Note 1 The Commodity Code for Securities Option shall be "the four-digit code of the underlying stock plus capital P" (as shown in the above figure).

Note 2 Even if the exercise prices are to be adjusted because of share split of the underlying stock, etc., options with then-existing exercise prices may be still listed on the market by adjusting the number of shares traded as results of exercising the options. In this case, the commodity codes for then-existing options shall be changed to "the four-digit code of underlying stock plus A" and the commodity codes for options with the adjusted exercise prices and options added afterwards with new exercise prices shall be the same as Note 1 above.

Note 3 The Commodity Code for Physical Settled Securities Option shall be "the four-digit code of the underlying stock plus capital FLP" (as shown in the above figure).

Note 4 The Commodity Code for Cash Settled Securities Option shall be "the four-digit code of the underlying stock plus capital FLCP" (as shown in the above figure).

Note 5 Records regarding the ceased trading of RN Prime Index Futures will be recorded for the time being.

Note 6 How to set the week number of Nikkei 225 mini Options Wednesday contracts

The week number of Wednesday contracts is determined based on the week number of Friday contracts that fall within the same month and also the same week. Here are the specific guidelines:

Case 1: For Nikkei 225 mini Options expiring on July 3, 2024 (Wednesday)

As the Nikkei 225 mini Options expiring on July 5, 2024 (Friday) are the first week contracts, the Commodity Code of the Wednesday contracts expiring on July 3, 2024 (Wednesday) is NK225C1

Case 2: For Nikkei 225 mini Options expiring on August 7, 2024 (Wednesday)

As the Nikkei 225 mini Options expiring on August 9, 2024 (Friday) are the second week contracts, the Commodity Code of the Wednesday contracts expiring on August 7, 2024 (Wednesday) is NK225C2

In a month that falls under this example, there will be no code assigned to represent the first week for Wednesday contracts.

However, if Wednesday and Friday in the same week belong to different months, the week number of Wednesday contracts will be determined based on the week number of the previous week's contract. Here's an example:

Case 3: For Nikkei 225 mini Options expiring on July 31, 2024 (Wednesday)

As the Friday contracts of the same week are the first week contracts of the following month, the Commodity Code of the Nikkei 225 mini Options expiring on July 31, 2024 (Wednesday) is NK225C5 (The week number of the Nikkei 225 mini Options expiring in the previous week is 4 (the fourth week contracts), the July 31 contracts will be the fifth week contracts.)

Codes applicable for Add-on Charge Parameter File

As of May, 2025
