<Appendix 2> Method for Calculation of Required Initial Margin Amount

1. Required Initial Margin Amount of Clearing Contract (Own Account)

The Required Initial Margin Amount of a Clearing Contract (Own Account) shall be the sum of each amount calculated for each Proprietary Transaction Account in accordance with the following formula; provided, however, if JSCC deems it necessary to do so taking the market conditions into account, JSCC may temporarily change such amount. Definitions of the terms used in the formula shall be as set forth in a. through f. after the formula:

Required Initial Margin Amount for Clearing Contract (Own Account)

= Initial Margin Base Amount
+ Short Charge
+ Bid & Offer Charge
+ Credit Event Margin
+ Single Name Margin
+ Short Charge (Itself as Reference Entity)

- a. "Initial Margin Base Amount" shall be calculated as follows:
- (a) As for each issue of Clearing Contract in each Proprietary Transaction Account, 5 day-estimated spread fluctuation value calculated based on the rate of change in day-to-day spread of each issue is calculated for last 750 JSCC Business Days starting from the date of calculation.
 - (b) As for each issue of Clearing Contract in each Proprietary Transaction Account, 10 day-estimated spread fluctuation value is calculated based on the rate of change which JSCC determines through its public notice as extremely large fluctuation.
 - (c) With the assumption that the estimated spread fluctuations set forth in (a) and (b) above take place, changes in the Net Present Value of the Clearing Contracts in each Proprietary Transaction Account are calculated.
 - (d) The total amount of the changes in the Net Present Values set forth in (c) above for all Clearing Contracts in such account is calculated respectively for each account on the date of calculation.
 - (e) Find the cases of 7 largest absolute value of the negative number in such Net Present Value and take the average of the amount of such decline to find the Initial Margin Base Amount.
- b. "Short Charge" shall be calculated as follows.
- (a) In respect of Clearing Contracts in each Proprietary Transaction Account, the net short position in respect of each Reference Entity^{*1} is calculated.
 - (b) Find the case of the largest net short position amount set forth in (a) above and multiply the ratio prescribed by JSCC in a public notice by such amount to obtain the amount of Short Charge; provided, however, that if Short Charge (Itself as Reference Entity) is applied to such Reference Entity, the amount of Short Charge shall be zero.

(*1 refers to the amount obtained by subtracting the total long Notional Amount in respect

of the relevant Reference Entity of the issue from the total short Notional Amount of such; provided that in the case specified by JSCC in a public notice, it shall be such amount related to Clearing Contracts other than 2003 Version Clearing Contracts (only when JSCC deems it necessary from risk management point of view in the situation that falls on the cases specified by JSCC in a public notice as significant deterioration of creditworthiness of such Reference Entity or upon Clearing Participants' request))

- c. "Bid & Offer Charge" shall be calculated as follows:
- (a) In respect of Clearing Contracts in each Proprietary Transaction Account, net short amount^{*2} in respect of each issue and net long amount^{*3} in respect of each issue are calculated.
 - (b) Multiply the bid & offer spread base value which JSCC determines through its public notice taking the market conditions into account to the net short amount and the net long amount set forth in (a) above and calculate the total amount of such products to obtain the Bid & Offer Charge.

(*2 refers to the amount obtained by subtracting the total long Notional Amount of Clearing Contracts in respect of an issue from the total short Notional Amount of such)

(*3 refers to the amount obtained by subtracting the total short Notional Amount of Clearing Contracts in respect of an issue from the total long Notional Amount of such)

- d. "Credit Event Margin" shall be calculated, in the case where a Credit Event in respect of a Reference Entity is determined, during the period specified by JSCC on each applicable occasion, by multiplying the ratio JSCC prescribes on each applicable occasion taking the market conditions into account by the net short amount^{*4} of the Clearing Contracts referring to such Reference Entity in each Proprietary Transaction Account.

