generate the leveraged returns would approximately equal the Current Principal Amount at the close of trading on any Reset Valuation Date. If a Permanent Deleveraging Event occurs, the leverage of your Securities will be permanently reset to 1.0 and the notional financing amount will be equal to zero for the remaining term of the Securities. If a Zero Value Event occurs prior to your Securities permanently resetting to 1.0 at the end of the Second Permanent Deleveraging Valuation Date, then your Securities will be automatically accelerated and mandatorily redeemed and you will lose your entire investment.

The Current Principal Amount per Security, will be calculated as follows:

(a) From and including the Initial Trade Date to and excluding the first Reset Valuation Date, \$25.00 per Security.

(b) At the close of trading on each Reset Valuation Date after the Initial Trade Date, the Current Principal Amount of the Securities will be reset as follows:

*New* Current Principal Amount = (Current Principal Amount on immediately preceding calendar day × Index Factor) – Accrued Fees

The Current Principal Amount will not change until the first Reset Valuation Date.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, such day will not be a valid Reset Valuation Date.

If the Securities undergo a split or reverse split, the Current Principal Amount will be adjusted accordingly.

At the close of trading on each Reset Valuation Date, the Current Principal Amount is reset. The "**Reset Valuation Date**" means:

(a) Any calendar day up to and including the Second Permanent Deleveraging Valuation Date, that is either: (i) the Initial Trade Date, (ii) a Quarterly Reset Valuation Date, (iii) a Loss Rebalancing Valuation Date (iv) the First Permanent Deleveraging Valuation Date, or (v) the Second Permanent Deleveraging Valuation Date; and

(b) Any calendar day following the Second Permanent Deleveraging Valuation Date.

The valuation dates are defined below.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, it will not be a valid Reset Valuation Date and the Last Reset Index Closing Level will remain the same.

The "**Quarterly Reset Valuation Date**" is the second Wednesday of January, April, July and October of each calendar year during the term of the Securities (other than an Excluded Day, as defined below), subject to adjustment as described under "—Market Disruption Event".

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding the first day of an applicable Measurement Period, and any calendar day thereafter, and (ii) any calendar day after the Second Permanent Deleveraging Valuation Date.

The "**Index Factor**" is: 1 + (Leverage Factor × Index Performance Ratio).

The Index Factor represents the leveraged percentage change in the Index level since the Last Reset Index Closing Level. The Index Factor *times* the applicable Current Principal Amount on the preceding calendar day represents the current value of the unleveraged notional amount per Security that is deemed invested in the Index on any calendar day. This does not reflect the Redemption Amount that an investor would receive upon early redemption on such calendar day.

The "**Residual Factor**" will be calculated as follows:

(a) 1.0 on any calendar day, to but excluding the first day of an applicable Measurement Period.

(b) From and including the first day of an applicable four-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such four-day Measurement Period, *divided by* (b) four.

For example, on the first Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 3/4, on the second Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 2/4, on the third Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 1/4 and on the last Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal zero.

(c) On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The Residual Factor is intended to approximate the percentage of the Current Principal Amount that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas. At the close of trading on each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash.

The "**Leverage Factor**" on any calendar day until the occurrence of a Permanent Deleveraging Event and the close of trading on the Second Permanent Deleveraging Valuation Date, will equal 2.0. If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Leverage Factor will equal 1.0.

The "**Index Performance Ratio**" on any Index Business Day will be equal to:

$$\frac{\text{Index Closing Level} - \text{Last Reset Index Closing Level}}{\text{Last Reset Index Closing Level}}$$

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

The "**Last Reset Index Closing Level**" is the Index Closing Level on the most recent Reset Valuation Date prior to such day. The initial Last Reset Index Closing Level is the Index Closing Level on the Initial Trade Date, as reported by Bloomberg and Reuters.

The "**Index Closing Level**" on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. The initial Index Closing Level (which is also the first Last Reset Index Closing Level) was determined on February 4, 2021 by the Security Calculation Agent. If the closing level of an Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the "**Index Closing Level**" for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates.

On any calendar day that is not an Index Business Day, the Index Closing level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

"**Measurement Period**" means the Final Measurement Period or, if UBS exercises its Call Right, the Call Measurement Period.

The "**Current Indicative Value**" or "**intraday indicative value"**, as determined by the Security Calculation Agent, is an amount per Security, on an intraday basis on any Index Business Day, equal to:

(a) On the Initial Trade Date, $25.00.

(b) On any other calendar day prior to the first day of a Measurement Period:

(Current Principal Amount on the immediately preceding calendar day × Index Factor, calculated using the Intraday Index Value) – Accrued Fees

(c) From and including the first day of a Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor, calculated using the Intraday Index Value × Residual Factor on the immediately preceding calendar day) – Accrued Fees + Measurement Period Cash Amount, from the immediately preceding calendar day However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Current Indicative Value for the remainder of that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Current Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (intraday indicative value).

**If a Zero Value Event occurs, the Current Indicative Value (intraday indicative value) will be equal to zero for the remainder of the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

If the Securities undergo a split or reverse split, the Current Indicative Value (intraday indicative value) will be adjusted accordingly.

The "**Accrued Fees**" as of any date of determination means the Accrued Tracking Fee + the Accrued Financing Fee.

If the Securities undergo a split or reverse split, the Accrued Fees will be adjusted accordingly. The Securities are subject to an "**Accrued Tracking Fee**" per Security, calculated as follows:

(a) On the Initial Trade Date, the Accrued Tracking Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Tracking Fee is equal to: (a) the Accrued Tracking Fee as of the immediately preceding calendar day, *plus* the Daily Tracking Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Tracking Fee is reset to be equal to the Daily Tracking Fee on such calendar day.

The "**Daily Tracking Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Tracking Fee is zero.

(b) On any subsequent calendar day, the Daily Tracking Fee is equal to:

(1) (i) 0.95% *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Index Factor on such calendar day *times* (iv) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 365.

(c) The minimum value of the Daily Tracking Fee on any calendar day will be zero.

The Daily Tracking Fee represents the investor fees calculated each day on the current value of the unleveraged notional amount invested in the Index per Security. These charges accrue and compound during the applicable period, and will reduce any amount you are entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly. The Securities are subject to an "**Accrued Financing Fee**" per Security calculated as follows:

(a) On the Initial Trade Date, the Accrued Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Financing Fee is equal to:

(1) the Accrued Financing Fee as of the immediately preceding calendar day, *plus* (2) the Daily Financing Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Financing Fee is reset to be equal to the Daily Financing Fee on such calendar day.

(d) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Accrued Financing Fee will be equal to zero.

The "**Daily Financing Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Daily Financing Fee is equal to:

(1) (i) the Financing Rate on such calendar day *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 360.

(c) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Daily Financing Fee will be equal to zero.

(d) The minimum value of the Daily Financing Fee on any calendar day will be zero.

The Daily Financing Fee seeks to compensate UBS for providing investors with a leveraged participation in movements of the Index and is intended to approximate the financing costs that investors may have otherwise incurred had they sought to borrow funds at a similar rate from a third party to invest in the Index. These charges accrue and compound during the applicable period, and will reduce any amount that you will be entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Financing Fee will be adjusted accordingly.

The "**Financing Rate**" will equal the sum of (a) 0.95% and (b) the London interbank offered rate (ICE LIBOR) for three-month deposits in U.S. Dollars, which is displayed on Reuters page "LIBOR01" (or any successor service or page for the purpose of displaying the London interbank offered rates of major banks, as determined by the Security Calculation Agent) ("**LIBOR**") (or any successor base rate, as described below), as of 11:00 a.m., London time, on the immediately preceding London Business Day. The minimum value of the three-month U.S. Dollar LIBOR rate (or any successor base rate, as described below) used on any calendar day will be zero. The minimum Financing Rate at any time will be 0.95%

For example, 0.21775% was the three-month U.S. Dollar LIBOR rate on January 21, 2021, which was a London Business Day. The Financing Rate on January 21, 2021 would have been equal to 0.95% + 0.21775%, or 1.16775%.

Notwithstanding the foregoing:

- If the Security Calculation Agent determines on the relevant determination date that the London interbank offered rate for deposits in U.S. dollars having an index maturity of three months in amounts of at least $1,000,000 has been discontinued or is no longer representative of the underlying market or economic reality, then the Security Calculation Agent will use a substitute or successor base rate that it has determined in its sole discretion is most comparable to such London interbank offered rate, provided that if the Security Calculation Agent determines there is an industry-accepted successor base rate, then the Security Calculation Agent shall use such successor base rate; and
- If the Security Calculation Agent has determined a substitute or successor base rate in accordance with the foregoing, the Security Calculation Agent in its sole discretion may determine the business day convention, definition of business day and any other relevant methodology for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to the LIBOR base rate, in a manner that is consistent with industry- accepted practices for such substitute or successor base rate.

The establishment of three-month U.S. Dollar LIBOR (or such successor base rate, as applicable) for each period by the Security Calculation Agent shall (in the absence of manifest error) be final and binding.

"**London Business Day**" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in London generally are authorized or obligated by law, regulation or executive order to close and is also a day on which dealings in U.S. dollars are transacted in the London interbank market.

The "**Measurement Period Cash Amount**" is an amount per Security equal to:

(a) $0.00 on any calendar day, to but excluding the first day of a Measurement Period.

(b) On the first day of a one-day Measurement Period:

At the close of trading on such Index Business Day, (Current Principal Amount on the immediately preceding calendar day × Index Factor, on such Index Business Day).

(c) From and including the first day of a four-day Measurement Period:

(i) At the close of trading on each Index Business Day during the Measurement Period, the Measurement Period Cash Amount on the immediately preceding calendar day + (Current Principal Amount on the calendar day immediately preceding the first day of such Measurement Period × 0.25 × Index Factor, on such Index Business Day); and

(ii) On any calendar day during the Measurement Period that is not an Index Business Day, the Measurement Period Cash Amount on the immediately preceding Index Business Day.

(d) On any calendar day after the last Index Business Day of a Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

Notwithstanding the foregoing, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, then the Measurement Period Cash Amount for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash amount from the immediately preceding calendar day.

The Measurement Period Cash Amount represents the portion of the Current Principal Amount that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period, will be deemed converted to cash and an applicable portion of the notional financing amount will separately be deemed converted to cash as well. After the close of trading on the final Index Business Day of a four-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Current Principal Amount that was deemed converted to cash across the four-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount will be deemed converted to cash and an applicable amount of financing will separately be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period**" means:

(a) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $500,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $500,000,000, the four Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Index Calculation Agent**" means the entity that calculates and publishes the level of the Index, which for each series of Securities is the entity set forth below:

| **Title of Securities** | **Index Calculation Agent** |
|---|---|
| ETRACS 2x Leveraged US Dividend Factor TR ETN | S&P Dow Jones Indices |
| ETRACS 2x Leveraged US Growth Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Size Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Value Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged MSCI US Minimum Volatility Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Momentum Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Quality Factor TR ETN | MSCI, Inc. |

The "**Calculation Date**" means February 1, 2051, unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The return of each series of Securities is based upon the performance of the applicable Index set forth on the cover page of the prospectus supplement. Each Index is designed to track the performance of a sector of the U.S. equity market and to reflect an investing style. We refer to the securities included in each Index as the "Index Constituent Securities" for such Index.

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event", you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon and a confirmation of redemption by no later than 5:00 p.m. on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time to time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The first Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable. If a Zero Value Event occurs, the last Redemption Date will be the date on which the Zero Value Event occurred.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of the Redemption Valuation Date).

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures", for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**." If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero. We reserve the right from time to time to waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

| | | | | |
|---|---|---|---|---|
| **Redemption Amount** | **=** | **Closing Indicative Value** | **–** | **Redemption Fee Amount** |

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Accrued Fees and the Redemption Fee Amount will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees and the Redemption Fee Amount, if applicable, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent**

**Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon early redemption. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

The Securities may be called by UBS prior to the Maturity Date pursuant to its Call Right and, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS. See "Specific Terms of the Securities — UBS's Call Right" and "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;
- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**", to us via email in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;
- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and
- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m., on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS's Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities of any series. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which may be provided via press release) not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event".

The "**Call Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than $500,000,000, the Call Valuation Date, subject to adjustments as described under "— Market Disruption Event"; and

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than $500,000,000, the four

Index Business Days from and including the Call Valuation Date, subject to adjustment as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right will equal:

(i) The Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Call Valuation Date**" means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | **=** | **Closing Indicative Value, on last Index Business Day in Call Measurement Period** |

You may lose all or a substantial portion of your investment if we exercise our Call Right. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon a call. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.

In addition, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS. See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event" below.

**Automatic Acceleration Upon Zero Value Event**

For each series of Securities, a Zero Value Event represents the first instance when the Current Indicative Value (intraday indicative value) or the Closing Indicative Value is less than or equal to zero (other than on an Excluded Day, as defined below). It will have the effect of permanently resetting the value of your Securities to zero and accelerating the Securities. You will not benefit from any future exposure to the applicable Index after the occurrence of a Zero Value Event.

A Zero Value Event can occur only if a Permanent Deleveraging Event occurs and the Current Indicative Value (intraday indicative value) or the Closing Indicative Value declines to zero before the leverage of your Securities is reset to 1.0 at the close of trading on the Index Business Day following such event (or if such event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, the second Index Business Day following such event), as described under "Permanent Deleveraging Valuation Dates" above.

A "**Zero Value Event**" occurs if the Current Indicative Value (intraday indicative value) or the Closing Indicative Value on any Index Business Day (other than an Excluded Day, as defined below) is less than or equal to zero. From immediately after the Zero Value Event and on all future calendar days, the Current Indicative Value (intraday indicative value) and the Closing Indicative Value will be set equal to zero.

As used above, an "**Excluded Day**" means (i) any calendar day after the Second Permanent Deleveraging Valuation Date (ii) any calendar day on or after which a Zero Value Event has already occurred, and (iii) any calendar day after the last day of an applicable Measurement Period.

In the event that a Zero Value Event has occurred, UBS will issue a press release shortly after the event; provided that the failure to do so shall not affect the automatic acceleration and redemption of the Securities. The Securities will be suspended from trading intraday shortly after the event occurs and will likely not be open for trading again on NYSE Arca.

**You will lose your entire investment upon the occurrence of a Zero Value Event.**

**In addition, we may call the Securities prior to the Maturity Date pursuant to our Call Right.** See "Specific Terms of the Securities — UBS's Call Right".

**Loss Rebalancing Events**

A Loss Rebalancing Event will have the effect of deleveraging your Securities with the aim of resetting the then-current leverage to approximately 2.0. This means that after a Loss Rebalancing Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities relative to before the occurrence of the Loss Rebalancing Event.

A "**Loss Rebalancing Event**" occurs if, at any time, the Intraday Index Value on such Index Business Day (other than an Excluded Day, as used below) decreases by 20% or more from the previous Last Reset Index Closing Level.

Loss Rebalancing Events may occur multiple times over the term of the Securities and may occur multiple times during a single calendar quarter. This means both that (i) the Current Principal Amount may be reset more frequently than quarterly and (ii) the cumulative effect of compounding and fees will have increased as a result of the Loss Rebalancing Event(s). Because each Loss Rebalancing Event will have the effect of deleveraging your Securities, following a Loss Rebalancing Event your Securities will have less exposure to a potential positive gain in value relative to the exposure before the occurrence of such Loss Rebalancing Event.

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding any Quarterly Reset Valuation Date, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day, (ii) any Quarterly Reset Valuation Date, (iii) any Loss Rebalancing Valuation Date, (iv) the Index Business Day immediately preceding the first day of an applicable Measurement Period, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day (v) any calendar day from and including the first day of an applicable Measurement Period, (vi) the First or Second Permanent Deleveraging Valuation Dates, (vii) any calendar day after the Second Permanent Deleveraging Valuation Date, and (ix) any calendar day on or after which a Zero Value Event has occurred.

"**Loss Rebalancing Valuation Date**" means:

(a) if a Loss Rebalancing Event occurs at or prior to 3:15 p.m. on an Index Business Day, the day that such Loss Rebalancing Event occurs, subject to adjustment as described under "— Market Disruption Event"; and

(b) if a Loss Rebalancing Event occurs after 3:15 p.m. on an Index Business Day, the first Index Business Day following the occurrence of such Loss Rebalancing Event, subject to adjustment as described under "— Market Disruption Event."

**Permanent Deleveraging Event**

A Permanent Deleveraging Event will have the effect of deleveraging your Securities, with the aim of permanently resetting the then-current leverage to 1.0 over two Index Business Days. The leverage at the end of the First Permanent Deleveraging Valuation Date is reset to approximately 2.0 and the leverage at the end of the Second Permanent Deleveraging Valuation Date is reset to 1.0. This means that after a Permanent Deleveraging Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities than it would have had before the occurrence of the Permanent Deleveraging Event. If such an event were to occur, it most likely would occur only following a Loss Rebalancing Event and prior to the completion of the associated leverage reset to 2.0, which would generally occur at the end of the Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred or, if the Loss Rebalancing Event occurs 3:15 p.m. on an Index Business Day, at the end of the second Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred.

A "**Permanent Deleveraging Event**" occurs if, at any time on an Index Business Day (other than an Excluded Day, as defined below), the Intraday Index Value decreases by 40% or more from the Last Reset Index Closing Level. If a Permanent Deleveraging Event occurs, the Current Principal Amount of the Securities will be reset over two Index Business Days.

As used above, an "**Excluded Day**" means (i) the First or Second Permanent Deleveraging Valuation Dates, (ii) any calendar day after the Second Permanent Deleveraging Valuation Date, (iii) any day on or after which a Zero Value Event occurs, (iv) the day which is two Index Business Days prior to the first day of a Measurement Period, if a Permanent Deleveraging Event occurs after 3:15 p.m. on such day, and (v) any calendar day from and including the Index Business Day immediately preceding the first day of a Measurement Period.

"**Permanent Deleveraging Valuation Dates**" means the First Permanent Deleveraging Valuation Date and the Second Permanent Deleveraging Valuation Date, each as defined below:

(a) The "First Permanent Deleveraging Valuation Date" means:

    (i) any Index Business Day, which otherwise would have been a Loss Rebalancing Valuation Date, but on which a Permanent Deleveraging Event has occurred, subject to adjustment as described under "— Market Disruption Event"; or

    (ii) if a Permanent Deleveraging Event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, then the first Index Business Day following the occurrence of such Permanent Deleveraging Event, subject to adjustment as described under "— Market Disruption Event."

    The leverage of your Securities will be reset to approximately 2.0 at the close of trading on the First Permanent Deleveraging Valuation Date.

(b) The "Second Permanent Deleveraging Valuation Date" means the Index Business Day immediately following the First Permanent Deleveraging Valuation Date, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to 1.0 at the close of trading on the Second Permanent Deleveraging Valuation Date.

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split and its effective date. The date of such press release shall be deemed to be the "**announcement date**" of the split or the reverse split, the record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Current Principal Amount, Closing Indicative Value, Current Indicative Value, Accrued Fees, Measurement Period Cash Amount and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company ("**DTC**") on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Current Principal Amount on such record date will be *divided by* four to reflect the 4:1 split. The adjusted Current Principal Amount will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Current Principal Amount and other relevant terms of the Securities will be adjusted accordingly and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as "partials"). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Current Principal Amount of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Current Principal Amount will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Current Principal Amount of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

**Security Calculation Agent**

UBS Securities LLC will act as the Security Calculation Agent. The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, the Current Principal

Amount, Current Indicative Value (which we also refer to as the intraday indicative value), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Leverage Factor, the Index Factor, the Index Performance Ratio, the Residual Factor, the Index Closing Level, the Financing Rate, the Accrued Fees (including determining any successor to the LIBOR base rate), the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, the Call Settlement Amount, that we will pay you if we call the Securities, whether a Loss Rebalancing Event has occurred, whether a Permanent Deleveraging Event has occurred and whether any day is an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. If any Intraday Index Value as published by Bloomberg on any Index Business Day is manifestly incorrect, the Security Calculation Agent may base its determination of whether a Loss Rebalancing Event, Permanent Deleveraging Event or Zero Value Event shall have occurred on such Index Business Day on its own determination of such Intraday Index Value. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you, and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date or any Call Settlement Date.

All dollar amounts related to determination of the Accrued Fees, the Current Principal Amount, and any Redemption Amount, Redemption Fee Amount, Call Settlement Amount or Cash Settlement Amount per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (*e.g.*, .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a four-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the four-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4 and June 5, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day and the next Index Business Day after June 5th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a four-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or any Reset Valuation Date, the Index Closing Level for such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or Reset Valuation Date occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date, Calculation Date or any Reset Valuation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging."

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "absence of trading" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, *plus*
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of or Adjustments to the Index or Termination of Our License Agreements with the Index Sponsors; Alteration of Method of Calculation**

If (i) an Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) our license agreement with the Index Sponsor terminates or (iii) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto be furnished to the trustee, to us and to the holders of the Securities.

If an Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or

on any Reset Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, Current Principal Amount, Current Indicative Value (intraday indicative value), Closing Indicative Value, Index Factor, Index Performance Ratio, Residual Factor, Accrued Fees, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity or upon early redemption or call by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An "**Index Replacement Event**" means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after February 4, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after February 4, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities, or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor or Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Index Performance Ratio, the Last Reset Index Closing Level, the Accrued Fees, and any Redemption Amount, Redemption Fee Amount, Cash Settlement Amount or Call Settlement Amount, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor or Substitute Index is a fraction or multiple of what it would have been if there had been no such modification (*e.g.*, due to a rebasing of the Index ),

which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (*e.g.*, as if such rebasing had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

### Manner of Payment and Delivery

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

### Reissuances or Reopened Issues

We may, at our sole discretion, "reopen" or reissue any series of Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to "Description of Debt Securities We May Offer — Amounts That We May Issue" in "Medium-Term Notes, Series B" above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities of the same series and will have the same CUSIP number and will trade interchangeably with such Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

### Booking Branch

The Securities will be booked through UBS AG, London Branch.

### Clearance and Settlement

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC's settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 27. ETRACS 2x Leveraged MSCI US Quality Factor TR ETN due February 9, 2051

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary. Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

*Each of the seven series of Securities offered by the prospectus supplement is separate and independent of each other series of Securities. Apart from the applicable Index, however, all of the terms of each series of Securities are the same. Since each series references a different Index, all calculations and adjustments and related events with respect to each series are independent of calculations and adjustments and related events for each other series of Securities, and we may exercise our call right as well as our right to initiate a split or a reverse split independently for each series. The following discussion therefore applies independently to each series of Securities offered by the prospectus supplement and, except as the context may otherwise require, the defined terms refer separately to each series. References to the "Securities" should be understood as references to a single series of Securities and the defined terms should be understood in reference only to that series of Securities.*

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 2, 2015 between us and U.S. Bank Trust National Association, as trustee.

We describe the terms of the Securities in more detail below. The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or upon early redemption or call. Instead, at maturity, you will receive a cash payment per Security the amount of which will vary depending on the performance and path of the Index and will be reduced by the Accrued Fees as of the last Index Business Day in the Final Measurement Period as described under "— Cash Settlement Amount at Maturity." If the amount as calculated is equal to or less than zero, the Cash Settlement Amount will be zero and you will not receive a cash payment.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment per Security on the relevant Redemption Date equal to the Redemption Amount as described under "— Early Redemption at the Option of the Holders." If the amount as calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is February 9, 2051, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called, redeemed or accelerated upon Zero Value Event, you will receive at maturity a cash payment equal to its Closing Indicative Value on the last Index Business Day in the applicable Measurement Period. We refer to this cash payment as the "**Cash Settlement Amount**." If the amount so calculated is equal to or less than zero, the payment will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

**Cash Settlement Amount = Closing Indicative Value, on last Index Business Day in Final Measurement Period**

**You may lose all or a substantial portion of your investment at maturity. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, you may lose all or a substantial portion of your investment at maturity. The occurrence of Loss Rebalancing Events will result in more frequent than quarterly compounding.**

UBS may call the Securities prior to the Maturity Date pursuant to its Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment. See "Specific Terms of the Securities — UBS's Call Right".

The "Stated Principal Amount" of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The Closing Indicative Value represents the dollar value per Security that an investor would receive on any day if it redeemed the Security that day (without giving effect to any Redemption Fee Amount).

The “Closing Indicative Value” per Security, will be calculated as follows:

(a) On the Initial Trade Date, \$25.00 per Security.

(b) On any other calendar day, prior to the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the immediately preceding calendar day × Index Factor) – Accrued Fees

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) – Accrued Fees + Measurement Period Cash Amount

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Closing Indicative Value for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Closing Indicative Value on any calendar day will be zero.

**If a Zero Value Event occurs, the Closing Indicative Value will be equal to zero on the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See “— Automatic Acceleration Upon Zero Value Event”.

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The “**Current Principal Amount**” represents the unleveraged notional investment in the Index Constituent Securities per Security at the close of trading on any Reset Valuation Date. The notional financing amount per Security in order to generate the leveraged returns would approximately equal the Current Principal Amount at the close of trading on any Reset Valuation Date. If a Permanent Deleveraging Event occurs, the leverage of your Securities will be permanently reset to 1.0 and the notional financing amount will be equal to zero for the remaining term of the Securities. If a Zero Value Event occurs prior to your Securities permanently resetting to 1.0 at the end of the Second Permanent Deleveraging Valuation Date, then your Securities will be automatically accelerated and mandatorily redeemed and you will lose your entire investment.

The Current Principal Amount per Security, will be calculated as follows:

(a) From and including the Initial Trade Date to and excluding the first Reset Valuation Date, \$25.00 per Security.

(b) At the close of trading on each Reset Valuation Date after the Initial Trade Date, the Current Principal Amount of the Securities will be reset as follows:

*New* Current Principal Amount = (Current Principal Amount on immediately preceding calendar day × Index Factor) – Accrued Fees

The Current Principal Amount will not change until the first Reset Valuation Date.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, such day will not be a valid Reset Valuation Date.

If the Securities undergo a split or reverse split, the Current Principal Amount will be adjusted accordingly.

At the close of trading on each Reset Valuation Date, the Current Principal Amount is reset. The “**Reset Valuation Date**” means:

(a) Any calendar day up to and including the Second Permanent Deleveraging Valuation Date, that is either: (i) the Initial Trade Date, (ii) a Quarterly Reset Valuation Date, (iii) a Loss Rebalancing Valuation Date (iv) the First Permanent Deleveraging Valuation Date, or (v) the Second Permanent Deleveraging Valuation Date; and

(b) Any calendar day following the Second Permanent Deleveraging Valuation Date.

The valuation dates are defined below.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, it will not be a valid Reset Valuation Date and the Last Reset Index Closing Level will remain the same.

The "**Quarterly Reset Valuation Date**" is the second Wednesday of January, April, July and October of each calendar year during the term of the Securities (other than an Excluded Day, as defined below), subject to adjustment as described under "— Market Disruption Event".

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding the first day of an applicable Measurement Period, and any calendar day thereafter, and (ii) any calendar day after the Second Permanent Deleveraging Valuation Date.

The "**Index Factor**" is: 1 + (Leverage Factor × Index Performance Ratio).

The Index Factor represents the leveraged percentage change in the Index level since the Last Reset Index Closing Level. The Index Factor *times* the applicable Current Principal Amount on the preceding calendar day represents the current value of the unleveraged notional amount per Security that is deemed invested in the Index on any calendar day. This does not reflect the Redemption Amount that an investor would receive upon early redemption on such calendar day.

The "**Residual Factor**" will be calculated as follows:

(a) 1.0 on any calendar day, to but excluding the first day of an applicable Measurement Period.

(b) From and including the first day of an applicable four-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such four-day Measurement Period, *divided by* (b) four.

For example, on the first Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 3/4, on the second Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 2/4, on the third Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 1/4 and on the last Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal zero.

(c) On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The Residual Factor is intended to approximate the percentage of the Current Principal Amount that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas. At the close of trading on each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash.

The "**Leverage Factor**" on any calendar day until the occurrence of a Permanent Deleveraging Event and the close of trading on the Second Permanent Deleveraging Valuation Date, will equal 2.0. If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Leverage Factor will equal 1.0.

The "**Index Performance Ratio**" on any Index Business Day will be equal to:

$$\frac{\text{Index Closing Level} - \text{Last Reset Index Closing Level}}{\text{Last Reset Index Closing Level}}$$

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

The "**Last Reset Index Closing Level**" is the Index Closing Level on the most recent Reset Valuation Date prior to such day. The initial Last Reset Index Closing Level is the Index Closing Level on the Initial Trade Date, as reported by Bloomberg and Reuters.

The "**Index Closing Level**" on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. The initial Index Closing Level (which is also the first Last Reset Index Closing Level) was determined on February 4, 2021 by the Security Calculation Agent. If the closing level of an Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the "**Index Closing Level**" for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates.

On any calendar day that is not an Index Business Day, the Index Closing level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

"**Measurement Period**" means the Final Measurement Period or, if UBS exercises its Call Right, the Call Measurement Period.

The “**Current Indicative Value**” or “**intraday indicative value”**, as determined by the Security Calculation Agent, is an amount per Security, on an intraday basis on any Index Business Day, equal to:

(a) On the Initial Trade Date, \$25.00.

(b) On any other calendar day prior to the first day of a Measurement Period:

(Current Principal Amount on the immediately preceding calendar day × Index Factor, calculated using the Intraday Index Value) – Accrued Fees

(c) From and including the first day of a Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor, calculated using the Intraday Index Value × Residual Factor on the immediately preceding calendar day) – Accrued Fees + Measurement Period Cash Amount, from the immediately preceding calendar day

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Current Indicative Value for the remainder of that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Current Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (intraday indicative value).

**If a Zero Value Event occurs, the Current Indicative Value (intraday indicative value) will be equal to zero for the remainder of the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See “Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event”.

If the Securities undergo a split or reverse split, the Current Indicative Value (intraday indicative value) will be adjusted accordingly.

The “**Accrued Fees**” as of any date of determination means the Accrued Tracking Fee + the Accrued Financing Fee.

If the Securities undergo a split or reverse split, the Accrued Fees will be adjusted accordingly. The Securities are subject to an “**Accrued Tracking Fee**” per Security, calculated as follows:

(a) On the Initial Trade Date, the Accrued Tracking Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Tracking Fee is equal to: (a) the Accrued Tracking Fee as of the immediately preceding calendar day, *plus* the Daily Tracking Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Tracking Fee is reset to be equal to the Daily Tracking Fee on such calendar day.

The “**Daily Tracking Fee**” is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Tracking Fee is zero.

(b) On any subsequent calendar day, the Daily Tracking Fee is equal to:

(1) (i) 0.95% *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Index Factor on such calendar day *times* (iv) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 365.

(c) The minimum value of the Daily Tracking Fee on any calendar day will be zero.

The Daily Tracking Fee represents the investor fees calculated each day on the current value of the unleveraged notional amount invested in the Index per Security. These charges accrue and compound during the applicable period, and will reduce any amount you are entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly. The Securities are subject to an “**Accrued Financing Fee**” per Security calculated as follows:

(a) On the Initial Trade Date, the Accrued Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Financing Fee is equal to:

(1) the Accrued Financing Fee as of the immediately preceding calendar day, *plus* (2) the Daily Financing Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Financing Fee is reset to be equal to the Daily Financing Fee on such calendar day.

(d) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Accrued Financing Fee will be equal to zero.

The "**Daily Financing Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Daily Financing Fee is equal to:

(1) (i) the Financing Rate on such calendar day *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 360.

(c) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Daily Financing Fee will be equal to zero.

(d) The minimum value of the Daily Financing Fee on any calendar day will be zero.

The Daily Financing Fee seeks to compensate UBS for providing investors with a leveraged participation in movements of the Index and is intended to approximate the financing costs that investors may have otherwise incurred had they sought to borrow funds at a similar rate from a third party to invest in the Index. These charges accrue and compound during the applicable period, and will reduce any amount that you will be entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Financing Fee will be adjusted accordingly.

The "**Financing Rate**" will equal the sum of (a) 0.95% and (b) the London interbank offered rate (ICE LIBOR) for three-month deposits in U.S. Dollars, which is displayed on Reuters page "LIBOR01" (or any successor service or page for the purpose of displaying the London interbank offered rates of major banks, as determined by the Security Calculation Agent) ("**LIBOR**") (or any successor base rate, as described below), as of 11:00 a.m., London time, on the immediately preceding London Business Day. The minimum value of the three-month U.S. Dollar LIBOR rate (or any successor base rate, as described below) used on any calendar day will be zero. The minimum Financing Rate at any time will be 0.95%

For example, 0.21775% was the three-month U.S. Dollar LIBOR rate on January 21, 2021, which was a London Business Day. The Financing Rate on January 21, 2021 would have been equal to 0.95% + 0.21775%, or 1.16775%.

Notwithstanding the foregoing:

- If the Security Calculation Agent determines on the relevant determination date that the London interbank offered rate for deposits in U.S. dollars having an index maturity of three months in amounts of at least $1,000,000 has been discontinued or is no longer representative of the underlying market or economic reality, then the Security Calculation Agent will use a substitute or successor base rate that it has determined in its sole discretion is most comparable to such London interbank offered rate, provided that if the Security Calculation Agent determines there is an industry-accepted successor base rate, then the Security Calculation Agent shall use such successor base rate; and
- If the Security Calculation Agent has determined a substitute or successor base rate in accordance with the foregoing, the Security Calculation Agent in its sole discretion may determine the business day convention, definition of business day and any other relevant methodology for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to the LIBOR base rate, in a manner that is consistent with industry- accepted practices for such substitute or successor base rate.

The establishment of three-month U.S. Dollar LIBOR (or such successor base rate, as applicable) for each period by the Security Calculation Agent shall (in the absence of manifest error) be final and binding.

"**London Business Day**" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in London generally are authorized or obligated by law, regulation or executive order to close and is also a day on which dealings in U.S. dollars are transacted in the London interbank market.

The "**Measurement Period Cash Amount**" is an amount per Security equal to:

(a) $0.00 on any calendar day, to but excluding the first day of a Measurement Period.

(b) On the first day of a one-day Measurement Period:

At the close of trading on such Index Business Day, (Current Principal Amount on the immediately preceding calendar day × Index Factor, on such Index Business Day).

(c) From and including the first day of a four-day Measurement Period:

(i) At the close of trading on each Index Business Day during the Measurement Period, the Measurement Period Cash Amount on the immediately preceding calendar day + (Current Principal Amount on the calendar day immediately preceding the first day of such Measurement Period × 0.25 × Index Factor, on such Index Business Day); and

(ii) On any calendar day during the Measurement Period that is not an Index Business Day, the Measurement Period Cash Amount on the immediately preceding Index Business Day.

(d) On any calendar day after the last Index Business Day of a Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

Notwithstanding the foregoing, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, then the Measurement Period Cash Amount for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash amount from the immediately preceding calendar day.

The Measurement Period Cash Amount represents the portion of the Current Principal Amount that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount on the calendar day immediately preceding the first

day of the Measurement Period, will be deemed converted to cash and an applicable portion of the notional financing amount will separately be deemed converted to cash as well. After the close of trading on the final Index Business Day of a four-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Current Principal Amount that was deemed converted to cash across the four-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount will be deemed converted to cash and an applicable amount of financing will separately be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period**" means:

(a) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $500,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $500,000,000, the four Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Index Calculation Agent**" means the entity that calculates and publishes the level of the Index, which for each series of Securities is the entity set forth below:

| Title of Securities | Index Calculation Agent |
|---|---|
| ETRACS 2x Leveraged US Dividend Factor TR ETN | S&P Dow Jones Indices |
| ETRACS 2x Leveraged US Growth Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Size Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Value Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged MSCI US Minimum Volatility Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Momentum Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Quality Factor TR ETN | MSCI, Inc. |

The "**Calculation Date**" means February 1, 2051, unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The return of each series of Securities is based upon the performance of the applicable Index set forth on the cover page of the prospectus supplement. Each Index is designed to track the performance of a sector of the U.S. equity market and to reflect an investing style. We refer to the securities included in each Index as the "Index Constituent Securities" for such Index.

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event", you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon and a confirmation of redemption by no later than 5:00 p.m. on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time to time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The first Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable. If a Zero Value Event occurs, the last Redemption Date will be the date on which the Zero Value Event occurred.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of the Redemption Valuation Date).

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures", for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**." If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero. We reserve the right from time to time to waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

| | | | | |
|---|---|---|---|---|
| **Redemption Amount** | = | **Closing Indicative Value** | – | **Redemption Fee Amount** |

You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Accrued Fees and the Redemption Fee Amount will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees and the Redemption Fee Amount, if applicable, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon early redemption. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.

The Securities may be called by UBS prior to the Maturity Date pursuant to its Call Right and, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS. See "Specific Terms of the Securities — UBS's Call Right" and "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;
- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**", to us via email in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;
- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and
- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m., on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS's Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities of any series. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which may be provided via press release) not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event".

The "**Call Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than $500,000,000, the Call Valuation Date, subject to adjustments as described under "— Market Disruption Event"; and

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than $500,000,000, the four Index Business Days from and including the Call Valuation Date, subject to adjustment as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right will equal:

(i) The Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Call Valuation Date**" means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | **=** | **Closing Indicative Value, on last Index Business Day in Call Measurement Period** |

**You may lose all or a substantial portion of your investment if we exercise our Call Right. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon a call. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

In addition, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS. See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event" below.

**Automatic Acceleration Upon Zero Value Event**

For each series of Securities, a Zero Value Event represents the first instance when the Current Indicative Value (intraday indicative value) or the Closing Indicative Value is less than or equal to zero (other than on an Excluded Day, as defined below). It will have the effect of permanently resetting the value of your Securities to zero and accelerating the Securities. You will not benefit from any future exposure to the applicable Index after the occurrence of a Zero Value Event.

A Zero Value Event can occur only if a Permanent Deleveraging Event occurs and the Current Indicative Value (intraday indicative value) or the Closing Indicative Value declines to zero before the leverage of your Securities is reset to 1.0 at the close of trading on the Index Business Day following such event (or if such event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, the second Index Business Day following such event), as described under "Permanent Deleveraging Valuation Dates" above.

A "**Zero Value Event**" occurs if the Current Indicative Value (intraday indicative value) or the Closing Indicative Value on any Index Business Day (other than an Excluded Day, as defined below) is less than or equal to zero. From immediately after the Zero Value Event and on all future calendar days, the Current Indicative Value (intraday indicative value) and the Closing Indicative Value will be set equal to zero.

As used above, an "**Excluded Day**" means (i) any calendar day after the Second Permanent Deleveraging Valuation Date (ii) any calendar day on or after which a Zero Value Event has already occurred, and (iii) any calendar day after the last day of an applicable Measurement Period.

In the event that a Zero Value Event has occurred, UBS will issue a press release shortly after the event; provided that the failure to do so shall not affect the automatic acceleration and redemption of the Securities. The Securities will be suspended from trading intraday shortly after the event occurs and will likely not be open for trading again on NYSE Arca.

**You will lose your entire investment upon the occurrence of a Zero Value Event.**

**In addition, we may call the Securities prior to the Maturity Date pursuant to our Call Right.** See "Specific Terms of the Securities — UBS's Call Right".

**Loss Rebalancing Events**

A Loss Rebalancing Event will have the effect of deleveraging your Securities with the aim of resetting the then-current leverage to approximately 2.0. This means that after a Loss Rebalancing Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities relative to before the occurrence of the Loss Rebalancing Event.

A "**Loss Rebalancing Event**" occurs if, at any time, the Intraday Index Value on such Index Business Day (other than an Excluded Day, as used below) decreases by 20% or more from the previous Last Reset Index Closing Level.

Loss Rebalancing Events may occur multiple times over the term of the Securities and may occur multiple times during a single calendar quarter. This means both that (i) the Current Principal Amount may be reset more frequently than quarterly and (ii) the cumulative effect of compounding and fees will have increased as a result of the Loss Rebalancing Event(s). Because each Loss Rebalancing Event will have the effect of deleveraging your Securities, following a Loss Rebalancing Event your Securities will have less exposure to a potential positive gain in value relative to the exposure before the occurrence of such Loss Rebalancing Event.

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding any Quarterly Reset Valuation Date, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day, (ii) any Quarterly Reset Valuation Date, (iii) any Loss Rebalancing Valuation Date, (iv) the Index Business Day immediately preceding the first day of an applicable Measurement Period, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day (v) any calendar day from and including the first day of an applicable Measurement Period, (vi) the First or Second Permanent Deleveraging Valuation Dates, (vii) any calendar day after the Second Permanent Deleveraging Valuation Date, and (ix) any calendar day on or after which a Zero Value Event has occurred.

"**Loss Rebalancing Valuation Date**" means:

(a) if a Loss Rebalancing Event occurs at or prior to 3:15 p.m. on an Index Business Day, the day that such Loss Rebalancing Event occurs, subject to adjustment as described under "— Market Disruption Event"; and

(b) if a Loss Rebalancing Event occurs after 3:15 p.m. on an Index Business Day, the first Index Business Day following the occurrence of such Loss Rebalancing Event, subject to adjustment as described under "— Market Disruption Event."

**Permanent Deleveraging Event**

A Permanent Deleveraging Event will have the effect of deleveraging your Securities, with the aim of permanently resetting the then-current leverage to 1.0 over two Index Business Days. The leverage at the end of the First Permanent Deleveraging Valuation Date is reset to approximately 2.0 and the leverage at the end of the Second Permanent Deleveraging Valuation Date is reset to 1.0. This means that after a Permanent Deleveraging Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities than it would have had before the occurrence of the Permanent Deleveraging Event. If such an event were to occur, it most likely would occur only following a Loss Rebalancing Event and prior to the completion of the associated leverage reset to 2.0, which would generally occur at the end of the Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred or, if the Loss Rebalancing Event occurs 3:15 p.m. on an Index Business Day, at the end of the second Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred.

A "Permanent Deleveraging Event" occurs if, at any time on an Index Business Day (other than an Excluded Day, as defined below), the Intraday Index Value decreases by 40% or more from the Last Reset Index Closing Level. If a Permanent Deleveraging Event occurs, the Current Principal Amount of the Securities will be reset over two Index Business Days.

As used above, an "Excluded Day" means (i) the First or Second Permanent Deleveraging Valuation Dates, (ii) any calendar day after the Second Permanent Deleveraging Valuation Date, (iii) any day on or after which a Zero Value Event occurs, (iv) the day which is two Index Business Days prior to the first day of a Measurement Period, if a Permanent Deleveraging Event occurs after 3:15 p.m. on such day, and (v) any calendar day from and including the Index Business Day immediately preceding the first day of a Measurement Period.

"Permanent Deleveraging Valuation Dates" means the First Permanent Deleveraging Valuation Date and the Second Permanent Deleveraging Valuation Date, each as defined below:

(a) The "First Permanent Deleveraging Valuation Date" means:

  (i) any Index Business Day, which otherwise would have been a Loss Rebalancing Valuation Date, but on which a Permanent Deleveraging Event has occurred, subject to adjustment as described under "— Market Disruption Event"; or

(ii) if a Permanent Deleveraging Event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, then the first Index Business Day following the occurrence of such Permanent Deleveraging Event, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to approximately 2.0 at the close of trading on the First Permanent Deleveraging Valuation Date.

(b) The "Second Permanent Deleveraging Valuation Date" means the Index Business Day immediately following the First Permanent Deleveraging Valuation Date, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to 1.0 at the close of trading on the Second Permanent Deleveraging Valuation Date.

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split and its effective date. The date of such press release shall be deemed to be the "**announcement date**" of the split or the reverse split, the record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Current Principal Amount, Closing Indicative Value, Current Indicative Value, Accrued Fees, Measurement Period Cash Amount and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company ("**DTC**") on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Current Principal Amount on such record date will be *divided by* four to reflect the 4:1 split. The adjusted Current Principal Amount will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Current Principal Amount and other relevant terms of the Securities will be adjusted accordingly and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as "partials"). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Current Principal Amount of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Current Principal Amount will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Current Principal Amount of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

**Security Calculation Agent**

UBS Securities LLC will act as the Security Calculation Agent. The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, the Current Principal

Amount, Current Indicative Value (which we also refer to as the intraday indicative value), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Leverage Factor, the Index Factor, the Index Performance Ratio, the Residual Factor, the Index Closing Level, the Financing Rate, the Accrued Fees (including determining any successor to the LIBOR base rate), the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, the Call Settlement Amount, that we will pay you if we call the Securities, whether a Loss Rebalancing Event has occurred, whether a Permanent Deleveraging Event has occurred and whether any day is an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. If any Intraday Index Value as published by Bloomberg on any Index Business Day is manifestly incorrect, the Security Calculation Agent may base its determination of whether a Loss Rebalancing Event, Permanent Deleveraging Event or Zero Value Event shall have occurred on such Index Business Day on its own determination of such Intraday Index Value. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you, and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date or any Call Settlement Date.

All dollar amounts related to determination of the Accrued Fees, the Current Principal Amount, and any Redemption Amount, Redemption Fee Amount, Call Settlement Amount or Cash Settlement Amount per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (*e.g.*, .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a four-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the four-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4 and June 5, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day and the next Index Business Day after June 5th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a four-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or any Reset Valuation Date, the Index Closing Level for such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or Reset Valuation Date occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date, Calculation Date or any Reset Valuation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging."

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "absence of trading" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, *plus*
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of or Adjustments to the Index or Termination of Our License Agreements with the Index Sponsors; Alteration of Method of Calculation**

If (i) an Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) our license agreement with the Index Sponsor terminates or (iii) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto be furnished to the trustee, to us and to the holders of the Securities.

If an Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, Current Principal Amount, Current Indicative Value (intraday indicative value), Closing Indicative Value, Index Factor, Index Performance Ratio, Residual Factor, Accrued Fees, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity or upon early redemption or call by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An “**Index Replacement Event**” means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties’ ability to perform their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after February 4, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after February 4, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities, or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor or Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Index Performance Ratio, the Last Reset Index Closing Level, the Accrued Fees, and any Redemption Amount, Redemption Fee Amount, Cash Settlement Amount or Call Settlement Amount, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor or Substitute Index is a fraction or multiple of what it would have been if there had been no such modification (*e.g.*, due to a rebasing of the Index), which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (*e.g.*, as if such rebasing had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

**Reissuances or Reopened Issues**

We may, at our sole discretion, "reopen" or reissue any series of Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to "Description of Debt Securities We May Offer — Amounts That We May Issue" in "Medium-Term Notes, Series B" above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities of the same series and will have the same CUSIP number and will trade interchangeably with such Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

**Booking Branch**

The Securities will be booked through UBS AG, London Branch.

**Clearance and Settlement**

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC's settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 28. ETRACS 2x Leveraged US Dividend Factor TR ETN due February 9, 2051

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary. Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

*Each of the seven series of Securities offered by the prospectus supplement is separate and independent of each other series of Securities. Apart from the applicable Index, however, all of the terms of each series of Securities are the same. Since each series references a different Index, all calculations and adjustments and related events with respect to each series are independent of calculations and adjustments and related events for each other series of Securities, and we may exercise our call right as well as our right to initiate a split or a reverse split independently for each series. The following discussion therefore applies independently to each series of Securities offered by the prospectus supplement and, except as the context may otherwise require, the defined terms refer separately to each series. References to the "Securities" should be understood as references to a single series of Securities and the defined terms should be understood in reference only to that series of Securities.*

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 2, 2015 between us and U.S. Bank Trust National Association, as trustee.

We describe the terms of the Securities in more detail below. The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or upon early redemption or call. Instead, at maturity, you will receive a cash payment per Security the amount of which will vary depending on the performance and path of the Index and will be reduced by the Accrued Fees as of the last Index Business Day in the Final Measurement Period as described under "— Cash Settlement Amount at Maturity." If the amount as calculated is equal to or less than zero, the Cash Settlement Amount will be zero and you will not receive a cash payment.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment per Security on the relevant Redemption Date equal to the Redemption Amount as described under "— Early Redemption at the Option of the Holders." If the amount as calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is February 9, 2051, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called, redeemed or accelerated upon Zero Value Event, you will receive at maturity a cash payment equal to its Closing Indicative Value on the last Index Business Day in the applicable Measurement Period. We refer to this cash payment as the "**Cash Settlement Amount**." If the amount so calculated is equal to or less than zero, the payment will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | **=** | **Closing Indicative Value, on last Index Business Day in Final Measurement Period** |

**You may lose all or a substantial portion of your investment at maturity. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, you may lose all or a substantial portion of your investment at maturity. The occurrence of Loss Rebalancing Events will result in more frequent than quarterly compounding.**

**UBS may call the Securities prior to the Maturity Date pursuant to its Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment.** See "Specific Terms of the Securities — UBS's Call Right".

The “**Stated Principal Amount**” of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The Closing Indicative Value represents the dollar value per Security that an investor would receive on any day if it redeemed the Security that day (without giving effect to any Redemption Fee Amount).

The “**Closing Indicative Value**” per Security, will be calculated as follows:

(a) On the Initial Trade Date, $25.00 per Security.

(b) On any other calendar day, prior to the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the immediately preceding calendar day × Index Factor) – Accrued Fees

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) – Accrued Fees + Measurement Period Cash Amount

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Closing Indicative Value for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Closing Indicative Value on any calendar day will be zero.

**If a Zero Value Event occurs, the Closing Indicative Value will be equal to zero on the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See “— Automatic Acceleration Upon Zero Value Event”.

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The “**Current Principal Amount**” represents the unleveraged notional investment in the Index Constituent Securities per Security at the close of trading on any Reset Valuation Date. The notional financing amount per Security in order to generate the leveraged returns would approximately equal the Current Principal Amount at the close of trading on any Reset Valuation Date. If a Permanent Deleveraging Event occurs, the leverage of your Securities will be permanently reset to 1.0 and the notional financing amount will be equal to zero for the remaining term of the Securities. If a Zero Value Event occurs prior to your Securities permanently resetting to 1.0 at the end of the Second Permanent Deleveraging Valuation Date, then your Securities will be automatically accelerated and mandatorily redeemed and you will lose your entire investment.

The Current Principal Amount per Security, will be calculated as follows:

(a) From and including the Initial Trade Date to and excluding the first Reset Valuation Date, $25.00 per Security.

(b) At the close of trading on each Reset Valuation Date after the Initial Trade Date, the Current Principal Amount of the Securities will be reset as follows:

*New* Current Principal Amount = (Current Principal Amount on immediately preceding calendar day × Index Factor) – Accrued Fees

The Current Principal Amount will not change until the first Reset Valuation Date.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, such day will not be a valid Reset Valuation Date.

If the Securities undergo a split or reverse split, the Current Principal Amount will be adjusted accordingly.

At the close of trading on each Reset Valuation Date, the Current Principal Amount is reset.

The “**Reset Valuation Date**” means:

(a) Any calendar day up to and including the Second Permanent Deleveraging Valuation Date, that is either: (i) the Initial Trade Date, (ii) a Quarterly Reset Valuation Date, (iii) a Loss Rebalancing Valuation Date (iv) the First Permanent Deleveraging Valuation Date, or (v) the Second Permanent Deleveraging Valuation Date; and

(b) Any calendar day following the Second Permanent Deleveraging Valuation Date.

