will be effective from November 2024

VaR Margin Amount by Issue File Specifications

# Version	Date	Item	Page	Description of Revision
−	2022/6/24	−	−	First release
Nov. 2022	2022/11/1	3. File Format	−	Corrected an error in the Japanese version
Mar. 2024	2023/10/31	4. Record Structure	−	・Added the description of Contract Period Code for Electricity futures (weekly) ・Changed the product name from ″Nikkei 225 Weekly Option″ to ″Nikkei 225 Mini Option″
Nov. 2024	2024/11/5	2. Posting Location and Time	−	The time of publication has been changed.

1. File Outline
・VaR Margin for 1 short position and 1 long position is included for each instrument listing at the end of the day (EOD).
　＊VaR Margin is the amount calculated by parameter files (VPF and BPF) at EOD.

2. Posting Location and Time
・The file is posted on JSCC web site (the following URL).
　＊URL will be publsihed separately.
・The file is posted every business day around 16:45. * Posting time may change day by day depending on the situation of BPF file creation.

3. File Format
・The file name is as follows.
　All-Instruments-VaR yyyymmdd 1600.csv
　　The "yyyymmdd" part of the file name takes the date of file output.
・Data is in CSV format.
・The delimiter is a comma.

・The following applies to the character code.
　　Encoding:　　UTF-8 without BOM
　　Newline code:　CRLF