(*4 refers to the amount obtained by subtracting the total long Notional Amount of the issue in respect of the relevant Reference Entity from the total short Notional Amount of such)

- e. "Single Name Margin" shall be calculated, in the case where a Credit Event^{*5} in respect of a Reference Entity is determined, during the period specified by JSCC on each applicable occasion, in respect of the net short amount^{*6} of the Clearing Contracts (which shall be limited only to 2003 Version Clearing Contracts: the same applies in this e.) referring to such Reference Entity in each Proprietary Transaction Account and the net long amount^{*7} of such respectively as follows:

- (a) In the case there is a net short amount in respect of the Clearing Contracts which refer to the Reference Entity for which Credit Event is determined
The Single Name Margin shall be the amount obtained by multiplying such net short amount by the ratio JSCC prescribes on each applicable occasion taking the market conditions into account
- (b) In the case there is a net long amount in respect of the Clearing Contracts which refer to the Reference Entity for which Credit Event is determined
The Single Name Margin shall be the amount equivalent to the present value of the total amount of the Fixed Amount^{*8} in respect of the Clearing Contracts

(*⁵ limited to Restructuring)

(*⁶ refers to the amount obtained by subtracting the total long Notional Amount of the issue in respect of the relevant Reference Entity from the total short Notional Amount of such)

(*⁷ refers to the amount obtained by subtracting the total short Notional Amount of the issue in respect of the relevant Reference Entity from the total long Notional Amount of such)

(*⁸ limited to those not due yet)

- f. The Short Charge (Itself as Reference Entity) shall be the amount equivalent to the Notional Amount of the net short positions of Clearing Contracts (limited to Single Name CDS Contracts) of a Clearing Participant which refer to the Clearing Participant itself as a result of a merger or for any other reason.

2. Required Initial Margin Amount in respect of Clearing Contract (Customer Account)

The Required Initial Margin Amount of a Clearing Contract (Customer Account) shall be the total amount of the amount calculated using the formula set forth in Paragraph 1 above in respect of each Customer Transaction Account. In such case, “each Proprietary Transaction Account” referred to therein shall be replaced with “each Customer Transaction Account.” Provided, however, if JSCC deems it necessary to do so taking the market conditions into account, JSCC may temporarily change such amount.

<Appendix 3> Method for Physical Settlement

1 Definitions

As used in this Appendix 3, the following terms shall have the following meanings respectively.

- (1) “PS Covered Contract” means a (i) Clearing Contract in respect of which a Credit Event Announcement relating to an applicable Credit Event (other than a Restructuring in the case of 2003 Version Clearing Contracts) has occurred, and the method of settlement has become the Fallback Settlement Method due to the occurrence of one of the events in Section 6.1 of the ISDA Credit Derivatives Definitions (or Section 12.1 of the ISDA Credit Derivatives Definitions (2003 Version) for 2003 Version Clearing Contracts), or (ii) 2003 Version Clearing contract in respect of which a Credit Event Announcement relating to a Restructuring Credit Event has occurred, an Event Determination Date has occurred as a result of the effective delivery of a Credit Event Notice by the Notifying Party and the method of settlement has become the Fallback Settlement Method due to the occurrence of one of the events in Section 12.1 of the ISDA Credit Derivatives Definitions (2003 Version).
- (2) “Applicable Deliverable Obligations” means Deliverable Obligations to be Delivered by the Matched CDS Buyer to the Matched CDS Seller under the Matched CDS Contract (defined in Item (1) c. of the following Paragraph) in accordance with its terms.

2 Physical Settlement Allocation of Buyers and Sellers

- (1) Following the occurrence of a Credit Event Announcement relating to an applicable Credit Event in respect of a Clearing Contract, JSCC will, where Physical Settlement applies as the Fallback Settlement Method to the Clearing Contract, carry out the following steps:
 - a. JSCC will, for each Clearing Participant, calculate and determine the net open position(s) for the Clearing Participant's PS Covered Contracts as follows:
 - (a) The calculation of the net open position(s) of a Clearing Participant will be made separately for (a) the PS Covered Contracts which are Clearing Contracts (Own Account) of the Clearing Participant (or, where one or more Sub-Accounts exist for the Clearing Participant, in respect of each of its Sub Accounts created under Paragraph 4 of Article 59 of the Business Rules (each a “Sub Account”), the PS Covered Contracts which are Clearing Contracts (Own Account) of the Clearing Participant belonging to each such Sub Account), and (b) the PS Covered Contracts which are Clearing Contracts (Customer Account) of each Clearing Customer of the Clearing Participant (each such net open position so determined, an “Open Position”) as follows:
 - (A) Where no Sub Accounts exist for the Clearing Participant, in respect of the Clearing Participant's PS Covered Contracts which are the Clearing Contracts (Own Account), JSCC will determine the Clearing Participant's Open Position as the difference between (x) the sum of all the Floating Rate Payer Calculation Amounts of all its