The valuation dates are defined below.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, it will not be a valid Reset Valuation Date and the Last Reset Index Closing Level will remain the same.

The "**Quarterly Reset Valuation Date**" is the second Wednesday of January, April, July and October of each calendar year during the term of the Securities (other than an Excluded Day, as defined below), subject to adjustment as described under "—Market Disruption Event".

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding the first day of an applicable Measurement Period, and any calendar day thereafter, and (ii) any calendar day after the Second Permanent Deleveraging Valuation Date.

The "**Index Factor**" is: 1 + (Leverage Factor × Index Performance Ratio).

The Index Factor represents the leveraged percentage change in the Index level since the Last Reset Index Closing Level. The Index Factor *times* the applicable Current Principal Amount on the preceding calendar day represents the current value of the unleveraged notional amount per Security that is deemed invested in the Index on any calendar day. This does not reflect the Redemption Amount that an investor would receive upon early redemption on such calendar day.

The "**Residual Factor**" will be calculated as follows:

(a) 1.0 on any calendar day, to but excluding the first day of an applicable Measurement Period.

(b) From and including the first day of an applicable four-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such four-day Measurement Period, *divided by* (b) four.

For example, on the first Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 3/4, on the second Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 2/4, on the third Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 1/4 and on the last Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal zero.

(c) On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The Residual Factor is intended to approximate the percentage of the Current Principal Amount that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas. At the close of trading on each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash.

The "**Leverage Factor**" on any calendar day until the occurrence of a Permanent Deleveraging Event and the close of trading on the Second Permanent Deleveraging Valuation Date, will equal 2.0. If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Leverage Factor will equal 1.0.

The "**Index Performance Ratio**" on any Index Business Day will be equal to:

$$\frac{\text{Index Closing Level} - \text{Last Reset Index Closing Level}}{\text{Last Reset Index Closing Level}}$$

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

The "**Last Reset Index Closing Level**" is the Index Closing Level on the most recent Reset Valuation Date prior to such day. The initial Last Reset Index Closing Level is the Index Closing Level on the Initial Trade Date, as reported by Bloomberg and Reuters.

The "**Index Closing Level**" on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. The initial Index Closing Level (which is also the first Last Reset Index Closing Level) was determined on February 4, 2021 by the Security Calculation Agent. If the closing level of an Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the "**Index Closing Level**" for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates.

On any calendar day that is not an Index Business Day, the Index Closing level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

"**Measurement Period**" means the Final Measurement Period or, if UBS exercises its Call Right, the Call Measurement Period.

The "**Current Indicative Value**" or "**intraday indicative value"**, as determined by the Security Calculation Agent, is an amount per Security, on an intraday basis on any Index Business Day, equal to:

(a) On the Initial Trade Date, $25.00.

(b) On any other calendar day prior to the first day of a Measurement Period:

(Current Principal Amount on the immediately preceding calendar day × Index Factor, calculated using the Intraday Index Value) – Accrued Fees

(c) From and including the first day of a Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor, calculated using the Intraday Index Value × Residual Factor on the immediately preceding calendar day) – Accrued Fees + Measurement Period Cash Amount, from the immediately preceding calendar day

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Current Indicative Value for the remainder of that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Current Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (intraday indicative value).

**If a Zero Value Event occurs, the Current Indicative Value (intraday indicative value) will be equal to zero for the remainder of the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

If the Securities undergo a split or reverse split, the Current Indicative Value (intraday indicative value) will be adjusted accordingly.

The "**Accrued Fees**" as of any date of determination means the Accrued Tracking Fee + the Accrued Financing Fee.

If the Securities undergo a split or reverse split, the Accrued Fees will be adjusted accordingly.

The Securities are subject to an "**Accrued Tracking Fee**" per Security, calculated as follows:

(a) On the Initial Trade Date, the Accrued Tracking Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Tracking Fee is equal to: (a) the Accrued Tracking Fee as of the immediately preceding calendar day, *plus* the Daily Tracking Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Tracking Fee is reset to be equal to the Daily Tracking Fee on such calendar day.

The "**Daily Tracking Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Tracking Fee is zero.

(b) On any subsequent calendar day, the Daily Tracking Fee is equal to:

(1) (i) 0.95% *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Index Factor on such calendar day *times* (iv) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 365.

(c) The minimum value of the Daily Tracking Fee on any calendar day will be zero.

The Daily Tracking Fee represents the investor fees calculated each day on the current value of the unleveraged notional amount invested in the Index per Security. These charges accrue and compound during the applicable period, and will reduce any amount you are entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly.

The Securities are subject to an "**Accrued Financing Fee**" per Security calculated as follows:

(a) On the Initial Trade Date, the Accrued Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Financing Fee is equal to:

(1) the Accrued Financing Fee as of the immediately preceding calendar day, *plus* (2) the Daily Financing Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Financing Fee is reset to be equal to the Daily Financing Fee on such calendar day.

(d) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Accrued Financing Fee will be equal to zero.

The "**Daily Financing Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Daily Financing Fee is equal to:

(1) (i) the Financing Rate on such calendar day *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 360.

(c) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Daily Financing Fee will be equal to zero.

(d) The minimum value of the Daily Financing Fee on any calendar day will be zero.

The Daily Financing Fee seeks to compensate UBS for providing investors with a leveraged participation in movements of the Index and is intended to approximate the financing costs that investors may have otherwise incurred had they sought to borrow funds at a similar rate from a third party to invest in the Index. These charges accrue and compound during the applicable period, and will reduce any amount that you will be entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Financing Fee will be adjusted accordingly.

The "**Financing Rate**" will equal the sum of (a) 0.95% and (b) the London interbank offered rate (ICE LIBOR) for three-month deposits in U.S. Dollars, which is displayed on Reuters page "LIBOR01" (or any successor service or page for the purpose of displaying the London interbank offered rates of major banks, as determined by the Security Calculation Agent) ("**LIBOR**") (or any successor base rate, as described below), as of 11:00 a.m., London time, on the immediately preceding London Business Day. The minimum value of the three-month U.S. Dollar LIBOR rate (or any successor base rate, as described below) used on any calendar day will be zero. The minimum Financing Rate at any time will be 0.95%

For example, 0.21775% was the three-month U.S. Dollar LIBOR rate on January 21, 2021, which was a London Business Day. The Financing Rate on January 21, 2021 would have been equal to 0.95% + 0.21775%, or 1.16775%.

Notwithstanding the foregoing:

- If the Security Calculation Agent determines on the relevant determination date that the London interbank offered rate for deposits in U.S. dollars having an index maturity of three months in amounts of at least $1,000,000 has been discontinued or is no longer representative of the underlying market or economic reality, then the Security Calculation Agent will use a substitute or successor base rate that it has determined in its sole discretion is most comparable to such London interbank offered rate, provided that if the Security Calculation Agent determines there is an industry-accepted successor base rate, then the Security Calculation Agent shall use such successor base rate; and
- If the Security Calculation Agent has determined a substitute or successor base rate in accordance with the foregoing, the Security Calculation Agent in its sole discretion may determine the business day convention, definition of business day and any other relevant methodology for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to the LIBOR base rate, in a manner that is consistent with industry- accepted practices for such substitute or successor base rate.

The establishment of three-month U.S. Dollar LIBOR (or such successor base rate, as applicable) for each period by the Security Calculation Agent shall (in the absence of manifest error) be final and binding.

"**London Business Day**" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in London generally are authorized or obligated by law, regulation or executive order to close and is also a day on which dealings in U.S. dollars are transacted in the London interbank market.

The "**Measurement Period Cash Amount**" is an amount per Security equal to:

(a) $0.00 on any calendar day, to but excluding the first day of a Measurement Period.

(b) On the first day of a one-day Measurement Period:

At the close of trading on such Index Business Day, (Current Principal Amount on the immediately preceding calendar day × Index Factor, on such Index Business Day).

(c) From and including the first day of a four-day Measurement Period:

(i) At the close of trading on each Index Business Day during the Measurement Period, the Measurement Period Cash Amount on the immediately preceding calendar day + (Current Principal Amount on the calendar day immediately preceding the first day of such Measurement Period × 0.25 × Index Factor, on such Index Business Day); and

(ii) On any calendar day during the Measurement Period that is not an Index Business Day, the Measurement Period Cash Amount on the immediately preceding Index Business Day.

(d) On any calendar day after the last Index Business Day of a Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

Notwithstanding the foregoing, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, then the Measurement Period Cash Amount for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash amount from the immediately preceding calendar day.

The Measurement Period Cash Amount represents the portion of the Current Principal Amount that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period, will be deemed converted to cash and an applicable portion of the notional financing amount will separately be deemed converted to cash as well. After the close of trading on the final Index Business Day of a four-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Current Principal Amount that was deemed converted to cash across the four-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount will be deemed converted to cash and an applicable amount of financing will separately be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period**" means:

(a) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $500,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $500,000,000, the four Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Index Calculation Agent**" means the entity that calculates and publishes the level of the Index, which for each series of Securities is the entity set forth below:

| Title of Securities | Index Calculation Agent |
|---|---|
| ETRACS 2x Leveraged US Dividend Factor TR ETN | S&P Dow Jones Indices |
| ETRACS 2x Leveraged US Growth Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Size Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Value Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged MSCI US Minimum Volatility Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Momentum Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Quality Factor TR ETN | MSCI, Inc. |

The "**Calculation Date**" means February 1, 2051, unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The return of each series of Securities is based upon the performance of the applicable Index set forth on the cover page of this prospectus supplement. Each Index is designed to track the performance of a sector of the U.S. equity market and to reflect an investing style. We refer to the securities included in each Index as the "Index Constituent Securities" for such Index.

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event", you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon and a confirmation of redemption by no later than 5:00 p.m. on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time to time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The first Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable. If a Zero Value Event occurs, the last Redemption Date will be the date on which the Zero Value Event occurred.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of the Redemption Valuation Date).

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures", for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**." If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero. We reserve the right from time to time to waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

**Redemption Amount = Closing Indicative Value – Redemption Fee Amount**

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Accrued Fees and the Redemption Fee Amount will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees and the Redemption Fee Amount, if applicable, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent**

**Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon early redemption. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to its Call Right and, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "Specific Terms of the Securities — UBS's Call Right" and "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;

- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**", to us via email in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;

- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and

- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m., on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS's Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities of any series. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which may be provided via press release) not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event".

The "**Call Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than $500,000,000, the Call Valuation Date, subject to adjustments as described under "— Market Disruption Event"; and

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than $500,000,000, the four Index Business Days from and including the Call Valuation Date, subject to adjustment as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right will equal:

(i) The Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Call Valuation Date**" means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | **=** | **Closing Indicative Value, on last Index Business Day in Call Measurement Period** |

**You may lose all or a substantial portion of your investment if we exercise our Call Right. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon a call. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**In addition, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event" below.

### Automatic Acceleration Upon Zero Value Event

For each series of Securities, a Zero Value Event represents the first instance when the Current Indicative Value (intraday indicative value) or the Closing Indicative Value is less than or equal to zero (other than on an Excluded Day, as defined below). It will have the effect of permanently resetting the value of your Securities to zero and accelerating the Securities. You will not benefit from any future exposure to the applicable Index after the occurrence of a Zero Value Event.

A Zero Value Event can occur only if a Permanent Deleveraging Event occurs and the Current Indicative Value (intraday indicative value) or the Closing Indicative Value declines to zero before the leverage of your Securities is reset to 1.0 at the close of trading on the Index Business Day following such event (or if such event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, the second Index Business Day following such event), as described under "Permanent Deleveraging Valuation Dates" above.

A "**Zero Value Event**" occurs if the Current Indicative Value (intraday indicative value) or the Closing Indicative Value on any Index Business Day (other than an Excluded Day, as defined below) is less than or equal to zero. From immediately after the Zero Value Event and on all future calendar days, the Current Indicative Value (intraday indicative value) and the Closing Indicative Value will be set equal to zero.

As used above, an "**Excluded Day**" means (i) any calendar day after the Second Permanent Deleveraging Valuation Date (ii) any calendar day on or after which a Zero Value Event has already occurred, and (iii) any calendar day after the last day of an applicable Measurement Period.

In the event that a Zero Value Event has occurred, UBS will issue a press release shortly after the event; provided that the failure to do so shall not affect the automatic acceleration and redemption of the Securities. The Securities will be suspended from trading intraday shortly after the event occurs and will likely not be open for trading again on NYSE Arca.

**You will lose your entire investment upon the occurrence of a Zero Value Event.**

**In addition, we may call the Securities prior to the Maturity Date pursuant to our Call Right.** See "Specific Terms of the Securities — UBS's Call Right".

### Loss Rebalancing Events

A Loss Rebalancing Event will have the effect of deleveraging your Securities with the aim of resetting the then-current leverage to approximately 2.0. This means that after a Loss Rebalancing Event, a constant percentage increase in the Index

Closing Level will have less of a positive effect on the value of your Securities relative to before the occurrence of the Loss Rebalancing Event.

A "**Loss Rebalancing Event**" occurs if, at any time, the Intraday Index Value on such Index Business Day (other than an Excluded Day, as used below) decreases by 20% or more from the previous Last Reset Index Closing Level.

Loss Rebalancing Events may occur multiple times over the term of the Securities and may occur multiple times during a single calendar quarter. This means both that (i) the Current Principal Amount may be reset more frequently than quarterly and (ii) the cumulative effect of compounding and fees will have increased as a result of the Loss Rebalancing Event(s). Because each Loss Rebalancing Event will have the effect of deleveraging your Securities, following a Loss Rebalancing Event your Securities will have less exposure to a potential positive gain in value relative to the exposure before the occurrence of such Loss Rebalancing Event.

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding any Quarterly Reset Valuation Date, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day, (ii) any Quarterly Reset Valuation Date, (iii) any Loss Rebalancing Valuation Date, (iv) the Index Business Day immediately preceding the first day of an applicable Measurement Period, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day (v) any calendar day from and including the first day of an applicable Measurement Period, (vi) the First or Second Permanent Deleveraging Valuation Dates, (vii) any calendar day after the Second Permanent Deleveraging Valuation Date, and (ix) any calendar day on or after which a Zero Value Event has occurred.

"**Loss Rebalancing Valuation Date**" means:

(a) if a Loss Rebalancing Event occurs at or prior to 3:15 p.m. on an Index Business Day, the day that such Loss Rebalancing Event occurs, subject to adjustment as described under "— Market Disruption Event"; and

(b) if a Loss Rebalancing Event occurs after 3:15 p.m. on an Index Business Day, the first Index Business Day following the occurrence of such Loss Rebalancing Event, subject to adjustment as described under "— Market Disruption Event."

**Permanent Deleveraging Event**

A Permanent Deleveraging Event will have the effect of deleveraging your Securities, with the aim of permanently resetting the then-current leverage to 1.0 over two Index Business Days. The leverage at the end of the First Permanent Deleveraging Valuation Date is reset to approximately 2.0 and the leverage at the end of the Second Permanent Deleveraging Valuation Date is reset to 1.0. This means that after a Permanent Deleveraging Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities than it would have had before the occurrence of the Permanent Deleveraging Event. If such an event were to occur, it most likely would occur only following a Loss Rebalancing Event and prior to the completion of the associated leverage reset to 2.0, which would generally occur at the end of the Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred or, if the Loss Rebalancing Event occurs 3:15 p.m. on an Index Business Day, at the end of the second Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred.

A "**Permanent Deleveraging Event**" occurs if, at any time on an Index Business Day (other than an Excluded Day, as defined below), the Intraday Index Value decreases by 40% or more from the Last Reset Index Closing Level. If a Permanent Deleveraging Event occurs, the Current Principal Amount of the Securities will be reset over two Index Business Days.

As used above, an "**Excluded Day**" means (i) the First or Second Permanent Deleveraging Valuation Dates, (ii) any calendar day after the Second Permanent Deleveraging Valuation Date, (iii) any day on or after which a Zero Value Event occurs, (iv) the day which is two Index Business Days prior to the first day of a Measurement Period, if a Permanent Deleveraging Event occurs after 3:15 p.m. on such day, and (v) any calendar day from and including the Index Business Day immediately preceding the first day of a Measurement Period.

"**Permanent Deleveraging Valuation Dates**" means the First Permanent Deleveraging Valuation Date and the Second Permanent Deleveraging Valuation Date, each as defined below:

(a) The "**First Permanent Deleveraging Valuation Date**" means:

(i) any Index Business Day, which otherwise would have been a Loss Rebalancing Valuation Date, but on which a Permanent Deleveraging Event has occurred, subject to adjustment as described under "— Market Disruption Event"; or

(ii) if a Permanent Deleveraging Event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, then the first Index Business Day following the occurrence of such Permanent Deleveraging Event, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to approximately 2.0 at the close of trading on the First Permanent Deleveraging Valuation Date.

(b) The "**Second Permanent Deleveraging Valuation Date**" means the Index Business Day immediately following the First Permanent Deleveraging Valuation Date, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to 1.0 at the close of trading on the Second Permanent Deleveraging Valuation Date.

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split and its effective date. The date of such press release shall be deemed to be the "**announcement date**" of the split or the reverse split, the record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Current Principal Amount, Closing Indicative Value, Current Indicative Value, Accrued Fees, Measurement Period Cash Amount and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company ("**DTC**") on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Current Principal Amount on such record date will be *divided by* four to reflect the 4:1 split. The adjusted Current Principal Amount will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Current Principal Amount and other relevant terms of the Securities will be adjusted accordingly and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as "partials"). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Current Principal Amount of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Current Principal Amount will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Current Principal Amount of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

**Security Calculation Agent**

UBS Securities LLC will act as the Security Calculation Agent. The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, the Current Principal Amount, Current Indicative Value (which we also refer to as the intraday indicative value), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Leverage Factor, the Index Factor, the Index Performance Ratio, the Residual Factor, the Index Closing Level, the Financing Rate, the Accrued Fees (including determining any successor to the LIBOR base rate), the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, the Call Settlement Amount, that we will pay you if we call the Securities, whether a Loss Rebalancing Event has occurred, whether a Permanent Deleveraging Event has occurred and whether any day is an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. If any Intraday Index Value as published by Bloomberg on any Index Business Day is manifestly incorrect, the Security Calculation Agent may base its determination of whether a Loss Rebalancing Event, Permanent Deleveraging Event or Zero Value Event shall have occurred on such Index Business Day on its own determination of such Intraday Index Value. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security Calculation Agent will be conclusive for all purposes and binding on us, you, and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date or any Call Settlement Date.

All dollar amounts related to determination of the Accrued Fees, the Current Principal Amount, and any Redemption Amount, Redemption Fee Amount, Call Settlement Amount or Cash Settlement Amount per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (*e.g.*, .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a four-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the four-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4 and June 5, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day and the next Index Business Day after June 5th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a four-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or any Reset Valuation Date, the Index Closing Level for such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or Reset Valuation Date occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date, Calculation Date or any Reset Valuation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging."

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "absence of trading" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, *plus*
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or

- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of or Adjustments to the Index or Termination of Our License Agreements with the Index Sponsors; Alteration of Method of Calculation**

If (i) an Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) our license agreement with the Index Sponsor terminates or (iii) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto be furnished to the trustee, to us and to the holders of the Securities.

If an Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, Current Principal Amount, Current Indicative Value (intraday indicative value), Closing Indicative Value, Index Factor, Index Performance Ratio, Residual Factor, Accrued Fees, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity or upon early redemption or call by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An "**Index Replacement Event**" means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after February 4, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after February 4, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities, or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor or Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Index Performance Ratio, the Last Reset Index Closing Level, the Accrued Fees, and any Redemption Amount, Redemption Fee Amount, Cash Settlement Amount or Call Settlement Amount, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor or Substitute Index is a fraction or multiple of what it would have been if there had been no such modification (*e.g.*, due to a rebasing of the Index), which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (*e.g.*, as if such rebasing had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

**Manner of Payment and Delivery**

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

**Reissuances or Reopened Issues**

We may, at our sole discretion, “reopen” or reissue any series of Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to “Description of Debt Securities We May Offer — Amounts That We May Issue” in “Medium-Term Notes, Series B” above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities of the same series and will have the same CUSIP number and will trade interchangeably with such Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

**Booking Branch**

The Securities will be booked through UBS AG, London Branch.

**Clearance and Settlement**

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC’s settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

## 29. ETRACS 2x Leveraged MSCI US Minimum Volatility Factor TR ETN due February 9, 2051

### Specific Terms of the Securities

In this section, references to "holders" mean those who own the Securities registered in their own names, on the books that we or the trustee maintains for this purpose, and not those who own beneficial interests in the Securities registered in street name or in the Securities issued in book-entry form through The Depository Trust Company ("**DTC**") or another depositary Owners of beneficial interests in the Securities should read the section entitled "Legal Ownership and Book-Entry Issuance" under "Medium-Term Notes, Series B" above.

*Each of the seven series of Securities offered by the prospectus supplement is separate and independent of each other series of Securities. Apart from the applicable Index, however, all of the terms of each series of Securities are the same. Since each series references a different Index, all calculations and adjustments and related events with respect to each series are independent of calculations and adjustments and related events for each other series of Securities, and we may exercise our call right as well as our right to initiate a split or a reverse split independently for each series. The following discussion therefore applies independently to each series of Securities offered by the prospectus supplement and, except as the context may otherwise require, the defined terms refer separately to each series. References to the "Securities" should be understood as references to a single series of Securities and the defined terms should be understood in reference only to that series of Securities.*

These Securities are part of a series of debt securities entitled "Medium-Term Notes, Series B" that we may issue, from time to time, under the indenture more particularly described under "Medium-Term Notes, Series B" above. This section summarizes general financial and other terms that apply to the Securities. Terms that apply generally to all Medium-Term Notes, Series B are described in "Description of Debt Securities We May Offer" under "Medium-Term Notes, Series B" above. The terms described here supplement those described in "Medium-Term Notes, Series B" above and, if the terms described here are inconsistent with those described there, the terms described here are controlling.

The Securities are part of a single series of senior debt securities issued under our indenture, dated as of June 2, 2015 between us and U.S. Bank Trust National Association, as trustee.

Please note that the information about the offering prices and the net proceeds to UBS on the front cover of the prospectus supplement relates only to the initial sale of the Securities. If you have purchased the Securities in a secondary market transaction after the initial sale, information about the price and date of sale to you will be provided in a separate confirmation of sale.

We describe the terms of the Securities in more detail below. The Stated Principal Amount of each Security is $25.00.

The Securities do not guarantee any return of principal at, or prior to, maturity or upon early redemption or call. Instead, at maturity, you will receive a cash payment per Security the amount of which will vary depending on the performance and path of the Index and will be reduced by the Accrued Fees as of the last Index Business Day in the Final Measurement Period as described under "— Cash Settlement Amount at Maturity." If the amount as calculated is equal to or less than zero, the Cash Settlement Amount will be zero and you will not receive a cash payment.

If you exercise your right to have us redeem your Securities, subject to compliance with the redemption procedures, for each Security you will receive a cash payment per Security on the relevant Redemption Date equal to the Redemption Amount as described under "— Early Redemption at the Option of the Holders." If the amount as calculated is equal to or less than zero, the Redemption Amount will be zero and you will not receive a cash payment.

### Cash Settlement Amount at Maturity

The "**Maturity Date**" is February 9, 2051, which will be the third Index Business Day following the last Index Business Day in the Final Measurement Period, subject to adjustment as described below under "— Market Disruption Event."

For each Security, unless earlier called, redeemed or accelerated upon Zero Value Event, you will receive at maturity a cash payment equal to its Closing Indicative Value on the last Index Business Day in the applicable Measurement Period. We refer to this cash payment as the "**Cash Settlement Amount**." If the amount so calculated is equal to or less than zero, the payment will be zero.

The following graphic illustrates the formula to determine the Cash Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | **=** | **Closing Indicative Value, on last Index Business Day in Final Measurement Period** |

**You may lose all or a substantial portion of your investment at maturity. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, you may lose all or a substantial portion of your investment at maturity. The occurrence of Loss Rebalancing Events will result in more frequent than quarterly compounding.**

**UBS may call the Securities prior to the Maturity Date pursuant to its Call Right. If the Securities are called by UBS, the Call Settlement Amount may be zero and you may lose all or a substantial portion of your investment.** See "Specific Terms of the Securities — UBS's Call Right".

The **"Stated Principal Amount"** of each Security is $25.00. The Securities may be issued and sold over time at then-current market prices which may be significantly higher or lower than the Stated Principal Amount. If the Securities undergo a split or reverse split, the Stated Principal Amount will be adjusted accordingly.

The Closing Indicative Value represents the dollar value per Security that an investor would receive on any day if it redeemed the Security that day (without giving effect to any Redemption Fee Amount).

The "**Closing Indicative Value**" per Security, will be calculated as follows:

(a) On the Initial Trade Date, $25.00 per Security.

(b) On any other calendar day, prior to the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the immediately preceding calendar day × Index Factor) – Accrued Fees

(c) From and including the first day of an applicable Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor × Residual Factor) – Accrued Fees + Measurement Period Cash Amount

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Closing Indicative Value for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Closing Indicative Value on any calendar day will be zero.

**If a Zero Value Event occurs, the Closing Indicative Value will be equal to zero on the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "— Automatic Acceleration Upon Zero Value Event".

The actual trading price of the Securities in the secondary market may vary significantly from their Closing Indicative Value.

If the Securities undergo a split or reverse split, the Closing Indicative Value will be adjusted accordingly.

The "**Current Principal Amount**" represents the unleveraged notional investment in the Index Constituent Securities per Security at the close of trading on any Reset Valuation Date. The notional financing amount per Security in order to generate the leveraged returns would approximately equal the Current Principal Amount at the close of trading on any Reset Valuation Date. If a Permanent Deleveraging Event occurs, the leverage of your Securities will be permanently reset to 1.0 and the notional financing amount will be equal to zero for the remaining term of the Securities. If a Zero Value Event occurs prior to your Securities permanently resetting to 1.0 at the end of the Second Permanent Deleveraging Valuation Date, then your Securities will be automatically accelerated and mandatorily redeemed and you will lose your entire investment.

The Current Principal Amount per Security, will be calculated as follows:

(a) From and including the Initial Trade Date to and excluding the first Reset Valuation Date, $25.00 per Security.

(b) At the close of trading on each Reset Valuation Date after the Initial Trade Date, the Current Principal Amount of the Securities will be reset as follows:

*New* Current Principal Amount = (Current Principal Amount on immediately preceding calendar day × Index Factor) – Accrued Fees

The Current Principal Amount will not change until the first Reset Valuation Date.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, such day will not be a valid Reset Valuation Date.

If the Securities undergo a split or reverse split, the Current Principal Amount will be adjusted accordingly.

At the close of trading on each Reset Valuation Date, the Current Principal Amount is reset.

The "**Reset Valuation Date**" means:

(a) Any calendar day up to and including the Second Permanent Deleveraging Valuation Date, that is either: (i) the Initial Trade Date, (ii) a Quarterly Reset Valuation Date, (iii) a Loss Rebalancing Valuation Date (iv) the First Permanent Deleveraging Valuation Date, or (v) the Second Permanent Deleveraging Valuation Date; and

(b) Any calendar day following the Second Permanent Deleveraging Valuation Date.

The valuation dates are defined below.

If a day that would otherwise be a Reset Valuation Date occurs on or after the first day of a Measurement Period, it will not be a valid Reset Valuation Date and the Last Reset Index Closing Level will remain the same.

The "**Quarterly Reset Valuation Date**" is the second Wednesday of January, April, July and October of each calendar year during the term of the Securities (other than an Excluded Day, as defined below), subject to adjustment as described under "—Market Disruption Event".

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding the first day of an applicable Measurement Period, and any calendar day thereafter, and (ii) any calendar day after the Second Permanent Deleveraging Valuation Date.

The "**Index Factor**" is: 1 + (Leverage Factor × Index Performance Ratio).

The Index Factor represents the leveraged percentage change in the Index level since the Last Reset Index Closing Level. The Index Factor *times* the applicable Current Principal Amount on the preceding calendar day represents the current value of the unleveraged notional amount per Security that is deemed invested in the Index on any calendar day. This does not reflect the Redemption Amount that an investor would receive upon early redemption on such calendar day.

The "**Residual Factor**" will be calculated as follows:

(a) 1.0 on any calendar day, to but excluding the first day of an applicable Measurement Period.

(b) From and including the first day of an applicable four-day Measurement Period, (a) the number of Index Business Days from, but excluding, the date of determination to, and including, the last Index Business Day in such four-day Measurement Period, *divided by* (b) four.

For example, on the first Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 3/4, on the second Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 2/4, on the third Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal 1/4 and on the last Index Business Day in an applicable four-day Measurement Period, the Residual Factor will equal zero.

(c) On any calendar day from and including the last Index Business Day of an applicable Measurement Period, the Residual Factor will be equal to zero.

The Residual Factor is intended to approximate the percentage of the Current Principal Amount that is tracking the Index on any given day. The Residual Factor is relevant only during an applicable Measurement Period but otherwise is not a component of the Closing Indicative Value or Current Indicative Value formulas. At the close of trading on each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount and the corresponding amount of financing will be deemed converted to cash.

The "**Leverage Factor**" on any calendar day until the occurrence of a Permanent Deleveraging Event and the close of trading on the Second Permanent Deleveraging Valuation Date, will equal 2.0. If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Leverage Factor will equal 1.0.

The "**Index Performance Ratio**" on any Index Business Day will be equal to:

$$\frac{\text{Index Closing Level} - \text{Last Reset Index Closing Level}}{\text{Last Reset Index Closing Level}}$$

On any calendar day that is not an Index Business Day, the Index Closing Level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

The "**Last Reset Index Closing Level**" is the Index Closing Level on the most recent Reset Valuation Date prior to such day. The initial Last Reset Index Closing Level is the Index Closing Level on the Initial Trade Date, as reported by Bloomberg and Reuters.

The "**Index Closing Level**" on any date of determination is the closing level of the Index, as reported on Bloomberg and Reuters on such day; however, if the closing level of the Index as reported on Bloomberg (or any successor) differs from the closing level of the Index as reported on Reuters (or any successor), the Index Closing Level will be the closing level of the Index as calculated by the Index Calculation Agent. The initial Index Closing Level (which is also the first Last Reset Index Closing Level) was determined on February 4, 2021 by the Security Calculation Agent. If the closing level of an Index, as reported on Bloomberg and Reuters for any Index Business Day, is manifestly incorrect, the "**Index Closing Level**" for such Index Business Day shall be the closing level of the Index as determined by the Security Calculation Agent. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates.

On any calendar day that is not an Index Business Day, the Index Closing level will be equal to the Index Closing Level on the Index Business Day immediately preceding such calendar day.

"**Measurement Period**" means the Final Measurement Period or, if UBS exercises its Call Right, the Call Measurement Period.

The "**Current Indicative Value**" or "**intraday indicative value"**, as determined by the Security Calculation Agent, is an amount per Security, on an intraday basis on any Index Business Day, equal to:

(a) On the Initial Trade Date, $25.00.

(b) On any other calendar day prior to the first day of a Measurement Period:

(Current Principal Amount on the immediately preceding calendar day × Index Factor, calculated using the Intraday Index Value) – Accrued Fees

(c) From and including the first day of a Measurement Period, an amount per Security equal to:

(Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period × Index Factor, calculated using the Intraday Index Value × Residual Factor on the immediately preceding calendar day) – Accrued Fees + Measurement Period Cash Amount, from the immediately preceding calendar day

However, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value *is less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, the Current Indicative Value for the remainder of that day and all subsequent days will be fixed to be equal to the Measurement Period Cash Amount from the immediately preceding calendar day.

(d) The minimum value of the Current Indicative Value on any calendar day will be zero.

The actual trading price of the Securities in the secondary market may vary significantly from their Current Indicative Value (intraday indicative value).

**If a Zero Value Event occurs, the Current Indicative Value (intraday indicative value) will be equal to zero for the remainder of the day it occurs and on all future calendar days. Upon the occurrence of a Zero Value Event, investors will lose their entire investment. You will not benefit from any future exposure to the Index after the occurrence of a Zero Value Event.** See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

If the Securities undergo a split or reverse split, the Current Indicative Value (intraday indicative value) will be adjusted accordingly.

The "**Accrued Fees**" as of any date of determination means the Accrued Tracking Fee + the Accrued Financing Fee.

If the Securities undergo a split or reverse split, the Accrued Fees will be adjusted accordingly. The Securities are subject to an "**Accrued Tracking Fee**" per Security, calculated as follows:

(a) On the Initial Trade Date, the Accrued Tracking Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Tracking Fee is equal to: (a) the Accrued Tracking Fee as of the immediately preceding calendar day, *plus* the Daily Tracking Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Tracking Fee is reset to be equal to the Daily Tracking Fee on such calendar day.

The "**Daily Tracking Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Tracking Fee is zero.

(b) On any subsequent calendar day, the Daily Tracking Fee is equal to:

(1) (i) 0.95% *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Index Factor on such calendar day *times* (iv) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 365.

(c) The minimum value of the Daily Tracking Fee on any calendar day will be zero.

The Daily Tracking Fee represents the investor fees calculated each day on the current value of the unleveraged notional amount invested in the Index per Security. These charges accrue and compound during the applicable period, and will reduce any amount you are entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Tracking Fee will be adjusted accordingly. The Securities are subject to an "**Accrued Financing Fee**" per Security calculated as follows:

(a) On the Initial Trade Date, the Accrued Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Accrued Financing Fee is equal to:

(1) the Accrued Financing Fee as of the immediately preceding calendar day, *plus* (2) the Daily Financing Fee on such calendar day.

(c) On the calendar day after each Reset Valuation Date, the Accrued Financing Fee is reset to be equal to the Daily Financing Fee on such calendar day.

(d) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Accrued Financing Fee will be equal to zero.

The "**Daily Financing Fee**" is an amount per Security calculated as follows:

(a) On the Initial Trade Date, the Daily Financing Fee is equal to zero.

(b) On any subsequent calendar day, the Daily Financing Fee is equal to:

(1) (i) the Financing Rate on such calendar day *times* (ii) the Current Principal Amount on the immediately preceding calendar day *times* (iii) the Residual Factor on the immediately preceding calendar day, *divided by* (2) 360.

(c) If a Permanent Deleveraging Event occurs, then on any calendar day following the Second Permanent Deleveraging Valuation Date, the Daily Financing Fee will be equal to zero.

(d) The minimum value of the Daily Financing Fee on any calendar day will be zero.

The Daily Financing Fee seeks to compensate UBS for providing investors with a leveraged participation in movements of the Index and is intended to approximate the financing costs that investors may have otherwise incurred had they sought to borrow funds at a similar rate from a third party to invest in the Index. These charges accrue and compound during the applicable period, and will reduce any amount that you will be entitled to receive at maturity or upon early redemption or call.

If the Securities undergo a split or reverse split, the Daily Financing Fee will be adjusted accordingly.

The "**Financing Rate**" will equal the sum of (a) 0.95% and (b) the London interbank offered rate (ICE LIBOR) for three-month deposits in U.S. Dollars, which is displayed on Reuters page "LIBOR01" (or any successor service or page for the purpose of displaying the London interbank offered rates of major banks, as determined by the Security Calculation Agent) ("**LIBOR**") (or any successor base rate, as described below), as of 11:00 a.m., London time, on the immediately preceding London Business Day. The minimum value of the three-month U.S. Dollar LIBOR rate (or any successor base rate, as described below) used on any calendar day will be zero. The minimum Financing Rate at any time will be 0.95%

For example, 0.21775% was the three-month U.S. Dollar LIBOR rate on January 21, 2021, which was a London Business Day. The Financing Rate on January 21, 2021 would have been equal to 0.95% + 0.21775%, or 1.16775%.

Notwithstanding the foregoing:

- If the Security Calculation Agent determines on the relevant determination date that the London interbank offered rate for deposits in U.S. dollars having an index maturity of three months in amounts of at least $1,000,000 has been discontinued or is no longer representative of the underlying market or economic reality, then the Security Calculation Agent will use a substitute or successor base rate that it has determined in its sole discretion is most comparable to such London interbank offered rate, provided that if the Security Calculation Agent determines there is an industry-accepted successor base rate, then the Security Calculation Agent shall use such successor base rate; and
- If the Security Calculation Agent has determined a substitute or successor base rate in accordance with the foregoing, the Security Calculation Agent in its sole discretion may determine the business day convention, definition of business day and any other relevant methodology for calculating such substitute or successor base rate, including any adjustment factor needed to make such substitute or successor base rate comparable to the LIBOR base rate, in a manner that is consistent with industry- accepted practices for such substitute or successor base rate.

The establishment of three-month U.S. Dollar LIBOR (or such successor base rate, as applicable) for each period by the Security Calculation Agent shall (in the absence of manifest error) be final and binding.

"**London Business Day**" means each Monday, Tuesday, Wednesday, Thursday and Friday that is not a day on which banking institutions in London generally are authorized or obligated by law, regulation or executive order to close and is also a day on which dealings in U.S. dollars are transacted in the London interbank market.

The "**Measurement Period Cash Amount**" is an amount per Security equal to:

(a) $0.00 on any calendar day, to but excluding the first day of a Measurement Period.

(b) On the first day of a one-day Measurement Period:

At the close of trading on such Index Business Day, (Current Principal Amount on the immediately preceding calendar day × Index Factor, on such Index Business Day).

(c) From and including the first day of a four-day Measurement Period:

(i) At the close of trading on each Index Business Day during the Measurement Period, the Measurement Period Cash Amount on the immediately preceding calendar day + (Current Principal Amount on the calendar day immediately preceding the first day of such Measurement Period × 0.25 × Index Factor, on such Index Business Day); and

(ii) On any calendar day during the Measurement Period that is not an Index Business Day, the Measurement Period Cash Amount on the immediately preceding Index Business Day.

(d) On any calendar day after the last Index Business Day of a Measurement Period, the Measurement Period Cash Amount on the last Index Business Day of such Measurement Period.

Notwithstanding the foregoing, if, on any day during a Measurement Period, the Current Indicative Value or the Closing Indicative Value is *less than or equal to* the Measurement Period Cash Amount from the immediately preceding calendar day, then the Measurement Period Cash Amount for that day and all subsequent days will be fixed to be equal to the Measurement Period Cash amount from the immediately preceding calendar day.

The Measurement Period Cash Amount represents the portion of the Current Principal Amount that has been converted to cash on any given day of an applicable Measurement Period and is no longer tracking the Index.

At the close of trading of each Index Business Day during a four-day Measurement Period, approximately 25% of the Current Principal Amount on the calendar day immediately preceding the first day of the Measurement Period, will be deemed converted to cash and an applicable portion of the notional financing amount will separately be deemed converted to cash as well. After the close of trading on the final Index Business Day of a four-day Measurement Period, the Measurement Period Cash Amount will represent the averaged value of the Current Principal Amount that was deemed converted to cash across the four-days of such Measurement Period. In case of a one-day Measurement Period, approximately 100% of the Current Principal Amount will be deemed converted to cash and an applicable amount of financing will separately be deemed converted to cash, at the close of trading of the first day of such Measurement Period.

If the Securities undergo a split or reverse split, the Measurement Period Cash Amount will be adjusted accordingly.

The "**Final Measurement Period**" means:

(a) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is less than $500,000,000, the Calculation Date, subject to adjustments as described under "— Market Disruption Event";

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the Calculation Date is equal to or greater than $500,000,000, the four Index Business Days from and including the Calculation Date, subject to adjustments as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the Calculation Date, will equal:

(i) the Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Index Calculation Agent**" means the entity that calculates and publishes the level of the Index, which for each series of Securities is the entity set forth below:

| **Title of Securities** | **Index Calculation Agent** |
|---|---|
| ETRACS 2x Leveraged US Dividend Factor TR ETN | S&P Dow Jones Indices |
| ETRACS 2x Leveraged US Growth Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Size Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged US Value Factor TR ETN | FTSE Russell |
| ETRACS 2x Leveraged MSCI US Minimum Volatility Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Momentum Factor TR ETN | MSCI, Inc. |
| ETRACS 2x Leveraged MSCI US Quality Factor TR ETN | MSCI, Inc. |

The "**Calculation Date**" means February 1, 2051, unless such day is not an Index Business Day, in which case the Calculation Date will be the next Index Business Day, subject to adjustment.

The Calculation Date represents the first Index Business Day of the Final Measurement Period.

"**Index Business Day**" means any day on which the Primary Exchange or market for trading of the Securities is scheduled to be open for trading.

"**Primary Exchange**" means, with respect to each Index Constituent Security or each constituent underlying a successor index, the primary exchange or market of trading such Index Constituent Security or such constituent underlying a successor index.

**Underlying Index**

The return of each series of Securities is based upon the performance of the applicable Index set forth on the cover page of the prospectus supplement. Each Index is designed to track the performance of a sector of the U.S. equity market and to reflect an investing style. We refer to the securities included in each Index as the "Index Constituent Securities" for such Index.

**Early Redemption at the Option of the Holders**

Subject to your compliance with the procedures described below and the potential postponements and adjustments as described under "— Market Disruption Event", you may submit a request to have us redeem your Securities on any Index Business Day no later than 12:00 noon and a confirmation of redemption by no later than 5:00 p.m. on the same Index Business Day. You must request that we redeem a minimum of 50,000 Securities, although we reserve the right from time to time to waive this minimum redemption amount in our sole discretion on a case-by-case basis. You should not assume you will be entitled to the benefit of any such waiver. For any applicable redemption request, the "**Redemption Valuation Date**" will be the first Index Business Day following the date that the applicable redemption notice and redemption confirmation are delivered, except that we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the notice of redemption rather than the following Index Business Day. You should not assume you will be entitled to any such acceleration. To satisfy the minimum redemption amount, your broker or other financial intermediary may bundle your Securities for redemption with those of other investors to reach this minimum amount of 50,000 Securities; however, there can be no assurance that they can or will do so.

The Securities will be redeemed and the holders will receive payment for their Securities on the second Index Business Day following the applicable Redemption Valuation Date (the "**Redemption Date**"). The first Redemption Date will be the fourth Index Business Day immediately following the Initial Trade Date and the Final Redemption Date will be the fourth Index Business Day immediately preceding the Maturity Date, subject to adjustments. In addition, if we have issued a call notice, the last Redemption Valuation Date will be the fourth Index Business Day prior to the Call Settlement Date, as applicable. If a Zero Value Event occurs, the last Redemption Date will be the date on which the Zero Value Event occurred.

If a Market Disruption Event is continuing or occurs on the applicable scheduled Redemption Valuation Date with respect to any of the Index Constituent Securities, such Redemption Valuation Date may be postponed as described under "— Market Disruption Event".

As of any Redemption Valuation Date, the "**Redemption Fee Amount**" means an amount per Security equal to:

(0.125% × Closing Indicative Value of the Security as of the Redemption Valuation Date).

If you exercise your right to have us redeem your Securities, subject to your compliance with the procedures described under "— Redemption Procedures", for each applicable Security you will receive a cash payment on the relevant Redemption Date equal to:

Closing Indicative Value as of the Redemption Valuation Date – Redemption Fee Amount.

We refer to this cash payment as the "**Redemption Amount**." If the amount calculated above is equal to or less than zero, the payment upon early redemption will be zero. We reserve the right from time to time to waive the Redemption Fee Amount in our sole discretion and on a case-by-case basis. There can be no assurance that we will elect to waive this fee and you should not assume you will be entitled to such fee waiver.

We will inform you of such Redemption Amount on the first Index Business Day following the applicable Redemption Valuation Date.

The redemption feature is intended to induce arbitrageurs to counteract any trading of the Securities at a discount to their indicative value, though there can be no assurance that arbitrageurs will employ the redemption feature in this manner or that they will be successful in counteracting any divergence in the market price of the Securities and their indicative value.

The following graphic illustrates the formula to determine the Redemption Amount, which has been simplified for ease of presentation:

**Redemption Amount = Closing Indicative Value – Redemption Fee Amount**

**You may lose all or a substantial portion of your investment upon early redemption. The combined negative effect of the Accrued Fees and the Redemption Fee Amount will reduce your final payment. If the compounded leveraged**

**quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees and the Redemption Fee Amount, if applicable, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon early redemption. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**The Securities may be called by UBS prior to the Maturity Date pursuant to its Call Right and, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "Specific Terms of the Securities — UBS's Call Right" and "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event".

**Redemption Procedures**

To redeem your Securities, you must instruct your broker or other person through whom you hold your Securities to take the following steps through normal clearing system channels:

- deliver a notice of redemption, which we refer to as a "**Redemption Notice**" to UBS via email no later than 12:00 noon on the Index Business Day on which you elect to exercise your redemption right. If we receive your Redemption Notice by the time specified in the preceding sentence, we will respond by sending you a form of confirmation of redemption;
- deliver the signed confirmation of redemption, which we refer to as the "**Redemption Confirmation**", to us via email in the specified form by 5:00 p.m. on the same day. We or our affiliate must acknowledge receipt in order for your Redemption Confirmation to be effective;
- instruct your DTC custodian to book a delivery vs. payment trade with respect to your Securities on the applicable Redemption Date at a price equal to the Redemption Amount; and
- cause your DTC custodian to deliver the trade as booked for settlement via DTC at or prior to 12:00 noon on the applicable Redemption Date.

Different brokerage firms may have different deadlines for accepting instructions from their customers. Accordingly, as a beneficial owner of the Securities, you should consult the brokerage firm through which you own your interest for the relevant deadline. If your broker delivers your Redemption Notice after 12:00 noon, or your Redemption Confirmation after 5:00 p.m., on the Index Business Day prior to the applicable Redemption Valuation Date, your Redemption Notice will not be effective, you will not be able to redeem your Securities until the following Redemption Date and your broker will need to complete all the required steps if you should wish to redeem your Securities on any subsequent Redemption Date. In addition, UBS may request a medallion signature guarantee or such assurances of delivery as it may deem necessary in its sole discretion. All instructions given to participants from beneficial owners of Securities relating to the right to redeem their Securities will be irrevocable. If your DTC custodian or your brokerage firm is not a current UBS customer, UBS will be required to on-board such DTC custodian or brokerage firm, in compliance with its internal policies and procedures, before it can accept your Redemption Notice, your Redemption Confirmation or otherwise process your redemption request. This on-boarding process may delay your Redemption Valuation Date and Redemption Date. Furthermore, in certain circumstances, UBS may be unable to on-board your DTC custodian or your brokerage firm.

We reserve the right from time to time to waive the minimum redemption amount or the Redemption Fee Amount in our sole discretion on a case-by-case basis. In addition, we reserve the right from time to time to accelerate, in our sole discretion on a case-by-case basis, the Redemption Valuation Date to the date on which we receive the Redemption Notice rather than the following Index Business Day. You should not assume you will be entitled to any such waiver or election to accelerate the Redemption Valuation Date.

**UBS's Call Right**

UBS may at its option redeem all, but not less than all, of the issued and outstanding Securities of any series. To exercise its Call Right, UBS must provide notice to the holders of such Securities (which may be provided via press release) not less than 18 calendar days prior to the Call Settlement Date specified by UBS in such notice. If we call the Securities, you will receive a cash payment equal to the Closing Indicative Value on the last Index Business Day in the Call Measurement Period. We refer to this cash payment as the "**Call Settlement Amount**."

If the amount calculated above is equal to or less than zero, the payment upon UBS's exercise of its Call Right will be zero.

We will inform you of such Call Settlement Amount on the first Index Business Day following the last Index Business Day in the Call Measurement Period.

The holders will receive payment for their Securities on the third Index Business Day following the last Index Business Day in the Call Measurement Period (the "**Call Settlement Date**"). If a Market Disruption Event is continuing or occurs on the scheduled Call Valuation Date with respect to any of the Index Constituent Securities, such Call Valuation Date may be postponed as described under "— Market Disruption Event".

The "**Call Measurement Period**" means:

(a) if the Market Value of Securities outstanding at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is less than $500,000,000, the Call Valuation Date, subject to adjustments as described under "— Market Disruption Event"; and

(b) if the Market Value of Securities outstanding as at the close of trading on the Index Business Day immediately preceding the date we issue a notice of exercise of our Call Right is equal to or greater than $500,000,000, the four Index Business Days from and including the Call Valuation Date, subject to adjustment as described under "— Market Disruption Event."

For the purpose of determining the Final Measurement Period, the "**Market Value**" of the Securities outstanding as of the close of trading on the Index Business Day immediately preceding the date of delivery by UBS of its notice to holders (which may be provided via press release) of its exercise of its Call Right will equal:

(i) The Closing Indicative Value as of such Index Business Day *times* (ii) the number of Securities outstanding as reported on Bloomberg.

The "**Call Valuation Date**" means the date we specify in our notice to holders (which may be provided via press release) of our exercise of our Call Right.

In any notice to holders exercising our Call Right, we will specify how many days are included in the Call Measurement Period.

The following graphic illustrates the formula to determine the Call Settlement Amount, which has been simplified for ease of presentation:

| | | |
|---|---|---|
| **Cash Settlement Amount** | **=** | **Closing Indicative Value, on last Index Business Day in Call Measurement Period** |

**You may lose all or a substantial portion of your investment if we exercise our Call Right. The combined negative effect of the Accrued Fees will reduce your final payment. If the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is insufficient to offset the negative effect of the Accrued Fees, or if the compounded leveraged quarterly return of the Index (or the unleveraged return of the Index, following a Permanent Deleveraging Event) is negative, you may lose all or a substantial portion of your investment upon a call. Loss Rebalancing Events will cause compounding to occur more frequently than quarterly.**

**In addition, upon the occurrence of a Zero Value Event, the Securities will be automatically accelerated and mandatorily redeemed by UBS.** See "Specific Terms of the Securities — Automatic Acceleration Upon Zero Value Event" below.

**Automatic Acceleration Upon Zero Value Event**

For each series of Securities, a Zero Value Event represents the first instance when the Current Indicative Value (intraday indicative value) or the Closing Indicative Value is less than or equal to zero (other than on an Excluded Day, as defined below). It will have the effect of permanently resetting the value of your Securities to zero and accelerating the Securities. You will not benefit from any future exposure to the applicable Index after the occurrence of a Zero Value Event.

A Zero Value Event can occur only if a Permanent Deleveraging Event occurs and the Current Indicative Value (intraday indicative value) or the Closing Indicative Value declines to zero before the leverage of your Securities is reset to 1.0 at the close of trading on the Index Business Day following such event (or if such event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, the second Index Business Day following such event), as described under "Permanent Deleveraging Valuation Dates" above.

A "**Zero Value Event**" occurs if the Current Indicative Value (intraday indicative value) or the Closing Indicative Value on any Index Business Day (other than an Excluded Day, as defined below) is less than or equal to zero. From immediately after the Zero Value Event and on all future calendar days, the Current Indicative Value (intraday indicative value) and the Closing Indicative Value will be set equal to zero.

As used above, an "**Excluded Day**" means (i) any calendar day after the Second Permanent Deleveraging Valuation Date (ii) any calendar day on or after which a Zero Value Event has already occurred, and (iii) any calendar day after the last day of an applicable Measurement Period.

