Note 1 The Commodity Code for Securities Option shall be "the four-digit code of the underlying stock plus capital P" (as shown in the above figure).

Note 2 Even if the exercise prices are to be adjusted because of share split of the underlying stock, etc., options with then-existing exercise prices may be still listed on the market by adjusting the number of shares traded as results of exercising the options. In this case, the commodity codes for then-existing options shall be changed to "the four-digit code of underlying stock plus A" and the commodity codes for options with the adjusted exercise prices and options added afterwards with new exercise prices shall be the same as Note 1 above.

Note 3 The Commodity Code for Physical Settled Securities Option shall be "the four-digit code of the underlying stock plus capital FLP" (as shown in the above figure).

Note 4 The Commodity Code for Cash Settled Securities Option shall be "the four-digit code of the underlying stock plus capital FLCP" (as shown in the above figure).