- PS Covered Contracts which are Clearing Contracts (Own Account) and in respect of which the Clearing Participant is the Buyer and (y) the sum of all the Floating Rate Payer Calculation Amounts of all its PS Covered Contracts which are Clearing Contracts (Own Account) and in respect of which the Clearing Participant is the Seller.
- (B) If one or more Sub-Accounts exist for the Clearing Participant, in respect of the Clearing Participant's PS Covered Contracts which are the Clearing Contracts (Own Account), JSCC will determine the Clearing Participant's Open Position separately for each of the Clearing Participant's Sub Accounts as the difference between (x) the sum of all the Floating Rate Payer Calculation Amounts of all its PS Covered Contracts which are Clearing Contracts (Own Account) belonging to a Sub Account and in respect of which the Clearing Participant is the Buyer and (y) the sum of all the Floating Rate Payer Calculation Amounts of all its PS Covered Contracts which are Clearing Contracts (Own Account) belonging to the same Sub Account and in respect of which the Clearing Participant is the Seller.
- (C) In respect of the Clearing Participant's PS Covered Contracts which are Clearing Contracts (Customer Account), JSCC will determine the Clearing Participant's Open Position separately for each of the Clearing Participant's Clearing Customers as the difference between (x) the sum of all the Floating Rate Payer Calculation Amounts of all its PS Covered Contracts which are the Clearing Contracts (Customer Account) and in respect of which the Clearing Participant is the Buyer for the benefit of the Clearing Customer and (y) the sum of all the Floating Rate Payer Calculation Amounts of all its PS Covered Contracts which are the Clearing Contracts (Customer Account) and in respect of which the Clearing Participant is the Seller for the benefit of the same Clearing Customer.
- (b) In respect of the Open Position of the Clearing Participant's Clearing Contracts (Own Account) (or each Open Position of the Clearing Participant for each of its Sub Accounts, if the same are opened in accordance with Paragraph 4 of Article 59 of the Business Rules), and each Open Position of the Clearing Participant's Clearing Contracts (Customer Account) for each of its Clearing Customers, JSCC will determine whether the Open Position is a net position as a protection buyer under CDS Transactions (each such Open Position, a "CDS Buyer Position" in respect of which the Clearing Participant is a "CDS Buyer") or a net position as a protection seller under CDS Transactions (each such Open Position, a "CDS Seller Position" in respect of which the Clearing Participant is the "CDS Seller") based on the result of the calculations made under (a) above.
- b. JSCC will match the CDS Seller Position(s) of each CDS Seller with the CDS Buyer Position(s) of one or more CDS Buyers (each matched CDS Buyer in respect of a CDS Buyer Position and CDS Seller in respect of a CDS Seller

Position, a “Matched Pair”) such that the CDS Seller Position(s) related to each CDS Seller are fully allocated to one or more CDS Buyers. For the avoidance of doubt, a Clearing Participant may be matched with itself in respect of (a) its Open Position in respect of its Clearing Contracts (Own Account) and an opposite Open Position of the Clearing Participant in respect of Clearing Contracts (Customer Account) for a Clearing Customer or (b) its Open Position in respect of Clearing Contracts (Customer Account) for a Clearing Customer and an opposite Open Position of the Clearing Participant in respect of Clearing Contracts (Customer Account) for another Clearing Customer (a “Self Matched Pair”). In respect of each Matched Pair JSCC will specify the amount of such Open Position matched for the purposes of such Matched Pair (the “MP Amount”). The matched CDS Buyer and CDS Seller in respect of a Matched Pair are the “Matched CDS Buyer” and “Matched CDS Seller”, respectively, in respect of such Matched Pair.