In the event that a Zero Value Event has occurred, UBS will issue a press release shortly after the event; provided that the failure to do so shall not affect the automatic acceleration and redemption of the Securities. The Securities will be suspended from trading intraday shortly after the event occurs and will likely not be open for trading again on NYSE Arca.

**You will lose your entire investment upon the occurrence of a Zero Value Event.**

**In addition, we may call the Securities prior to the Maturity Date pursuant to our Call Right.** See "Specific Terms of the Securities — UBS's Call Right".

**Loss Rebalancing Events**

A Loss Rebalancing Event will have the effect of deleveraging your Securities with the aim of resetting the then-current leverage to approximately 2.0. This means that after a Loss Rebalancing Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities relative to before the occurrence of the Loss Rebalancing Event.

A "**Loss Rebalancing Event**" occurs if, at any time, the Intraday Index Value on such Index Business Day (other than an Excluded Day, as used below) decreases by 20% or more from the previous Last Reset Index Closing Level.

Loss Rebalancing Events may occur multiple times over the term of the Securities and may occur multiple times during a single calendar quarter. This means both that (i) the Current Principal Amount may be reset more frequently than quarterly and (ii) the cumulative effect of compounding and fees will have increased as a result of the Loss Rebalancing Event(s). Because each Loss Rebalancing Event will have the effect of deleveraging your Securities, following a Loss Rebalancing Event your Securities will have less exposure to a potential positive gain in value relative to the exposure before the occurrence of such Loss Rebalancing Event.

As used above, an "**Excluded Day**" means (i) the Index Business Day immediately preceding any Quarterly Reset Valuation Date, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day, (ii) any Quarterly Reset Valuation Date, (iii) any Loss Rebalancing Valuation Date, (iv) the Index Business Day immediately preceding the first day of an applicable Measurement Period, if a Loss Rebalancing Event occurs after 3:15 p.m. on such day (v) any calendar day from and including the first day of an applicable Measurement Period, (vi) the First or Second Permanent Deleveraging Valuation Dates, (vii) any calendar day after the Second Permanent Deleveraging Valuation Date, and (ix) any calendar day on or after which a Zero Value Event has occurred.

"**Loss Rebalancing Valuation Date**" means:

(a) if a Loss Rebalancing Event occurs at or prior to 3:15 p.m. on an Index Business Day, the day that such Loss Rebalancing Event occurs, subject to adjustment as described under "— Market Disruption Event"; and

(b) if a Loss Rebalancing Event occurs after 3:15 p.m. on an Index Business Day, the first Index Business Day following the occurrence of such Loss Rebalancing Event, subject to adjustment as described under "— Market Disruption Event."

**Permanent Deleveraging Event**

A Permanent Deleveraging Event will have the effect of deleveraging your Securities, with the aim of permanently resetting the then-current leverage to 1.0 over two Index Business Days. The leverage at the end of the First Permanent Deleveraging Valuation Date is reset to approximately 2.0 and the leverage at the end of the Second Permanent Deleveraging Valuation Date is reset to 1.0. This means that after a Permanent Deleveraging Event, a constant percentage increase in the Index Closing Level will have less of a positive effect on the value of your Securities than it would have had before the occurrence of the Permanent Deleveraging Event. If such an event were to occur, it most likely would occur only following a Loss Rebalancing Event and prior to the completion of the associated leverage reset to 2.0, which would generally occur at the end of the Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred or, if the Loss Rebalancing Event occurs 3:15 p.m. on an Index Business Day, at the end of the second Index Business Day following the Index Business Day on which the Loss Rebalancing Event occurred.

A "**Permanent Deleveraging Event**" occurs if, at any time on an Index Business Day (other than an Excluded Day, as defined below), the Intraday Index Value decreases by 40% or more from the Last Reset Index Closing Level. If a Permanent Deleveraging Event occurs, the Current Principal Amount of the Securities will be reset over two Index Business Days.

As used above, an "**Excluded Day**" means (i) the First or Second Permanent Deleveraging Valuation Dates, (ii) any calendar day after the Second Permanent Deleveraging Valuation Date, (iii) any day on or after which a Zero Value Event occurs, (iv) the day which is two Index Business Days prior to the first day of a Measurement Period, if a Permanent Deleveraging Event occurs after 3:15 p.m. on such day, and (v) any calendar day from and including the Index Business Day immediately preceding the first day of a Measurement Period.

"**Permanent Deleveraging Valuation Dates**" means the First Permanent Deleveraging Valuation Date and the Second Permanent Deleveraging Valuation Date, each as defined below:

(a) The "**First Permanent Deleveraging Valuation Date**" means:

   (i) any Index Business Day, which otherwise would have been a Loss Rebalancing Valuation Date, but on which a Permanent Deleveraging Event has occurred, subject to adjustment as described under "— Market Disruption Event"; or

   (ii) if a Permanent Deleveraging Event occurs after 3:15 p.m. on any Index Business Day which would not otherwise have been a Loss Rebalancing Valuation Date, then the first Index Business Day following the occurrence of such Permanent Deleveraging Event, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to approximately 2.0 at the close of trading on the First Permanent Deleveraging Valuation Date.

(b) The "**Second Permanent Deleveraging Valuation Date**" means the Index Business Day immediately following the First Permanent Deleveraging Valuation Date, subject to adjustment as described under "— Market Disruption Event."

The leverage of your Securities will be reset to 1.0 at the close of trading on the Second Permanent Deleveraging Valuation Date.

**Split or Reverse Split of the Securities**

We may, at any time in our sole discretion, initiate a split or reverse split of your Securities. If we decide to initiate a split or reverse split, as applicable, we will issue a press release announcing the split or reverse split and its effective date. The date of such press release shall be deemed to be the "**announcement date**" of the split or the reverse split, the record date for any split or reverse split will be the tenth Business Day after the announcement date, and the effective date will be the next Business Day after the record date.

If the Securities undergo a split or reverse split, we will adjust the Current Principal Amount, Closing Indicative Value, Current Indicative Value, Accrued Fees, Measurement Period Cash Amount and other relevant terms of the Securities accordingly. For example, if the Securities undergo a 4:1 split, every investor who holds a Security via The Depository Trust Company ("**DTC**") on the relevant record date will, after the split, hold four Securities, and adjustments will be made as described below. The Current Principal Amount on such record date will be *divided by* four to reflect the 4:1 split. The adjusted Current Principal Amount will be rounded to eight decimal places. The split or reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The split will not occur if we exercise our Call Right before it becomes effective.

In the case of a reverse split, the Current Principal Amount and other relevant terms of the Securities will be adjusted accordingly and we will determine in our sole discretion the manner in which we will address odd numbers of Securities (commonly referred to as "partials"). For example, if the Securities undergo a 1:4 reverse split, every investor who holds four Securities via DTC on the relevant record date will, after the reverse split, hold only one Security and the Current Principal Amount of the Securities on such record date will be multiplied by four to reflect the 1:4 reverse split. The adjusted Current Principal Amount will be rounded to eight decimal places. The reverse split will become effective at the opening of trading of the Securities on the Index Business Day immediately following the record date. The reverse split will not occur if we exercise our Call Right before it becomes effective.

Holders who own a number of Securities on the record date that is not evenly divisible by the reverse split divisor (which in the case of a 1:4 reverse split, for example, will be 4) will receive the same treatment as all other holders for the maximum number of Securities they hold that is evenly divisible by the reverse split divisor. We will determine in our sole discretion the manner in which we compensate holders for their remaining or "partial" Securities when we announce the reverse split, though our current intention is to provide holders with a cash payment for their partials on the 17th Business Day following the announcement date in an amount equal to the appropriate percentage of the Closing Indicative Value of the reverse split-adjusted Securities on the 15th Business Day following the announcement date. For example, in the case of a 1:4 reverse split, a holder who held 23 Securities via DTC on the record date would receive five post-reverse split Securities on the immediately following Business Day, and a cash payment on the 17th Business Day following the announcement date that is equal to 3/4 of the Current Principal Amount of the reverse split-adjusted Securities on the 15th Business Day following the announcement date.

**Security Calculation Agent**

UBS Securities LLC will act as the Security Calculation Agent. The Security Calculation Agent will be solely responsible for all determinations and calculations regarding the value of the Securities, including, among other things, at maturity or upon early redemption or call, or at other times, the Current Principal

Amount, Current Indicative Value (which we also refer to as the intraday indicative value), Closing Indicative Value, Market Disruption Events, Business Days, Index Business Days, the Leverage Factor, the Index Factor, the Index Performance Ratio, the Residual Factor, the Index Closing Level, the Financing Rate, the Accrued Fees (including determining any successor to the LIBOR base rate), the Redemption Fee Amount, the Cash Settlement Amount, if any, that we will pay you at maturity, the Redemption Amount, if any, that we will pay you upon redemption, the Call Settlement Amount, that we will pay you if we call the Securities, whether a Loss Rebalancing Event has occurred, whether a Permanent Deleveraging Event has occurred and whether any day is an Index Business Day and all such other matters as may be specified elsewhere herein as matters to be determined by the Security Calculation Agent. If any Intraday Index Value as published by Bloomberg on any Index Business Day is manifestly incorrect, the Security Calculation Agent may base its determination of whether a Loss Rebalancing Event, Permanent Deleveraging Event or Zero Value Event shall have occurred on such Index Business Day on its own determination of such Intraday Index Value. In making such determination, the Security Calculation Agent may consider any relevant information, including, without limitation, relevant market data in the relevant market supplied by one or more third parties or from internal sources or affiliates. The Security Calculation Agent will also be responsible for determining whether the Index has been discontinued and whether there has been a material change in the Index. The Security Calculation Agent will make all such determinations and calculations in its sole discretion, and absent manifest error, all determinations of the Security

Calculation Agent will be conclusive for all purposes and binding on us, you, and all other persons having an interest in the Securities, without liability on the part of the Security Calculation Agent. You will not be entitled to any compensation from us for any loss suffered as a result of any determinations or calculations made by the Security Calculation Agent. We may appoint a different Security Calculation Agent from time to time after the date of the prospectus supplement without your consent and without notifying you.

The Security Calculation Agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity or upon early redemption or call, on or prior to 12:00 noon on the Index Business Day immediately preceding the Maturity Date, any Redemption Date or any Call Settlement Date.

All dollar amounts related to determination of the Accrued Fees, the Current Principal Amount, and any Redemption Amount, Redemption Fee Amount, Call Settlement Amount or Cash Settlement Amount per Security will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (*e.g.*, .76545 would be rounded up to .7655); and all dollar amounts paid to any holder of Securities will be rounded to the nearest cent, with one-half cent rounded upward.

**Market Disruption Event**

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing during a four-day Measurement Period, the Index Closing Level for such day will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. The remaining Index Business Days in the Measurement Period will be postponed accordingly, and the remaining Index Business Days in the Measurement Period will resume again following the suspension of the Market Disruption Event. For example, if the four-day Measurement Period for purposes of calculating the Call Settlement Amount, is scheduled for June 2, June 3, June 4 and June 5, and there is a Market Disruption Event with respect to the Index on June 2, but no other Market Disruption Event during such Call Measurement Period, then June 3 will become the first Index Business Day of the Measurement Period, June 4th the second Index Business Day, June 5th the third Index Business Day and the next Index Business Day after June 5th would be the final day of the Measurement Period. The same approach would be applied if there is a Market Disruption Event during a four-day Final Measurement Period.

To the extent a Market Disruption Event with respect to the Index has occurred or is continuing on the Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or any Reset Valuation Date, the Index Closing Level for such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date will be determined by the Security Calculation Agent or one of its affiliates on the first succeeding Index Business Day on which a Market Disruption Event does not occur or is not continuing with respect to the Index. For example, if the Redemption Valuation Date, for purposes of calculating a Redemption Amount, is based on the Index Closing Level on June 2 and there is a Market Disruption Event with respect to the Index on June 2, then the Index Closing Level on June 3 will be used to calculate the Redemption Amount, assuming that no such Market Disruption Event has occurred or is continuing on June 3.

In no event, however, will any postponement pursuant to either of the two immediately preceding paragraphs result in the affected Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date (in the event that the Call Measurement Period is the Call Valuation Date), Calculation Date (in the event that the Final Measurement Period is the Calculation Date) or Reset Valuation Date occurring more than five Index Business Days following the day originally scheduled to be such Index Business Day of the Measurement Period or such Redemption Valuation Date, Call Valuation Date, Calculation Date or Reset Valuation Date. If a Market Disruption Event has occurred or is continuing with respect to the Index on the fifth Index Business Day following the date originally scheduled to be such Index Business Day of the Measurement Period or any Redemption Valuation Date, Call Valuation Date, Calculation Date or any Reset Valuation Date, the Security Calculation Agent or one of its affiliates will determine the Index Closing Level based on its good faith estimate of the Index Closing Level that would have prevailed on such fifth Index Business Day but for such Market Disruption Event.

Any of the following will be a "**Market Disruption Event**" with respect to the Index, in each case as determined by the Security Calculation Agent in its sole discretion:

(a) suspension, absence or material limitation of trading in a material number of Index Constituent Securities, whether by reason of movements in price exceeding limits permitted by the Primary Exchange or otherwise;

(b) suspension, absence or material limitation of trading in option or futures contracts relating to the Index or to a material number of Index Constituent Securities in the primary market or markets for those contracts;

(c) the Index is not published; or

(d) in any other event, if the Security Calculation Agent determines in its sole discretion that the event materially interferes with our ability or the ability of any of our affiliates to unwind all or a material portion of a hedge with respect to the Securities that we or our affiliates have effected or may effect as described in the section entitled "Use of Proceeds and Hedging."

The following events will not be Market Disruption Events with respect to the Index:

(a) a limitation on the hours or numbers of days of trading, but only if the limitation results from an announced change in the regular business hours of the relevant market; and

(b) a decision to permanently discontinue trading in the option or futures contracts relating to the Index or any Index Constituent Securities.

For this purpose, an "absence of trading" in the primary securities market on which option or futures contracts related to the Index or any Index Constituent Securities are traded will not include any time when that market is itself closed for trading under ordinary circumstances.

**Default Amount on Acceleration**

If an event of default occurs and the maturity of the Securities is accelerated, we will pay the default amount in respect of the principal of the Securities at maturity. We describe the default amount below under "— Default Amount."

For the purpose of determining whether the holders of our Medium-Term Notes, Series B, of which the Securities are a part, are entitled to take any action under the indenture, we will treat the outstanding principal amount of the Medium-Term Notes, Series B, as constituting the outstanding principal amount of the Securities. Although the terms of the Securities may differ from those of the other Medium-Term Notes, Series B, holders of specified percentages in principal amount of all Medium-Term Notes, Series B, together in some cases with other series of our debt securities, will be able to take action affecting all the Medium-Term Notes, Series B, including the Securities. This action may involve changing some of the terms that apply to the Medium-Term Notes, Series B, accelerating the maturity of the Medium-Term Notes, Series B after a default or waiving some of our obligations under the indenture. We discuss these matters in "Medium-Term Notes, Series B" above under "Description of Debt Securities We May Offer — Default, Remedies and Waiver of Default" and "Description of Debt Securities We May Offer — Modification and Waiver of Covenants."

**Default Amount**

The default amount for the Securities on any day will be an amount, in U.S. dollars as determined by the Security Calculation Agent in its sole discretion, for the aggregate Stated Principal Amount of the Securities, equal to the cost of having a qualified financial institution, of the kind and selected as described below, expressly assume all our payment and other obligations with respect to the Securities as of that day and as if no default or acceleration had occurred, or to undertake other obligations providing substantially equivalent economic value to you with respect to the Securities. That cost will equal:

- the lowest amount that a qualified financial institution would charge to effect this assumption or undertaking, *plus*
- the reasonable expenses, including reasonable attorneys' fees, incurred by the holders of the Securities in preparing any documentation necessary for this assumption or undertaking.

During the default quotation period for the Securities, which we describe below, the holders of the Securities and/or we may request a qualified financial institution to provide a quotation of the amount it would charge to effect this assumption or undertaking. If either party obtains a quotation, it must notify the other party in writing of the quotation. The amount referred to in the first bullet point above will equal the lowest — or, if there is only one, the only — quotation obtained, and as to which notice is so given, during the default quotation period. With respect to any quotation, however, the party not obtaining the quotation may object, on reasonable and significant grounds, to the assumption or undertaking by the qualified financial institution providing the quotation and notify the other party in writing of those grounds within two Business Days after the last day of the default quotation period, in which case that quotation will be disregarded in determining the default amount.

**Default Quotation Period**

The default quotation period is the period beginning on the day the default amount first becomes due and ending on the third Index Business Day after that day, unless:

- no quotation of the kind referred to above is obtained, or
- every quotation of that kind obtained is objected to within five Index Business Days after the due date as described above.

If either of these two events occurs, the default quotation period will continue until the third Index Business Day after the first Index Business Day on which prompt notice of a quotation is given as described above. If that quotation is objected to as described above within five Index Business Days after that first Index Business Day, however, the default quotation period will continue as described in the prior sentence and this sentence.

In any event, if the default quotation period and the subsequent two Index Business Day objection period have not ended before the Calculation Date, then the default amount will equal the Stated Principal Amount of the Securities.

**Qualified Financial Institutions**

For the purpose of determining the default amount at any time, a qualified financial institution must be a financial institution organized under the laws of any jurisdiction in the United States of America, Europe or Japan, which at that time has outstanding debt obligations with a stated maturity of one year or less from the date of issue and rated either:

- A-1 or higher by Standard & Poor's Financial Services LLC, a subsidiary of The McGraw-Hill Companies, Inc., or any successor, or any other comparable rating then used by that rating agency, or
- P-1 or higher by Moody's Investors Service or any successor, or any other comparable rating then used by that rating agency.

**Discontinuance of or Adjustments to the Index or Termination of Our License Agreements with the Index Sponsors; Alteration of Method of Calculation**

If (i) an Index Sponsor or the Index Calculation Agent announces that it intends to discontinue, or discontinues, publication of, or otherwise fails to publish, the Index, (ii) our license agreement with the Index Sponsor terminates or (iii) the Index Sponsor or Index Calculation Agent does not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, and, in each case, any other person or entity publishes an index licensed to UBS that the Security Calculation Agent determines is comparable to the Index and for which the Index Constituent Securities and/or their unit weighting are available to the Security Calculation Agent (such index being referred to herein as a "**successor index**"), and the Security Calculation Agent approves such index as a successor index, then on and after the date determined by the Security Calculation Agent, the Security Calculation Agent will determine the Index Closing Level on the applicable dates of determination and the amount payable at maturity or upon early redemption or call and all other related payments terms by reference to such successor index.

Upon any selection by the Security Calculation Agent of a successor index, the Security Calculation Agent will cause written notice of the successor index and the date on and after which the Index Closing Level will be determined by reference thereto be furnished to the trustee, to us and to the holders of the Securities.

If an Index Sponsor or Index Calculation Agent discontinues publication of the Index, our license agreement with the Index Sponsor terminates or the Index Sponsor or Index Calculation Agent do not make the Index Constituent Securities and/or their unit weighting available to the Security Calculation Agent, prior to, and such discontinuation, termination or unavailability is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or

on any Reset Valuation Date, as applicable, or on any other relevant date on which the Index Closing Level is to be determined and the Security Calculation Agent determines that no successor index is available at such time, or the Security Calculation Agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on the Calculation Date or any Index Business Day during a Measurement Period, or on the Redemption Valuation Date or on any Reset Valuation Date, or any other relevant date on which the Index Closing Level is to be determined, then the Security Calculation Agent will determine the Index Closing Level using the Index Closing Level on the last Index Business Day immediately prior to such discontinuation or unavailability, as adjusted for certain corporate actions. In such event, the Security Calculation Agent will cause notice thereof to be furnished to the trustee, to us and to the holders of the Securities.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

In addition, if an Index Replacement Event (as defined below) occurs at any time and the Index Sponsor or anyone else publishes an index that the Security Calculation Agent determines is comparable to the Index (the "**Substitute Index**"), then the Security Calculation Agent may elect, in its sole discretion, to permanently replace the original Index with the Substitute Index for all purposes under the Securities, and all provisions described in the prospectus supplement as applying to the Index will thereafter apply to the Substitute Index instead. In such event, the Security Calculation Agent will make such adjustments, if any, to any level of the Index or Substitute Index that is used for purposes of the Securities as it determines are appropriate in the circumstances. If the Security Calculation Agent elects to replace the original Index with a Substitute Index, then the Security Calculation Agent will determine all amounts hereunder, Current Principal Amount, Current Indicative Value (intraday indicative value), Closing Indicative Value, Index Factor, Index Performance Ratio, Residual Factor, Accrued Fees, Index Closing Levels on the applicable dates of determination, all other related payment terms and the amount payable at maturity or upon early redemption or call by reference to such Substitute Index. If the Security Calculation Agent so elects to replace the original Index with a Substitute Index, the Security Calculation Agent will cause written notice thereof to be furnished to the trustee, to us and to the holders of the Securities of the Securities.

An **"Index Replacement Event"** means:

(a) an amendment to or change (including any officially announced proposed change) in the laws, regulations or rules of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities included in the Index (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on any of these parties' ability to perform their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(b) any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules that is announced on or after February 4, 2021 that (i) makes it illegal for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities included in the Index or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) materially increases the cost to us, our affiliates, third parties with whom we transact or similarly situated third parties in performing our or their obligations in connection with the Securities, (iii) has a material adverse effect on the ability of us, our affiliates, third parties with whom we transact or a similarly situated third party to perform our or their obligations in connection with the Securities, or (iv) materially affects our ability to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(c) any event that occurs on or after February 4, 2021 that makes it a violation of any law, regulation or rule of the United States (or any political subdivision thereof), or any jurisdiction in which a Primary Exchange (as defined herein) is located, or of any official administrative decision, judicial decision, administrative action, regulatory interpretation or other official pronouncement interpreting or applying those laws, regulations or rules, (i) for UBS AG or its affiliates to hold, acquire or dispose of the Index Constituent Securities or options, futures, swaps or other derivatives on the Index or on the Index Constituent Securities (including but not limited to exchange-imposed position limits), (ii) for us, our affiliates, third parties with whom we transact or similarly situated third parties to perform our or their obligations in connection with the Securities, or (iii) for us to issue or transact in exchange traded notes similar to the Securities, each as determined by the Security Calculation Agent;

(d) any event, as determined by the Security Calculation Agent, as a result of which we or any of our affiliates or a similarly situated party would, after using commercially reasonable efforts, be unable to, or would incur a materially increased amount of tax, duty, expense or fee (other than brokerage commissions) to, acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction or asset it deems necessary to hedge the risk of the Securities, or realize, recover or remit the proceeds of any such transaction or asset; or

(e) as determined by the Security Calculation Agent, the primary exchange or market for trading for the Securities, if any, announces that pursuant to the rules of such exchange or market, as applicable, the Securities cease (or will cease) to be listed, traded or publicly quoted on such exchange or market, as applicable, for any reason and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as such exchange or market, as applicable.

Notwithstanding these alternative arrangements, discontinuation of the publication of the Index or successor index, as applicable, may adversely affect the value of the Securities.

If at any time the method of calculating the Index, a successor index or a Substitute Index, or the value thereof, is changed in a material respect, or if the Index or a successor or Substitute Index is in any other way modified so that the Index Closing Level of the Index or such successor or Substitute Index does not, in the opinion of the Security Calculation Agent, fairly represent the Index Closing Level of the Index or such successor or Substitute Index had such changes or modifications not been made, then the Security Calculation Agent will make such calculations and adjustments as, in the good faith judgment of the Security Calculation Agent, may be necessary in order to arrive at an Index Closing Level of an index comparable to the Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the Security Calculation Agent will calculate the Index Closing Level for the Index or such successor or Substitute Index with reference to the Index or such successor or Substitute Index, as adjusted. The Security Calculation Agent will accordingly calculate the Index Closing Level, the Index Performance Ratio, the Last Reset Index Closing Level, the Accrued Fees, and any Redemption Amount, Redemption Fee Amount, Cash Settlement Amount or Call Settlement Amount, and all related payment terms based directly or indirectly on the Index Closing Level calculated by the Security Calculation Agent. Accordingly, if the method of calculating the Index or a successor or Substitute Index is modified so that the level of the Index or such successor or Substitute Index is a fraction or multiple of what it would have been if there had been no such modification (*e.g.*, due to a rebasing of the Index ), which, in turn, causes the Index Closing Level of the Index or such successor or Substitute Index to be a fraction of what it would have been if there had been no such modification, then the Security Calculation Agent will make such calculations and adjustments in order to arrive at an Index Closing Level for the Index or such successor or Substitute Index as if it had not been modified (*e.g.*, as if such rebasing had not occurred).

In the event that the Security Calculation Agent elects to replace the Index with a successor index or a Substitute Index, UBS may, in its sole discretion, amend the title of the Securities in order to remove reference the former Index and to make such other changes to the title of the Securities as it considers necessary or desirable to reflect the name and/or characteristics of the relevant successor index or Substitute Index, as applicable.

All determinations and adjustments to be made by the Security Calculation Agent may be made in the Security Calculation Agent's sole discretion. See "Risk Factors — Risks Relating to Creditworthiness, Conflicts of Interest, Hedging Activities and Regulation of UBS — There are potential conflicts of interest between you and the Security Calculation Agent" in the prospectus supplement for a discussion of certain conflicts of interest which may arise with respect to the Security Calculation Agent.

### Manner of Payment and Delivery

Any payment on or delivery of the Securities at maturity or upon early redemption or call will be made to accounts designated by you and approved by us, or at the corporate trust office of the trustee in New York City, but only when the Securities are surrendered to the trustee at that office. We also may make any payment or delivery in accordance with the applicable procedures of the depositary.

### Reissuances or Reopened Issues

We may, at our sole discretion, “reopen” or reissue any series of Securities. We issued the Securities initially in an amount having the aggregate Stated Principal Amount specified on the cover of the prospectus supplement. We may issue additional Securities in amounts that exceed the amount on the cover at any time, without your consent and without notifying you. The Securities do not limit our ability to incur other indebtedness or to issue other securities. Also, we are not subject to financial or similar restrictions by the terms of the Securities. For more information, please refer to “Description of Debt Securities We May Offer — Amounts That We May Issue” in “Medium-Term Notes, Series B” above.

These further issuances, if any, will be consolidated to form a single class with the originally issued Securities of the same series and will have the same CUSIP number and will trade interchangeably with such Securities immediately upon settlement. Any additional issuances will increase the aggregate Stated Principal Amount of the outstanding Securities of the class. The price of any additional offering will be determined at the time of pricing of that offering.

### Booking Branch

The Securities will be booked through UBS AG, London Branch.

### Clearance and Settlement

The DTC participants that hold the Securities through DTC on behalf of investors will follow the settlement practices applicable to equity securities in DTC’s settlement system with respect to the primary distribution of the Securities and secondary market trading between DTC participants.

UBS

**Exhibit 4.18**

## High-trigger loss-absorbing additional tier 1 capital instrument

| | |
|---|---|
| **Issuer** | UBS Group AG |
| **ISIN** | US902613AG32 (144A) / USH42097CL90 (Reg S) |
| **Issue Date** | 02.06.2021 |
| **Currency** | USD |
| **Nominal (million)** | 750.0 |
| **Interest Rate** | 3.875% [1] |
| **Maturity Date** | perpetual |
| **First Call Date** | 02.06.2026 |

[1] Rate subject to change after first call date.

## TERMS AND CONDITIONS OF THE NOTES

The terms and conditions of the Tier 1 Capital Notes issued by UBS Group AG are as follows:

### 1. DEFINITIONS

"**Additional Amounts**" has the meaning assigned to such term in clause (b) of Condition 9 (*Taxation*).

"**Additional Tier 1 Capital**" means, at any time, any item that qualifies as additional tier 1 capital (*zusätzliches Kernkapital*) under National Regulations at such time.

"**Agent Insolvency Event**" has the meaning assigned to such term in subclause (c)(ii) of Condition 8 (*Payments; Agents*).

"**Agents**" means the Fiscal Agent, the Registrar, the Calculation Agent, the Swiss Paying Agent and any other agent from time to time appointed pursuant to the terms of the Fiscal Agency Agreement.

"**Alignment Event**" has the meaning assigned to such term in clause (a) of Condition 12 (*Substitution and Amendment*).

"**Alternative Loss Absorption Date**" has the meaning assigned to such term in clause (f) of Condition 7 (*Contingent Write-down*).

"**Auditor**" means the accounting firm (i) appointed by the Board of Directors of the Group Holding Company or the shareholders of the Group Holding Company, as the case may be, to provide, among other things, audit and/or review opinions on the Group Holding Company's financial statements, and (ii) approved by FINMA in accordance with the Financial Market Supervisory Act (*Finanzmarktaufsichtsgesetz*) of 22 June 2007, as amended from time to time.

"**Authorised Signatories**" means any two authorised officers of the Issuer signing jointly.

"**Balance Sheet Date**" means (i) with respect to any Ordinary Publication Date, the cut-off date for the measurement of the CET1 Ratio in the Quarterly Financial Accounts published on such Ordinary Publication Date, and (ii) with respect to any Extraordinary Publication Date, the cut-off date for the Reviewed Interim Measurement published upon the instruction of FINMA on such Extraordinary Publication Date.

"**Bankruptcy Event**" means any of the following events with respect to the Issuer: (i) the adjudication of bankruptcy (*Konkurseröffnung*) pursuant to articles 171, 189, 190, 191 or 192 of the DEBA, including, without limitation, in connection with article 725a of the Swiss Code, (ii) the granting of a provisional or definitive stay of execution (*provisorische oder definitive Nachlassstundung*) pursuant to article 293 et seq. of the DEBA, (iii) the ordering of restructuring proceedings (*Sanierungsverfahren*) pursuant to articles 28 to 32 of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG, and/or (iv) the ordering of liquidation proceedings (*Liquidation*) pursuant to articles 33 to 37g of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG; *provided*, *however*, that none of the following will constitute a Bankruptcy Event: (x) mere debt collection proceedings (*Betreibungsverfahren*) pursuant to article 38 *et seq.* of the DEBA, (y) proceedings in connection with a freezing order (*Arrestverfahren*) pursuant to article 271 *et seq.* of the DEBA, and/or (z) the institution of protective measures (*Schutzmassnahmen*) pursuant to article 26 of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG, including, in the case of each of subclauses (x), (y) and (z), any steps (other thanany steps described in clauses (i) through (iv) of this definition) taken under or in connection therewith.

"**BIS Regulations**" means, at any time, the capital adequacy standards and guidelines promulgated by the Basel Committee on Banking Supervision, as implemented by FINMA in Switzerland at such time.

"**BIS Risk Weighted Assets**" means, as of any Balance Sheet Date, the aggregate amount, in the Presentation Currency, of risk-weighted assets of the Group as of such Balance Sheet Date, as determined by the Group Holding Company pursuant to the BIS Regulations applicable to the Group Holding Company as of such Balance Sheet Date, and as (i) disclosed in the Quarterly Financial Accounts published on the relevant Ordinary Publication Date or (ii) may be disclosed as a component of the Reviewed Interim Measurement published upon the instruction of FINMA on the relevant Extraordinary Publication Date, as applicable. For the avoidance doubt, the term "**risk-weighted assets**" as used in this definition has the meaning assigned to such term in the BIS Regulations in effect as of the relevant Balance Sheet Date.

"**Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including, without limitation, dealing in foreign exchange and foreign currency deposits) in London, New York City and Zurich.

"**Calculation Agent**" means UBS AG, in its capacity as calculation agent for the Notes, and includes any successor calculation agent for the Notes appointed in accordance with the terms of the Fiscal Agency Agreement.

"**Calculation Amount**" means USD 1,000.

"**Capital Adequacy Ordinance**" means the Ordinance concerning Capital Adequacy and Risk Diversification for Banks and Securities Dealers, which entered into force on 1 January 2013, as amended from time to time, or any successor Swiss law or regulation.

"**Certificate**" means a Global Certificate and/or a Definitive Certificate, as the case may be.

"**CET1 Capital**" means, as of any Balance Sheet Date, the aggregate amount, in the Presentation Currency, of items that constitute common equity tier 1 capital of the Group as of such Balance Sheet Date, less any deductions from common equity tier 1 capital required to be made, in each case as determined by the Group Holding Company pursuant to the BIS Regulations applicable to the Group Holding Company as of such Balance Sheet Date, and as (i) disclosed in the Quarterly Financial Accounts published on the relevant Ordinary Publication Date or (ii) may be disclosed as a component of the Reviewed Interim Measurement published upon the instruction of FINMA on the relevant Extraordinary Publication Date, as applicable. For the avoidance of doubt, the term "**common equity tier 1 capital**" as used in this definition has the meaning assigned to such term in the BIS Regulations in effect as of the relevant Balance Sheet Date.

"**CET1 Ratio**" means, as of any Balance Sheet Date, the CET1 Capital as of such Balance Sheet Date, divided by the BIS Risk Weighted Assets as of such Balance Sheet Date, expressed as a percentage, such ratio (or the components thereof) as determined by the Group Holding Company, and (i) as disclosed in the Quarterly Financial Accounts published on the relevant Ordinary Publication Date or (ii) constituting (or as disclosed in) the Reviewed Interim Measurement published upon the instruction of FINMA on the relevant Extraordinary Publication Date, as applicable.

"**Clearstream, Luxembourg**" means Clearstream Banking S.A.

"**Code**" has the meaning assigned to such term in clause (c) of Condition 9 (*Taxation*).

"**Compliant Securities**" means securities issued by UBS Group AG or any of its subsidiaries that have economic terms not materially less favourable to a Holder than these Terms and Conditions (as reasonably determined by the Issuer), *provided* that:

(a) such securities (A) include terms that provide for the same interest rate and principal from time to time applying to the Notes, (B) rank *pari passu* with the Notes and (C) preserve any existing rights under these Terms and Conditions to any accrued and unpaid interest that has not been satisfied;

(b) where such securities are issued by a subsidiary of UBS Group AG, UBS Group AG has irrevocably and unconditionally guaranteed to the holders of such securities, on a subordinated basis corresponding *mutatis mutandis* to Condition 4 (*Status and*

*Subordination*), the due and punctual payment of all amounts due and payable by such subsidiary under, or in respect of, such securities pursuant to article 111 of the Swiss Code;

(c) where the Notes that have been substituted or amended were listed immediately prior to their substitution or amendment, such securities are listed on (A) the SIX Swiss Exchange or (B) such other internationally recognised stock exchange selected by the Issuer; and

(d) where the Notes that have been substituted or amended were rated by a rating agency immediately prior to such substitution or amendment, each such rating agency has ascribed, or announced its intention to ascribe and publish, an equal or higher rating to such securities.

"**Contingent Write-down**" means the events described in subclauses (i) through (iii) of clause (d) of Condition 7 (*Contingent Write-down*).

"**Day Count Fraction**" means, in respect of any period (the "**Calculation Period**"), the number of days in the Calculation Period divided by 360 calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360x(Y_2 - Y_1)] + [30x(M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"$\mathbf{Y_1}$" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"$\mathbf{Y_2}$" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"$\mathbf{M_1}$" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"$\mathbf{M_2}$" is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

"$\mathbf{D_1}$" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case $D_1$ will be 30; and

"$\mathbf{D_2}$" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and $D_1$ is greater than 29, in which case $D_2$ will be 30.

"**DEBA**" means the Swiss Federal Debt Enforcement and Bankruptcy Act of 11 April 1889, as amended from time to time.

"**Definitive Certificate**" has the meaning assigned to such term in subclause (c)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Depositary**" means DTC or any other Relevant Clearing System outside of Switzerland designated as Depositary by the Issuer; *provided*, *however*, that, irrespective of the number of Regulation S Global Certificates and/or Rule 144A Global Certificates, as the case may be, outstanding, there will be no more than one Depositary for the Notes at any time.

"**Distributable Items**" means, in respect of an Interest Payment Date, the aggregate of (i) net profits carried forward and (ii) freely distributable reserves, in each case, less any amounts that must be contributed to legal reserves under applicable law, all in UBS Group AG's reporting currency and as appearing in the Relevant Accounts.

"**Distribution Compliance Period**" means the 40-day period commencing on (and including) the later of (i) the day on which the Notes are first offered to Persons other than distributors (as defined in Regulation S under the US Securities Act), and (ii) the day on which the closing of the offering of the Notes occurs.

"**DTC**" means The Depository Trust Company.

"**Euroclear**" means Euroclear Bank SA/NV.

"**Event of Default**" has the meaning assigned to such term in clause (a) of Condition 11 (*Events of Default*).

"**Extraordinary Publication Date**" means the Business Day on which a Reviewed Interim Measurement is published upon the instruction of FINMA, after FINMA has determined that the conditions for issuing a Trigger Event Write-down Notice in accordance with Condition 7 (*Contingent Write-down*) have been met.

"**Extraordinary Trigger Event Notice Date**" has the meaning assigned to such term in subclause (b)(i) of Condition 7 (*Contingent Write-down*).

"**FBA**" means the Swiss Federal Act on Banks and Savings Institutions of 8 November 1934, as amended from time to time.

"**FINMA**" means the Swiss Financial Market Supervisory Authority FINMA and any successor thereto.

"**First Call Date**" means 2 June 2026.

"**Fiscal Agency Agreement**" means the fiscal agency agreement dated as of 10 February 2021 among the Issuer, the Fiscal Agent, the Registrar, the Calculation Agent, the Swiss Paying Agent and the other Agents from time to time party thereto, as may be amended, supplemented or otherwise modified from time to time.

"**Fiscal Agent**" means Deutsche Bank Trust Company Americas, in its capacity as fiscal agent for the Notes, and includes any successor fiscal agent for the Notes appointed in accordance with the terms of the Fiscal Agency Agreement.

"**Fixed Interest Rate**" means 3.875 per cent. per annum.

"**Former Residence**" has the meaning assigned to such term in subclause (a)(v) of Condition 14 (*Issuer Substitution*).

"**Global Certificate**" means a Regulation S Global Certificate and/or Rule 144A Global Certificate, as the case may be.

"**Going-Concern LR Requirement**" means a requirement under National Regulations for systemically relevant banks (*systemrelevante Banken*) to hold a minimum amount of going-concern capital (*Eigenmittel zur ordentlichen Weiterführung der Bank*), which amount is set by reference to the leverage ratio (*Höchstverschuldungsquote*) of such bank.

"**Going-Concern RWA Requirement**" means a requirement under National Regulations for systemically relevant banks (*systemrelevante Banken*) to hold a minimum amount of going-concern capital (*Eigenmittel zur ordentlichen Weiterführung der Bank*), which amount is set by reference to the risk weighted assets (*risikogewichtete Positionen*) of such bank.

"**Group**" means, at any time, the Group Holding Company and all its subsidiaries and other entities that are included in the Group Holding Company's consolidated capital adequacy reports prepared pursuant to National Regulations.

"**Group Holding Company**" means, at any time, the top Swiss holding company at such time of the financial group to which UBS Group AG belongs for purposes of preparing consolidated capital adequacy reports pursuant to National Regulations. As at the Issue Date, the Group Holding Company is UBS Group AG.

"**Higher-Trigger Amount**" means, as of any Publication Date, the sum of (i) the maximum portion of the aggregate principal amount, in the Presentation Currency of the Quarterly Financial Accounts or Reviewed Interim Measurement, as the case may be, to which such Publication Date relates, of all Higher-Trigger Contingent Capital, if any, outstanding on the relevant Balance Sheet Date that could be converted into equity and/or fully or partially written down, or otherwise operate to increase the CET1 Capital, if a Higher-Trigger Write-down/Conversion Notice were delivered in accordance with the terms thereof, and (ii) the maximum portion of the aggregate principal amount, in the Presentation Currency of the Quarterly Financial Accounts or Reviewed Interim Measurement, as the case may be, to which such Publication Date relates, of all Higher-Trigger Contingent Capital, if any, issued after the relevant Balance Sheet Date, but prior to such Publication Date, that could be converted into equity and/or fully or partially written down, or otherwise operate to increase the CET1 Capital, if a Higher-Trigger Write-down/Conversion Notice were delivered in accordance with the terms thereof, in the case of each of clauses (i) and (ii), as determined by UBS Group AG. For purposes of clause (ii) of this definition and, in the case of an Extraordinary Publication Date, clause (i) of this definition, the aggregate principal amount of any Higher-Trigger Contingent Capital that is not denominated in the Presentation Currency will be converted into the Presentation Currency at the applicable prevailing exchange rate on the last Business Day preceding the relevant Publication Date, as determined by UBS Group AG. In the case of an Ordinary Publication Date, for purposes of clause (i) of this definition, the aggregate principal amount of any Higher-Trigger Contingent Capital that is not denominated in the Presentation Currency will be converted into the Presentation Currency at the applicable exchange rate used for such purposes in the relevant Quarterly Financial Accounts.

"**Higher-Trigger Contingent Capital**" means any instrument issued by, or any other obligation of, any member of the Group that (i) is issued or owed to holders that are not members of the Group and (ii) is required pursuant to its terms to be converted into equity and/or fully or partially written down, or otherwise operating to increase the CET1 Capital, when the CET1 Ratio (or equivalent capital measure of the Group described in the terms and conditions thereof) falls below a threshold that is higher than the Write-down Threshold (with respect to the relevant Higher-Trigger Contingent Capital, its "**Higher-Trigger Threshold**").

"**Higher-Trigger Threshold**" has the meaning assigned to such term in the definition of the term "Higher-Trigger Contingent Capital".

"**Higher-Trigger Write-down/Conversion Date**" has the meaning assigned to such term in the definition of the term "Higher-Trigger Write-down/Conversion Notice".

"**Higher-Trigger Write-down/Conversion Notice**" means a notice delivered pursuant to the terms of any Higher-Trigger Contingent Capital that notifies the holders thereof that the CET1 Ratio (or similar measure or other event described in the terms and conditions of such Higher-Trigger Contingent Capital) has fallen below its Higher-Trigger Threshold and, consequently, that such Higher-Trigger Contingent Capital will be converted into equity and/or fully or partially written down, or otherwise operate to increase the CET1 Capital, as applicable, as of a particular date (such date, the "**Higher-Trigger Write-down/Conversion Date**"). For the avoidance of doubt, if the terms and conditions of such Higher-Trigger Contingent Capital permit FINMA to waive the conversion into equity and/or write-down of such Higher-Trigger Contingent Capital notwithstanding the fact that the CET1 Ratio (or similar measure or other event described in the terms and conditions of such Higher-Trigger Contingent Capital) has fallen below the Higher-Trigger Threshold, the non-issuance of such a waiver by FINMA between the relevant Publication Date and the Trigger Event Notice Date shall be deemed equivalent to the delivery of a Higher-Trigger Write-down/Conversion Notice for purposes of subclause (b)(ii) of Condition 7 (*Contingent Write-down*).

"**Holder**" means, with respect to any Note, the Person in whose name the Certificate representing such Note is registered in the Register. For the avoidance of doubt, with respect to Notes represented by a Global Certificate, no Indirect Holder or other Person will be a Holder for purposes of these Terms and Conditions or such Notes or have any rights, or be owed any obligations by the Issuer, under such Notes.

"**Indirect Holder**" means, with respect to any Note represented by a Global Certificate, any Person (other than the Holder) that owns a beneficial interest in such Notes through a bank, broker or other financial institution that (i) participates in the book-entry system of DTC, Euroclear, Clearstream, Luxembourg and/or any other clearing system (each, a "**Relevant Clearing System**"), or (ii) holds an interest in such Note through a participant in the book-entry system of any Relevant Clearing System. No Indirect Holder will have any rights, or be owed any obligations by the Issuer, under the Notes.

"**Interest Payment Date**" has the meaning assigned to such term in subclause (a)(ii) of Condition 5 (*Interest*).

"**Interest Period**" means each period beginning on (and including) an Interest Payment Date (or, in the case of the first Interest Period, the Issue Date) and ending on (but excluding) the next Interest Payment Date.

"**Interest Rate**" means the Fixed Interest Rate and/or Reset Interest Rate, as the case may

be.

"**Issue Date**" means 2 June 2021.

"**Issuer**" means UBS Group AG in its capacity as issuer of the Notes.

"**Junior Obligations**" means (i) all classes of share capital and participation securities (if any) of the Issuer and (ii) all other obligations of the Issuer that rank, or are expressed to rank, junior to claims in respect of the Notes and/or any Parity Obligation.

"**Margin**" means 3.098 per cent. per annum.

"**National Regulations**" means, at any time, (i) the Swiss national banking and capital adequacy laws, and (ii) the capital adequacy regulations promulgated by the Swiss Federal Council (*Bundesrat*) or FINMA and the interpretation thereof by FINMA or any other competent Swiss authority, in the case of each of clauses (i) and (ii), directly applicable to UBS Group AG (and/or, if different, the Group Holding Company) and/or the Group at such time.

"**New Residence**" has the meaning assigned to such term in subclause (a)(i)(E) of Condition 14 (*Issuer Substitution*).

"**Notes**" means the USD 750,000,000 3.875 per cent. Tier 1 Capital Notes issued by the Issuer on the Issue Date.

"**Ordinary Publication Date**" means each Business Day on which Quarterly Financial Accounts are published.

"**Ordinary Shares**" means the registered ordinary shares of UBS Group AG.

"**Ordinary Trigger Event Notice Date**" has the meaning assigned to such term in subclause (b)(i) of Condition 7 (*Contingent Write-down*).

"**Parity Obligations**" means (i) all obligations of the Issuer in respect of Tier 1 Instruments (excluding any such obligations that rank, or are expressed to rank, junior to claims in respect of the Notes), and (ii) any other securities or obligations (including, without limitation, any guarantee, credit support agreement or similar undertaking) of the Issuer that rank, or are expressed to rank, *pari passu* with claims in respect of the Notes and/or any Parity Obligation.

"**Paying Agent**" has the meaning assigned to such term in subclause (c)(i) of Condition 8 (*Payments; Agents*).

"**Payment Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including, without limitation, dealing in foreign exchange and foreign currency deposits) in London and New York City.

"**Permitted Transactions**" means:

(a) repurchases, redemptions or other acquisitions of any Ordinary Shares in connection with (x) any employment contract, benefit plan or similar arrangement with, or for the benefit of, any employees, officers, directors or consultants of any member of the Group, (y) a dividend reinvestment or shareholder share purchase plan or (z) the issuance of any Ordinary Shares (or securities convertible into, or exercisable for, Ordinary Shares) as consideration for an acquisition consummated by any member of the Group;

(b) market-making in Ordinary Shares as part of the securities business of any member of the Group;

(c) purchases of fractional interests in any Ordinary Shares pursuant to the conversion or exchange provisions of (x) such Ordinary Shares or (y) any security convertible into, or exercisable for, Ordinary Shares;

(d) redemptions or repurchases of Ordinary Shares pursuant to any shareholders' rights plan; and

(e) distributions in cash or in kind on, or repurchases, redemptions or other acquisitions of, any Ordinary Shares as a part of any solvent reorganisation, reconstruction, amalgamation or merger of any member of the Group, so long as such member (or the successor entity resulting from such reorganisation, reconstruction, amalgamation or merger) continues tobe a member of the Group.

"**Person**" means any individual, corporation, bank, partnership, joint venture, association, joint-stock company, limited liability company, trust, unincorporated organisation or government or any agency or political subdivision thereof.

"**Presentation Currency**" means (i) with respect to any Quarterly Financial Accounts, the presentation currency of such Quarterly Financial Accounts, and (ii) with respect to any Reviewed Interim Measurement, the Presentation Currency of the Quarterly Financial Accounts that will be prepared for the relevant financial quarterly or annual period in which the relevant Extraordinary Publication Date falls.

"**Public Sector**" means the government of, or a governmental agency or the central bank in, the country of incorporation of the Group Holding Company.

"**Publication Date**" means an Ordinary Publication Date or an Extraordinary Publication Date, as the case may be.

"**Quarterly Financial Accounts**" means (i) the financial statements of the Group (including, without limitation, the notes thereto) in respect of a financial quarter published by the Group Holding Company, which have been reviewed by the Auditor in accordance with the International Standards on Auditing; *provided, however*, that, if the financial statements of the Group in respect of the last quarter of any year are not so reviewed, the term "Quarterly Financial Accounts" in respect of such quarter will mean instead the annual financial statements of the Group (including, without limitation, the notes thereto) in respect of such year, which have been audited by the Auditor in accordance with the International Standards on Auditing and are published in the annual report of the Group Holding Company for such year, or (ii) in the event that the Group does not publish quarterly financial statements as described in clause (i) of this definition, the financial disclosures published by the Group pursuant to and in compliance with FINMA Circular 2016/01 "Capital Adequacy Disclosures Banks", as amended from time to time, or pursuant to and in compliance with any successor circular or regulation applicable to the Group Holding Company, *provided* that such financial disclosures are published for each financial quarter and the interim earnings included in such disclosures have been reviewed by the Auditor in accordance with International Standards on Auditing.

"**QIB**" has the meaning assigned to such term in subclause (b)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Record Date**" means, with respect to any Scheduled Due Date, the last Relevant Banking Day immediately preceding such Scheduled Due Date.

"**Redemption Date**" has the meaning assigned to such term in subclause (e)(i) of Condition 6 (*Redemption and Purchase*).

"**Redemption Notice**" has the meaning assigned to such term in subclause (e)(i) of Condition 6 (*Redemption and Purchase*).

"**Register**" means the register that the Issuer will procure to be kept by the Registrar in accordance with the provisions of the Fiscal Agency Agreement.

"**Registrar**" means Deutsche Bank Trust Company Americas, in its capacity as registrar for the Notes, and includes any successor registrar for the Notes appointed in accordance with the Fiscal Agency Agreement.

"**Regulation S Global Certificate**" has the meaning assigned to such term in subclause (b)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Regulatory Event**" has the meaning assigned to such term in subclause (d)(ii) of Condition 6 (*Redemption and Purchase*).

"**Relevant Accounts**" means, in respect of any Interest Payment Date, the most recently published audited unconsolidated annual financial statements of UBS Group AG prepared in accordance with the Swiss Code.

"**Relevant Banking Day**" means a day other than a Saturday or Sunday, on which banks are open for business in the place of the Specified Office of the Registrar and the Fiscal Agent.

"**Relevant Clearing System**" has the meaning assigned to such term in the definition of the term "Indirect Holder".

"**Relevant Date**" means, with respect to any payment, (i) the date on which such payment first becomes due under the Notes (the "**Scheduled Due Date**"), or (ii) if the full amount of the moneypayable on the Scheduled Due Date has not been received by the Fiscal Agent on or before the Scheduled Due Date, the date on which the full amount of the money due on the Scheduled Due Date has been received by the Fiscal Agent.

"**Relevant Swiss Issuer**" means, at any time, any bank, or any member of a banking group (including, without limitation, the Group), that is subject to a Going-Concern LR Requirement and a Going-Concern RWA Requirement at such time.

"**Reset Date**" means the First Call Date and each day that falls on the fifth anniversary of the immediately preceding Reset Date.

"**Reset Determination Date**" means, in relation to a Reset Interest Period, the day falling two Business Days prior to the Reset Date on which such Reset Interest Period commences.

