1 Scope of Data to be Provided

Corporate action information for domestic (Japanese) companies listed on Japanese stock exchanges are provided through this service. Corporate actions by foreign companies and foreign products (ETF, DR, REIT, JDR and so on) are not covered.

2 Data Format

The following conditions are applied to all types of corporate action events.

- “Field Name” will be set in the first line of the CSV file.
- One byte comma is set between each field.
- Len (Length) specifies the maximum length of the data. Maximum length does not include the single bite double quotation marks described below.
- In all files, each data item is surrounded by single bite double quotation marks ("). Field names are also surrounded by(")

This format is also applied to data in which Null is set, in which case the field will appear as "" .

However, (") will not be displayed if the file is a CSV file opened in Microsoft® Excel.

*Microsoft® is a registered trademark of Microsoft® Corporation in the United States and/or other countries.
