Correction Process

As a general rule, there will be at least 5 business days between the correction notification day and the correction day.

(**) In both cases, from the modification adjustment day to the business day prior to the correction day, the index will be calculated/published based on data before such correction.

* Items subject to correction and correction day

Item subject to correction	Correction day
(1) Corporate action	Where there are at least 5 business days between the correction notification day and the last business day of the current month: Last business day of the current month Where there are less than 5 business days between the correction notification day and the last business day of the current month: Last business day of the following month Where early correction is desirable in such cases as a stock split and reverse stock split, data will be corrected as promptly as possible.
(2) Index constituent selection	Day on which there are 5 business days between the correction notification day and the correction day
(3) FFW (periodic review)	Day of next periodic FFW review
(4) Estimated dividend	Day of making minor adjustment of the estimated dividend used for the ex-dividend date