"**Reset Interest Amount**" has the meaning assigned to such term in clause (b) of Condition 5 (*Interest*).

"**Reset Interest Period**" means each period from (and including) any Reset Date and ending on (but excluding) the next Reset Date.

"**Reset Interest Rate**" means, in relation to any Reset Interest Period, the sum of the Margin and the Treasury Yield in relation to such Reset Interest Period.

"**Reviewed Interim Measurement**" means an interim measurement of the CET1 Ratio, with respect to which the Auditor has performed procedures in accordance with the International Standard on Related Services (and relevant Swiss standards and practices) applicable to agreed-upon procedures engagements.

"**Rule 144A**" has the meaning assigned to such term in subclause (b)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Rule 144A Global Certificate**" has the meaning assigned to such term in subclause (b)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Scheduled Due Date**" has the meaning assigned to such term in the definition of the term "Relevant Date".

"**Senior Obligations**" means all obligations of the Issuer that are unsubordinated or that are subordinated and do not constitute either Junior Obligations or Parity Obligations.

"**Specified Office**" means (i) in the case of Deutsche Bank Trust Company Americas, as Fiscal Agent, Paying Agent and Registrar, Trust and Agency Services, 60 Wall Street, 24th Floor, MS: NYC60-2405, New York, New York 10005, USA, Attn: Corporates Team, UBS Group AG, (ii) in the case of UBS AG, as Swiss Paying Agent and Calculation Agent, Bahnhofstrasse 45, 8001 Zurich, Switzerland, and (iii) in the case of any other Agent, such office as is notified by the Issuer to the Holders in writing in accordance with Condition 13 (*Notices*) as soon as practicable after the appointment of such Agent, in the case of each of clauses (i), (ii) and (iii), or such other office as the relevant Agent may designate from time to time by providing notice to the Issuer and the Holders in writing in accordance with Condition 13 (*Notices*).

"**Substitute Issuer**" has the meaning assigned to such term in clause (a) of Condition 14 (*Issuer Substitution*).

"**Substitution Documents**" has the meaning assigned to such term in subclause (a)(iv) of Condition 14 (*Issuer Substitution*).

"**Substitution or Amendment Effective Date**" has the meaning assigned to such term in subclause (a)(iii) of Condition 12 (*Substitution and Amendment*).

"**Substitution or Amendment Notice**" has the meaning assigned to such term in subclause (a)(iii) of Condition 12 (*Substitution and Amendment*).

"**Swiss Code**" means the Swiss Code of Obligations, as amended from time to time.

"**Swiss Paying Agent**" has the meaning assigned to such term in subclause (c)(i) of Condition 8 (*Payments; Agents*).

"**Tax Event**" has the meaning assigned to such term in subclause (c)(ii) of Condition 6 (*Redemption and Purchase*).

"**Tax Jurisdiction**" means Switzerland.

"**Taxes**" has the meaning assigned to such term in clause (a) of Condition 9 (*Taxation*).

"**Tier 1 Capital**" means Additional Tier 1 Capital or any item that qualifies as common equity tier 1 capital pursuant to National Regulations.

"**Tier 1 Instruments**" means any and all (i) securities or other obligations (other than Tier 1 Shares) issued by UBS Group AG or (ii) shares, securities, participation securities or other obligations (other than Tier 1 Shares) issued by a subsidiary of UBS Group AG and having the benefit of a guarantee, credit support agreement or similar undertaking of UBS Group AG, each of which shares, securities, participation securities or other obligations described in clauses (i) and (ii) of this definition qualify, or are issued in respect of a security that qualifies, as Tier 1 Capital of the Group and/or UBS Group AG (without regard to quantitative limits on such capital) on a consolidated (*Finanzgruppe*) or on an unconsolidated (*Einzelinstitut*) basis.

"**Tier 1 Shares**" means all classes of share capital and participation certificates (if any) of UBS Group AG or any subsidiary of UBS Group AG that qualify as common equity tier 1 capital of the Group and/or UBS Group AG under National Regulations on a consolidated (*Finanzgruppe*) or on an unconsolidated (*Einzelinstitut*) basis.

"**Treasury Yield**" means, in relation to any Reset Interest Period,

(a) the rate per annum equal to the semi-annual equivalent yield to maturity, that represents the average of such yield to maturity for the five consecutive New York Business Days ending on and including the applicable Reset Determination Date, for a five-year maturity, appearing under the caption "Treasury constant maturities" in the most recent H.15; or

(b) if the Treasury Yield for such Interest Reset Period cannot be determined pursuant to clause (a) above, the rate per annum equal to the semi-annual equivalent yield to maturity determined by interpolation between the most recent average of such yield to maturity, such average to be determined for the five consecutive New York Business Days ending on and including the applicable Reset Determination Date, for two series of US Treasury securities trading in the public securities market, (i) one maturing as close as possible to, but earlier than, the first Reset Date following the next succeeding Reset Determination Date, and (ii) the other maturing as close as possible to, but later than, the first Reset Date following the next succeeding Reset Determination Date; or

(c) if the Treasury Yield for such Interest Reset Period cannot be determined pursuant to clause (b) above, the rate per annum equal to the semi-annual equivalent yield to maturity for a five-year maturity for the last available date preceding the applicable Reset Determination Date, appearing under the caption "Treasury constant maturities" in the H.15 that has been most recently published prior to the applicable Reset Determination Date,

in each case, as determined by the Calculation Agent on the applicable Reset Determination Date.

For purposes of this definition, (i) "**H.15**" means the statistical release designated as such, or any successor publication, published by the Board of Governors of the United States Federal Reserve System (or any successor publication that is published by the Board of Governors of the United States Federal Reserve System and that establishes yields on actively traded US Treasury securities adjusted to constant maturity under the caption "Treasury constant maturities" for the maturity of five years), (ii) "**most recent H.15**" means, in respect of any Reset Interest Period, the H.15 published closest in time but prior to the close of business on the second Business Day prior to the applicable Reset Date, (iii) "**New York Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments generally in New York City, and (iv) "**semi-annual equivalent yield to maturity**" means, for securities with two interest payments per year, the annualized yield to maturity of such interest payments, such annualized yield to be calculated in accordance with standard market practice.

"**Trigger Breach Determination Date**" has the meaning assigned to such term in subclause (b)(i) of Condition 7 (*Contingent Write-down*).

"**Trigger CET1 Ratio**" means, as of any Publication Date, (i) the sum of (x) the CET1 Capital as of the relevant Balance Sheet Date and (y) the Higher-Trigger Amount as of such Publication Date, divided by (ii) the BIS Risk Weighted Assets as of the relevant Balance Sheet Date, expressed as a percentage.

"**Trigger Event**" has the meaning assigned to such term in subclause (a)(ii) of Condition 7 (*Contingent Write-down*).

"**Trigger Event Notice Date**" means an Ordinary Trigger Event Notice Date or an Extraordinary Trigger Event Notice Date, as the case may be.

"**Trigger Event Write-down Date**" has the meaning assigned to such term in the definition of the term "Trigger Event Write-down Notice".

"**Trigger Event Write-down Notice**" means, with respect to any Publication Date, a notice (i) stating that (x) the Trigger CET1 Ratio as of such Publication Date is less than the Write-down Threshold, and (y) a Contingent Write-down will take place and (ii) specifying the date on which the Contingent Write-down will take place, which date shall, subject to postponement pursuant to subclause (b)(ii) of Condition 7 (*Contingent Write-down*), be no later than ten Business Days after the date of such notice (the "**Trigger Event Write-down Date**").

"**US Exchange Act**" means the US Securities Exchange Act of 1934, as amended from time to time.

"**US Investment Company Act**" means the US Investment Company Act of 1940, as amended from time to time.

"**US Securities Act**" means the US Securities Act of 1933, as amended from time to time.

"**USD**" means United States dollars.

"**Viability Event**" has the meaning assigned to such term in subclause (c)(ii) of Condition 7 (*Contingent Write-down*).

"**Viability Event Write-down Date**" has the meaning assigned to such term in subclause (c)(i) of Condition 7 (*Contingent Write-down*).

"**Viability Event Write-down Notice**" has the meaning assigned to such term in subclause (c)(ii) of Condition 7 (*Contingent Write-down*).

"**Write-down Date**" means, with respect to any Contingent Write-down, the Trigger Event Write-down Date or Viability Event Write-down Date, as applicable.

"**Write-down Notice**" means, with respect to any Contingent Write-down, the relevant Trigger Event Write-down Notice or Viability Event Write-down Notice, as applicable.

"**Write-down Notice Date**" means, with respect to any Contingent Write-down, the date of the relevant Write-down Notice.

"**Write-down Threshold**" means 7 per cent.

2. **AMOUNT, DENOMINATION AND FORM**

(a) *Amount and denomination*

The initial aggregate principal amount of the Notes will be USD 750,000,000. The Notes will be issued to Holders in minimum denominations of USD 200,000 and integral multiples of USD 1,000 in excess thereof. The principal amount of the Notes may be written down in the circumstances and in the manner described in Condition 7 (*Contingent Write-down*). The Notes may only be held and transferred in minimum denominations of USD 200,000 and integral multiples of USD 1,000 in excess thereof.

(b) *Global Certificates*

(i) Notes that are initially sold in the United States to "qualified institutional buyers" (each, a "**QIB**") within the meaning of Rule 144A under the US Securities Act ("Rule **144A**") are initially represented by one or more permanent registered global certificates (each, a "**Rule 144A Global Certificate**"), without interest coupons, deposited with the Fiscal Agent as custodian for, and registered in the name of Cede & Co. as nominee for, DTC. Notes that are initially sold in an "offshore transaction" within the meaning of Regulation S of the US Securities Act are initially represented by one or more permanent registered global certificates (each, a "**Regulation S Global Certificate**"), without interest coupons, deposited with the Fiscal Agent as custodian for, and registered in the name of Cede & Co. as nominee for, DTC, *provided* that upon such Regulation S Global Certificate's deposit, all beneficial interests in the Notes represented thereby are maintained at or through Euroclear and/or Clearstream, Luxembourg until expiration of the Distribution Compliance Period. The form of Regulation S Global Certificate and the form of Rule 144A Global Certificate are set out in the Fiscal Agency Agreement, which will be made available by the Registrar to any Holder or Indirect Holder upon written request.

(ii) The aggregate principal amount of the Notes represented by each of the Global Certificates may from time to time be increased or decreased by adjustments made on the records of the Registrar. Each Global Certificate shall have affixed a schedule for the purpose of recording adjustments in the aggregate principal amount thereof; *provided*, *however*, that, in the event of a discrepancy between the principal amounts recorded on such schedule and the amounts listed on the records of the Registrar, the principal amounts listed on the records of the Registrar will control. Any beneficial interest of an Indirect Holder in any Note represented by one of the Global Certificates that is transferred to a Person who takes delivery in the form of a beneficial interest in such Note represented by another Global Certificate will, upon transfer, cease to be a beneficial interest in such first Global Certificate and become a beneficial interest in the other Global Certificate and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to beneficial interests in such other Global Certificate for as long as it retains such an interest.

(iii) So long as the Notes are represented by one or more Global Certificates deposited with, or with a custodian for, the Depositary, the Holder of a Global Certificate may grant proxies and otherwise authorise any Person, including, without limitation, participants of a Relevant Clearing System and Persons that may hold interests through such participants, to take any action that the Holder is entitled to take under these Terms and Conditions or the Notes, and nothing in these Terms and Conditions will prevent the Issuer or the Agents or any of their respective agents from giving effect to any such proxies or other authorisations furnished by the Holder of a Global Certificate for purposes of this subclause (b)(iii). Although the Holders are the only Persons entitled to participate in, and vote at, any meeting of Holders, so long as the Notes are represented by one or more Global Certificates deposited with, or with a custodian for, the Depositary, the Holder of a Global Certificate shall (A) obtain instructions from the relevant Indirect Holders in respect of any meeting of Holders, (B) vote at such meeting in respect of each Note represented by such Global Certificate in accordance with the instructions received from the relevant Indirect Holder and (C) abstain from representing any Note represented by such Global Certificate at a meeting of Holders for which it has not received an instruction from the relevant Indirect Holder. Only the Notes represented by such Global Certificate for which the Holder received an instruction by the relevant Indirect Holder to take part at a meeting of Holders will be deemed to be present or represented at such meeting.

(c) *Definitive Certificates*

(i) Definitive Notes in registered form (each, a "**Definitive Certificate**") shall be issued, and a Global Certificate will be exchanged, in whole, but not in part, for Definitive Certificates, if (and only if):

(A) the Depositary notifies the Issuer that it is no longer willing or able to discharge properly its responsibilities as depositary with respect to some or all of the Global Certificates, or ceases to be a "clearing agency" registered under the US Exchange Act; or

(B) at any time the Depositary is no longer eligible to act as such, or the Notes cease for any reason to be eligible for clearing through the Depositary, and the Issuer is unable to locate a qualified successor within 90 days of receiving notice of such ineligibility of the Depositary or of the Notes, as the case may be, from or on behalf of the Depositary; or

(C) issuance of the Definitive Certificates is required by Swiss or other applicable laws or regulations in connection with the enforcement of rights under the Notes; or

(D) the Issuer provides its consent.

(ii) If a Global Certificate is to be exchanged for Definitive Certificates pursuant to subclause (i) of this clause (c), the Issuer will procure the prompt delivery (free of charge) of Definitive Certificates to the Fiscal Agent, duly executed without interest coupons, registered in the names of the relevant Indirect Holders,

(iii) addresses and denominations provided in a written notice to be given by the Depositary or the Issuer to the Fiscal Agent (which notice shall be given subject to the Depositary's procedures and also specify the taxpayer identification number, if any, of each Person in whose name such Definitive Certificates are to be registered). Upon written direction of the Issuer, the Fiscal Agent will deliver such Definitive Certificates to the Holders thereof not later than five Business Days after receipt by the Fiscal Agent of the written notice provided by the Depositary (or the Issuer, as applicable) referred to above (and any other necessary information as the Fiscal Agent may reasonably request from the Issuer at such time). The Fiscal Agent shall promptly cancel and deliver to the Issuer the surrendered Global Certificates. The form of Definitive Certificate that will be issued in exchange for a beneficial interest in a Note represented by a Rule 144A Global Certificate and the form of Definitive Certificate that will be issued in exchange for a beneficial interest in a Note represented by a Regulation S Global Certificate are set out in the Fiscal Agency Agreement, which will be made available by the Registrar to any Holder or Indirect Holder upon written request.

(iv) If Definitive Certificates have been issued pursuant to this Condition 2(c), any Definitive Certificate that is lost, stolen, mutilated, defaced or destroyed may be replaced, subject to applicable laws and regulations, at the Specified Office of the Fiscal Agent upon payment by the claimant of the fees, costs and expenses incurred by the Fiscal Agent and the Issuer in connection therewith and on such terms as to evidence, security and indemnity (which may provide, among other things, that if the Definitive Certificate allegedly or actually lost, stole or destroyed is subsequently presented for payment there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Definitive Certificate subsequently presented) as the Issuer may require. Mutilated or defaced Definitive Certificates must be surrendered before replacements will be issued.

3. **TRANSFER**

(a) *General*

(i) Subject to Conditions 3(b) and 3(c), title to Notes will pass on transfer by assignment (*Zession*) and due registration in the Register. All transfers of Notes and entries on the Register will be made subject to the provisions concerning transfers of Notes set forth in the Fiscal Agency Agreement, which will be made available by the Registrar to any Holder or Indirect Holder upon written request.

(ii) Transfers of Notes, or of beneficial interests in Notes represented by Global Certificates, may be made only in accordance with the legend set forth upon the face of the applicable Global Certificate or Definitive Certificate, and the Registrar will not be required to accept for registration of transfer any Note or beneficial interests in Notes except upon presentation of evidence satisfactory to the Fiscal Agent and the Registrar that such transfer is being made in compliance with such legend.

(iii) Transfers of Notes and the issue of new Global Certificates or Definitive Certificates, as the case may be, on transfer will be effected without charge by or on behalf of the Issuer or the Registrar, but upon payment of any tax or other governmental charges that may be imposed in relation to the transfer (or the giving of such indemnity as the Fiscal Agent or the Registrar may require) by the Holder.

(iv) No Holder may require the transfer of a Note to be registered (x) if the Notes are to be redeemed pursuant to Condition 6 (*Redemption and Purchase*), during the period of 15 days ending on (and including) the relevant Redemption Date, or (y) during the period of 15 days ending on (and including) the Record Date for any Interest Payment Date.

(v) No Person (including any Indirect Holder) other than the Holder(s) will have any rights, or be owed any obligations by the Issuer, under the Notes. Payments of principal, interest or any other amount in respect of Notes will be made only to the Person shown on the Register as the registered holder of such Note (i.e., the Holder) at close of business on the relevant Record Date.

(b) *Transfer of Notes represented by a Global Certificate*

(i) Global Certificates may be transferred only in whole, but not in part, and only to a Relevant Clearing System or any of their respective successors or nominees, in each case located outside of Switzerland, except as provided below. Beneficial interests of Indirect Holders in Notes represented by Global Certificates may be transferred only in accordance with the rules and procedures of such Relevant Clearing System, the provisions of the Fiscal Agency Agreement and this Condition 3(b).

(ii) A beneficial interest in a Note represented by a Regulation S Global Certificate may be transferred to a Person who takes delivery in the form of a beneficial interest in a Note represented by a Rule 144A Global Certificate during the Distribution Compliance Period, only if such exchange occurs in connection with a transfer of beneficial interests in the Notes pursuant to Rule 144A and the transferor first delivers to the Fiscal Agent and the Registrar a written certificate substantially in the form of a certificate available on request from the Registrar to the effect that the beneficial interests in the Notes are being transferred to a Person who the transferor reasonably believes is a QIB within the meaning of Rule 144A under the US Securities Act, purchasing the beneficial interests in the Notes for its own account or the account of a QIB in a transaction meeting the requirements of Rule 144A and in accordance with all applicable securities laws of the states of the United States and other jurisdictions.

(iii) A beneficial interest in a Note represented by a Rule 144A Global Certificate may be transferred to a Person who takes delivery in the form of a beneficial interest in a Note represented by a Regulation S Global Certificate, whether before or after the expiration of the Distribution Compliance Period, only if the transferor first delivers to the Fiscal Agent and the Registrar a written certificate substantially in the form of a certificate available on request from the Registrar to the effect that the transfer is being conducted in compliance with Rule 903 or Rule 904 of Regulation S under the US Securities Act.

(iv) Until the termination of the Distribution Compliance Period, beneficial interests in any Regulation S Global Certificate may be held only through participants acting for and on behalf of Euroclear and/or Clearstream, Luxembourg, *provided* that this subclause (iv) shall not prohibit any transfer in accordance with subclause (ii) of this Condition 3(b).

(c) *Transfer of Notes represented by a Definitive Certificate*

(i) If and when Definitive Certificates have been issued pursuant to Condition 2(c), one or more Notes may be transferred only in accordance with the legends set forth upon the face of the relevant Definitive Certificate and only upon the surrender (at the Specified Office of the Registrar) of the Definitive Certificate representing such Notes to be transferred, together with the form of transfer attached to such Definitive Certificate (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by the Issuer), duly completed and executed and any other evidence as the Fiscal Agent and the Registrar may reasonably require. A new Definitive Certificate shall be issued to the transferee in respect of the Notes that are the subject of the relevant transfer and, in the case of a transfer of part only of a holding of Notes represented by one Definitive Certificate, a new Definitive Certificate in respect of the balance of the Notes not transferred shall be issued to the transferor. In the case of a transfer of Notes to a Person who is already a Holder, a new Definitive Certificate representing the enlarged holding may be issued but only against surrender of the Definitive Certificate representing the existing holding of such Person.

(ii) Each new Definitive Certificate to be issued pursuant to Condition 2(c) shall be available for delivery within three Relevant Banking Days of receipt of the form of transfer and surrender of the relevant Definitive Certificate. Delivery of new Definitive Certificate(s) will be made at the Specified Office of the Fiscal Agent to which delivery and surrender of such form of transfer and Definitive Certificate or, as the case may be, surrender of such Definitive Certificate, will have been made or, at the option of the relevant Holder and as specified in the relevant form of transfer or otherwise in writing, be mailed by uninsured post at the risk of the Holder entitled to the new Definitive Certificate to such address as may be so specified, unless such Holder requests otherwise and pays in advance to the Fiscal Agent the costs of such other method of delivery and/or such insurance as it may specify.

(d) *Rule 144A*

Each Note that is initially sold in the United States to a QIB will not be registered under the US Securities Act, or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be sold, pledged or otherwise transferred, except (i) in accordance with Rule 144A to a Person that the Holder and any Person acting on its behalf reasonably believe is a QIB that is acquiring the Notes for its own account or for the account of one or more QIBs, (ii) in an offshore transaction in accordance with Rule 903 or 904 of Regulation S under the US Securities Act, (iii) pursuant to an exemption from registration under Rule 144 under the US Securities Act, or in accordance with another exemption from, or in a transaction not subject to, registration under the US Securities Act, if available, or (iv) pursuant to an effective registration statement under the US Securities Act, in each case, in accordance with any applicable securities laws of any state of the United States.

## 4. STATUS AND SUBORDINATION

(a) *Status*

The Notes constitute direct, unsecured and subordinated obligations of the Issuer and rank *pari passu* and without any preference among themselves. The rights and claims of the Holders against the Issuer under the Notes are subordinated as described in clause (b) of this Condition 4.

(b) *Subordination*

In the event of (i) a Bankruptcy Event or (ii) an order being made, or an effective resolution being passed, for the liquidation or winding-up of the Issuer (except, in any such case, a solvent liquidation or winding-up of the Issuer solely for the purposes of a reorganisation, reconstruction or amalgamation of the Issuer or the substitution in place of the Issuer of a successor in business to the Issuer, the terms of which reorganisation, reconstruction, amalgamation or substitution (x) have previously been approved by a valid resolution of the Holders and (y) do not provide that the Notes shall become redeemable in accordance with these Terms and Conditions), the rights and claims of the Holders against the Issuer in respect of or arising under (including, without limitation, any damages awarded for breach of any obligation under) the Notes will, subject to any obligations that are mandatorily preferred by law, rank (A) junior to the rights and claims of all holders of Senior Obligations, (B) *pari passu* with the rights and claims of holders of Parity Obligations and (C) senior to the rights and claims of holders of Junior Obligations.

(c) *Claims subject to a Contingent Write-down*

Any claim of any Holder in respect of or arising under the Notes (including, without limitation, any claim in relation to any unsatisfied payment obligation of the Issuer subject to enforcement by any Holder pursuant to Condition 11 (*Events of Default*) or in relation to the occurrence of any other Event of Default) will be subject to, and superseded by, clause (d) of Condition 7 (*Contingent Write-down*), irrespective of whether the relevant Write-down Notice has been given prior to or after the occurrence of an Event of Default or any other event.

## 5. INTEREST

(a) *Interest Payment Dates*

(i) Subject to Condition 7 (*Contingent Write-down*) and clause (g) of this Condition 5, the Notes will bear interest on their principal amount (A) from (and including) the Issue Date to (but excluding) the First Call Date, at the Fixed Interest Rate, and (B) thereafter, at the applicable Reset Interest Rate.

(ii) Subject to Condition 7 (*Contingent Write-down*) and clause (h) of this Condition 5, interest on the Notes will be payable semi-annually in arrear on 2 June and 2 December of each year (each, an "**Interest Payment Date**"), commencing on 2 December 2021.

(b) *Determination of the Treasury Yield, Reset Interest Rate and Reset Interest Amount in relation to each Reset Interest Period*

With respect to each Reset Interest Period, the Calculation Agent will, as soon as practicable on the Reset Determination Date in relation to such Reset Interest Period, determine the Treasury Yield and the Reset Interest Rate for such Reset Interest Period and calculate the amount of interest payable per Calculation Amount on the Interest Payment Date in relation to each Interest Period falling in such Reset Interest Period (each, a "**Reset Interest Amount**").

(c) *Publication of Reset Interest Rate and interest amount payable upon redemption*

With respect to each Reset Interest Period, as soon as practicable after such determination but in any event not later than the relevant Reset Date, the Calculation Agent will cause (i) the relevant Reset Interest Rate and the relevant Reset Interest Amount determined by it, together with the Interest Payment Date in relation to each Interest Period falling in such Reset Interest Period, to be notified to the Issuer and the Paying Agents and (ii) the relevant Reset Interest Rate determined by it to be notified to any stock exchange or other relevant authority on which the Notes are at the relevant time listed and to be published in accordance with Condition 13 (*Notices*).

The Calculation Agent shall calculate any interest amount payable on any Redemption Date (if the Notes are to be redeemed pursuant to Condition 6 (*Redemption and Purchase*)) and cause such interest amount to be notified to Issuer and the Paying Agents and to any stock exchange or other relevant authority on which the Notes are at the relevant time listed and to be published in accordance with Condition 13 (*Notices*) no later than two Business Days prior to such Redemption Date.

(d) *Calculation of amount of interest payable per Calculation Amount*

Subject to Condition 7 (*Contingent Write-down*) and clause (h) of this Condition 5:

(i) the amount of interest payable per Calculation Amount on each Interest Payment Date to (and including) the First Call Date in respect of the Notes will be USD 19.38; and

(ii) if interest is required to be paid in respect of a Note on any other date (including,for the avoidance of doubt, the Reset Interest Amount), the amount of interest payable per Calculation Amount on such date will be calculated by:

(A) applying the applicable Interest Rate to the Calculation Amount;

(B) multiplying the product thereof by the Day Count Fraction; and

(C) rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

(e) *Calculation of amount of interest payable per Note*

Subject to Condition 7 (*Contingent Write-down*) and clause (h) of this Condition 5, the amount of interest payable in respect of a Note will be the product of:

(i) the amount of interest per Calculation Amount; and

(ii) the number by which the Calculation Amount is required to be multiplied to equal the denomination of such Note.

(f) *Notifications, etc. to be final*

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained by the Calculation Agent for the purposes of this Condition 5 will (in the absence of wilful default, bad faith and manifest error) be binding on the Issuer, the Calculation Agent, the Paying Agents and the Holders and (in the absence of wilful default and bad faith) no liability to the Issuer or the Holders will attach to the Calculation Agent in connection with the exercise or non-exercise by the Calculation Agent of its powers, duties and discretions under this Condition 5.

(g) *Accrual of interest in the case of redemption or a Write-down Event*

(i) Subject to Condition 7 (*Contingent Write-down*), if the Notes are to be redeemed pursuant to clause (b), (c) or (d) of Condition 6 (*Redemption and Purchase*), interest on the Notes will accrue up to (but excluding) the relevant Redemption Date, and will cease to accrue on such Redemption Date; *provided*, *however*, that if the payment with respect to any Note is improperly withheld or refused on such Redemption Date, interest will continue to accrue on the principal amount of such Note (both before and after judgment) at the relevant Interest Rate to the Relevant Date.

(ii) Upon the occurrence of a Write-down Event, interest on the Notes will cease to accrue and any accrued and unpaid interest as at the time of such Write-down Event (whether or not due and payable) will be written down to zero in accordance with Condition 7 (*Contingent Write-down*).

(h) *Cancellation of interest; prohibited interest*

(i) The Issuer may, at its discretion, elect to cancel all or part of any payment of interest on the Notes (including, for the avoidance of doubt, any related Additional Amounts) that is otherwise scheduled to be paid on an Interest Payment Date. This subclause (h)(i) is without prejudice to the provisions of subclause (h)(ii) of this Condition 5. Non-payment of any amount of interest by the Issuer to the Fiscal Agent will constitute evidence of cancellation of the relevant payment, whether or not notice of cancellation has been given by the Issuer.

If practicable, the Issuer shall provide notice of any cancellation of interest (in whole or in part) pursuant to this subclause (h)(i) to the Holders on or prior to the relevant Interest Payment Date. If practicable, the Issuer shall endeavour to provide such notice at least five Business Days prior to the relevant Interest Payment Date. Failure to provide such notice will not have any impact on the effectiveness of, or otherwise invalidate, any such cancellation of interest, or give Holders any rights as a result of such failure.

(ii) The Issuer will be prohibited from making, in whole or in part, any payment of interest on the Notes (including, for the avoidance of doubt, any related

Additional Amounts) on the relevant Interest Payment Date if and to the extent that:

(A) the amount of Distributable Items as at such Interest Payment Date is less than the sum of (1) the amount of such interest payment, plus (2) all other payments (other than redemption payments) made by UBS Group AG on or in respect of the Notes or any Parity Obligations or Junior Obligations since the balance sheet date of the Relevant Accounts and prior to such Interest Payment Date, plus (3) all payments (other than redemption payments) payable by UBS Group AG on such Interest Payment Date on or in respect of any Parity Obligations or Junior Obligations, in the case of each of clauses (1), (2) and (3), excluding any portion of such payments already accounted for in determining the amount of such Distributable Items; and/or

(B) UBS Group AG is not, or will not immediately after the relevant payment of interest be, in compliance with all applicable minimum capital adequacy requirements of the National Regulations on a consolidated (*Finanzgruppe*) basis (for the avoidance of doubt, it being understood that such minimum requirements will reflect any reduction in such requirements granted by FINMA to the Group pursuant to the Capital Adequacy Ordinance); and/or

(C) FINMA has required the Issuer not to make such interest payment.

The Issuer shall deliver a certificate signed by the Authorised Signatories to the Fiscal Agent and shall give notice in accordance with Condition 13 (*Notices*) to the Holders, in each case as soon as practicable following any determination that interest is required to be cancelled pursuant to this subclause (i)(ii) or, where no such prior determination is made, promptly following any Interest Payment Date on which interest was scheduled to be paid if such interest is being cancelled in accordance with this subclause (i)(ii), to such effect setting out brief details as to the amount of interest being cancelled and the reason therefor. Failure to provide such certificate and notice will not have any impact on the effectiveness of, or otherwise invalidate, any such cancellation or give any Holder any rights as a result of such failure.

(iii) If, on any Interest Payment Date, any payment of interest scheduled to be made on such date is not made in full pursuant to subclause (h)(i) or subclause (h)(ii) of this Condition 5, UBS Group AG shall not, directly or indirectly,

(A) recommend to holders of Ordinary Shares that any dividend or other distribution in cash or in kind (other than in the form of Ordinary Shares) be paid or made on any Ordinary Shares; and

(B) redeem, purchase or otherwise acquire any Ordinary Shares other than as a Permitted Transaction,

in each case unless and until (x) the interest payment due and payable on the Notes on any subsequent Interest Payment Date has been paid in full (or an amount equal to the same has been paid in full to a designated third party trust account for the benefit of the Holders prior to payment by the trustee thereof to the Holders on such subsequent Interest Payment Date) or, if earlier, (y) all outstanding Notes have been cancelled in accordance with these Terms and Conditions.

(iv) Payments of interest on the Notes are not cumulative. Notwithstanding any other provision in these Terms and Conditions, the cancellation or non-payment of any interest amount by virtue of this Condition 5(h) will not constitute a default for any purpose (including, without limitation, Condition 11 (*Events of Default*)) on the part of the Issuer. Any interest payment not paid by virtue of this

Condition 5(h) will not accumulate or be payable at any time thereafter, and Holders will have no right thereto.

(v) If UBS Group AG determines, after consultation with FINMA, that the Notes do not, or will cease to, fully qualify as Additional Tier 1 Capital, (A) the Issuer shall not, to the extent permitted under National Regulations, exercise its discretion pursuant to subclause (h)(i) of this Condition 5 to cancel any interest payments due on the Notes on any Interest Payment Date following the occurrence of such determination, and (B) the Issuer shall give notice to the Holders in accordance with Condition 13 (*Notices*) as soon as practicable after such determination stating that the Issuer may no longer exercise its discretion pursuant to subclause (h)(i) of this Condition 5 to cancel any interest payments as from the date of such notice.

## 6. REDEMPTION AND PURCHASE

(a) *No fixed redemption date*

The Notes are perpetual securities in respect of which there is no fixed redemption date. Unless previously redeemed or purchased and cancelled in accordance with this Condition 6 and subject to Condition 7 (*Contingent Write-down*), the Notes are perpetual and may only be redeemed or purchased in accordance with this Condition 6.

(b) *Redemption at the option of the Issuer*

Subject to clause (e) of this Condition 6, the Issuer may elect, in its sole discretion, to redeem the Notes, in whole but not in part, on the First Call Date or any Interest Payment Date thereafter at their aggregate principal amount, together with any accrued and unpaidinterest thereon to (but excluding) the relevant Redemption Date.

(c) *Redemption due to a Tax Event*

(i) Subject to clause (e) of this Condition 6, upon the occurrence of a Tax Event at any time after the Issue Date, the Issuer may elect, in its sole discretion, to redeem the Notes, in whole but not in part, on the relevant Redemption Date at their aggregate principal amount, together with any accrued and unpaid interest thereon to (but excluding) such Redemption Date.

(ii) A "**Tax Event**" will have occurred if the Issuer in making any payments on the Notes (A) has paid, or will or would on the next payment date be required to pay, Additional Amounts, or (B) has paid, or will or would be required to pay, any additional Tax in respect of the Notes, in the case of each of clauses (A) and (B), under the laws or regulations of a Tax Jurisdiction or any political subdivision thereof or any authority of or in a Tax Jurisdiction or any political subdivision thereof having the power to impose, levy, collect, withhold or assess Taxes, including, without limitation, any treaty to which a Tax Jurisdiction is a party, or any generally published application or interpretation of such laws (including, without limitation, a decision of any court or tribunal, any generally published application or interpretation of such laws by any relevant tax authority or any generally published pronouncement by any relevant tax authority), and the Issuer cannot avoid the foregoing by taking measures reasonably available to it.

(d) *Redemption due to a Regulatory Event*

(i) Subject to clause (e) of this Condition 6, upon the occurrence of a Regulatory Event at any time after the Issue Date, the Issuer may elect, in its sole discretion, to redeem the Notes, in whole but not in part, on the relevant Redemption Date at their aggregate principal amount, together with any accrued and unpaid interest thereon to (but excluding) such Redemption Date.

(ii) A "**Regulatory Event**" will have occurred if any of the Notes ceases to be eligible in full to be (A) treated as Additional Tier 1 Capital, and/or (B) counted towards either the Going-Concern LR Requirement or the Going-Concern RWA Requirement (or both).

(e) *Conditions for redemption*

(i) If the Issuer elects to redeem the Notes pursuant to clause (b), (c) or (d) of this Condition 6, then the Issuer shall give the Holders not less than 30 and not more than 60 days' prior notice in accordance with Condition 13 (*Notices*) (a "**Redemption Notice**"), which notice shall, subject to clause (f) of this Condition 6, be irrevocable and specify (x) the clause of this Condition 6 pursuant to which the redemption is to be made, (y) if any Definitive Certificates have been issued, the method by which Notes to be redeemed will be tendered, and (z) the date (which date shall be a Payment Business Day) on which the Issuer will redeem the Notes pursuant to such clause of this Condition 6 (such specified date, the "**Redemption Date**").

(ii) The Issuer may only redeem the Notes pursuant to clause (b) or (c) of this Condition 6 on the relevant Redemption Date if FINMA has approved such redemption on or prior to such Redemption Date, if such approval is then required under applicable Swiss laws and regulations.

(iii) The Issuer may only redeem the Notes pursuant to any clause of this Condition 6 on the relevant Redemption Date if no Trigger Event or Viability Event has occurred prior to such Redemption Date.

(iv) If the Issuer elects to redeem the Notes pursuant to clause (c) or (d) of this Condition 6, then prior to the publication of the Redemption Notice pursuant to subclause (e)(i) of this Condition 6, the Issuer shall deliver to the Fiscal Agent (A) a certificate signed by two Authorised Signatories stating that the relevant requirement or circumstance giving rise to the right to redeem under clause (c) or (d), as applicable, of this Condition 6 is satisfied and the reasons therefor and such certificate will be conclusive and binding on the Holders, and (B) in the case of a redemption pursuant to clause (c) of this Condition 6 only, an opinion of independent legal advisers of recognised standing to the effect that circumstances entitling the Issuer to exercise its right of redemption under clause (c) of this Condition 6 have arisen.

(f) *Purchases*

The Issuer or any other member of the Group or any of their respective affiliates may at any time purchase Notes at any price in the open market or otherwise, *provided* that (i) such purchase complies with any limits or conditions to which any member of the Group is subject under applicable banking laws and regulations at the time of such purchase, (ii) other than in the case of purchases made in connection with stabilisation measures in compliance with applicable law or in connection with any market making in the Notes, FINMA has approved such purchase (if such approval is then required under applicable Swiss laws and regulations) on or prior to the date of such purchase, and (iii) no Trigger Event or Viability Event has occurred prior to the date of such purchase. Any Notes so purchased may, at the option of the Issuer, be held, reissued, resold or cancelled.

(g) *Cancellation*

All Notes redeemed in accordance with this Condition 6 will be cancelled and may not be reissued or resold.

(h) *Redemption of other instruments*

For the avoidance of doubt, it is understood that, if, upon the occurrence of a Tax Event or a Regulatory Event, the Issuer does not elect to redeem the Notes pursuant to this Condition 6, nothing in this Condition 6 or any other provision of these Terms and Conditions will prohibit the Issuer from redeeming (whether early, at maturity or otherwise) any other instruments issued by any member of the Group pursuant to the terms thereof.

7. **CONTINGENT WRITE-DOWN**

(a) *Trigger Event*

(i) Upon the occurrence of a Trigger Event, a Contingent Write-down will occur on the Trigger Event Write-down Date in accordance with clause (d) of this Condition 7.

(ii) A "**Trigger Event**" will have occurred if the Issuer gives the Holders a Trigger Event Write-down Notice in accordance with clause (b) of this Condition 7.

(b) *Trigger Event Write-down Notice*

(i) If, with respect to any Publication Date, the Trigger CET1 Ratio as of such Publication Date is less than the Write-down Threshold, the Issuer shall, subject to subclauses (b)(ii) and (b)(iii) of this Condition 7, give a Trigger Event Write-down Notice to the Holders (x) if such Publication Date is an Ordinary Publication Date, within five Business Days of such Ordinary Publication Date (such fifth Business Day, the "**Trigger Breach Determination Date**", and the date of such notice, the "**Ordinary Trigger Event Notice Date**"), and (y) if such Publication Date is an Extraordinary Publication Date, on such Extraordinary Publication Date (the "**Extraordinary Trigger Event Notice Date**"), in each case in accordance with Condition 13 (*Notices*).

(ii) If a Trigger Event Write-down Notice is required to be given pursuant to subclause (b)(i) of this Condition 7, and on the relevant Publication Date any Higher-Trigger Contingent Capital is outstanding with respect to which either (x) no Higher-Trigger Write-down/Conversion Notice has been given prior to the Trigger Event Notice Date or (y) a Higher-Trigger Write-down/Conversion Notice has been given prior to the Trigger Event Notice Date, but the Trigger Event Write-down Date is scheduled to occur prior to the relevant Higher-Trigger Write-down/Conversion Date,

(A) in the case of clause (x) above, the giving of such Trigger Event Write-down Notice will be postponed until the date on which a Higher-Trigger Write-down/Conversion Notice has been given with respect to all such outstanding Higher-Trigger Contingent Capital and such date will be deemed to be the Trigger Event Notice Date; and

(B) in the case of clauses (x) and (y) above, if the Trigger Event Write-down Date is scheduled to occur prior to the Higher-Trigger Write-down/Conversion Date (or, in the case of more than one Higher-Trigger Write-down/Conversion Date, the latest Higher-Trigger Write-down/Conversion Date), the Trigger Event Write-down Date will be postponed to the Higher-Trigger Write-down/Conversion Date (or the latest Higher-Trigger Write-down/Conversion Date, as applicable) and such postponement shall be specified in such Trigger Event Write-down Notice.

(iii) If (A) a Trigger Event Write-down Notice is required to be given pursuant to subclause (b)(i) of this Condition 7 in relation to an Ordinary Publication Date, and (B) prior to the earlier of the Ordinary Trigger Event Notice Date and the Trigger Breach Determination Date, FINMA, upon the request of UBS Group AG, has agreed in writing that a Contingent Write-down is not required as a result of actions taken by the Group or circumstances or events, in each case, that have had, or imminently will have, the effect of restoring the CET1 Ratio as of the Balance Sheet Date relating to the relevant Ordinary Publication Date, after giving pro forma effect to such actions, circumstances or events, to a level above the Write-down Threshold that FINMA and UBS Group AG deem, in their sole discretion, to be adequate at such time, (x) the Issuer shall not give such Trigger Event Write-down Notice pursuant to subclause (b)(i) of this Condition 7 in relation to the relevant Ordinary Publication Date, and (y) the Issuer shall give notice to the Holders on or prior to the Trigger Breach Determination Date in accordance with Condition 13 (*Notices*), which notice shall state that no Contingent Write-down will occur in relation to the relevant Ordinary Publication Date.

(c) *Viability Event*

(i) Subject to clause (f) of this Condition 7, upon the occurrence of a Viability Event, (A) the Issuer shall give notice to the Holders in accordance with Condition 13 (*Notices*) within three days of the date on which such Viability Event occurred, which notice shall (x) state that a Viability Event has occurred and a Contingent Write-down will take place and (y) specify the date on which the Contingent Write-down will take place, which date shall be no later than ten Business Days after the date of such notice (such specified date, the "**Viability Event Write-down Date**", and such notice, a "**Viability Event Write-down Notice**"), and (B) a Contingent Write-down will occur on the Viability Event Write-down Date in accordance with clause (d) of this Condition 7.

(ii) A "**Viability Event**" will have occurred if prior to an Alternative Loss Absorption Date (if any):

(A) FINMA has notified UBS Group AG in writing that it has determined a write-down of the Notes, together with the conversion or write-down, as applicable, of holders' claims in respect of all other capital instruments issued by, or other capital obligations (whether qualifying fully or partially for capital treatment) of, any member of the Group that, pursuant to their terms or by operation of law, are capable of being converted into equity or written down at that time, is, because customary measures to improve the Group Holding Company's capital adequacy are at the time inadequate or infeasible, an essential requirement to prevent the Group Holding Company from becoming insolvent, bankrupt, unable to pay a material part of its debts as they fall due or unable to carry on its business; or

(B) customary measures to improve the Group Holding Company's capital adequacy being at the time inadequate or infeasible, the Group Holding Company has received an irrevocable commitment of direct or indirect extraordinary support from the Public Sector (beyond customary transactions and arrangements in the ordinary course) that has, or imminently will have, the effect of improving the Group Holding Company's capital adequacy and without which, in the determination of (and as notified in writing by) FINMA, the Group Holding Company would have become insolvent, bankrupt, unable to pay a material part of its debts as they fall due or unable to carry on its business.

For the avoidance of doubt, it is understood that, a Viability Event may occur irrespective of whether or not a Trigger Event has occurred or whether any of the conditions to the issuance of a Trigger Event Write-down Notice have been met.

(d) *Contingent Write-down*

If the Issuer has given a Write-down Notice in accordance with this Condition 7, then on the relevant Write-down Date,

(i) the full principal amount of, and any accrued and unpaid interest (whether or not due and payable) on, each Note will automatically be written down to zero, the

Notes will be cancelled and all references to the principal amount of the Notes in these Terms and Conditions will be construed accordingly;

(ii) the Holders will be automatically deemed to have irrevocably waived their right to receive, and will no longer have any rights against the Issuer with respect to, repayment of the aggregate principal amount of, and payment of any accrued and unpaid interest on, the Notes written down pursuant to subclause (i) of this clause (d) (*bedingter Forderungsverzicht*); and

(iii) all rights of any Holder for payment of any amounts under or in respect of the Notes (including, without limitation, any amounts arising as a result of, or due and payable upon the occurrence of, an Event of Default) will become null and void, irrespective of whether such amounts have become due and payable prior to the relevant Write-down Notice Date or the Write-down Date.

(e) *Determination of CET1 Ratio and Trigger CET1 Ratio*

With respect to any Publication Date, (i) the CET1 Ratio as of the relevant Balance Sheet Date, (ii) the Trigger CET1 Ratio as of such Publication Date and (iii) the components of both of the foregoing, in each case, as published on such Publication Date, will be final for purposes of this Condition 7, and any revisions, restatements or adjustments to any of the calculations described in subclauses (i) through (iii) of this clause (e) subsequently published will have no effect for purposes of this Condition 7.

(f) *Alternative loss absorption*

In the event of the implementation of any new, or amendment to or change in the interpretation of any existing, laws or components of National Regulations, in each case occurring after the Issue Date, that alone or together with any other law(s) or regulation(s) has, in the joint determination of UBS Group AG and FINMA, the effect that clause (c) of this Condition 7 could cease to apply to the Notes without giving rise to a Regulatory Event, then the Issuer shall give notice to the Holders in accordance with Condition 13 (*Notices*) no later than five Business Days after such joint determination stating that such provisions will cease to apply from the date of such notice (the "**Alternative Loss Absorption Date**"), and from the date of such notice, such provisions will cease to apply to the Notes.

## 8. PAYMENTS; AGENTS

(a) All payments required to be made under the Notes will be made available in good time in freely disposable funds in USD, which will be placed at the free disposal of the Fiscal Agent on behalf of the Holders. If the Scheduled Due Date for any payment (whether in respect of principal, interest or otherwise) in respect of the Notes is not a Payment Business Day, then the Holders will not be entitled to payment thereof until the first Payment Business Day following the Scheduled Due Date, and the Holders will not be entitled to any additional sum in relation to such payment. All payments required to be made under the Notes (including, for the avoidance of doubt, any Additional Amounts) shall be made to the Holders in USD without collection costs, without any restrictions and whatever the circumstances may be, irrespective of nationality, domicile or residence of the relevant Holder and without certification, affidavit or the fulfilment of any other formality; *provided*, *however*, that, in the case of Notes represented by Definitive Certificates, such Definitive Certificates must be presented and, in the case of redemption, surrendered at the Specified Office of the relevant Paying Agent as a condition to receipt of any such payment.

(b) The receipt by the Fiscal Agent of the due and punctual payment of funds in USD will release the Issuer from its obligations under the Notes to the extent of such payment.

(c) Subject to clause (d) of this Condition 8:

(i) the Issuer reserves the right to terminate the appointment of any Agent, as well as to appoint or, after any such appointment, to terminate the appointment of, one or more other paying agents to carry out any payment, calculation or other functions in respect of the Notes (each, a "**Paying Agent**"), *provided* that (A) so long as any Note is outstanding, there will at all times be a Fiscal Agent, a Registrar and a Calculation Agent, (B) for so long as the Notes are listed on the SIX Swiss Exchange and if then required by the regulations of the SIX Swiss Exchange, theIssuer shall maintain a Paying Agent in Switzerland, which agent shall have an office in Switzerland and be a bank or securities dealer subject to supervision byFINMA, to perform the functions of a Swiss paying agent (the "**Swiss Paying Agent**"), and (C) any successor Calculation Agent must be a leading bank or financial institution that is experienced in the calculations and determinations to be made by the Calculation Agent; and

(ii) if at any time the Fiscal Agent, the Registrar, the Calculation Agent, or the Swiss Paying Agent, (A) becomes incapable of acting, or (B) is adjudged bankrupt or insolvent, or files a voluntary petition in bankruptcy, or makes an assignment for the benefit of its creditors, or consents to the appointment of a receiver of all or any substantial part of its property, or admits in writing its inability to pay or meet its debts as they mature, or if an order of any court is entered approving any petition filed by or against it under the provisions of any applicable bankruptcy or insolvency law, or if a receiver of it or of all or any substantial part of its property is appointed, or if any public officer takes charge or control of it or of its property or affairs for the purpose of rehabilitation, conservation or liquidation (any such event, an "**Agent Insolvency Event**"), then the Issuer will terminate the appointment of such Agent in accordance with the Fiscal Agency Agreement and appoint a successor Agent; and

(iii) if at any time the Calculation Agent fails to (A) duly calculate the Reset Interest Rate and the Reset Interest Amount for any Interest Period or the interest amount payable on the Redemption Date (if the Notes are to be redeemed pursuant to Condition 6 (*Redemption and Purchase*)) or (B) comply with any other requirement in relation to the Notes, then the Issuer will terminate the appointment of the Calculation Agent in accordance with the Fiscal Agency Agreement and appoint a successor Calculation Agent; *provided*, *however*, that, if the Calculation Agent duly calculates such Reset Interest Rate, Reset Interest Amount or interest amount payable on the Redemption Date, as the case may be, prior to its termination (and the appointment of its successor) taking effect in accordance with clause (d) of this Condition 8, the Issuer may elect, in its sole discretion and upon written notice to the Holders pursuant to Condition 13 (*Notices*), to cancel such termination (and appointment).

(d) Any appointment or termination of appointment of, or any resignation by, any Agent may only take effect not more than 45 and not less than 30 days after the Issuer has notified the Holders of such appointment, termination or resignation pursuant to Condition 13 (*Notices*); *provided*, *however*, that, in the case of the termination of an Agent with respect to which an Agent Insolvency Event has occurred, such termination may take effect prior the expiry of such 30-day notice period, so long as a successor Agent has been appointed to the extent required by the immediately succeeding sentence. Notwithstanding the foregoing, any termination of the appointment of, or resignation by, the Fiscal Agent, the Registrar, the Swiss Paying Agent, or the Calculation Agent may not take effect until the Issuer has appointed a successor Fiscal Agent, Registrar, Swiss Paying Agent or Calculation Agent, as applicable; *provided*, *however*, that, if no such successor has been appointed within 30 days of the scheduled effectiveness of such termination or resignation, any Holder (on behalf of itself and all others similarly situated) or, pursuant to and in accordance with the Fiscal Agency Agreement, the Fiscal Agent, the Registrar, any Paying Agent or the Calculation Agent, as the case may be, may petition any court of competent jurisdiction for the appointment of a successor, at the expense of the Issuer.

## 9. TAXATION

(a) All payments to be made by or on behalf of the Issuer in respect of the Notes (including, for the avoidance of doubt, payments by a Paying Agent) shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other government charges of any nature ("**Taxes**") imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction or any political subdivision thereof or any authority of or in a Tax Jurisdiction or any political subdivision thereof having the power to impose, levy, collect, withhold or assess Taxes, unless withholding, deduction or accounting for such Taxes is required by law.

(b) In the event that any payment to be made by or on behalf of the Issuer in respect of the Notes (including, for the avoidance of doubt, payments by a Paying Agent) is subject to any withholding or deduction for, or on account of, any Taxes by requirement of law in a Tax Jurisdiction (as determined by the relevant tax authority of or in such Tax Jurisdiction), the Issuer shall pay such additional amounts as will result in the Holders receiving the amounts that they would have received in respect of the Notes if no such withholding or deduction had been required ("**Additional Amounts**").

