(Notes)

1. Issue Code shown in the first line represents ISIN code and in the second line represents Bond Issue Code (domestic code).
2. Limitation on year to maturity may be set for all or a part of the names of JGBs. "Less than 10 years" concerning the limitation on year to maturity

means that redemption day arrives on or before the corresponding day after ten (10) year from the allocation day (holidays will not be excluded. In case the corresponding day does not exist, it should be the last day of the corresponding month).

3. For all or a part of the names of JGBs included in the Basket, specific issue may be covered or excluded.

4. GX JGB represents Climate Transition Interest-bearing Government Bonds.