- c. As a result of the matching to form a Matched Pair, for the purposes of effecting Physical Settlement hereunder only, in respect of a Matched Pair (i) a new CDS Transaction is deemed to be entered into between JSCC as Seller and the Matched CDS Buyer under the Matched Pair as Buyer (a “Matched CDS Buyer Contract”) and (ii) a new CDS Transaction is deemed to be entered into between JSCC as Buyer and the Matched CDS Seller under the Matched Pair as Seller (a “Matched CDS Seller Contract” and together with the Matched CDS Buyer Contract, the “Matched CDS Contracts”). The Matched CDS Buyer Contract and Matched CDS Seller Contract in respect of a Matched Pair will each have a Floating Rate Payer Calculation Amount equal to the MP Amount in respect of the Matched Pair.
- d. If there is an imbalance between CDS Buyers and CDS Sellers, any unmatched CDS Buyer Position of a CDS Buyer or CDS Seller Position of a CDS Seller will be deemed to be matched with JSCC (such CDS Buyer or CDS Seller in such capacity, a “JSCC Matched CDS Buyer” or “JSCC Matched CDS Seller”, respectively). As a result of the deemed matching with JSCC, for the purposes of effecting Physical Settlement under this Appendix 3 only, either (i) a new CDS Transaction is deemed to be entered into between JSCC as Seller and the JSCC Matched CDS Buyer as Buyer (a “JSCC Matched CDS Buyer Contract”) or (ii) a new CDS Transaction is deemed to be entered into between JSCC as Buyer and the JSCC Matched CDS Seller as Seller (a “JSCC Matched CDS Seller Contract”). A JSCC Matched CDS Seller Contract or JSCC Matched CDS Buyer Contract is each referred to as a “JSCC Matched CDS Contract”, and JSCC Matched CDS Contracts and Matched CDS Contracts are hereinafter collectively referred to as “Matched CDS Contracts, etc.”. A JSCC Matched CDS Contract will have a Floating Rate Payer Calculation Amount equal to the amount of the JSCC Matched CDS Buyer’s Open Position or the JSCC Matched CDS Seller’s Open Position (as the case may be) matched with JSCC. Paragraphs 4 through 9 of this Appendix shall not apply to a JSCC Matched CDS Contract. Any JSCC Matched CDS Buyer Contract shall be directly settled between JSCC and the JSCC Matched CDS Buyer through the Fallback Settlement Method in accordance with its terms.

Any JSCC Matched CDS Seller Contract shall be directly settled between JSCC and the JSCC Matched CDS Seller through the Fallback Settlement Method in accordance with its terms.

- e. JSCC will notify each CDS Buyer and CDS Seller of the details of the Matched CDS Contracts, Matched CDS Buyer and Matched CDS Seller and the associated MP Amount, and, if applicable the details of the JSCC Matched CDS Contract and its Floating Rate Payer Calculation Amount (“Matched Pair Notice”).
- (2) When JSCC effectively delivers the Matched Pair Notice to a CDS Buyer and CDS Seller (an “Effective Matching”), the Matched CDS Contract(s) and, if applicable, the JSCC Matched CDS Contract between JSCC and such CDS Buyer or Seller, as applicable are deemed to be effectively created. All PS Covered Contracts will be terminated upon the creation of such Matched CDS Contract(s) and, if applicable, the JSCC Matched CDS Contract.
 - (3) If (1) a Credit Event Announcement has been made in respect of an applicable Credit Event, (2) settlement of the relevant Clearing Contract is to be made pursuant to the Fallback Settlement Method and (3) the JSCC’s decision results in settlement of the relevant Clearing Contracts no longer being required to be made pursuant to the Fallback Settlement Method, then to the extent that JSCC has not by then effectively delivered the Matched Pair Notice, JSCC shall not do so.

3 Terms of Matched CDS Contracts, etc.

- (2) such failure to pay, or failure by JSCC to pay the Physical Settlement Amount to the Matched CDS Buyer as a consequence thereof, shall not constitute a breach of contract, event of default or failure to pay by JSCC in any sense (and whether under the Business Rules, etc. or any Matched CDS Buyer Contract);
- (3) the Matched CDS Seller will be deemed to have failed to pay an amount equal to the Failed Amount to JSCC under the relevant Matched CDS Seller Contract;

The Matched CDS Buyer shall deliver a notice describing in reasonable detail the facts giving rise to such deemed illegality or impossibility to its Matched CDS Seller and JSCC.

- (2) Upon notice being given to JSCC by the Matched CDS Buyer under the preceding Item, “Cash Settlement” pursuant to the terms set out in Section 9.6 of the ISDA Credit Derivatives Definitions (or Section 9.8 of the ISDA Credit Derivatives Definitions (2003 Version) for 2003 Version Clearing Contracts) shall be deemed to apply to the Matched CDS Contracts in respect of the relevant Matched Pair related to the Non-Deliverable Obligations as though:

- (4) Any Matched CDS Seller proposing to refuse to accept Delivery as referred to in the preceding Item must give notice to JSCC and to the Matched CDS Buyer in the relevant Matched Pair without delay, specifying the Matched CDS Contract to which the refusal relates. Matched CDS Contract as of the applicable Delivery Date for such Deliverable Obligation.