(c) No Additional Amounts will be payable pursuant to clause (b) of this Condition 9 in relation to any Note:

(i) if the relevant Holder is liable for such Taxes on such Note as a result of having some connection with the relevant Tax Jurisdiction other than its mere ownership or possession of such Note or the receipt of principal or interest in respect thereof; or

(ii) if such Taxes are a result of such Note having been presented for payment (where presentment is required) more than 30 days after the Relevant Date, except to the extent that the Holder would have been entitled to receive the Additional Amounts if it had presented such Note for payment on the last day of the 30-day period; or

(iii) with respect to any Tax collected pursuant to Sections 1471 through 1474 of the US Internal Revenue Code, as amended (the "**Code**"), the regulations promulgated thereunder, or applicable inter-governmental agreements or agreements with the United States Internal Revenue Service entered into in connection with the implementation of such sections of the Code, or legislation enacted by a non-United States jurisdiction in connection with the implementation of such sections of the Code (FATCA); or

(iv) where such withholding or deduction is required to be made pursuant to laws enacted by Switzerland providing for the taxation of payments according to principles similar to those laid down in the draft legislation of the Swiss Federal Council of 3 April 2020, or otherwise changing the Swiss federal withholding tax system from an issuer-based system to a paying agent-based system pursuant to which a Person other than the issuer is required to withhold tax on any interest payments; or

(v) to the extent any combination of subclauses (i) through (iv) of this clause (c) applies.

(d) Any reference in these Terms and Conditions to amounts payable by the Issuer in respect of the Notes includes (i) any Additional Amount payable pursuant to this Condition 9 and (ii) any sum payable pursuant to an obligation taken in addition to or in substitution for the obligation in this Condition 9.

## 10. STATUTE OF LIMITATIONS

In accordance with Swiss law, (a) claims for interest payments under the Notes will become time-barred after the five-year period and (b) claims for the repayment or redemption of Notes will become time-barred after the ten-year period, in each case, commencing on the date on which such payments, repayment or redemption become due and payable.

## 11. EVENTS OF DEFAULT

(a) If any of the following events occurs, such occurrence will constitute an "**Event of Default**":

(i) the Issuer fails to pay the principal amount of any Note if and when the same becomes due and payable under these Terms and Conditions, and such failure continues unremedied for a period of 30 days; or

(ii) the Issuer fails to pay any interest on the Notes if and when the same becomes due and payable under these Terms and Conditions, and such failure continues unremedied for a period of 30 days; or

(iii) the Issuer fails to observe or perform any other covenant, condition, or agreement contained in these Terms and Conditions, and such failure continues unremedied for a period of 60 days after written notice thereof from any Holder to the Issuer; or

(iv) a Bankruptcy Event.

(b) Upon the occurrence of an Event of Default relating to any failure of the Issuer to meet any payment obligation under these Terms and Conditions and subject to Condition 7 (*Contingent Write-down*), (i) such payment obligation (and such payment obligation only) will be immediately deemed a due and payable (*fällige*) payment obligation of the Issuer, and (ii) if (A) the relevant Holder has formally requested payment of such payment obligation, (B) such payment obligation has not been fulfilled within the statutory period under Swiss law commencing after the date of such formal request and (C) a writ of payment (*Zahlungsbefehl*) has been issued with respect to such payment obligation pursuant to the DEBA, the relevant Holder may institute proceedings against the Issuer in Switzerland (but not elsewhere) to enforce its rights with respect to such payment obligation under the DEBA.

(c) If a debt collection or insolvency proceeding with respect to the Issuer is instituted in Switzerland in accordance with clause (b) of this Condition 11, the Issuer shall not (i) after having received the writ of payment (*Zahlungsbefehl*) relating to the relevant payment obligation, argue or plead that such payment obligation is not due and payable by the Issuer, or (ii) prior to the declaration of bankruptcy (or similar proceeding under Swiss insolvency laws), make any payment to the relevant Holder under or in connection with the Notes.

(d) In the case of any Event of Default arising under subclause (a)(iii) of this Condition 11 and subject to Condition 7 (*Contingent Write-down*), any Holder may seek specific performance or damages with respect to such Event of Default pursuant to the Swiss Code if so entitled thereunder. Any such damage claim of any Holder will rank junior to the rights and claims of all holders of Senior Obligations.

(e) In the case of any Event of Default arising under subclause (a)(iv) of this Condition 11 and subject to Condition 7 (*Contingent Write-down*), any Holder may, by written notice to the Issuer, declare the principal amount of any of its Notes, together with any accrued and unpaid interest thereon, immediately due and payable, without presentment, demand, protest or other notice of any kind.

(f) No remedy against the Issuer other than those described in this Condition 11 will be available to the Holders in connection with the Issuer's obligations under these Terms and Conditions, whether for the recovery of amounts owing under these Terms and Conditions or in respect of any breach by the Issuer of any of its other obligations under these Terms and Conditions or otherwise. In particular, no Holder may declare (i) the principal amount of any Notes due and payable prior to any Redemption Date, or (ii) any interest on any Notes due and payable prior to the relevant Interest Payment Date, except, in the case of each of subclauses (i) and (ii) of this clause (f), pursuant to clause (e) of this Condition 11.

12. **SUBSTITUTION AND AMENDMENT**

(a) If a Tax Event, a Regulatory Event or an Alignment Event has occurred, the Issuer may, without the consent of the Holders unless so required by mandatory provisions of Swiss law, either substitute all, but not some only, of the Notes for, or amend these Terms and Conditions so that they remain or become, Compliant Securities, *provided* that:

(i) neither a Tax Event nor a Regulatory Event arises as a result of such substitution or amendment;

(ii) FINMA has approved such substitution or amendment (if such approval is then required under applicable Swiss laws and regulations);

(iii) the Issuer has given the Holders not less than 30 days' notice of such substitution or amendment in accordance with Condition 13 (*Notices*), which notice (the "**Substitution or Amendment Notice**") will, subject to subclause (a)(iv) of this Condition 12, be irrevocable, and state the date on which such substitution or amendment will be effective (the "**Substitution or Amendment Effective Date**");

(iv) prior to the publication of any notice pursuant to subclause (a)(iii) of this Condition 12, the Issuer shall deliver to the Fiscal Agent (A) a certificate signed by two Authorised Signatories stating that the relevant requirement or circumstance giving rise to the right to substitute or amend the terms of the Notes, as applicable, pursuant to this clause (a) of this Condition 12 is satisfied and the reasons therefor and such certificate will be conclusive and binding on the Holders, and (B) an opinion of independent legal advisers of recognised standing to the effect that circumstances entitling the Issuer to exercise its right to substitute or amend the terms of the Notes, as applicable, pursuant to this clause (a) of this Condition 12 have arisen; and

(v) no Trigger Event or Viability Event has occurred prior to the relevant Effective Date.

In connection with any substitution or amendment in accordance with this clause (a) of this Condition 12, the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

An "**Alignment Event**" will have occurred if, as a result of any change in National Regulations at any time after the Issue Date, any Relevant Swiss Issuer would be permitted to issue or guarantee (including, without limitation, by providing a guarantee, credit support agreement or similar undertaking), or has issued or guaranteed (including, without limitation, by providing a guarantee, credit support agreement or similar undertaking), a capital instrument that (i) is eligible in full to be (A) treated as Additional Tier 1 Capital and (B) counted towards either the Going-Concern LR Requirement or the Going-Concern RWA Requirement (or both), and (ii) has terms and conditions that (A) include a write-down feature, and (B) contain one or more provisions that are, in the reasonable opinion of UBS Group AG, different in any material respect from those in these Terms and Conditions, which provisions, if they had been included in these Terms and Conditions, would have prevented the Notes from being eligible in full to be treated as Additional Tier 1 Capital and/or to be counted towards either the Going-Concern LR Requirement or the Going-Concern RWA Requirement (or both) immediately prior to such change in National Regulations.

(b) In addition to its rights under clause (a) of this Condition 12, the Issuer may, without the consent of the Holders unless so required by mandatory provisions of Swiss law, make any amendment to these Terms and Conditions that it considers to be (i) necessary or desirable to give effect to the provisions of clause (a) of Condition 14 (*Issuer Substitution*) (including, without limitation, (x) if the Substitute Issuer is organised and/or resident for tax purposes in a jurisdiction other than Switzerland, any amendments to any references to the jurisdiction of "Switzerland" contained herein, including, without limitation, amendments to the definition of the term "Bankruptcy Event", the definition of the term "Business Day", the governing law of the subordination provisions set forth in Condition 4 (*Status and Subordination*) and the provisions of Condition 11 (*Events of Default*), and (y) any amendments to reflect UBS Group AG's guarantee described in subclause (a)(iii) of Condition 14 (*Issuer Substitution*)), or (ii) formal, minor or technical in nature, or (iii) necessary to correct a manifest error, or (iv) not materially prejudicial to the interests of the Holders.

(c) The Issuer shall notify the Holders of any amendments made pursuant to clause (b) of this Condition 12 in accordance with Condition 13 (*Notices*), which notice shall state the date on which such amendment will be effective.

(d) Any amendment made pursuant to this Condition 12 will be binding on the Holders in accordance with its terms.

13. **NOTICES**

(a) So long as the Notes are listed on the SIX Swiss Exchange, notices to Holders shall be given by the Issuer (i) by means of electronic publication on the internet website of the SIX Swiss Exchange (https://www.six-group.com/exchanges/index_en.html), where notices are as at the Issue Date published under the address https://www.six-group.com/en/products-services/the-swiss-stock-exchange/market-data/news-tools/official-notices.html#/, or (ii) otherwise in accordance with the regulations of the SIX Swiss Exchange. Any notice will be validly given on the date of such publication or, if published more than once, on the date of the first such publication.

(b) If the Notes are for any reason no longer listed on the SIX Swiss Exchange:

(i) if the Notes are represented by one or more Global Certificates deposited with a custodian for DTC, notices to Holders shall only be required to be given by the Issuer in accordance with clause (c) of this Condition 13; or

(ii) if the Global Certificate(s) have been exchanged for Definitive Certificates, the Issuer shall send notices to Holders by first class mail at their respective addresses as recorded in the Register, and any such notice will be validly given on the fourth Business Day after the date of such mailing.

(c) So long as the Notes are represented by one or more Global Certificates deposited with a custodian for DTC, any notices required to be given by the Issuer to the Holders hereunder shall also be given to the Indirect Holders through the Fiscal Agent to DTC for forwarding to the Indirect Holders. Any such notice will be validly given on the date of delivery to DTC in accordance with DTC's applicable procedures.

14. **ISSUER SUBSTITUTION**

(a) The Issuer (for purposes of this Condition 14, the "**Current Issuer**") may, without the consent of the Holders, substitute any entity (whether or not such entity is organised under the laws of Switzerland) (such substitute entity, the "**Substitute Issuer**") for itself as principal debtor under the Notes upon giving no more than 30 and no less than 10 days' notice to the Holders in accordance with Condition 13 (*Notices*), *provided* that:

(i) the Substitute Issuer is UBS Group AG or, if the Substitute Issuer is not UBS Group AG, (A) an exemption exists from the requirement to register the Substitute Issuer as an investment company under the US Investment Company Act, and (B) at least 95 per cent. of the Substitute Issuer's capital and voting rights are held, directly or indirectly, by UBS Group AG;

(ii) the Current Issuer is not in default in respect of any amount payable under the Notes at the time of such substitution;

(iii) if the Substitute Issuer is not UBS Group AG, UBS Group AG has irrevocably and unconditionally guaranteed to the Holders, pursuant to article 111 of the

Swiss Code and on a subordinated basis corresponding *mutatis mutandis* to Condition 4 (*Status and Subordination*), the due and punctual payment of principal and interest and all other amounts due and payable by the Substitute Issuer under, or in respect of, the Notes upon receipt of the written request for payment of the relevant amount, and on the terms whereby subclause (iii) of Condition 5(h) (*Cancellation of interest; prohibited interest*), Condition 9 (*Taxation*), Condition 11 (*Events of Default*) and Condition 19 (*No Set-off by Holders*) apply to UBS Group AG and to its obligations under such guarantee either by making the necessary consequential amendments to such Conditions or including such Conditions applicable to UBS Group AG and to its obligations under such guarantee in such guarantee itself, as applicable;

(iv) the Current Issuer and the Substitute Issuer (1) have entered into such documents (the "**Substitution Documents**") as are necessary to give effect to such substitution and pursuant to which the Substitute Issuer has (x) undertaken in favour of each Holder to be bound by these Terms and Conditions as the principal debtor (on a subordinated basis corresponding to Condition 4 (*Status and Subordination*)) under the Notes in place of the Current Issuer and (y) assumed the obligations of the Current Issuer under the Fiscal Agency Agreement, and (2) procure that all action, conditions and things required to be taken, fulfilled and done (including, without limitation, the obtaining of any necessary consents) to ensure that the Substitution Documents represent valid, legally binding and enforceable obligations of the Substitute Issuer have been taken, fulfilled and done and are in full force and effect;

(v) if the Substitute Issuer is resident for tax purposes in a jurisdiction (the "**New Residence**") other than that in which the Current Issuer prior to such substitution was resident for tax purposes (the "**Former Residence**"), the Substitution Documents contain an undertaking by the Substitute Issuer and/or such other provisions as may be necessary to ensure that each Holder has the benefit of an undertaking in terms corresponding to the provisions of Condition 9 (*Taxation*) in relation to the payment of all amounts due and payable under, or in respect of, the Notes and in relation to the guarantee referred to in clause (iii) above, with, in the case of the Notes but not such guarantee, the substitution of references to the Former Residence with references to the New Residence, and an undertaking by the Substitute Issuer to indemnify each Holder against any Tax that is imposed on it by (or by any authority in or of) the New Residence and, if different, the jurisdiction of the Substitute Issuer's organisation with respect to any Note and that would not have been so imposed had the substitution not been made, as well as against any Tax, and any cost or expense, relating to such substitution;

(vi) if the Substitute Issuer is not UBS Group AG, FINMA has approved such substitution (if such approval is then required under applicable Swiss laws and regulations), and the Current Issuer and the Substitute Issuer have obtained all other necessary governmental and other approvals and consents for such substitution and for the performance by the Substitute Issuer of its obligations under the Substitution Documents;

(vii) if the Substitute Issuer is not organised under the laws of Switzerland, the Substitute Issuer has appointed a process agent as its agent in Switzerland to receive service of process on its behalf in relation to any legal proceedings arising out of or in connection with the Notes; and

(viii) such substitution does not give rise to a Tax Event or a Regulatory Event.

(b) Upon any substitution pursuant to clause (a) of this Condition 14, (i) the Substitute Issuerwill succeed to, and be substituted for, and may exercise every right and power of, the Current Issuer under the Notes with the same effect as if the Substitute Issuer had been named as Issuer in these Terms and Conditions, and (ii) the Current Issuer will be releasedfrom its obligations under the Notes.

(c) After giving effect to any substitution pursuant to clause (a) of this Condition 14, (i) references to the "Issuer" in the Notes and these Terms and Conditions will be references to the Substitute Issuer, and (ii) references to the "Tax Jurisdiction" in the Notes and these Terms and Conditions will be read and construed as including the jurisdiction of establishment of the Substitute Issuer and, if different, the jurisdiction in which the Substitute Issuer is resident for tax purposes instead of or in addition to (as the case may be) references to the jurisdiction of establishment of the Issuer and Switzerland.

## 15. CONSOLIDATION, MERGER OR SALE

The Issuer will not consolidate with, merge with or into, or sell, convey, transfer or otherwise dispose of all or substantially all of its property and assets (as an entirety or substantially as an entirety in one transaction or a series of related transactions) to, any Person (other than with, into or to any Person of which at least 95 per cent. of such Person's capital and voting rights are held, directly or indirectly, by the Issuer) or permit any Person to merge with or into the Issuer unless (a) the Issuer will be the continuing Person, or (b) the Person formed by such consolidation or into which the Issuer is merged or that acquired such property and assets of the Issuer expressly assumes in writing (or, in the case of an acquisition of property and assets, guarantees) all of the obligations of the Issuer under the Notes.

## 16. FURTHER ISSUES

The Issuer may from time to time without the consent of the Holders issue further notes and, *provided* that such notes have the same terms and conditions as the Notes in all respects (or in all respects except for the issue date and/or first date on which interest is paid), such further notes will be consolidated and form a single series with the Notes. If the Issuer issues any such further notes pursuant to this Condition 16, references in these Terms and Conditions to "**Notes**" include such further notes, unless the context otherwise requires.

## 17. CURRENCY INDEMNITY

Any amount received or recovered by any Holder in a currency other than USD (whether as a result of, or of the enforcement of, a judgment or order of a court of any jurisdiction, in the insolvency, winding-up or dissolution of the Issuer or otherwise) under the Notes will only constitute a discharge of the Issuer to the extent of the amount in USD that such Holder is able to purchase with the amount so received or recovered in such other currency on the date of such receipt or recovery (or, if it is not practicable to purchase USD with such amount on such date, on the first date on which it is practicable to do so). If the amount of USD that such Holder is able to purchase is less than the amount owed by the Issuer to such Holder under the Notes, the Issuer shall indemnify such Holder against any loss sustained by it as a result. In addition, the Issuer shall indemnify such Holder for the costs of making such purchase. For purposes of this Condition 17, it is sufficient for the relevant Holder to demonstrate that it would have suffered a loss had an actual purchase been made. The indemnities under this Condition 17 will (a) constitute a separate and independent obligation from the Issuer's other obligations hereunder, (b) give rise to a separate and independent cause of action, (c) apply irrespective of any indulgence granted by any Holder and (d) continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any amount due under the Notes or any other judgment or order.

## 18. RULE 144A INFORMATION

If at any time the Issuer is neither a reporting company under Section 13 or Section 15(d) of the US Exchange Act, nor exempt from reporting pursuant to Rule 12g3-2(b) under the US ExchangeAct, the Issuer will comply with any applicable requirements of Rule 144A(d)(4) under the US Securities Act in relation to the Notes.

## 19. NO SET-OFF BY HOLDERS

Subject to applicable law, each Holder and Indirect Holder, by acceptance of any direct or beneficial interest in a Note, agrees that it will not, and waives its right to, exercise, claim or plead any right of set-off, compensation or retention with respect to any amount owed to it by the Issuer in respect of, or arising in connection with, the Notes.

20. **NO CONVERSION**

Notwithstanding the powers of FINMA under articles 25 *et seq.* of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG, the Notes shall under no circumstances be converted into equity of the Issuer, and shall only absorb losses pursuant to these Terms and Conditions.

21. **GOVERNING LAW AND JURISDICTION**

(a) The Notes shall be governed by and construed in accordance with the laws of Switzerland.

(b) The courts of the Canton of Zurich (venue being the City of Zurich) shall have exclusive jurisdiction to settle any disputes that may arise out of or in connection with the Notes.

Exhibit 4.19

## High-trigger loss-absorbing additional tier 1 capital instrument

| | |
|---|---|
| **Issuer** | UBS Group AG |
| **ISIN** | US902613AJ70 (144A) / USH42097CS44 (Reg S) |
| **Issue Date** | 12.01.2022 |
| **Currency** | USD |
| **Nominal (million)** | 1,500 |
| **Interest Rate** | 4.875% [1] |
| **Maturity Date** | perpetual |
| **First Call Date** | 12.02.2027 |

[1] Rate subject to change after first call date.

## TERMS AND CONDITIONS OF THE NOTES

The terms and conditions of the Tier 1 Capital Notes issued by UBS Group AG are as follows:

### 1. DEFINITIONS

"**Additional Amounts**" has the meaning assigned to such term in clause (b) of Condition 9 (*Taxation*).

"**Additional Tier 1 Capital**" means, at any time, any item that qualifies as additional tier 1 capital (*zusätzliches Kernkapital*) under National Regulations at such time.

"**Agent Insolvency Event**" has the meaning assigned to such term in subclause (c)(ii) of Condition 8 (*Payments; Agents*).

"**Agents**" means the Fiscal Agent, the Registrar, the Calculation Agent, the Swiss Paying Agent and any other agent from time to time appointed pursuant to the terms of the Fiscal Agency Agreement.

"**Alignment Event**" has the meaning assigned to such term in clause (a) of Condition 12 (*Substitution and Amendment*).

"**Alternative Loss Absorption Date**" has the meaning assigned to such term in clause (f) of Condition 7 (*Contingent Write-down*).

"**Auditor**" means the accounting firm (i) appointed by the Board of Directors of the Group Holding Company or the shareholders of the Group Holding Company, as the case may be, to provide, among other things, audit and/or review opinions on the Group Holding Company's financial statements, and (ii) approved by FINMA in accordance with the Financial Market Supervisory Act (*Finanzmarktaufsichtsgesetz*) of 22 June 2007, as amended from time to time.

"**Authorised Signatories**" means any two authorised officers of the Issuer signing jointly.

"**Balance Sheet Date**" means (i) with respect to any Ordinary Publication Date, the cut-off date for the measurement of the CET1 Ratio in the Quarterly Financial Accounts published on such Ordinary Publication Date, and (ii) with respect to any Extraordinary Publication Date, the cut-off date for the Reviewed Interim Measurement published upon the instruction of FINMA on such Extraordinary Publication Date.

"**Bankruptcy Event**" means any of the following events with respect to the Issuer: (i) the adjudication of bankruptcy (*Konkurseröffnung*) pursuant to articles 171, 189, 190, 191 or 192 of the DEBA, including, without limitation, in connection with article 725a of the Swiss Code, (ii) the granting of a provisional or definitive stay of execution (*provisorische oder definitive Nachlassstundung*) pursuant to article 293 et seq. of the DEBA, (iii) the ordering of restructuring proceedings (*Sanierungsverfahren*) pursuant to articles 28 to 32 of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG, and/or (iv) the ordering of liquidation proceedings (*Liquidation*) pursuant to articles 33 to 37g of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG; *provided*, *however*, that none of the following will constitute a Bankruptcy Event: (x) mere debt collection proceedings (*Betreibungsverfahren*) pursuant to article 38 *et seq.* of the DEBA, (y) proceedings in connection with a freezing order (*Arrestverfahren*) pursuant to article 271 *et seq.* of the DEBA, and/or (z) the institution of protective measures (*Schutzmassnahmen*) pursuant to article 26 of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG, including, in the case of each of subclauses (x), (y) and (z), any steps (other thanany steps described in clauses (i) through (iv) of this definition) taken under or in connection therewith.

"**BIS Regulations**" means, at any time, the capital adequacy standards and guidelines promulgated by the Basel Committee on Banking Supervision, as implemented by FINMA in Switzerland at such time.

"**BIS Risk Weighted Assets**" means, as of any Balance Sheet Date, the aggregate amount, in the Presentation Currency, of risk-weighted assets of the Group as of such Balance Sheet Date, as determined by the Group Holding Company pursuant to the BIS Regulations applicable to the Group Holding Company as of such Balance Sheet Date, and as (i) disclosed in the Quarterly Financial Accounts published on the relevant Ordinary Publication Date or (ii) may be disclosed as a component of the Reviewed Interim Measurement published upon the instruction of FINMA on the relevant Extraordinary Publication Date, as applicable. For the avoidance doubt, the term "**risk-weighted assets**" as used in this definition has the meaning assigned to such term in the BIS Regulations in effect as of the relevant Balance Sheet Date.

"**Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including, without limitation, dealing in foreign exchange and foreign currency deposits) in London, New York City and Zurich.

"**Calculation Agent**" means UBS AG, in its capacity as calculation agent for the Notes, and includes any successor calculation agent for the Notes appointed in accordance with the terms of the Fiscal Agency Agreement.

"**Calculation Amount**" means USD 1,000.

"**Capital Adequacy Ordinance**" means the Ordinance concerning Capital Adequacy and Risk Diversification for Banks and Securities Firms of 1 June 2012, as amended from time to time, or any successor Swiss law or regulation.

"**Certificate**" means a Global Certificate and/or a Definitive Certificate, as the case may be.

"**CET1 Capital**" means, as of any Balance Sheet Date, the aggregate amount, in the Presentation Currency, of items that constitute common equity tier 1 capital of the Group as of such Balance Sheet Date, less any deductions from common equity tier 1 capital required to be made, in each case as determined by the Group Holding Company pursuant to the BIS Regulations applicable to the Group Holding Company as of such Balance Sheet Date, and as (i) disclosed in the Quarterly Financial Accounts published on the relevant Ordinary Publication Date or (ii) may be disclosed as a component of the Reviewed Interim Measurement published upon the instruction of FINMA on the relevant Extraordinary Publication Date, as applicable. For the avoidance of doubt, the term "**common equity tier 1 capital**" as used in this definition has the meaning assigned to such term in the BIS Regulations in effect as of the relevant Balance Sheet Date.

"**CET1 Ratio**" means, as of any Balance Sheet Date, the CET1 Capital as of such Balance Sheet Date, divided by the BIS Risk Weighted Assets as of such Balance Sheet Date, expressed as a percentage, such ratio (or the components thereof) as determined by the Group Holding Company, and (i) as disclosed in the Quarterly Financial Accounts published on the relevant Ordinary Publication Date or (ii) constituting (or as disclosed in) the Reviewed Interim Measurement published upon the instruction of FINMA on the relevant Extraordinary Publication Date, as applicable.

"**Clearstream, Luxembourg**" means Clearstream Banking S.A.

"**Code**" has the meaning assigned to such term in clause (c) of Condition 9 (*Taxation*).

"**Compliant Securities**" means securities issued by UBS Group AG or any of its subsidiaries that have economic terms not materially less favourable to a Holder than these Terms and Conditions (as reasonably determined by the Issuer), *provided* that:

(a) such securities (A) include terms that provide for the same interest rate and principal from time to time applying to the Notes, (B) rank *pari passu* with the Notes and (C) preserve any existing rights under these Terms and Conditions to any accrued and unpaid interest that has not been satisfied;

(b) where such securities are issued by a subsidiary of UBS Group AG, UBS Group AG has irrevocably and unconditionally guaranteed to the holders of such securities, on a subordinated basis corresponding *mutatis mutandis* to Condition 4 (*Status and*

*Subordination*), the due and punctual payment of all amounts due and payable by such subsidiary under, or in respect of, such securities pursuant to article 111 of the Swiss Code;

(c) where the Notes that have been substituted or amended were listed immediately prior to their substitution or amendment, such securities are listed on (A) the SIX Swiss Exchange or (B) such other internationally recognised stock exchange selected by the Issuer; and

(d) where the Notes that have been substituted or amended were rated by a rating agency immediately prior to such substitution or amendment, each such rating agency has ascribed, or announced its intention to ascribe and publish, an equal or higher rating to such securities.

"**Contingent Write-down**" means the events described in subclauses (i) through (iii) of clause (d) of Condition 7 (*Contingent Write-down*).

"**Day Count Fraction**" means, in respect of any period (the "**Calculation Period**"), the number of days in the Calculation Period divided by 360 calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360x(Y_2 - Y_1)] + [30x(M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

"**$Y_1$**" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"**$Y_2$**" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"**$M_1$**" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"**$M_2$**" is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

"**$D_1$**" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case $D_1$ will be 30; and

"**$D_2$**" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and $D_1$ is greater than 29, in which case $D_2$ will be 30.

"**DEBA**" means the Swiss Federal Debt Enforcement and Bankruptcy Act of 11 April 1889, as amended from time to time.

"**Definitive Certificate**" has the meaning assigned to such term in subclause (c)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Depositary**" means DTC or any other Relevant Clearing System outside of Switzerland designated as Depositary by the Issuer; *provided*, *however*, that, irrespective of the number of Regulation S Global Certificates and/or Rule 144A Global Certificates, as the case may be, outstanding, there will be no more than one Depositary for the Notes at any time.

"**Distributable Items**" means, in respect of an Interest Payment Date, the aggregate of (i) net profits carried forward and (ii) freely distributable reserves, in each case, less any amounts that must be contributed to legal reserves under applicable law, all in UBS Group AG's reporting currency and as appearing in the Relevant Accounts.

"**Distribution Compliance Period**" means the 40-day period commencing on (and including) the later of (i) the day on which the Notes are first offered to Persons other than distributors (as defined in Regulation S under the US Securities Act), and (ii) the day on which the closing of the offering of the Notes occurs.

"**DTC**" means The Depository Trust Company.

"**Euroclear**" means Euroclear Bank SA/NV.

"**Event of Default**" has the meaning assigned to such term in clause (a) of Condition 11 (*Events of Default*).

"**Extraordinary Publication Date**" means the Business Day on which a Reviewed Interim Measurement is published upon the instruction of FINMA, after FINMA has determined that the conditions for issuing a Trigger Event Write-down Notice in accordance with Condition 7 (*Contingent Write-down*) have been met.

"**Extraordinary Trigger Event Notice Date**" has the meaning assigned to such term in subclause (b)(i) of Condition 7 (*Contingent Write-down*).

"**FBA**" means the Swiss Federal Act on Banks and Savings Institutions of 8 November 1934, as amended from time to time.

"**FINMA**" means the Swiss Financial Market Supervisory Authority FINMA and any successor thereto.

"**First Call Date**" means 12 February 2027.

"**Fiscal Agency Agreement**" means the fiscal agency agreement dated as of 10 February 2021 among the Issuer, the Fiscal Agent, the Registrar, the Calculation Agent, the Swiss Paying Agent and the other Agents from time to time party thereto, as may be amended, supplemented or otherwise modified from time to time.

"**Fiscal Agent**" means Deutsche Bank Trust Company Americas, in its capacity as fiscal agent for the Notes, and includes any successor fiscal agent for the Notes appointed in accordance with the terms of the Fiscal Agency Agreement.

"**Fixed Interest Rate**" means 4.875 per cent. per annum.

"**Former Residence**" has the meaning assigned to such term in subclause (a)(v) of Condition 14 (*Issuer Substitution*).

"**Global Certificate**" means a Regulation S Global Certificate and/or Rule 144A Global Certificate, as the case may be.

"**Going-Concern LR Requirement**" means a requirement under National Regulations for systemically relevant banks (*systemrelevante Banken*) to hold a minimum amount of going-concern capital (*Eigenmittel zur ordentlichen Weiterführung der Bank*), which amount is set by reference to the leverage ratio (*Höchstverschuldungsquote*) of such bank.

"**Going-Concern RWA Requirement**" means a requirement under National Regulations for systemically relevant banks (*systemrelevante Banken*) to hold a minimum amount of going-concern capital (*Eigenmittel zur ordentlichen Weiterführung der Bank*), which amount is set by reference to the risk weighted assets (*risikogewichtete Positionen*) of such bank.

"**Group**" means, at any time, the Group Holding Company and all its subsidiaries and other entities that are included in the Group Holding Company's consolidated capital adequacy reports prepared pursuant to National Regulations.

"**Group Holding Company**" means, at any time, the top Swiss holding company at such time of the financial group to which UBS Group AG belongs for purposes of preparing consolidated capital adequacy reports pursuant to National Regulations. As at the Issue Date, the Group Holding Company is UBS Group AG.

"**Higher-Trigger Amount**" means, as of any Publication Date, the sum of (i) the maximum portion of the aggregate principal amount, in the Presentation Currency of the Quarterly Financial Accounts or Reviewed Interim Measurement, as the case may be, to which such Publication Date relates, of all Higher-Trigger Contingent Capital, if any, outstanding on the relevant Balance Sheet Date that could be converted into equity and/or fully or partially written down, or otherwise operate to increase the CET1 Capital, if a Higher-Trigger Write-down/Conversion Notice were delivered in accordance with the terms thereof, and (ii) the maximum portion of the aggregate principal amount, in the Presentation Currency of the Quarterly Financial Accounts or Reviewed Interim Measurement, as the case may be, to which such Publication Date relates, of all Higher-Trigger Contingent Capital, if any, issued after the relevant Balance Sheet Date, but prior to such Publication Date, that could be converted into equity and/or fully or partially written down, or otherwise operate to increase the CET1 Capital, if a Higher-Trigger Write-down/Conversion Notice were delivered in accordance with the terms thereof, in the case of each of clauses (i) and (ii), as determined by UBS Group AG. For purposes of clause (ii) of this definition and, in the case of an Extraordinary Publication Date, clause (i) of this definition, the aggregate principal amount of any Higher-Trigger Contingent Capital that is not denominated in the Presentation Currency will be converted into the Presentation Currency at the applicable prevailing exchange rate on the last Business Day preceding the relevant Publication Date, as determined by UBS Group AG. In the case of an Ordinary Publication Date, for purposes of clause (i) of this definition, the aggregate principal amount of any Higher-Trigger Contingent Capital that is not denominated in the Presentation Currency will be converted into the Presentation Currency at the applicable exchange rate used for such purposes in the relevant Quarterly Financial Accounts.

"**Higher-Trigger Contingent Capital**" means any instrument issued by, or any other obligation of, any member of the Group that (i) is issued or owed to holders that are not members of the Group and (ii) is required pursuant to its terms to be converted into equity and/or fully or partially written down, or otherwise operating to increase the CET1 Capital, when the CET1 Ratio (or equivalent capital measure of the Group described in the terms and conditions thereof) falls below a threshold that is higher than the Write-down Threshold (with respect to the relevant Higher-Trigger Contingent Capital, its "**Higher-Trigger Threshold**").

"**Higher-Trigger Threshold**" has the meaning assigned to such term in the definition of the term "Higher-Trigger Contingent Capital".

"**Higher-Trigger Write-down/Conversion Date**" has the meaning assigned to such term in the definition of the term "Higher-Trigger Write-down/Conversion Notice".

"**Higher-Trigger Write-down/Conversion Notice**" means a notice delivered pursuant to the terms of any Higher-Trigger Contingent Capital that notifies the holders thereof that the CET1 Ratio (or similar measure or other event described in the terms and conditions of such Higher-Trigger Contingent Capital) has fallen below its Higher-Trigger Threshold and, consequently, that such Higher-Trigger Contingent Capital will be converted into equity and/or fully or partially written down, or otherwise operate to increase the CET1 Capital, as applicable, as of a particular date (such date, the "**Higher-Trigger Write-down/Conversion Date**"). For the avoidance of doubt, if the terms and conditions of such Higher-Trigger Contingent Capital permit FINMA to waive the conversion into equity and/or write-down of such Higher-Trigger Contingent Capital notwithstanding the fact that the CET1 Ratio (or similar measure or other event described in the terms and conditions of such Higher-Trigger Contingent Capital) has fallen below the Higher-Trigger Threshold, the non-issuance of such a waiver by FINMA between the relevant Publication Date and the Trigger Event Notice Date shall be deemed equivalent to the delivery of a Higher-Trigger Write-down/Conversion Notice for purposes of subclause (b)(ii) of Condition 7 (*Contingent Write-down*).

"**Holder**" means, with respect to any Note, the Person in whose name the Certificate representing such Note is registered in the Register. For the avoidance of doubt, with respect to Notes represented by a Global Certificate, no Indirect Holder or other Person will be a Holder for purposes of these Terms and Conditions or such Notes or have any rights, or be owed any obligations by the Issuer, under such Notes.

"**Indirect Holder**" means, with respect to any Note represented by a Global Certificate, any Person (other than the Holder) that owns a beneficial interest in such Notes through a bank, broker or other financial institution that (i) participates in the book-entry system of DTC, Euroclear, Clearstream, Luxembourg and/or any other clearing system (each, a "**Relevant Clearing System**"), or (ii) holds an interest in such Note through a participant in the book-entry system of any Relevant Clearing System. No Indirect Holder will have any rights, or be owed any obligations by the Issuer, under the Notes.

"**Interest Payment Date**" has the meaning assigned to such term in subclause (a)(ii) of Condition 5 (*Interest*).

"**Interest Period**" means each period beginning on (and including) an Interest Payment Date (or, in the case of the first Interest Period, the Issue Date) and ending on (but excluding) the next Interest Payment Date.

"**Interest Rate**" means the Fixed Interest Rate and/or Reset Interest Rate, as the case may be.

"**Issue Date**" means 12 January 2022.

"**Issuer**" means UBS Group AG in its capacity as issuer of the Notes.

"**Junior Obligations**" means (i) all classes of share capital and participation securities (if any) of the Issuer and (ii) all other obligations of the Issuer that rank, or are expressed to rank, junior to claims in respect of the Notes and/or any Parity Obligation.

"**Margin**" means 3.404 per cent. per annum.

"**National Regulations**" means, at any time, (i) the Swiss national banking and capital adequacy laws, and (ii) the capital adequacy regulations promulgated by the Swiss Federal Council (*Bundesrat*) or FINMA and the interpretation thereof by FINMA or any other competent Swiss authority, in the case of each of clauses (i) and (ii), directly applicable to UBS Group AG (and/or, if different, the Group Holding Company) and/or the Group at such time.

"**New Residence**" has the meaning assigned to such term in subclause (a)(i)(E) of Condition 14 (*Issuer Substitution*).

"**Notes**" means the USD 1,500,000,000 4.875 per cent. Tier 1 Capital Notes issued by the Issuer on the Issue Date.

"**Ordinary Publication Date**" means each Business Day on which Quarterly Financial Accounts are published.

"**Ordinary Shares**" means the registered ordinary shares of UBS Group AG.

"**Ordinary Trigger Event Notice Date**" has the meaning assigned to such term in subclause (b)(i) of Condition 7 (*Contingent Write-down*).

"**Parity Obligations**" means (i) all obligations of the Issuer in respect of Tier 1 Instruments (excluding any such obligations that rank, or are expressed to rank, junior to claims in respect of the Notes), and (ii) any other securities or obligations (including, without limitation, any guarantee, credit support agreement or similar undertaking) of the Issuer that rank, or are expressed to rank, *pari passu* with claims in respect of the Notes and/or any Parity Obligation.

"**Paying Agent**" has the meaning assigned to such term in subclause (c)(i) of Condition 8 (*Payments; Agents*).

"**Payment Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including, without limitation, dealing in foreign exchange and foreign currency deposits) in London and New York City.

"**Permitted Transactions**" means:

(a) repurchases, redemptions or other acquisitions of any Ordinary Shares in connection with(x) any employment contract, benefit plan or similar arrangement with, or for the benefit of, any employees, officers, directors or consultants of any member of the Group, (y) a dividend reinvestment or shareholder share purchase plan or (z) the issuance of any Ordinary Shares (or securities convertible into, or exercisable for, Ordinary Shares) as consideration for an acquisition consummated by any member of the Group;

(b) market-making in Ordinary Shares as part of the securities business of any member of the Group;

(c) purchases of fractional interests in any Ordinary Shares pursuant to the conversion or exchange provisions of (x) such Ordinary Shares or (y) any security convertible into, or exercisable for, Ordinary Shares;

(d) redemptions or repurchases of Ordinary Shares pursuant to any shareholders' rights plan; and

(e) distributions in cash or in kind on, or repurchases, redemptions or other acquisitions of, any Ordinary Shares as a part of any solvent reorganisation, reconstruction, amalgamation or merger of any member of the Group, so long as such member (or the successor entity resulting from such reorganisation, reconstruction, amalgamation or merger) continues to be a member of the Group.

"**Person**" means any individual, corporation, bank, partnership, joint venture, association, joint-stock company, limited liability company, trust, unincorporated organisation or government or any agency or political subdivision thereof.

"**Presentation Currency**" means (i) with respect to any Quarterly Financial Accounts, the presentation currency of such Quarterly Financial Accounts, and (ii) with respect to any Reviewed Interim Measurement, the Presentation Currency of the Quarterly Financial Accounts that will be prepared for the relevant financial quarterly or annual period in which the relevant Extraordinary Publication Date falls.

"**Public Sector**" means the government of, or a governmental agency or the central bank in, the country of incorporation of the Group Holding Company.

"**Publication Date**" means an Ordinary Publication Date or an Extraordinary Publication Date, as the case may be.

"**Quarterly Financial Accounts**" means (i) the financial statements of the Group (including, without limitation, the notes thereto) in respect of a financial quarter published by the Group Holding Company, which have been reviewed by the Auditor in accordance with the International Standards on Auditing; *provided, however*, that, if the financial statements of the Group in respect of the last quarter of any year are not so reviewed, the term "Quarterly Financial Accounts" in respect of such quarter will mean instead the annual financial statements of the Group (including, without limitation, the notes thereto) in respect of such year, which have been audited by the Auditor in accordance with the International Standards on Auditing and are published in the annual report of the Group Holding Company for such year, or (ii) in the event that the Group does not publish quarterly financial statements as described in clause (i) of this definition, the financial disclosures published by the Group pursuant to and in compliance with FINMA Circular 2016/01 "Capital Adequacy Disclosures Banks", as amended from time to time, or pursuant to and in compliance with any successor circular or regulation applicable to the Group Holding Company, *provided* that such financial disclosures are published for each financial quarter and the interim earnings included in such disclosures have been reviewed by the Auditor in accordance with International Standards on Auditing.

"**QIB**" has the meaning assigned to such term in subclause (b)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Record Date**" means, with respect to any Scheduled Due Date, the last Relevant Banking Day immediately preceding such Scheduled Due Date.

"**Redemption Date**" has the meaning assigned to such term in subclause (e)(i) of Condition 6 (*Redemption and Purchase*).

"**Redemption Notice**" has the meaning assigned to such term in subclause (e)(i) of Condition 6 (*Redemption and Purchase*).

"**Register**" means the register that the Issuer will procure to be kept by the Registrar in accordance with the provisions of the Fiscal Agency Agreement.

"**Registrar**" means Deutsche Bank Trust Company Americas, in its capacity as registrar for the Notes, and includes any successor registrar for the Notes appointed in accordance with the Fiscal Agency Agreement.

"**Regulation S Global Certificate**" has the meaning assigned to such term in subclause (b)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Regulatory Event**" has the meaning assigned to such term in subclause (d)(ii) of Condition 6 (*Redemption and Purchase*).

"**Relevant Accounts**" means, in respect of any Interest Payment Date, the most recently published audited unconsolidated annual financial statements of UBS Group AG prepared in accordance with the Swiss Code.

"**Relevant Banking Day**" means a day other than a Saturday or Sunday, on which banks are open for business in the place of the Specified Office of the Registrar and the Fiscal Agent.

"**Relevant Clearing System**" has the meaning assigned to such term in the definition of the term "Indirect Holder".

"**Relevant Date**" means, with respect to any payment, (i) the date on which such payment first becomes due under the Notes (the "**Scheduled Due Date**"), or (ii) if the full amount of the money payable on the Scheduled Due Date has not been received by the Fiscal Agent on or before the Scheduled Due Date, the date on which the full amount of the money due on the Scheduled Due Date has been received by the Fiscal Agent.

"**Relevant Swiss Issuer**" means, at any time, any bank, or any member of a banking group (including, without limitation, the Group), that is subject to a Going-Concern LR Requirement and a Going-Concern RWA Requirement at such time.

"**Reset Date**" means the First Call Date and each day that falls on the fifth anniversary of the immediately preceding Reset Date.

"**Reset Determination Date**" means, in relation to a Reset Interest Period, the day falling two Business Days prior to the Reset Date on which such Reset Interest Period commences.

"**Reset Interest Amount**" has the meaning assigned to such term in clause (b) of Condition 5 (*Interest*).

"**Reset Interest Period**" means each period from (and including) any Reset Date and ending on (but excluding) the next Reset Date.

"**Reset Interest Rate**" means, in relation to any Reset Interest Period, the sum of the Margin and the Treasury Yield in relation to such Reset Interest Period.

"**Reviewed Interim Measurement**" means an interim measurement of the CET1 Ratio, with respect to which the Auditor has performed procedures in accordance with the International Standard on Related Services (and relevant Swiss standards and practices) applicable to agreed-upon procedures engagements.

"**Rule 144A**" has the meaning assigned to such term in subclause (b)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Rule 144A Global Certificate**" has the meaning assigned to such term in subclause (b)(i) of Condition 2 (*Amount, Denomination and Form*).

"**Scheduled Due Date**" has the meaning assigned to such term in the definition of the term "Relevant Date".

"**Senior Obligations**" means all obligations of the Issuer that are unsubordinated or that are subordinated and do not constitute either Junior Obligations or Parity Obligations.

"**Specified Office**" means (i) in the case of Deutsche Bank Trust Company Americas, as Fiscal Agent, Paying Agent and Registrar, Trust and Agency Services, 1 Columbus Circle, 17th Floor, Mail Stop: NYC01-1710, New York, NY 10019, USA, Attn: Corporates Team, UBS Group AG, (ii) in the case of UBS AG, as Swiss Paying Agent and Calculation Agent, Bahnhofstrasse 45, 8001 Zurich, Switzerland, and (iii) in the case of any other Agent, such office as is notified by the Issuer to the Holders in writing in accordance with Condition 13 (*Notices*) as soon as practicable after the appointment of such Agent, in the case of each of clauses (i), (ii) and (iii), or such other office as the relevant Agent may designate from time to time by providing notice to the Issuer and the Holders in writing in accordance with Condition 13 (*Notices*).

"**Substitute Issuer**" has the meaning assigned to such term in clause (a) of Condition 14 (*Issuer Substitution*).

"**Substitution Documents**" has the meaning assigned to such term in subclause (a)(iv) of Condition 14 (*Issuer Substitution*).

"**Substitution or Amendment Effective Date**" has the meaning assigned to such term in subclause (a)(iii) of Condition 12 (*Substitution and Amendment*).

"**Substitution or Amendment Notice**" has the meaning assigned to such term in subclause (a)(iii) of Condition 12 (*Substitution and Amendment*).

"**Swiss Code**" means the Swiss Code of Obligations, as amended from time to time.

"**Swiss Paying Agent**" has the meaning assigned to such term in subclause (c)(i) of Condition 8 (*Payments; Agents*).

"**Tax Event**" has the meaning assigned to such term in subclause (c)(ii) of Condition 6 (*Redemption and Purchase*).

"**Tax Jurisdiction**" means Switzerland.

"**Taxes**" has the meaning assigned to such term in clause (a) of Condition 9 (*Taxation*).

"**Tier 1 Capital**" means Additional Tier 1 Capital or any item that qualifies as common equity tier 1 capital pursuant to National Regulations.

"**Tier 1 Instruments**" means any and all (i) securities or other obligations (other than Tier 1 Shares) issued by UBS Group AG or (ii) shares, securities, participation securities or other obligations (other than Tier 1 Shares) issued by a subsidiary of UBS Group AG and having the benefit of a guarantee, credit support agreement or similar undertaking of UBS Group AG, each of which shares, securities, participation securities or other obligations described in clauses (i) and (ii) of this definition qualify, or are issued in respect of a security that qualifies, as Tier 1 Capital of the Group and/or UBS Group AG (without regard to quantitative limits on such capital) on a consolidated (*Finanzgruppe*) or on an unconsolidated (*Einzelinstitut*) basis.

"**Tier 1 Shares**" means all classes of share capital and participation certificates (if any) of UBS Group AG or any subsidiary of UBS Group AG that qualify as common equity tier 1 capital of the Group and/or UBS Group AG under National Regulations on a consolidated (*Finanzgruppe*) or on an unconsolidated (*Einzelinstitut*) basis.

"**Treasury Yield**" means, in relation to any Reset Interest Period,

(a) the rate per annum equal to the semi-annual equivalent yield to maturity, that represents the average of such yield to maturity for the five consecutive New York Business Days ending on and including the applicable Reset Determination Date, for a five-year maturity, appearing under the caption "Treasury constant maturities" in the most recent H.15; or

(b) if the Treasury Yield for such Interest Reset Period cannot be determined pursuant to clause (a) above, the rate per annum equal to the semi-annual equivalent yield to maturity determined by interpolation between the most recent average of such yield to maturity, such average to be determined for the five consecutive New York Business Days ending on and including the applicable Reset Determination Date, for two series of US Treasury securities trading in the public securities market, (i) one maturing as close as possible to, but earlier than, the first Reset Date following the next succeeding Reset Determination Date, and (ii) the other maturing as close as possible to, but later than, the first Reset Date following the next succeeding Reset Determination Date; or

(c) if the Treasury Yield for such Interest Reset Period cannot be determined pursuant to clause (b) above, the rate per annum equal to the semi-annual equivalent yield to maturity for a five-year maturity for the last available date preceding the applicable Reset Determination Date, appearing under the caption "Treasury constant maturities" in the H.15 that has been most recently published prior to the applicable Reset Determination Date,

in each case, as determined by the Calculation Agent on the applicable Reset Determination Date.

For purposes of this definition, (i) "**H.15**" means the statistical release designated as such, or any successor publication, published by the Board of Governors of the United States Federal Reserve System (or any successor publication that is published by the Board of Governors of the United States Federal Reserve System and that establishes yields on actively traded US Treasury securities adjusted to constant maturity under the caption "Treasury constant maturities" for the maturity of five years), (ii) "**most recent H.15**" means, in respect of any Reset Interest Period, the H.15 published closest in time but prior to the close of business on the second Business Day prior to the applicable Reset Date, (iii) "**New York Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments generally in New York City, and (iv) "**semi-annual equivalent yield to maturity**" means, for securities with two interest payments per year, the annualized yield to maturity of such interest payments, such annualized yield to be calculated in accordance with standard market practice.

"**Trigger Breach Determination Date**" has the meaning assigned to such term in subclause (b)(i) of Condition 7 (*Contingent Write-down*).

"**Trigger CET1 Ratio**" means, as of any Publication Date, (i) the sum of (x) the CET1 Capital as of the relevant Balance Sheet Date and (y) the Higher-Trigger Amount as of such Publication Date, divided by (ii) the BIS Risk Weighted Assets as of the relevant Balance Sheet Date, expressed as a percentage.

"**Trigger Event**" has the meaning assigned to such term in subclause (a)(ii) of Condition 7 (*Contingent Write-down*).

"**Trigger Event Notice Date**" means an Ordinary Trigger Event Notice Date or an Extraordinary Trigger Event Notice Date, as the case may be.

"**Trigger Event Write-down Date**" has the meaning assigned to such term in the definition of the term "Trigger Event Write-down Notice".

"**Trigger Event Write-down Notice**" means, with respect to any Publication Date, a notice (i) stating that (x) the Trigger CET1 Ratio as of such Publication Date is less than the Write-down Threshold, and (y) a Contingent Write-down will take place and (ii) specifying the date on which the Contingent Write-down will take place, which date shall, subject to postponement pursuant to subclause (b)(ii) of Condition 7 (*Contingent Write-down*), be no later than ten Business Days after the date of such notice (the "**Trigger Event Write-down Date**").

"**US**" or "**United States**" means the United States of America (including the States and the District of Columbia), its territories, its possessions and other areas subject to its jurisdiction.

"**US Exchange Act**" means the US Securities Exchange Act of 1934, as amended from time to time.

"**US Investment Company Act**" means the US Investment Company Act of 1940, as amended from time to time.

"**US Securities Act**" means the US Securities Act of 1933, as amended from time to time.

"**USD**" means United States dollars.

"**Viability Event**" has the meaning assigned to such term in subclause (c)(ii) of Condition 7 (*Contingent Write-down*).

"**Viability Event Write-down Date**" has the meaning assigned to such term in subclause (c)(i) of Condition 7 (*Contingent Write-down*).

"**Viability Event Write-down Notice**" has the meaning assigned to such term in subclause (c)(ii) of Condition 7 (*Contingent Write-down*).

"**Write-down Date**" means, with respect to any Contingent Write-down, the Trigger Event Write-down Date or Viability Event Write-down Date, as applicable.

"**Write-down Notice**" means, with respect to any Contingent Write-down, the relevant Trigger Event Write-down Notice or Viability Event Write-down Notice, as applicable.

"**Write-down Notice Date**" means, with respect to any Contingent Write-down, the date of the relevant Write-down Notice.

"**Write-down Threshold**" means 7 per cent.

2. **AMOUNT, DENOMINATION AND FORM**

(a) *Amount and denomination*

The initial aggregate principal amount of the Notes will be USD 1,500,000,000. The Notes will be issued to Holders in minimum denominations of USD 200,000 and integral multiples of USD 1,000 in excess thereof. The principal amount of the Notes may be written down in the circumstances and in the manner described in Condition 7 (*Contingent Write-down*). The Notes may only be held and transferred in minimum denominations of USD 200,000 and integral multiples of USD 1,000 in excess thereof.

(b) *Global Certificates*

(i) Notes that are initially sold in the United States to "qualified institutional buyers" (each, a "**QIB**") within the meaning of Rule 144A under the US Securities Act ("Rule **144A**") are initially represented by one or more permanent registered global certificates (each, a "**Rule 144A Global Certificate**"), without interest coupons, deposited with the Fiscal Agent as custodian for, and registered in the name of Cede & Co. as nominee for, DTC. Notes that are initially sold in an "offshore transaction" within the meaning of Regulation S of the US Securities Act are initially represented by one or more permanent registered global certificates (each, a "**Regulation S Global Certificate**"), without interest coupons, deposited with the Fiscal Agent as custodian for, and registered in the name of Cede & Co. as nominee for, DTC, *provided* that upon such Regulation S Global Certificate's deposit, all beneficial interests in the Notes represented thereby are maintained at or through Euroclear and/or Clearstream, Luxembourg until expiration of the Distribution Compliance Period. The form of Regulation S Global Certificate and the form of Rule 144A Global Certificate are set out in the Fiscal Agency Agreement, which will be made available by the Registrar to any Holder or Indirect Holder upon written request.

(ii) The aggregate principal amount of the Notes represented by each of the Global Certificates may from time to time be increased or decreased by adjustments made on the records of the Registrar. Each Global Certificate shall have affixed a schedule for the purpose of recording adjustments in the aggregate principal amount thereof; *provided*, *however*, that, in the event of a discrepancy between the principal amounts recorded on such schedule and the amounts listed on the records of the Registrar, the principal amounts listed on the records of the Registrar will control. Any beneficial interest of an Indirect Holder in any Note represented by one of the Global Certificates that is transferred to a Person who takes delivery in the form of a beneficial interest in such Note represented by another Global Certificate will, upon transfer, cease to be a beneficial interest in such first Global Certificate and become a beneficial interest in the other Global Certificate and, accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to beneficial interests in such other Global Certificate for as long as it retains such an interest.

(iii) So long as the Notes are represented by one or more Global Certificates deposited with, or with a custodian for, the Depositary, the Holder of a Global Certificate may grant proxies and otherwise authorise any Person, including, without limitation, participants of a Relevant Clearing System and Persons that may hold interests through such participants, to take any action that the Holder is entitled to take under these Terms and Conditions or the Notes, and nothing in these Terms and Conditions will prevent the Issuer or the Agents or any of their respective agents from giving effect to any such proxies or other authorisations furnished by the Holder of a Global Certificate for purposes of this subclause (b)(iii). Although the Holders are the only Persons entitled to participate in, and vote at, any meeting of Holders, so long as the Notes are represented by one or more Global Certificates deposited with, or with a custodian for, the Depositary, the Holder of a Global Certificate shall (A) obtain instructions from the relevant Indirect Holders in respect of any meeting of Holders, (B) vote at such meeting in respect of each Note represented by such Global Certificate in accordance with the instructions received from the relevant Indirect Holder and (C) abstain from representing any Note represented by such Global Certificate at a meeting of Holders for which it has not received an instruction from the relevant Indirect Holder. Only the Notes represented by such Global Certificate for which the Holder received an instruction by the relevant Indirect Holder to take part at a meeting of Holders will be deemed to be present or represented at such meeting.

(c) *Definitive Certificates*

(i) Definitive Notes in registered form (each, a "**Definitive Certificate**") shall be issued, and a Global Certificate will be exchanged, in whole, but not in part, for Definitive Certificates, if (and only if):

(A) the Depositary notifies the Issuer that it is no longer willing or able to discharge properly its responsibilities as depositary with respect to some or all of the Global Certificates, or ceases to be a "clearing agency" registered under the US Exchange Act; or

(B) at any time the Depositary is no longer eligible to act as such, or the Notes cease for any reason to be eligible for clearing through the Depositary, and the Issuer is unable to locate a qualified successor within 90 days of receiving notice of such ineligibility of the Depositary or of the Notes, as the case may be, from or on behalf of the Depositary; or

(C) issuance of the Definitive Certificates is required by Swiss or other applicable laws or regulations in connection with the enforcement of rights under the Notes; or

(D) the Issuer provides its consent.

(ii) If a Global Certificate is to be exchanged for Definitive Certificates pursuant to subclause (i) of this clause (c), the Issuer will procure the prompt delivery (free of charge) of Definitive Certificates to the Fiscal Agent, duly executed without interest coupons, registered in the names of the relevant Indirect Holders, addresses and denominations provided in a written notice to be given by the Depositary or the Issuer to the Fiscal Agent (which notice shall be given subject to the Depositary's procedures and also specify the taxpayer identification number, if any, of each Person in whose name such Definitive Certificates are to be registered). Upon written direction of the Issuer, the Fiscal Agent will deliver such Definitive Certificates to the Holders thereof not later than five Business Days after receipt by the Fiscal Agent of the written notice provided by the Depositary (or the Issuer, as applicable) referred to above (and any other necessary information as the Fiscal Agent may reasonably request from the Issuer at such time). The Fiscal Agent shall promptly cancel and deliver to the Issuer the surrendered Global Certificates. The form of Definitive Certificate that will be issued in exchange for a beneficial interest in a Note represented by a Rule 144A Global Certificate and the form of Definitive Certificate that will be issued in exchange for a beneficial interest in a Note represented by a Regulation S Global Certificate are set out in the Fiscal Agency Agreement, which will be made available by the Registrar to any Holder or Indirect Holder upon written request.

(iii) If Definitive Certificates have been issued pursuant to this Condition 2(c), any Definitive Certificate that is lost, stolen, mutilated, defaced or destroyed may be replaced, subject to applicable laws and regulations, at the Specified Office of the Fiscal Agent upon payment by the claimant of the fees, costs and expenses incurred by the Fiscal Agent and the Issuer in connection therewith and on such terms as to evidence, security and indemnity (which may provide, among other things, that if the Definitive Certificate allegedly or actually lost, stole or destroyed is subsequently presented for payment there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Definitive Certificate subsequently presented) as the Issuer may require. Mutilated or defaced Definitive Certificates must be surrendered before replacements will be issued.

## 3. TRANSFER

(a) *General*

(i) Subject to Conditions 3(b) and 3(c), title to Notes will pass on transfer by assignment (*Zession*) and due registration in the Register. All transfers of Notes and entries on the Register will be made subject to the provisions concerning transfers of Notes set forth in the Fiscal Agency Agreement, which will be made available by the Registrar to any Holder or Indirect Holder upon written request.

(ii) Transfers of Notes, or of beneficial interests in Notes represented by Global Certificates, may be made only in accordance with the legend set forth upon the face of the applicable Global Certificate or Definitive Certificate, and the Registrar will not be required to accept for registration of transfer any Note or beneficial interests in Notes except upon presentation of evidence satisfactory to the Fiscal Agent and the Registrar that such transfer is being made in compliance with such legend.

(iii) Transfers of Notes and the issue of new Global Certificates or Definitive Certificates, as the case may be, on transfer will be effected without charge by or on behalf of the Issuer or the Registrar, but upon payment of any tax or other governmental charges that may be imposed in relation to the transfer (or the giving of such indemnity as the Fiscal Agent or the Registrar may require) by the Holder.

(iv) No Holder may require the transfer of a Note to be registered (x) if the Notes are to be redeemed pursuant to Condition 6 (*Redemption and Purchase*), during the period of 15 days ending on (and including) the relevant Redemption Date, or (y) during the period of 15 days ending on (and including) the Record Date for any Interest Payment Date.

(v) No Person (including any Indirect Holder) other than the Holder(s) will have any rights, or be owed any obligations by the Issuer, under the Notes. Payments of principal, interest or any other amount in respect of Notes will be made only to the Person shown on the Register as the registered holder of such Note (i.e., the Holder) at close of business on the relevant Record Date.

(b) *Transfer of Notes represented by a Global Certificate*

(i) Global Certificates may be transferred only in whole, but not in part, and only to a Relevant Clearing System or any of their respective successors or nominees, in each case located outside of Switzerland, except as provided below. Beneficial interests of Indirect Holders in Notes represented by Global Certificates may be transferred only in accordance with the rules and procedures of such Relevant Clearing System, the provisions of the Fiscal Agency Agreement and this Condition 3(b).

(ii) A beneficial interest in a Note represented by a Regulation S Global Certificate may be transferred to a Person who takes delivery in the form of a beneficial interest in a Note represented by a Rule 144A Global Certificate during the Distribution Compliance Period, only if such exchange occurs in connection with a transfer of beneficial interests in the Notes pursuant to Rule 144A and the transferor first delivers to the Fiscal Agent and the Registrar a written certificate substantially in the form of a certificate available on request from the Registrar to the effect that the beneficial interests in the Notes are being transferred to a Person who the transferor reasonably believes is a QIB within the meaning of Rule 144A under the US Securities Act, purchasing the beneficial interests in the Notes for its own account or the account of a QIB in a transaction meeting the requirements of Rule 144A and in accordance with all applicable securities laws of the states of the United States and other jurisdictions.

(iii) A beneficial interest in a Note represented by a Rule 144A Global Certificate may be transferred to a Person who takes delivery in the form of a beneficial interest in a Note represented by a Regulation S Global Certificate, whether before or after the expiration of the Distribution Compliance Period, only if the transferor first delivers to the Fiscal Agent and the Registrar a written certificate substantially in the form of a certificate available on request from the Registrar to the effect that the transfer is being conducted in compliance with Rule 903 or Rule 904 of Regulation S under the US Securities Act.

(iv) Until the termination of the Distribution Compliance Period, beneficial interests in any Regulation S Global Certificate may be held only through participants acting for and on behalf of Euroclear and/or Clearstream, Luxembourg, *provided* that this subclause (iv) shall not prohibit any transfer in accordance with subclause (ii) of this Condition 3(b).

(c) *Transfer of Notes represented by a Definitive Certificate*

(i) If and when Definitive Certificates have been issued pursuant to Condition 2(c), one or more Notes may be transferred only in accordance with the legends set forth upon the face of the relevant Definitive Certificate and only upon the surrender (at the Specified Office of the Registrar) of the Definitive Certificate representing such Notes to be transferred, together with the form of transfer attached to such Definitive Certificate (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by the Issuer), duly completed and executed and any other evidence as the Fiscal Agent and the Registrar may reasonably require. A new Definitive Certificate shall be issued to the transferee in respect of the

Notes that are the subject of the relevant transfer and, in the case of a transfer of part only of a holding of Notes represented by one Definitive Certificate, a new Definitive Certificate in respect of the balance of the Notes not transferred shall be issued to the transferor. In the case of a transfer of Notes to a Person who is already a Holder, a new Definitive Certificate representing the enlarged holding may be issued but only against surrender of the Definitive Certificate representing the existing holding of such Person.

(ii) Each new Definitive Certificate to be issued pursuant to Condition 2(c) shall be available for delivery within three Relevant Banking Days of receipt of the form of transfer and surrender of the relevant Definitive Certificate. Delivery of new Definitive Certificate(s) will be made at the Specified Office of the Fiscal Agent to which delivery and surrender of such form of transfer and Definitive Certificate or, as the case may be, surrender of such Definitive Certificate, will have been made or, at the option of the relevant Holder and as specified in the relevant form of transfer or otherwise in writing, be mailed by uninsured post at the risk of the Holder entitled to the new Definitive Certificate to such address as may be so specified, unless such Holder requests otherwise and pays in advance to the Fiscal Agent the costs of such other method of delivery and/or such insurance as it may specify.

(d) *Rule 144A*

Each Note that is initially sold in the United States to a QIB will not be registered under the US Securities Act, or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be sold, pledged or otherwise transferred, except (i) in accordance with Rule 144A to a Person that the Holder and any Person acting on its behalf reasonably believe is a QIB that is acquiring the Notes for its own account or for the account of one or more QIBs, (ii) in an offshore transaction in accordance with Rule 903 or 904 of Regulation S under the US Securities Act, (iii) pursuant to an exemption from registration under Rule 144 under the US Securities Act, or in accordance with another exemption from, or in a transaction not subject to, registration under the US Securities Act, if available, or (iv) pursuant to an effective registration statement under the US Securities Act, in each case, in accordance with any applicable securities laws of any state of the United States.

## 4. STATUS AND SUBORDINATION

(a) *Status*

The Notes constitute direct, unsecured and subordinated obligations of the Issuer and rank *pari passu* and without any preference among themselves. The rights and claims of the Holders against the Issuer under the Notes are subordinated as described in clause (b) of this Condition 4.

(b) *Subordination*

In the event of (i) a Bankruptcy Event or (ii) an order being made, or an effective resolution being passed, for the liquidation or winding-up of the Issuer (except, in any such case, a solvent liquidation or winding-up of the Issuer solely for the purposes of a reorganisation, reconstruction or amalgamation of the Issuer or the substitution in place of the Issuer of a successor in business to the Issuer, the terms of which reorganisation, reconstruction, amalgamation or substitution (x) have previously been approved by a valid resolution of the Holders and (y) do not provide that the Notes shall become redeemable in accordance with these Terms and Conditions), the rights and claims of the Holders against the Issuer in respect of or arising under (including, without limitation, any damages awarded for breach of any obligation under) the Notes will, subject to any obligations that are mandatorily preferred by law, rank (A) junior to the rights and claims of all holders of Senior Obligations, (B) *pari passu* with the rights and claims of holders of Parity Obligations and (C) senior to the rights and claims of holders of Junior Obligations.

(c) *Claims subject to a Contingent Write-down*

Any claim of any Holder in respect of or arising under the Notes (including, without limitation, any claim in relation to any unsatisfied payment obligation of the Issuer subject to enforcement by any Holder pursuant to Condition 11 (*Events of Default*) or in relation to the occurrence of any other Event of Default) will be subject to, and superseded by, clause (d) of Condition 7 (*Contingent Write-down*), irrespective of whether the relevant Write-down Notice has been given prior to or after the occurrence of an Event of Default or any other event.

5. **INTEREST**

(a) *Interest Payment Dates*

(i) Subject to Condition 7 (*Contingent Write-down*) and clause (g) of this Condition 5, the Notes will bear interest on their principal amount (A) from (and including) the Issue Date to (but excluding) the First Call Date, at the Fixed Interest Rate, and (B) thereafter, at the applicable Reset Interest Rate.

(ii) Subject to Condition 7 (*Contingent Write-down*) and clause (h) of this Condition 5, interest on the Notes will be payable semi-annually in arrear on 12 February and 12 August of each year (each, an "**Interest Payment Date**"), commencing on 12 August 2022.

(b) *Determination of the Treasury Yield, Reset Interest Rate and Reset Interest Amount in relation to each Reset Interest Period*

With respect to each Reset Interest Period, the Calculation Agent will, as soon as practicable on the Reset Determination Date in relation to such Reset Interest Period, determine the Treasury Yield and the Reset Interest Rate for such Reset Interest Period and calculate the amount of interest payable per Calculation Amount on the Interest Payment Date in relation to each Interest Period falling in such Reset Interest Period (each, a "**Reset Interest Amount**").

(c) *Publication of Reset Interest Rate and interest amount payable upon redemption*

With respect to each Reset Interest Period, as soon as practicable after such determination but in any event not later than the relevant Reset Date, the Calculation Agent will cause (i) the relevant Reset Interest Rate and the relevant Reset Interest Amount determined by it, together with the Interest Payment Date in relation to each Interest Period falling in such Reset Interest Period, to be notified to the Issuer and the Paying Agents and (ii) the relevant Reset Interest Rate determined by it to be notified to any stock exchange or other relevant authority on which the Notes are at the relevant time listed and to be published in accordance with Condition 13 (*Notices*).

The Calculation Agent shall calculate any interest amount payable on any Redemption Date (if the Notes are to be redeemed pursuant to Condition 6 (*Redemption and Purchase*)) and cause such interest amount to be notified to Issuer and the Paying Agents and to any stock exchange or other relevant authority on which the Notes are at the relevant time listed and to be published in accordance with Condition 13 (*Notices*) no later than two Business Days prior to such Redemption Date.

(d) *Calculation of amount of interest payable per Calculation Amount*

Subject to Condition 7 (*Contingent Write-down*) and clause (h) of this Condition 5:

(i) the amount of interest payable per Calculation Amount on each Interest PaymentDate to (and including) the First Call Date in respect of the Notes will be (A) in the case of the first Interest Payment Date, USD 28.44, and (B) otherwise, USD 24.38; and

(ii) if interest is required to be paid in respect of a Note on any other date (including,for the avoidance of doubt, the Reset Interest Amount), the amount of interest payable per Calculation Amount on such date will be calculated by:

(A) applying the applicable Interest Rate to the Calculation Amount;

(B) multiplying the product thereof by the Day Count Fraction; and

(C) rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

(e) *Calculation of amount of interest payable per Note*

Subject to Condition 7 (*Contingent Write-down*) and clause (h) of this Condition 5, the amount of interest payable in respect of a Note will be the product of:

(i) the amount of interest per Calculation Amount; and

(ii) the number by which the Calculation Amount is required to be multiplied to equal the denomination of such Note.

(f) *Notifications, etc. to be final*

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained by the Calculation Agent for the purposes of this Condition 5 will (in the absence of wilful default, bad faith and manifest error) be binding on the Issuer, the Calculation Agent, the Paying Agents and the Holders and (in the absence of wilful default and bad faith) no liability to the Issuer or the Holders will attach to the Calculation Agent in connection with the exercise or non-exercise by the Calculation Agent of its powers, duties and discretions under this Condition 5.

(g) *Accrual of interest in the case of redemption or a Write-down Event*

(i) Subject to Condition 7 (*Contingent Write-down*), if the Notes are to be redeemed pursuant to clause (b), (c) or (d) of Condition 6 (*Redemption and Purchase*), interest on the Notes will accrue up to (but excluding) the relevant Redemption Date, and will cease to accrue on such Redemption Date; *provided*, *however*, that if the payment with respect to any Note is improperly withheld or refused on suchRedemption Date, interest will continue to accrue on the principal amount of suchNote (both before and after judgment) at the relevant Interest Rate to the RelevantDate.

(ii) Upon the occurrence of a Write-down Event, interest on the Notes will cease to accrue and any accrued and unpaid interest as at the time of such Write-down Event (whether or not due and payable) will be written down to zero in accordance with Condition 7 (*Contingent Write-down*).

(h) *Cancellation of interest; prohibited interest*

(i) The Issuer may, at its discretion, elect to cancel all or part of any payment of interest on the Notes (including, for the avoidance of doubt, any related Additional Amounts) that is otherwise scheduled to be paid on an Interest Payment Date. This subclause (h)(i) is without prejudice to the provisions of subclause (h)(ii) of this Condition 5. Non-payment of any amount of interest by the Issuer to the Fiscal Agent will constitute evidence of cancellation of the relevant payment, whether or not notice of cancellation has been given by the Issuer.

If practicable, the Issuer shall provide notice of any cancellation of interest (in whole or in part) pursuant to this subclause (h)(i) to the Holders on or prior to the relevant Interest Payment Date. If practicable, the Issuer shall endeavour to provide such notice at least five Business Days prior to the relevant Interest Payment Date. Failure to provide such notice will not have any impact on the effectiveness of, or otherwise invalidate, any such cancellation of interest, or give Holders any rights as a result of such failure.

(ii) The Issuer will be prohibited from making, in whole or in part, any payment of interest on the Notes (including, for the avoidance of doubt, any related Additional Amounts) on the relevant Interest Payment Date if and to the extent that:

(A) the amount of Distributable Items as at such Interest Payment Date is less than the sum of (1) the amount of such interest payment, plus (2) all other payments (other than redemption payments) made by UBS Group AG on or in respect of the Notes or any Parity Obligations or Junior Obligations since the balance sheet date of the Relevant Accounts and prior to such Interest Payment Date, plus (3) all payments (other than redemption payments) payable by UBS Group AG on such Interest Payment Date on or in respect of any Parity Obligations or Junior Obligations, in the case of each of clauses (1), (2) and (3), excluding any portion of such payments already accounted for in determining the amount of such Distributable Items; and/or

(B) UBS Group AG is not, or will not immediately after the relevant payment of interest be, in compliance with all applicable minimum capital adequacy requirements of the National Regulations on a consolidated (*Finanzgruppe*) basis (for the avoidance of doubt, it being understood that such minimum requirements will reflect any reduction in such requirements granted by FINMA to the Group pursuant to the Capital Adequacy Ordinance); and/or

(C) FINMA has required the Issuer not to make such interest payment.

The Issuer shall deliver a certificate signed by the Authorised Signatories to the Fiscal Agent and shall give notice in accordance with Condition 13 (*Notices*) to the Holders, in each case as soon as practicable following any determination that interest is required to be cancelled pursuant to this subclause (i)(ii) or, where no such prior determination is made, promptly following any Interest Payment Date on which interest was scheduled to be paid if such interest is being cancelled in accordance with this subclause (i)(ii), to such effect setting out brief details as to the amount of interest being cancelled and the reason therefor. Failure to provide such certificate and notice will not have any impact on the effectiveness of, or otherwise invalidate, any such cancellation or give any Holder any rights as a result of such failure.

(iii) If, on any Interest Payment Date, any payment of interest scheduled to be made on such date is not made in full pursuant to subclause (h)(i) or subclause (h)(ii) of this Condition 5, UBS Group AG shall not, directly or indirectly,

(A) recommend to holders of Ordinary Shares that any dividend or other distribution in cash or in kind (other than in the form of Ordinary Shares) be paid or made on any Ordinary Shares; and

(B) redeem, purchase or otherwise acquire any Ordinary Shares other than as a Permitted Transaction,

in each case unless and until (x) the interest payment due and payable on the Notes on any subsequent Interest Payment Date has been paid in full (or an amount equal to the same has been paid in full to a designated third party trust account for the benefit of the Holders prior to payment by the trustee thereof to the Holders on such subsequent Interest Payment Date) or, if earlier, (y) all outstanding Notes have been cancelled in accordance with these Terms and Conditions.

(iv) Payments of interest on the Notes are not cumulative. Notwithstanding any other provision in these Terms and Conditions, the cancellation or non-payment of any interest amount by virtue of this Condition 5(h) will not constitute a default for any purpose (including, without limitation, Condition 11 (*Events of Default*)) on the part of the Issuer. Any interest payment not paid by virtue of this Condition 5(h) will not accumulate or be payable at any time thereafter, and Holders will have no right thereto.

(v) If UBS Group AG determines, after consultation with FINMA, that the Notes do not, or will cease to, fully qualify as Additional Tier 1 Capital, (A) the Issuer shall not, to the extent permitted under National Regulations, exercise its discretion pursuant to subclause (h)(i) of this Condition 5 to cancel any interest payments due on the Notes on any Interest Payment Date following the occurrence of such determination, and (B) the Issuer shall give notice to the Holders in accordance with Condition 13 (*Notices*) as soon as practicable after such determination stating that the Issuer may no longer exercise its discretion pursuant to subclause (h)(i) of this Condition 5 to cancel any interest payments as from the date of such notice.

## 6. REDEMPTION AND PURCHASE

(a) *No fixed redemption date*

The Notes are perpetual securities in respect of which there is no fixed redemption date. Unless previously redeemed or purchased and cancelled in accordance with this Condition 6 and subject to Condition 7 (*Contingent Write-down*), the Notes are perpetual and may only be redeemed or purchased in accordance with this Condition 6.

(b) *Redemption at the option of the Issuer*

Subject to clause (e) of this Condition 6, the Issuer may elect, in its sole discretion, to redeem the Notes, in whole but not in part, on the First Call Date or any Interest Payment Date thereafter at their aggregate principal amount, together with any accrued and unpaid interest thereon to (but excluding) the relevant Redemption Date.

(c) *Redemption due to a Tax Event*

(i) Subject to clause (e) of this Condition 6, upon the occurrence of a Tax Event at any time after the Issue Date, the Issuer may elect, in its sole discretion, to redeem the Notes, in whole but not in part, on the relevant Redemption Date at their aggregate principal amount, together with any accrued and unpaid interest thereon to (but excluding) such Redemption Date.

(ii) A "**Tax Event**" will have occurred if the Issuer in making any payments on the Notes (A) has paid, or will or would on the next payment date be required to pay, Additional Amounts, or (B) has paid, or will or would be required to pay, any additional Tax in respect of the Notes, in the case of each of clauses (A) and (B), under the laws or regulations of a Tax Jurisdiction or any political subdivision thereof or any authority of or in a Tax Jurisdiction or any political subdivision thereof having the power to impose, levy, collect, withhold or assess Taxes, including, without limitation, any treaty to which a Tax Jurisdiction is a party, or any generally published application or interpretation of such laws (including, without limitation, a decision of any court or tribunal, any generally published application or interpretation of such laws by any relevant tax authority or any generally published pronouncement by any relevant tax authority), and the Issuer cannot avoid the foregoing by taking measures reasonably available to it.

(d) *Redemption due to a Regulatory Event*

(i) Subject to clause (e) of this Condition 6, upon the occurrence of a Regulatory Event at any time after the Issue Date, the Issuer may elect, in its sole discretion, to redeem the Notes, in whole but not in part, on the relevant Redemption Date at their aggregate principal amount, together with any accrued and unpaid interest thereon to (but excluding) such Redemption Date.

(ii) A "**Regulatory Event**" will have occurred if any of the Notes ceases to be eligible in full to be (A) treated as Additional Tier 1 Capital, and/or (B) counted towards either the Going-Concern LR Requirement or the Going-Concern RWA Requirement (or both).

(e) *Conditions for redemption*

(i) If the Issuer elects to redeem the Notes pursuant to clause (b), (c) or (d) of this Condition 6, then the Issuer shall give the Holders not less than 30 and not more than 60 days' prior notice in accordance with Condition 13 (*Notices*) (a "**Redemption Notice**"), which notice shall, subject to clause (f) of this Condition 6, be irrevocable and specify (x) the clause of this Condition 6 pursuant to which the redemption is to be made, (y) if any Definitive Certificates have been issued, the method by which Notes to be redeemed will be tendered, and (z) the date (which date shall be a Payment Business Day) on which the Issuer will redeem the Notes pursuant to such clause of this Condition 6 (such specified date, the "**Redemption Date**").

(ii) The Issuer may only redeem the Notes pursuant to clause (b) or (c) of this Condition 6 on the relevant Redemption Date if FINMA has approved such redemption on or prior to such Redemption Date, if such approval is then required under applicable Swiss laws and regulations.

(iii) The Issuer may only redeem the Notes pursuant to any clause of this Condition 6 on the relevant Redemption Date if no Trigger Event or Viability Event has occurred prior to such Redemption Date.

(iv) If the Issuer elects to redeem the Notes pursuant to clause (c) or (d) of this Condition 6, then prior to the publication of the Redemption Notice pursuant to subclause (e)(i) of this Condition 6, the Issuer shall deliver to the Fiscal Agent (A) a certificate signed by two Authorised Signatories stating that the relevant requirement or circumstance giving rise to the right to redeem under clause (c) or (d), as applicable, of this Condition 6 is satisfied and the reasons therefor and such certificate will be conclusive and binding on the Holders, and (B) in the case of a redemption pursuant to clause (c) of this Condition 6 only, an opinion of independent legal advisers of recognised standing to the effect that circumstances entitling the Issuer to exercise its right of redemption under clause (c) of this Condition 6 have arisen.

(f) *Purchases*

The Issuer or any other member of the Group or any of their respective affiliates may at any time purchase Notes at any price in the open market or otherwise, *provided* that (i) such purchase complies with any limits or conditions to which any member of the Group is subject under applicable banking laws and regulations at the time of such purchase, (ii) other than in the case of purchases made in connection with stabilisation measures in compliance with applicable law or in connection with any market making in the Notes, FINMA has approved such purchase (if such approval is then required under applicable Swiss laws and regulations) on or prior to the date of such purchase, and (iii) no Trigger Event or Viability Event has occurred prior to the date of such purchase. Any Notes so purchased may, at the option of the Issuer, be held, reissued, resold or cancelled.

(g) *Cancellation*

All Notes redeemed in accordance with this Condition 6 will be cancelled and may not be reissued or resold.

(h) *Redemption of other instruments*

For the avoidance of doubt, it is understood that, if, upon the occurrence of a Tax Event or a Regulatory Event, the Issuer does not elect to redeem the Notes pursuant to this Condition 6, nothing in this Condition 6 or any other provision of these Terms and Conditions will prohibit the Issuer from redeeming (whether early, at maturity or otherwise) any other instruments issued by any member of the Group pursuant to the terms thereof.

7. **CONTINGENT WRITE-DOWN**

(a) *Trigger Event*

(i) Upon the occurrence of a Trigger Event, a Contingent Write-down will occur on the Trigger Event Write-down Date in accordance with clause (d) of this Condition 7.

(ii) A "**Trigger Event**" will have occurred if the Issuer gives the Holders a Trigger Event Write-down Notice in accordance with clause (b) of this Condition 7.

(b) *Trigger Event Write-down Notice*

(i) If, with respect to any Publication Date, the Trigger CET1 Ratio as of such Publication Date is less than the Write-down Threshold, the Issuer shall, subject to subclauses (b)(ii) and (b)(iii) of this Condition 7, give a Trigger Event Write-down Notice to the Holders (x) if such Publication Date is an Ordinary Publication Date, within five Business Days of such Ordinary Publication Date (such fifth Business Day, the "**Trigger Breach Determination Date**", and the date of such notice, the "**Ordinary Trigger Event Notice Date**"), and (y) if such Publication Date is an Extraordinary Publication Date, on such Extraordinary Publication Date (the "**Extraordinary Trigger Event Notice Date**"), in each case in accordance with Condition 13 (*Notices*).

(ii) If a Trigger Event Write-down Notice is required to be given pursuant to subclause (b)(i) of this Condition 7, and on the relevant Publication Date any Higher-Trigger Contingent Capital is outstanding with respect to which either (x) no Higher-Trigger Write-down/Conversion Notice has been given prior to the Trigger Event Notice Date or (y) a Higher-Trigger Write-down/Conversion Notice has been given prior to the Trigger Event Notice Date, but the Trigger Event Write-down Date is scheduled to occur prior to the relevant Higher-Trigger Write-down/Conversion Date,

(A) in the case of clause (x) above, the giving of such Trigger Event Write-down Notice will be postponed until the date on which a Higher-Trigger Write-down/Conversion Notice has been given with respect to all such outstanding Higher-Trigger Contingent Capital and such date will be deemed to be the Trigger Event Notice Date; and

(B) in the case of clauses (x) and (y) above, if the Trigger Event Write-down Date is scheduled to occur prior to the Higher-Trigger Write-down/Conversion Date (or, in the case of more than one Higher-Trigger Write-down/Conversion Date, the latest Higher-Trigger Write-down/Conversion Date), the Trigger Event Write-down Date will be postponed to the Higher-Trigger Write-down/Conversion Date (or the latest Higher-Trigger Write-down/Conversion Date, as applicable) and such postponement shall be specified in such Trigger Event Write-down Notice.

(iii) If (A) a Trigger Event Write-down Notice is required to be given pursuant to subclause (b)(i) of this Condition 7 in relation to an Ordinary Publication Date, and (B) prior to the earlier of the Ordinary Trigger Event Notice Date and the Trigger Breach Determination Date, FINMA, upon the request of UBS Group AG, has agreed in writing that a Contingent Write-down is not required as a result of actions taken by the Group or circumstances or events, in each case, that have had, or imminently will have, the effect of restoring the CET1 Ratio as of the Balance Sheet Date relating to the relevant Ordinary Publication Date, after giving pro forma effect to such actions, circumstances or events, to a level above the Write-down Threshold that FINMA and UBS Group AG deem, in their sole discretion, to be adequate at such time, (x) the Issuer shall not give such Trigger Event Write-down Notice pursuant to subclause (b)(i) of this Condition 7 in relation to the relevant Ordinary Publication Date, and (y) the Issuer shall give notice to the Holders on or prior to the Trigger Breach Determination Date in accordance with Condition 13 (*Notices*), which notice shall state that no Contingent Write-down will occur in relation to the relevant Ordinary Publication Date.

(c) *Viability Event*

(i) Subject to clause (f) of this Condition 7, upon the occurrence of a Viability Event, (A) the Issuer shall give notice to the Holders in accordance with Condition 13 (*Notices*) within three days of the date on which such Viability Event occurred, which notice shall (x) state that a Viability Event has occurred and a Contingent Write-down will take place and (y) specify the date on which the Contingent Write-down will take place, which date shall be no later than ten Business Days after the date of such notice (such specified date, the "**Viability Event Write-down Date**", and such notice, a "**Viability Event Write-down Notice**"), and (B) a Contingent Write-down will occur on the Viability Event Write-down Date in accordance with clause (d) of this Condition 7.

(ii) A "**Viability Event**" will have occurred if prior to an Alternative Loss Absorption Date (if any):

(A) FINMA has notified UBS Group AG in writing that it has determined a write-down of the Notes, together with the conversion or write-down, as applicable, of holders' claims in respect of all other capital instruments issued by, or other capital obligations (whether qualifying fully or partially for capital treatment) of, any member of the Group that, pursuant to their terms or by operation of law, are capable of being converted into equity or written down at that time, is, because customary measures to improve the Group Holding Company's capital adequacy are at the time inadequate or infeasible, an essential requirement to prevent the Group Holding Company from becoming insolvent, bankrupt, unable to pay a material part of its debts as they fall due or unable to carry on its business; or

(B) customary measures to improve the Group Holding Company's capital adequacy being at the time inadequate or infeasible, the Group Holding Company has received an irrevocable commitment of direct or indirect extraordinary support from the Public Sector (beyond customary transactions and arrangements in the ordinary course) that has, or imminently will have, the effect of improving the Group Holding Company's capital adequacy and without which, in the determination of (and as notified in writing by) FINMA, the Group Holding Company would have become insolvent, bankrupt, unable to pay a material part of its debts as they fall due or unable to carry on its business.

For the avoidance of doubt, it is understood that, a Viability Event may occur irrespective of whether or not a Trigger Event has occurred or whether any of the conditions to the issuance of a Trigger Event Write-down Notice have been met.

(d) *Contingent Write-down*

If the Issuer has given a Write-down Notice in accordance with this Condition 7, then on the relevant Write-down Date,

(i) the full principal amount of, and any accrued and unpaid interest (whether or not due and payable) on, each Note will automatically be written down to zero, the Notes will be cancelled and all references to the principal amount of the Notes in these Terms and Conditions will be construed accordingly;

(ii) the Holders will be automatically deemed to have irrevocably waived their right to receive, and will no longer have any rights against the Issuer with respect to, repayment of the aggregate principal amount of, and payment of any accrued and unpaid interest on, the Notes written down pursuant to subclause (i) of this clause (d) (*bedingter Forderungsverzicht*); and

(iii) all rights of any Holder for payment of any amounts under or in respect of the Notes (including, without limitation, any amounts arising as a result of, or due and payable upon the occurrence of, an Event of Default) will become null and void, irrespective of whether such amounts have become due and payable prior to the relevant Write-down Notice Date or the Write-down Date.

(e) *Determination of CET1 Ratio and Trigger CET1 Ratio*

With respect to any Publication Date, (i) the CET1 Ratio as of the relevant Balance Sheet Date, (ii) the Trigger CET1 Ratio as of such Publication Date and (iii) the components of both of the foregoing, in each case, as published on such Publication Date, will be final for purposes of this Condition 7, and any revisions, restatements or adjustments to any of the calculations described in subclauses (i) through (iii) of this clause (e) subsequently published will have no effect for purposes of this Condition 7.

(f) *Alternative loss absorption*

In the event of the implementation of any new, or amendment to or change in the interpretation of any existing, laws or components of National Regulations, in each case occurring after the Issue Date, that alone or together with any other law(s) or regulation(s) has, in the joint determination of UBS Group AG and FINMA, the effect that clause (c) of this Condition 7 could cease to apply to the Notes without giving rise to a Regulatory Event, then the Issuer shall give notice to the Holders in accordance with Condition 13 (*Notices*) no later than five Business Days after such joint determination stating that such provisions will cease to apply from the date of such notice (the "**Alternative Loss Absorption Date**"), and from the date of such notice, such provisions will cease to apply to the Notes.

8. **PAYMENTS; AGENTS**

(a) All payments required to be made under the Notes will be made available in good time infreely disposable funds in USD, which will be placed at the free disposal of the Fiscal Agent on behalf of the Holders. If the Scheduled Due Date for any payment (whether in respect of principal, interest or otherwise) in respect of the Notes is not a Payment Business Day, then the Holders will not be entitled to payment thereof until the first Payment Business Day following the Scheduled Due Date, and the Holders will not be entitled to any additional sum in relation to such payment. All payments required to be made under the Notes (including, for the avoidance of doubt, any Additional Amounts) shall be made to the Holders in USD without collection costs, without any restrictions and whatever the circumstances may be, irrespective of nationality, domicile or residence of the relevant Holder and without certification, affidavit or the fulfilment of any other formality; *provided*, *however*, that, in the case of Notes represented by Definitive Certificates, such Definitive Certificates must be presented and, in the case of redemption, surrendered at the Specified Office of the relevant Paying Agent as a condition to receipt of any such payment.

(b) The receipt by the Fiscal Agent of the due and punctual payment of funds in USD will release the Issuer from its obligations under the Notes to the extent of such payment.

(c) Subject to clause (d) of this Condition 8:

(i) the Issuer reserves the right to terminate the appointment of any Agent, as well as to appoint or, after any such appointment, to terminate the appointment of, one or more other paying agents to carry out any payment, calculation or other functions in respect of the Notes (each, a "**Paying Agent**"), *provided* that (A) so long as any Note is outstanding, there will at all times be a Fiscal Agent, a Registrar and a Calculation Agent, (B) for so long as the Notes are listed on the SIX Swiss Exchange and if then required by the regulations of the SIX Swiss Exchange, the Issuer shall maintain a Paying Agent in Switzerland, which agent shall have an office in Switzerland and be a bank or securities dealer subject to supervision by FINMA, to perform the functions of a Swiss paying agent (the "**Swiss Paying Agent**"), and (C) any successor Calculation Agent must be a leading bank or financial institution that is experienced in the calculations and determinations to be made by the Calculation Agent; and

(ii) if at any time the Fiscal Agent, the Registrar, the Calculation Agent, or the Swiss Paying Agent, (A) becomes incapable of acting, or (B) is adjudged bankrupt or insolvent, or files a voluntary petition in bankruptcy, or makes an assignment for the benefit of its creditors, or consents to the appointment of a receiver of all or any substantial part of its property, or admits in writing its inability to pay or meet its debts as they mature, or if an order of any court is entered approving any petition filed by or against it under the provisions of any applicable bankruptcy or insolvency law, or if a receiver of it or of all or any substantial part of its property is appointed, or if any public officer takes charge or control of it or of its property or affairs for the purpose of rehabilitation, conservation or liquidation (any such event, an "**Agent Insolvency Event**"), then the Issuer will terminate the appointment of such Agent in accordance with the Fiscal Agency Agreement and appoint a successor Agent; and

(iii) if at any time the Calculation Agent fails to (A) duly calculate the Reset Interest Rate and the Reset Interest Amount for any Interest Period or the interest amount payable on the Redemption Date (if the Notes are to be redeemed pursuant to Condition 6 (*Redemption and Purchase*)) or (B) comply with any other requirement in relation to the Notes, then the Issuer will terminate the appointment of the Calculation Agent in accordance with the Fiscal Agency Agreement and appoint a successor Calculation Agent; *provided*, *however*, that, if the Calculation Agent duly calculates such Reset Interest Rate, Reset Interest Amount or interest amount payable on the Redemption Date, as the case may be, prior to its termination (and the appointment of its successor) taking effect in accordance with clause (d) of this Condition 8, the Issuer may elect, in its sole discretion and upon written notice to the Holders pursuant to Condition 13 (*Notices*), to cancel such termination (and appointment).

(d) Any appointment or termination of appointment of, or any resignation by, any Agent may only take effect not more than 45 and not less than 30 days after the Issuer has notified the Holders of such appointment, termination or resignation pursuant to Condition 13 (*Notices*); *provided*, *however*, that, in the case of the termination of an Agent with respect to which an Agent Insolvency Event has occurred, such termination may take effect prior the expiry of such 30-day notice period, so long as a successor Agent has been appointed to the extent required by the immediately succeeding sentence. Notwithstanding the foregoing, any termination of the appointment of, or resignation by, the Fiscal Agent, the Registrar, the Swiss Paying Agent, or the Calculation Agent may not take effect until the Issuer has appointed a successor Fiscal Agent, Registrar, Swiss Paying Agent or Calculation Agent, as applicable; *provided*, *however*, that, if no such successor has been appointed within 30 days of the scheduled effectiveness of such termination or resignation, any Holder (on behalf of itself and all others similarly situated) or, pursuant to and in accordance with the Fiscal Agency Agreement, the Fiscal Agent, the Registrar, any Paying

Agent or the Calculation Agent, as the case may be, may petition any court of competent jurisdiction for the appointment of a successor, at the expense of the Issuer.

9. **TAXATION**

(a) All payments to be made by or on behalf of the Issuer in respect of the Notes (including, for the avoidance of doubt, payments by a Paying Agent) shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other government charges of any nature ("**Taxes**") imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction or any political subdivision thereof or any authority of or in a Tax Jurisdiction or any political subdivision thereof having the power to impose, levy, collect, withhold or assess Taxes, unless withholding, deduction or accounting for such Taxes is required by law.

(b) In the event that any payment to be made by or on behalf of the Issuer in respect of the Notes (including, for the avoidance of doubt, payments by a Paying Agent) is subject to any withholding or deduction for, or on account of, any Taxes by requirement of law in a Tax Jurisdiction (as determined by the relevant tax authority of or in such Tax Jurisdiction), the Issuer shall pay such additional amounts as will result in the Holders receiving the amounts that they would have received in respect of the Notes if no such withholding or deduction had been required ("**Additional Amounts**").

(c) No Additional Amounts will be payable pursuant to clause (b) of this Condition 9 in relation to any Note:

(i) if the relevant Holder is liable for such Taxes on such Note as a result of having some connection with the relevant Tax Jurisdiction other than its mere ownership or possession of such Note or the receipt of principal or interest in respect thereof; or

(ii) if such Taxes are a result of such Note having been presented for payment (where presentment is required) more than 30 days after the Relevant Date, except to the extent that the Holder would have been entitled to receive the Additional Amounts if it had presented such Note for payment on the last day of the 30-day period; or

(iii) with respect to any Tax collected pursuant to Sections 1471 through 1474 of the US Internal Revenue Code, as amended (the "**Code**"), the regulations promulgated thereunder, or applicable inter-governmental agreements or agreements with the United States Internal Revenue Service entered into in connection with the implementation of such sections of the Code, or legislation enacted by a non-United States jurisdiction in connection with the implementation of such sections of the Code (FATCA); or

(iv) where such withholding or deduction is required to be made pursuant to laws enacted by Switzerland providing for the taxation of payments according to principles similar to those laid down in the draft legislation of the Swiss Federal Council of 3 April 2020, or otherwise changing the Swiss federal withholding tax system from an issuer-based system to a paying agent-based system pursuant to which a Person other than the issuer is required to withhold tax on any interest payments; or

(v) to the extent any combination of subclauses (i) through (iv) of this clause (c) applies.

(d) Any reference in these Terms and Conditions to amounts payable by the Issuer in respect of the Notes includes (i) any Additional Amount payable pursuant to this Condition 9 and (ii) any sum payable pursuant to an obligation taken in addition to or in substitution for the obligation in this Condition 9.

10. **STATUTE OF LIMITATIONS**

In accordance with Swiss law, (a) claims for interest payments under the Notes will become time-barred after the five-year period and (b) claims for the repayment or redemption of Notes will become time-barred after the ten-year period, in each case, commencing on the date on which such payments, repayment or redemption become due and payable.

11. **EVENTS OF DEFAULT**

(a) If any of the following events occurs, such occurrence will constitute an "**Event of Default**":

(i) the Issuer fails to pay the principal amount of any Note if and when the same becomes due and payable under these Terms and Conditions, and such failure continues unremedied for a period of 30 days; or

(ii) the Issuer fails to pay any interest on the Notes if and when the same becomes due and payable under these Terms and Conditions, and such failure continues unremedied for a period of 30 days; or

(iii) the Issuer fails to observe or perform any other covenant, condition, or agreement contained in these Terms and Conditions, and such failure continues unremedied for a period of 60 days after written notice thereof from any Holder to the Issuer;or

(iv) a Bankruptcy Event.

(b) Upon the occurrence of an Event of Default relating to any failure of the Issuer to meet any payment obligation under these Terms and Conditions and subject to Condition 7 (*Contingent Write-down*), (i) such payment obligation (and such payment obligation only) will be immediately deemed a due and payable (*fällige*) payment obligation of the Issuer, and (ii) if (A) the relevant Holder has formally requested payment of such payment obligation, (B) such payment obligation has not been fulfilled within the statutory period under Swiss law commencing after the date of such formal request and (C) a writ of payment (*Zahlungsbefehl*) has been issued with respect to such payment obligation pursuant to the DEBA, the relevant Holder may institute proceedings against the Issuer in Switzerland (but not elsewhere) to enforce its rights with respect to such payment obligation under the DEBA.

(c) If a debt collection or insolvency proceeding with respect to the Issuer is instituted in Switzerland in accordance with clause (b) of this Condition 11, the Issuer shall not (i) after having received the writ of payment (*Zahlungsbefehl*) relating to the relevant payment obligation, argue or plead that such payment obligation is not due and payable by the Issuer, or (ii) prior to the declaration of bankruptcy (or similar proceeding under Swiss insolvency laws), make any payment to the relevant Holder under or in connection with the Notes.

(d) In the case of any Event of Default arising under subclause (a)(iii) of this Condition 11 and subject to Condition 7 (*Contingent Write-down*), any Holder may seek specific performance or damages with respect to such Event of Default pursuant to the Swiss Code if so entitled thereunder. Any such damage claim of any Holder will rank junior to the rights and claims of all holders of Senior Obligations.

(e) In the case of any Event of Default arising under subclause (a)(iv) of this Condition 11 and subject to Condition 7 (*Contingent Write-down*), any Holder may, by written notice to the Issuer, declare the principal amount of any of its Notes, together with any accrued and unpaid interest thereon, immediately due and payable, without presentment, demand, protest or other notice of any kind.

(f) No remedy against the Issuer other than those described in this Condition 11 will be available to the Holders in connection with the Issuer's obligations under these Terms and Conditions, whether for the recovery of amounts owing under these Terms and Conditions or in respect of any breach by the Issuer of any of its other obligations under these Terms and Conditions or otherwise. In particular, no Holder may declare (i) the principal amount of any Notes due and payable prior to any Redemption Date, or (ii) any interest on any Notes due and payable prior to the relevant Interest Payment Date, except, in the case of each of subclauses (i) and (ii) of this clause (f), pursuant to clause (e) of this Condition 11.

12. **SUBSTITUTION AND AMENDMENT**

(a) If a Tax Event, a Regulatory Event or an Alignment Event has occurred, the Issuer may, without the consent of the Holders unless so required by mandatory provisions of Swiss law, either substitute all, but not some only, of the Notes for, or amend these Terms and Conditions so that they remain or become, Compliant Securities, *provided* that:

(i) neither a Tax Event nor a Regulatory Event arises as a result of such substitution or amendment;

(ii) FINMA has approved such substitution or amendment (if such approval is then required under applicable Swiss laws and regulations);

(iii) the Issuer has given the Holders not less than 30 days' notice of such substitution or amendment in accordance with Condition 13 (*Notices*), which notice (the "**Substitution or Amendment Notice**") will, subject to subclause (a)(iv) of this Condition 12, be irrevocable, and state the date on which such substitution or amendment will be effective (the "**Substitution or Amendment Effective Date**");

(iv) prior to the publication of any notice pursuant to subclause (a)(iii) of this Condition 12, the Issuer shall deliver to the Fiscal Agent (A) a certificate signed by two Authorised Signatories stating that the relevant requirement or circumstance giving rise to the right to substitute or amend the terms of the Notes, as applicable, pursuant to this clause (a) of this Condition 12 is satisfied and the reasons therefor and such certificate will be conclusive and binding on the Holders, and (B) an opinion of independent legal advisers of recognised standing to the effect that circumstances entitling the Issuer to exercise its right to substitute or amend the terms of the Notes, as applicable, pursuant to this clause (a) of this Condition 12 have arisen; and

(v) no Trigger Event or Viability Event has occurred prior to the relevant Effective Date.

In connection with any substitution or amendment in accordance with this clause (a) of this Condition 12, the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

An "**Alignment Event**" will have occurred if, as a result of any change in National Regulations at any time after the Issue Date, any Relevant Swiss Issuer would be permitted to issue or guarantee (including, without limitation, by providing a guarantee, credit support agreement or similar undertaking), or has issued or guaranteed (including, without limitation, by providing a guarantee, credit support agreement or similar undertaking), a capital instrument that (i) is eligible in full to be (A) treated as Additional Tier 1 Capital and (B) counted towards either the Going-Concern LR Requirement or the Going-Concern RWA Requirement (or both), and (ii) has terms and conditions that (A) include a write-down feature, and (B) contain one or more provisions that are, in the reasonable opinion of UBS Group AG, different in any material respect from those in these Terms and Conditions, which provisions, if they had been included in these Terms and Conditions, would have prevented the Notes from being eligible in full to be treated as Additional Tier 1 Capital and/or to be counted towards either the Going-Concern LR Requirement or the Going-Concern RWA Requirement (or both) immediately prior to such change in National Regulations.

(b) In addition to its rights under clause (a) of this Condition 12, the Issuer may, without the consent of the Holders unless so required by mandatory provisions of Swiss law, make any amendment to these Terms and Conditions that it considers to be (i) necessary or desirable to give effect to the provisions of clause (a) of Condition 14 (*Issuer Substitution*) (including, without limitation, (x) if the Substitute Issuer is organised and/or resident for tax purposes in a jurisdiction other than Switzerland, any amendments to any references to the jurisdiction of "Switzerland" contained herein, including, without limitation, amendments to the definition of the term "Bankruptcy Event", the definition of the term "Business Day", the governing law of the subordination provisions set forth in Condition 4 (*Status and Subordination*) and the provisions of Condition 11 (*Events of Default*), and (y) any amendments to reflect UBS Group AG's guarantee described in subclause (a)(iii) of Condition 14 (*Issuer Substitution*)), or (ii) formal, minor or technical in nature, or (iii) necessary to correct a manifest error, or (iv) not materially prejudicial to the interestsof the Holders.

(c) The Issuer shall notify the Holders of any amendments made pursuant to clause (b) of this Condition 12 in accordance with Condition 13 (*Notices*), which notice shall state the date on which such amendment will be effective.

(d) Any amendment made pursuant to this Condition 12 will be binding on the Holders in accordance with its terms.

## 13. NOTICES

(a) So long as the Notes are listed on the SIX Swiss Exchange, notices to Holders shall be given by the Issuer (i) by means of electronic publication on the internet website of SIX Exchange Regulation Ltd (https://www.ser-ag.com), where notices are as at the Issue Date published under the address https://www.ser-ag.com/en/resources/notifications-market-participants/official-notices.html#/, or (ii) otherwise in accordance with the regulations of the SIX Swiss Exchange. Any notice will be validly given on the date of such publication or, if published more than once, on the date of the first such publication.

(b) If the Notes are for any reason no longer listed on the SIX Swiss Exchange:

(i) if the Notes are represented by one or more Global Certificates deposited with a custodian for DTC, notices to Holders shall only be required to be given by the Issuer in accordance with clause (c) of this Condition 13; or

(ii) if the Global Certificate(s) have been exchanged for Definitive Certificates, the Issuer shall send notices to Holders by first class mail at their respective addresses as recorded in the Register, and any such notice will be validly given on the fourth Business Day after the date of such mailing.

(c) So long as the Notes are represented by one or more Global Certificates deposited with a custodian for DTC, any notices required to be given by the Issuer to the Holders hereunder shall also be given to the Indirect Holders through the Fiscal Agent to DTC for forwarding to the Indirect Holders. Any such notice will be validly given on the date of delivery to DTC in accordance with DTC's applicable procedures.

## 14. ISSUER SUBSTITUTION

(a) The Issuer (for purposes of this Condition 14, the "**Current Issuer**") may, without the consent of the Holders, substitute any entity (whether or not such entity is organised under the laws of Switzerland) (such substitute entity, the "**Substitute Issuer**") for itself as principal debtor under the Notes upon giving no more than 30 and no less than 10 days' notice to the Holders in accordance with Condition 13 (*Notices*), *provided* that:

(i) the Substitute Issuer is UBS Group AG or, if the Substitute Issuer is not UBS Group AG, (A) an exemption exists from the requirement to register the Substitute Issuer as an investment company under the US Investment Company Act, and (B) at least 95 per cent. of the Substitute Issuer's capital and voting rights are held, directly or indirectly, by UBS Group AG;

(ii) the Current Issuer is not in default in respect of any amount payable under the Notes at the time of such substitution;

(iii) if the Substitute Issuer is not UBS Group AG, UBS Group AG has irrevocably and unconditionally guaranteed to the Holders, pursuant to article 111 of the Swiss Code and on a subordinated basis corresponding *mutatis mutandis* to Condition 4 (*Status and Subordination*), the due and punctual payment of principal and interest and all other amounts due and payable by the Substitute Issuer under, or in respect of, the Notes upon receipt of the written request for payment of the relevant amount, and on the terms whereby subclause (iii) of Condition 5(h) (*Cancellation of interest; prohibited interest*), Condition 9 (*Taxation*), Condition 11 (*Events of Default*) and Condition 19 (*No Set-off by Holders*) apply to UBS Group AG and to its obligations under such guarantee either by making the necessary consequential amendments to such Conditions or including such Conditions applicable to UBS Group AG and to its obligations under such guarantee in such guarantee itself, as applicable;

(iv) the Current Issuer and the Substitute Issuer (1) have entered into such documents (the "**Substitution Documents**") as are necessary to give effect to such substitution and pursuant to which the Substitute Issuer has (x) undertaken in favour of each Holder to be bound by these Terms and Conditions as the principal debtor (on a subordinated basis corresponding to Condition 4 (*Status and Subordination*)) under the Notes in place of the Current Issuer and (y) assumed the obligations of the Current Issuer under the Fiscal Agency Agreement, and (2) procure that all action, conditions and things required to be taken, fulfilled and done (including, without limitation, the obtaining of any necessary consents) to ensure that the Substitution Documents represent valid, legally binding and enforceable obligations of the Substitute Issuer have been taken, fulfilled and done and are in full force and effect;

(v) if the Substitute Issuer is resident for tax purposes in a jurisdiction (the "**New Residence**") other than that in which the Current Issuer prior to such substitution was resident for tax purposes (the "**Former Residence**"), the Substitution Documents contain an undertaking by the Substitute Issuer and/or such other provisions as may be necessary to ensure that each Holder has the benefit of an undertaking in terms corresponding to the provisions of Condition 9 (*Taxation*) in relation to the payment of all amounts due and payable under, or in respect of, the Notes and in relation to the guarantee referred to in clause (iii) above, with, in the case of the Notes but not such guarantee, the substitution of references to the Former Residence with references to the New Residence, and an undertaking by the Substitute Issuer to indemnify each Holder against any Tax that is imposed on it by (or by any authority in or of) the New Residence and, if different, the jurisdiction of the Substitute Issuer's organisation with respect to any Note and that would not have been so imposed had the substitution not been made, as well as against any Tax, and any cost or expense, relating to such substitution;

(vi) if the Substitute Issuer is not UBS Group AG, FINMA has approved such substitution (if such approval is then required under applicable Swiss laws and regulations), and the Current Issuer and the Substitute Issuer have obtained all other necessary governmental and other approvals and consents for such substitution and for the performance by the Substitute Issuer of its obligations under the Substitution Documents;

(vii) if the Substitute Issuer is not organised under the laws of Switzerland, the Substitute Issuer has appointed a process agent as its agent in Switzerland to receive service of process on its behalf in relation to any legal proceedings arising out of or in connection with the Notes; and

(viii) such substitution does not give rise to a Tax Event or a Regulatory Event.

(b) Upon any substitution pursuant to clause (a) of this Condition 14, (i) the Substitute Issuerwill succeed to, and be substituted for, and may exercise every right and power of, the Current Issuer under the Notes with the same effect as if the Substitute Issuer had been named as Issuer in these Terms and Conditions, and (ii) the Current Issuer will be releasedfrom its obligations under the Notes.

(c) After giving effect to any substitution pursuant to clause (a) of this Condition 14, (i) references to the "Issuer" in the Notes and these Terms and Conditions will be references to the Substitute Issuer, and (ii) references to the "Tax Jurisdiction" in the Notes and these Terms and Conditions will be read and construed as including the jurisdiction of establishment of the Substitute Issuer and, if different, the jurisdiction in which the Substitute Issuer is resident for tax purposes instead of or in addition to (as the case may be) references to the jurisdiction of establishment of the Issuer and Switzerland.

## 15. CONSOLIDATION, MERGER OR SALE

The Issuer will not consolidate with, merge with or into, or sell, convey, transfer or otherwise dispose of all or substantially all of its property and assets (as an entirety or substantially as an entirety in one transaction or a series of related transactions) to, any Person (other than with, into or to any Person of which at least 95 per cent. of such Person's capital and voting rights are held, directly or indirectly, by the Issuer) or permit any Person to merge with or into the Issuer unless (a) the Issuer will be the continuing Person, or (b) the Person formed by such consolidation or into which the Issuer is merged or that acquired such property and assets of the Issuer expressly assumes in writing (or, in the case of an acquisition of property and assets, guarantees) all of the obligations of the Issuer under the Notes.

## 16. FURTHER ISSUES

The Issuer may from time to time without the consent of the Holders issue further notes and, *provided* that such notes have the same terms and conditions as the Notes in all respects (or in all respects except for the issue date and/or first date on which interest is paid), such further notes will be consolidated and form a single series with the Notes. If the Issuer issues any such further notes pursuant to this Condition 16, references in these Terms and Conditions to "**Notes**" include such further notes, unless the context otherwise requires.

## 17. CURRENCY INDEMNITY

Any amount received or recovered by any Holder in a currency other than USD (whether as a result of, or of the enforcement of, a judgment or order of a court of any jurisdiction, in the insolvency, winding-up or dissolution of the Issuer or otherwise) under the Notes will only constitute a discharge of the Issuer to the extent of the amount in USD that such Holder is able to purchase with the amount so received or recovered in such other currency on the date of such receipt or recovery (or, if it is not practicable to purchase USD with such amount on such date, on the first date on which it is practicable to do so). If the amount of USD that such Holder is able to purchase is less than the amount owed by the Issuer to such Holder under the Notes, the Issuer shall indemnify such Holder against any loss sustained by it as a result. In addition, the Issuer shall indemnify such Holder for the costs of making such purchase. For purposes of this Condition 17, it is sufficient for the relevant Holder to demonstrate that it would have suffered a loss had an actual purchase been made. The indemnities under this Condition 17 will (a) constitute a separate and independent obligation from the Issuer's other obligations hereunder, (b) give rise to a separate and independent cause of action, (c) apply irrespective of any indulgence granted by any Holder and (d) continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any amount due under the Notes or any other judgment or order.

## 18. RULE 144A INFORMATION

If at any time the Issuer is neither a reporting company under Section 13 or Section 15(d) of the US Exchange Act, nor exempt from reporting pursuant to Rule 12g3-2(b) under the US Exchange Act, the Issuer will comply with any applicable requirements of Rule 144A(d)(4) under the US Securities Act in relation to the Notes.

19. **NO SET-OFF BY HOLDERS**

Subject to applicable law, each Holder and Indirect Holder, by acceptance of any direct or beneficial interest in a Note, agrees that it will not, and waives its right to, exercise, claim or plead any right of set-off, compensation or retention with respect to any amount owed to it by the Issuerin respect of, or arising in connection with, the Notes.

20. **NO CONVERSION**

Notwithstanding the powers of FINMA under articles 25 *et seq.* of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG, the Notes shall under no circumstances be converted into equity of the Issuer, and shall only absorb losses pursuant to these Terms and Conditions.

21. **GOVERNING LAW AND JURISDICTION**

(a) The Notes shall be governed by and construed in accordance with the laws of Switzerland.

(b) The courts of the Canton of Zurich (venue being the City of Zurich) shall have exclusive jurisdiction to settle any disputes that may arise out of or in connection with the Notes.

## TERMS AND CONDITIONS OF THE NOTES

The terms and conditions of the Tier 1 Capital Notes issued by UBS Group AG are as follows:

1. **DEFINITIONS**

"**Additional Amounts**" has the meaning assigned to such term in clause (b) of Condition 8 (*Taxation*).

"**Additional Tier 1 Capital**" means, at any time, any item that qualifies as additional tier 1 capital (*zusätzliches Kernkapital*) under National Regulations at such time.

"**Adjustment Spread**" means, with respect to any Alternative Benchmark Rate determined in accordance with the provisions of clause (c) of Condition 4 (*Interest*), a spread (which may be positive or negative), or a formula or methodology for calculating such a spread, applied to such Alternative Benchmark Rate in order to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as applicable) to Holders as a result of the replacement of the Existing Benchmark Rate with such Alternative Benchmark Rate.

"**Affected Reset Interest Period**" has the meaning assigned to such term in subclause (c)(i) of Condition 4 (*Interest*).

"**Agency Agreement**" means the Agency Agreement dated as of the Issue Date, among the Issuer, the Principal Paying Agent, the Calculation Agent and the other agents from time to time party thereto, as amended, supplemented or otherwise modified from time to time.

"**Alignment Event**" has the meaning assigned to such term in clause (a) of Condition 11 (*Substitution and Amendment*).

"**Alternative Benchmark Rate**" has the meaning assigned to such term in subclause (c)(i) of Condition 4 (*Interest*).

"**Alternative Loss Absorption Date**" has the meaning assigned to such term in clause (f) of Condition 6 (*Contingent Write-down*).

"**Alternative Relevant Page**" has the meaning assigned to such term in subclause (c)(v)(A) of Condition 4 (*Interest*).

"**Alternative Relevant Time**" has the meaning assigned to such term in subclause (c)(v)(A) of Condition 4 (*Interest*).

"**Auditor**" means the accounting firm (i) appointed by the Board of Directors of the Group Holding Company or the shareholders of the Group Holding Company, as the case may be, to provide, among other things, audit and/or review opinions on the Group Holding Company's financial statements, and (ii) approved by FINMA in accordance with the Financial Market Supervisory Act (*Finanzmarktaufsichtsgesetz*) of 22 June 2007, as amended from time to time.

"**Authorised Signatories**" means any two authorised officers of the Issuer signing jointly.

"**Balance Sheet Date**" means (i) with respect to any Ordinary Publication Date, the cut-off date for the measurement of the CET1 Ratio in the Quarterly Financial Accounts published on such Ordinary Publication Date, and (ii) with respect to any Extraordinary Publication Date, the cut-off date for the Reviewed Interim Measurement published upon the instruction of FINMA on such Extraordinary Publication Date.

"**Bankruptcy Event**" means any of the following events with respect to the Issuer: (i) the adjudication of bankruptcy (*Konkurseröffnung*) pursuant to articles 171, 189, 190, 191 or 192 of the DEBA, including, without limitation, in connection with article 725a of the Swiss Code, (ii) the granting of a provisional or definitive stay of execution (*provisorische oder definitive Nachlassstundung*) pursuant to article 293 et seq. of the DEBA, (iii) the ordering of restructuring proceedings (*Sanierungsverfahren*) pursuant to articles 28 to 32 of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in

Switzerland such as UBS Group AG, and/or (iv) the ordering of liquidation proceedings (*Liquidation*) pursuant to articles 33 to 37g of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG; *provided*, *however*, that none of the following will constitute a Bankruptcy Event: (x) mere debt collection proceedings (*Betreibungsverfahren*) pursuant to article 38 *et seq.* of the DEBA, (y) proceedings in connection with a freezing order (*Arrestverfahren*) pursuant to article 271 *et seq.* of the DEBA, and/or (z) the institution of protective measures (*Schutzmassnahmen*) pursuant to article 26 of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG, including, in the case of each of subclauses (x), (y) and (z), any steps (other thanany steps described in clauses (i) through (iv) of this definition) taken under or in connection therewith.

"**BIS Regulations**" means, at any time, the capital adequacy standards and guidelines promulgated by the Basel Committee on Banking Supervision, as implemented by FINMA in Switzerland at such time.

"**BIS Risk Weighted Assets**" means, as of any Balance Sheet Date, the aggregate amount, in the Presentation Currency, of risk-weighted assets of the Group as of such Balance Sheet Date, as determined by the Group Holding Company pursuant to the BIS Regulations applicable to the Group Holding Company as of such Balance Sheet Date, and as (i) disclosed in the Quarterly Financial Accounts published on the relevant Ordinary Publication Date or (ii) may be disclosed as a component of the Reviewed Interim Measurement published upon the instruction of FINMA on the relevant Extraordinary Publication Date, as applicable. For the avoidance doubt, the term "**risk-weighted assets**" as used in this definition has the meaning assigned to such term in the BIS Regulations in effect as of the relevant Balance Sheet Date.

"**Business Day**" means a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including, without limitation, dealing in foreign exchange and foreign currency deposits) in Zurich.

"**Calculation Agent**" means UBS AG, in its capacity as calculation agent for the Notes, and includes any successor calculation agent for the Notes appointed in accordance with the terms of the Agency Agreement.

"**Calculation Amount**" means CHF 200,000.

"**Calculation Period**" means the relevant period for which interest is to be calculated from (and including) the first day in such period to (but excluding) the last day in such period.

"**Capital Adequacy Ordinance**" means the Ordinance concerning Capital Adequacy and Risk Diversification for Banks and Securities Firms of 1 June 2012, as amended from time to time, or any successor Swiss law or regulation.

"**CET1 Capital**" means, as of any Balance Sheet Date, the aggregate amount, in the Presentation Currency, of items that constitute common equity tier 1 capital of the Group as of such Balance Sheet Date, less any deductions from common equity tier 1 capital required to be made, in each case as determined by the Group Holding Company pursuant to the BIS Regulations applicable to the Group Holding Company as of such Balance Sheet Date, and as (i) disclosed in the Quarterly Financial Accounts published on the relevant Ordinary Publication Date or (ii) may be disclosed as a component of the Reviewed Interim Measurement published upon the instruction of FINMA on the relevant Extraordinary Publication Date, as applicable. For the avoidance of doubt, the term "**common equity tier 1 capital**" as used in this definition has the meaning assigned to such term in the BIS Regulations in effect as of the relevant Balance Sheet Date.

"**CET1 Ratio**" means, as of any Balance Sheet Date, the CET1 Capital as of such Balance Sheet Date, divided by the BIS Risk Weighted Assets as of such Balance Sheet Date, expressed as a percentage, such ratio (or the components thereof) as determined by the Group Holding Company, and (i) as disclosed in the Quarterly Financial Accounts published on the relevant Ordinary Publication Date or (ii) constituting (or as disclosed in) the Reviewed Interim Measurement published upon the instruction of FINMA on the relevant Extraordinary Publication Date, as applicable.

"**CHF**" means Swiss francs.

"**Compliant Securities**" means securities issued by UBS Group AG or any of its subsidiaries that have economic terms not materially less favourable to a Holder than these Terms and Conditions (as reasonably determined by the Issuer), provided that:

(a) such securities (A) include terms that provide for the same interest rate and principal from time to time applying to the Notes, (B) rank *pari passu* with the Notes and (C) preserve any existing rights under these Terms and Conditions to any accrued and unpaid interest that has not been satisfied;

(b) where such securities are issued by a subsidiary of UBS Group AG, UBS Group AG has irrevocably and unconditionally guaranteed to the holders of such securities, on a subordinated basis corresponding *mutatis mutandis* to Condition 3 (*Status and Subordination*), the due and punctual payment of all amounts due and payable by such subsidiary under, or in respect of, such securities pursuant to article 111 of the Swiss Code;

(c) where the Notes that have been substituted or amended were listed immediately prior to their substitution or amendment, such securities are listed on (A) the SIX Swiss Exchange or (B) such other internationally recognised stock exchange selected by the Issuer; and

(d) where the Notes that have been substituted or amended were rated by a rating agency immediately prior to such substitution or amendment, each such rating agency has ascribed, or announced its intention to ascribe and publish, an equal or higher rating to such securities.

"**Contingent Write-down**" means the events described in subclauses (i) through (iii) of clause (d) of Condition 6 (*Contingent Write-down*).

"**Day Count Fraction**" means, in respect of any Calculation Period, the number of days in such Calculation Period divided by 360 calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360x(Y_2 - Y_1)] + [30x(M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:
"**Y1**" is the year, expressed as a number, in which the first day of the Calculation Period falls;

"**Y2**" is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

"**M1**" is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

"**M2**" is the calendar month, expressed as number, in which the day immediately following the last day included in the Calculation Period falls;

"**D1**" is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D1 will be 30; and

"**D2**" is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30.

"**DEBA**" means the Swiss Federal Debt Enforcement and Bankruptcy Act of 11 April 1889, as amended from time to time.

"**Distributable Items**" means, in respect of any Interest Payment Date, the aggregate of (i) net profits carried forward and (ii) freely distributable reserves, in each case, less any amounts that must be contributed to legal reserves under applicable law, all in UBS Group AG's reporting currency and as appearing in the Relevant Accounts.

"**Event of Default**" has the meaning assigned to such term in clause (a) of Condition 10 (*Events of Default*).

"**Existing Benchmark Rate**" has the meaning assigned to such term in clause (c) of Condition 4 (*Interest*).

"**Extraordinary Publication Date**" means the Business Day on which a Reviewed Interim Measurement is published upon the instruction of FINMA, after FINMA has determined that the conditions for issuing a Trigger Event Write-down Notice in accordance with Condition 6 (*Contingent Write-down*) have been met.

"**Extraordinary Trigger Event Notice Date**" has the meaning assigned to such term in subclause (b)(i) of Condition 6 (*Contingent Write-down*).

"**FBA**" means the Swiss Federal Act on Banks and Savings Institutions of 8 November 1934, as amended from time to time.

"**FINMA**" means the Swiss Financial Market Supervisory Authority FINMA and any successor thereto.

"**First Call Date**" means 16 February 2027.

"**FISA**" means the Swiss Federal Intermediated Securities Act of 3 October 2008, as amended from time to time.

"**Fixed Interest Rate**" means 3.375 per cent. per annum.

"**Former Residence**" has the meaning assigned to such term in subclause (a)(v) of Condition 13 (*Issuer Substitution*).

"**Going-Concern LR Requirement**" means a requirement under National Regulations for systemically relevant banks (*systemrelevante Banken*) to hold a minimum amount of going-concern capital (*Eigenmittel zur ordentlichen Weiterführung der Bank*), which amount is set by reference to the leverage ratio (*Höchstverschuldungsquote*) of such bank.

"**Going-Concern RWA Requirement**" means a requirement under National Regulations for systemically relevant banks (*systemrelevante Banken*) to hold a minimum amount of going-concern capital (*Eigenmittel zur ordentlichen Weiterführung der Bank*), which amount is set by reference to the risk weighted assets (*risikogewichtete Positionen*) of such bank.

"**Group**" means, at any time, the Group Holding Company and all its subsidiaries and other entities that are included in the Group Holding Company's consolidated capital adequacy reports prepared pursuant to National Regulations.

"**Group Holding Company**" means, at any time, the top Swiss holding company at such time of the financial group to which UBS Group AG belongs for purposes of preparing consolidated capital adequacy reports pursuant to National Regulations. As at the Issue Date, the Group Holding Company is UBS Group AG.

"**Higher-Trigger Amount**" means, as of any Publication Date, the sum of (i) the maximum portion of the aggregate principal amount, in the Presentation Currency of the Quarterly Financial Accounts or Reviewed Interim Measurement, as the case may be, to which such Publication Date relates, of all Higher-Trigger Contingent Capital, if any, outstanding on the relevant Balance Sheet Date that could be converted into equity and/or fully or partially written down, or otherwise operate to increase the CET1 Capital, if a Higher-Trigger Write-down/Conversion Notice were delivered in accordance with the terms thereof, and (ii) the maximum portion of the aggregate principal amount, in the Presentation Currency of the Quarterly Financial Accounts or Reviewed Interim

Measurement, as the case may be, to which such Publication Date relates, of all Higher-Trigger Contingent Capital, if any, issued after the relevant Balance Sheet Date, but prior to such Publication Date, that could be converted into equity and/or fully or partially written down, or otherwise operate to increase the CET1 Capital, if a Higher-Trigger Write-down/Conversion Notice were delivered in accordance with the terms thereof, in the case of each of clauses (i) and (ii), as determined by UBS Group AG. For purposes of clause (ii) of this definition and, in the case of an Extraordinary Publication Date, clause (i) of this definition, the aggregate principal amount of any Higher-Trigger Contingent Capital that is not denominated in the Presentation Currency will be converted into the Presentation Currency at the applicable prevailing exchange rate on the last Business Day preceding the relevant Publication Date, as determined by UBS Group AG. In the case of an Ordinary Publication Date, for purposes of clause (i) of this definition, the aggregate principal amount of any Higher-Trigger Contingent Capital that is not denominated in the Presentation Currency will be converted into the Presentation Currency at the applicable exchange rate used for such purposes in the relevant Quarterly Financial Accounts.

"**Higher-Trigger Contingent Capital**" means any instrument issued by, or any other obligation of, any member of the Group that (i) is issued or owed to holders that are not members of the Group and (ii) is required pursuant to its terms to be converted into equity and/or fully or partially written down, or otherwise operating to increase the CET1 Capital, when the CET1 Ratio (or equivalent capital measure of the Group described in the terms and conditions thereof) falls below a threshold that is higher than the Write-down Threshold (with respect to the relevant Higher-Trigger Contingent Capital, its "**Higher-Trigger Threshold**").

"**Higher-Trigger Threshold**" has the meaning assigned to such term in the definition of the term "Higher-Trigger Contingent Capital".

"**Higher-Trigger Write-down/Conversion Date**" has the meaning assigned to such term in the definition of the term "Higher-Trigger Write-down/Conversion Notice".

"**Higher-Trigger Write-down/Conversion Notice**" means a notice delivered pursuant to the terms of any Higher-Trigger Contingent Capital that notifies the holders thereof that the CET1 Ratio (or similar measure or other event described in the terms and conditions of such Higher-Trigger Contingent Capital) has fallen below its Higher-Trigger Threshold and, consequently, that such Higher-Trigger Contingent Capital will be converted into equity and/or fully or partially written down, or otherwise operate to increase the CET1 Capital, as applicable, as of a particular date (such date, the "**Higher-Trigger Write-down/Conversion Date**"). For the avoidance of doubt, if the terms and conditions of such Higher-Trigger Contingent Capital permit FINMA to waive the conversion into equity and/or write-down of such Higher-Trigger Contingent Capital notwithstanding the fact that the CET1 Ratio (or similar measure or other event described in the terms and conditions of such Higher-Trigger Contingent Capital) has fallen below the Higher-Trigger Threshold, the non-issuance of such a waiver by FINMA between the relevant Publication Date and the Trigger Event Notice Date will be deemed equivalent to the delivery of a Higher-Trigger Write-down/Conversion Notice for purposes of subclause (b)(ii) of Condition 6 (*Contingent Write-down*).

"**Holder**" means, with respect to any Note, the person or persons holding such Note in a securities account (*Effektenkonto*) that is in its or their name, or, in the case of intermediaries (*Verwahrungsstellen*), the intermediary or intermediaries holding such Note for its or their own account in a securities account (*Effektenkonto*) that is in its or their name.

"**Independent Adviser**" means an independent financial institution of international repute or other independent financial adviser experienced in the international capital markets, in each case, appointed by the Issuer at its own expense.

"**Independent Adviser Determination Cut-off Date**" has the meaning assigned to such term in subclause (c)(i) of Condition 4 (*Interest*).

"**Interest Payment Date**" has the meaning assigned to such term in subclause (a)(ii) of Condition 4 (*Interest*).

"**Interest Period**" means each period beginning on (and including) an Interest Payment Date (or, in the case of the first Interest Period, the Issue Date) and ending on (but excluding) the next Interest Payment Date.

"**Interest Rate**" means the Fixed Interest Rate and/or Reset Interest Rate, as the case may be.

"**Intermediary**" has the meaning assigned to such term in clause (b) of Condition 2 (*Amount and Denomination; Form and Transfer*).

"**Intermediated Securities**" has the meaning assigned to such term in clause (b) of Condition 2 (*Amount and Denomination; Form and Transfer*).

"**Issue Date**" means 16 February 2022.

"**Issuer**" means UBS Group AG in its capacity as issuer of the Notes.

"**Junior Obligations**" means (i) all classes of share capital and participation securities (if any) of the Issuer and (ii) all other obligations of the Issuer that rank, or are expressed to rank, junior to claims in respect of the Notes and/or any Parity Obligation.

"**Margin**" means 3.335 per cent. per annum.

"**Mid Market Swap Rate**" means, in relation to any Reset Interest Period:

(a) the annual-mid rate for Swiss franc swaps with a term of five years and a floating leg based on SARON (Swiss Average Rate Overnight) that appears on the Relevant Page as of the Relevant Time on the Reset Determination Date in relation to such Reset Interest Period; or

(b) if such rate does not appear on the Relevant Page at the Relevant Time on such Reset Determination Date, the Reset Reference Bank Rate in relation to such Reset Interest Period.

"**Mid Market Swap Rate Quotations**" means, in relation to any Reset Interest Period, the arithmetic mean of the bid and offered rates for the annual fixed leg (calculated on an Actual/360 day count basis) of a fixed-for-floating Swiss franc interest rate swap transaction that:

(a) has a term of five years commencing on the Reset Date on which such Reset Interest Period commences; and

(b) is in an amount that is representative for a single transaction in the relevant market at the relevant time with an acknowledged dealer of good credit in the swap market; and

(c) has a floating leg based on SARON (Swiss Average Rate Overnight) (calculated on the day count basis customary for floating rate payments in Swiss francs).

"**National Regulations**" means, at any time, (i) the Swiss national banking and capital adequacy laws, and (ii) the capital adequacy regulations promulgated by the Swiss Federal Council (*Bundesrat*) or FINMA and the interpretation thereof by FINMA or any other competent Swiss authority, in the case of each of clauses (i) and (ii), directly applicable to UBS Group AG (and/or, if different, the Group Holding Company) and/or the Group at such time.

"**New Residence**" has the meaning assigned to such term in subclause (a)(i)(E) of Condition 13 (*Issuer Substitution*).

"**Notes**" means the CHF 265,000,000 3.375 per cent. Tier 1 Capital Notes issued by the Issuer on the Issue Date.

"**Ordinary Publication Date**" means each Business Day on which Quarterly Financial Accounts are published.

"**Ordinary Shares**" means the registered ordinary shares of UBS Group AG.

"**Ordinary Trigger Event Notice Date**" has the meaning assigned to such term in subclause (b)(i) of Condition 6 (*Contingent Write-down*).

"**Parity Obligations**" means (i) all obligations of the Issuer in respect of Tier 1 Instruments (excluding any such obligations that rank, or are expressed to rank, junior to claims in respect of the Notes), and (ii) any other securities or obligations (including, without limitation, any guarantee, credit support agreement or similar undertaking) of the Issuer that rank, or are expressed to rank, *pari passu* with claims in respect of the Notes and/or any Parity Obligation.

"**Paying Agent**" has the meaning assigned to such term in clause (b) of Condition 7 (*Payments; Paying Agents*).

"**Permitted Transactions**" means:

(a) repurchases, redemptions or other acquisitions of any Ordinary Shares in connection with (x) any employment contract, benefit plan or similar arrangement with, or for the benefit of, any employees, officers, directors or consultants of any member of the Group, (y) a dividend reinvestment or shareholder share purchase plan or (z) the issuance of any Ordinary Shares (or securities convertible into, or exercisable for, Ordinary Shares) as consideration for an acquisition consummated by any member of the Group;

(b) market-making in Ordinary Shares as part of the securities business of any member of the Group;

(c) purchases of fractional interests in any Ordinary Shares pursuant to the conversion or exchange provisions of (x) such Ordinary Shares or (y) any security convertible into, or exercisable for, Ordinary Shares;

(d) redemptions or repurchases of Ordinary Shares pursuant to any shareholders' rights plan; and

(e) distributions in cash or in kind on, or repurchases, redemptions or other acquisitions of, any Ordinary Shares as a part of any solvent reorganisation, reconstruction, amalgamation or merger of any member of the Group, so long as such member (or the successor entity resulting from such reorganisation, reconstruction, amalgamation or merger) continues to be a member of the Group.

"**Presentation Currency**" means (i) with respect to any Quarterly Financial Accounts, the presentation currency of such Quarterly Financial Accounts, and (ii) with respect to any Reviewed Interim Measurement, the Presentation Currency of the Quarterly Financial Accounts that will be prepared for the relevant financial quarterly or annual period in which the relevant Extraordinary Publication Date falls.

"**Principal Paying Agent**" means UBS AG, in its capacity as principal paying agent for the Notes, and includes any successor principal paying agent for the Notes appointed in accordance with the terms of the Agency Agreement.

"**Public Sector**" means the government of, or a governmental agency or the central bank in, the country of incorporation of the Group Holding Company.

"**Publication Date**" means an Ordinary Publication Date or an Extraordinary Publication Date, as the case may be.

"**Quarterly Financial Accounts**" means (i) the financial statements of the Group (including, without limitation, the notes thereto) in respect of a financial quarter published by the Group Holding Company, which have been reviewed by the Auditor in accordance with the International Standards on Auditing; *provided, however*, that, if the financial statements of the Group in respect of the last quarter of any year are not so reviewed, the term "Quarterly Financial Accounts" in respect of such quarter will mean instead the annual financial statements of the Group (including, without limitation, the notes thereto) in respect of such year, which have been audited by the Auditor in accordance with the International Standards on Auditing and are published in the annual report of the Group Holding Company for such year, or (ii) in the event that the Group does not publish quarterly financial statements as described in clause (i) of this definition, the financial disclosures published by the Group pursuant to and in compliance with FINMA Circular 2016/01 "Capital Adequacy Disclosures Banks", as amended from time to time, or pursuant to and in compliance with any successor circular or regulation applicable to the Group Holding Company, *provided* that such financial disclosures are published for each financial quarter and the interim earnings included in such disclosures have been reviewed by the Auditor in accordance with International Standards on Auditing.

"**Redemption Date**" has the meaning assigned to such term in subclause (e)(i) of Condition 5 (*Redemption and Purchase*).

"**Redemption Notice**" has the meaning assigned to such term in subclause (e)(i) of Condition 5 (*Redemption and Purchase*).

"**Regulatory Event**" has the meaning assigned to such term in subclause (d)(ii) of Condition 5 (*Redemption and Purchase*).

"**Relevant Accounts**" means, in respect of any Interest Payment Date, the most recently published audited unconsolidated annual financial statements of UBS Group AG prepared in accordance with the Swiss Code.

"**Relevant Date**" means, with respect to any payment, (i) the date on which such payment first becomes due under the Notes (the "**Scheduled Due Date**"), or (ii) if the full amount of the moneypayable on the Scheduled Due Date has not been received by the Principal Paying Agent on or before the Scheduled Due Date, the date on which the full amount of the money due on the Scheduled Due Date has been received by the Principal Paying Agent.

"**Relevant Page**" means the GOTTEX page "CHF LCH – CHF Main Page" (or (i) such other page as may replace that page on GOTTEX, or (ii) such other page on such other information service that may replace GOTTEX, in each case, as may be nominated by the person providing or sponsoring the information appearing there for purposes of displaying rates comparable to the Mid Market Swap Rate).

"**Relevant Swiss Issuer**" means, at any time, any bank, or any member of a banking group (including, without limitation, the Group), that is subject to a Going-Concern LR Requirement and a Going-Concern RWA Requirement at such time.

"**Relevant Time**" means 11:00 a.m. (Zurich time).

"**Reset Date**" means the First Call Date and each day that falls on the fifth anniversary of the immediately preceding Reset Date.

"**Reset Determination Date**" means, in relation to any Reset Interest Period, the day falling two Business Days prior to the Reset Date on which such Reset Interest Period commences.

"**Reset Interest Amount**" has the meaning assigned to such term in clause (b) of Condition 4 (*Interest*).

"**Reset Interest Period**" means each period from (and including) any Reset Date and ending on (but excluding) the next Reset Date.

"**Reset Interest Rate**" means, in relation to any Reset Interest Period, the sum of the Margin and the Mid Market Swap Rate in relation to such Reset Interest Period.

"**Reset Reference Bank Rate**" means, in relation to any Reset Interest Period, the percentage rate determined by the Calculation Agent on the basis of the Mid Market Swap Rate Quotations in relation to such Reset Interest Period provided by the Reset Reference Banks to the Calculation Agent at approximately the Relevant Time on the Reset Determination Date in relation to such Reset Interest Period. If at least three such quotations are provided, the Reset Reference Bank Rate for such Reset Interest Period will be the arithmetic mean of the quotations provided, eliminating the highest quotation (or, in the event of equality, one of the highest) and the lowest quotation (or, in the event of equality, one of the lowest). If only two such quotations are provided, the Reset

Reference Bank Rate for such Reset Interest Period will be the arithmetic mean of the quotations provided. If only one such quotation is provided, the Reset Reference Bank Rate for such Reset Interest Period will be the quotation provided. If no quotations are provided, the Reset Reference Bank Rate for such Reset Interest Period will be equal to (i) in the case of each Reset Interest Period other than the Reset Interest Period commencing on the First Call Date, the Mid Market Swap Rate in relation to the immediately preceding Reset Interest Period, or (ii) in the case of the Reset Interest Period commencing on the First Call Date, 0.040 per cent. per annum.

"**Reset Reference Banks**" means five major banks in the swap, money, securities or other market most closely connected with the Mid Market Swap Rate, as selected by the Issuer after consultation with the Calculation Agent.

"**Reviewed Interim Measurement**" means an interim measurement of the CET1 Ratio, with respect to which the Auditor has performed procedures in accordance with the International Standard on Related Services (and relevant Swiss standards and practices) applicable to agreed-upon procedures engagements.

"**Scheduled Due Date**" has the meaning assigned to such term in the definition of the term "Relevant Date".

"**Senior Obligations**" means all obligations of the Issuer that are unsubordinated or that are subordinated and do not constitute either Junior Obligations or Parity Obligations.

"**Substitute Issuer**" has the meaning assigned to such term in clause (a) of Condition 13 (*Issuer Substitution*).

"**Substitution Documents**" has the meaning assigned to such term in subclause (a)(iv) of Condition 13 (*Issuer Substitution*).

"**Substitution or Amendment Effective Date**" has the meaning assigned to such term in subclause (a)(iii) of Condition 11 (*Substitution and Amendment*).

"**Substitution or Amendment Notice**" has the meaning assigned to such term in subclause (a)(iii) of Condition 11 (*Substitution and Amendment*).

"**Swiss Code**" means the Swiss Code of Obligations of 30 March 1911, as amended from time to time.

"**Tax Event**" has the meaning assigned to such term in subclause (c)(ii) of Condition 5 (*Redemption and Purchase*).

"**Tax Jurisdiction**" means Switzerland.

"**Taxes**" has the meaning assigned to such term in clause (a) of Condition 8 (*Taxation*).

"**Tier 1 Capital**" means Additional Tier 1 Capital or any item that qualifies as common equity tier 1 capital pursuant to National Regulations.

"**Tier 1 Instruments**" means any and all (i) securities or other obligations (other than Tier 1 Shares) issued by UBS Group AG or (ii) shares, securities, participation securities or other obligations (other than Tier 1 Shares) issued by a subsidiary of UBS Group AG and having the benefit of a guarantee, credit support agreement or similar undertaking of UBS Group AG, each of which shares, securities, participation securities or other obligations described in clauses (i) and (ii) of this definition qualify, or are issued in respect of a security that qualifies, as Tier 1 Capital of the Group and/or UBS Group AG (without regard to quantitative limits on such capital) on a consolidated (*Finanzgruppe*) or on an unconsolidated (*Einzelinstitut*) basis.

"**Tier 1 Shares**" means all classes of share capital and participation certificates (if any) of UBS Group AG or any subsidiary of UBS Group AG that qualify as common equity tier 1 capital of the Group and/or UBS Group AG under National Regulations on a consolidated (*Finanzgruppe*) or on an unconsolidated (*Einzelinstitut*) basis.

"**Trigger Breach Determination Date**" has the meaning assigned to such term in subclause (b)(i) of Condition 6 (*Contingent Write-down*).

"**Trigger CET1 Ratio**" means, as of any Publication Date, (i) the sum of (x) the CET1 Capital as of the relevant Balance Sheet Date and (y) the Higher-Trigger Amount as of such Publication Date, divided by (ii) the BIS Risk Weighted Assets as of the relevant Balance Sheet Date, expressed as a percentage.

"**Trigger Event**" has the meaning assigned to such term in subclause (a)(ii) of Condition 6 (*Contingent Write-down*).

"**Trigger Event Notice Date**" means an Ordinary Trigger Event Notice Date or an Extraordinary Trigger Event Notice Date, as the case may be.

"**Trigger Event Write-down Date**" has the meaning assigned to such term in the definition of the term "Trigger Event Write-down Notice".

"**Trigger Event Write-down Notice**" means, with respect to any Publication Date, a notice (i) stating that (x) the Trigger CET1 Ratio as of such Publication Date is less than the Write-down Threshold, and (y) a Contingent Write-down will take place and (ii) specifying the date on which the Contingent Write-down will take place, which date shall, subject to postponement pursuant to subclause (b)(ii) of Condition 6 (*Contingent Write-down*), be no later than ten Business Days after the date of such notice (the "**Trigger Event Write-down Date**").

"**Viability Event**" has the meaning assigned to such term in subclause (c)(ii) of Condition 6 (*Contingent Write-down*).

"**Viability Event Write-down Date**" has the meaning assigned to such term in subclause (c)(i) ofCondition 6 (*Contingent Write-down*).

"**Viability Event Write-down Notice**" has the meaning assigned to such term in subclause (c)(ii) of Condition 6 (*Contingent Write-down*).

"**Write-down Date**" means, with respect to any Contingent Write-down, the Trigger Event Write-down Date or Viability Event Write-down Date, as applicable.

"**Write-down Notice**" means, with respect to any Contingent Write-down, the relevant Trigger Event Write-down Notice or Viability Event Write-down Notice, as applicable.

"**Write-down Notice Date**" means, with respect to any Contingent Write-down, the date of the relevant Write-down Notice.

"**Write-down Threshold**" means 7 per cent.

## 2. AMOUNT AND DENOMINATION; FORM AND TRANSFER

(a) *Amount and denomination*

The initial aggregate principal amount of the Notes will be CHF 265,000,000. The Notes will be issued to Holders in minimum denominations of CHF 200,000 and integral multiples of CHF 200,000 in excess thereof. The principal amount of the Notes may be written down in the circumstances and in the manner described in Condition 6 (*Contingent Write-down*). The Notes may only be held and transferred in minimum denominations of CHF 200,000 and integral multiples of CHF 200,000 in excess thereof.

(b) *Uncertificated securities*

The Notes are issued in uncertificated form as uncertificated securities (*einfache Wertrechte*) in accordance with article 973c of the Swiss Code. The uncertificated securities (*einfache Wertrechte*) will be created by the Issuer by means of a registration in its register of uncertificated securities (*Wertrechtebuch*). Such uncertificated securities will then be entered into the main register (*Hauptregister*) of SIX SIS Ltd or any other intermediary (*Verwahrungsstelle*) in Switzerland recognised for such purposes by SIX Swiss Exchange Ltd (SIX SIS Ltd or any such other intermediary, the "**Intermediary**"). Once the uncertificated securities are registered in the main register (*Hauptregister*) of the Intermediary and entered into the accounts of one or more participants of the Intermediary, the Notes will constitute intermediated securities (*Bucheffekten*) within the meaning of the FISA ("**Intermediated Securities**").

So long as the Notes are Intermediated Securities, the Notes may only be transferred by the entry of the transferred Notes in a securities account of the transferee, as set out in the provisions of the FISA.

The records of the Intermediary will determine the number of Notes held through each participant in the Intermediary.

Neither the Issuer nor any Holder nor any other person will at any time have the right to effect or demand the conversion of the Notes into, or the delivery of, a global note (*Globalurkunde*) or individually certificated securities (*Wertpapiere*).

## 3. STATUS AND SUBORDINATION

(a) *Status*

The Notes constitute direct, unsecured and subordinated obligations of the Issuer and rank *pari passu* and without any preference among themselves. The rights and claims of the Holders against the Issuer under the Notes are subordinated as described in clause (b) of this Condition 3.

(b) *Subordination*

In the event of (i) a Bankruptcy Event or (ii) an order being made, or an effective resolution being passed, for the liquidation or winding-up of the Issuer (except, in any such case, a solvent liquidation or winding-up of the Issuer solely for purposes of a reorganisation, reconstruction or amalgamation of the Issuer or the substitution in place of the Issuer of a successor in business to the Issuer, the terms of which reorganisation, reconstruction, amalgamation or substitution (x) have previously been approved by a valid resolution of the Holders and (y) do not provide that the Notes shall become redeemable in accordance with these Terms and Conditions), the rights and claims of the Holders against the Issuer in respect of or arising under (including, without limitation, any damages awarded for breach of any obligation under) the Notes will, subject to any obligations that are mandatorily preferred by law, rank (A) junior to the rights and claims of all holders of Senior Obligations, (B) *pari passu* with the rights and claims of holders of Parity Obligations and (C) senior to the rights and claims of holders of Junior Obligations.

(c) *Claims subject to a Contingent Write-down*

Any claim of any Holder in respect of or arising under the Notes (including, without limitation, any claim in relation to any unsatisfied payment obligation of the Issuer subject to enforcement by any Holder pursuant to Condition 10 (*Events of Default*) or in relation to the occurrence of any other Event of Default) will be subject to, and superseded by, clause (d) of Condition 6 (*Contingent Write-down*), irrespective of whether the relevant Write-down Notice has been given prior to or after the occurrence of an Event of Default or any other event.

## 4. INTEREST

(a) *Interest Payment Dates*

(i) Subject to Condition 6 (*Contingent Write-down*) and clause (i) of this Condition 4, the Notes will bear interest on their principal amount (A) from (and including) the Issue Date to (but excluding) the First Call Date, at the Fixed Interest Rate, and (B) thereafter, at the applicable Reset Interest Rate.

(ii) Subject to Condition 6 (*Contingent Write-down*) and clause (j) of this Condition 4, interest on the Notes will be payable annually in arrear on 16 February of each year (each, an "**Interest Payment Date**"), commencing on 16 February 2023.

(b) *Determination of the Mid Market Swap Rate, the Reset Interest Rate and the Reset Interest Amount in relation to each Reset Interest Period*

With respect to each Reset Interest Period and subject to clause (c) of this Condition 4, the Calculation Agent will, as soon as practicable after the Relevant Time on the Reset Determination Date in relation to such Reset Interest Period, determine the Mid Market Swap Rate and the Reset Interest Rate for such Reset Interest Period and calculate the amount of interest payable per Calculation Amount on the Interest Payment Date in relation to each Interest Period falling in such Reset Interest Period (each, a "**Reset Interest Amount**").

(c) *Benchmark replacement*

If the Issuer (in consultation with the Calculation Agent) determines prior to any Reset Determination Date that the rate referred to in clause (a) of the definition of the term "Mid Market Swap Rate" (the "**Existing Benchmark Rate**") has been discontinued, then the following provisions shall apply (subject to the subsequent operation of this clause (c)):

(i) the Issuer shall use reasonable endeavours to appoint an Independent Adviser to determine in the Independent Adviser's discretion, in accordance with subclause (iv) below, an alternative rate to the Existing Benchmark Rate (the "**Alternative Benchmark Rate**") no later than three Business Days prior to the Reset Determination Date relating to the next succeeding Reset Interest Period (such Business Day, the "**Independent Adviser Determination Cut-off Date**", and such next succeeding Reset Interest Period, the "**Affected Reset Interest Period**") for purposes of determining the Mid Market Swap Rate in respect of the Affected Reset Interest Period and all Reset Interest Periods thereafter;

(ii) if prior to the Independent Adviser Determination Cut-off Date the Issuer is unable to appoint an Independent Adviser or the Independent Adviser appointed by the Issuer fails to determine an Alternative Benchmark Rate in accordance with subclause (iv) below, then the Issuer (in consultation with the Calculation Agent) may determine in its discretion, in accordance with subclause (iv) below, the Alternative Benchmark Rate for purposes of determining the Mid Market Swap Rate in respect of the Affected Reset Interest Period and all Reset Interest Periods thereafter;

(iii) if subclause (ii) above applies and the Issuer is unable or unwilling to determine the Alternative Benchmark Rate prior to the Reset Determination Date relating to the Affected Reset Interest Period in accordance with subclause (iv) below, the Mid Market Swap Rate in respect of the Affected Reset Interest Period will be equal to the Mid Market Swap Rate in respect of the immediately preceding Reset Interest Period (or, if there is no preceding Reset Interest Period, the Reset Interest Rate applicable to the Affected Reset Interest Period will be equal to the Fixed Interest Rate); *provided, however,* that, if this subclause (iii) applies to the Affected Reset Interest Period, the Reset Interest Rate for all succeeding Reset Interest Periods will be the Reset Interest Rate applicable to the Affected Reset Interest Period as determined in accordance with this subclause (iii) unless (A) the Issuer, in its sole discretion, elects to determine an Alternative Benchmark Rate in respect of any such succeeding Reset Interest Period and all Reset Interest Periods thereafter in accordance with the processes set out in this clause (c), and (B) an Alternative Benchmark Rate is so determined;

(iv) in the case of any determination of an Alternative Benchmark Rate pursuant to subclause (i) or (ii) above, such Alternative Benchmark Rate will be such rate as the Independent Adviser or the Issuer (in consultation with the Calculation Agent and acting in good faith and a commercially reasonable manner), as applicable, determines in its reasonable discretion has replaced the Existing Benchmark Rate in customary market usage, or, if the Independent Adviser or the Issuer, as applicable, determines in its reasonable discretion that there is no such rate, such other rate as the Independent Adviser or the Issuer (in consultation with the Calculation Agent and acting in good faith and a commercially reasonable manner) determines in its reasonable discretion is most comparable to the Existing Benchmark Rate; and

(v) if the Independent Adviser or the Issuer determines an Alternative Benchmark Rate in accordance with the above provisions of this clause (c),

(A) the Independent Adviser (in the case of subclause (2) below, in consultation with the Issuer) or, following consultation with the Calculation Agent, the Issuer (as the case may be) shall also determine in its reasonable discretion (1) the method for obtaining such Alternative Benchmark Rate, including the page on or source from which such Alternative Benchmark Rate appears or is obtained (the "**Alternative Relevant Page**"), and the time at which such Alternative Benchmark Rate appears on, or is obtained from, the Alternative Relevant Page (the "**Alternative Relevant Time**"), (2) whether to apply an Adjustment Spread to such Alternative Benchmark Rate and, if so, the Adjustment Spread, which Adjustment Spread must be recognised or acknowledged as being in customary market usage in international debt capital markets transactions that reference the Existing Benchmark Rate, where such rate has been replaced by such Alternative Benchmark Rate, and (3) any alternative method for determining the Mid Market Swap Rate if such Alternative Benchmark Rate is unavailable on the relevant Reset Determination Date, which alternative method shall be consistent with any Alternative Benchmark Rate that has broad market support;

(B) for the Affected Reset Interest Period and all Reset Interest Periods thereafter, (1) clause (a) of the definition of the term "Mid Market Swap Rate" shall be amended pursuant to clause (b) of Condition 11 (*Substitution and Amendment*) to give effect to the determination described in subclause (A)(1) above and any Adjustment Spread determined pursuant to subclause (A)(2) above, and (2) clause (b) of the definition of the term "Mid Market Swap Rate" shall be amended pursuant to clause (b) of Condition 11 (*Substitution and Amendment*) to give effect to the determination described in subclause (A)(3) above;

(C) references to the Relevant Page and to the Relevant Time in these Terms and Conditions will be deemed to be references to the Alternative Relevant Page and the Alternative Relevant Time, respectively;

(D) if any changes to the definitions of the terms "Day Count Fraction", "Business Day" and/or "Reset Determination Date" are necessary in order to implement the amendments described in subclause (B) above, such definitions shall be amended pursuant to clause (b) of Condition 11 (*Substitution and Amendment*) to reflect such changes; and

(E) the Issuer shall promptly give notice to the Holders in accordance with Condition 12 (*Notices*) specifying such Alternative Benchmark Rate (including any Adjustment Spread determined pursuant to subclause (A)(2) above and any alternative method for determining the Mid Market Swap Rate described in subclause (A)(3) above), the Alternative Relevant Page, the Alternative Relevant Time, and any amendments implemented pursuant to clause (b) of Condition 11 (*Substitution and Amendment*) as described in subclauses (B) and (D) above.

(d) *Publication of Reset Interest Rate and interest amount payable upon redemption*

With respect to each Reset Interest Period, as soon as practicable after such determination but in any event not later than the relevant Reset Date, the Calculation Agent will cause (i) the relevant Reset Interest Rate and the relevant Reset Interest Amount determined by it, together with the Interest Payment Date in relation to each Interest Period falling in such Reset Interest Period, to be notified to the Issuer and the Paying Agents and (ii) the relevant Reset Interest Rate determined by it to be notified to any stock exchange or other relevant authority on which the Notes are at the relevant time listed and to be published in accordance with Condition 12 (*Notices*).

The Calculation Agent shall calculate any interest amount payable on any Redemption Date (if the Notes are to be redeemed pursuant to Condition 5 (*Redemption and Purchase*)) and cause such interest amount to be notified to Issuer and the Paying Agents and to any stock exchange or other relevant authority on which the Notes are at the relevant time listed and to be published in accordance with Condition 12 (*Notices*) no later than two Business Days prior to such Redemption Date.

(e) *Calculation of amount of interest payable per Calculation Amount*

Subject to Condition 6 (*Contingent Write-down*) and clause (j) of this Condition 4:

(i) the amount of interest payable per Calculation Amount on each Interest Payment Date to (and including) the First Call Date in respect of the Notes will be CHF 6,750; and

(ii) if interest is required to be paid in respect of a Note on any other date (including, for the avoidance of doubt, the Reset Interest Amount), the amount of interest payable per Calculation Amount on such date will be calculated by:

(A) applying the applicable Interest Rate to the Calculation Amount;

(B) multiplying the product thereof by the Day Count Fraction; and

(C) rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

(f) *Calculation of amount of interest payable per Note*

Subject to Condition 6 (*Contingent Write-down*) and clause (j) of this Condition 4, the amount of interest payable in respect of a Note will be the product of:

(i) the amount of interest per Calculation Amount; and

(ii) the number by which the Calculation Amount is required to be multiplied to equal the denomination of such Note.

(g) *Notifications, etc. to be final*

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for purposes of this Condition 4, whether by the Reset Reference Banks (or any of them) or the Calculation Agent, will (in the absence of wilful default, bad faith and manifest error) be binding on the Issuer, the Calculation Agent, the Paying Agents and the Holders and (in the absence of wilful default and bad faith) no liability to the Issuer or the Holders will attach to the Reset Reference Banks (orany of them) or the Calculation Agent in connection with the exercise or non-exercise bythe Calculation Agent of its powers, duties and discretions under this Condition 4.

(h) *Calculation Agent*

So long as any Note is outstanding, the Issuer will at all times maintain a Calculation Agent. If the Calculation Agent is unable or unwilling to act as such or if the Calculation

Agent fails to (i) duly calculate the Mid Market Swap Rate, the Reset Interest Rate and the Reset Interest Amount in relation to any Reset Interest Period or the interest amount payable on any Redemption Date (if the Notes are to be redeemed pursuant to Condition 5 (*Redemption and Purchase*)) or (ii) comply with any other requirement in relation to the Notes, the Issuer shall appoint a leading bank or financial institution that is experienced in the calculations or determinations to be made by the Calculation Agent under these Terms and Conditions to act as such in the Calculation Agent's place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid. Any termination or appointment of the Calculation Agent pursuant to this clause (h) shall take effect not more than 45 and not less than 30 days' after the Issuer has notified the Holders of such termination or appointment pursuant to Condition 12 (*Notices*); *provided*, *however*, that, in the case of insolvency of the Calculation Agent, such termination or appointment will take immediate effect.

(i) *Accrual of interest in the case of redemption or a Write-down Event*

(i) Subject to Condition 6 (*Contingent Write-down*), if the Notes are to be redeemed pursuant to clause (b), (c) or (d) of Condition 5 (*Redemption and Purchase*), interest on the Notes will accrue up to (but excluding) the relevant Redemption Date, and will cease to accrue on such Redemption Date; *provided*, *however*, that if the payment with respect to any Note is improperly withheld or refused on suchRedemption Date, interest will continue to accrue on the principal amount of suchNote (both before and after judgment) at the relevant Interest Rate to the RelevantDate.

(ii) Upon the occurrence of a Write-down Event, interest on the Notes will cease to accrue and any accrued and unpaid interest as at the time of such Write-down Event (whether or not due and payable) will be written down to zero in accordance with Condition 6 (*Contingent Write-dow*n).

(j) *Cancellation of interest; prohibited interest*

(i) The Issuer may, at its discretion, elect to cancel all or part of any payment of interest on the Notes (including, for the avoidance of doubt, any related Additional Amounts) that is otherwise scheduled to be paid on an Interest Payment Date. This subclause (j)(i) is without prejudice to the provisions of subclause (j)(ii) of this Condition 4. Non-payment of any amount of interest by the Issuer to the Principal Paying Agent will constitute evidence of cancellation of the relevant payment, whether or not notice of cancellation has been given by the Issuer.

If practicable, the Issuer shall provide notice of any cancellation of interest (in whole or in part) pursuant to this subclause (j)(i) to the Holders on or prior to therelevant Interest Payment Date. If practicable, the Issuer shall endeavour to provide such notice at least five Business Days prior to the relevant Interest Payment Date. Failure to provide such notice will not have any impact on the effectiveness of, or otherwise invalidate, any such cancellation of interest, or give Holders any rights as a result of such failure.

(ii) The Issuer will be prohibited from making, in whole or in part, any payment of interest on the Notes (including, for the avoidance of doubt, any related Additional Amounts) on the relevant Interest Payment Date if and to the extent that:

(A) the amount of Distributable Items as at such Interest Payment Date is less than the sum of (1) the amount of such interest payment, plus (2) all other payments (other than redemption payments) made by UBS Group AG on or in respect of the Notes or any Parity Obligations or Junior Obligations since the balance sheet date of the Relevant Accounts and prior to such Interest Payment Date, plus (3) all payments (other than redemption payments) payable by UBS Group AG on such Interest Payment Date on or in respect of any Parity Obligations or Junior Obligations, in the case of each of clauses (1), (2) and (3), excluding any portion of such payments already accounted for in determining the amount of such Distributable Items; and/or

(B) UBS Group AG is not, or will not immediately after the relevant payment of interest be, in compliance with all applicable minimum capital adequacy requirements of the National Regulations on a consolidated (*Finanzgruppe*) basis (for the avoidance of doubt, it being understood that such minimum requirements will reflect any reduction in such requirements granted by FINMA to the Group pursuant to the Capital Adequacy Ordinance); and/or

(C) FINMA has required the Issuer not to make such interest payment.

The Issuer shall deliver a certificate signed by the Authorised Signatories to the Principal Paying Agent and shall give notice in accordance with Condition 12 (*Notices*) to the Holders, in each case as soon as practicable following any determination that interest is required to be cancelled pursuant to this subclause (j)(ii) or, where no such prior determination is made, promptly following any Interest Payment Date on which interest was scheduled to be paid if such interest is being cancelled in accordance with this subclause (j)(ii), to such effect setting out brief details as to the amount of interest being cancelled and the reason therefor. Failure to provide such certificate and notice will not have any impact on the effectiveness of, or otherwise invalidate, any such cancellation or give any Holder any rights as a result of such failure.

(iii) If, on any Interest Payment Date, any payment of interest scheduled to be made on such date is not made in full pursuant to subclause (j)(i) or subclause (j)(ii) of this Condition 4, UBS Group AG shall not, directly or indirectly,

(A) recommend to holders of Ordinary Shares that any dividend or other distribution in cash or in kind (other than in the form of Ordinary Shares) be paid or made on any Ordinary Shares; and

(B) redeem, purchase or otherwise acquire any Ordinary Shares other than as a Permitted Transaction,

in each case unless and until (x) the interest payment due and payable on the Notes on any subsequent Interest Payment Date has been paid in full (or an amount equal to the same has been paid in full to a designated third party trust account for the benefit of the Holders prior to payment by the trustee thereof to the Holders on such subsequent Interest Payment Date) or, if earlier, (y) all outstanding Notes have been cancelled in accordance with these Terms and Conditions.

(iv) Payments of interest on the Notes are not cumulative. Notwithstanding any other provision in these Terms and Conditions, the cancellation or non-payment of any interest amount by virtue of this Condition 4(j) will not constitute a default for any purpose (including, without limitation, Condition 10 (*Events of Default*)) on the part of the Issuer. Any interest payment not paid by virtue of this Condition 4(j) will not accumulate or be payable at any time thereafter, and Holders will have no right thereto.

(v) If UBS Group AG determines, after consultation with FINMA, that the Notes do not, or will cease to, fully qualify as Additional Tier 1 Capital, (A) the Issuer shall not, to the extent permitted under National Regulations, exercise its discretion pursuant to subclause (j)(i) of this Condition 4 to cancel any interest payments due on the Notes on any Interest Payment Date following the occurrence of such determination, and (B) the Issuer shall give notice to the Holders in accordance with Condition 12 (*Notices*) as soon as practicable after such determination stating that the Issuer may no longer exercise its discretion pursuant to subclause (j)(i) of this Condition 4 to cancel any interest payments as from the date of such notice.

5. **REDEMPTION AND PURCHASE**

(a) *No fixed redemption date*

The Notes are perpetual securities in respect of which there is no fixed redemption date. Unless previously redeemed or purchased and cancelled in accordance with this Condition 5 and subject to Condition 6 (*Contingent Write-down*), the Notes are perpetual and may only be redeemed or purchased in accordance with this Condition 5.

(b) *Redemption at the option of the Issuer*

Subject to clause (e) of this Condition 5, the Issuer may elect, in its sole discretion, to redeem the Notes, in whole but not in part, on the First Call Date or any Interest Payment Date thereafter at their aggregate principal amount, together with any accrued and unpaid interest thereon to (but excluding) the relevant Redemption Date.

(c) *Redemption due to a Tax Event*

(i) Subject to clause (e) of this Condition 5, upon the occurrence of a Tax Event at any time after the Issue Date, the Issuer may elect, in its sole discretion, to redeem the Notes, in whole but not in part, on the relevant Redemption Date at their aggregate principal amount, together with any accrued and unpaid interest thereon to (but excluding) such Redemption Date.

(ii) A "**Tax Event**" will have occurred if the Issuer in making any payments on the Notes (A) has paid, or will or would on the next payment date be required to pay, Additional Amounts, or (B) has paid, or will or would be required to pay, any additional Tax in respect of the Notes, in the case of each of clauses (A) and (B), under the laws or regulations of a Tax Jurisdiction or any political subdivision thereof or any authority of or in a Tax Jurisdiction or any political subdivision thereof having the power to impose, levy, collect, withhold or assess Taxes, including, without limitation, any treaty to which a Tax Jurisdiction is a party, or any generally published application or interpretation of such laws (including, without limitation, a decision of any court or tribunal, any generally published application or interpretation of such laws by any relevant tax authority or any generally published pronouncement by any relevant tax authority), and the Issuer cannot avoid the foregoing by taking measures reasonably available to it.

(d) *Redemption due to a Regulatory Event*

(i) Subject to clause (e) of this Condition 5, upon the occurrence of a Regulatory Event at any time after the Issue Date, the Issuer may elect, in its sole discretion, to redeem the Notes, in whole but not in part, on the relevant Redemption Date at their aggregate principal amount, together with any accrued and unpaid interest thereon to (but excluding) such Redemption Date.

(ii) A "**Regulatory Event**" will have occurred if any of the Notes ceases to be eligible in full to be (A) treated as Additional Tier 1 Capital, and/or (B) counted towards either the Going-Concern LR Requirement or the Going-Concern RWA Requirement (or both).

(e) *Conditions for redemption*

(i) If the Issuer elects to redeem the Notes pursuant to clause (b), (c) or (d) of this Condition 5, then the Issuer shall give the Holders not less than 30 and not more than 60 days' prior notice in accordance with Condition 12 (*Notices*) (a "**Redemption Notice**"), which notice shall, subject to clause (f) of this Condition 5, be irrevocable and specify (x) the clause of this Condition 5 pursuant to which the redemption is to be made, and (y) the date on which the Issuer will redeem the Notes pursuant to such clause of this Condition 5 (such specified date, the "**Redemption Date**").

(ii) The Issuer may only redeem the Notes pursuant to clause (b) or (c) of this Condition 5 on the relevant Redemption Date if FINMA has approved such redemption on or prior to such Redemption Date, if such approval is then required under applicable Swiss laws and regulations.

(iii) The Issuer may only redeem the Notes pursuant to any clause of this Condition 5 on the relevant Redemption Date if no Trigger Event or Viability Event has occurred prior to such Redemption Date.

(iv) If the Issuer elects to redeem the Notes pursuant to clause (c) or (d) of this Condition 5, then prior to the publication of the Redemption Notice pursuant to subclause (e)(i) of this Condition 5, the Issuer shall deliver to the Principal Paying Agent (A) a certificate signed by two Authorised Signatories stating that the relevant requirement or circumstance giving rise to the right to redeem under clause (c) or (d), as applicable, of this Condition 5 is satisfied and the reasons therefor and such certificate will be conclusive and binding on the Holders, and (B) in the case of a redemption pursuant to clause (c) of this Condition 5 only, an opinion of independent legal advisers of recognised standing to the effect that circumstances entitling the Issuer to exercise its right of redemption under clause (c) of this Condition 5 have arisen.

(f) *Purchases*

The Issuer or any other member of the Group or any of their respective affiliates may at any time purchase Notes at any price in the open market or otherwise, *provided* that (i) such purchase complies with any limits or conditions to which any member of the Group is subject under applicable banking laws and regulations at the time of such purchase, (ii) other than in the case of purchases made in connection with stabilisation measures in compliance with applicable law or in connection with any market making in the Notes, FINMA has approved such purchase (if such approval is then required under applicable Swiss laws and regulations) on or prior to the date of such purchase, and (iii) no Trigger Event or Viability Event has occurred prior to the date of such purchase. Any Notes so purchased may, at the option of the Issuer, be held, reissued, resold or cancelled.

(g) *Cancellation*

All Notes redeemed in accordance with this Condition 5 will be cancelled and may not be reissued or resold.

(h) *Redemption of other instruments*

For the avoidance of doubt, it is understood that, if, upon the occurrence of a Tax Event or a Regulatory Event, the Issuer does not elect to redeem the Notes pursuant to this Condition 5, nothing in this Condition 5 or any other provision of these Terms and Conditions will prohibit the Issuer from redeeming (whether early, at maturity or otherwise) any other instruments issued by any member of the Group pursuant to the terms thereof.

## 6. CONTINGENT WRITE-DOWN

(a) *Trigger Event*

(i) Upon the occurrence of a Trigger Event, a Contingent Write-down will occur on the Trigger Event Write-down Date in accordance with clause (d) of this Condition 6.

(ii) A "**Trigger Event**" will have occurred if the Issuer gives the Holders a Trigger Event Write-down Notice in accordance with clause (b) of this Condition 6.

(b) *Trigger Event Write-down Notice*

(i) If, with respect to any Publication Date, the Trigger CET1 Ratio as of such Publication Date is less than the Write-down Threshold, the Issuer shall, subject to subclauses (b)(ii) and (b)(iii) of this Condition 6, give a Trigger Event Write-down Notice to the Holders (x) if such Publication Date is an Ordinary Publication Date, within five Business Days of such Ordinary Publication Date (such fifth Business Day, the "**Trigger Breach Determination Date**", and the date of such notice, the "**Ordinary Trigger Event Notice Date**"), and (y) if such Publication Date is an Extraordinary Publication Date, on such Extraordinary Publication Date (the "**Extraordinary Trigger Event Notice Date**"), in each case in accordance with Condition 12 (*Notices*).

(ii) If a Trigger Event Write-down Notice is required to be given pursuant to subclause (b)(i) of this Condition 6, and on the relevant Publication Date any Higher-Trigger Contingent Capital is outstanding with respect to which either (x) no Higher-Trigger Write-down/Conversion Notice has been given prior to the Trigger Event Notice Date or (y) a Higher-Trigger Write-down/Conversion Notice has been given prior to the Trigger Event Notice Date, but the Trigger Event Write-down Date is scheduled to occur prior to the relevant Higher-Trigger Write-down/Conversion Date,

(A) in the case of clause (x) above, the giving of such Trigger Event Write-down Notice will be postponed until the date on which a Higher-Trigger Write-down/Conversion Notice has been given with respect to all such outstanding Higher-Trigger Contingent Capital and such date will be deemed to be the Trigger Event Notice Date; and

(B) in the case of clauses (x) and (y) above, if the Trigger Event Write-down Date is scheduled to occur prior to the Higher-Trigger Write-down/Conversion Date (or, in the case of more than one Higher-Trigger Write-down/Conversion Date, the latest Higher-Trigger Write-down/Conversion Date), the Trigger Event Write-down Date will be postponed to the Higher-Trigger Write-down/Conversion Date (or the latest Higher-Trigger Write-down/Conversion Date, as applicable) and such postponement shall be specified in such Trigger Event Write-down Notice.

(iii) If (A) a Trigger Event Write-down Notice is required to be given pursuant to subclause (b)(i) of this Condition 6 in relation to an Ordinary Publication Date, and (B) prior to the earlier of the Ordinary Trigger Event Notice Date and the Trigger Breach Determination Date, FINMA, upon the request of UBS Group AG, has agreed in writing that a Contingent Write-down is not required as a result of actions taken by the Group or circumstances or events, in each case, that have had, or imminently will have, the effect of restoring the CET1 Ratio as of the Balance Sheet Date relating to the relevant Ordinary Publication Date, after giving pro forma effect to such actions, circumstances or events, to a level above the Write-down Threshold that FINMA and UBS Group AG deem, in their sole discretion, to be adequate at such time, (x) the Issuer shall not give such Trigger Event Write-down Notice pursuant to subclause (b)(i) of this Condition 6 in relation to the relevant Ordinary Publication Date, and (y) the Issuer shall give notice to the Holders on or prior to the Trigger Breach Determination Date in accordance with Condition 12 (*Notices*), which notice shall state that no Contingent Write-down will occur in relation to the relevant Ordinary Publication Date.

(c) *Viability Event*

(i) Subject to clause (f) of this Condition 6, upon the occurrence of a Viability Event, (A) the Issuer shall give notice to the Holders in accordance with Condition 12 (*Notices*) within three days of the date on which such Viability Event occurred, which notice shall (x) state that a Viability Event has occurred and a Contingent Write-down will take place and (y) specify the date on which the Contingent Write-down will take place, which date shall be no later than ten Business Days after the date of such notice (such specified date, the "**Viability Event Write-down Date**", and such notice, a "**Viability Event Write-down Notice**"), and (B) a Contingent Write-down will occur on the Viability Event Write-down Date in accordance with clause (d) of this Condition 6.

(ii) A "**Viability Event**" will have occurred if prior to an Alternative Loss Absorption Date (if any):

(A) FINMA has notified UBS Group AG in writing that it has determined a write-down of the Notes, together with the conversion or write-down, as applicable, of holders' claims in respect of all other capital instruments issued by, or other capital obligations (whether qualifying fully or partially for capital treatment) of, any member of the Group that, pursuant to their terms or by operation of law, are capable of being converted into equity or written down at that time, is, because customary measures to improve the Group Holding Company's capital adequacy are at the time inadequate or infeasible, an essential requirement to prevent the Group Holding Company from becoming insolvent, bankrupt, unable to pay a material part of its debts as they fall due or unable to carry on its business; or

(B) customary measures to improve the Group Holding Company's capital adequacy being at the time inadequate or infeasible, the Group Holding Company has received an irrevocable commitment of direct or indirect extraordinary support from the Public Sector (beyond customary transactions and arrangements in the ordinary course) that has, or imminently will have, the effect of improving the Group Holding Company's capital adequacy and without which, in the determination of (and as notified in writing by) FINMA, the Group Holding Company would have become insolvent, bankrupt, unable to pay a material part of its debts as they fall due or unable to carry on its business.

For the avoidance of doubt, it is understood that, a Viability Event may occur irrespective of whether or not a Trigger Event has occurred or whether any of the conditions to the issuance of a Trigger Event Write-down Notice have been met.

(d) *Contingent Write-down*

If the Issuer has given a Write-down Notice in accordance with this Condition 6, then on the relevant Write-down Date,

(i) the full principal amount of, and any accrued and unpaid interest (whether or not due and payable) on, each Note will automatically be written down to zero, the Notes will be cancelled and all references to the principal amount of the Notes in these Terms and Conditions will be construed accordingly;

(ii) the Holders will be automatically deemed to have irrevocably waived their right to receive, and will no longer have any rights against the Issuer with respect to, repayment of the aggregate principal amount of, and payment of any accrued and unpaid interest on, the Notes written down pursuant to subclause (i) of this clause (d) (*bedingter Forderungsverzicht*); and

(iii) all rights of any Holder for payment of any amounts under or in respect of the Notes (including, without limitation, any amounts arising as a result of, or due and payable upon the occurrence of, an Event of Default) will become null and void, irrespective of whether such amounts have become due and payable prior to the relevant Write-down Notice Date or the Write-down Date.

(e) *Determination of CET1 Ratio and Trigger CET1 Ratio*

With respect to any Publication Date, (i) the CET1 Ratio as of the relevant Balance Sheet Date, (ii) the Trigger CET1 Ratio as of such Publication Date and (iii) the components of both of the foregoing, in each case, as published on such Publication Date, will be final for purposes of this Condition 6, and any revisions, restatements or adjustments to any of the calculations described in subclauses (i) through (iii) of this clause (e) subsequently published will have no effect for purposes of this Condition 6.

(f) *Alternative loss absorption*

In the event of the implementation of any new, or amendment to or change in the interpretation of any existing, laws or components of National Regulations, in each case occurring after the Issue Date, that alone or together with any other law(s) or regulation(s) has, in the joint determination of UBS Group AG and FINMA, the effect that clause (c) of this Condition 6 could cease to apply to the Notes without giving rise to a Regulatory Event, then the Issuer shall give notice to the Holders in accordance with Condition 12 (*Notices*) no later than five Business Days after such joint determination stating that such provisions will cease to apply from the date of such notice (the "**Alternative Loss Absorption Date**"), and from the date of such notice, such provisions will cease to apply to the Notes.

## 7. PAYMENTS; PAYING AGENTS

(a) All payments required to be made under the Notes will be made available in good time in freely disposable funds in CHF, which will be placed at the free disposal of the Principal Paying Agent on behalf of the Holders. If the Scheduled Due Date for any payment (whether in respect of principal, interest or otherwise) in respect of the Notes is not a Business Day, then the Holders will not be entitled to payment thereof until the first Business Day following the Scheduled Due Date, and the Holders will not be entitled to any additional sum in relation to such payment. All payments required to be made under the Notes (including, for the avoidance of doubt, any Additional Amounts) shall be made to the Holders in CHF without collection costs, without any restrictions and whatever the circumstances may be, irrespective of nationality, domicile or residence of the relevant Holder and without certification, affidavit or the fulfilment of any other formality.

(b) The Issuer reserves the right to terminate the appointment of the Principal Paying Agent, as well as to appoint or, after any such appointment, to terminate the appointment of, one or more other paying agents to carry out any payment, calculation or other functions in respect of the Notes (each, a "**Paying Agent**", which term includes the Principal Paying Agent). Any such appointment or termination of appointment shall only take effect not more than 45 and not less than 30 days' after the Issuer has notified the Holders of such appointment or termination pursuant to Condition 12 (*Notices*); *provided*, *however*, that, in the case of insolvency of any Paying Agent, any termination of such Paying Agent and appointment of any other Paying Agent will take immediate effect. In addition, for so long as the Notes are listed on the SIX Swiss Exchange and if then required by the regulations of the SIX Swiss Exchange, the Issuer shall maintain a Paying Agent in Switzerland, which agent shall have an office in Switzerland and be a bank or securities dealer subject to supervision by FINMA, to perform the functions of a Swiss paying agent.

## 8. TAXATION

(a) All payments to be made by or on behalf of the Issuer in respect of the Notes (including, for the avoidance of doubt, payments by a Paying Agent) shall be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other government charges of any nature ("**Taxes**") imposed, levied, collected, withheld or assessed by or on behalf of any Tax Jurisdiction or any political subdivision thereof or any authority of or in a Tax Jurisdiction or any political subdivision thereof having the power to impose, levy, collect, withhold or assess Taxes, unless withholding, deduction or accounting for such Taxes is required by law.

(b) In the event that any payment to be made by or on behalf of the Issuer in respect of the Notes (including, for the avoidance of doubt, payments by a Paying Agent) is subject to any withholding or deduction for, or on account of, any Taxes by requirement of law in a Tax Jurisdiction (as determined by the relevant tax authority of or in such Tax Jurisdiction), the Issuer shall pay such additional amounts as will result in the Holders receiving the amounts that they would have received in respect of the Notes if no such withholding or deduction had been required ("**Additional Amounts**").

(c) No Additional Amounts will be payable pursuant to clause (b) of this Condition 8 in relation to any Note:

(i) if the relevant Holder is liable for such Taxes on such Note as a result of having some connection with the relevant Tax Jurisdiction other than its mere ownership or possession of such Note or the receipt of principal or interest in respect thereof; or

(ii) with respect to any Tax collected pursuant to the provisions of, or any laws or an agreement with any Tax Jurisdiction relating to, Sections 1471 through 1474 of the US Internal Revenue Code, as amended (commonly referred to as "FATCA"); or

(iii) where such withholding or deduction is required to be made pursuant to laws enacted by Switzerland providing for the taxation of payments according to principles similar to those laid down in the draft legislation of the Swiss Federal Council of 3 April 2020, or otherwise changing the Swiss federal withholding tax system from an issuer-based system to a paying agent-based system pursuant to which a person other than the issuer is required to withhold tax on any interest payments; or

(iv) to the extent any combination of subclauses (i) through (iii) of this clause (c) applies.

(d) Any reference in these Terms and Conditions to amounts payable by the Issuer in respect of the Notes includes (i) any Additional Amount payable pursuant to this Condition 8 and (ii) any sum payable pursuant to an obligation taken in addition to or in substitution for the obligation in this Condition 8.

## 9. STATUTE OF LIMITATIONS

In accordance with Swiss law, (a) claims for interest payments under the Notes will become time-barred after the five-year period and (b) claims for the repayment or redemption of Notes will become time-barred after the ten-year period, in each case, commencing on the date on which such payments, repayment or redemption become due and payable.

## 10. EVENTS OF DEFAULT

(a) If any of the following events occurs, such occurrence will constitute an "**Event of Default**":

(i) the Issuer fails to pay the principal amount of any Note if and when the same becomes due and payable under these Terms and Conditions, and such failure continues unremedied for a period of 30 days; or

(ii) the Issuer fails to pay any interest on the Notes if and when the same becomes due and payable under these Terms and Conditions, and such failure continues unremedied for a period of 30 days; or

(iii) the Issuer fails to observe or perform any other covenant, condition, or agreement contained in these Terms and Conditions, and such failure continues unremedied for a period of 60 days after written notice thereof from any Holder to the Issuer;or

(iv) a Bankruptcy Event.

(b) Upon the occurrence of an Event of Default relating to any failure of the Issuer to meet any payment obligation under these Terms and Conditions and subject to Condition 6 (*Contingent Write-down*), (i) such payment obligation (and such payment obligation only) will be immediately deemed a due and payable (*fällige*) payment obligation of the Issuer, and (ii) if (A) the relevant Holder has formally requested payment of such payment obligation, (B) such payment obligation has not been fulfilled within the statutory period under Swiss law commencing after the date of such formal request and (C) a writ of payment (*Zahlungsbefehl*) has been issued with respect to such payment obligation pursuant to the DEBA, the relevant Holder may institute proceedings against the Issuer in Switzerland (but not elsewhere) to enforce its rights with respect to such payment obligation under the DEBA.

(c) If a debt collection or insolvency proceeding with respect to the Issuer is instituted in Switzerland in accordance with clause (b) of this Condition 10, the Issuer shall not (i) after having received the writ of payment (*Zahlungsbefehl*) relating to the relevant payment obligation, argue or plead that such payment obligation is not due and payable by the Issuer, or (ii) prior to the declaration of bankruptcy (or similar proceeding under Swiss insolvency laws), make any payment to the relevant Holder under or in connection with the Notes.

(d) In the case of any Event of Default arising under subclause (a)(iii) of this Condition 10 and subject to Condition 6 (*Contingent Write-down*), any Holder may seek specific performance or damages with respect to such Event of Default pursuant to the Swiss Code if so entitled thereunder. Any such damage claim of any Holder will rank junior to the rights and claims of all holders of Senior Obligations.

(e) In the case of any Event of Default arising under subclause (a)(iv) of this Condition 10 and subject to Condition 6 (*Contingent Write-down*), any Holder may, by written notice to the Issuer, declare the principal amount of any of its Notes, together with any accrued and unpaid interest thereon, immediately due and payable, without presentment, demand, protest or other notice of any kind.

(f) No remedy against the Issuer other than those described in this Condition 10 will be available to the Holders in connection with the Issuer's obligations under these Terms and Conditions, whether for the recovery of amounts owing under these Terms and Conditions or in respect of any breach by the Issuer of any of its other obligations under these Terms and Conditions or otherwise. In particular, no Holder may declare (i) the principal amount of any Notes due and payable prior to any Redemption Date, or (ii) any interest on any Notes due and payable prior to the relevant Interest Payment Date, except, in the case of each of subclauses (i) and (ii) of this clause (f), pursuant to clause (e) of this Condition 10.

## 11. SUBSTITUTION AND AMENDMENT

(a) If a Tax Event, a Regulatory Event or an Alignment Event has occurred, the Issuer may, without the consent of the Holders unless so required by mandatory provisions of Swiss law, either substitute all, but not some only, of the Notes for, or amend these Terms and Conditions so that they remain or become, Compliant Securities, *provided* that:

(i) neither a Tax Event nor a Regulatory Event arises as a result of such substitution or amendment;

(ii) FINMA has approved such substitution or amendment (if such approval is then required under applicable Swiss laws and regulations);

(iii) the Issuer has given the Holders not less than 30 days' notice of such substitution or amendment in accordance with Condition 12 (*Notices*), which notice (the "**Substitution or Amendment Notice**") will, subject to subclause (a)(iv) of this Condition 11, be irrevocable, and state the date on which such substitution or amendment will be effective (the "**Substitution or Amendment Effective Date**");

(iv) prior to the publication of any notice pursuant to subclause (a)(iii) of this Condition 11, the Issuer shall deliver to the Principal Paying Agent (A) a certificate signed by two Authorised Signatories stating that the relevant requirement or circumstance giving rise to the right to substitute or amend the terms of the Notes, as applicable, pursuant to this clause (a) of this Condition 11 is satisfied and the reasons therefor and such certificate will be conclusive and binding on the Holders, and (B) an opinion of independent legal advisers of recognised standing to the effect that circumstances entitling the Issuer to exercise its right to substitute or amend the terms of the Notes, as applicable, pursuant to this clause (a) of this Condition 11 have arisen; and

(v) no Trigger Event or Viability Event has occurred prior to the relevant Effective Date.

In connection with any substitution or amendment in accordance with this clause (a) of this Condition 11, the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

An "**Alignment Event**" will have occurred if, as a result of any change in National Regulations at any time after the Issue Date, any Relevant Swiss Issuer would be permitted to issue or guarantee (including, without limitation, by providing a guarantee, credit support agreement or similar undertaking), or has issued or guaranteed (including, without limitation, by providing a guarantee, credit support agreement or similar undertaking), a capital instrument that (i) is eligible in full to be (A) treated as Additional Tier 1 Capital and (B) counted towards either the Going-Concern LR Requirement or the Going-Concern RWA Requirement (or both), and (ii) has terms and conditions that (A) include a write-down feature, and (B) contain one or more provisions that are, in the reasonable opinion of UBS Group AG, different in any material respect from those in these Terms and Conditions, which provisions, if they had been included in these Terms and Conditions, would have prevented the Notes from being eligible in full to be treated as Additional Tier 1 Capital and/or to be counted towards either the Going-Concern LR Requirement or the Going-Concern RWA Requirement (or both) immediately prior to such change in National Regulations.

(b) In addition to its rights under clause (a) of this Condition 11, the Issuer may, without the consent of the Holders unless so required by mandatory provisions of Swiss law, make any amendment to these Terms and Conditions that it considers to be (i) necessary or desirable to give effect to (A) any Alternative Benchmark Rate determined in accordance with clause (c) of Condition 4 (*Interest*) (including any Adjustment Spread determined in accordance with subclause (v)(A)(2) thereof and any alternative method for determining the Mid Market Swap Rate if such Alternative Benchmark Rate is unavailable on the relevant Reset Determination Date determined in accordance with subclause (v)(A)(3) thereof), and any related changes to the definitions of the terms "Day Count Fraction", "Business Day" and/or "Reset Determination Date" determined to be necessary in accordance with subclause (v)(D) thereof, or (B) the provisions of clause (a) of Condition 13 (*Issuer Substitution*) (including, without limitation, (x) if the Substitute Issuer is organised and/or resident for tax purposes in a jurisdiction other than Switzerland, any amendments to any references to the jurisdiction of "Switzerland" contained herein, including, without limitation, amendments to the definition of the term "Bankruptcy Event", the definition of the term "Business Day", the governing law of the subordination provisions set forth in Condition 3 (*Status and Subordination*) and the provisions of Condition 10 (*Events of Default*), and (y) any amendments to reflect UBS Group AG's guarantee described in subclause (a)(iii) of Condition 13 (*Issuer Substitution*)), or (ii) formal, minor or technical in nature, or (iii) necessary to correct a manifest error, or (iv) not materially prejudicial to the interests of the Holders.

(c) The Issuer shall notify the Holders of any amendments made pursuant to clause (b) of this Condition 11 in accordance with Condition 12 (*Notices*), which notice shall state the date on which such amendment will be effective.

(d) Any amendment made pursuant to this Condition 11 will be binding on the Holders in accordance with its terms.

12. **NOTICES**

So long as the Notes are listed on the SIX Swiss Exchange, notices to Holders shall be given by the Issuer (a) by means of electronic publication on the internet website of SIX Exchange Regulation Ltd (https://www.ser-ag.com), where notices are as at the Issue Date published under the address https://www.ser-ag.com/en/resources/notifications-market-participants/official-notices.html#/, or (b) otherwise in accordance with the regulations of the SIX Swiss Exchange. Any notice will be validly given on the date of such publication or, if published more than once, on the date of the first such publication.

If the Notes are for any reason no longer listed on the SIX Swiss Exchange, notices to Holders will be given by the Issuer to the Intermediary for forwarding to the Holders. Any such notice will be validly given on the date of delivery to the Intermediary.

13. **ISSUER SUBSTITUTION**

(a) The Issuer (for purposes of this Condition 13, the "**Current Issuer**") may, without the consent of the Holders, substitute any entity (whether or not such entity is organised under the laws of Switzerland) (such substitute entity, the "**Substitute Issuer**") for itself as principal debtor under the Notes upon giving no more than 30 and no less than 10 days' notice to the Holders in accordance with Condition 12 (*Notices*), *provided* that:

(i) the Substitute Issuer is UBS Group AG or at least 95 per cent. of the Substitute Issuer's capital and voting rights are held, directly or indirectly, by UBS Group AG;

(ii) the Current Issuer is not in default in respect of any amount payable under the Notes at the time of such substitution;

(iii) if the Substitute Issuer is not UBS Group AG, UBS Group AG has irrevocably and unconditionally guaranteed to the Holders, pursuant to article 111 of the Swiss Code and on a subordinated basis corresponding *mutatis mutandis* to Condition 3 (*Status and Subordination*), the due and punctual payment of principal and interest and all other amounts due and payable by the Substitute Issuer under, or in respect of, the Notes upon receipt of the written request for payment of the relevant amount, and on the terms whereby subclause (iii) of Condition 4(j) (*Cancellation of interest; prohibited interest*), Condition 8 (*Taxation*), Condition 10 (*Events of Default*) and Condition 16 (*No Set-off by Holders*) apply to UBS Group AG and to its obligations under such guarantee either by making the necessary consequential amendments to such Conditions or including such Conditions applicable to UBS Group AG and to its obligations under such guarantee in such guarantee itself, as applicable;

(iv) the Current Issuer and the Substitute Issuer (A) have entered into such documents (the "**Substitution Documents**") as are necessary to give effect to such substitution and pursuant to which the Substitute Issuer has (x) undertaken in favour of each Holder to be bound by these Terms and Conditions as the principal debtor (on a subordinated basis corresponding to Condition 3 (*Status and Subordination*)) under the Notes in place of the Current Issuer and (y) assumed the obligations of the Current Issuer under the Agency Agreement, and (B) procure that all action, conditions and things required to be taken, fulfilled and done (including, without limitation, the obtaining of any necessary consents) to ensure that the Substitution Documents represent valid, legally binding and enforceable obligations of the Substitute Issuer have been taken, fulfilled and done and are in full force and effect;

(v) if the Substitute Issuer is resident for tax purposes in a jurisdiction (the "**New Residence**") other than that in which the Current Issuer prior to such substitution was resident for tax purposes (the "**Former Residence**"), the Substitution Documents contain an undertaking by the Substitute Issuer and/or such other provisions as may be necessary to ensure that each Holder has the benefit of an undertaking in terms corresponding to the provisions of Condition 8 (*Taxation*) in relation to the payment of all amounts due and payable under, or in respect of, the Notes and in relation to the guarantee referred to in subclause (iii) above, with, in the case of the Notes but not such guarantee, the substitution of references to the Former Residence with references to the New Residence, and an undertaking by the Substitute Issuer to indemnify each Holder against any Tax that is imposed on it by (or by any authority in or of) the New Residence and, if different, the jurisdiction of the Substitute Issuer's organisation with respect to any Note and that would not have been so imposed had the substitution not been made, as well as against any Tax, and any cost or expense, relating to such substitution;

(vi) if the Substitute Issuer is not UBS Group AG, FINMA has approved such substitution (if such approval is then required under applicable Swiss laws and regulations), and the Current Issuer and the Substitute Issuer have obtained all other necessary governmental and other approvals and consents for such substitution and for the performance by the Substitute Issuer of its obligations under the Substitution Documents;

(vii) if the Substitute Issuer is not organised under the laws of Switzerland, the Substitute Issuer has appointed a process agent as its agent in Switzerland to receive service of process on its behalf in relation to any legal proceedings arising out of or in connection with the Notes;

(viii) the Substitute Issuer has appointed a Paying Agent in Switzerland that is a participant in the Intermediary; and

(ix) such substitution does not give rise to a Tax Event or a Regulatory Event.

(b) Upon any substitution pursuant to clause (a) of this Condition 13, (i) the Substitute Issuerwill succeed to, and be substituted for, and may exercise every right and power of, the Current Issuer under the Notes with the same effect as if the Substitute Issuer had been named as Issuer in these Terms and Conditions, and (ii) the Current Issuer will be releasedfrom its obligations under the Notes.

(c) After giving effect to any substitution pursuant to clause (a) of this Condition 13, (i) references to the "Issuer" in the Notes and these Terms and Conditions will be references to the Substitute Issuer, and (ii) references to the "Tax Jurisdiction" in the Notes and these Terms and Conditions will be read and construed as including the jurisdiction of establishment of the Substitute Issuer and, if different, the jurisdiction in which the Substitute Issuer is resident for tax purposes instead of or in addition to (as the case may be) references to the jurisdiction of establishment of the Issuer and Switzerland.

## 14. FURTHER ISSUES

The Issuer may from time to time without the consent of the Holders issue further notes and, *provided* that such notes have the same terms and conditions as the Notes in all respects (or in all respects except for the issue date and/or first date on which interest is paid), such further notes will be consolidated and form a single series with the Notes. If the Issuer issues any such further notes pursuant to this Condition 14, references in these Terms and Conditions to "**Notes**" include such further notes, unless the context otherwise requires.

15. **CURRENCY INDEMNITY**

Any amount received or recovered by any Holder in a currency other than CHF (whether as a result of, or of the enforcement of, a judgment or order of a court of any jurisdiction, in the insolvency, winding-up or dissolution of the Issuer or otherwise) under the Notes will only constitute a discharge of the Issuer to the extent of the amount in CHF that such Holder is able to purchase with the amount so received or recovered in such other currency on the date of such receipt or recovery (or, if it is not practicable to purchase CHF with such amount on such date, on the first date on which it is practicable to do so). If the amount of CHF that such Holder is able to purchase is less than the amount owed by the Issuer to such Holder under the Notes, the Issuer shall indemnify such Holder against any loss sustained by it as a result. In addition, the Issuer shall indemnify such Holder for the costs of making such purchase. For purposes of this Condition 15, it is sufficient for the relevant Holder to demonstrate that it would have suffered a loss had an actual purchase been made. The indemnities under this Condition 15 will (a) constitute a separate and independent obligation from the Issuer's other obligations hereunder, (b) give rise to a separate and independent cause of action, (c) apply irrespective of any indulgence granted by any Holder and (d) continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any amount due under the Notes or any other judgment or order.

16. **NO SET-OFF BY HOLDERS**

Subject to applicable law, each Holder, by acceptance of any direct or beneficial interest in a Note, agrees that it will not, and waives its right to, exercise, claim or plead any right of set-off, compensation or retention with respect to any amount owed to it by the Issuer in respect of, or arising in connection with, the Notes.

17. **NO CONVERSION**

Notwithstanding the powers of FINMA under articles 25 *et seq.* of the FBA or pursuant to any successor or analogous Swiss law or regulation applicable to bank holding companies in Switzerland such as UBS Group AG, the Notes shall under no circumstances be converted into equity of the Issuer, and shall only absorb losses pursuant to these Terms and Conditions.

18. **GOVERNING LAW AND JURISDICTION**

(a) The Notes shall be governed by and construed in accordance with the laws of Switzerland.

(b) The courts of the Canton of Zurich (venue being the City of Zurich) shall have exclusive jurisdiction to settle any disputes that may arise out of or in connection with the Notes.

Exhibit 4.21

## Additional Tier 1 capital (Basel III-compliant)

| | |
|---|---|
| **Issuer** | UBS Group AG, or other employing entities of the UBS group |
| **ISIN** | - |
| **Issue Date** | 18.02.2022[1] |
| **Currency** | USD |
| **Nominal (million)** | [2] |
| **Coupon Rate** | 5.7% / 3.7%[3] |
| **Maturity Date** | perpetual[4] |
| **First Call Date** | 1 March 2027[5] |

[1] Issuance date which corresponds to grant date for employees.
[2] Nominal amount at issuance with respective exchange rate used. For information on the outstanding amount, refer to the table “Capital and total loss-absorbing capacity instruments of UBS Group AG consolidated and UBS AG consolidated and standalone - Key features”.
[3] Applicable to USD-denominated and CHF-denominated issues, respectively and not payable to EU/UK MRTs and SMFs, both as defined within this document.
[4] Subject to forfeiture and vesting provisions.
[5] For SMFs and certain EU MRT, as defined within this document, partly also 1 March 2028 and 1 March 2029.

## Deferred Contingent Capital Plan 2021/22 (DCCP)

Summary description of the terms and conditions of DCCP as a capital instrument

| | |
|---|---|
| Overview | Issues under the DCCP are made by UBS Group AG or certain other employing entities to key contributors at UBS Group AG or any of its subsidiaries (together, the "Group"). Eligibility is determined by the Issuer and issues are granted at its sole discretion. |
| Issuer | UBS Group AG or certain other employing entities of the UBS group |
| Type of instrument | Non-transferable contingent right against the Issuer to receive<br>(i) discretionary annual interest equivalent payments on the nominal value of a hypothetical perpetual Additional Tier 1 ("AT1") security notionally issued by UBS Group AG at grant (the "Notional Bond"), and<br>(ii) at redemption, as determined by the Issuer in its sole discretion, either the value of the Notional Bond in cash or perpetual AT1 securities issued or guaranteed by UBS Group AG or any other member of the Group of equivalent value (in each case net of any applicable taxes and social security contributions to the employee's account).<br><br>For DCCP awarded to EU/UK Material Risk Takers (MRT)[1] and individuals performing designated UK Senior Management Functions (SMF)[2] there will be no contingent right to receive discretionary annual interest payments; only non-transferable contingent right against the Issuer to receive the amount indicated under (ii) above. |
| Conditional Interest Equivalents | Subject to (i) the conditions set out under "Trigger Event or Viability Event" and "Forfeiture and Vesting Provisions" and (ii) the discretionary and mandatory interest cancellation provisions as set out below, interest equivalents will be payable annually in arrears on the nominal value of the Notional Bond at a rate of 3.7% for CHF-denominated issues and 5.7% for USD-denominated issues.<br><br>The Issuer may, at its discretion, elect to cancel any interest equivalent that is otherwise scheduled to be paid on any interest payment date. In addition, without limitation to the foregoing, payments of interest equivalents will not be made unless sufficient distributable items (i.e., net profits carried forward and freely distributable reserves) of UBS Group AG are available. |
| Maturity date | Issues under the DCCP have no scheduled maturity date.<br><br>Notwithstanding the foregoing, but subject to the conditions set out under "Trigger Event or Viability Event" and "Forfeiture and Vesting Provisions", issues to US taxpayers will mature and be settled on or about 1 March 2027 (the "First Call Date"). The Notional Bond underlying such issues will have no scheduled maturity date. |

[1] Based on relevant European Banking Authority's ("EBA") Regulatory Technical Standards (RTS) for EU MRTs, and for UK MRTs, based on the EBA RTS and the UK Prudential Regulation Authority's and Financial Conduct Authority's rules.
[2] As defined by the UK's Prudential Regulation Authority and Financial Conduct Authority.

| | |
|---|---|
| Trigger Event or Viability Event | All outstanding issuances under the DCCP (or, in case of a Trigger Event (as defined below), all outstanding awards under the DCCP in relation to which a Trigger Event has occurred) will be automatically and permanently written down to zero, no further amounts will be due or paid thereunder and such awards will be permanently cancelled, if:<br>a) the reported Common Equity Tier 1 ratio of the Group set forth in UBS Group AG 's quarterly financial accounts, results, the annual report, or in any reviewed interim measurement published upon the instruction of the Swiss Financial Market Supervisory Authority FINMA ("FINMA"), falls below 7% or, with respect to grants awarded to Group Executive Board members, 10%, as of the relevant balance sheet date (each, a "Trigger Event");<br>b) FINMA provides UBS Group AG with written notice of its determination that amounts outstanding under the DCCP are required to be written down to prevent the insolvency, bankruptcy or failure of UBS Group AG; or<br>c) UBS Group AG has received a commitment of direct or indirect extraordinary support from the public sector that FINMA has determined and confirmed in writing to UBS Group AG is necessary to prevent the insolvency, bankruptcy or failure of UBS Group AG (an event described in clause (b) or (c), a "Viability Event"). |
| Conditional Redemption | Subject to the conditions set out under "Trigger Event or Viability Event" and "Forfeiture and Vesting Provisions", the Issuer may, at its sole discretion, redeem any issuance by way of either a cash payment or delivery of AT1 securities on the First Call Date, provided that, where the Issuer has elected to redeem an issuance by way of a cash payment, a redemption will not occur until FINMA has approved it. DCCP issuances to SMFs and to certain EU MRTs may be redeemed by the Issuer on the same basis, in equal quantities on 1 March 2028 and 1 March 2029, and on 1 March 2027 and 1 March 2028, respectively. However, the following exceptions will apply:<br>a) For SMFs who had a corporate title of Group Managing Directors (GMDs) or equivalent as at 31 December 2021, the DCCP Issuances may be redeemed on the same basis with 46% redeemed on 1 March 2028 and 54% redeemed on 1 March 2029<br>b) For SMFs who are members of the Group Executive Board, the DCCP Issuances may be redeemed on the same basis with 23% redeemed on 1 March 2028 and 77% redeemed on 1 March 2029<br><br>In case of a redemption by way of delivery of securities, the securities will be perpetual AT1 securities issued or guaranteed by UBS or any other member of the Group with substantially the same terms and provisions consistent with the Notional Bond, including but not limited to, the same Trigger and Liability Events and the aggregate value of the AT1 securities shall, subject to rounding, equal the value of the Notional Bond (net of any applicable taxes and social security contributions).<br><br>For issuances granted to US taxpayers, redemption will be on the First Call Date, such that if FINMA approval for any cash settlement has not been given, issuances must be settled by delivery of AT1 securities, on or about that date. Any AT1 securities delivered at settlement shall be marketable subordinated UBS Group AG debt instruments in the AT1 category having such terms and provisions consistent with the Notional Bond terms and provisions as determined by UBS Group AG in its sole discretion on or prior to the Grant Date. |

| | |
|---|---|
| Forfeiture and Vesting Provisions | Subject to the conditions set out under "Trigger Event or Viability Event", issuances under the DCCP will vest after a minimum of five years.<br><br>An outstanding unvested issuance under the DCCP will generally be forfeited and cancelled, and no further interest equivalents will generally be due or paid, due to termination of employment or harmful acts by the employee. In certain circumstances, vesting of outstanding awards under the DCCP may be subject to conditions relating to the performance of the Group and/or the employee's business division and similar conditions. In addition, with respect to any award granted to Group Executive Board members, if the Group does not generate an adjusted pre-tax profit with respect to any financial year ending during or after the year of grant, but prior to the relevant vesting date, the nominal amount of such award will be reduced by 20% of the nominal amount of such award on the relevant grant date.<br><br>In case of death or disability, an outstanding unvested issuance under the DCCP will vest on the date that the employee's employment contract terminates due to death or disability.<br><br>Vesting may be accelerated, and forfeiture provisions may be relaxed, in case of early termination of the DCCP by, or change of control in, UBS Group AG. |
| Status | In the event of the liquidation or winding up of the Issuer under circumstances that do not coincide with the occurrence of a Trigger Event or a Viability Event, the holder will have a claim ranking junior to all rights and claims of priority creditors of the Issuer (i.e., claims in respect of obligations of the Issuer (i) that are unsubordinated or (ii) that are subordinated (including Tier 2 instruments) and do not, or are expressly not stated to, rank pari passu with, or junior to, the Issuer's obligations under the DCCP or any of the Issuer's obligations ranking pari passu with the Issuer's obligations under the DCCP). |
| Governing Law | Swiss law / in certain cases, New York law |

**Exhibit 12**

CERTIFICATION UNDER SECTION 302 OF THE
SARBANES-OXLEY ACT OF 2002

I, Ralph Hamers, certify that:

1. I have reviewed this annual report on Form 20-F of UBS Group AG;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the company as of, and for, the periods presented in this report;
4. The company's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the company and have:
    a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the company, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
    b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
    c. Evaluated the effectiveness of the company's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
    d. Disclosed in this report any change in the company's internal control over financial reporting that occurred during the period covered by the annual report that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting; and
5. The company's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the company's auditors and the audit committee of the company's board of directors (or persons performing the equivalent functions):
    a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the company's ability to record, process, summarize and report financial information; and
    b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the company's internal control over financial reporting.
